Estimated Value per Share

Inland Diversified Real Estate Trust, Inc., a Maryland corporation (referred to herein as “us,” “we,” “our” or the “Company”), is publishing an estimated per share value of our common stock, par value \$0.001 per share (“Common Stock”), to assist broker-dealers that sold our Common Stock in our initial “best efforts” public offering to comply with the rules regarding account statement reporting published by the Financial Industry Regulatory Authority, Inc. (“FINRA”). On February 21, 2014, we announced an estimated per share value of our Common Stock equal to \$10.70.

Methodology

As previously disclosed, on February 9, 2014, we entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Kite Realty Group Trust, a Maryland real estate investment trust (“Kite”), and KRG Magellan, LLC, a Maryland limited liability company and a direct wholly owned subsidiary of Kite (“Merger Sub”). The Merger Agreement provides for, upon the terms and subject to the conditions in the Merger Agreement, the merger of the Company with and into Merger Sub, with Merger Sub surviving the Merger (the “Merger”). Pursuant to the terms and subject to the conditions set forth in the Merger Agreement, at the effective time of the Merger (the “Merger Effective Time”), each outstanding share of our Common Stock (other than shares owned by Kite, any subsidiary of Kite, or any wholly owned subsidiary of the Company) will be converted into the right to receive shares of beneficial interest of Kite, par value \$0.01 per share (“Kite Common Shares”), based on:

an exchange ratio of 1.707 Kite Common Shares for each share of Common Stock if the volume-weighted average trading price of Kite Common Shares for the ten consecutive trading days ending on the third trading day preceding the Company’s stockholder meeting to approve the Merger (the “Reference Price”) is equal to or less than \$6.36;  
a floating exchange ratio if the Reference Price is more than \$6.36 or less than \$6.58 (with such floating exchange ratio being determined by dividing \$10.85 by the Reference Price); and  
an exchange ratio of 1.650 Kite Common Shares for each share of Common Stock if the Reference Price is \$6.58 or greater.

At a meeting of our board of directors held on February 19, 2014, our board of directors, including our independent directors, adopted an estimated per share value of our Common Stock as of February 18, 2014 of \$10.70. The \$10.70 estimated per share value was determined by multiplying (i) the final closing price of the Kite Common Shares on February 18, 2014 of \$6.27 per share by (ii) the exchange ratio of 1.707 Kite Common Shares for each share of Common Stock, which is the exchange ratio that would be applied at the Merger Effective Time if the Reference Price (calculated based on the ten day volume-weighted average trading price of Kite Common Shares described above) was equal to the \$6.27 per share closing price of the Kite Common Shares on February 18, 2014. In accordance with the requirements of FINRA, beginning on February 21, 2014, we will make available to broker-dealers information for inclusion in the customer account statements they provide to holders of our common stock that will reference the \$10.70 estimated per share value of our Common Stock as of February 18, 2014 and also will contain other information substantially similar to the information set forth above in this Form 8-K.

#### Limitations of the Estimated Value per Share

We are providing this estimated per share value solely to assist broker-dealers in meeting their customer account statement reporting obligations. As with any methodology used to estimate value, the methodology employed by us may not be accurate or complete. The estimated per share value as of February 18, 2014 was adopted by our board of directors on February 19, 2014 and was calculated as of a moment in time based solely upon the final closing price of Kite's common shares on February 18, 2014. The trading price of the Kite Common Shares will fluctuate daily, and as a result the Reference Price (which will be calculated based on the ten day volume-weighted average trading price of Kite Common Shares described above, rather than a single day's closing price) actually used to determine the exchange ratio for our Common Stock at the Merger Effective Time may differ significantly from the assumed Reference Price of \$6.27 per share used to determine our estimated per share value as of February 18, 2014. Therefore, the estimated per share value as of February 18, 2014 most likely does not represent the actual per share value of the Kite Common Shares that our stockholders would receive pursuant to the Merger or the price that our stockholders would receive if they were able to sell their shares of our Common Stock prior to the Merger Effective Time. Stockholders should not rely on the estimated per share value in making a decision to buy or sell shares of our Common Stock.
