ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2013

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from _____ to _____
Commission File No. 001-34521

HYATT HOTELS CORPORATION
(Exact Name of Registrant as Specified in Its Charter)

Delaware 20-1480589
(State or Other Jurisdiction of (IRS Employer
Incorporation or Organization) Identification No.)

71 South Wacker Drive, 60606
12th Floor, Chicago, Illinois (Zip Code)

Registrant's telephone number, including area code: (312) 750-1234

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Class A Common Stock, \$0.01 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: Hyatt Hotels Corp - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of June 30, 2013, the aggregate market value of the registrant's Class A common stock, \$0.01 par value, held by non-affiliates of the registrant was approximately \$1,761.0 million (based upon the closing sale price of the Class A common stock on June 28, 2013 on The New York Stock Exchange). The market value of the registrant's Class B common stock is not included in the above value as there is no active market for such stock.

As of January 31, 2014, there were 43,387,819 shares of the registrant's Class A common stock, \$0.01 par value, outstanding and 112,527,463 shares of the registrant's Class B common stock, \$0.01 par value, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Part III of this Annual Report on Form 10-K incorporates by reference portions of the registrant's Proxy Statement for its 2014 Annual Meeting of Stockholders to be held on May 14, 2014.

Disclosure Regarding Forward-Looking Statements

This annual report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include statements about the Company's plans, strategies, financial performance, prospects or future events and involve known and unknown risks that are difficult to predict. As a result, our actual results, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” “likely,” “will,” “would,” or “could,” or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- the factors discussed in this annual report set forth under the sections titled “Risk Factors” in Part I, Item 1A, and “Management's Discussion and Analysis of Financial Condition and Results of Operations” in Part II, Item 7;
- general economic uncertainty in key global markets and a worsening of global economic conditions or low levels of economic growth;
- levels of spending in business and leisure segments as well as consumer confidence;
- declines in occupancy and average daily rate;
- limited visibility with respect to short and medium-term group bookings;
- loss of key personnel;
- hostilities, including future terrorist attacks, or fear of hostilities that affect travel;
- travel-related accidents;
- natural or man-made disasters such as earthquakes, tsunamis, tornados, hurricanes, floods, oil spills and nuclear incidents;
- our ability to successfully achieve certain levels of operating profits at hotels that have performance guarantees with our third-party owners;
- the impact of hotel renovations;
- our ability to successfully execute and implement our common stock repurchase program;
- the seasonal and cyclical nature of the real estate and hospitality businesses;
- changes in distribution arrangements, such as through internet travel intermediaries;
- changes in the tastes and preferences of our customers;
- relationships with associates and labor unions and changes in labor laws;
- financial condition of, and our relationships with, third-party property owners, franchisees and hospitality venture partners;
- risks associated with potential acquisitions and dispositions;
- timing of acquisitions and dispositions;
 - changes in federal, state, local or foreign tax law;
- increases in interest rates and operating costs;
- foreign exchange rate fluctuations or currency restructurings;
- lack of acceptance of new brands or innovation;
- general volatility of the capital markets and our ability to access the capital markets;
- changes in the competitive environment in our industry and the markets where we operate;
- cyber risks and information technology failures;
- outcomes of legal proceedings; and
- violations of regulations or laws related to our franchising business.

These factors are not necessarily all of the important factors that could cause our actual results, performance or achievements to differ materially from those expressed in or implied by any of our forward-looking statements. Other

Edgar Filing: Hyatt Hotels Corp - Form 10-K

unknown or unpredictable factors also could harm our results. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or assume any obligation to update publicly any of these forward-

1

Table of Contents

looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Terms Used in this Annual Report

Unless otherwise specified or the context otherwise requires, references in this annual report to “we,” “our,” “us,” “Hyatt,” “HHC,” and the “Company” refer to Hyatt Hotels Corporation and its consolidated subsidiaries.

As used in this annual report, the term “Pritzker family business interests” means (1) various lineal descendants of Nicholas J. Pritzker (deceased) and spouses and adopted children of such descendants; (2) various trusts for the benefit of the individuals described in clause (1) and trustees thereof; and (3) various entities owned and/or controlled, directly and/or indirectly, by the individuals and trusts described in (1) and (2).

As used in this annual report, the term “properties” refers to hotels that we manage, franchise, own or lease and our residential and vacation ownership units that we develop, sell and/or manage. “Hyatt portfolio of hotels” refers to properties operated under our brands, including Park Hyatt, Andaz, Hyatt, Grand Hyatt, Hyatt Regency, Hyatt Place, Hyatt House, Hyatt Ziva and Hyatt Zilara. Residential ownership units refers to residential units that we manage, provide services to or license our trademarks with respect to (such as serviced apartments and Hyatt-branded residential units), some of which we own, that are part of mixed-use projects, which are often adjacent to a full service hotel that is a member of the Hyatt portfolio of hotels. Vacation ownership units refers to the fractional and timeshare units that we develop, sell or manage that are part of the Hyatt Residence Club. Hospitality ventures refer to entities in which we own less than a 100% equity interest.

As used in this annual report, the term “associates” refers to the more than 95,000 individuals working at our corporate and regional offices and our managed, franchised and owned properties. We directly employ approximately 45,000 of these 95,000 associates. The remaining associates are employed by third-party owners and franchisees of our hotels. Hyatt®, Park Hyatt®, Andaz®, Grand Hyatt®, Hyatt Regency®, Hyatt Place®, Hyatt House®, Hyatt Ziva™, Hyatt Zilara™, Hyatt Residence Club®, Hyatt Vacation Club®, Hyatt Gold Passport®, Hyatt Resorts™ and related trademarks, logos, trade names and service marks appearing in this annual report are the property of Hyatt Corporation, a wholly owned subsidiary of Hyatt Hotels Corporation. All other trademarks, trade names or service marks appearing in this annual report are the property of their respective owners.

Table of Contents

Part I

Item 1. Business.

Our History

Hyatt was founded by Jay Pritzker in 1957 when he purchased the Hyatt House motel adjacent to the Los Angeles International Airport. In 2004 substantially all of the hospitality assets owned by Pritzker family business interests, including Hyatt Corporation and Hyatt International Corporation, were consolidated under a single entity whose name was subsequently changed to Global Hyatt Corporation. On June 30, 2009, Global Hyatt Corporation changed its name to Hyatt Hotels Corporation. Hyatt Hotels Corporation is a global hospitality company with widely recognized, industry leading brands. We completed our initial public offering of our Class A common stock on November 10, 2009.

Overview

Hyatt Hotels Corporation is a global hospitality company with widely recognized, industry leading brands and a tradition of innovation developed over our more than fifty-year history. We manage, franchise, own and develop a Hyatt portfolio of hotels, resorts and residential and vacation ownership properties around the world. As of December 31, 2013, our worldwide portfolio consisted of 548 properties (147,388 rooms and units). See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Overview" for a categorized breakdown of our portfolio.

Our full service hotels and resorts operate under five established brands, Park Hyatt, Andaz, Hyatt, Grand Hyatt and Hyatt Regency. Our two select service brands are Hyatt Place and Hyatt House, an extended stay brand. In 2013, we introduced the Hyatt Ziva and Hyatt Zilara all inclusive resort brands, which marked our entry into the all inclusive resort segment. We develop, sell or manage vacation ownership properties in select locations as part of the Hyatt Residence Club. We also manage, provide services to or license our trademarks with respect to residential ownership units that are often adjacent to a Hyatt portfolio full service hotel. We consult with third parties in the design and development of such mixed-use projects based on our expertise as a manager and owner of vacation ownership properties, residential properties and hotels.

Our associates, to whom we refer as members of the Hyatt family, are more than 95,000 individuals working at our corporate and regional offices and our managed, franchised and owned properties in 48 countries around the world. Substantially all of our hotel general managers are trained professionals in the hospitality industry with extensive hospitality experience in their local markets and host countries. The general managers of our managed properties are empowered to operate their properties on an independent basis using their market knowledge, management experience and understanding of our brands. Our associates and hotel general managers are supported by our regional management teams located in cities around the world and our executive management team, headquartered in Chicago. We primarily derive our revenues from hotel operations, management and franchise fees, other revenues from managed properties and sales of vacation ownership properties. For the years ended December 31, 2013 and 2012, revenues totaled \$4.2 billion and \$3.9 billion, respectively, net income attributable to Hyatt Hotels Corporation totaled \$207 million and \$88 million, respectively, and Adjusted EBITDA totaled \$680 million and \$606 million, respectively. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Key Business Metrics Evaluated by Management - Adjusted EBITDA" for our definition of Adjusted EBITDA, why we present it, and for a reconciliation of our consolidated Adjusted EBITDA to net income attributable to Hyatt Hotels Corporation for the periods presented. For the years ended December 31, 2013 and 2012, 78.2% and 79.5% of our revenues, respectively, were derived from operations in the United States. As of December 31, 2013, 74.4% of our long-lived assets were located in the United States. As of December 31, 2013, we had total debt of \$1.5 billion, cash and cash equivalents of \$454 million and short-term investments of \$30 million. As of December 31, 2013, we had available borrowing capacity of \$1.4 billion under our revolving credit facility. These sources provide us with significant liquidity and resources for future growth.

Corporate Realignment

Edgar Filing: Hyatt Hotels Corp - Form 10-K

On October 1, 2012 we implemented a realignment of our corporate and regional operations to enhance organizational effectiveness and adaptability. The changes are designed to facilitate innovation and further advance Hyatt toward its goal of becoming the preferred hospitality brand for our associates, guests and owners. The organizational evolution is designed to position Hyatt to adapt quickly and effectively to guest and hotel owner needs during the expansion and growth we anticipate across all of our brands in multiple markets over the next several years.

As part of the realignment, we established three operating segments: Americas management and franchising; Southeast Asia, as well as China, Australia, South Korea and Japan ("ASPAC") management and franchising; and Europe, Africa, the Middle East and Southwest Asia ("EAME/SW Asia") management. The operating segments, together with our owned and

Table of Contents

leased hotels, form our four reportable segments. The results of our vacation ownership business, Hyatt co-branded credit card and unallocated corporate overhead continue to be reported within corporate and other. See Note 20 to our consolidated financial statements included in this annual report for additional information on our segments.

Additionally, as part of our realignment, we created two new functions, the Real Estate and Capital Strategy Group and the Global Operations Center ("GOC"). The Real Estate and Capital Strategy Group, whose costs are included as part of corporate, is responsible for implementing Hyatt's overall capital strategy, managing its hotel asset base and providing support to Hyatt's development professionals around the world. The GOC, whose costs are allocated to our management and franchising businesses, is charged with ensuring that Hyatt's operating segments function according to company-wide principles and standards and enabling ongoing transformation and collaboration to ensure that we optimize our structure and resources.

Our Mission, Goal and Values

Our Mission

Our mission is to provide authentic hospitality by making a difference in the lives of the people we touch every day, including our associates, guests and owners.

Our Goal

Our goal is to be the most preferred brand in each customer segment that we serve for our associates, guests and owners.

Our Values

We aim to foster a common purpose and culture within the Hyatt family through shared core values of mutual respect, intellectual honesty and integrity, humility, fun, creativity and innovation.

Our mission, goal and values are interdependent, and we refer to this interdependence as the "Hyatt value chain." The Hyatt value chain begins with our associates. We believe that our efforts to engage our associates in planning for how we can better serve our fellow associates, guests and owners contributes to their commitment to genuine service, which is the first step to achieving high levels of guest satisfaction. In our view, motivating our associates to become personally involved in serving and demonstrating loyalty to our guests is central to fulfilling our mission. We rely upon the management teams at each of our managed properties to lead by example and we provide them with the appropriate autonomy to make operational decisions in the best interest of the hotel and brand. We believe the managers of our franchised properties are experienced operators with high standards and have demonstrated commitment to our values and our approach to guest service that is designed to enhance guest satisfaction. High levels of guest satisfaction lead to increased guest preference for our brands, which we believe results in a strengthened revenue base over the long term. We also believe that engaged associates will enhance efficient operation of our properties, resulting in improved financial results for our property owners. Sustained adherence to these principles is a basis for our brand reputation and is one of the principal factors behind the decisions by our diverse group of hotel owners and developers to invest in properties in the Hyatt portfolio of hotels around the world. We work with existing and prospective hotel owners and developers to increase our presence around the world, which we expect will lead to guest satisfaction, brand preference, and new channels for professional growth for our associates.

Our Competitive Strengths

We have significant competitive strengths that support our goal of being the most preferred brand for our associates, guests and owners.

World Class Brands. We believe that our widely recognized, industry leading brands provide us with a competitive advantage in attracting and driving preference for our associates, guests and owners. We have consistently received top rankings, awards and accolades for service and guest experience from independent publications and surveys, including Condé Nast Traveler, Travel and Leisure, Forbes and AAA (with whom more than 75 of our hotels hold four diamond status and one property holds five diamond status). Our brand recognition and strength is key to our ability to drive preference for our brands among our associates, guests and owners.

Global Platform with Compelling Growth Potential. Our existing global presence is widely distributed and we operate in 20 of the 25 most populous urban centers around the globe. We believe that our existing hotels provide us with a strong platform from which to selectively pursue new growth opportunities in markets where we are

under-represented. Our dedicated global development executives in offices around the world apply their experience, judgment and knowledge to ensure that the Hyatt portfolio of hotels enhance preference for our brands. An important aspect of our compelling growth potential is our strong brand presence in higher growth markets such as India, China, the Middle East and Brazil. The combination of our existing presence and brands, experienced

Table of Contents

development team, established third-party relationships and significant access to capital provides us with a strong foundation for future growth and long-term value creation.

Deep Culture and Experienced Management Teams. Hyatt has a strong culture rooted in values that have supported our past success and form the foundation for our future. The members of the Hyatt family are united by shared values, a common mission and a common goal. The associates at our properties are led by an experienced group of general managers. For example, the general managers at our full service owned and managed hotels have an average tenure of more than 22 years at Hyatt. Regional management teams located around the world support our hotel general managers by providing corporate resources, mentorship and coaching, owner support and other assistance necessary to help them achieve their goals. Senior operating management has an average of over 30 years of experience in the industry. Our experienced executive management team sets overall policies for our company, supports our regional teams and our associates around the world, provides strategic direction and leads our global growth initiatives.

Strong Capital Base and Disciplined Financial Approach. Our approach is to maintain appropriate levels of financial leverage through industry cycles and economic downturns. As of December 31, 2013, we had cash and cash equivalents and short-term investments of \$484 million and available borrowing capacity of \$1.4 billion. We believe that as a result of our balance sheet strength, we are uniquely positioned to take advantage of strategic opportunities to develop or acquire properties and brands. We adhere to a formal investment process in evaluating such opportunities with input from various groups within our global organization.

Diverse Exposure to Hotel Management, Franchising, Ownership and Development. We believe that our experience as a multi-brand manager, franchisor, owner and developer of hotels makes us one of the best positioned hospitality companies in the world. Our mix of managed, franchised and owned hotels provides a broad and diverse base of revenues, profits and cash flows and gives us flexibility to evaluate growth opportunities across these three lines of business.

High Quality Owned Hotels Located in Desirable Markets. As of December 31, 2013, we operate a high quality portfolio of 89 owned properties and 33 managed or franchised properties that are owned or leased by unconsolidated hospitality ventures, consisting of luxury and upper-upscale full service and upscale select service hotels in key markets. Our owned full service hotels are located primarily in key markets, including major business centers and leisure destinations with strong growth potential, such as Chicago, London, Mexico City, New York, Paris, San Francisco, Seoul and Zurich. Our hospitality ventures include 50% ownership interests in properties in Mumbai and São Paulo. A number of our owned hotels and hospitality venture properties are unique assets with high name recognition and a strong position in their local markets. In 2013, a Hyatt subsidiary acquired the hotel previously known as The Peabody Orlando, and subsequently rebranded it the Hyatt Regency Orlando, adding to our portfolio a high quality 1,641 room hotel located adjacent to one of the largest convention facilities in the U.S. In 2012, a Hyatt subsidiary acquired a full service hotel in Mexico City, giving us an asset in one of the world's most populous cities. As a significant owner of hotel assets, we believe we are well-positioned as demand strengthens, as we expect earnings growth from owned properties to outpace revenue growth at managed properties due to the fixed cost structure of operating hotels. This benefit can be achieved through increased earnings from our owned assets and through value realized from selected asset sales.

Our Business Strategy

Our goal is to be the most preferred brand in each customer segment that we serve for our associates, guests and owners. Our strategy for reaching that goal is based on differentiating Hyatt through powerful brands and innovation and generating long-term, sustainable growth for the company that will create shareholder value and opportunities for associates.

Talent and Reputation

Talent and reputation focuses on attracting, developing, rewarding and retaining individuals who distinguish Hyatt from our competitors and provide a unique experience to our guests. We recognize that our people and our culture are our greatest assets. Our goal is to grow a strong pipeline of diverse and talented colleagues and to provide them with the opportunities to fulfill their own personal potential and development while helping to make Hyatt successful.

Edgar Filing: Hyatt Hotels Corp - Form 10-K

Our brands are defined, in large part, by the authentic hospitality that our associates deliver to our guests. We believe that while a great product is necessary for success, a service model that promotes genuine service for our guests and that is focused on their particular needs is the key to a sustainable long-term advantage. Therefore, we strive to involve our associates in deciding how we serve our guests and identifying what we can do to improve guest satisfaction. We rely on our hotel general managers to lead by example and foster associate engagement. We believe that associate engagement results in higher levels of customer satisfaction and improves the performance of our properties. To assist in

6

Table of Contents

this process, we aim to ensure that talented management teams are in place worldwide and reward those teams that achieve higher levels of associate engagement, guest satisfaction and hotel financial performance.

Our reputation is a reflection of how we conduct ourselves and our business in the communities in which we live and work. One of our principal tools to enhance Hyatt's reputation is our corporate responsibility program, Hyatt Thrive. Through Hyatt Thrive initiatives we volunteer in our communities, support organizations that work in our communities, and work to reduce our waste and carbon footprint – in short, to make the communities in which we operate places where we want to live, where guests want to visit and where our owners want to invest.

Brand and Innovation

In support of our goal to be the most preferred brand in each segment we serve, and to foster quality growth, we have focused on creating a meaningful portfolio of unique brands. Our objective is to differentiate our brands both from one another, and from our competitors. We have developed a personality and identity for each brand that results in a distinct look and reflects experiences and attributes unique to that particular brand.

Successful innovation has been a hallmark of Hyatt since its founding. Hyatt has a long history of commitment to impactful architectural design in both the large-scale convention market and smaller leisure spaces. Our dedicated innovation function, with representation at the highest level of our organization, ensures we continuously probe deeper and uncover new opportunities for enhancing the guest experience in each of our brands. We launched our Hyatt Place brand in 2006 and our Andaz brand in 2007, each of which features a unique internally-developed service model. In 2011, we launched Hyatt House, a revitalized extended stay concept that was designed based on insights gained from guests who frequent extended stay hotels. In 2013, we launched Hyatt Ziva and Hyatt Zilara, two new all inclusive resort brands that were developed to ensure that the all inclusive experience reflects what guests truly want from an all inclusive stay. We have a long track record of creative approaches to food and beverage at our hotels throughout the world, and we have created profitable and sought-after venues that create and enhance demand for our hotel properties.

Hotel Profitability

A key component of our strategy is to maximize revenues and manage costs at our hotel properties. We strive to enhance revenues by focusing on increasing our share of hotel stays by our existing guests and increasing the number of new guests we serve on a regular basis, with the ultimate goal of establishing and increasing guest loyalty to our brands. We manage costs by setting performance goals for our hotel management teams, and granting our general managers operational autonomy. We support these cost management efforts by assisting our general managers with tools and analytics provided by our regional and corporate offices and by compensating our hotel management teams based on property performance.

We work to expand Hyatt's share of hotel stays by continuously striving to provide genuine guest service and delivering value to our guests. Our existing customer base is diverse with different needs and preferences. We aim to provide differentiated service and product offerings targeted at each customer segment within each of our brands, including meeting planners and convention guests, leisure guests and business travelers, in order to satisfy our customers' specific needs. We are committed to maintaining and renovating our properties over time in order to provide our customers with the level of service, comfort and authentic hospitality that they have come to expect from Hyatt.

Our Hyatt Gold Passport guest loyalty program is designed to attract new guests and to demonstrate our loyalty to our best guests. In the year ended December 31, 2013, new membership enrollment in our Hyatt Gold Passport program increased by 13.6%, bringing our total enrollment to over 16 million members. Stays by Hyatt Gold Passport members represented 34.3% of total room nights during 2013. In 2013, Hyatt Gold Passport won four Freddie Awards, including best elite travel program in the Americas and best elite travel program, best customer service and best award redemption in the Middle East/Asia/Oceania. A new relationship with M life, the rewards program of MGM Resorts International®, was launched so members can earn and redeem points at 12 locations on the Las Vegas Strip and enjoy tier reciprocity between the programs. Hyatt Gold Passport announced two new benefits for implementation in

Edgar Filing: Hyatt Hotels Corp - Form 10-K

January 2014 - Points + Cash allows members to redeem for a free night faster and My Elite Rate for diamond and platinum members offers a 20% discount on standard rooms at Hyatt locations in 2014. The Hyatt Card, a co-branded Visa credit card launched in 2010 by Hyatt and Chase Card Services, continued to show strong growth in card member acquisitions and existing member spend, in part due to card benefit enhancements introduced in the fall of 2012.

Table of Contents

Growth and Capital Strategy

We are focused on creating long-term shareholder value, and on where and how we invest to expand our presence in key locations. We believe that the scale of our presence around the world is small relative to the recognition of our brands and our excellent reputation for service and, therefore, we have a unique opportunity to grow.

Increase Market Presence. We focus our expansion efforts on under-penetrated markets where we already have an established presence and locations where our guests are traveling but where we do not have a presence. We intend to expand our presence by increasing the number of hotels under the Hyatt portfolio of hotels, primarily by entering into new management and franchising agreements. We believe our intense focus on each customer group that we serve and our understanding of how we can serve them in new locations will result in good growth. We have made significant progress in expanding our presence through development of new hotels and conversion of existing hotels over the past few years. For example, in New York City, we have expanded our presence from one property at the time of our IPO in 2009 to seven properties as of December 31, 2013 with each property either newly built or freshly renovated in recent years. Additionally, we expect the Park Hyatt hotel to open in New York City in 2014. In 2013, we announced that a Hyatt affiliate signed management agreements with affiliates of Constellation Hotels Holding Ltd., which more than doubled the number of Hyatt locations in France. The hotels, located in Paris, Cannes and Nice, converted to Hyatt brands in April 2013 and added more than 1,700 rooms to our portfolio. In 2012, a Hyatt subsidiary acquired the 755 room Hotel Nikko Mexico and rebranded the hotel as the Hyatt Regency Mexico City. As a result of this acquisition and rebranding, the Hyatt Regency brand is establishing a strong presence in Mexico City with a business and leisure hotel located in Polanco, Mexico City's most desirable area. Expansion in emerging markets like China and India is central to our international growth strategy as penetration into growing cities and resort destinations provides the Company with the opportunity to drive preference for our brands as we serve a broader base of guests in these high growth markets. As of December 31, 2013, there were approximately 80 hotels open or under development in China in key markets such as Beijing, Hong Kong, Macau, Shanghai and Shenzhen. In India, the total number of hotels open or under development was approximately 60 properties as of December 31, 2013. In addition to China and India, we have also announced further expansion plans into other key international markets including Austria, Russia, the Netherlands, Latin America and the Middle East.

Expand our Select Service Presence. We intend to expand Hyatt Place and Hyatt House, which we believe will support our overall growth and enhance the performance of all of our brands. We intend to grow our select service presence through third-party construction of new franchised properties, conversion and renovation of existing non-Hyatt properties, and in certain cases, participation in the development of new managed properties. We believe that the opportunity for properties that provide a select offering of services at a lower price point than full service hotel alternatives is particularly compelling in certain markets, including India, China and the Middle East, where there is a large and growing middle class along with a meaningful number of local business travelers. In 2012, we opened the first Hyatt Place hotels outside of the United States. As of December 31, 2013, we have four Hyatt Place hotels open outside of the U.S., operating in Armenia, Costa Rica, India and Mexico. In addition to these hotels, we have announced new management agreements for select service properties currently under development in Brazil, China, India, Mexico, Morocco, Panama, Thailand and Saudi Arabia.

Increase Focus on Franchising. We intend to increase our franchised hotel presence, primarily in the United States, for our select service brands and our Hyatt and Hyatt Regency brands. By increasing our focus on franchising, we believe that we will gain access to capital from developers and property owners that specifically target franchise business opportunities. We have an internal team dedicated to supporting our franchise owners and to driving the expansion of our franchised hotel presence. We plan to expand existing relationships and develop new relationships with franchisees who demonstrate an ability to provide excellent customer service and maintain our brand standards.

Utilize our Capital and Asset Base for Targeted Growth. The combination of our significant liquidity and strong capital position coupled with our large, high quality asset base provides a unique platform to support our growth strategy. As part of our organizational realignment in 2012, we formed a Real Estate and Capital Strategy Group in order to bring a comprehensive approach to our efforts to recycle hotel real estate assets and to manage capital deployment in furtherance of our expansion plans as described above under “-Increase Market Presence” and “-Expand

our Select Service Presence.” All capital deployment will be done with an objective to maximize long-term shareholder value and we will assess and balance liquidity, value and strategic importance in each instance. We also will continue to commit capital to fund the renovation of certain assets in our existing owned portfolio. While we will selectively dispose of hotel properties, we

Table of Contents

expect to maintain significant ownership of hotel properties over time given our focus and expertise as an owner. During 2013, we sold seven full service properties and four select service properties. In 2012, we sold eight select service properties. We entered into long-term management or franchise agreements with the purchaser of each of these properties. These asset sales are consistent with the Company's asset recycling strategy – selling certain hotels, maintaining presence in markets by entering into new management or franchise agreements, and re-investing sale proceeds into new hotels and other growth opportunities. In 2013, a wholly owned Hyatt subsidiary closed on an investment in Playa Hotels & Resorts B.V. ("Playa"). Playa was formed to own, operate and develop all inclusive resorts. This transaction provides Hyatt with a new guest base, while offering to our existing guests new resort options in sought-after destinations. Our agreement with Playa also provides us with a platform for future global growth in an attractive segment. During 2012, a Hyatt subsidiary acquired the Hotel Nikko Mexico, which we subsequently rebranded the Hyatt Regency Mexico City. We believe the introduction of the Hyatt Regency Mexico City marks an important step in expanding the presence of Hyatt branded hotels in Mexico and throughout Latin America.

Pursue Strategic Acquisitions and Alliances. We expect to continue to evaluate potential acquisitions of other brands or hospitality management or franchising companies as a part of our efforts to expand our presence. These acquisitions may include hotel real estate. We expect to focus on acquisitions that complement our ability to serve our existing customer base and enhance customer preference by providing a greater selection of locations, properties and services. Furthermore, we may pursue these opportunities in alliance with existing or prospective owners of managed or franchised properties to strengthen our brand presence. The Playa transaction is an example of an investment that allows Hyatt to increase its resort presence in Latin America and the Caribbean and create long-term value by providing a platform for future growth.

Table of Contents

Park Hyatt

Park Hyatt provides discerning, affluent individual business and leisure guests with elegant and luxurious accommodations. Guests of Park Hyatt receive gracious service and rare and intimate experiences in a thoughtfully designed contemporary environment. Located in many of the world's premier destinations, each Park Hyatt is custom designed to combine sophistication with distinctive regional character. Park Hyatt features well-appointed guestrooms, meeting and special event spaces for smaller groups, critically acclaimed art programs and signature restaurants featuring award-winning chefs.

Andaz

Each Andaz is a boutique-inspired hotel where our guests experience a vibrant yet uncomplicated atmosphere geared towards today's individual business and leisure travelers. Our Andaz hotels are designed to reflect local culture and feature a unique and innovative service model. Signature elements include Andaz lounges, which are open, communal settings replacing the traditional lobby, Andaz Studios, which are creative and inspiring spaces for small meetings and gatherings, and Andaz Hosts, who assist guests with everything from check-in to recommending and making restaurant reservations.

Hyatt

Hyatt hotels are smaller-sized properties conveniently located in diverse business and leisure areas. Associates at Hyatt hotels are knowledgeable about their community and focus on offering guests the opportunity to experience the neighborhood like a local. Hyatt hotels accommodate individual business and leisure travelers, as well as smaller scale business meetings and social gatherings.

Grand Hyatt

Grand Hyatt features distinctive hotels in major gateway cities and resort destinations. With presence around the world and critical mass in Asia, Grand Hyatt hotels provide sophisticated global business and leisure travelers with elegant accommodations, extraordinary restaurants, bars, spas and fitness centers, as well as comprehensive business and meeting facilities. Signature elements of Grand Hyatt include dramatic architecture, state of the art technology, and facilities for an array of business or social gatherings of all sizes.

Hyatt Regency

Hyatt Regency is designed to offer a full range of services and facilities tailored to serve the needs of meeting planners, business travelers and leisure guests. Hyatt Regency convention hotels feature spacious meeting and conference facilities designed to provide a productive environment allowing guests to convene and connect. Hyatt Regency hotels in resort locations cater to couples seeking a getaway, families enjoying a vacation together and corporate groups seeking a functional and relaxed atmosphere in which to conduct business and meetings.

Hyatt Place

Hyatt Place creates a modern, comfortable and seamless experience, combining style and innovation to create a casual simple hotel experience for today's multi-tasking traveler. Modern spacious guestrooms feature a Cozy Corner sofa sleeper, the Hyatt Grand Bed™ and 42" HDTV with plug and play capability. Guests stay connected with free Wi-Fi and enjoy the A.M. Kitchen Skillet™, a complimentary hot breakfast. Hyatt Place hotels also feature the new Gallery Menu, Fresh 24/7, specialty coffees, premium beer, wine and spirits. Properties typically have 125 to 200 rooms and are located in urban, airport and suburban areas. Hyatt Place caters to business travelers as well as leisure guests and families. Hyatt Place properties are also well suited to serve small meetings and events.

Hyatt House

Hyatt House was designed to create contemporary experiences in casual home comfort, providing a residential atmosphere with spaces and services to keep routines rolling while guests are away from home. Residentially inspired studio, one- and two- bedroom suites feature contemporary full kitchens and separate living and sleeping areas with flat panel HDTVs. Guests stay connected with free Wi-Fi and enjoy the complimentary hot breakfast and Evening Social, a social hour, Monday through Thursday. Some locations feature an H BAR with a Sip+Savor Menu and full bar. The all-suite hotels are located in urban, airport and suburban areas. Hyatt House caters to extended stay business and leisure travelers as well as families. Hyatt House properties are also well suited to serve small meetings and

events.

11

Table of Contents

Hyatt Ziva

Hyatt Ziva all inclusive resorts cater to vacationing guests of all ages and offer a wide variety of activities that allow them to explore the unique destinations in which the properties are located. Hyatt Ziva properties will be larger resorts catering to families and accommodating groups with varied and well-appointed meeting facilities.

Hyatt Zilara

Hyatt Zilara adult-only all inclusive resorts will be located in sought after, unique resort destinations. They will offer a wide array of food and beverage services and social activities as well a variety of meeting spaces. Properties will be medium sized where couples or small groups can enjoy intimate, sophisticated surroundings.

Hyatt Residence Club

Hyatt Residence Club provides members with vacation ownership opportunities in regionally inspired and designed residential-style properties with the quality of the Hyatt brand. Members pre-purchase time at a Hyatt Residence Club property and have the flexibility of usage, exchange and rental. Hyatt Residence Club members can choose to occupy their vacation home, to exchange time among 15 Hyatt Residence Club locations, to trade their time for Hyatt Gold Passport points or to travel within the Hyatt system. Alternatively, members can exchange their time for time at properties participating within Interval International's program, a third-party company with over 2,800 resorts in its exchange network worldwide.

Residential Ownership Units

Residential ownership units refer to residential units that we manage, provide services to or license our trademarks with respect to, such as serviced apartments and Hyatt-branded residential units, some of which we own. Many locations are near or adjacent to full service hotels that are a member of the Hyatt portfolio of hotels, while others are in unique leisure locations. Studio units feature kitchenettes, while one, two and three bedroom units contain fully equipped kitchens, dining areas and living rooms. Residents in some locations are able to utilize various nearby Hyatt hotel services.

Our Commitment to Corporate Responsibility

Hyatt's global corporate responsibility platform, Hyatt Thrive, is designed to help make our communities places where our associates want to work, our guests want to visit, our neighbors want to live and hotel owners want to invest.

Hyatt Thrive reflects our belief that no one better understands a community's most pressing issues - and their solutions - than those who live and work there. Harnessing the power of our more than 95,000 associates at 548 properties and corporate and regional offices around the world, Hyatt Thrive brings together teams of passionate people to focus on positive local efforts that create a significant global impact.

Hyatt Thrive focuses on four key pillars that we believe are essential to a thriving community:

Environmental Sustainability

Economic Development & Investment

Education & Personal Advancement and

Health & Wellness

We achieve our goals through a dual focus on environmental stewardship across our hotels, and strengthening our community impact through volunteerism, philanthropy and disaster relief. The Hyatt Thrive Foundation was established in 2013 with a \$20 million contribution from the Company to further the Company's corporate social responsibilities initiative.

Management Agreements

We manage hotels and residential properties worldwide pursuant to management agreements.

Fees

Our management agreements typically provide for a two-tiered fee structure that compensates us both for the volume of business we generate for the property as well as for the profitability of hotel operations. In these two-tier fee structures, our base compensation is a base fee that is usually an agreed upon percentage of gross revenues from hotel operations. In addition, we are incentivized to improve hotel profitability through an incentive fee that is typically calculated as a percentage of a hotel profitability measure, such as gross operating profit, adjusted profit or the amount

by which gross operating profit or adjusted profit exceeds a specified threshold. Outside of the United States our fees are often more dependent on hotel profitability

Table of Contents

measures either through a single management fee structure where the entire fee is based on a profitability measure, or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee.

Terms and Renewals

The average remaining term of our management agreements with third party owners and unconsolidated hospitality ventures for full service hotels (other than those in development) is approximately 13 years in the Americas, approximately 15 years in EAME/SW Asia and approximately 13 years in ASPAC, assuming no renewal options are exercised by either party. The average remaining term of our management agreements with third-party owners and unconsolidated hospitality ventures for select service hotels (other than those in development) is approximately 18 years, assuming no renewal options are exercised by either party.

Certain management agreements allow for extensions of the contract term by mutual agreement, or at the discretion of one of the parties. Including exercise of extension options that are in Hyatt's sole discretion and assuming in certain cases that financial performance tests have been met, the average remaining term of our management agreements is approximately 21 years for our full service hotels located in the Americas, approximately 23 years for our full service hotels located in EAME/SW Asia, approximately 16 years for our full service hotels located in ASPAC, and approximately 34 years for our select service hotels. Twenty-two select service hotels are governed under the same management agreement, which has a remaining initial term of approximately 17 years. Hyatt may elect to extend the term of this agreement for two additional fifteen-year terms.

Some of our management agreements grant early termination rights to owners of the hotels we manage upon the occurrence of a stated event, such as the sale of the hotel or our failure to meet a specified performance test.

Generally, termination rights under performance tests are based upon the property's individual performance or its performance when compared to a specified set of competitive hotels branded by other hotel operators, or both. These termination rights are usually triggered if we do not meet the performance tests over multiple years. We generally have the option to cure performance failures by paying an amount equal to the shortfall, but in some cases our cure rights may be limited and the result of our failure to meet a performance test may be the termination of our management agreement.

Many of our management agreements are subordinated to mortgages or other secured indebtedness of the owners. In the United States, most lenders have agreed to recognize our right to continue to manage the hotels under the terms set forth in the management agreements if the lenders take possession of the hotel property through foreclosure or similar means.

Franchise Agreements

Pursuant to franchise agreements, we grant our franchisees the limited right to use our name, marks and system in the operation of franchised Hyatt, Hyatt Regency, Hyatt Place, Hyatt House, Hyatt Ziva and Hyatt Zilara properties. We do not participate in the management of our franchised hotels; however, franchisees are required to operate franchised hotels consistent with our brand standards. We approve the plans for, and the location of, franchised hotels and review the operation of these hotels to ensure that our standards are maintained.

Fees

In general, our franchisees pay us an initial application fee and ongoing royalty fees, the amount of which depends on whether the franchised property is a select or full service hotel. We franchise full service hotels under the Hyatt and Hyatt Regency brands, and all inclusive hotels under the Hyatt Ziva and Hyatt Zilara brands. We franchise select service hotels under our Hyatt Place and Hyatt House brands. Application fees are typically \$60,000 for our Hyatt Place hotels, \$60,000 for our Hyatt House hotels and the greater of \$100,000 or \$300 per guest room for our full service hotels. Select service franchisees pay continuing franchise fees calculated as a percentage of gross room revenues which typically are 3% in the first year of operations, 4% in the second year and 5% through the remainder of the term. Our full service franchisees typically pay us franchise fees calculated as 6% of gross room revenues and 3% of gross food and beverage revenues, although in some circumstances we have negotiated other fee arrangements. Our all inclusive franchisees typically pay us franchise fees calculated at 2.75% of gross revenues.

In addition to our franchise fees, we charge full service franchisees for certain services arranged and provided by us. These activities include centralized reservation functions, certain sales functions, information technology, national

advertising, marketing and promotional services, as well as various accounting and insurance procurement services. We also charge select service franchisees for marketing, central reservations and technology services.

Table of Contents

Terms and Renewals

The standard term of our franchise agreements is 20 years, with one 10 year renewal option exercisable by the franchisee, assuming the franchisee has complied with franchise agreement requirements and standards. We have the right to terminate franchise agreements upon specified events of default, including non-payment of fees and non-compliance with brand standards. In the event of early termination for any reason, our franchise agreements set forth liquidated damages that our franchisees must pay to us upon termination. The bankruptcy of a franchisee or lender foreclosure could result in the termination of the franchise agreement. The average remaining base term of our franchise agreements for our select service and full service hotels (other than those in development) is approximately 16 years.

Business Segment, Revenues and Geographical Information

For information regarding our four reportable business segments, revenues and geographical information, see Note 20 to our consolidated financial statements included in this annual report.

Sales, Marketing and Reservations

Sales

We deploy a global sales team as well as regional sales teams in our Americas, ASPAC and EAME/SW Asia segments. The global team is responsible for our largest and most significant accounts doing business in all three regions. The regional teams are responsible for large accounts that typically do business within one region but at multiple hotels within the region. The global and regional sales teams coordinate efforts with the individual hotel sales teams. The in-house sales associates are focused on local and regional business opportunities, as well as securing the business generated from our key global and regional accounts.

Our corporate sales organizations are focused on growing market share with key accounts, identifying new business opportunities and maximizing our local customer base. Our key accounts consist of: major corporations; national, state and regional associations; specialty market accounts (social, government, military, educational, religious and fraternal); travel organizations; and a broad and diverse group of individual consumers. Our global and regional sales teams target multiple brands to key customer accounts within these groups. No one customer is material to our business. Our global and regional teams consist of over 180 associates focused on group business, business and leisure traveler accounts and travel agencies.

We have global and regional sales offices around the world, including in New York, Chicago, Los Angeles, Washington D.C., London, Moscow, Hong Kong, Mainz, Mumbai, Delhi, Dubai, Seoul, Shanghai, Sao Paulo, Beijing, Tokyo, Mexico City, Singapore, Jeddah, Cairo and Melbourne.

Our associates in the Americas regional sales force and in full service hotels in the Americas use Envision, our proprietary sales tool, to manage the group rooms forecast, maintain an inventory of definite and tentative group rooms booked each day, streamline the process of checking guest room availability and rate quotes, and determine meeting room availability. We also deploy approximately 15 associates in the Americas region to target the acquisition of new business with the goal of establishing new worldwide accounts.

We seek to maximize revenues in each hotel through a team of revenue management professionals. The goal of revenue management is to secure the right customers, on the right date, at the right price. Business opportunities are reviewed and agreed upon by the hotel's management team.

Marketing

Our marketing strategy is designed to maintain and build brand value and awareness while meeting the specific business needs of hotel operations. Building and differentiating each of our brands is critical to increasing Hyatt's brand preference. We are focused on targeting the distinct guest segments that each of our brands serve and supporting the needs of the hotels by thorough analysis and application of data and analytics. Hyatt Gold Passport and Hyatt.com are the key components of our marketing strategy. Hyatt Gold Passport is a service and loyalty program with a focus on driving guest satisfaction, recognition and differential services for our most loyal guests. Hyatt.com is our primary online distribution channel providing customers with an efficient source of information about our hotels and an effective booking experience.

Table of Contents

Reservations

We have a central reservation system that provides a comprehensive view of inventory, while allowing for local management of rates based on demand. Through this system, we are able to allow bookings by hotels directly, via telephone through our call centers, by travel agents, and online through Hyatt.com.

We have ten global contact centers that service our global guest base 24 hours per day, seven days per week and provide reservation services in 28 languages. While we continue to provide full reservation services via telephone through our global contact centers, we have also invested significant amounts in internet booking capabilities on Hyatt.com and through online booking partners.

In addition, some of the rooms at hotels and resorts we manage or franchise are booked through internet travel intermediaries, partners or online travel service providers. We also engage third-party intermediaries who collect fees by charging our hotels and resorts a commission on room revenues, including travel agencies and meeting and event management companies.

Hyatt Gold Passport

We operate a guest loyalty program, Hyatt Gold Passport, that generates substantial repeat guest business by rewarding frequent stays with points toward free hotel nights and other rewards.

Hyatt Gold Passport members earn points based on their spending at our properties or in connection with spending on the Hyatt Card. Hyatt Gold Passport points can be redeemed at all properties across our brands and can also be converted into airline miles with approximately 30 participating airlines.

The Hyatt Gold Passport program is funded through a contribution from eligible revenues generated from Hyatt Gold Passport members. These funds are applied to reimburse hotels for room nights where guests redeem Hyatt Gold Passport points and to pay for administrative expenses and marketing initiatives to support the program.

As of December 31, 2013, the Hyatt Gold Passport program had over 16 million members, and during 2013, Hyatt Gold Passport members represented 34.3% of total room nights.

Competition

There is intense competition in all areas of the hospitality industry. Competition exists for hotel guests, management agreements and franchise agreements and sales of vacation ownership properties and branded residential properties. Our principal competitors are other operators of full service, select service, all inclusive and extended stay properties, including other major hospitality chains with well-established and recognized brands. We also compete against small chains and independent and local owners and operators.

We compete for guests based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, amenities, quality of accommodations, security and the ability to earn and redeem loyalty program points.

We compete for management agreements based primarily on the value and quality of our management services, our brand name recognition and reputation, our ability and willingness to invest our capital in third-party owned or hospitality venture projects, the level of our management fees and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements based primarily on brand name recognition and reputation, the room rate that can be realized and total revenues we can deliver to the properties. Other competitive factors for management and franchise agreements include relationships with property owners and investors, including institutional owners of multiple properties, marketing support, reservation and e-commerce system capacity and efficiency and the ability to make investments that may be necessary to obtain management and franchise agreements.

We compete for sales of our vacation ownership properties based principally on location, quality of accommodations, price, financing terms, quality of service, flexibility of usage, opportunity to exchange into other vacation properties and brand name recognition and reputation. In addition to competing with other hotel and resort properties, our vacation ownership properties compete with national and independent vacation ownership club operators as well as with owners reselling their interests in these properties. Our ability to attract and retain purchasers of our vacation ownership properties depends on our success in distinguishing the quality and value of our vacation ownership products and services from those offered by others.

The number of branded lodging operators with a global reach and depth of product and offerings similar to us is limited. We believe that our strong customer base, prominent brand recognition, strategic property locations and global development

15

Table of Contents

team will enable us to compete effectively. For additional information, see Part I, Item 1A, “Risk Factors-Risks Related to Our Business-Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively.”

Seasonality

The hospitality industry is seasonal in nature. The periods during which our lodging properties experience higher revenues vary from property to property, depending principally upon location and the customer base served. Based upon historical results, our properties in the Americas typically generate the highest revenues in the second quarter and the lowest in the first quarter. In both ASPAC and in EAME/SW Asia, the highest revenues typically are generated in the fourth quarter with the next highest revenues generated in the second quarter.

Cyclical

The hospitality industry is cyclical and generally follows, on a lagged basis, the overall economy. There is a history of increases and decreases in demand for hotel rooms, in occupancy levels and in rates realized by owners of hotels through economic cycles. Variability of results through some of the cycles in the past has been more severe due to changes in the supply of hotel rooms in given markets or in given categories of hotels. The combination of changes in economic conditions and in the supply of hotel rooms can result in significant volatility in results for owners, managers and franchisors of hotel properties. The costs of running a hotel tend to be more fixed than variable. Because of this, in an environment of declining revenues the rate of decline in earnings will be higher than the rate of decline in revenues. Conversely, in an environment of increasing demand and room rates, the rate of increase in earnings is typically higher than the rate of increase in revenues. The vacation ownership business is also cyclical. The demand for vacation ownership units is affected by the availability and cost of financing for purchases of vacation ownership units as well as general economic conditions and the relative health of the housing market.

Intellectual Property

In the highly competitive hospitality industry in which we operate, trademarks, service marks, trade names and logos are very important in the sales and marketing of our hotels, residential and vacation ownership properties and services. We have a significant number of trademarks, service marks, trade names, logos and pending registrations, and significant resources are expended each year on surveillance, registration and protection of our trademarks, service marks, trade names and logos, which we believe have become synonymous in the hospitality industry with a reputation for excellence in service and authentic hospitality.

Government Regulation

We are subject to numerous foreign, federal, state and local government laws and regulations, including those relating to the preparation and sale of food and beverages, building and zoning requirements, data privacy and general business license and permit requirements, in the various jurisdictions in which we manage, franchise and own hotels. Our ability to develop new hotel properties and to remodel, refurbish or add to existing properties is also dependent on obtaining permits from local authorities. We are also subject to laws governing our relationships with employees, including minimum wage requirements, overtime, working conditions, hiring and firing, non-discrimination for disabilities and other individual characteristics, work permits and benefit offerings. Federal, state and provincial laws and regulations require certain registration, disclosure statements, compliance with specific standards of conduct and other practices with respect to the franchising of hotels. Additionally, the vacation ownership properties we operate are subject to local, state and federal requirements regarding the licensing of sales agents, compliance of marketing materials and numerous other requirements regarding the sale and management of vacation ownership properties. Compliance with these various laws and regulations can affect the revenues and profits of properties managed, franchised or owned and of our vacation ownership business and could adversely affect our operations. We believe that our businesses are conducted in substantial compliance with applicable laws and regulations.

We manage and own hotels with casino gaming operations as part of or adjacent to the hotels. However, with the exception of the Hyatt Regency Aruba Resort and Casino, third parties manage and operate the casinos. We hold and maintain the casino gaming license and manage the casino located at the Hyatt Regency Aruba Resort and Casino and employ third party compliance consultants and service providers. As a result, our business operations at the Hyatt

Edgar Filing: Hyatt Hotels Corp - Form 10-K

Regency Aruba Resort and Casino are subject to the licensing and regulatory control of the Departamento pa Asuntonan di Casino (D.A.C.), the regulatory agency responsible for gaming licenses and operations in Aruba.

For the year ended December 31, 2013, Hyatt engaged in certain activities that are subject to disclosure pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (“ITRSHR Act”) and Section 13(r) of the Exchange Act and which are disclosed in Exhibit 99.3 and Exhibit 99.4 to this annual report. Hyatt will be required to

Table of Contents

separately file, concurrently with this annual report, a notice that such activities have been disclosed in this annual report, which notice must also contain the information required by Section 13(r) of the Exchange Act.

Employees

As of December 31, 2013, we had approximately 45,000 employees at our corporate offices, regional offices, owned and managed hotels and residential and vacation ownership properties. Approximately 24% of those employees were either represented by a labor union or had terms of employment that were determined under a labor agreement. Some of our more than 95,000 associates are employed by certain third-party owners and franchisees of our hotels and are not included in the 45,000 figure above because we do not directly employ them. We believe relations with our employees and associates are good.

Environmental Matters

In connection with our ownership and management of hotels and development of other real properties, we are subject to various foreign, federal, state and local laws, ordinances and regulations relating to environmental protection. Under some of these laws, a current or former owner or operator of real property may be held liable for the costs of investigating or remediating hazardous or toxic substances or wastes on, under or in such real property, as well as third-party sites where the owner or operator sent wastes for disposal. Such laws may impose liability without regard to whether the owner or operator knew, or was at fault in connection with, the presence or release of such hazardous substances or wastes. Furthermore, a person who arranges for the disposal or treatment of a hazardous or toxic substance at a property owned by another, or who transports such substance to or from such property, may be liable for the costs of removal or remediation of such substance released into the environment at the disposal or treatment facility. Although we are not aware of any current material obligations for investigating or remediating hazardous substances or wastes at our owned properties, the future discovery of substances or wastes at any of our owned properties, or the failure to remediate such contaminated property properly, could adversely affect our ability to develop or sell such real estate, or to borrow using such real estate as collateral. In addition, the costs of investigating or remediating contamination, at our properties or at properties where we sent substances or wastes for disposal, may be substantial.

We are also subject to various requirements, including those contained in environmental permits required for our operations, governing air emissions, effluent discharges, the use, management and disposal of hazardous substances and wastes and health and safety. From time to time, we may be required to manage, abate or remove mold, lead or asbestos-containing materials at our properties. We believe that our properties and operations are in compliance, in all material respects, with all foreign, federal, state and local environmental laws and ordinances. However, additional operating costs and capital expenditures could be incurred if additional or more stringent requirements are enacted in the future.

Insurance

Our owned, managed and franchised hotels are insured under different insurance programs depending on participation in our insurance programs or participation in our owner or franchisee insurance programs. We maintain insurance coverage for hotels owned by the Company under our insurance programs for liability, property, workers compensation and other risks with respect to our business. Our liability insurance provides coverage for most claims, including terrorism, resulting from our operations, goods and services and automobiles. Our property insurance provides coverage for all risks to our properties including fire, windstorm, flood, earthquake and terrorism. Property insurance also includes business interruption coverage. Our workers compensation insurance provides coverage for employee injuries in the course and scope of employment. Hotels managed by the Company are permitted to participate in our insurance programs by mutual agreement with our hotel owners. The majority of our managed hotels participate in our insurance programs. Our management agreements require managed hotels that do not participate in our insurance programs to be insured at coverage levels generally consistent with the coverage levels under our insurance programs, including liability, property, business interruption, workers compensation and other insurance. We are typically covered under these insurance policies to the extent necessary and reasonable. Our franchise agreements require our franchisees to maintain liability, property, business interruption, workers compensation and other insurance at our franchised hotels. We are typically covered under these insurance policies to the extent

necessary and reasonable. We believe our insurance policies, as well as those maintained by others related to our managed and franchised hotels that do not participate in our insurance programs, are adequate for foreseeable losses and on terms and conditions that are reasonable and customary with solvent insurance carriers. We also self-insure some of our risks generally through the use of deductibles and retentions. We believe these deductibles and retentions are reasonable and customary for our industry and our size. We also use a U.S. based and licensed captive insurance company that is a wholly owned subsidiary of Hyatt Hotels Corporation and generally insures our deductibles and retentions.

Table of Contents

Stockholder Agreements

The following is a summary of the provisions of the Amended and Restated Global Hyatt Agreement, the Amended and Restated Foreign Global Hyatt Agreement and the Global Hyatt Corporation 2007 Stockholders' Agreement (the "2007 Stockholders' Agreement"). The following descriptions of these agreements do not purport to be complete and are subject to, and qualified in their entirety by, the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement and 2007 Stockholders' Agreement, copies of which have been filed with the Securities and Exchange Commission ("SEC") and are incorporated by reference herein. For additional information regarding these agreements, please also refer to Part I, Item 1A, "Risk Factors - Risks Related to Share Ownership and Stockholder Matters."

Amended and Restated Global Hyatt Agreement

The trustees of the U.S. situs trusts for the benefit of certain lineal descendants of Nicholas J. Pritzker, deceased, that own, directly or indirectly, shares of our common stock, and the adult beneficiaries of such trusts, including Mr. Thomas J. Pritzker, our executive chairman, have entered into the Amended and Restated Global Hyatt Agreement pursuant to which they have agreed to, among other things, certain voting agreements and limitations on the sale of shares of our common stock. As of January 31, 2014, Pritzker family business interests own, directly or indirectly, 87,438,396 shares, or 56.1%, of our total outstanding common stock and control approximately 74.8% of our total voting power. Specifically, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of Pritzker family members and spouses), all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers who purchase directly from other Pritzkers), will vote all of their voting securities consistent with the recommendations of our board of directors with respect to all matters assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). All Pritzkers have agreed to cast and submit by proxy to us their votes in a manner consistent with the foregoing voting agreement at least five business days prior to the scheduled date of any annual or special meeting of stockholders.

In addition, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzker family members and spouses (including U.S. and non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses or affiliates of any thereof) in a "beneficiary group" (including trusts only to the extent of the then current benefit of members of such beneficiary group) may sell up to 25% of their aggregate holdings of our common stock, measured as of November 4, 2009, the date of effectiveness of the registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock, in each 12-month period following the date of effectiveness of such registration statement (without carry-overs), and shall not sell more than such amount during any such period. Upon the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker), such 25% limitation may, with respect to each such 12 month period, be increased to a higher percentage or waived entirely. Sales of our common stock, including Class A common stock and Class B common stock, between and among Pritzkers is permitted without regard to the sale restrictions described above and such sales are not counted against the 25% sale limitation.

All shares of our common stock owned by each beneficiary group (including trusts only to the extent of the then current benefit of members of such beneficiary group) are freely pledgeable to an institutional lender and such institutional lender will not be subject to the sale restrictions described above upon default and foreclosure.

The Amended and Restated Global Hyatt Agreement may be amended, modified, supplemented or restated by the written agreement of the successors to Mr. Thomas J. Pritzker, Mr. Marshall E. Eisenberg and Mr. Karl J. Breyer,

solely in their capacity as co-trustees of the Pritzker family U.S. situs trusts, 75% of the adult beneficiaries named below and a majority of the other adult beneficiaries party to the agreement. Each of Thomas J. Pritzker, Nicholas J. Pritzker, Jennifer N. Pritzker, John A. Pritzker, Linda Pritzker, Karen L. Pritzker, Penny Pritzker, Daniel F. Pritzker, Anthony N. Pritzker, Gigi Pritzker Pucker and Jay Robert Pritzker, and their respective lineal descendants and current spouse, if relevant, make up a “beneficiary group.”

Disputes that relate to the subject matter of the Amended and Restated Global Hyatt Agreement are subject to arbitration pursuant to the terms of the agreement. The exclusive requirement to arbitrate under the Amended and Restated Global Hyatt Agreement shall not apply with respect to the manner in which Hyatt's operations are conducted to the extent the parties (in their capacities as stockholders) and non-Pritzker public stockholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party to the agreement. A party to the

Table of Contents

agreement may not solicit others to initiate or be a named plaintiff in such litigation (i) unless two thirds of the independent directors (excluding for such purposes any Pritzker) of a board of directors having at least three independent directors (excluding for such purposes any Pritzker) do not vote in favor of the matter that is the subject of the litigation or (ii) in the case of affiliated transactions reviewed by our board of directors, unless at least one independent director (excluding for such purposes any Pritzker) did not approve the transaction.

Amended and Restated Foreign Global Hyatt Agreement

The trustees of the non-U.S. situs trusts for the benefit of certain lineal descendants of Nicholas J. Pritzker, deceased, that own, directly or indirectly, shares of our common stock, and the adult beneficiaries of such trusts, including Mr. Thomas J. Pritzker, have entered into the Amended and Restated Foreign Global Hyatt Agreement pursuant to which they have agreed to, among other things, certain voting agreements and limitations on the sale of shares of our common stock. As of January 31, 2014, Pritzker family business interests own, directly or indirectly, 87,438,396 shares, or 56.1%, of our total outstanding common stock and control approximately 74.8% of our total voting power. Specifically, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers who purchase directly from other Pritzkers), will vote (or cause to be voted) all of the voting securities held directly or indirectly by them consistent with the recommendations of our board of directors with respect to all matters assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). All Pritzkers have agreed to cast and submit by proxy to us their votes in a manner consistent with the foregoing voting agreement at least five business days prior to the scheduled date of any annual or special meeting of stockholders.

In addition, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzker family members and spouses (including U.S. and non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses and/or affiliates of any thereof) in a "beneficiary group" (including trusts only to the extent of the then current benefit of members of such beneficiary group) may sell up to 25% of their aggregate holdings of our common stock, measured as of November 4, 2009, the date of effectiveness of the registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock, in each 12-month period following the date of effectiveness of such registration statement (without carry-overs), and shall not sell more than such amount during any such period. Upon the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker), such 25% limitation may, with respect to each such 12 month period, be increased to a higher percentage or waived entirely. Sales of our common stock, including Class A common stock and Class B common stock, between and among Pritzkers is permitted without regard to the sale restrictions described above and such sales are not counted against the 25% sale limitation.

All shares of our common stock owned directly or indirectly by each beneficiary group (including trusts only to the extent of the then current benefit of members of such beneficiary group) are freely pledgeable to an institutional lender and such institutional lender will not be subject to the sale restrictions described above upon default and foreclosure. The Amended and Restated Foreign Global Hyatt Agreement may be amended, modified, supplemented or restated by the written agreement of 75% of the adult beneficiaries named below and a majority of the other adult beneficiaries party to the agreement. Each of Thomas J. Pritzker, Nicholas J. Pritzker, Jennifer N. Pritzker, John A. Pritzker, Linda Pritzker, Karen L. Pritzker, Penny Pritzker, Daniel F. Pritzker, Anthony N. Pritzker, Gigi Pritzker Pucker and Jay Robert Pritzker, and their respective lineal descendants and current spouse, if relevant, make up a "beneficiary group."

Disputes that relate to the subject matter of the Amended and Restated Foreign Global Hyatt Agreement are subject to arbitration pursuant to the terms of the agreement. The exclusive requirement to arbitrate under the Amended and Restated Foreign Global Hyatt Agreement shall not apply with respect to the manner in which Hyatt's operations are conducted to the extent the parties (in their capacities as stockholders) and non-Pritzker public stockholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party to the agreement. A party to the agreement may not solicit others to initiate or be a named plaintiff in such litigation (i) unless two thirds of the independent directors (excluding for such purposes any Pritzker) of a board of directors having at least three independent directors (excluding for such purposes any Pritzker) do not vote in favor of the matter that is the subject of the litigation or (ii)

Table of Contents

in the case of affiliated transactions reviewed by our board of directors, unless at least one independent director (excluding for such purposes any Pritzker) did not approve the transaction.

2007 Stockholders' Agreement

In connection with the issuance and sale of 100,000 shares of our Series A Convertible Preferred Stock to GS Sunray Holdings, L.L.C. ("GSSH") and GS Sunray Holdings Parallel, L.L.C. ("GSSHP" and collectively with GSSH, the "Goldman Sachs Funds"), affiliates of Goldman, Sachs & Co., and the execution of a Subscription Agreement in August 2007, we entered into the 2007 Stockholders' Agreement with Madrone GHC, LLC and affiliates (collectively, "Madrone"), the Goldman Sachs Funds and an additional investor that provides for certain rights and obligations of these stockholders, including the following:

Transfer Restrictions

Other than with respect to the 6,118,275 shares of common stock received by such stockholders in the May 2009 private placement transaction (which, upon the filing of our Amended and Restated Certificate of Incorporation on November 4, 2009, were reclassified into an equal number of shares of Class B common stock), these stockholders are restricted from transferring any shares of our common stock held by them, except to us, or with the prior written consent of our board of directors, their affiliates, in limited amounts over specified time periods as described below and as otherwise permitted pursuant to the terms of the agreement. Subject to the rights of first refusal and "drag along" rights described below and provided that such transfers are accomplished by way of a broad distribution sale, following the consummation of our initial public offering on November 10, 2009, each stockholder party to the 2007 Stockholders' Agreement may transfer up to one-third of its common stock acquired under the Subscription Agreement or upon conversion of Series A Convertible Preferred Stock to unaffiliated third parties during each 365-day period beginning on the three and one-half, four and one-half and five and one-half year anniversaries of November 10, 2009, the closing date of our initial public offering. In addition, subject to the rights of first refusal and "drag along" rights described below, each of such stockholders may transfer up to one-third of its common stock acquired under the Subscription Agreement or upon conversion of Series A Convertible Preferred Stock to unaffiliated third parties (1) at any time following the end of the first calendar year during which the "existing stockholders" (as described below) owned less than 25% of our common stock at any time during such year or (2) at any time following both (a) May 13, 2011, the second anniversary of the issuance of common stock to the relevant stockholders under the Subscription Agreement or the issuance of common stock upon conversion of the Series A Convertible Preferred Stock and (b) the first date on which the applicable market value exceeds 165% of the gross price per share at which the Class A common stock was first traded in connection with our initial public offering; provided that such transfers are accomplished by way of an underwritten public offering or in an otherwise broad distribution sale. The applicable market value of the common stock exceeded 165% on December 23, 2010 and, as a result, the shares held by each of such stockholders that would have been released on the five and one-half year anniversary of November 10, 2009 were "early released" under the terms of the transfer restrictions and became eligible to be sold after May 13, 2011 as described above. Beginning on May 11, 2013 and until May 10, 2014, 6,331,270 of the remaining shares subject to the transfer restrictions set forth in the 2007 Stockholders' Agreement are eligible to be sold. Between May 11, 2014 and May 10, 2015, 6,331,271 of the remaining shares subject to the transfer restrictions set forth in the 2007 Stockholders' Agreement will be eligible to be sold. The term "existing stockholders" is defined in the agreement to mean (i) members of the Pritzker family who are lineal descendants of Nicholas J. Pritzker, deceased, and their spouses, (ii) trusts for the benefit of such persons, and/or (iii) affiliates of any such persons listed in clauses (i) and (ii). Subject to the rights of first refusal and "drag along" rights described below, the transfer restrictions set forth in the 2007 Stockholders' Agreement expire at 11:59 p.m. (Central time) on May 11, 2015, which is the day after the date that is the five and one-half year anniversary of November 10, 2009 (the closing date of our initial public offering).

Notwithstanding the foregoing, and subject to the rights of first refusal and "drag along" rights described below, in the event that any "initial holder" (as described below) transfers all or any portion of the shares of common stock held by such initial holder as of August 28, 2007 (other than pursuant to certain permitted transfers), each stockholder party to the 2007 Stockholders' Agreement may transfer up to a pro rata portion of such stockholder's common stock; provided, however, that in any 365-day period or calendar year in which such stockholder is permitted to transfer

shares of common stock pursuant to the terms described in the preceding paragraph, such stockholder's right to transfer a pro rata portion of its common stock shall apply only to the extent that the aggregate number of shares of common stock held by initial holders as of August 28, 2007 held at the commencement of such 365-day period or calendar year by initial holders and transferred by initial holders in such 365-day period or calendar year, as a percentage of the aggregate number of shares of common stock held by the initial holders as of August 28, 2007 at the commencement of such 365-day period or calendar year, exceeds the maximum percentage of such stockholder's shares of common stock that such stockholder is permitted to sell in such 365-day period or calendar year (as described in the preceding paragraph), with the result that only such excess number of shares of common stock held by the initial holders as of August 28, 2007 and transferred by the initial holders will be taken into account in determining such stockholder's pro rata portion eligible for transfer. The rights described in this paragraph expire at 11:59 p.m. (Central time) on May 11, 2015, which is the day after the date that is the five and one-half year anniversary of November 10, 2009 (the closing

Table of Contents

date of our initial public offering). The term “initial holder” is defined in the agreement to mean (i) any of Mr. Thomas J. Pritzker, Ms. Penny Pritzker and/or Ms. Gigi Pritzker Pucker or (ii) trusts for the benefit of these individuals and/or for the benefit of their respective spouses and/or lineal descendants.

In addition, no stockholder party to the 2007 Stockholders' Agreement may transfer (1) the legal or beneficial ownership of any common stock held by such stockholder unless such acquiring person's ownership of common stock is not reasonably likely to jeopardize any licensing from a governmental authority, as determined by our board of directors in its reasonable discretion, (2) any common stock to an aggregator (meaning a person who is required to file a Schedule 13D under the Exchange Act disclosing an interest other than for investment), (3) any common stock to a competitor of ours engaged in one or more of the hospitality, lodging and/or gaming industries or (4) any common stock that would cause a stockholder to violate any provision of the agreement. Such restrictions are qualified by the “actual knowledge” of the transferring stockholder in the case of transfers pursuant to an underwritten public offering or a broad distribution sale.

Right of First Refusal

In the event that the number of shares of common stock proposed to be transferred by a stockholder party to the 2007 Stockholders' Agreement and its affiliates together with any shares of common stock then proposed to be transferred by the other stockholders party to the 2007 Stockholders' Agreement and their affiliates exceeds 2% of the then outstanding shares of common stock, then prior to consummating the sale of common stock to a third-party purchaser, such stockholder or stockholders shall offer to transfer the common stock to us at the applicable market value (as defined in the 2007 Stockholders' Agreement). If we do not accept the offer within a specified period of time, such stockholder or stockholders may transfer the shares of common stock to the third-party purchaser as long as such transfer occurs within the time periods specified in the 2007 Stockholders' Agreement and on terms and conditions no more favorable in the aggregate than those offered to us.

“Drag-Along” Right

In connection with a “change of control” (as defined in the 2007 Stockholders' Agreement) transaction, we have the right to require each stockholder party to the 2007 Stockholders' Agreement to participate in such change of control transaction on the same terms, conditions and price per share of common stock as those applicable to the other holders of our common stock. In addition, upon our request, the stockholders party to the 2007 Stockholders' Agreement have agreed to vote in favor of such change of control transaction or similar transaction, and we have the right to require each stockholder party to the 2007 Stockholders' Agreement to vote for, consent to and raise no objection to any such transaction.

“Tag-Along” Right

Subject to the fiduciary duties of our board of directors, we have agreed that we will not agree to consummate a change of control transaction with respect to which the stockholders party to the 2007 Stockholders' Agreement are not given the right to participate on the same terms, conditions and price per share of common stock as those applicable to the other holders of our common stock.

Preemptive Rights

Each stockholder party to the 2007 Stockholders' Agreement has the right to purchase such stockholder's pro rata share of any new shares of common stock, or any other equity securities, that we may propose to sell and issue on comparable terms by making an election within the time periods specified in the 2007 Stockholders' Agreement, subject to certain excluded securities issuances described in the 2007 Stockholders' Agreement, including shares issued pursuant to equity compensation plans adopted by our board of directors and the issuance of shares of our common stock in a public offering. If not all stockholders elect to purchase their full preemptive allocation of new securities, then we will notify the fully-participating stockholders and offer them the right to purchase the unsubscribed new securities.

Voting Agreement

Until the later of (1) December 31, 2013 and (2) the date that Mr. Thomas J. Pritzker is no longer our chairman, each stockholder party to the 2007 Stockholders' Agreement has agreed to vote all of their shares of common stock consistent with the recommendations of a majority of our board of directors with respect to all matters. As of January

31, 2014, the stockholders party to the 2007 Stockholders' Agreement own in the aggregate 25,112,086 shares of Class B common stock, or approximately 16.1% of the outstanding shares of our common stock and approximately 21.5% of the total voting power of our outstanding common stock.

Table of Contents

Access to Information

For so long as GS Sunray Holdings Parallel, L.L.C. owns any shares of common stock, we have agreed that GS Capital Partners VI Parallel, L.P. or its representatives may examine our books and records and visit and inspect our facilities and may reasonably request information at reasonable time and intervals concerning the general status of our financial condition and operations. Additionally, on reasonable prior notice, GS Capital Partners VI Parallel, L.P. or its representatives may discuss our business operations, properties and financial and other conditions with our management, independent accountants and investment bankers. In no event shall we be required to provide access to any information that we reasonably believe would constitute attorney/client privileged communications or would violate any securities laws.

Standstill

Under the 2007 Stockholders' Agreement, each stockholder party to the 2007 Stockholders' Agreement agreed that, subject to certain limited exceptions, so long as such stockholder owns shares of common stock, neither such stockholder nor any of its related persons will in any manner, directly or indirectly:

- effect or seek, offer or propose (whether publicly or otherwise) to effect, or announce any intention to effect or cause or participate in or in any way assist, facilitate or encourage any other person to effect or seek, offer or propose (whether publicly or otherwise) to effect or participate in, (a) any acquisition of any of our or our subsidiaries' securities (or beneficial ownership thereof) (except through the proper exercise of preemptive rights granted under the 2007 Stockholders' Agreement), or rights or options to acquire any of our or our subsidiaries' securities (or beneficial ownership thereof), or any of our or our subsidiaries' or affiliates' assets, indebtedness or businesses, (b) any tender or exchange offer, merger or other business combination involving us or any of our subsidiaries or affiliates or any assets constituting a significant portion of our consolidated assets, (c) any recapitalization, restructuring, liquidation, dissolution or other extraordinary transaction with respect to us or any of our subsidiaries or affiliates, or (d) any "solicitation" of "proxies" (as such terms are used in the proxy rules under the Exchange Act) or written consents with respect to any of our or our affiliates' voting securities. For this purpose, the term "affiliates" means our affiliates primarily engaged in the hospitality, lodging and/or gaming industries;
- form, join or in any way participate in a "group" (within the meaning of Section 13(d) of the Exchange Act) with respect to us where such group seeks to acquire any of our equity securities;
- otherwise act, alone or in concert with others, to seek representation on or to control or influence our or our subsidiaries' management, board of directors or policies;
- take any action which would or would reasonably be expected to force us to make a public announcement regarding any of the types of matters set forth in the first bullet point above;
- own more than 12% of the issued and outstanding common stock, unless such ownership arises as a result of any action not taken by or on behalf of such stockholder or a related person of such stockholder; or
- request that we or any of our representatives, directly or indirectly, amend or waive any of the foregoing provisions.

Each stockholder party to the 2007 Stockholders' Agreement has also agreed that, if at any time during the period such stockholder is subject to the foregoing provisions, such stockholder is approached by any third party concerning its participation in any transaction or proposed transaction involving the acquisition of all or any portion of the assets, indebtedness or securities of, or any business of, ours or any of our subsidiaries, such stockholder will promptly inform us of the nature of such transaction and the parties involved.

Termination

The 2007 Stockholders' Agreement terminates (1) with respect to any individual stockholder, on the first date when such stockholder no longer holds any shares of common stock and (2) in its entirety, upon the first to occur of all of our equity securities being owned by a single person or the agreement in writing by us and each stockholder party to the 2007 Stockholders' Agreement.

Our Website and Availability of SEC Reports and Other Information

The Company maintains a website at the following address: www.hyatt.com. The information on the Company's website is not incorporated by reference in this annual report.

Edgar Filing: Hyatt Hotels Corp - Form 10-K

We make available on or through our website certain reports and amendments to those reports that we file with or furnish to the SEC pursuant to Section 13(a) or 15(d) of the Exchange Act. These include our annual reports on Form 10-K, our quarterly reports on Form 10-Q and our current reports on Form 8-K. We make this information available on our website free of charge as soon as reasonably practicable after we electronically file the information with, or furnish it to, the SEC.

Table of Contents

Item 1A. Risk Factors.

In addition to the other information set forth in this annual report, you should consider carefully the risks and uncertainties described below, which could materially adversely affect our business, financial condition, results of operations and cash flows.

Risks Related to the Hospitality Industry

We are subject to macroeconomic and other factors beyond our control as well as the business, financial, operating and other risks of the hospitality industry, all of which may adversely affect our financial results and growth.

Macroeconomic and other factors beyond our control as well as the business, financial, operating and other risks of the hospitality industry can adversely affect demand for hospitality products and services. This includes demand for rooms at properties that we manage, franchise, own and develop and sales of vacation ownership properties. These factors include:

- changes and volatility in general economic conditions, including the severity and duration of any downturn in the U.S., Europe or global economy and financial markets;
- war, civil unrest, terrorist activities or threats and heightened travel security measures instituted in response to these events;
- outbreaks of pandemic or contagious diseases;
- climate change and resource scarcity, such as water and energy scarcity;
- natural or man-made disasters, such as earthquakes, tsunamis, tornados, hurricanes, floods, oil spills and nuclear incidents;
- changes in the desirability of particular locations or travel patterns of customers;
- decreased corporate budgets and spending and cancellations, deferrals or renegotiations of group business;
- low consumer confidence, high levels of unemployment and depressed housing prices;
- the financial condition of the airline, automotive and other transportation-related industries and its impact on travel;
- decreased airline capacities and routes;
- travel-related accidents;
- oil prices and travel costs;
- statements, actions or interventions by governmental officials related to travel and corporate travel-related activities, and the resulting negative public perception of such travel and activities;
- domestic and international political and geo-political conditions;
- changes in taxes and governmental regulations that influence or set wages, prices, interest rates or construction and maintenance procedures and costs;
- the costs and administrative burdens associated with compliance with applicable laws and regulations;
- changes in operating costs, including, but not limited to, energy, food, workers' compensation, benefits, insurance and unanticipated costs resulting from force majeure events;
- significant increases in cost for healthcare coverage for employees and potential government regulation with respect to health coverage;
- the lack of availability, or increase in the cost, of capital for us or our existing and potential owners;
- cyclical over-building in the hotel, all inclusive and vacation ownership industries; and
- organized labor activities, which could cause a diversion of business from hotels involved in labor negotiations and loss of group business for our hotels generally as a result of certain labor tactics.

These factors, and the reputational repercussions of these factors, can adversely affect, and from time to time have adversely affected, individual properties, particular regions or our business as a whole. How we manage any one or more of these factors, or any crisis, could limit or reduce demand, or the rates our properties are able to charge for rooms or services or the prices at which we are able to sell our vacation ownership properties, which could adversely affect our financial results and

Table of Contents

growth. These factors can also increase our costs or affect our ability to develop new properties or maintain and operate our existing properties.

The hospitality industry is cyclical and a worsening of global economic conditions or low levels of economic growth could adversely affect our revenues and profitability as well as cause a decline in or limitation of our future growth. Consumer demand for our products and services is closely linked to the performance of the general economy and is sensitive to business and personal discretionary spending levels. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence and high unemployment or adverse political conditions can lower the revenues and profitability of our owned properties and the amount of management and franchising fee revenues we are able to generate from our managed and franchised properties. In addition, expenses associated with managing, franchising or owning hotels and residential and vacation ownership properties are relatively fixed. These costs include personnel costs, interest, rent, property taxes, insurance and utilities, all of which may increase at a greater rate than our revenues and/or may not be able to be reduced at the same rate as declining revenues. Where cost-cutting efforts are insufficient to offset declines in revenues, we could experience a material decline in margins and reduced or negative cash flows. If we are unable to decrease these costs significantly or rapidly when demand for our hotels and other properties decreases, the decline in our revenues could have a particularly adverse impact on our net cash flows and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth, such as the recent economic recession. Economic downturns generally affect the results derived from owned properties more significantly than those derived from managed and franchised properties given the greater exposure that the owners have to the properties' performance. Our vacation ownership business is also linked to cycles in the general economy and consumer discretionary spending. As a result, changes in consumer demand and general business cycles can subject and have subjected our revenues to significant volatility.

Uncertainty regarding the future rate and pace of economic growth in different regions of the world makes it difficult to predict future profitability levels. Additionally, if economic weakness were to affect any particular regions of the world, it could have an adverse impact on our revenues and negatively affect our profitability.

Because we derive a portion of our revenues from operations outside the United States, the risks of doing business internationally could lower our revenues, increase our costs, reduce our profits or disrupt our business.

We currently manage, franchise or own hotels and resorts in 48 countries around the world. Our operations outside the United States represented approximately 22% of our revenues for the year ended December 31, 2013. We expect that revenues from our international operations will continue to account for an increasing portion of our total revenues.

As a result, we are subject to the risks of doing business outside the United States, including:

- the laws, regulations and policies of foreign governments relating to investments and operations, the costs or desirability of complying with local practices and customs, and the impact of various anti-corruption and other laws affecting the activities of U.S. companies abroad;
- potential negative consequences from changes in taxation policies and currency exchange rate fluctuations or currency restructurings;
- limitations/penalties on the repatriation of non-U.S. earnings;
- import and export licensing requirements and regulations, as well as unforeseen changes in regulatory requirements, including imposition of tariffs or embargoes, export regulations and controls and other trade restrictions;
- political and economic instability;
- the difficulty of managing an organization doing business in many jurisdictions;
- uncertainties as to local laws and enforcement of contract and intellectual property rights and occasional requirements for onerous contract clauses; and
- rapid changes in government, economic and political policies, political or civil unrest, acts of terrorism or the threat of international boycotts or U.S. anti-boycott legislation.

While these factors and the impact of these factors are difficult to predict, any one or more of them could lower our revenues, increase our costs, reduce our profits or disrupt our business. In addition, conducting business in currencies other than U.S. dollars subjects us to fluctuations in currency exchange rates, currency devaluations or restructurings

that could have a negative impact on our financial results. Our exposure to foreign currency exchange rate fluctuations or currency restructurings will continue to grow if the relative contribution of our operations outside the United States increases.

Table of Contents

We occasionally enter into foreign exchange hedging agreements with financial institutions to reduce certain of our exposures to fluctuations in currency exchange rates. However, these hedging agreements may not eliminate foreign currency risk entirely and involve costs and risks of their own, such as ongoing management time and expertise and external costs related to executing hedging agreements.

Risks Related to Our Business

Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively.

The segments of the hospitality industry in which we operate are subject to intense competition. Our principal competitors are other operators of full service and select service properties, including other major hospitality chains with well-established and recognized brands. Some of these major hospitality chains are larger than we are based on the number of properties or rooms they manage, franchise or own or based on the number of geographic locations in which they operate. Some of our competitors also have significantly more members participating in their guest loyalty programs which may enable them to attract more customers and more effectively retain such guests. Our competitors may also have greater financial and marketing resources than we do, which could allow them to improve their properties and expand and improve their marketing efforts in ways that could adversely affect our ability to compete for guests effectively. In addition to these larger competitors, we also compete against smaller hotel chains and independent and local hotel owners and operators.

Competition for Guests

We compete for guests at our hotels and our all inclusive properties based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, amenities, quality of accommodations, security and the ability to earn and redeem loyalty program points. In addition to competing with other hotel and resort properties, our vacation ownership properties compete with global, national and independent vacation ownership club operators as well as with owners reselling their interests in these properties.

Competition for Management and Franchise Agreements

We compete for management agreements based primarily on the value and quality of our management services, our brand name recognition and reputation, our ability and willingness to invest our capital in third-party owned or hospitality venture projects, the level of our management fees, the terms of our management agreements (including as compared to the terms our competitors offer), and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements based primarily on brand name recognition and reputation, the room rate that can be realized and royalty fees charged. Other competitive factors for management and franchise agreements are relationships with property owners and investors, availability and affordability of financing, marketing support, reservation and e-commerce system capacity and efficiency, limitations on the expansion of one or more of our brands in certain geographic areas due to restrictions previously agreed to in order to secure management and franchise opportunities, and the ability to make investments that may be necessary to obtain management and franchise agreements.

Competition for Sales of Vacation Ownership Properties

We compete for sales of our vacation ownership properties based principally on location, quality of accommodations, price, financing terms, quality of service, terms of property use, opportunity to exchange into time at other vacation properties and brand name recognition and reputation. In addition to competing with other hotel and resort properties, our vacation ownership properties compete with national and independent vacation ownership club operators as well as with owners reselling their interests in these properties, which could reduce demand or prices for new vacation ownership properties. Our ability to attract and retain qualified purchasers of our vacation ownership properties depends on our success in distinguishing the quality and value of our vacation ownership products and services from those offered by others. If we are unable to do so, our ability to compete effectively for sales of vacation ownership properties could be adversely affected.

Adverse incidents at or adverse publicity concerning our hotels or our corporate responsibilities could harm our brands and reputation as well as reduce our revenues and lower our profits.

Our brands and our reputation are among our most important assets. Our ability to attract and retain guests depends, in part, upon the external perceptions of Hyatt, the quality of our hotels and services and our corporate and management integrity. An incident involving the potential safety or security of our associates or our guests, or adverse publicity regarding safety or security at our competitors' properties or in respect of our third party vendors or owners and the industry, and any media coverage resulting therefrom, may harm our brands and reputation, cause a loss of consumer confidence in Hyatt and the industry, and negatively impact our results of operations. Additionally, our reputation could be harmed if we fail to act responsibly or are perceived as not acting responsibly or fail to or are perceived to not comply with regulatory requirements in

Table of Contents

a number of areas such as safety and security, data security, sustainability, responsible tourism, environmental management, human rights and support for local communities. The considerable expansion in the use of social media over recent years has compounded the potential scope of the negative publicity that could be generated by such incidents. Adverse incidents have occurred in the past and may occur in the future.

If we are unable to maintain good relationships with third-party property owners and franchisees and/or if we terminate agreements with defaulting third-party property owners and franchisees, our revenues could decrease and we may be unable to maintain or expand our presence.

We earn fees for managing and franchising hotels and other properties. The viability of our management and franchising business depends on our ability to establish and maintain good relationships with third-party property owners and franchisees. Third-party developers, property owners and franchisees are focused on maximizing the value of their investment and working with a management company or franchisor that can help them be successful. The effectiveness of our management, the value of our brands and the rapport that we maintain with our third-party property owners and franchisees impact renewals of existing agreements and are also important factors for existing or new third-party property owners or franchisees considering doing business with us. Our relationships with these third parties generate additional property development opportunities that support our growth. In addition, if third-party property owners or franchisees breach the terms of our agreements with them, we may elect to exercise our termination rights, which would eliminate our revenues from these properties and cause us to incur expenses related to terminating these relationships. These risks become more pronounced during economic downturns.

Contractual and other disagreements with third-party property owners or franchisees could make us liable to them or result in litigation costs or other expenses, which could lower our profits.

Our management and franchise agreements require us and third-party property owners or franchisees to comply with operational and performance conditions that are subject to interpretation and could result in disagreements.

Additionally, some courts have applied principles of agency law and related fiduciary standards to managers of third-party hotel properties like us, which means, among other things, that property owners may assert the right to terminate management agreements even where the agreements do not expressly provide for termination. In the event of any such termination, we may need to negotiate or enforce our right to damages that may not equal expected profitability over the term of the agreement.

We generally seek to resolve any disagreements with our third-party property owners or franchisees amicably. Formal dispute resolution occurs through arbitration, if provided under the applicable management or franchise agreement, or through litigation. We cannot predict the outcome of any such arbitration or litigation, the effect of any adverse judgment of a court or arbitrator against us or the amount of any settlement that we may enter into with any third party.

If our management or franchise agreements terminate prematurely or we elect to make cure payments due to failures to meet performance tests, at the request of third parties or upon the occurrence of other stated events, our revenues could decrease and our costs could increase.

Our management and franchise agreements may terminate prematurely in certain cases. Some of our management agreements provide early termination rights to owners of the hotels we manage upon the occurrence of a stated event, such as the sale of the hotel or our failure to meet a specified performance test.

Generally, termination rights under performance tests are based upon the property's individual performance, its performance when compared to a specified set of competitive hotels branded by other hotel operators, or both. Some agreements require a failure of one test, and other agreements require a failure of more than one test, before termination rights are triggered. These termination rights are usually triggered if we do not meet the performance tests over multiple years. Generally, we have the option to cure performance failures by making an agreed upon cure payment. However, our cure rights may be limited in some cases and the failure to meet the performance tests may result in the termination of our management agreement. In the past we have (1) failed performance tests, received notices of termination and elected to make cure payments and (2) failed performance tests and negotiated an alternative resolution. When any termination notice is received, we evaluate all relevant facts and circumstances at the time in deciding whether to cure. See Part IV, Item 15, "Exhibits and Financial Statement Schedules - Note 16 to the

Consolidated Financial Statements” for more information related to performance test payments. In addition, some of our management agreements give third-party property owners the right to terminate upon payment of a termination fee to us after a certain period of time or upon sale of the property or another stated event. Our franchise agreements typically require franchisees to pay a fee to us before terminating. In addition, if an owner files for bankruptcy, our management and franchise agreements may be terminable under applicable law. If a management or franchise agreement terminates, we could lose the revenues we derive from that agreement or incur costs related to ending our relationship with the third party and exiting the property.

Table of Contents

Certain of our contractual arrangements with third party owners require us to guarantee payments to the owners if specified levels of operating profit are not achieved by their hotels.

The terms of certain guarantees to hotel owners may require us to fund shortfalls if the hotels do not attain specified levels of operating profit. This guaranteed funding to hotel owners may not be recoverable to us and could lower our profits and reduce our cash flows. In January 2013, we entered into management agreements for four hotels in France and a related performance guarantee for the first seven years of the management agreements. We began managing the hotel properties in the second quarter of 2013. In connection with the inception of the performance guarantee, we recognized a liability for the fair value of our guarantee obligation within other long term liabilities on our consolidated balance sheets, with an offsetting intangible asset. The guarantee liability is estimated to be approximately €86 million, or \$118 million, as of December 31, 2013. The performance guarantee does not have an annual cap and the maximum total commitment under the performance guarantee is €377 million, or \$519 million, as of December 31, 2013. Our current expectation is that any payment under the performance guarantee in 2014 will not be significant to our liquidity. To the extent we have to fund this performance guarantee, or other performance guarantees we have entered into, it may adversely affect our financial performance and results of operations may be adversely affected.

We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions or restrict our growth strategy. Our proportion of owned properties, as compared to the number of properties that we manage or franchise for third-party owners, is larger than that of some of our competitors. Real estate ownership and leasing is subject to risks not applicable to managed or franchised properties, including:

- governmental regulations relating to real estate ownership;
- real estate, insurance, zoning, tax, environmental and eminent domain laws;
- the ongoing need for owner funded capital improvements and expenditures to maintain or upgrade properties;
- risks associated with mortgage debt, including the possibility of default, fluctuating interest rate levels and the availability of replacement financing;
- risks associated with the possibility that cost increases will outpace revenue increases and that in the event of an economic slowdown, the high proportion of fixed costs will make it difficult to reduce costs to the extent required to offset declining revenues;
- fluctuations in real estate values or potential impairments in the value of our assets; and
- the relative illiquidity of real estate compared to some other assets.

Economic and other conditions may adversely impact the valuation of our assets resulting in impairment charges that could have a material adverse impact on our results of operations and earnings.

We hold significant amounts of goodwill, intangible assets, long-lived assets and equity method investments. On a regular basis, we evaluate our assets for impairment based on various triggers, including actual operating losses and trends of expected demand and profitability, as described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates." During times of economic distress, declining demand and declining earnings often result in declining asset values. As a result, we have incurred and we may in the future incur impairment charges, which could be material and negatively affect our results of operations and earnings.

We have a limited ability to manage third-party risks associated with our hospitality venture investments, which could reduce our revenues, increase our costs, lower our profits and increase our liabilities.

We participate in numerous hospitality ventures with third parties. In the future, we may also buy and develop properties in hospitality ventures with the sellers of the properties, affiliates of the sellers, developers or other third parties. Our hospitality venture partners may have shared or majority control over the operations of our hospitality ventures. As a result, our investments in hospitality ventures involve risks that are different from the risks involved in investing in real estate independently. These risks include the possibility that our hospitality ventures or our partners:

- go bankrupt or otherwise are unable to meet their capital contribution obligations;

have economic or business interests or goals that are or become inconsistent with our business interests or goals;
are in a position to take action contrary to our instructions, our requests, our policies, our objectives or applicable laws;

27

Table of Contents

subject the property to liabilities exceeding those contemplated;
take actions that reduce our return on investment; or
take actions that harm our reputation or restrict our ability to run our business.

For these and other reasons, it could be more difficult for us to sell our interest in any hospitality venture or to pursue the venture's activities, which could reduce our ability to address any problems we may have with those properties or respond to market conditions in the future and could lead to impairments of such ventures. As a result, our investments in hospitality ventures could lead to impasses with our partners or situations that could harm the hospitality venture, which could reduce our revenues, increase our costs and lower our profits.

In addition, in conjunction with financing obtained for our unconsolidated hospitality ventures, we may provide standard indemnifications to lenders for loss, liability or damage occurring as a result of our actions or actions of the other hospitality venture owners.

If our hospitality ventures fail to provide accurate and/or timely information that is required to be included in our financial statements, we may be unable to accurately report our financial results.

Preparing our financial statements requires us to have access to information regarding the results of operations, financial position and cash flows of our hospitality ventures. Any deficiencies in our hospitality ventures' internal controls over financial reporting may affect our ability to report our financial results accurately or prevent fraud. Such deficiencies could also result in restatements of, or other adjustments to, our previously reported or announced operating results, which could diminish investor confidence and reduce the market price for our shares. Additionally, if our hospitality ventures are unable to provide this information for any meaningful period or fail to meet expected deadlines, we may be unable to satisfy our financial reporting obligations or timely file our periodic reports.

Cash distributions from our hospitality ventures could be limited by factors outside our control that could reduce our return on investment and our ability to generate liquidity from these hospitality ventures.

Although our hospitality ventures may generate positive cash flow, in some cases these hospitality ventures may be unable to distribute that cash to the hospitality venture partners. Additionally, in some cases our hospitality venture partners control distributions, and may choose to leave capital in the hospitality venture rather than distribute it. Because our ability to generate liquidity from our hospitality ventures depends on the hospitality ventures' ability to distribute capital to us, tax considerations or decisions of our hospitality venture partners could reduce our return on these investments. We include our pro rata share of Adjusted EBITDA attributable to our unconsolidated hospitality ventures in our owned and leased hotels segment Adjusted EBITDA and our consolidated Adjusted EBITDA regardless of whether the cash flow of those ventures is, or can be, distributed to us.

We may seek to expand through acquisitions of and investments in other businesses and properties, or through alliances, and we may also seek to divest some of our properties and other assets; these acquisition and disposition activities may be unsuccessful or divert our management's attention.

We intend to consider strategic and complementary acquisitions of and investments in other businesses, properties, brands or other assets. For example, in 2013 we purchased the hotel formerly known as The Peabody Orlando for approximately \$716 million. We may pursue opportunities in alliance with existing or prospective owners of managed or franchised properties. In many cases, we will be competing for these opportunities with third parties that may have substantially greater financial resources than we do. Acquisitions or investments in businesses, properties, brands or assets, as well as these alliances, are subject to risks that could affect our business, including risks related to:

issuing shares of stock that could dilute the interests of our existing stockholders;
spending cash and incurring debt;
assuming contingent liabilities;
contributing properties or related assets to hospitality ventures that could result in recognition of losses; or
creating additional expenses.

We cannot assure you that we will be able to identify opportunities or complete transactions on commercially reasonable terms or at all, or that we will actually realize any anticipated benefits from such acquisitions, investments

or alliances. There may be high barriers to entry in many key markets and scarcity of available development and investment opportunities in desirable locations. Similarly, we cannot assure you that we will be able to obtain financing for acquisitions or investments on

28

Table of Contents

attractive terms or at all, or that the ability to obtain financing will not be restricted by the terms of our revolving credit facility or other indebtedness we may incur.

The success of any such acquisitions or investments will also depend, in part, on our ability to integrate the acquisition or investment with our existing operations. We may experience difficulty with integrating acquired businesses, properties or other assets, including difficulties relating to:

- coordinating sales, distribution and marketing functions;
- integrating technology information systems; and
- preserving the important licensing, distribution, marketing, customer, labor and other relationships of the acquired assets.

Additionally, we regularly review our business to identify properties or other assets that we believe are in markets or of a property type that may not benefit us as much as other markets or property types. One of our strategies is to selectively dispose of hotel properties and use sale proceeds to fund our growth in markets and with properties that will enhance and expand our brand presence. We cannot assure you that we will be able to consummate any such sales on commercially reasonable terms or at all, or that we will actually realize any anticipated benefits from such sales. Dispositions of real estate assets can be particularly difficult in a challenging economic environment, as financing alternatives are often limited for potential buyers. The recent economic recession and the credit crisis adversely affected the real estate market and caused a contraction in the hotel transaction market. Our inability to sell assets, or to sell such assets at attractive prices, could have an adverse impact on our ability to realize proceeds for reinvestment and hinder our ability to expand our business. In addition, even if we are successful in consummating sales of selected properties, such dispositions may result in losses.

Any such acquisitions, investments, dispositions or alliances could also demand significant attention from our management that would otherwise be available for our regular business operations, which could harm our business. Timing, budgeting and other risks could result in delays or cancellations of our efforts to develop, redevelop or renovate the properties that we own, or vacation ownership developments that we undertake, or make these activities more expensive, which could reduce our profits or impair our ability to compete effectively.

We must maintain and renovate the properties that we own in order to remain competitive, maintain the value and brand standards of our properties and comply with applicable laws and regulations. We also selectively undertake ground-up construction of properties and vacation ownership developments which may span multiple phases and often take years to complete. Often these projects include joint venture partners. These efforts are subject to a number of risks, including:

- construction delays or cost overruns (including labor and materials) that may increase project costs;
- obtaining zoning, occupancy and other required permits or authorizations;
- changes in economic conditions that may result in weakened or lack of demand or negative project returns;
- governmental restrictions on the size or kind of development;
- force majeure events, including earthquakes, tornados, hurricanes, floods or tsunamis; and
- design defects that could increase costs.

Additionally, developing new properties typically involves lengthy development periods during which significant amounts of capital must be funded before the properties can begin to operate. If the cost of funding new development exceeds budgeted amounts, and/or the time period for development is longer than initially anticipated, our profits could be reduced. Further, due to the lengthy development cycle, adverse economic conditions may alter or impede our development plans, thereby resulting in incremental costs to us or potential impairment charges. Moreover, during the early stages of operations, charges related to interest expense and depreciation may substantially detract from, or even outweigh, the profitability of certain new property investments.

Similarly, the cost of funding renovations and capital improvements may exceed budgeted amounts. Additionally, the timing of renovations and capital improvements can affect, and historically has affected, property performance, including occupancy and average daily rate, particularly if we need to close a significant number of rooms or other facilities, such as ballrooms, meeting spaces or restaurants. Moreover, the investments that we make may fail to improve the performance of the properties in the manner that we expect.

Table of Contents

Some of our existing development pipeline may not be developed into new hotels, which could materially adversely affect our growth prospects.

As of December 31, 2013, our executed contract base consisted of approximately 240 hotels or approximately 54,000 rooms. The commitments of owners and developers with whom we have agreements are subject to numerous conditions, and the eventual development and construction of our pipeline not currently under construction is subject to numerous risks, including, in certain cases, obtaining governmental and regulatory approvals and adequate financing. As a result, we cannot assure you that our entire development pipeline will be completed and develop into new hotels.

If our third-party property owners, including our hospitality venture partners, are unable to repay or refinance loans secured by the mortgaged properties, our revenues, profits and capital resources could be reduced and our business could be harmed.

Many of the properties that our third-party property owners and our hospitality venture partners own are pledged as collateral for mortgage loans entered into when such properties were purchased or refinanced. If our third-party property owners or our hospitality venture partners are unable to repay or refinance maturing indebtedness on favorable terms or at all, the lenders could declare a default, accelerate the related debt and repossess the property. Any sales or repossessions could, in certain cases, result in the termination of our management agreements and eliminate anticipated income and cash flows, which could negatively affect our results of operations.

If we or our third-party owners, franchisees or development partners are unable to access the capital necessary to fund current operations or implement our plans for growth, our profits could be reduced and our ability to compete effectively could be diminished.

The hospitality industry is a capital intensive business that requires significant capital expenditures to develop, operate, maintain and renovate properties. Access to the capital that we or our third-party owners, franchisees or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues.

The availability of capital or the conditions under which we or our third-party owners, franchisees or development partners can obtain capital can have a significant impact on the overall level, cost and pace of future development and therefore the ability to grow our revenues. The most recent economic downturn caused credit markets to experience significant disruption severely reducing liquidity and credit availability. Such disruptions may diminish the ability and desire of existing and potential development partners to access capital necessary to develop properties. Our ability to access additional capital could also be limited by the terms of our revolving credit facility, which restricts our ability to incur debt under certain circumstances. Additionally, if one or more of the financial institutions that support our revolving credit facility fails, we may not be able to find a replacement, which would reduce the availability of funds that we can borrow under the facility.

If we are forced to spend larger amounts of cash from operating activities than anticipated to operate, maintain or renovate existing properties, then our ability to use cash for other purposes, including acquisition or development of properties, could be limited and our profits could be reduced. Similarly, if we cannot access the capital we need to fund our operations or implement our growth strategy, we may need to postpone or cancel planned renovations or developments, which could impair our ability to compete effectively and harm our business.

If we become liable for losses related to loans we have provided or guaranteed to third parties, our profits could be reduced.

At times, we make loans for hotel development expenditures when we enter into management or franchise agreements with third parties, including hospitality ventures. In certain circumstances we may also provide senior secured financing or subordinated forms of financing (also referred to as mezzanine financing) to third-party owners. For example, during 2012, we entered into a loan agreement to provide a \$50 million mezzanine loan for the construction of a hotel that we manage. We could suffer losses if third-party property owners or franchisees default on loans that we provide. Additionally, from time to time we will provide third-party lenders financial guarantees related to the timely repayment of all or a portion of the associated debt of certain of our unconsolidated hospitality ventures. The

guarantees may be for the full amount of the debt or may be limited to our share of the debt. In cases where the guarantee covers the full amount of the debt, we typically obtain reimbursement agreements from our partner(s) with the intent to limit our exposure to our share of the debt. See Part IV, Item 15, "Exhibits and Financial Statement Schedules - Note 7 to the Consolidated Financial Statements" for more information related to our loans and other financing arrangements.

30

Table of Contents

If purchasers default on the loans we provide to finance their purchases of our vacation ownership properties, the revenues and profits we derive from our vacation ownership business could be reduced.

We provide secured financing to some of the purchasers of our vacation ownership properties in respect of which we are subject to the risk of purchaser default. If a purchaser defaults under the financing we provide, we could be forced to write off the loan and reclaim ownership of the property. If the property has declined in value, we may incur impairment charges as a result, which may reduce our profits. In addition, we may be unable to resell the property in a timely manner or at the same price. In addition, if a purchaser of a vacation ownership property defaults on the related loan during the early part of the amortization period, we may not have recovered the marketing, selling and general and administrative costs associated with the sale of such vacation ownership property.

Our debt service obligations may adversely affect our cash flow and reduce our operational flexibility.

The terms of the indenture governing our senior notes and those of our revolving credit facility subject us to the following:

• a risk that cash flow from operations will be insufficient to meet required payments of principal and interest; restrictive covenants, including covenants related to certain financial ratios. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for further information related to restrictions under our financial covenants, and the risk that any increase in the interest rate applicable to any borrowings under our revolving credit facility could reduce our cash flows available for other corporate purposes, including investments in our portfolio, could limit our ability to refinance existing debt when it matures or could increase interest costs on any debt that is refinanced.

Although we anticipate that we will be able to repay or refinance our existing indebtedness when it matures, there can be no assurance that we will be able to do so, or that the terms of such refinancing will be favorable.

A substantial decrease in operating cash flow, consolidated EBITDA (as defined in our revolving credit facility) or a substantial increase in our expenses may make it difficult for us to meet our existing debt service requirements and restrictive covenants. As a result, we could be forced to sell assets and/or modify our operations. Our existing leverage may also impair our ability to obtain additional financing for acquisitions, working capital, capital expenditures or other purposes, if necessary, or require us to accept terms otherwise unfavorable to us.

Rating agency downgrades may increase our cost of capital.

The interest rate on borrowings and the facility fee under our revolving credit facility are determined by a pricing grid, which is dependent in part on our credit ratings by Standard & Poor's Financial Services, LLC, a subsidiary of McGraw Hill Financial, Inc. ("S&P"), and Moody's Investors Service, Inc. ("Moody's"). Lower ratings result in a higher cost of funds. Therefore, subject to any adjustments to the interest rate based on our leverage ratio, if these independent rating agencies were to downgrade our credit ratings or if we no longer have a credit rating from either agency, the cost of our borrowing and the amount of the facility fee under our revolving credit facility will increase as specified in the pricing grid. Additionally, any future downgrade of our credit ratings by the rating agencies could reduce or limit our access to capital and increase our cost of capital.

If we are unable to establish and maintain key distribution arrangements for our properties, the demand for our rooms and our revenues could fall.

Some of the rooms at hotels and resorts that we manage, franchise or own are booked through third-party internet travel intermediaries and online travel service providers. We also engage third-party intermediaries, including travel agencies and meeting and event management companies, who collect fees by charging our hotels and resorts a commission on room revenues. A failure by our distributors to attract or retain their customer bases could lower demand for hotel rooms and, in turn, reduce our revenues.

If bookings by these third-party intermediaries increase, these intermediaries may be able to obtain higher commissions or other significant contract concessions from us, increasing the overall cost of these third-party distribution channels. Some of our distribution agreements are not exclusive, have a short term, are terminable at will, or are subject to early termination provisions. The loss of distributors, increased distribution costs, or the renewal of distribution agreements on significantly less favorable terms could adversely impact our business.

Table of Contents

If the volume of sales made through third-party internet travel intermediaries increases significantly, consumer loyalty to our brand could decrease and our revenues could fall.

We expect to derive most of our business from traditional channels of distribution and our website. However, consumers now use internet travel intermediaries regularly. Some of these intermediaries are attempting to increase the importance of generic quality indicators (such as “four-star downtown hotel”) at the expense of brand identification. These agencies hope that consumers will eventually develop brand loyalties to their reservation system rather than to our brands. If the volume of sales made through internet travel intermediaries increases significantly and consumers develop stronger loyalties to these intermediaries rather than to our brands, our business and revenues could be harmed.

In addition, we co-founded Hotel JV Services, LLC, which does business as RoomKey.com, a third party website offering a metasearch engine for hotel rooms that allows customers to book rooms directly with a wide variety of suppliers. We cannot assure you that this venture will either positively impact our business or effectively compete with third party internet travel intermediaries.

If we or our third party owners are not able to maintain our current brand standards or develop new initiatives, including new brands, successfully, our business and profitability could be harmed.

We manage and franchise properties owned by third parties under the terms of management and franchise agreements. Substantially all of these agreements require third-party property owners to comply with standards that are essential to maintaining our brand integrity and reputation. We depend on third-party property owners to comply with these requirements by maintaining and improving properties through investments, including investments in furniture, fixtures, amenities and personnel. If our third-party property owners or franchisees fail to make investments necessary to maintain or improve the properties we manage or franchise, our brand preference and reputation could suffer. Moreover, third party owners or franchisees may be unwilling or unable to incur the cost of complying with brand standards for new and existing brands as such brands may evolve from time to time. As a result, we may be forced to absorb such costs to ensure that brand standards come to market in a timely fashion.

In addition, we are continually developing and launching new initiatives, including new brands or marketing programs, which can be a time-consuming and expensive process. For example, in 2007 we launched our Andaz brand, in 2012 we completed the renaming of our Hyatt Summerfield Suites extended stay brand to Hyatt House and in 2013 we unveiled our all inclusive brands: Hyatt Ziva and Hyatt Zilara. We have invested capital and resources in owned real estate, property development, brand development and brand promotion. If such initiatives are not well received by our associates, guests and owners, they may not have the intended effect. We may not be able to recover the costs incurred in developing Andaz, launching Hyatt House or other initiatives or to realize their intended or projected benefits, which could lower our profits.

Labor shortages could restrict our ability to operate our properties or grow our business or result in increased labor costs that could reduce our profits.

Our success depends in large part on our ability to attract, retain, train, manage and engage our associates. Our properties are staffed 24 hours a day, seven days a week by thousands of associates around the world. If we and our franchisees are unable to attract, retain, train and engage skilled associates, our ability to manage and staff our properties adequately could be impaired, which could reduce customer satisfaction. Staffing shortages could also hinder our ability to grow and expand our business. Because payroll costs are a major component of the operating expenses at our properties, a shortage of skilled labor could also require higher wages that would increase our labor costs, which could reduce our profits and the profits of our third-party owners.

Negotiations of collective bargaining agreements, attempts by labor organizations to organize additional groups of our associates or changes in labor laws could disrupt our operations, increase our labor costs or interfere with the ability of our management to focus on executing our business strategies.

Certain of our properties are subject to collective bargaining agreements, similar agreements or regulations enforced by governmental authorities. If relationships with our associates, other field personnel or the unions that represent them become adverse, the properties we manage, franchise or own could experience labor disruptions such as strikes, lockouts and public demonstrations. Labor disruptions, which are generally more likely when collective bargaining

agreements are being renegotiated, could harm our relationship with our associates or cause us to lose guests. Further, adverse publicity in the marketplace related to union messaging could further harm our reputation and reduce customer demand for our services. Labor regulation could lead to higher wage and benefit costs, changes in work rules that raise operating expenses, legal costs, and limitations on our ability or the ability of our third-party property owners and franchisees to take cost saving measures during economic downturns. We do not have the ability to control the negotiations of collective bargaining agreements covering unionized labor employed by third-party property owners and franchisees.

Table of Contents

We and our third-party property owners and franchisees may also become subject to additional collective bargaining agreements in the future. Potential changes in the federal regulatory scheme could make it easier for unions to organize groups of our associates. If such changes take effect, more of our associates or other field personnel could be subject to increased organizational efforts, which could potentially lead to disruptions or require more of our management's time to address unionization issues. These or similar agreements, legislation or changes in regulations could disrupt our operations, hinder our ability to cross-train and cross-promote our associates due to prescribed work rules and job classifications, reduce our profitability, or interfere with the ability of our management to focus on executing our business strategies.

The loss of our senior executives or key field personnel, such as our general managers, could significantly harm our business.

Our ability to maintain our competitive position is dependent to a large degree on the efforts and skills of our senior executives. We have entered into employment letter agreements with certain of our senior executives. However, we cannot guarantee that these individuals will remain with us. Finding suitable replacements for our senior executives could be difficult. We currently do not have a life insurance policy or key person insurance policy with respect to any of our senior executives. Losing the services of one or more of these senior executives could adversely affect our strategic relationships, including relationships with our third-party property owners, franchisees, hospitality venture partners and vendors, and limit our ability to execute our business strategies.

We also rely on the general managers at each of our owned and managed properties to run daily operations and oversee our associates. These general managers are trained professionals in the hospitality industry and have extensive experience in many markets worldwide. The failure to retain, train or successfully manage our general managers for our properties could negatively affect our operations.

Our failure to comply with applicable laws and regulations may increase our costs, reduce our profits or limit our growth.

Our business, properties and associates are subject to a variety of laws and regulations. Generally, these laws and regulations address our sales and marketing and advertising efforts, our handling of privacy issues and customer data, our anti-corruption efforts, our ability to obtain licenses for business operations such as sales of food and liquor, and matters relating to immigration, the environment, health and safety, health care, gaming, competition and trade, among other things.

Our franchising and vacation ownership businesses and our operations outside the United States are also subject to laws and regulations affecting those businesses.

Franchising

Our franchising business is subject to various state laws, as well as to regulations enacted by the Federal Trade Commission ("FTC"). A number of states require franchisors to register with the state or to make extensive disclosures to potential franchisees in connection with offers and sales in those states. The FTC also regulates the manner and substance of our disclosures to prospective franchisees. In addition, several states have "franchise relationship laws" or "business opportunity laws" that limit the ability of franchisors to terminate franchise agreements or to withhold consent to the renewal or transfer of those agreements.

Vacation Ownership

Our vacation ownership properties are subject to extensive state regulation in both the state in which the property is located and the states in which the property is marketed and sold. Our marketing for these properties is also subject to federal regulation of certain marketing practices, including federal telemarketing regulations. In addition, the laws of most states in which we sell vacation ownership interests give the purchaser the right to rescind the purchase contract within a specified time period.

International Operations

Our business operations in countries outside the United States are subject to a number of U.S. federal laws and regulations, including restrictions imposed by the Foreign Corrupt Practices Act ("FCPA") as well as trade sanctions administered by the Office of Foreign Assets Control ("OFAC") and the Commerce Department. The FCPA is intended to prohibit bribery of foreign officials or parties and requires public companies in the United States to keep

books and records that accurately and fairly reflect those companies' transactions. OFAC and the Commerce Department administer and enforce economic and trade sanctions based on U.S. foreign policy and national security goals against targeted foreign states, organizations and individuals. Some of our business operations are also subject to the laws and regulations of non-U.S. jurisdictions, including the U.K. Bribery Act and anti-corruption legislation in the countries in which we conduct operations.

Table of Contents

If we, or our hospitality ventures, fail to comply with these laws and regulations, we could be exposed to claims for damages, financial penalties, reputational harm, incarceration of our employees or restrictions on our operation or ownership of hotels and other properties, including the termination of our management, franchise and ownership rights. These restrictions could increase our costs of operations, reduce our profits or cause us to forgo development opportunities that would otherwise support our growth.

The Iran Threat Reduction and Syria Human Rights Act of 2012 could result in investigations by the U.S. Government against our Company and could harm our reputation and brands.

President Obama signed the Iran Threat Reduction and Syria Human Rights Act of 2012 (“ITRSHR Act”) on August 10, 2012, expanding sanctions against Iran and Syria. In addition, the ITRSHR Act instituted disclosure requirements in annual and quarterly reports for public companies engaged in, or affiliated with an entity engaged in, specified activities under the ITRSHR Act. A company subject to Section 219 of the ITRSHR Act must make detailed disclosures about certain activities knowingly conducted by it or any of its affiliates. In 2013, Hyatt engaged in certain activities that are subject to disclosure pursuant to Section 219 of the ITRSHR Act and Section 13(r) of the Exchange Act and which are disclosed in Exhibit 99.3 and Exhibit 99.4 to this annual report. Hyatt is required to separately file, concurrently with any ITRSHR Act disclosure, a notice that such activities have been disclosed in its quarterly or annual report filings, which notice must also contain the information required by Section 13(r) of the Exchange Act. The SEC is required to post this notice of disclosure on its website and send the report to the President and certain Congressional committees. The President thereafter is required to initiate an investigation and, within 180 days of initiating such an investigation, to determine whether sanctions should be imposed on the Company. Disclosure of such activities, even if they are not subject to sanctions under applicable law, and any sanction actually imposed on us or our affiliates as a result of these activities, could harm our reputation and brands and have a negative impact on our results of operations.

Adverse judgments or settlements resulting from legal proceedings in which we may be involved in the normal course of our business could reduce our profits or limit our ability to operate our business.

In the normal course of our business, we are often involved in various legal proceedings. The outcome of these proceedings cannot be predicted. If any of these proceedings were to be determined adversely to us or a settlement involving a payment of a material sum of money were to occur, there could be a material adverse effect on our financial condition and results of operations. Additionally, we could become the subject of future claims by third parties, including current or former third-party property owners, guests who use our properties, our employees, our investors or regulators. Any significant adverse judgments or settlements would reduce our profits and could limit our ability to operate our business. Further, we may incur costs related to claims for which we have appropriate third party indemnity, but such third parties fail to fulfill their contractual obligations.

The extensive environmental requirements to which we are subject could increase our environmental costs and liabilities, reduce our profits or limit our ability to run our business.

Our operations and the properties we manage, own and develop are subject to extensive environmental laws and regulations of various federal, state, local and foreign governments, including requirements addressing:

- health and safety;
- the use, management and disposal of hazardous substances and wastes;
- discharges of waste materials into the environment, such as refuse or sewage; and
- air emissions.

We could be subject to liability under some of these laws for the costs of investigating or remediating hazardous substances or wastes on, under, or in real property we currently or formerly manage, own or develop, or third-party sites where we sent hazardous substances or wastes for disposal. We could be held liable under these laws regardless of whether we knew of, or were at fault in connection with, the presence or release of any such hazardous or toxic substances or wastes. Some of these laws make each covered person responsible for all of the costs involved, even if more than one person may have been responsible for the contamination. Furthermore, a person who arranges for

hazardous substances or wastes to be transported, disposed of or treated offsite, such as at disposal or treatment facilities, may be liable for the costs of removal or remediation if those substances are released into the environment by third parties at such disposal or treatment facilities. The presence or release of hazardous or toxic substances or wastes, or the failure to properly clean up such materials, could cause us to incur significant costs, or jeopardize our ability to develop, use, sell or rent real property we own or operate or to borrow using such property as collateral.

Table of Contents

Other laws and regulations require us to manage, abate or remove materials containing hazardous substances such as mold, lead or asbestos during demolitions, renovations or remodeling at properties that we manage, own or develop or to obtain permits for certain of our equipment or operations. The costs of such management, abatement, removal or permitting could be substantial. Complying with these laws and regulations, or addressing violations arising under them, could increase our environmental costs and liabilities, reduce our profits or limit our ability to run our business. Existing environmental laws and regulations may be revised or new laws and regulations related to global climate change, air quality, or other environmental and health concerns may be adopted or become applicable to us. The identification of new areas of contamination, a change in the extent or known scope of contamination or changes in cleanup requirements, or the adoption of new requirements governing our operations could have a material adverse effect on our results or operations, financial condition and business.

If the insurance that we carry, our owners carry or our franchisees carry does not sufficiently cover damage or other potential losses or liabilities involving properties that we own, manage or franchise, our profits could be reduced. We, our owners and our franchisees carry insurance from solvent insurance carriers that we believe is adequate for foreseeable losses and with terms and conditions that are reasonable and customary. Nevertheless, market forces beyond our control could limit the scope of the insurance coverage that we, our owners or our franchisees can obtain or restrict our ability, our owners' ability or our franchisees' ability to buy insurance coverage at reasonable rates. In the event of a substantial loss, the insurance coverage that we carry, our owners carry or our franchisees carry may not be sufficient to pay the full value of our financial obligations, our liabilities or the replacement cost of any lost investment or property loss. In addition, there are other risks that may fall outside of the general coverage limits of our policies, may be uninsurable, or with respect to which the cost of insurance is too expensive to justify. In some cases, these factors could result in certain losses being completely uninsured. As a result, we could lose some or all of the capital we have invested in a property, as well as the anticipated future revenues, profits, management fees or incentive income from the property, we could remain obligated for performance guarantees in favor of third-party property owners or for their debt or other financial obligations, suffer an uninsured or underinsured property loss and we may not have sufficient insurance to cover awards of damages resulting from our liabilities. If the insurance that we carry, our owners carry or our franchisees carry does not sufficiently cover damages or other losses or liabilities, our profits could be adversely affected.

Any failure to protect our trademarks and intellectual property could reduce the value of our brand names and harm our business.

The reputation and perception of our brands is critical to our success in the hospitality industry. We regularly apply to register our trademarks in the United States and other countries. However, we cannot assure you that those trademark registrations will be granted or that the steps we take to protect our trademarks or intellectual property in the United States and other countries will be adequate to prevent others, including third parties or former employees, from copying or using our trademarks or intellectual property without authorization. Our intellectual property is also vulnerable to unauthorized use in some countries outside the United States, where we may not be adequately protected by local law. If our trademarks or intellectual property are copied or used without authorization, the value of our brands, their reputation, our competitive advantages and our goodwill could be harmed.

Monitoring the unauthorized use of our intellectual property is difficult. We may need to resort to litigation to enforce our intellectual property rights. Litigation of this type could be costly, force us to divert our resources, lead to counterclaims or other claims against us or otherwise harm our business.

Third-party claims that we infringe their intellectual property rights could subject us to damages and other costs and expenses.

Third parties may make claims against us for infringing their intellectual property rights. Any such claims, even those without merit, could:

- be expensive and time consuming to defend;
- force us to stop providing products or services that use the intellectual property that is being challenged;
- force us to redesign or rebrand our products or services;
- divert our management's attention and resources;

force us to enter into royalty or licensing agreements to obtain the right to use a third party's intellectual property; or
force us to pay significant damages.

35

Table of Contents

In addition, we may be required to indemnify third-party owners of the hotels we manage or franchisees for any losses they incur as a result of any such infringement claims. Any necessary royalty or licensing agreements may not be available to us on acceptable terms. Any costs, lost revenues, changes to our business or management attention related to intellectual property claims against us, whether successful or not, could impact our business.

Information technology system failures, delays in the operation of our information technology systems or system enhancement failures could reduce our revenues and profits and harm the reputation of our brands and our business. Our success depends on the efficient and uninterrupted operation of our information technology systems. For example, we depend on our central reservation system, which allows bookings by hotels directly, via telephone through our call centers, by travel agents, online through our website www.hyatt.com, and through our online reservations partners. In addition, we depend on information technology to run our day-to-day operations, including, among others, hotel services and amenities such as guest check-in and check-out, housekeeping and room service and systems for tracking and reporting our financial results and the financial results of our hotels.

Our information technology systems are vulnerable to damage or interruption from fire, floods, hurricanes, power loss, telecommunications failures, computer viruses, break-ins and similar events. The occurrence of any of these natural disasters or unanticipated problems at any of our information technology facilities or any of our call centers could cause interruptions or delays in our business or loss of data, or render us unable to process reservations.

In addition, if our information technology systems are unable to provide the information communications capacity that we need, or if our information technology systems suffer problems caused by installing system enhancements, we could experience similar failures or interruptions. If our information technology systems fail and our redundant systems or disaster recovery plans are not adequate to address such failures, or if our property and business interruption insurance does not sufficiently compensate us for any losses that we may incur, our revenues and profits could be reduced and the reputation of our brands and our business could be harmed.

Cyber risk and the failure to maintain the integrity of internal or customer data could result in faulty business decisions, harm to our reputation or subject us to costs, fines or lawsuits.

We are required to collect and retain large volumes of internal and customer data, including credit card numbers and other personally identifiable information and our various information technology systems enter, process, summarize and report such data. We also maintain personally identifiable information about our employees. We store and process such internal and customer data both at onsite facilities and at third-party owned facilities including for example, in a third-party hosted cloud environment. The integrity and protection of our customer, employee and company data is critical to our business. Our customers expect that we will adequately protect their personal information, and the regulations applicable to security and privacy are increasingly demanding, both in the United States and in other jurisdictions where we operate. We continue to develop and enhance controls to protect against, and we maintain an ongoing process which we continuously re-evaluate to identify and mitigate, the theft, loss, fraudulent or unlawful use of customer, employee or company data. We also have what we believe to be adequate and collectible insurance in the event of the theft, loss, fraudulent or unlawful use of customer, employee or company data. Notwithstanding our ongoing efforts, cyber attacks are an increasing challenge, and penetrated or compromised data system or the intentional, inadvertent or negligent release or disclosure of data could result in theft, loss, fraudulent or unlawful use of customer, employee or company data which could harm our reputation or result in remedial and other costs, fines or lawsuits and which could be in excess of any available insurance that we have procured.

If we fail to stay current with developments in technology necessary for our business, our operations could be harmed and our ability to compete effectively could be diminished.

Sophisticated information technology and other systems are instrumental for the hospitality industry, including systems used for our central reservations, revenue management, property management and our Hyatt Gold Passport program, as well as technology systems that we make available to our guests. These information technology and other systems must be refined, updated, or replaced with more advanced systems on a regular basis. Developing and maintaining these systems may require significant capital. If we are unable to replace or introduce information technology and other systems as quickly as our competitors or within budgeted costs or schedules when these systems become outdated or need replacing, or if we are unable to achieve the intended benefits of any new information

technology or other systems, our operations could be harmed and our ability to compete effectively could be diminished.

36

Table of Contents

Changes in federal, state, local or foreign tax law, interpretations of existing tax law or agreements or disputes with tax authorities could affect our profitability and financial condition by increasing our tax costs.

We are subject to taxation at the federal, state or provincial and local levels in the United States and various other countries and jurisdictions. Our future tax rates could be affected by changes in the composition of earnings in jurisdictions with differing tax rates, changes in the valuation of our deferred tax assets and liabilities, or changes in determinations regarding the jurisdictions in which we are subject to tax. From time to time the U.S. federal, state, local and foreign governments make substantive changes to tax rules and the application thereof, which could result in materially higher corporate taxes than would be incurred under existing tax law or interpretation and could adversely impact profitability. State and local tax authorities have also increased their efforts to increase revenues through changes in tax law and audits. Such changes and proposals, if enacted, could increase our future effective income tax rates. We are subject to on-going and periodic audits by the Internal Revenue Service and various state, local and foreign tax authorities and currently are engaged in disputes with certain of such tax authorities. We believe we have established adequate reserves for potential tax liabilities, but the final amount of taxes assessed and paid could exceed the amount of such reserves, which could reduce our profits.

We are a party to certain agreements with foreign tax authorities that reduce or defer the amount of tax we pay. The expiration of such agreements, or changes in circumstances or in interpretation of such agreements, could increase our tax costs.

We are exposed to counterparty and credit risk and fluctuations in the market values of our investment portfolio. All of our cash that is not required to fund our daily operating activities is invested in interest bearing investments with a greater focus placed on capital preservation than on investment return. The majority of our cash balances are held on deposit with high quality financial institutions that hold long-term ratings of at least BBB or Baa from S&P or Moody's, respectively, and in AAA-rated money market funds. As such, we are exposed to counterparty risk on our cash and cash equivalent balances at December 31, 2013. We also have established an investment account for purposes of investing a portion of our cash resources. Although we have not recognized any significant losses to date on these investments, any significant declines in their market values could materially adversely affect our financial condition and operating results. Credit ratings and pricing of these investments can be negatively affected by liquidity, credit deterioration, financial results, economic risk, political risk, sovereign risk or other factors. As a result, the value and liquidity of our investments could decline and result in a significant impairment, which could materially adversely affect our financial condition and operating results.

Risks Related to Share Ownership and Other Stockholder Matters

As a public company, we incur significant costs which may adversely affect our operating results and financial condition.

As a public company, we have incurred and will continue to incur significant legal, accounting and other expenses, including costs associated with public company reporting requirements. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We invest in resources to comply with evolving laws and regulations, and this investment may result in increased general and administrative expenses and a diversion of management's time and attention from revenue-generating activities to compliance activities. These laws and regulations could also make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers.

Our stock price is likely to be volatile, and you may not be able to resell shares of your Class A common stock at or above the price you paid.

The stock market in general, and hospitality companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of the underlying businesses. This market volatility, as well as general economic, market or political conditions, could reduce the market price of shares of our Class A common stock in spite of our operating performance. These broad market and industry factors may seriously harm the market price of our Class A common stock, regardless of our actual operating performance.

In addition to the risks described in this section, several factors that could cause the price of our Class A common stock in the public market to fluctuate significantly include, among others, the following:

- quarterly variations in our operating results compared to market expectations;
- announcements of acquisitions of or investments in other businesses and properties or dispositions;

Table of Contents

announcements of new services or products or significant price reductions by us or our competitors;
size of the public float;
future conversions to and sales of our Class A common stock by current holders of Class B common stock in the public market, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares;
stock price performance of our competitors;
fluctuations in stock market prices and volumes;
default on our indebtedness or foreclosure of our properties;
changes in senior management or key personnel;
changes in financial estimates by securities analysts;
negative earnings or other announcements by us or other hospitality companies;
downgrades in our credit ratings or the credit ratings of our competitors;
issuances or repurchases of equity or debt securities;
a decision to pay or not to pay dividends; and
global economic, legal and regulatory factors unrelated to our performance.

Volatility in the market price of our Class A common stock may prevent investors from being able to sell their Class A common stock at or above the price at which they purchased the stock. As a result, investors may suffer a loss on their investment.

Securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, reduce our profits, divert our management's attention and resources and harm our business.

Reports published by securities or industry analysts, including projections in those reports that exceed our actual results, could adversely affect our stock price and trading volume.

Securities research analysts have established and publish their own quarterly projections for our business. These projections may vary widely from one another and may not accurately predict the results we actually achieve. Our stock price may decline if our actual results do not match securities research analysts' projections. Similarly, if one or more of the analysts who writes reports on us downgrades our stock or publishes inaccurate or unfavorable research about our business, our stock price could decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, our stock price or trading volume could decline.

Anti-takeover provisions in our organizational documents and Delaware law, as well as agreements with our major stockholders, may discourage or prevent a change of control, even if a sale of Hyatt would be beneficial to our stockholders, which could cause our stock price to decline and prevent attempts by our stockholders to replace or remove our current board of directors or management.

Our amended and restated certificate of incorporation and bylaws, as well as agreements with our major stockholders, contain provisions that may make it difficult to remove our board of directors and management and may discourage or delay "change of control" transactions that certain stockholders may view as beneficial or could involve the payment of a premium over prevailing market prices for our Class A common stock. These provisions include, among others:

Our amended and restated certificate of incorporation provides for a dual class ownership structure, in which our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. As a result of this structure, our major stockholders have significant influence or actual control over matters requiring stockholder approval.

Voting agreements entered into with or among our major stockholders require these stockholders to vote their shares consistent with the recommendation of our board of directors, assuming in certain instances that a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, all of such minimum of three independent directors (excluding for such purposes any Pritzker) agree with the recommendation. While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval.

Table of Contents

Lock-up agreements entered into with stockholders party to our 2007 Stockholders' Agreement limit the ability of these stockholders to sell their shares to any person who would be required to file a Schedule 13D with the SEC disclosing an intent to acquire the shares other than for investment purposes and, in certain instances, to competitors of ours in the hospitality, lodging or gaming industries.

Stockholders party to our 2007 Stockholders' Agreement have agreed, subject to certain limited exceptions, to “standstill” provisions that prevent the stockholders from acquiring additional shares of our common stock, making or participating in acquisition proposals for us or soliciting proxies in connection with meetings of our stockholders, unless the stockholders are invited to do so by our board of directors.

Our board of directors is divided into three classes, with each class serving for a staggered three-year term, which prevents stockholders from electing an entirely new board of directors at an annual meeting.

Our directors may be removed only for cause, which prevents stockholders from being able to remove directors without cause other than those directors who are being elected at an annual meeting.

Our amended and restated certificate of incorporation does not provide for cumulative voting in the election of directors. As a result, holders of our Class B common stock will control the election of directors and the ability of holders of our Class A common stock to elect director candidates will be limited.

Vacancies on our board of directors, and any newly created director positions created by the expansion of the board of directors, may be filled only by a majority of remaining directors then in office.

Actions to be taken by our stockholders may only be effected at an annual or special meeting of our stockholders and not by written consent.

Special meetings of our stockholders can be called only by the Chairman of the Board or by our corporate secretary at the direction of our board of directors.

Advance notice procedures that stockholders must comply with in order to nominate candidates to our board of directors and propose matters to be brought before an annual meeting of our stockholders may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

Our board of directors may, without stockholder approval, issue series of preferred stock, or rights to acquire preferred stock, that could dilute the interest of, or impair the voting power of, holders of our common stock or could also be used as a method of discouraging, delaying or preventing a change of control.

An affirmative vote of the holders of at least 80% of the voting power of our outstanding capital stock entitled to vote is required to amend any provision of our certificate of incorporation or bylaws.

Pritzker family business interests have substantial control over us and have the ability to control the election of directors and other matters submitted to stockholders for approval, which will limit your ability to influence corporate matters or result in actions that you do not believe to be in our interests or your interests.

Our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. As of January 31, 2014, Pritzker family business interests beneficially own, in the aggregate, 87,415,377 shares, or approximately 77.7%, of our Class B common stock, representing approximately 56.1% of the outstanding shares of our common stock and approximately 74.8% of the total voting power of our outstanding common stock. As a result, consistent with the voting agreements contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement, Pritzker family business interests will be able to exert a significant degree of influence or actual control over our management and affairs and over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. While the voting agreements are in effect, they may provide our board of directors with the effective control over matters requiring stockholder approval. Because of our dual class ownership structure, Pritzker family business interests will continue to exert a significant degree of influence or actual control over matters requiring stockholder approval, even if they own less than 50% of the outstanding shares of our common stock. This concentrated control will limit your ability to influence corporate matters, and the interests of Pritzker family business interests may not coincide with our interests or your interests. As a result, we may take actions that you do not believe to be in our interests or your interests and that could depress our stock price. See also “

-Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval.”

Table of Contents

In addition, the difference in the voting rights between our Class A common stock and Class B common stock could diminish the value of the Class A common stock to the extent that investors or any potential future purchasers of our common stock ascribe value to the superior voting rights of the Class B common stock.

Disputes among Pritzker family members and among Pritzker family members and the trustees of the Pritzker family trusts may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock and/or generate negative publicity about Hyatt and the Pritzker family. In the past, disputes have arisen between and among certain Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, with respect to, among other things, the ownership, operation, governance, and management of certain Pritzker family business interests. In connection with certain of these disputes, claims were alleged, and in certain cases, proceedings were initiated, against certain Pritzker family members, including Thomas J. Pritzker, our executive chairman, and other Pritzker family members, some of whom have been or are our directors, and against the trustees, including Thomas J. Pritzker in his former capacity as a co-trustee of the Pritzker family U.S. situs trusts. Such past allegations related to, among others, trust management and administration, and violations of certain trustee duties, including fiduciary duties. Some of these disputes led to significant negative publicity for the Pritzker family. These disputes have been resolved with no admissions or finding of any misconduct.

Disputes among Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, including with respect to Hyatt, may arise or continue in the future. If such disputes occur, they may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock and/or generate negative publicity about Hyatt and Pritzker family members, including Pritzker family members involved with Hyatt.

Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval.

Pritzker family business interests, which beneficially own as of January 31, 2014, directly or indirectly, 87,438,396 shares, or 56.1% of our total outstanding common stock and control approximately 74.8% of our total voting power, have entered into a voting agreement with respect to all shares of common stock beneficially owned by Pritzker family business interests. During the term of the voting agreement, which expires on the later to occur of January 1, 2015, and the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by non-Pritzker family business interests, Pritzker family business interests have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors with respect to all matters (assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker)) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). In addition, as of January 31, 2014, other existing stockholders, including entities affiliated with Goldman, Sachs & Co. and Madrone GHC, beneficially own, in the aggregate, approximately 22.3% of our outstanding Class B common stock, representing approximately 16.1% of the outstanding shares of our common stock and approximately 21.5% of the total voting power of our outstanding common stock. These entities have entered into a voting agreement with us, with respect to the shares of Class B common stock that they beneficially own, and have agreed to vote their shares of Class B common stock consistent with the recommendation of our board of directors, without any separate requirement that our independent directors agree with the recommendation. These voting agreements expire on the later to occur of December 31, 2013 and the date that Thomas J. Pritzker is no longer chairman of our board of directors. See Part I, Item 1, "Business - Stockholder Agreements."

While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. This is because the number of our shares that are

required by the voting agreements to be voted consistent with the recommendation of our board of directors will be sufficient to determine the outcome of the election of directors and other matters submitted to stockholders for approval. This will limit your ability to influence the election of directors and other matters submitted to stockholders for approval, even if you do not believe those actions to be in our interests or your interests. For instance, the voting agreements may have the effect of delaying or preventing a transaction that would result in a change of control, if our board of directors does not recommend that our stockholders vote in favor of the transaction, even if you or some or all of our major stockholders believe that the transaction is in our interests or your interests. On the other hand, the voting agreements may result in our stockholders approving a transaction that would result in a change of control, if our board of directors recommends that our stockholders vote in favor of the transaction, even if you or some or all of our major stockholders believe that the transaction is not in our interests or your interests.

Table of Contents

A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well.

Future sales in the public market of Class A common stock issuable upon conversion of Class B common stock, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares, could reduce the market price of our Class A common stock. As of January 31, 2014, we had 43,387,819 shares of Class A common stock outstanding and 112,527,463 shares of Class B common stock outstanding.

Of the outstanding shares, 43,362,738 shares of Class A common stock are freely tradable in the public market without restriction or further registration under the Securities Act of 1933, as amended (the "Securities Act") unless these shares are held by any of our "affiliates," as that term is defined in Rule 144 under the Securities Act ("Rule 144"). The remaining 25,081 outstanding shares of Class A common stock and 112,527,463 outstanding shares of Class B common stock are deemed "restricted securities," as that term is defined in Rule 144. Restricted securities may be sold in the public market only if they are registered under the Securities Act or they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act ("Rule 701").

Substantially all of these restricted securities, together with 23,019 shares of Class A common stock previously registered, are subject to contractual lock-up and certain other restrictions contained in the Amended and Restated Global Hyatt Agreement, the Amended and Restated Foreign Global Hyatt Agreement, or the 2007 Stockholders' Agreement as described in Part I, Item 1, "Business - Stockholder Agreements." These contractual restrictions may be amended, waived or terminated by the parties to those agreements in accordance with the terms of such agreements without our consent and without notice; with respect to the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement, the 25% limitation on sales of our common stock may, with respect to each 12 month period, be increased to a higher percentage or waived entirely by the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker). All shares of Class A common stock, including shares of Class A common stock issuable upon conversion of shares of Class B common stock, will be eligible for resale in compliance with Rule 144 or Rule 701 to the extent the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement, the Amended and Restated Foreign Global Hyatt Agreement, or the 2007 Stockholders' Agreement, as applicable, are waived or terminated with respect to such shares.

Assuming the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement, the Amended and Restated Foreign Global Hyatt Agreement, and the 2007 Stockholders' Agreement are not amended, waived or terminated and that there are no transfers of shares amongst Pritzker family stockholders, and further assuming the parties to these agreements sell the maximum amount permitted to be sold during the first time period that such shares are eligible to be sold as set forth below, and subject to any applicable restrictions contained in such agreements (such as rights of first refusal and requirements that any such sales be made by way of an underwritten public offering or in an otherwise broad distribution sale) and the provisions of Rule 144 and/or Rule 701 under the Securities Act, these restricted securities will be available for sale in the public market as follows:

Time Period	Number of Shares*
During the 6 month period from November 5, 2013 through May 10, 2014	45,676,038 (1)
During the 6-month period from May 11, 2014 through November 4, 2014	6,331,271 (2)
During the 12 month period from November 5, 2014 through November 4, 2015	21,622,682 (3)
During the 12 month period from November 5, 2015 through November 4, 2016	15,481,670 (3)
During the 12 month period from November 5, 2016 through November 4, 2017	7,785,043 (3)
During the 12 month period from November 5, 2017 through November 4, 2018	6,419,886 (3)
During the 12 month period from November 5, 2018 through November 4, 2019	6,271,290 (3)
During the 12 month period from November 5, 2019 through November 4, 2020	2,987,683 (3)

* The foregoing numbers are based on information as of January 31, 2014 and assume that the maximum number of shares permitted to be sold during each period set forth above are, in fact, sold during each such period, and, further, (i) that the maximum number of shares permitted to be sold during the period from November 5, 2013 through

Edgar Filing: Hyatt Hotels Corp - Form 10-K

November 4, 2014 by Pritzker family stockholders under the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement are, in fact, sold between November 5, 2013 and May 10, 2014, and (ii) that the maximum number of shares permitted to be sold during the period from May 11, 2014 through May 10, 2015 by the parties to the 2007 Stockholders' Agreement are, in fact, sold between May 11, 2014 and November 4, 2014. To the extent any shares are not sold during the first time period that such shares are eligible to be sold as described above, the number of shares that may be sold in subsequent time periods may change.

Table of Contents

(1) Includes (a) 6,143,356 shares that are eligible to be sold at any time, (b) 6,331,270 shares that were “early released” on May 13, 2011 under the 2007 Stockholders' Agreement, provided that such shares are sold in an underwritten public offering or in an otherwise broad distribution sale and subject to the rights of first refusal, “drag along” rights and other restrictions contained in the 2007 Stockholders' Agreement, (c) 6,331,270 shares that are eligible to be sold between the three and one-half and four and one-half year anniversaries of November 10, 2009 (the closing date of our initial public offering), provided that such shares are sold in an underwritten public offering or in an otherwise broad distribution sale and subject to the rights of first refusal, “drag along” rights and other restrictions contained in the 2007 Stockholders' Agreement and (d) 26,870,142 shares eligible to be sold by Pritzker family stockholders under the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement.

(2) Represents shares eligible to be sold under the 2007 Stockholders' Agreement between the four and one-half and five and one-half year anniversaries of November 10, 2009 (the closing date of our initial public offering), provided that such shares are sold in an underwritten public offering or in an otherwise broad distribution sale and subject to the rights of first refusal, “drag along” rights and other restrictions contained in the 2007 Stockholders' Agreement.

(3) Represents shares eligible to be sold by Pritzker family stockholders under the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement.

In addition, as of December 31, 2013, 12,970,128 shares of our Class A common stock were reserved for issuance under the Second Amended and Restated Hyatt Hotels Corporation Long-Term Incentive Plan (the “LTIP”). These shares of Class A common stock will become eligible for sale in the public market once those shares are issued or awarded under our LTIP, subject to provisions of various award agreements and Rule 144, as applicable. In addition, 752,846 shares of our Class A common stock were reserved for issuance under the Hyatt Hotels Corporation Employee Stock Purchase Plan (the “ESPP”), 1,169,287 shares of our Class A common stock remained available for issuance pursuant to the Amended and Restated Hyatt Corporation Deferred Compensation Plan (the “DCP”) and 300,000 shares of Class A common stock remained available for issuance pursuant to the Hyatt International Hotels Retirement Plan (commonly known as the Field Retirement Plan) (the “FRP”).

If any of these holders causes a large number of securities to be sold in the public market, the sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. See also “-If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital.”

We also may issue shares of our Class A common stock from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares that we may issue may in turn be significant.

If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital.

Holders of 112,527,463 shares of our Class B common stock (or 72.2% of our total outstanding shares of common stock as of January 31, 2014), including Pritzker family business interests and entities affiliated with Goldman, Sachs & Co. and entities affiliated with Madrone Capital, LLC, have rights, subject to certain conditions, to require us to file registration statements registering sales of shares of Class A common stock acquired upon conversion of such Class B common stock or to include sales of such shares of Class A common stock in registration statements that we may file for ourselves or for other stockholders. In order to exercise such registration rights, the holder must be permitted to sell shares of its common stock under applicable lock-up restrictions. See “-A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which

could depress our stock price even if our business is doing well” and Part I, Item 1, “Business - Stockholder Agreements” for additional information with respect to these lock-up provisions. Subject to compliance with applicable lock-up agreements, shares of Class A common stock sold under the registration statements can be freely sold in the public market. In the event such registration rights are exercised and a large number of shares of Class A common stock issuable upon conversion of shares of Class B common stock are sold in the public market, such sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. Additionally, we will bear all expenses in connection with any such registrations (other than underwriting discounts).

Table of Contents

During the first quarter of 2011, certain Pritzker family stockholders exercised their rights to require the Company to register an aggregate of 19,442,309 shares of Class A common stock issuable upon conversion of such stockholders' shares of Class B common stock on a shelf registration statement on Form S-3 pursuant to Rule 415 of the Securities Act. In accordance with the terms of the Registration Rights Agreement, dated as of October 12, 2009, on February 25, 2011, the Company filed an automatic effective shelf registration statement with the SEC to register the resale of such 19,442,309 shares. In connection with such registration, all other holders of registration rights, including trustees of trusts for the benefit of Thomas J. Pritzker and his lineal descendants, entities affiliated with Goldman, Sachs & Co. and entities affiliated with Madrone Capital, LLC, elected not to exercise their piggyback registration rights. Subsequent to the filing of the February 2011 shelf registration statement, trusts for the benefit of Nicholas J. Pritzker, Jennifer N. Pritzker, and/or certain of their respective lineal descendants engaged in sales of Class B common stock and shares of Class A common stock issuable upon conversion of Class B common stock. As a result, trusts in the Nicholas J. Pritzker beneficiary group and the Jennifer N. Pritzker beneficiary group currently hold fewer shares than are registered for such trusts for resale on the shelf registration statement. As of the date of this filing, 16,887,084 shares of the 19,442,309 shares originally registered for resale on the shelf registration statement continue to be eligible to be sold pursuant to the shelf registration statement. Additional shares may be registered on the shelf registration statement in the future as such shares are eligible to be sold in accordance with the registration rights agreements and lock-up restrictions. See “-A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well” for additional information with respect to the lock-up provisions.

The sale of shares registered under the registration statement in the public market, or the perception that such sales may occur could reduce the trading price of our Class A common stock or impede our ability to raise future capital. Non-U.S. holders who own more than 5% of our Class A common stock or substantial amounts of our Class B common stock may be subject to U.S. federal income tax on gain realized on the disposition of such stock. Because we have significant U.S. real estate holdings, we may be a “United States real property holding corporation” (“USRPHC”) for U.S. federal income tax purposes, but we have made no determination to that effect. There can be no assurance that we do not currently constitute or will not become a USRPHC. As a result, a “non-U.S. holder” may be subject to U.S. federal income tax on gain realized on a disposition of our Class A common stock if such non-U.S. holder has owned, actually or constructively (through certain family members, related entities and options), more than 5% of our Class A common stock at any time during the shorter of (a) the five-year period ending on the date of disposition and (b) the non-U.S. holder's holding period in such stock.

If we were or were to become a USRPHC, a non-U.S. holder may be subject to U.S. federal income tax on gain realized on the disposition of our Class B common stock. Such tax would apply if on the date such non-U.S. holder actually or constructively acquired Class B common stock, and on any date on which such non-U.S. holder acquires additional Class B common stock, the aggregate fair market of the Class B common stock it actually and constructively owns is greater than 5% of the fair market value of our Class A common stock on such date. Certain dispositions of substantial amounts of Class B common stock by non-U.S. holders may also be subject to withholding under section 1445 of the Internal Revenue Code.

Item 1B. Unresolved Staff Comments.
None.

Table of Contents

- (1) Unless otherwise indicated, ownership percentages include both the property and the underlying land.
(2) Property is accounted for as a capital lease.
(3) Property is accounted for as an operating lease.
(4) Our ownership interest in the property is subject to a third-party ground lease on the land.
(5) We own a 50% interest in the entity that is the operating lessee and it is a non-consolidated joint venture.
(6) We own a 100% interest in the entity that is the operating lessee.
(7) In February 2014, we announced that a Hyatt affiliate entered into a definitive purchase and sale agreement to sell these properties to RLJ Lodging Trust for a total purchase price of approximately \$313 million.

Below is a summary of our Hyatt managed, franchised and owned and leased hotels, all inclusive properties, and residential and vacation ownership properties by segment for all periods presented.

Corporate Headquarters and Regional Offices

Our corporate headquarters are located at 71 South Wacker Drive, 12th Floor, Chicago, Illinois. These offices consist of approximately 225,854 square feet (net of subleased space). The lease for this property initially expires on February 29, 2020, with an option to renew and increase the rentable square feet. We also lease 74,067 square feet of office space at 200 West Monroe Street, Chicago, Illinois. The lease for this property initially expires on March 31, 2016 with an option to renew and increase the rentable square feet.

In addition to our corporate headquarters, we lease space for our regional offices, service centers and sales offices in multiple locations, including Beijing, Hong Kong, Shanghai and Shenzhen, People's Republic of China; Cairo, Egypt; Dubai, United Arab Emirates; Gurgaon (NCR) and Mumbai, India; Jeddah, Saudi Arabia; London, United Kingdom; Mainz, Germany; Marion and Oakbrook Terrace, Illinois; Melbourne, Australia; Moscow, Russia; Milan, Italy; New York, New York; Paris, France; Opfikon, Switzerland; Singapore, Singapore; Seoul, South Korea; Sao Paulo, Brazil; Omaha, Nebraska; Moore, Oklahoma; St. Petersburg and Coral Gables, Florida; Tokyo, Japan; and Washington, D.C. We believe that our existing office properties are in good condition and are sufficient and suitable for the conduct of our business. In the event we need to expand our operations, we believe that suitable space will be available on commercially reasonable terms.

Item 3. Legal Proceedings.

We are involved in various claims and lawsuits arising in the normal course of business, including proceedings involving tort and other general liability claims, workers' compensation and other employee claims, intellectual property claims and claims related to our management of certain hotel properties. Most occurrences involving liability, claims of negligence and employees are covered by insurance with solvent insurance carriers. We recognize a liability when we believe the loss is probable and reasonably estimable. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material effect on our consolidated financial position, results of operations or liquidity.

In September 2012 a putative class action was filed against the Company, several other hotel companies and several online travel companies in federal district court in Connecticut seeking an unspecified amount of damages and equitable relief for an alleged violation of the federal antitrust laws. The online travel companies and the other hotel companies have also been named in other actions, and these cases and the case naming the Company have been consolidated by the Judicial Panel on Multi-District Litigation in the U.S. District Court, Northern District of Texas. The Company disputes the allegations and will defend its interests vigorously. We currently do not believe the ultimate outcome of this litigation will have a material effect on our consolidated financial position, results of operation or liquidity.

Item 4. Mine Safety Disclosures.

Not Applicable.

Table of Contents

Executive Officers of the Registrant.

The following chart names each of the Company's executive officers and their ages and positions as of February 14, 2014. Also included below is biographical information relating to each of the Company's executive officers. Each of the executive officers is elected by and serves at the pleasure of the board of directors.

Name	Age	Position
Thomas J. Pritzker	63	Executive Chairman of the Board
Mark S. Hoplamazian	50	President, Chief Executive Officer and Director
Gebhard F. Rainer	52	Executive Vice President, Chief Financial Officer
Stephen G. Haggerty	46	Executive Vice President, Global Head of Real Estate and Capital Strategy
Rakesh Sarna	56	Executive Vice President, Group President—Americas
H. Charles Floyd	54	Executive Vice President, Group President—Global Operations Center
Larry Tchou	67	Executive Vice President, Group President—ASPAC
Peter Fulton	56	Executive Vice President, Group President—EAME/SW Asia
Rena Hozore Reiss	54	Executive Vice President, General Counsel and Secretary
Robert W. K. Webb	57	Executive Vice President, Chief Human Resources Officer
John Wallis	61	Executive Vice President, Global Head of Marketing and Brand Strategy

Thomas J. Pritzker has been a member of our board of directors since August 2004 and our Executive Chairman since August 2004. Mr. Pritzker served as our Chief Executive Officer from August 2004 to December 2006. Mr. Pritzker was appointed President of Hyatt Corporation in 1980 and served as Chairman and Chief Executive Officer of Hyatt Corporation from 1999 to December 2006. Mr. Pritzker is Chairman and Chief Executive Officer of The Pritzker Organization, LLC, the principal financial and investment advisor to various Pritzker family business interests. Mr. Pritzker is Chairman of Marmon Holdings, Inc. and also serves as a Director of Royal Caribbean Cruises Ltd. He served as a Director of TransUnion Corp., a credit reporting service company until June 2010. Mr. Pritzker is a Director and Vice President of The Pritzker Foundation, a charitable foundation; Director and President of the Pritzker Family Philanthropic Fund, a charitable organization; and Chairman and President of The Hyatt Foundation, a charitable foundation which established The Pritzker Architecture Prize.

Mark S. Hoplamazian has been a member of our board of directors since November 2006. He has served as our President and Chief Executive Officer since December 2006, as interim President from July 2006 to December 2006 and Vice President from August 2004 to December 2004. From April 2004 to August 2009, Mr. Hoplamazian served as President and Director of The Pritzker Organization, LLC (TPO), the principal financial and investment advisor to various Pritzker family business interests. Mr. Hoplamazian served in various capacities with TPO since its formation in 1997 and with its predecessors prior to its formation, including managing its merchant banking and investment activities. From August 2009 to December 2010, Mr. Hoplamazian was a Vice President of TPO. Mr. Hoplamazian is the current Chairman of the National Advisory Council on Minority Business Enterprise. He serves on the Advisory Board of Facing History and Ourselves, the Council on the University of Chicago Booth School of Business, the Board of Directors of New Schools for Chicago, the Executive Committee of the Board of Directors of World Business Chicago, and the Henry Crown Fellowship Program Board of Overseers. Mr. Hoplamazian is a member of the World Travel & Tourism Council and the Commercial Club of Chicago, and is member of the Discovery Class of the Henry Crown Fellowship.

Gebhard F. Rainer was appointed as our Executive Vice President, Chief Financial Officer in August 2012. Most recently, Mr. Rainer served as Managing Director for Hyatt International Europe, Africa and Middle East (EAME) LLC from January 2007 to August 2012 overseeing all aspects of Hyatt's business in the region. Mr. Rainer joined Hyatt as a Director of Finance in Saudi Arabia, and then assumed responsibilities in project management and asset management, as well as senior roles in finance, in various locations throughout Eastern Europe. In 1994, Mr. Rainer was appointed Hyatt's Director of Finance for EAME with responsibility for 25 hotels and the regional IT function,

including setting up Hyatt's first Shared Services Center in Mainz, Germany. In 1999, he was appointed to the position of Vice President - Hotel Finance & Technology for Hyatt International Corporation, based in Chicago, with responsibility for all international operations. Mr. Rainer has more than 30 years of experience in the hotel industry, and has extensive international experience, having lived in the Caribbean, the Middle East, Eastern Europe, Western Europe, and the United States. Mr. Rainer is also a director of Avendra, LLC.

Stephen G. Haggerty was appointed Executive Vice President, Global Head of Real Estate and Capital Strategy in October 2012. In this role, Mr. Haggerty is responsible for implementing our overall capital strategy, managing our hotel asset base and providing support to our development professionals around the world. Prior to assuming his current role, Mr. Haggerty served as our Global Head of Real Estate and Development from August 2007 and our Executive Vice President-Real

Table of Contents

Estate and Development from June 2007 to August 2007. In this role, Mr. Haggerty was responsible for our global development team, our global feasibility and development finance team, our corporate transactions group, and our global asset management team that oversees all of our owned hotel properties and development of hotels and vacation ownership properties in which we have ownership. Before joining us, Mr. Haggerty spent 13 years serving in several positions of increasing responsibility with Marriott International, Inc., a lodging company, most recently in London as Senior Vice President, International Project Finance and Asset Management for Europe, Africa and the Middle East from 2005 to 2007. Prior to this position, from 2003 to 2005, Mr. Haggerty served as Marriott's Senior Vice President of Global Asset Management and Development Finance and previously lived in Asia for nine years holding a variety of roles relating to development at Marriott.

Rakesh Sarna was appointed Executive Vice President, Group President - Americas for Hyatt Hotels Corporation in October 2012. Mr. Sarna is responsible for overseeing hotels in the United States, Canada, the Caribbean, and Central and South America. Mr. Sarna has been with us since 1979. Prior to his current role, Mr. Sarna served as our Chief Operating Officer-International from August 2007. In this role, Mr. Sarna was responsible for management of our full service hotels and resorts outside of the United States, Canada and the Caribbean. He also oversaw the operations of our regional offices in Zurich, Switzerland, Hong Kong, Dubai, UAE and Mexico City and various corporate functions in Chicago, Ill. From September 2006 to June 2007, he served as Senior Vice President for Hyatt International Corporation. Prior to that, from April 2001 to September 2006, Mr. Sarna served as our Vice President of Operations for Europe, Africa and the Middle East, and from September 1999 to April 2001 as Director of Operations for Europe, Africa and the Middle East. Prior to that, from January 1997 to September 1999, he served as regional director for South Asia. Mr. Sarna joined Hyatt in 1979 and has held a variety of senior management food and beverage positions and served as General Manager for Hyatt Regency Belgrade, Park Hyatt UN Plaza, New York and Hyatt Regency Macau.

H. Charles Floyd was appointed Executive Vice President, Group President - Global Operations Center in October 2012. In this role, Mr. Floyd is responsible for ensuring operating efficiency in the roll-out of new innovations and unifying the Company's global operations, in addition to overseeing our information technology resources and our worldwide sales organization and call centers. Mr. Floyd has been with us since 1981. Prior to assuming his current role, Mr. Floyd served as our Chief Operating Officer - North America from January 2006. In this role he was responsible for management of our full service hotels and resorts as well as the Hyatt Place and the Hyatt House brands in the United States, Canada and the Caribbean. In addition, he oversaw Hyatt Residential Group, Inc. (formerly known as Hyatt Vacation Ownership, Inc.) and the Franchise Owner Relations Group, which supports both full service and select service and extended stay franchisees. He also oversaw various corporate functions for North America, including sales, human resources, product and design, rooms, food and beverage and engineering. Since joining Hyatt, Mr. Floyd served in a number of senior positions, including Executive Vice President - North America Operations and Senior Vice President of Sales, as well as various managing director and general manager roles.

Larry Tchou was appointed Executive Vice President, Group President - ASPAC for Hyatt Hotels Corporation in October 2012. Mr. Tchou is responsible for overseeing hotels in China, Japan, Korea, Australia, Southeast Asia and the Pacific Rim. Prior to his current role, Mr. Tchou was the Managing Director - Asia Pacific from September 2007 to October 2012 and he was the Senior Vice President for Asia Pacific from January 1982 to September 2007. Mr. Tchou joined Hyatt in 1970 as Rooms Division Manager of Hyatt Regency Hong Kong. He was named Executive Assistant Manager in 1971 and Manager in 1974. He was later appointed as General Manager in 1977 and at the same time, he was also given responsibility for the Company's operations and development in Korea, Japan, Taiwan, and Macau.

Peter Fulton was appointed Executive Vice President, Group President - EAME/SW Asia for Hyatt Hotels Corporation in October 2012. Mr. Fulton is responsible for overseeing hotels in Europe, Africa, the Middle East and Southwest Asia. In 1983, Mr. Fulton embarked on his career with Hyatt International as Food & Beverage Manager at Hyatt Regency in Auckland. For the next nine years, he filled senior food and beverage positions at Hyatt properties in Dubai, Canberra and Macau before receiving his first appointment as Manager at Hyatt Regency Acapulco. In 1994, Mr. Fulton was appointed General Manager of the same hotel. Three years later, Mr. Fulton was appointed General

Manager at Hyatt Regency Delhi, where he remained before assuming the position of General Manager of Grand Hyatt Dubai. From 2001 until February 2008, Mr. Fulton oversaw Grand Hyatt Dubai, the largest 5-star hotel in the region, which opened in March 2003. From February 2008 until October 2012, Mr. Fulton was the Managing Director South West Asia. Prior to Hyatt, Mr. Fulton has worked for Travelodge in Christchurch and Auckland, New Zealand; Claridges Hotel in London; and Le Beau Rivage Palace Hotel in Lausanne, Switzerland.

Rena Hozore Reiss has served as our Executive Vice President, General Counsel and Secretary since August 2010. Ms. Reiss joined Hyatt after spending 10 years at Marriott International, Inc. where she most recently served as Senior Vice President and Associate General Counsel, overseeing a legal team responsible for supporting that company's development activities in the Americas. From 2000 to 2007, Ms. Reiss held a series of increasingly responsible positions at Marriott, including serving as Senior Counsel and Vice President and Assistant General Counsel. Prior to entering the hospitality

Table of Contents

industry, Ms. Reiss practiced law at Thomson Muraro Razoook & Hart in Miami, Florida, served as an Associate General Counsel for the Miami Herald Publishing Company, and was a Partner with Counts & Kanne, Chartered in Washington, DC.

Robert W. K. Webb has served as our Chief Human Resources Officer since August 2007 and our Executive Vice President since 2011. Prior to joining Hyatt, Mr. Webb served as Head of Global Service Delivery for Citi Employee Services at Citigroup Inc., a global financial services company. During his 19-year tenure at Citigroup and two predecessor companies, Mr. Webb served as Chief Administrative Officer for a global business unit and held several senior human resources roles in North America and international operations. Mr. Webb serves as a Director of The Chicago Children's Museum. Additionally, Mr. Webb is a member of the Advisory Board of the School of Hospitality at Boston University and the Hospitality Program at DePaul University, and serves on the Health Care Committee of the Human Resources Policy Association in Washington D.C. Mr. Webb is a member of the Governing Council of the International Tourism Partnership and a board member of BSR, a global leader providing consulting services and conducting research in areas that include human rights, economic development, governance, and environmental sustainability. He also serves as a Director of the Chamber of Commerce for the State of Illinois and the Gale Sayers Foundation.

John Wallis has served as our Global Head of Marketing and Brand Strategy since November 2008 and our Executive Vice President since 2011. Mr. Wallis' career with Hyatt began in 1981. Prior to his current role, Mr. Wallis served as Senior Vice President, Product and Brand Development since August 2007. From 2004 through 2007, Mr. Wallis served as our Senior Vice President, Global Asset Management, where he was responsible for the management of more than 40 Hyatt-owned properties across North America, Latin America, Europe and Asia. He has also served in a variety of other management positions, including Senior Vice President-Global Asset Management, Senior Vice President-Product and Brand Development, Senior Vice President of Marketing and Sales, and Vice President of Marketing for Hyatt International Corporation, General Manager and Regional Vice President-Gulf States for Hyatt Regency Dubai, Executive Assistant Manager Food and Beverage for Hyatt Regency Kuwait, Hyatt Regency Fiji and Hyatt Kingsgate Sydney and various other food and beverage management positions.

Pursuant to our employment letter with Mr. Thomas J. Pritzker, we have agreed that so long as he is a member of our board of directors we will use our commercially reasonable efforts to appoint him as our executive chairman as long as he is willing and able to serve in that office. If he is not re-appointed as executive chairman, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Pursuant to our employment letter with Mr. Mark S. Hoplamazian, we have agreed that so long as he is the president and chief executive officer of Hyatt, we will use our commercially reasonable efforts to nominate him for re-election as a director prior to the end of his term. If he is not re-elected to the board of directors, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

Our Class A common stock began trading publicly on the New York Stock Exchange under the symbol "H" on November 5, 2009. Prior to that time, there was no public market for our Class A common stock. As of January 31, 2014, our Class A common stock was held by approximately 37 shareholders of record and there were 43,387,819 shares of Class A common stock outstanding. This stockholder figure does not include a substantially greater number of "street name" holders or beneficial holders of our Class A common stock whose shares are held of record by banks, brokers and other financial institutions. The following table sets forth, for the period indicated, the high and low sale prices of our Class A common stock as reported by the New York Stock Exchange for the two most recent fiscal years.

Fiscal Year end December 31, 2012	High	Low
First Quarter	\$44.49	\$36.95
Second Quarter	\$44.14	\$34.89
Third Quarter	\$41.86	\$33.48
Fourth Quarter	\$40.35	\$33.73
Fiscal Year end December 31, 2013		
First Quarter	\$43.69	\$38.58
Second Quarter	\$43.39	\$37.74
Third Quarter	\$47.01	\$40.20
Fourth Quarter	\$50.43	\$42.82

On February 12, 2014, the closing stock price of our Class A common stock was \$49.48.

There is no established public trading market for our Class B common stock. As of January 31, 2014, our Class B common stock was held by 110 shareholders and there were 112,527,463 shares of Class B common stock outstanding.

Dividends

We have never declared or paid cash dividends on our common stock. In addition, we must comply with the covenants in our revolving credit facility if we want to pay cash dividends. We currently intend to retain our future earnings, if any, to finance the further development and expansion of our business. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, capital requirements, restrictions contained in current or future financing instruments and such other factors as our board of directors deems relevant.

Performance Graph

The following performance graph and related information shall not be deemed “soliciting material” or to be “filed” with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act or Exchange Act, except to the extent that we specifically incorporate it by reference into such filing.

The following graph compares the cumulative total stockholder return since November 5, 2009, the date our Class A common stock began trading on the New York Stock Exchange, with the S&P 500 Index (“S&P 500”) and the Russell 1000 Hotel/Motel Index (the “Russell 1000 Hotel”). The graph assumes that the value of the investment in our Class A common stock and each index was \$100 upon issuance at November 5, 2009 and that all dividends and other distributions were reinvested.

	11/5/2009	12/31/2009	12/31/2010	12/30/2011	12/31/2012	12/31/2013
Hyatt Hotels Corporation	100.0	106.5	159.2	134.4	137.8	176.6
S&P 500	100.0	104.9	117.3	123.3	143.0	189.2

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Issuer Purchases of Equity Securities

The following table sets forth information regarding the Company's purchases of shares of Class A common stock during the quarter ended December 31, 2013:

	Total Number of Shares Purchased (1)	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased under the Program
October 1 to October 31, 2013	—	\$—	—	\$211,217,011
November 1 to November 30, 2013	220,969	48.46	220,969	\$200,508,650
December 1 to December 31, 2013	247,710	47.82	247,710	\$188,663,507
Total	468,679	\$48.12	468,679	

(1) On August 1, 2012, we announced the approval of a share repurchase program pursuant to which we were authorized to purchase up to \$200 million shares of Class A and Class B common stock in the open market, in privately negotiated transactions, or otherwise, including pursuant to a Rule 10b5-1 plan. On each of May 1, 2013 and October 30, 2013, we announced the approvals of expansions of the share repurchase program pursuant to which we are authorized to purchase up to an additional \$200 million shares of Class A and Class B common stock in the open market, in privately negotiated transactions, or otherwise, including pursuant to a Rule 10b5-1 plan. The 2012 and 2013 repurchase programs do not have an expiration date. As of December 31, 2013, the Company had approximately \$189 million remaining under its current share repurchase authorizations.

Represents revenues that we receive from third-party property owners who reimburse us for costs that we incur on their behalf, with no added margin. These costs relate primarily to payroll at managed properties where we are the (1) employer. As a result, these revenues have no effect on our profit, although they do increase our total revenues and the corresponding costs increase our total expenses. See Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Principal Factors Affecting Our Results of Operations—Revenues.”

(2) All per share amounts reflect a one-for-two reverse split of our common stock effected on October 14, 2009.

Table of Contents

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Part II, Item 6, “Selected Financial Data” and our consolidated financial statements included in this annual report. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those discussed in “Disclosure Regarding Forward-Looking Statements” and Part I, Item 1A, “Risk Factors” included elsewhere in this annual report.

Overview

We are a global hospitality company engaged in the management, franchising, ownership and development of Hyatt-branded hotels, resorts and residential and vacation ownership properties around the world. As of December 31, 2013, our worldwide portfolio consisted of 548 Hyatt-branded properties (147,388 rooms and units), including:

- 218 managed properties (77,168 rooms), all of which we operate under management agreements with third-party property owners;
- 175 franchised properties (29,910 rooms), all of which are owned by third parties that have franchise agreements with us and are operated by third parties;
- 89 owned properties (including 1 consolidated hospitality ventures) (24,974 rooms), 2 capital leased properties (986 rooms) and 6 operating leased properties (2,079 rooms), all of which we manage;
- 21 managed properties and 10 franchised properties owned or leased by unconsolidated hospitality ventures (9,282 rooms);
- 2 all inclusive resorts (925 rooms), both of which are owned by an unconsolidated hospitality venture that has franchise agreements with us and are operated by third parties;
- 45 vacation ownership properties (963 units), all of which we manage; and
- 10 residential properties (1,101 units), all of which we manage and some of which we own.

We have a business model that involves both ownership of properties and management and franchising of third-party owned properties. This allows us to pursue more diversified revenue and income streams that balance both the advantages and risks associated with these lines of business. Our expertise and experience in each of these areas gives us the flexibility to evaluate growth opportunities across these lines of business. Growth in the number of management and franchise agreements and earnings therefrom typically results in higher overall returns on invested capital because the capital investment under a typical management or franchise agreement is not significant. The capital required to build and maintain hotels that we manage or franchise for third-party owners is typically provided by the owner of the respective property with minimal capital required by us as the manager or franchisor. During periods of increasing demand we do not share fully in the incremental profits of hotel operations for hotels that we manage for third-party owners as our fee arrangements generally include a base amount calculated using the revenue from the subject hotel and an incentive fee that is, typically, a percentage of hotel profits that is usually less than 20%, with the actual level depending on the structure and terms of the management agreement. We do not share in the benefits of increases in profits from franchised properties because franchisees pay us an initial application fee and ongoing royalty fees that are calculated as a percentage of gross room revenues with no fees based on profits. Disputes or disruptions may arise with third-party owners of hotels we manage or franchise and these disputes can result in termination of the relevant agreement. With respect to property ownership, we believe that ownership of selected hotels in key markets enhances our ability to control our brand presence in these markets. Ownership of hotels allows us to capture the full benefit of increases in operating profits during periods of increasing demand and room rates. The cost structure of a typical hotel is more fixed than variable, so as demand and room rates increase over time, the pace of increase in operating profits typically is higher than the pace of increase of revenues. Hotel ownership is, however, more capital intensive than managing hotels for third-party owners, as we are responsible for the costs and all capital expenditures for our owned hotels. The profits realized in our owned and leased hotel segment are generally more significantly affected by economic downturns and declines in revenues than the results of our management and franchising segments. This is

because we absorb the full impact of declining profits in our owned and leased hotels whereas our management and franchise fees do not have the same level of downside exposure to declining hotel profitability. See also “—Principal Factors Affecting Our Results of Operations—Factors Affecting Our Costs and Expenses—Fixed nature of expenses” and Part I, Item 1A, “Risk Factors—Risks Related to Our Business—We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions or restrict our growth strategy.”

Table of Contents

For the years ended December 31, 2013, 2012 and 2011, 78.2%, 79.5%, and 78.7% of our revenues were derived from operations in the United States, respectively. As of December 31, 2013 and 2012, 74.4% and 72.9% of our long-lived assets were located in the United States, respectively.

We report our consolidated operations in U.S. dollars and manage our business within four reportable segments as described below:

Owned and leased hotels, which consists of our owned and leased full service and select service hotels and, for purposes of segment Adjusted EBITDA, our pro rata share of the Adjusted EBITDA of our unconsolidated hospitality ventures, based on our ownership percentage of each venture.

Americas management and franchising, which consists of our management and franchising of properties located in the United States, Latin America, Canada and the Caribbean.

ASPAC management and franchising, which consists of our management and franchising of properties located in Southeast Asia, as well as China, Australia, South Korea and Japan.

EAME/SW Asia management, which consists of our management of properties located primarily in Europe, Africa, the Middle East and India as well as countries along the Persian Gulf and the Arabian Sea.

The results of our vacation ownership business, Hyatt co-branded credit card and unallocated corporate overhead are reported within corporate and other. See Note 20 for further discussion of our segment structure.

Key Business Metrics Evaluated by Management

Revenues

We primarily derive our revenues from hotel operations, management and franchise fees, other revenues from managed properties and vacation ownership properties. Management uses revenues to assess the overall performance of our business and analyze trends such as consumer demand, brand preference and competition. For a detailed discussion of the factors that affect our revenues, see “—Principal Factors Affecting Our Results of Operations.”

Net Income Attributable to Hyatt Hotels Corporation

Net income attributable to Hyatt Hotels Corporation represents the total earnings or profits generated by our business. Management uses net income to analyze the performance of our business on a consolidated basis.

Adjusted EBITDA

We use the term Adjusted EBITDA throughout this annual report. Adjusted EBITDA, as we define it, is a non-GAAP measure. We define consolidated Adjusted EBITDA as net income attributable to Hyatt Hotels Corporation plus our pro-rata share of unconsolidated hospitality ventures Adjusted EBITDA based on our ownership percentage of each venture, adjusted to exclude the following items:

• equity earnings (losses) from unconsolidated hospitality ventures;

• gains (losses) on sales of real estate;

• asset impairments;

• other income (loss), net;

• net loss attributable to noncontrolling interests;

• depreciation and amortization;

• interest expense; and

• (provision) benefit for income taxes.

We calculate consolidated Adjusted EBITDA by adding the Adjusted EBITDA of each of our reportable segments to corporate and other Adjusted EBITDA. See “—Results of Operations.”

Our board of directors and executive management team focus on Adjusted EBITDA as a key performance and compensation measure both on a segment and on a consolidated basis. Adjusted EBITDA assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operating performance both on a segment and on a consolidated basis. Our President and Chief Executive Officer, who is our chief operating decision maker, also evaluates the performance of each of our reportable

Table of Contents

segments and determines how to allocate resources to those segments, in significant part, by assessing the Adjusted EBITDA of each segment. In addition, the compensation committee of our board of directors determines the annual variable compensation for certain members of our management based in part on consolidated Adjusted EBITDA, segment Adjusted EBITDA or some combination of both.

We believe Adjusted EBITDA is useful to investors because it provides investors the same information that we use internally for purposes of assessing our operating performance and making selected compensation decisions. Adjusted EBITDA is not a substitute for net income attributable to Hyatt Hotels Corporation, income from continuing operations, cash flows from operating activities or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Adjusted EBITDA. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, other companies in our industry may define Adjusted EBITDA differently than we do. As a result, it may be difficult to use Adjusted EBITDA or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. Because of these limitations, Adjusted EBITDA should not be considered as a measure of the income generated by our business or discretionary cash available to us to invest in the growth of our business. Our management compensates for these limitations by reference to our GAAP results and using Adjusted EBITDA supplementally. See our consolidated statements of income and consolidated statements of cash flows in our consolidated financial statements included in this annual report.

For a reconciliation of consolidated Adjusted EBITDA to EBITDA and a reconciliation of EBITDA to its most directly comparable GAAP measure, net income attributable to Hyatt Hotels Corporation, see “—Results of Operations.”
Revenue per Available Room (RevPAR)

RevPAR is the product of the average daily rate and the average daily occupancy percentage. RevPAR does not include non-room revenues, which consist of ancillary revenues generated by a hotel property, such as food and beverage, parking, telephone and other guest service revenues. Our management uses RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a regional and segment basis. RevPAR is a commonly used performance measure in the industry.

RevPAR changes that are driven predominantly by changes in occupancy have different implications for overall revenue levels and incremental profitability than do changes that are driven predominately by changes in average room rates. For example, increases in occupancy at a hotel would lead to increases in room revenues and additional variable operating costs (including housekeeping services, utilities and room amenity costs), and could also result in increased ancillary revenues (including food and beverage). In contrast, changes in average room rates typically have a greater impact on margins and profitability as there is no substantial effect on variable costs.

Average Daily Rate (ADR)

ADR represents hotel room revenues, divided by total number of rooms sold in a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and we use ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

Occupancy

Occupancy represents the total number of rooms sold divided by the total number of rooms available at a hotel or group of hotels. Occupancy measures the utilization of our hotels' available capacity. Management uses occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us determine achievable ADR levels as demand for hotel rooms increases or decreases.

Comparable Hotels

“Comparable systemwide hotels” represents all properties we manage or franchise (including owned and leased properties) and that are operated for the entirety of the periods being compared and that have not sustained substantial damage, business interruption or undergone large scale renovations during the periods being compared or for which comparable results are not available. We may use variations of comparable systemwide hotels to specifically refer to

comparable systemwide Americas full service or select service hotels for those properties that we manage or franchise within the Americas management and franchising segment, comparable systemwide ASPAC full service hotels for those properties that we manage or franchise

60

Table of Contents

within the ASPAC management and franchising segment, or comparable systemwide EAME/SW Asia full service hotels for those properties that we manage within the EAME/SW Asia management segment. “Comparable operated hotels” is defined the same as “Comparable systemwide hotels” with the exception that it is limited to only those hotels we manage or operate and excludes hotels we franchise. “Comparable owned and leased hotels” represents all properties we own or lease and that are operated and consolidated for the entirety of the periods being compared and have not sustained substantial damage, business interruption or undergone large scale renovations during the periods being compared or for which comparable results are not available. Comparable systemwide hotels and comparable owned and leased hotels are commonly used as a basis of measurement in the industry. “Non-comparable systemwide hotels” or “Non-comparable owned and leased hotels” represent all hotels that do not meet the respective definition of “comparable” as defined above.

Principal Factors Affecting Our Results of Operations

Revenues

Principal Components

We primarily derive our revenues from the following sources:

Revenues from hotel operations. Represents revenues derived from hotel operations, including room rentals and food and beverage sales and other ancillary revenues at our owned and leased properties. Revenues from the majority of our hotel operations depend heavily on demand from group and transient travelers, as discussed below. Revenues from our owned and leased hotels segment are primarily derived from hotel operations.

Revenues from room rentals and ancillary revenues are primarily derived from three categories of customers: transient, group and contract. Transient guests are individual travelers who are traveling for business or leisure. Our group guests are traveling for group events that reserve a minimum of 10 rooms for meetings or social functions sponsored by associations, corporate, social, military, educational, religious or other organizations. Group business usually includes a block of room accommodations as well as other ancillary services, such as catering and banquet services. Our contract guests are traveling under a contract negotiated for a block of rooms for more than 30 days in duration at agreed-upon rates. Airline crews are typical generators of contract demand for our hotels.

Management and franchise fees. Represents revenues derived from fees earned from hotels and residential properties managed worldwide (usually under long-term management agreements), franchise fees received in connection with the franchising of our brands (usually under long-term franchise agreements), termination fees and the amortization of deferred gains related to sold properties for which we have significant continuing involvement.

Our management agreements typically provide for a two-tiered fee structure that compensates us both for the volume of business we generate for the property as well as for the profitability of hotel operations. In these two-tier fee structures, our base compensation is a base fee that is usually an agreed upon percentage of gross revenues from hotel operations. In addition, we are paid an incentive fee that is typically calculated as a percentage of a hotel profitability measure, as defined in the applicable agreement. Outside of the United States, our fees are often more dependent on hotel profitability measures, either through a single management fee structure where the entire fee is based on a profitability measure, or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee.

Franchise fees generally consist of an initial application fee and continuing royalty fees calculated as a percentage of gross room revenues. Royalty fees for our full service brands also include a percentage of gross food and beverage revenues and gross spa revenues, where applicable.

Other revenues from managed properties. Represents revenues related primarily to payroll costs at managed properties where we are the employer and are fully reimbursed by the third-party property owner based on the costs incurred, with no added margin. As a result, these revenues have no effect on our profit, although they do increase our total revenues and the corresponding costs increase our total expenses. We record these revenues in “Other revenues from managed properties” and the corresponding costs in “Other costs from managed properties” in our consolidated statements of income.

Intersegment eliminations. We evaluate our reportable segments with intersegment revenues and expenses included in their results. These intersegment revenues and expenses represent management fees earned by our management and

franchising segments for managing our owned and leased hotels. As presented throughout this annual report, the individual segment results for the management and franchising businesses include the intersegment fee revenues and our owned and leased hotels include the intersegment fee expenses. Both the intersegment fee revenues and expenses are eliminated in consolidation.

Table of Contents

Factors Affecting Our Revenues

The following factors affect the revenues we derive from our operations. For other factors affecting our revenues, see Part I, Item 1A, “Risk Factors—Risks Related to Our Business.”

Consumer demand and global economic conditions. Consumer demand for our products and services is closely linked to the performance of the general economy and is sensitive to business and personal discretionary spending levels. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence and adverse political conditions can lower the revenues and profitability of our owned hotel operations and the amount of management and franchising fee revenues we are able to generate from our managed and franchised properties. Also, declines in hotel profitability during an economic downturn directly impact the incentive portion of our management fees, since it is based on hotel profit measures. Our vacation ownership business is also linked to cycles in the general economy and consumer discretionary spending. As a result, changes in consumer demand and general business cycles can subject and have subjected our revenues to significant volatility. See Part I, Item 1A, “Risk Factors—Risks Related to the Hospitality Industry.”

Excluding unfavorable net currency effects, each of our four operating segments experienced increased RevPAR in 2013 as compared to 2012 and this contributed to improved performance in our consolidated revenues and Adjusted EBITDA. A combination of improvement in occupancy and ADR helped drive the RevPAR increases in each operating segment. In the Americas segment, transient business growth at both our full service and select service hotels helped drive revenue growth in 2013 as compared to 2012. In 2013, we also began to see slight growth in group business as compared to 2012. However, groups continue to be cautious with their discretionary spending while at our properties, especially with respect to food and beverage spend. The most significant improvements have come from long term group business. While short term bookings showed some weakness at the start of 2013, bookings accelerated during the second half of the year. Bookings for 2014 and beyond showed strength throughout the year and we expect to see further improvements in group business going forward. Our owned and leased hotels segment, which is made up primarily of hotels located in the Americas, has benefited and should continue to benefit from these trends.

Excluding unfavorable net currency impacts, the ASPAC segment RevPAR increased slightly, driven by higher occupancy in 2013 as compared to 2012. The ASPAC segment results were negatively impacted by displacement due to renovations, weak market conditions in Asia and increased supply in China. Variabilities continue to exist in our ASPAC region that may negatively impact 2014 results, such as the rate of economic growth in China and renovations at several of our larger managed hotels. While these renovations are expected to have less of an impact than in 2013, they will continue into 2014.

In the EAME/SW Asia segment, RevPAR improved in 2013 as compared to 2012, driven by higher transient occupancy. The increases in occupancy were partially offset by declines in ADR. Excluding the unfavorable net currency impact, most areas in the region increased RevPAR, with the exception of the United Kingdom which declined significantly due to the positive impact of the Olympics in 2012. While certain areas showed strong results, continued economic uncertainty in Europe and economic concerns in India hurt our results. Although these concerns remain in 2014, we believe the current environment also presents us with unique opportunities to expand our presence in these regions so that we are better positioned as these regions recover.

Competition. The global lodging industry is highly competitive. During periods of decreased demand for hospitality products and services, competition in the industry becomes increasingly fierce. While we generally try to maintain rates under such circumstances whenever possible, the overall reduction in business travel during the recent recession placed significant pressure on average rate levels at our properties as well as those of our competitors. While RevPAR levels have increased each year since 2009 (excluding the unfavorable net currency effects) and occupancy has exceeded pre-recession levels, ADR still remains lower than pre-recession highs across the majority of our portfolio. We believe that our brand strength and ability to manage our operations in an efficient manner will help us to compete successfully within the global hospitality industry.

Agreements with third-party owners and franchisees and relationships with developers. We depend on our long-term management and franchise agreements with third-party owners and franchisees for a significant portion of our management and franchising fee revenues. The success and sustainability of our management and franchising business depends on our ability to perform under our management and franchising agreements and maintain good relationships with third-party owners and franchisees. Our relationships with these third-parties also generate new relationships with developers and opportunities for property development that can support our growth. We believe that we have good relationships with our third-party owners, franchisees and developers in all of our segments and are committed to the continued growth and development of these relationships. These relationships exist with a diverse group of owners, franchisees and developers and are not heavily concentrated with any particular third-party.

Access to capital. The hospitality industry is a capital intensive business that requires significant amounts of capital expenditures to develop, maintain and renovate properties. Third-party owners are required to fund these capital expenditures

Table of Contents

for the properties they own in accordance with the terms of the applicable management or franchise agreement. Access to the capital that we or our third-party owners, franchisees or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues. The availability of capital or the conditions under which we or our third-party owners, franchisees or development partners can obtain capital can have a significant impact on the overall level and pace of future development and therefore the ability to grow our revenues.

Expenses

Principal Components

We primarily incur the following expenses:

Owned and leased hotel expenses. Owned and leased hotel expenses comprise the largest portion of our total direct and selling, general and administrative expenses and reflect the expenses of our consolidated owned and leased hotels. Expenses to operate our hotels include room expense, food and beverage costs, other support costs and property expenses. Room expense includes compensation costs for housekeeping, laundry and front desk staff and supply costs for guest room amenities and laundry. Food and beverage costs include costs for wait and kitchen staff and food and beverage products. Other support expenses consist of costs associated with property-level management (including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts), utilities, sales and marketing, operating hotel spas, telephones, parking and other guest recreation, entertainment and services. Property expenses include property taxes, repairs and maintenance, rent and insurance.

Depreciation and amortization expense. These are non-cash expenses that primarily consist of depreciation of fixed assets such as buildings, furniture, fixtures and equipment at our consolidated owned and leased hotels. Amortization expense primarily consists of amortization of management agreement acquisition costs and acquired franchise and management intangibles, which are amortized over their estimated useful lives.

Selling, general and administrative expenses. Selling, general and administrative expenses consist primarily of compensation expense, including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts, for our corporate staff and personnel supporting our business segments (including regional offices that support our management and franchising segments), professional fees (including consulting, audit and legal fees), travel and entertainment expenses, sales and marketing expenses, bad debt expenses and office administrative and related expenses.

Other costs from managed properties. Represents costs related primarily to payroll expenses at managed properties where we are the employer. These costs are reimbursed to us with no added margin. As a result, these costs have no effect on our profit, although they do increase our total expenses and the corresponding reimbursements increase our total revenues. We record these costs in “Other costs from managed properties” and the corresponding revenues in “Other revenues from managed properties” in our consolidated statements of income.

Factors Affecting Our Costs and Expenses

The following are several principal factors that affect the costs and expenses we incur in the course of our operations. For other factors affecting our costs and expenses, see Part I, Item 1A, “Risk Factors—Risks Related to Our Business.”

Fixed nature of expenses. Many of the expenses associated with managing, franchising, owning and developing hotels and residential and vacation ownership properties are relatively fixed. These expenses include personnel costs, rent, property taxes, insurance and utilities. If we are unable to decrease these costs significantly or rapidly when demand for our hotels and other properties decreases, the resulting decline in our revenues can have a particularly adverse effect on our net cash flow, margins and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth. Economic downturns generally affect the results of our owned and leased hotel segment more significantly than the results of our management and franchising segments due to the high fixed costs associated with operating an owned or leased property. The effectiveness of any cost-cutting efforts is limited by the fixed-cost nature of our business. As a result, we may not always be able to offset reductions in revenue through cost cutting. Employees at some of our owned hotels are parties to collective bargaining agreements that may also limit our ability to make timely staffing or labor changes in response to declining revenues. In addition, efforts to reduce costs, or to defer or cancel capital improvements, could adversely affect the economic value of our properties

and brands. We intend to manage our cost structure at levels appropriate for the degree of demand and revenue generated at our hotels.

Changes in depreciation expenses. Changes in depreciation expenses may be driven by renovations of existing properties, acquisition or development of new properties or the disposition of existing properties through sale or closure. We intend to consider strategic and complementary acquisitions of and investments in businesses, properties or other assets. If we

Table of Contents

consummate any asset acquisitions, we would likely add depreciable assets, which would result in an increase in depreciation expense.

Demand for vacation ownership properties. A significant portion of our costs to support our vacation ownership business relates to direct sales and marketing at these properties. Accordingly, we reduced and continue to monitor these costs so they correspond to current levels of demand. We recorded total impairment charges of \$1 million in 2012 and \$6 million in 2011 related to our vacation ownership business. The 2011 impairment charge was primarily a result of a change in management's assumptions regarding future sales volume and pricing of unsold vacation ownership intervals. We recorded no impairment charges related to our vacation ownership business in 2013, though we may be required to take additional impairment charges in the future if demand levels fall or fail to improve at specific properties.

Other Items

Asset impairments

We hold significant amounts of goodwill, intangible assets, long-lived assets and equity method investments. We evaluate these assets on a quarterly basis for impairment as further discussed in “—Critical Accounting Policies and Estimates.” These evaluations have, in the past, resulted in impairment charges for certain of these assets based on the specific facts and circumstances surrounding those assets. We may be required to take additional impairment charges to reflect further declines in our asset and/or investment values.

Acquisitions, investments, divestitures and significant renovations

We periodically acquire, divest, make investments in or undertake large scale renovations of hotel properties. The results of operations derived from these properties do not, therefore, meet the definition of “comparable hotels” as defined in “—Key Business Metrics Evaluated by Management.” The results of operations from these properties, however, may have a material effect on our results from period to period and are, therefore, discussed separately in our discussion on results of operations when material.

In 2013, we entered into the following key transactions:

- acquired The Peabody in Orlando, Florida for a purchase price of approximately \$716 million. The hotel was subsequently rebranded the Hyatt Regency Orlando and is our first large convention hotel presence in the Orlando market;

- acquired the remaining 70% interest in the entity that owns the Grand Hyatt San Antonio hotel for a purchase price of \$16 million. We previously held a 30% interest in the hotel and accounted for the hotel as an unconsolidated hospitality venture under the equity method. As part of the purchase, we repaid \$44 million of mezzanine debt and consolidated \$200 million of outstanding bonds that were held at the hospitality venture;

- acquired The Driskill hotel in Austin, Texas for a purchase price of approximately \$85 million;

- invested \$325 million in Playa, a company that has been formed to own, operate and develop all inclusive resorts, which represented \$271 million and \$54 million of preferred and common shares, respectively;

- sold seven full service properties for \$497 million, net of closing costs, including two Andaz branded properties, three Hyatt branded properties, and two Hyatt Regency branded properties. We entered into either long-term management agreements or long-term franchise agreements with the owners of each of these properties; and

- sold four select service properties for a combined \$68 million, net of closing costs. We entered into long-term management agreements with the purchasers of each of these hotels.

In 2012, we entered into the following key transactions:

- acquired all of the outstanding shares of capital stock of a company that owned a full service hotel in Mexico City, Mexico in order to expand our presence in the region. The total purchase price was approximately \$202 million. As part of the purchase, we acquired cash and cash equivalents of \$12 million, resulting in a net purchase price of \$190 million. We began managing this property during the year ended December 31, 2012 and have rebranded it as Hyatt Regency Mexico City;

- acquired the Hyatt Regency Birmingham in the United Kingdom, previously managed by us, for a net purchase price of approximately \$43 million;

Table of Contents

sold seven Hyatt Place properties and one Hyatt House property for an aggregate amount of approximately \$87 million, net of closing costs. In conjunction with the sale, we entered into a long-term management agreement for each property with the third-party purchaser of the hotels; and

sold our interest in two joint ventures classified as equity method investments, which were included in our owned and leased segment, to a third party for an aggregate amount of \$52 million. Each venture owns a hotel that we currently manage. At the time of the sale we signed agreements with the third party purchaser to extend our existing management agreements for the hotels owned by the ventures by ten years.

In 2011, we entered into the following key transactions:

acquired from LodgeWorks 20 hotels, branding, management and franchising rights to an additional four hotels, and other assets for a total purchase price of approximately \$661 million;

acquired three Woodfin Suites properties in California for a total purchase price of approximately \$77 million. We rebranded them as Hyatt Summerfield Suites, and subsequently as Hyatt House hotels; and

sold six Hyatt Place and two Hyatt Summerfield Suites properties to a new joint venture that a subsidiary of the Company formed with a third party. The properties were sold for a combined sale price of \$110 million, or \$90 million net of our \$20 million contribution to the new joint venture. In conjunction with the sale, we entered into a long-term franchise agreement for each property with the joint venture.

Effect of foreign currency exchange rate fluctuations

A significant portion of our operations are conducted in functional currencies other than our reporting currency which is the U.S. dollar. As a result, we are required to translate those results from the functional currency into U.S. dollars at market based average exchange rates during the period reported. When comparing our results of operations between periods, there may be material portions of the changes in our revenues or expense that are derived from fluctuations in exchange rates experienced between those periods.

Table of Contents

Results of Operations

Year Ended December 31, 2013 Compared with Year Ended December 31, 2012

Consolidated Results

(In millions, except percentages)	Year Ended December 31,					
	2013	2012	Better / (Worse)			
REVENUES:						
Total revenues	\$4,184	\$3,949	\$235	6	%	
DIRECT AND SELLING, GENERAL, AND ADMINISTRATIVE EXPENSES:						
Owned and leased hotels	1,629	1,549	(80)	(5)%	
Depreciation and amortization	345	353	8	2	%	
Other direct costs	32	29	(3)	(10)%	
Selling, general, and administrative	323	316	(7)	(2)%	
Other costs from managed properties	1,622	1,543	(79)	(5)%	
Direct and selling, general, and administrative expenses	3,951	3,790	(161)	(4)%	
Net gains and interest income from marketable securities held to fund operating programs	34	21	13	62	%	
Equity losses from unconsolidated hospitality ventures	(1)	(22)	21 95%	
Interest expense	(65)	(70)	5 7%	
Gains on sales of real estate	125	—	125	100	%	
Asset impairments	(22)	—	(22)	(100)%
Other income, net	17	7	10	143	%	
INCOME BEFORE INCOME TAXES	321	95	226	238	%	
PROVISION FOR INCOME TAXES	(116) (8) (108) (1,350)%	
NET INCOME	205	87	118	136	%	
NET LOSS ATTRIBUTABLE TO NONCONTROLLING INTERESTS	2	1	1	100	%	
NET INCOME ATTRIBUTABLE TO HYATT HOTELS CORPORATION	\$207	\$88	\$119	135	%	

Revenues. Consolidated revenues in the year ended December 31, 2013 increased \$235 million, or 6%, compared to the year ended December 31, 2012, including \$2 million in net favorable currency effects and a \$79 million increase in other revenues from managed properties.

Other revenues from managed properties includes an increase of \$12 million resulting from changes in the value of the underlying assets for our benefit programs funded through rabbi trusts for the year ended December 31, 2013 compared to the year ended December 31, 2012. These gains are offset in other costs from managed properties, thus having no net impact to our earnings. Excluding this amount, other revenues from managed properties increased \$67 million, or 4%, in the year ended December 31, 2013 compared to the year ended December 31, 2012. This increase in other revenues from managed properties was due to a higher volume of reimbursements paid to us by our managed properties, which was driven in part by new hotel openings and owned hotels that have been sold subject to long-term management agreements.

Owned and leased hotels revenues increased \$121 million for the year ended December 31, 2013 as compared to the year ended December 31, 2012. Comparable owned and leased hotels revenue increased \$96 million over the same period, which includes net favorable currency effects of \$5 million. The increase was primarily driven by increased revenues from hotels in the United States, which benefited from higher average daily rates and growth in food and beverage revenues. Non-comparable owned and leased hotels revenue increased \$25 million for the year ended December 31, 2013 compared to the year ended December 31, 2012, which includes \$1 million in net favorable currency effects. The non-comparable increase was due primarily to three new wholly owned full service hotels acquired in 2013, a full year of contribution from two properties acquired in 2012, and the opening of one leased property in 2012, partially offset by 11 hotels sold during 2013 and eight hotels sold in 2012.

We also experienced a \$35 million increase in management and franchise fee revenues for the year ended December 31, 2013 compared to the same period in 2012, which includes net unfavorable currency impacts of \$4 million. Included in consolidated management fees for the year ended December 31, 2013 were base management fees of \$163 million, a 6%

Table of Contents

increase from 2012, incentive management fees of \$100 million, a 3% increase from 2012, franchise fees of \$48 million, a 30% increase from 2012 and other fee revenue of \$31 million, a 63% increase from 2012. The increases in management fees were primarily driven by increases in base management and incentive fees from hotels newly converted to Hyatt brands in EAME/SW Asia and increased average daily rates in the Americas. The increase in franchise fees is partially driven by new and converted hotels in the Americas. Included in the increase in other fee revenue was a \$12 million termination fee received in 2013 and a \$2 million increase in the amortization of deferred gains from hotels sold subject to a management agreement.

Other revenues, which includes the revenues of our vacation ownership business and the results of our co-branded credit card, were flat during the year ended December 31, 2013 compared to the year ended December 31, 2012. The table below provides a breakdown of revenues by segment for the years ended December 31, 2013 and 2012.

For further discussion of segment revenues for the periods presented, please refer to “—Segment Results.”

(in millions, except percentages)	Year Ended December 31,		Better / (Worse)		
	2013	2012			
Owned and leased hotels	\$2,142	\$2,021	\$121	6.0	%
Americas management and franchising	1,774	1,712	62	3.6	%
ASPAC management and franchising	157	129	28	21.7	%
EAME/SW Asia management	117	92	25	27.2	%
Corporate and other	99	93	6	6.5	%
Eliminations	(105) (98) (7) (7.1)%
Consolidated revenues	\$4,184	\$3,949	\$235	6.0	%

Owned and leased hotels expense. Expenses for owned and leased hotels increased by \$80 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. Comparable owned and leased hotels expense increased \$56 million for the year ended December 31, 2013 compared to the year ended December 31, 2012, largely attributable to higher compensation, health insurance and employment related costs, rent expense and real estate taxes. Non-comparable owned and leased hotels expense increased \$18 million in the year ended December 31, 2013 as compared to the year ended December 31, 2012 due to three new wholly owned full service hotels acquired in 2013, a full year of contribution from two properties acquired in 2012, and the opening of one leased property in 2012, partially offset by 11 hotels sold during 2013 and eight hotels sold in 2012. Additionally, expenses recognized with respect to our employee benefit programs funded through rabbi trusts increased \$6 million driven by the performance of the underlying invested assets during the year ended December 31, 2013 as compared to the year ended December 31, 2012. Changes in these expenses are fully offset to the account net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings.

Depreciation and amortization expense. Depreciation and amortization expense decreased by \$8 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. The decrease was driven by depreciation and amortization at our comparable hotels which decreased \$10 million in 2013 as compared to 2012 primarily due to a decrease of \$6 million in accelerated amortization of an intangible asset and a reduction in depreciation expense at certain select service hotels. Non-comparable hotel depreciation and amortization expense increased \$2 million in 2013 as compared to 2012 due primarily to hotels acquired or newly opened during the comparable periods partially offset by hotels sold in 2013 and 2012.

Other direct costs. Other direct costs, which represent costs associated with our vacation ownership operations and our co-branded credit card, increased by \$3 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. Direct costs of our co-branded credit card increased \$3 million primarily due to program growth in the year ended December 31, 2013 compared to the year ended December 31, 2012. Direct costs of our vacation ownership operations remained flat in the year ended December 31, 2013 compared to the year ended December 31, 2012.

Selling, general and administrative expenses. Selling, general and administrative costs increased by \$7 million or 2% in the year ended December 31, 2013 compared to the year ended December 31, 2012. Included in selling, general and administrative expenses is the financial performance of the investment securities held in rabbi trusts to fund

certain benefit programs. The financial performance of these investments resulted in an increase in costs of \$11 million for the year ended December 31, 2013 compared to the year ended December 31, 2012. These expenses are offset in net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings.

Excluding the rabbi trust amounts, selling, general and administrative costs decreased \$4 million, or 1%, in the year ended December 31, 2013 compared to the year ended December 31, 2012. The decrease was largely due a \$2 million reduction in taxes, primarily due to franchise taxes and business and occupation taxes incurred in 2012 that did not recur in 2013, lower

Table of Contents

marketing spend of \$2 million and a reduction in bad debt expense of \$2 million. These decreases were partially offset by increases in payroll and related expenses and professional fees.

Net gains and interest income from marketable securities held to fund operating programs. Net gains and interest income from marketable securities held to fund operating programs includes securities held to fund our benefit programs funded through rabbi trusts and securities held to fund our Hyatt Gold Passport program. These securities in total generated a net gain of \$34 million for the year ended December 31, 2013 and a net gain of \$21 million for the year ended December 31, 2012. Marketable securities held to fund our benefit programs funded through rabbi trusts resulted in a net gain of \$35 million in the year ended December 31, 2013 compared to the net gain of \$18 million in the year ended December 31, 2012. This change was driven by the market performance of the underlying securities. The gains or losses on securities held in the rabbi trusts offset our owned and leased hotels expense for our hotel staff and selling, general and administrative expenses for our corporate staff and personnel supporting our business segments, having no net impact on our earnings. Of the \$17 million change in the underlying securities, \$11 million was offset in selling, general and administrative expenses and \$6 million was offset in owned and leased hotel expenses. Marketable securities held to fund our Hyatt Gold Passport program and related to our owned and leased hotels, generated a net loss of \$1 million in the year ended December 31, 2013 compared to a net gain of \$3 million for the year ended December 31, 2012. The gains and losses on securities held to fund our Hyatt Gold Passport program and related to our owned and leased hotels are offset by corresponding changes to our owned and leased hotel revenues, thus having no net impact on our earnings.

Equity losses from unconsolidated hospitality ventures. Equity losses from unconsolidated hospitality ventures were \$1 million and \$22 million for the years ended December 31, 2013 and December 31, 2012, respectively. During 2013, we recorded impairment charges of \$3 million related to our interest in two hospitality ventures and one vacation ownership property. During 2012, we recorded impairment charges of \$19 million related to our interest in two hospitality ventures and one vacation ownership property. The remaining increase for the year ended December 31, 2013 was primarily due to a \$9 million increase in distributions, an \$8 million gain in connection with the sale of residential properties, and higher earnings generated by hospitality venture properties. These increases were partially offset by increased pre-opening costs for a hotel in Hawaii that opened in 2013 and an increase in interest, taxes and depreciation expense at certain hospitality ventures.

Interest expense. Interest expense decreased by \$5 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. The reduction in interest expense was primarily due to an increase in capitalized interest for construction in progress. Additionally, the impact of our debt transactions in the second quarter of 2013 reduced our interest expense following the redemption of our 2015 Notes, the partial tender of our 2019 Notes and the issuance of our 2023 Notes.

Gains on sales of real estate. During 2013, we sold the Hyatt Fisherman's Wharf, Hyatt Santa Barbara, and Hyatt Regency Denver Tech to unrelated third parties for a combined sale price of \$219 million, net of closing costs, resulting in a pre-tax gain of \$125 million. We entered into long-term franchise agreements for each of these properties and therefore recognized the full gain on sale of real estate in our consolidated statements of income in the period of sale. There were no gains on sales of real estate in the period ended December 31, 2012.

Asset impairments. Asset impairments are recorded as necessary, based on our regular evaluation of assets for impairment. We recorded \$22 million in asset impairments for the year ended December 31, 2013 compared to no asset impairments in the year ended December 31, 2012. The \$22 million impairment charge in 2013 included an \$11 million write-off of contract acquisition costs in conjunction with an acquisition within our Americas management and franchising segment and an \$11 million impairment of property and equipment within our owned and leased hotels segment.

Table of Contents

Other income, net. Other income, net, increased by \$10 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, primarily due to the favorable impact of cost method investment income and a gain on the sale of artwork, partially offset by debt settlement costs and a charitable contribution to Hyatt Thrive Foundation. The table below provides a breakdown of other income, net for the years ended December 31, 2013 and December 31, 2012, respectively:

(in millions)	Year Ended December 31,		Better / (Worse)
	2013	2012	
Interest income	\$17	\$23	\$ (6)
Cost method investment income (1)	50	1	49
Gains on other marketable securities (2)	2	17	(15)
Impairment of held-to-maturity investment (3)	—	(4)	4
Gain on sale of artwork	29	—	29
Charitable contribution to Hyatt Thrive Foundation (4)	(20)	—	(20)
Debt settlement costs (5)	(35)	—	(35)
Foreign currency losses	(5)	(3)	(2)
Provisions on hotel loans (6)	(6)	(4)	(2)
Realignment costs (7)	—	(21)	21
Transaction costs (8)	(10)	(2)	(8)
Other (9)	(5)	—	(5)
Other income, net	\$17	\$7	\$ 10

(1) During 2013 we received a complete pay off of our preferred equity interest and residual common investment in the partnership that owns the Hyatt Regency New Orleans. We will continue to manage the property under the existing management agreement. See Note 3 to our consolidated financial statements included in this annual report for further detail.

(2) Represents gains on investments in trading securities not used to fund operating programs. See Note 4 to our consolidated financial statements included in this annual report for further detail.

(3) The year ended December 31, 2012 includes a \$4 million impairment of a held-to-maturity investment that was recorded in other assets in our consolidated balance sheet. See Note 24 to our consolidated financial statements included in this annual report.

(4) During the year ended December 31, 2013, we funded \$20 million to a charitable foundation with the intent that the foundation will fund charitable activities over time. See Note 22 to our consolidated financial statements included in this annual report.

(5) Debt settlement costs primarily represent \$40 million in premiums partially offset by a \$7 million gain related to the unamortized benefit from the settlement of the interest rate swaps on the 2015 Notes and other non-cash charges. See Note 10 to our consolidated financial statements included in this annual report for further detail.

(6) During 2013 and 2012, we recorded \$6 million and \$4 million provision, respectively, related to pre-opening loans. See Note 7 to our consolidated financial statements included in this annual report for further detail.

(7) Represents costs incurred as part of the realignment of corporate and regional operations and includes employee separation costs, relocation costs, consulting fees, and legal fees. See Note 22 to our consolidated financial statements included in this annual report.

(8) Transaction costs incurred during the year ended December 31, 2013 primarily represent transaction costs incurred in connection with our investment in Playa, and the acquisitions of the Hyatt Regency Orlando and Grand Hyatt San Antonio. Transaction costs incurred during the year ended December 31, 2012 represent transaction costs incurred primarily to acquire the Hyatt Regency Mexico City and the Hyatt Regency Birmingham. See Note 3 and Note 8 to our consolidated financial statements included in this annual report for further detail.

(9) Includes a loss from a sublease agreement recorded in 2013, a gain from a sublease agreement in 2012, and gains (losses) on asset retirements for each period presented. See Note 11 to our consolidated financial statements included

in this annual report for further detail on the sublease agreements.

Provision for income taxes. Income taxes for the years ended December 31, 2013 and 2012 was a provision of \$116 million and \$8 million respectively, which resulted in effective income tax rates of 36.2% and 8.3%, respectively.

Table of Contents

The effective tax rate for 2013 of 36.2% differs from the U.S. statutory federal income tax rate of 35% primarily due to state tax rates applied to U.S. earnings. This is offset by a \$4 million benefit for an adjustment to the opening balance of certain deferred tax assets, a benefit of \$3 million (including \$1 million in interest) related to the settlement of tax audits and a \$4 million benefit relating to changes of statutory rates in some of our foreign jurisdictions. Additional benefits arise from foreign earnings taxed at lower than the U.S. statutory rate.

The effective tax rate for 2012 of 8.3% differed from the U.S. statutory federal income tax rate of 35% primarily due to benefits relating to foreign tax credits of \$26 million, settlement of state tax matters of \$6 million, interest expense on the treatment for expensing certain renovation costs in prior years of \$6 million, and \$3 million for reductions in foreign statutory tax rates. These benefits are partially offset by \$7 million resulting from a reduction in the deferred tax assets of certain non-consolidated investments and approximately \$8 million (including \$3 million in interest and penalties) for uncertain tax positions in foreign jurisdictions

Segment Results

We evaluate segment operating performance using segment revenue and segment Adjusted EBITDA, as described in Note 20 to our consolidated financial statements included in this annual report. See “—Key Business Metrics Evaluated by Management” for a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness. The segment results presented below are presented before intersegment eliminations.

Owned and Leased Hotels. Revenues increased by \$121 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$6 million in net favorable currency impact. Worldwide comparable hotel revenues increased \$96 million in 2013 as compared to 2012, of which \$84 million was from full service hotels and \$12 million was from select service hotels. For the year ended December 31, 2013, revenue growth at our comparable full service and comparable select service owned hotels was largely driven by increased average daily rate, primarily from transient travelers in the United States, compared to the same period in 2012. Our comparable full service owned hotels also experienced increases in group business and food and beverage revenues in the United States. Non-comparable owned and leased hotel revenues increased \$25 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, largely due to three new wholly owned full service hotels acquired in 2013, a full year of contribution from two properties acquired in 2012, and the opening of one leased property in 2012, partially offset by 11 hotels sold during 2013 and eight hotels sold in 2012. During the year ended December 31, 2013, we removed seven full service and three select service properties from the comparable owned and leased hotel results and moved them to non-comparable owned and leased hotel results.

	Year Ended December 31,											
	RevPAR		Better / (Worse)	Occupancy			Change in Occ % pts	ADR		Better / (Worse)		
(Comparable Owned and Leased Hotels)	2013	2012		2013	2012	2013		2012	2013		2012	
Full Service	\$161	\$152	5.9 %	74.7 %	73.7 %	1.0 %	\$215	\$206	4.5 %			
Select Service	88	83	5.7 %	77.8 %	77.6 %	0.2 %	113	107	5.4 %			
Total Owned and Leased Hotels	\$139	\$131	5.9 %	75.7 %	74.9 %	0.8 %	\$183	\$175	4.8 %			

(in millions except percentages)	Year Ended December 31,				
	2013	2012	Better / (Worse)		
Segment Revenues	\$2,142	\$2,021	\$121	6.0	%
Segment Adjusted EBITDA	\$471	\$442	\$29	6.6	%

Adjusted EBITDA increased by \$29 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. Adjusted EBITDA at our comparable owned and leased properties increased \$28 million in the period ended December 31, 2013 compared to the same period in 2012, largely due to increased average daily rate at our full service and select service hotels in the United States, partially offset by higher compensation and related costs, rent expense, and real estate taxes. Adjusted EBITDA at our non-comparable hotels increased \$6 million in the year

ended December 31, 2013 compared to the same period in the prior year, primarily due to three new wholly owned full service hotels acquired in 2013, a full year of contribution from two properties acquired in 2012, and the opening of one leased property in 2012, partially offset by 11 hotels sold during 2013 and eight hotels sold in 2012. Adjusted EBITDA at our joint venture hotels decreased \$5 million in the year ended December 31, 2013, primarily due to a decline in Adjusted EBITDA resulting from the sale of our ownership interest in two hotels in 2012 and two hotels in 2013 and pre-opening costs for a hotel in Hawaii that opened in 2013. These decreases were partially offset by an increase in Adjusted EBITDA due to our new investment in all inclusive resorts, a new hotel opening in 2013 and improved performance from a hotel that was under renovation in 2012.

Table of Contents

Americas management and franchising. Americas management and franchising total revenues increased by \$62 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$1 million in unfavorable net currency impact. Other revenues from managed properties increased \$26 million in the year ended December 31, 2013 as compared to the year ended December 31, 2012, primarily driven by increases in hotel payroll expenses.

Management, franchise and other fees increased \$36 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. This was primarily driven by a \$25 million increase in franchise and other fee revenue, largely due to an \$11 million increase in termination fees, an \$11 million increase in franchise fees partially due to new and converted hotels, and a \$2 million increase in the amortization of deferred gains from hotels sold subject to a management agreement. Management fees increased \$11 million during the period, of which \$6 million was related to incentive fees and \$5 million was related to base management fees.

Our full service hotels comparable RevPAR improved 5.6% in the year ended December 31, 2013 compared to the year ended December 31, 2012. The RevPAR increase was primarily driven by growth in transient rate and occupancy. We also experienced slight growth in rate from group business. RevPAR at our select service hotels in the year ended December 31, 2013 increased by 5.2% compared to the year ended December 31, 2012 driven primarily by transient rate growth. During the year ended December 31, 2013, we removed two properties that left the chain in late 2012, one property that left the chain in late 2013, and one property that is undergoing significant renovation from the comparable Americas Full Service systemwide hotels. We removed no properties from the comparable Americas Select Service systemwide hotels.

(Comparable Systemwide Hotels)	Year Ended December 31, RevPAR			Occupancy			ADR		
	2013	2012	Better / (Worse)	2013	2012	Change in Occ % pts	2013	2012	Better / (Worse)
Americas Full Service	\$133	\$126	5.6 %	74.1 %	72.9 %	1.2 %	\$179	\$172	3.8 %
Americas Select Service	82	78	5.2 %	76.2 %	75.1 %	1.1 %	108	104	3.7 %

Americas management and franchising (in millions except percentages) Segment Revenues	Year Ended December 31,		Better / (Worse)
	2013	2012	
Management, Franchise and Other Fees	\$292	\$256	\$36 14.1 %
Other Revenues from Managed Properties	1,482	1,456	26 1.8 %
Total Segment Revenues	\$1,774	\$1,712	\$62 3.6 %
Segment Adjusted EBITDA	\$233	\$199	\$34 17.1 %

Adjusted EBITDA increased by \$34 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$1 million unfavorable net currency impact. The increase was primarily due to a \$36 million increase in management, franchise and other fees, partially offset by increases in selling, general and administrative expenses. The increases in selling, general and administrative expenses were largely due to increases in professional fees and payroll and related costs.

ASPAC management and franchising. ASPAC management and franchising total revenues increased by \$28 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included a \$2 million net unfavorable currency impact. Cost reimbursements from managed properties increased \$31 million. Management, franchise and other fees decreased \$3 million for the year ended December 31, 2013 primarily due to termination fees received in 2012, which did not recur in 2013. Base management fees and incentive fees were flat year over year. RevPAR decreased 2.6% (or increased 1.3%, excluding the unfavorable currency impact) for our comparable systemwide ASPAC full service hotels. Excluding the aforementioned unfavorable net currency impacts, RevPAR was up slightly as most of the region improved year over year. However, this was partially offset by the negative

impact of renovations at several of our large managed properties in Asia and declines in Greater China due to an increase in supply. During the year ended December 31, 2013, we removed two properties from the comparable ASPAC full service systemwide hotels due to significant renovations at those properties.

Edgar Filing: Hyatt Hotels Corp - Form 10-K

Table of Contents

(Comparable Systemwide Hotels)	Year Ended December 31, RevPAR			Occupancy			ADR		
	2013	2012	Better / (Worse)	2013	2012	Change in Occ % pts	2013	2012	Better / (Worse)
ASPAC Full Service	\$155	\$159	(2.6)%	68.0 %	66.9 %	1.1 %	\$227	\$237	(4.2)%

ASPAC management and franchising (in millions except percentages) Segment Revenues	Year Ended December 31,		
	2013	2012	Better / (Worse)
Management, Franchise and Other Fees	\$83	\$86	\$(3) (3.5)%
Other Revenues from Managed Properties	74	43	31 72.1 %
Total Segment Revenues	\$157	\$129	\$28 21.7 %
Segment Adjusted EBITDA	\$50	\$46	\$4 8.7 %

Adjusted EBITDA improved by \$4 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$2 million in net unfavorable currency effects. The increase in Adjusted EBITDA for the year ended December 31, 2013 compared to the year ended December 31, 2012 was primarily driven by a \$7 million decrease in selling, general and administrative expenses. The decrease in selling, general and administrative expenses was primarily due to increased bad debt recoveries during 2013, lower payroll and related costs, and lower technology costs.

EAME/SW Asia management. EAME/SW Asia management total revenues increased \$25 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$1 million in net unfavorable currency impact. Other revenues from managed properties increased \$16 million for the year ended December 31, 2013 compared to the same period in the prior year. Management and other fees increased \$9 million for the year ended December 31, 2013 compared to the same period in the prior year. The increase was driven by a \$7 million increase in base fees and a \$2 million increase in incentive fees, both primarily due to newly converted hotels in 2013. Comparable systemwide EAME/SW Asia full service RevPAR increased 3.7% (or 5.0% excluding the unfavorable currency impacts). Excluding the net unfavorable currency impact, most areas within the region increased RevPAR, primarily driven by the Middle East and parts of Western Europe. These increases were partially offset by the United Kingdom, which declined due to the Olympics in 2012. The increases in RevPAR are largely due to increased occupancy, primarily from transient growth. During the year ended December 31, 2013, we removed one property from the comparable EAME/SW Asia full service systemwide hotels.

(Comparable Systemwide Hotels)	Year Ended December 31, RevPAR			Occupancy			ADR		
	2013	2012	Better / (Worse)	2013	2012	Change in Occ % pts	2013	2012	Better / (Worse)
EAME/SW Asia Full Service	\$149	\$144	3.7 %	63.6 %	60.4 %	3.2 %	\$235	\$238	(1.6)%

EAME/SW Asia management (in millions except percentages) Segment Revenues	Year Ended December 31,		
	2013	2012	Better / (Worse)
Management and Other Fees	\$72	\$63	\$9 14.3 %
Other Revenues from Managed Properties	45	29	16 55.2 %
Total Segment Revenues	\$117	\$92	\$25 27.2 %
Segment Adjusted EBITDA	\$40	\$26	\$14 53.8 %

Adjusted EBITDA increased by \$14 million in the year ended December 31, 2013 compared to the year ended December 31, 2012, which included \$1 million in net unfavorable currency effects. The increase in Adjusted EBITDA

was partially driven by an increase in management and other fees of \$9 million in the year ended December 31, 2013 compared to the year ended December 31, 2012. Additionally, Adjusted EBITDA improved \$5 million during the year ended December 31, 2013 compared to the same period in 2012 due to decreases in selling, general and administrative expenses primarily due to lower payroll and related costs, partially offset by unfavorable bad debt expense due to fewer recoveries in 2013 as compared to 2012.

Corporate and other. Corporate and other includes unallocated corporate expenses, the results of our vacation ownership business, and the results of our co-branded credit card. Revenues increased by \$6 million in the year ended

Table of Contents

December 31, 2013 compared to the year ended December 31, 2012, which was primarily driven by a \$6 million increase in other revenues from managed properties and \$4 million in growth of our co-branded credit card program, partially offset by a \$4 million decline in vacation ownership revenues.

(in millions except percentages)	Year Ended December 31,		Better / (Worse)		
	2013	2012			
Corporate and other Revenues	\$99	\$93	\$6	6.5	%
Corporate and other Adjusted EBITDA	\$(114)	\$(107)	\$(7)	(6.5))%

Adjusted EBITDA decreased \$7 million in the year ended December 31, 2013 compared to the year ended December 31, 2012 as the previously mentioned revenue increases were offset by increases in other costs from managed properties of \$6 million, other direct costs of \$3 million from our co-branded credit card program, and increased selling, general and administrative costs of \$4 million for our unallocated corporate and other expenses. The increases in selling, general and administrative costs were largely driven by higher payroll and related expenses, partially offset by decreased taxes and professional fees in the current year.

Eliminations. Eliminations of \$105 million and \$98 million for the year ended December 31, 2013 and 2012, respectively, primarily represent fees charged by our management and franchising segments to our owned and leased hotels for managing their operations.

Non-GAAP Measure Reconciliation

The following table sets forth Adjusted EBITDA by segment for the years ended December 31, 2013 and 2012. For a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness, see “—Key Business Metrics Evaluated by Management.”

(in millions, except percentages)	Year Ended December 31,		Better / (Worse)

Revenues. Consolidated revenues in the year ended December 31, 2012 increased \$251 million, or 7%, compared to the year ended December 31, 2011, including \$21 million in net unfavorable currency effects and a \$78 million increase in other revenues from managed properties.

Other revenues from managed properties includes an increase of \$15 million resulting from changes in the value of the underlying assets for our benefit programs funded through rabbi trusts for the year ended December 31, 2012 compared to the year ended December 31, 2011. These gains are offset in other costs from managed properties, thus having no net impact to our earnings. Excluding this amount, other revenues from managed properties increased \$63 million, or 4%, in the year ended December 31, 2012 compared to the year ended December 31, 2011. This increase in other revenues from managed properties was due to a higher volume of reimbursements paid to us by our managed properties, which were driven primarily by an increase in payroll costs partially related to new managed hotel openings in 2011 in our Americas management and franchising segment and an owned hotel that was converted to a management agreement in 2011.

Owned and leased hotels revenues increased \$142 million for the year ended December 31, 2012 as compared to the year ended December 31, 2011. Comparable owned and leased hotel revenue increased \$73 million over the same period, which includes net unfavorable currency effects of \$18 million. The increase was primarily driven by increased revenues from the hotels in the United States that were under significant renovation in the prior year. Noncomparable owned and leased hotels revenue increased \$69 million for the year ended December 31, 2012 compared to the year ended December 31, 2011. The noncomparable increase was due primarily to a full year of contribution from the acquisition of 23 properties during 2011, two properties acquired in 2012 and the opening of one leased property in 2012, partially offset by 11 hotels that were sold or otherwise left the chain during 2011 and eight hotels sold in 2012.

We also experienced a \$19 million increase in management and franchise fee revenues for the year ended December 31, 2012 compared to the same period in 2011, which includes net unfavorable currency impacts of \$3 million. Included in consolidated management fees for the year ended December 31, 2012 were base management fees of \$154 million, a 7%

Table of Contents

increase from 2011, incentive management fees of \$97 million, which were flat compared to 2011, franchise fees of \$37 million, a 19% increase from 2011 and other fee revenues of \$19 million, a 12% increase from 2011. The increase in hotel revenue and fees was primarily driven by increases in average daily rate, as Americas transient rates increased compared to the prior year and occupancy was near historically high levels.

Other revenues, which includes the revenues of our vacation ownership business and the results of our co-branded credit card, increased \$12 million from 2011. The table below provides a breakdown of revenues by segment for the years ended December 31, 2012 and 2011.

For further discussion of segment revenues for the periods presented, please refer to “—Segment Results.”

(in millions, except percentages)	Year Ended December 31,		Better / (Worse)		
	2012	2011			
Owned and leased hotels	\$2,021	\$1,879	\$142	7.6	%
Americas management and franchising	1,712	1,615	97	6.0	%
ASPAC management and franchising	129	113	16	14.2	%
EAME/SW Asia management	92	92	—	—	%
Corporate and other	93	82	11	13.4	%
Eliminations	(98) (83) (15) (18.1)%
Consolidated revenues	\$3,949	\$3,698	\$251	6.8	%

Owned and leased hotels expense. Expenses for owned and leased hotels increased by \$81 million in the year ended December 31, 2012 compared to the year ended December 31, 2011. Comparable owned and leased hotels expense increased \$51 million for the year ended December 31, 2012 compared to the year ended December 31, 2011, largely attributable to higher compensation and related costs. Noncomparable owned and leased hotels expense increased \$24 million in the year ended December 31, 2012 as compared to the year ended December 31, 2011 as increases in expenses attributable to a full year of contribution from the 23 hotels purchased in 2011, two hotels purchased in 2012, and one leased hotel opened in 2012 were partially offset by reduced expenses attributable to the 11 properties which were sold or otherwise left the chain in 2011 and eight properties sold in 2012. Additionally, expenses recognized with respect to our employee benefit programs funded through rabbi trusts increased \$6 million driven by the performance of the underlying invested assets during the year ended December 31, 2012 as compared to the year ended December 31, 2011. Changes in these expenses are fully offset to net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings.

Depreciation and amortization expense. Depreciation and amortization expense increased by \$48 million in the year ended December 31, 2012 compared to the year ended December 31, 2011. The increase was driven by depreciation and amortization at our noncomparable hotels which increased \$41 million in 2012 as compared to 2011 primarily due to our acquisitions in the latter half of 2011. Comparable hotels depreciation and amortization expense increased \$7 million in 2012 as compared to 2011 primarily due to accelerated amortization of an intangible asset.

Other direct costs. Other direct costs, which represent costs associated with our vacation ownership operations and our co-branded credit card, increased by \$5 million in the year ended December 31, 2012 compared to the year ended December 31, 2011. Direct costs of our vacation ownership operations increased \$3 million. Direct costs of our co-branded credit card increased \$2 million primarily due to growth of the program in the year ended December 31, 2012 compared to the year ended December 31, 2011.

Selling, general and administrative expenses. Selling, general and administrative costs increased by \$33 million or 12% in the year ended December 31, 2012 compared to the year ended December 31, 2011. Included in selling, general and administrative expenses is the financial performance of the investment securities held in rabbi trusts to fund certain benefit programs. The financial performance of these investments resulted in an increase in costs of \$14 million for the year ended December 31, 2012 compared to the year ended December 31, 2011. These expenses are offset in net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings.

Excluding the rabbi trust amounts, selling, general and administrative costs increased \$19 million, or 7%, in the year ended December 31, 2012 compared to the year ended December 31, 2011. The increase was driven by bad debt

expense that was \$6 million greater in 2012 as we had \$2 million in higher expenses and a \$4 million benefit in the comparative prior year period, primarily from greater recoveries in the prior year. During the year ended December 31, 2012 compared to the year ended December 31, 2011, compensation and related expenses increased \$3 million primarily due to additional development resources and related staff added over the course of 2011 for which we had a full year of expense in 2012. Additionally, professional fees increased \$3 million primarily due to legal fees, and sales and marketing expenses increased \$2 million due

Table of Contents

primarily to our vacation ownership business. The remaining increase of \$5 million is due primarily to franchise taxes and business and occupation taxes.

Net gains and interest income from marketable securities held to fund operating programs. Net gains and interest income from marketable securities held to fund operating programs includes securities held to fund our benefit programs funded through rabbi trusts and securities held to fund our Hyatt Gold Passport program. These securities in total generated a net gain of \$21 million for the year ended December 31, 2012 and a net gain of \$2 million for the year ended December 31, 2011. Marketable securities held to fund our benefit programs funded through rabbi trusts resulted in a net gain of \$18 million in the year ended December 31, 2012 compared to the net loss of \$2 million in the year ended December 31, 2011. This change was driven by the market performance of the underlying securities. The gains or losses on securities held in the rabbi trusts offset our owned and leased hotels expense for our hotel staff and selling, general and administrative expenses for our corporate staff and personnel supporting our business segments, having no net impact on our earnings. Of the \$20 million change in the underlying securities, \$14 million was offset in selling, general and administrative expenses and \$6 million was offset in owned and leased hotel expenses.

Marketable securities held to fund our Hyatt Gold Passport program and related to our owned and leased hotels, generated a net gain of \$3 million in the year ended December 31, 2012 compared to a net gain of \$4 million for the year ended December 31, 2011. The gains and losses on securities held to fund our Hyatt Gold Passport program and related to our owned and leased hotels were offset by corresponding changes to our owned and leased hotel revenues, thus having no net impact on our earnings.

Equity earnings (losses) from unconsolidated hospitality ventures. Equity earnings (losses) from unconsolidated hospitality ventures was a \$22 million loss in the year ended December 31, 2012 compared to equity earnings of \$4 million for the year ended December 31, 2011. During 2012 we recorded impairment charges of \$19 million related to our interest in two hospitality ventures and one vacation ownership property and during 2011 we recorded an impairment charge of \$1 million related to our interest in a vacation ownership property. Further, during 2012 we had \$4 million of non-capitalizable costs associated with the development of hotels at our hospitality ventures. The remaining decrease is due primarily to lower distributions generated from hospitality ventures and lower net income generated by vacation ownership properties.

Interest expense. Interest expense increased by \$13 million in the year ended December 31, 2012 compared to the year ended December 31, 2011. The issuance of \$500 million aggregate principal amount of senior unsecured notes in August 2011 resulted in a \$15 million increase in interest expense for the year ended December 31, 2012 compared to the year ended December 31, 2011. Additionally, in the year ended December 31, 2011 we reversed \$4 million of interest expense, which had been expensed in years prior to 2011, related to interest on value added tax penalties that were waived during the year ended December 31, 2011. These increases during the year ended December 31, 2012 compared to the year ended December 31, 2011 were partially offset by a \$4 million reduction in fees related to the amendment of our revolving credit facility and a \$2 million reduction related to the repayment of a loan in 2011.

Asset impairments. Asset impairments are recorded as necessary, based on our regular evaluation of assets for impairment. There were no impairments in the year ended December 31, 2012 recorded in asset impairments in our consolidated statements of income compared to \$6 million recorded in asset impairments for the year ended December 31, 2011. The \$6 million impairment charge in 2011 was primarily due to an impairment of inventory for our vacation ownership business related to a change in management's assumptions regarding future sales volume and pricing of unsold vacation ownership intervals. In three of these vacation ownership properties, our ownership interest was less than 100%. As a result, \$1 million of this impairment charge was attributable to our partners and reflected in net loss attributable to noncontrolling interest, resulting in a net total impairment charge attributable to Hyatt Hotels Corporation of \$5 million in the year ended December 31, 2011.

Table of Contents

Other income (loss), net. Other income (loss), net, increased by \$18 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, primarily due to the favorable impact of our other marketable securities of \$30 million, partially offset by realignment costs. The table below provides a breakdown of other income (loss), net for the years ended December 31, 2012 and December 31, 2011, respectively:

(in millions)	Year Ended December 31,		
	2012	2011	Better / (Worse)
Interest income	\$23	\$23	\$ —
Gains (losses) on other marketable securities (1)	17	(13) 30
Impairment of held-to-maturity investment (2)	(4) —	(4)
Foreign currency losses	(3) (5) 2
Provisions on hotel loans (3)	(4) (4) —
Realignment costs (4)	(21) —	(21)
Transaction costs (5)	(2) (5) 3
Other (6)	1	(7) 8
Other income (loss), net	\$7	\$(11) \$ 18

(1) Represents gains (losses) on investments in trading securities not used to fund operating programs.

(2) The year ended December 31, 2012 includes a \$4 million impairment of a held-to-maturity investment that was recorded in other assets in our consolidated balance sheet.

(3) During 2012 we recorded a provision related to a pre-opening loan. During 2011 we recorded provisions related to certain hotel developer loans based on our assessment of their collectability. See Note 7 to our consolidated financial statements included in this annual report for further detail.

(4) Represents costs incurred as part of the realignment of corporate and regional operations and includes employee separation costs, relocation costs, consulting fees, and legal fees.

(5) Transaction costs incurred during the year ended December 31, 2012 represents transaction costs incurred primarily to acquire the Hyatt Regency Mexico City and the Hyatt Regency Birmingham, while prior year amount represents transaction costs incurred to acquire hotels and other assets from LodgeWorks. See Note 8 to our consolidated financial statements included in this annual report for further detail.

(6) Includes a gain from a sublease agreement in 2012, losses from two sublease agreements recorded in 2011, one of which was agreed to with a related party, and gains (losses) on asset retirements for each period presented. See Note 11 and Note 19 to our consolidated financial statements included in this annual report for further detail on the sublease agreements.

(Provision) benefit for income taxes. Income taxes for the years ended December 31, 2012 and 2011 was a provision of \$8 million and a benefit of \$28 million respectively, which resulted in effective income tax rates of 8.3% and (33.9)%, respectively.

The effective tax rate for 2012 of 8.3% differed from the U.S. statutory federal income tax rate of 35% primarily due to benefits relating to foreign tax credits of \$26 million, settlement of state tax matters of \$6 million, interest expense on the treatment for expensing certain renovation costs in prior years of \$6 million, and \$3 million for reductions in foreign statutory tax rates. These benefits are partially offset by \$7 million resulting from a reduction in the deferred tax assets of certain non-consolidated investments and approximately \$8 million (including \$3 million in interest and penalties) for uncertain tax positions in foreign jurisdictions.

The effective tax rate for 2011 of (33.9)% differed from the U.S. statutory federal income tax rate of 35% primarily due to a benefit of \$30 million related to foreign tax credits generated by a deemed distribution from foreign subsidiaries, a benefit of \$17 million related to a settlement of a tax issue in a foreign jurisdiction and the release of a valuation allowance of \$13 million against certain foreign net operating losses. In addition, the effective rate was further reduced by taxes at rates below the U.S. rate at our foreign-based operations. These items are offset by \$13 million of net increases to our domestic uncertain positions (inclusive of interest and penalties).

Segment Results

We evaluate segment operating performance using segment revenue and segment Adjusted EBITDA, as described in Note 20 to our consolidated financial statements included in this annual report. See “—Key Business Metrics Evaluated by

77

Table of Contents

Management” for a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness. The segment results presented below are presented before intersegment eliminations. During 2012, we completed a realignment of our organization in order to enhance organizational effectiveness and adaptability. As a result of these changes, we reevaluated our operating segments and have changed from three reportable segments to four reportable segments. The segment results presented here have been recast to show our full year 2011 results as if our new operating structure had existed in those periods.

Owned and Leased Hotels. Revenues increased by \$142 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, which included \$18 million in net unfavorable currency impact. Worldwide comparable hotel revenues increased \$73 million in 2012 as compared to 2011, \$62 million of which was from hotels in the United States that were under significant renovation in 2011. These increases were partially offset by our revenues from comparable hotels outside of the United States which were negatively impacted by foreign currency effects of \$18 million in the year ended December 31, 2012, compared to the same period in 2011. For the year ended December 31, 2012, revenue growth at our comparable full service owned hotels was driven primarily by increased occupancy and average daily rate, primarily from transient travelers in the United States compared to the same period in 2011. Non-comparable owned and leased hotel revenues increased \$69 million in the year ended December 31, 2012, compared to the year ended December 31, 2011, largely driven by a full year contribution by the 23 hotels purchased during the second and third quarters of 2011 and two hotels purchased and one leased hotel that opened during 2012. These increases were partially offset by a decrease in revenues from the 11 hotels that were sold or otherwise left the chain during 2011 and eight hotels that were sold in the fourth quarter of 2012. During the year ended December 31, 2012, we removed eight properties from the comparable owned and leased hotel results and moved them to noncomparable owned and leased hotel results.

	Year Ended December 31,											
	RevPAR		Better / (Worse)		Occupancy		Change in Occ % pts		ADR		Better / (Worse)	
(Comparable Owned and Leased Hotels)	2012	2011			2012	2011			2012	2011		
Full Service	\$152	\$142	7.1 %		74.5 %	71.1 %	3.4 %		\$204	\$199	2.1 %	
Select Service	75	71	6.6 %		77.6 %	77.5 %	0.1 %		97	91	6.5 %	
Total Owned and Leased Hotels	\$135	\$126	7.0 %		75.2 %	72.5 %	2.7 %		\$180	\$174	3.2 %	

(in millions except percentages)	Year Ended December 31,			
	2012	2011	Better / (Worse)	
Segment Revenues	\$2,021	\$1,879	\$142	7.6 %
Segment Adjusted EBITDA	\$442	\$400	\$42	10.5 %

Adjusted EBITDA increased by \$42 million, which included \$6 million in net unfavorable currency effects, in the year ended December 31, 2012 compared to the year ended December 31, 2011. Noncomparable hotels improved \$34 million for the year ended December 31, 2012 primarily due to a full year of contribution from the 23 hotels purchased in 2011 and two hotels purchased in 2012. Our comparable owned and leased properties also improved \$13 million for the year ended December 31, 2012, compared to the same period in 2011, due primarily to increased demand and average daily rates at our full service hotels, in particular at our properties that were under significant renovation in 2011, partially offset by higher compensation and related expenses. Additionally, Adjusted EBITDA at our joint venture hotels decreased \$5 million in the year ended December 31, 2012, primarily due to unfavorable currency effects and the sale of our ownership interest in two hotels in 2012.

Americas management and franchising. Americas management and franchising revenues increased by \$97 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, primarily due to increased other revenues from managed properties of \$64 million. The increase in costs reimbursements from managed properties was primarily driven by increases in hotel payroll expense, partially due to hotel openings and newly converted hotels. Management and franchise fees increased \$33 million for the year ended December 31, 2012 compared to the year

ended December 31, 2011 due to increased base fees of \$17 million, increased franchise fees and other revenues of \$9 million, and increased incentive fees of \$7 million. Of the \$33 million improvement in total Americas management and franchise fees, comparable systemwide Americas management and franchise fees increased \$19 million in the year ended December 31, 2012, compared to the year ended December 31, 2011.

Our full service hotels comparable RevPAR improvement of 6.5% in the year ended December 31, 2012 compared to the year ended December 31, 2011 was primarily driven by the growth in transient rate. We also experienced slight growth in occupancy across both transient and group business, as well as moderate increases in group rate. RevPAR at our select service

Table of Contents

hotels in the year ended December 31, 2012 increased by 7.0% compared to the year ended December 31, 2011 driven primarily by average daily rate growth. During the year ended December 31, 2012, we removed two properties from the comparable Americas full service systemwide hotels and no properties were removed from the comparable Americas select service systemwide hotels.

(Comparable Systemwide Hotels)	Year Ended December 31,		Occupancy				ADR		Better / (Worse)	
	RevPAR				Change					
	2012	2011	Better / (Worse)	2012	2011	in Occ % pts	2012	2011		
Americas Full Service	\$125	\$118	6.5 %	72.9 %	71.3 %	1.6 %	\$172	\$165	4.2 %	
Americas Select Service	76	71	7.0 %	74.8 %	73.4 %	1.4 %	102	97	5.0 %	

Americas management and franchising (in millions except percentages) Segment Revenues	Year Ended December 31,		Better / (Worse)	
	2012	2011		
Management, Franchise and Other Fees	\$256	\$223	\$33	14.8 %
Other Revenues from Managed Properties	1,456	1,392	64	4.6 %
Total Segment Revenues	\$1,712	\$1,615	\$97	6.0 %
Segment Adjusted EBITDA	\$199	\$167	\$32	19.2 %

Adjusted EBITDA improved by \$32 million in the year ended December 31, 2012 compared to the year ended December 31, 2011 primarily due to a \$33 million increase in management and franchise fees. Adjusted EBITDA also benefited from a \$3 million decrease in sales and marketing expense in the year ended December 31, 2012 as compared to 2011. These improvements were partially offset by increased bad debt expense of \$3 million for the year ended December 31, 2012 compared to the same period in 2011.

ASPAC management and franchising. ASPAC management and franchising revenues increased by \$16 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, which included an insignificant amount in net favorable currency impact. Management and franchise fees increased \$5 million for the year ended December 31, 2012, which included a \$3 million increase in incentive fees, a \$1 million increase in base management fees, and a \$1 million increase in franchise and other revenues. Of the \$5 million increase in total management and franchise fees, comparable systemwide ASPAC fees increased \$4 million, which includes an insignificant net unfavorable currency impact in the year ended December 31, 2012 compared to the year ended December 31, 2011. The increase in comparable fees is due primarily to a 6.7% increase (or 6.9% increase, excluding the unfavorable currency impact) in RevPAR for our comparable systemwide ASPAC full service hotels. This RevPAR improvement was primarily the result of increased average daily rates across all areas in the region except certain parts of China. Further, particular areas such as Japan, Australia, Hong Kong, and Macau, had strong fee increases. During the year ended December 31, 2012, we removed two properties from the comparable ASPAC full service systemwide hotels.

(Comparable Systemwide Hotels)	Year Ended December 31,		Occupancy				ADR		Better / (Worse)	
	RevPAR				Change

Total Segment Revenues	\$129	\$113	\$16	14.2	%
Segment Adjusted EBITDA	\$46	\$40	\$6	15.0	%

Adjusted EBITDA increased by \$6 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, which included insignificant net unfavorable currency effects. The increase in Adjusted EBITDA for the year ended December 31, 2012 compared to the year ended December 31, 2011 was primarily driven by \$5 million in increased

Table of Contents

management and franchise fees and decreased compensation and related expenses of \$2 million. Partially offsetting these improvements was an increase in bad debt expense of \$1 million during the year ended December 31, 2012 as compared to the same period in 2011.

EAME/SW Asia management. EAME/SW Asia management revenues were flat in the year ended December 31, 2012 compared to the year ended December 31, 2011, which included \$3 million in net unfavorable currency impact. Management and other fees decreased \$4 million (or \$1 million excluding the unfavorable currency impacts) for the year ended December 31, 2012, which was driven primarily by activity at our comparable hotels. The \$4 million decrease in management and other fees includes a \$3 million decrease in incentive fees and a \$1 million decrease in other fees. Comparable systemwide EAME/SW Asia full service RevPAR decreased 2.9% (or 2.5% increase, excluding the unfavorable currency impacts). Both average daily rate on a constant currency basis and occupancy improved in the year ended December 31, 2012 compared to the year ended December 31, 2011. On a constant currency basis, the region had strong results in the United Kingdom due to the Olympic Games as well as in France, Germany, and Turkey. These gains were partially offset by negative pressure from economic and political volatility in parts of Europe, the Middle East, and India. There were no properties removed from the comparable EAME/SW Asia full service hotels portfolio during the year ended December 31, 2012.

(Comparable Systemwide Hotels)	Year Ended December 31,			Occupancy		Change in Occ % pts	ADR		Better / (Worse)
	RevPAR		Better / (Worse)	2012	2011		2012	2011	
EAME/SW Asia Full Service	\$149	\$154	(2.9)%	61.9 %	60.8 %	1.1 %	\$241	\$253	(4.5)%

EAME/SW Asia management (in millions except percentages) Segment Revenues	Year Ended December 31,		
	2012	2011	Better / (Worse)
Management and Other Fees	\$63	\$67	\$(4) (6.0)%
Other Revenues from Managed Properties	29	25	4 16.0 %
Total Segment Revenues	\$92	\$92	\$— — %
Segment Adjusted EBITDA	\$26	\$34	\$(8) (23.5)%

Adjusted EBITDA decreased by \$8 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, which included \$2 million in net unfavorable currency effects. The decrease in Adjusted EBITDA was partially driven by a decrease in management and other fees of \$4 million in the year ended December 31, 2012 compared to the same period in 2011. Additionally, Adjusted EBITDA declined during the year ended December 31, 2012 due to bad debt expense that was \$3 million greater in 2012, as we had a \$1 million benefit in the year ended December 31, 2012 and a \$4 million benefit in the comparative prior year period, primarily from greater recoveries in the prior year. Additionally, legal fees increased \$1 million in the year ended December 31, 2012 as compared to the same period in 2011.

Corporate and other. Corporate and other includes unallocated corporate expenses, the results of our vacation ownership business, and the results of our co-branded credit card. Revenues increased by \$11 million in the year ended December 31, 2012 compared to the year ended December 31, 2011, which was primarily driven by increased revenues for our vacation ownership business of \$8 million due to increased contract sales. The remaining increase of \$3 million in the year ended December 31, 2012 compared to 2011 was driven by growth of our co-branded credit card program.

(in millions except percentages)	Year Ended December 31,		
	2012	2011	Better / (Worse)
Corporate and other Revenues	\$93	\$82	\$11 13.4 %
Corporate and other Adjusted EBITDA	\$(107)	\$(103)	\$(4) (3.9)%

Edgar Filing: Hyatt Hotels Corp - Form 10-K

Adjusted EBITDA decreased \$4 million in the year ended December 31, 2012 compared to the year ended December 31, 2011 as the previously mentioned revenue increases were offset by an increase in selling, general, and administrative expenses for our unallocated corporate and other expenses of \$11 million. This increase in selling, general, and administrative expenses was primarily due to compensation and related expense increases for our unallocated corporate personnel of \$5 million and sales and marketing expense increases of \$5 million primarily for our vacation ownership business. Additionally, other direct costs increased \$5 million in the year ended December 31, 2012 as compared to the same period in 2011, related to an increase in direct costs for our vacation ownership business of \$3 million and for our co-branded credit card of \$2 million, respectively.

80

Table of Contents

Eliminations. Eliminations of \$98 million and \$83 million for the year ended December 31, 2012 and 2011, respectively, primarily represent fees charged by our management and franchising segments to our owned and leased hotels for managing their operations.

Non-GAAP Measure Reconciliation

The following table sets forth Adjusted EBITDA by segment for the years ended December 31, 2012 and 2011. For a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness, see “—Key Business Metrics Evaluated by Management.”

(in millions, except percentages)	Year Ended December 31,		Better / (Worse)		
	2012	2011			
Owned and leased hotels	\$442	\$400	\$42	10.5	%
Americas management and franchising	199	167	32	19.2	%
ASPAC management and franchising	46	40	6	15.0	%
EAME/SW Asia management	26	34	(8) (23.5)%
Corporate and other	(107) (103) (4) (3.9)%
Consolidated Adjusted EBITDA	\$606	\$538	\$68	12.6	%

The table below provides a reconciliation of our consolidated Adjusted EBITDA to EBITDA and a reconciliation of EBITDA to net income attributable to Hyatt Hotels Corporation in the years ended December 31, 2012 and 2011:

(in millions)	Year Ended December 31,		
	2012	2011	
Adjusted EBITDA	\$606	\$538	
Equity earnings (losses) from unconsolidated hospitality ventures	(22) 4	
Losses on sales of real estate	—	(2)
Asset impairments	—	(6)
Other income (loss), net	7	(11)
Net loss attributable to noncontrolling interests	1	2	
Pro rata share of unconsolidated hospitality ventures Adjusted EBITDA	(73) (78)
EBITDA	519	447	
Depreciation and amortization	(353) (305)
Interest expense	(70) (57)
(Provision) benefit for income taxes	(8) 28	
Net income attributable to Hyatt Hotels Corporation	\$88	\$113	

Inflation

We do not believe that inflation had a material effect on our business in 2013, 2012 or 2011.

Liquidity and Capital Resources

Overview

We finance our business primarily with existing cash, short-term investments and cash generated from our operations. As part of our business strategy we also recycle capital by using net proceeds from dispositions to support our acquisitions and new investment opportunities. When appropriate, we borrow cash under our revolving credit facility or from other third party sources, and may also raise funds by issuing debt or equity securities as necessary. We maintain a cash investment policy that emphasizes preservation of capital. We had cash and cash equivalents and short-term investments of \$484 million and \$927 million at December 31, 2013 and 2012, respectively. We believe that our cash position, short-term investments and cash from operations, together with borrowing capacity under our revolving credit facility and our access to the capital markets, will be adequate to meet all of our funding requirements and capital deployment objectives in the foreseeable future.

We may, from time to time, seek to retire or purchase additional amounts of our outstanding equity and/or debt securities through cash purchases and/or exchanges for other securities, in open market purchases, privately negotiated transactions or

81

Table of Contents

otherwise, including pursuant to a Rule 10b5-1 plan. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Recent Transactions Affecting Our Liquidity and Capital Resources

In February 2014, we entered into a definitive purchase and sale agreement to sell 9 select service hotels and 1 full service hotel for approximately \$313 million to RLJ Lodging Trust. During 2014, we also anticipate exercising the option in our lease agreement to purchase the Hyatt Regency Grand Cypress for \$190 million. Additionally, through an unconsolidated hospitality venture we are committed to purchase a hotel within a to-be completed building in New York City for a total purchase price of approximately \$380 million. The hospitality venture will be funded upon the purchase of the hotel, and our share of the purchase price commitment is 66.67% (or approximately \$253 million).

In January 2014, we entered into a Second Amended and Restated Credit Agreement with a syndicate of lenders that provides for a \$1.5 billion senior unsecured revolving credit facility that matures in January 2019. This restated our existing \$1.5 billion facility which was scheduled to mature in September 2016. For a detailed discussion of the revolving credit facility, see “—Revolving Credit Facility.”

During 2013, our Board of Directors authorized the repurchase of up to \$400 million of the Company's common stock. During the year ended December 31, 2013, we repurchased \$275 million of the Company's common stock. The common stock repurchase program does not obligate the Company to repurchase any dollar amount or number of shares of common stock and the program may be suspended or discontinued at any time. See Note 17 for details of our 2013 and 2012 share repurchase plans, including our most recent repurchase authorization, which was announced on October 30, 2013.

During the year ended December 31, 2013, we entered into management agreements and a related performance guarantee with a third party that acquired four hotels in France. The performance guarantee does not have an annual cap and the maximum total commitment under the performance guarantee at inception is €377 million, or \$519 million, using exchange rates as of December 31, 2013. We became subject to the guarantee in 2013 with the conversion of the hotels to Hyatt management. Our current expectation is that any payment under the performance guarantee in 2014 would not be significant. See Note 16 to our consolidated financial statements for further information.

During the year ended December 31, 2013, we redeemed our outstanding 2015 Notes, which had an aggregate principal amount of \$250 million outstanding. In accordance with the terms of the 2015 Notes, the redemption price was \$278 million. During the year ended December 31, 2013, we also completed a cash tender offer to repurchase any and all of our outstanding 2019 Notes. Prior to the repurchase, we had an aggregate principal amount of \$250 million of 2019 Notes outstanding, of which \$54 million was repurchased. An early tender premium of \$12 million was paid in relation to the purchase, resulting in a \$66 million total cash outflow related to the tender offer. The remaining \$196 million of the 2019 Notes remains on our balance sheet subject to the original terms of the note agreement. In addition, during the year ended December 31, 2013, we issued \$350 million of 3.375% Senior Notes due 2023. We received net proceeds of \$345 million from the sale of these notes, after deducting discounts and offering expenses of approximately \$3 million.

During the year ended December 31, 2013, we announced that a wholly owned Hyatt subsidiary closed on its investment in Playa, a company that was formed to own, operate and develop all inclusive resorts. Hyatt invested a total of \$325 million in Playa during the year ended December 31, 2013 in return for preferred and common shares. See Note 3 to our consolidated financial statements for further information.

During the year ended December 31, 2013, we acquired the hotel formerly known as The Peabody Orlando in a like-kind exchange transaction, for approximately \$716 million. The hotel has subsequently been rebranded as Hyatt Regency Orlando. See Note 8 to our consolidated financial statements for further information.

During the year ended December 31, 2013, we purchased the remaining 70% interest in the entity that owns the Grand Hyatt San Antonio from our venture partner for a purchase price of \$16 million and repaid \$44 million of mezzanine debt and consolidated \$200 million of outstanding bonds that were held at the hospitality venture. See Note 8 to our consolidated financial statements for further information.

Edgar Filing: Hyatt Hotels Corp - Form 10-K

During 2013, we sold seven full service properties for \$497 million, net of closing costs. We entered into either long-term management agreements or long-term franchise agreements with the owners of the properties.

During 2013, we sold four select service properties for cash proceeds of \$68 million, net of closing costs. We entered into long-term management agreements with the purchaser of the hotels.

During 2012, we acquired all of the outstanding shares of capital stock of a company that owned a full service hotel in Mexico City, Mexico. The total purchase price was approximately \$202 million and as part of the purchase, we acquired cash and cash equivalents of \$12 million, resulting in a net purchase price of \$190 million.

Table of Contents

In August 2012 our Board of Directors approved a share repurchase of up to \$200 million of the Company's common stock. In accordance with the authorization, in 2012 the Company repurchased \$136 million of Class A common stock, excluding related expenses.

During 2012 we sold seven Hyatt Place properties and one Hyatt House property for a combined \$87 million, net of closing costs, and sold our interest in two joint ventures for \$52 million.

During 2011, we acquired hotels and other assets from LodgeWorks, resulting in an aggregate purchase of 20 hotels, branding, management and franchising rights to an additional four hotels, and other assets for a price of approximately \$661 million.

In August 2011, we issued \$250 million of 3.875% senior notes due 2016 (the "2016 Notes") and \$250 million of 5.375% senior notes due 2021 (the "2021 Notes"). See "—Senior Notes." We intend to use the proceeds for general corporate purposes.

In May 2011, we repurchased 8,987,695 shares of our outstanding Class B common stock for approximately \$396 million.

Sources and Uses of Cash

At December 31, 2013, we had cash and cash equivalents of \$454 million compared to cash and cash equivalents of \$413 million at December 31, 2012 and \$534 million at December 31, 2011.

(in millions)	Year Ended December 31,		
	2013	2012	2011
Cash provided by (used in):			
Operating activities	\$456	\$499	\$393
Investing activities	(147) (489) (1,015
Financing activities	(264) (124) 56
Effects of changes in exchange rate on cash and cash equivalents	(4) (7) (10
Net change in cash and cash equivalents	\$41	\$(121) \$(576

As of December 31, 2013, we have determined that undistributed net earnings of \$329 million of certain foreign subsidiaries would be indefinitely reinvested in operations outside the United States. These earnings could become subject to additional taxes if remitted as dividends, loaned to a U.S. affiliate, or if we sold our interest in the affiliates; the resulting U.S. income tax liabilities could be offset, in whole or in part, by credits allowable for taxes paid to foreign jurisdictions.

Cash Flows from Operating Activities

Cash flows provided by operating activities totaled \$456 million in the year ended December 31, 2013 compared to \$499 million in the year ended December 31, 2012. Cash flow from operations was negatively impacted as a large portion of net income in 2013 was driven by investing activities, including the gains on sales of real estate and artwork and negatively impacted by the change in deferred income taxes. The increase in cash attributable to changes in assets and liabilities is primarily driven by the increase in deferred tax liabilities related primarily to the treatment of renovation costs in 2012, partially offset by increased restricted cash related to our captive insurance subsidiary in 2013.

Cash flows provided by operating activities totaled \$499 million in the year ended December 31, 2012 compared to \$393 million in the year ended December 31, 2011. Cash flow from operations was positively impacted in 2012 by increased cash generated by operating performance across all segments, while 2011 was negatively impacted by an increase in deferred income taxes.

Cash Flows from Investing Activities

Cash flows used in investing activities totaled \$147 million, \$489 million, and \$1,015 million in the years ended December 31, 2013, 2012 and 2011, respectively.

2013 Activity:

• received a total of \$440 million in net proceeds from marketable securities and short-term investments.

• sold seven full service properties for \$497 million, net of closing costs, of which \$437 million was classified as restricted cash in anticipation of consummation of a like-kind exchange agreement, of which \$363 million has been

subsequently released.

received proceeds of \$277 million related to a mortgage loan receivable.

83

Table of Contents

sold four Hyatt Place properties for cash proceeds of \$68 million, net of closing costs, of which \$23 million was classified as restricted cash in anticipation of consummation of a like-kind exchange agreement which was subsequently released.

received \$63 million as a return of our preferred equity investment in the entity that owns the Hyatt Regency New Orleans.

released \$44 million from restricted cash in conjunction with the sale of three Hyatt Place properties in 2012, as a like-kind exchange was not consummated within the allowable time frame.

invested a total of \$428 million in unconsolidated hospitality ventures, which included \$325 million for an investment in Playa and \$68 million for an investment in Wailea Hotel and Beach Resort, LLC, related to our commitment to the development of a hotel property in the State of Hawaii.

acquired The Peabody in Orlando, Florida for a purchase price of \$716 million, which includes \$2 million of cash acquired, The Driskill in Austin, Texas for a purchase price of \$85 million and the remaining 70% interest in the entity that owns the Grand Hyatt San Antonio hotel for a purchase price of \$16 million, which includes \$1 million of cash acquired.

For the year ended December 31, 2013, capital expenditures were \$232 million (see "Capital Expenditures" below).

2012 Activity:

acquired the common stock of an entity that owned the Hotel Nikko Mexico in Mexico City, Mexico, for a net purchase price of \$190 million.

acquired the Hyatt Regency Birmingham in the United Kingdom for a net purchase price of approximately \$43 million.

sold seven Hyatt Place properties and one Hyatt House property for a combined \$87 million, net of closing costs, to an unrelated third party.

sold our interest in two equity method investments to a third party for \$52 million.

For the year ended December 31, 2012, capital expenditures were \$301 million (see "Capital Expenditures" below).

2011 Activity:

acquired 20 hotels, branding and management rights to an additional four hotels and other assets from LodgeWorks for a total purchase price of approximately \$661 million, of which approximately \$639 million was paid during the year and approximately \$20 million was placed into an escrow account pursuant to a holdback agreement. The amount in escrow was classified as restricted cash on our consolidated balance sheet as of December 31, 2011 and was released and paid to LodgeWorks during the year ended December 31, 2012.

acquired three select service properties in California for a total purchase price of approximately \$77 million.

invested a total of \$130 million in marketable securities, short-term investments and unconsolidated hospitality ventures.

entered into an agreement with a third party to sell eight select service properties for a combined sales price of \$110 million (\$90 million, net of \$20 million contributed to a new joint venture) and we also sold a Company owned airplane for \$18 million, net of closing costs.

For the year ended December 31, 2011, capital expenditures were \$331 million (see "Capital Expenditures" below).

Cash Flows from Financing Activities

Cash flows used by financing activities totaled \$264 million and \$124 million for the years ended December 31, 2013 and 2012, respectively. Cash flows provided by financing activities were \$56 million for the year ended December 31, 2011.

During 2013, we redeemed all of our outstanding 2015 Notes for an aggregate redemption price of \$278 million. In addition, we completed a tender offer on our 2019 Notes, of which \$66 million in aggregate was paid. In conjunction with the aforementioned debt redemption and tender offer, we issued and sold \$350 million of 2023 Notes and received proceeds of \$345 million. In conjunction with the purchase of our remaining interest in the entity that owns Grand Hyatt San Antonio, we paid off \$44 million of mezzanine debt that was held at the hospitality venture. In addition, the Company repurchased 6,604,768 shares of common stock for an aggregate purchase price of \$275 million.

During 2012, the Company repurchased 3,690,282 shares of common stock, for an aggregate purchase price of \$136 million. The cash outflows related to the share repurchase were partially offset by \$10 million in funds received from a loan to renovate a new select service property.

Table of Contents

During 2011, we issued \$250 million of 2016 Notes and \$250 million of 2021 Notes, which resulted in \$494 million in net proceeds, after deducting discounts and offering expenses paid by the Company of approximately \$4 million. In addition, we repurchased 8,987,695 shares of Class B common stock for approximately \$396 million. Additionally, we received \$25 million in proceeds from a loan that we assigned to a newly formed joint venture formed for the purpose of owning and operating the Hyatt Regency Minneapolis. We also had \$54 million in debt repayments, primarily related to \$53 million used to pay off a 9.26% fixed rate mortgage.

During the years ended December 31, 2013 and 2012, we had no draws on our revolving credit facility, but we drew \$30 million (excluding the effects of currency) on a construction loan for the development of a hotel in Brazil during the year ended December 31, 2013.

The following is a summary of our debt to capital ratios as of December 31, 2013 and December 31, 2012:

(in millions, except percentages)	December 31, 2013	December 31, 2012		
Consolidated debt (1)	\$1,483	\$1,233		
Stockholders' equity	4,769	4,811		
Total capital	6,252	6,044		
Total debt to total capital	23.7	%	20.4	%
Consolidated debt (1)	1,483	1,233		
Less: Cash and cash equivalents and short-term investments	484	927		
Net consolidated debt (cash and short-term investments)	999	306		
Net debt to total capital	16.0	%	5.1	%

(1) Excludes approximately \$672 million and \$568 million of our share of unconsolidated hospitality venture indebtedness as of December 31, 2013 and 2012, respectively, substantially all of which is non-recourse to us.

Cash Flows from Discontinued Operations

In 2013, 2012 and 2011 there were no cash flows provided by discontinued operations.

Capital Expenditures

We routinely make capital expenditures to enhance our business. We divide our capital expenditures into maintenance, enhancements to existing properties and investment in new facilities.

During the year ended December 31, 2013, we made total capital expenditures of \$232 million, which included \$81 million for enhancements to existing properties, \$90 million for maintenance, and \$61 million for investment in new facilities.

During the year ended December 31, 2012, we made total capital expenditures of \$301 million, which included \$153 million for enhancements to existing properties, \$106 million for maintenance, and \$42 million for investment in new facilities.

During the year ended December 31, 2011, we made total capital expenditures of \$331 million, \$226 million for enhancements to existing properties, \$92 million for maintenance, and \$13 million for investment in new facilities.

Senior Notes

The following table sets forth the principal, maturity and interest rate of our senior unsecured notes described below (collectively, the "senior notes"). Interest on the senior notes is payable semi-annually.

Description	Principal Amount
3.875% senior notes due 2016	\$250,000,000
6.875% senior notes due 2019	\$196,000,000
5.375% senior notes due 2021	\$250,000,000
3.375% senior notes due 2023	\$350,000,000
Total	\$1,046,000,000

Table of Contents

In the indenture that governs the senior notes, we agreed not to:
create any liens on our principal properties, or on the capital stock or debt of our subsidiaries that own or lease principal properties, to secure debt without also effectively providing that the senior notes are secured equally and ratably with such debt for so long as such debt is so secured; or
enter into any sale and leaseback transactions with respect to our principal properties.

These limitations are subject to significant exceptions.

The indenture also limits our ability to enter into mergers or consolidations or transfer all or substantially all of our assets unless certain conditions are satisfied.

If a change of control triggering event occurs, as defined in the indenture governing the senior notes, we will be required to offer to purchase the senior notes at a price equal to 101% of their principal amount, together with accrued and unpaid interest, if any, to the date of purchase. We may also redeem some or all of the senior notes at any time prior to their maturity at a redemption price equal to 100% of the principal amount of the senior notes redeemed plus accrued and unpaid interest, if any, to the date of redemption plus a make-whole amount.

We are in compliance with all applicable covenants under the indenture governing our senior notes as of December 31, 2013.

Revolving Credit Facility

On January 6, 2014, we entered into a Second Amended and Restated Credit Agreement with a syndicate of lenders that amended and restated our prior revolving credit facility to extend the facility's expiration from September 9, 2016 to January 4, 2019. The revolving credit facility is intended to provide financing for working capital and general corporate purposes, including commercial paper back-up and permitted investments and acquisitions.

There were no borrowings under the prior revolving credit facility for the years ended December 31, 2013, 2012 and 2011, respectively. There was no outstanding balance on the prior revolving credit facility at December 31, 2013, 2012, and 2011, respectively. We do, however, have \$104 million and \$105 million in outstanding undrawn letters of credit that we issued under our prior revolving credit facility (and reduced the availability thereunder) as of December 31, 2013 and 2012, respectively. As of December 31, 2013, we had available borrowing capacity of \$1.4 billion under our prior revolving credit facility, net of outstanding undrawn letters of credit.

All of our borrowings under our revolving credit facility are guaranteed by substantially all of our material domestic subsidiaries, as defined in the revolving credit facility. All guarantees are guarantees of payment and performance and not of collection. Hotel Investors I, Inc. is an additional borrower under our revolving credit facility.

Interest rates on outstanding borrowings are either LIBOR-based or based on an alternate base rate, with margins in each case based on our credit rating or, in certain circumstances, our credit rating and leverage ratio. As of December 31, 2013, the interest rate for a one month LIBOR borrowing under our prior revolving credit facility would have been 1.543%, or LIBOR, of 0.168%, plus 1.375%.

Borrowings under our revolving credit facility bear interest, at our option, at either one-, two-, three- or six-month LIBOR plus a margin ranging from 0.900% to 1.750% per annum (plus any mandatory costs, if applicable) or the alternative base rate plus a margin ranging from 0.000% to 0.750% per annum, in each case depending on our credit rating by either S&P or Moody's or, in certain circumstances, our credit rating and leverage ratio. Borrowings under our swingline subfacility will bear interest at a per annum rate equal to the alternate base rate plus the applicable percentage for revolving loans that are alternate base rate loans. We are also required to pay letter of credit fees with respect to each letter of credit equal to the applicable margin for LIBOR on the face amount of each letter of credit. In addition, we must pay a fronting fee to the issuer of each letter of credit of 0.10% per annum on the face amount of such letter of credit.

The revolving credit facility also provides for a facility fee ranging from 0.100% to 0.250% of the total commitment of the lenders under the revolving credit facility (depending on our credit rating by either S&P or Moody's). The facility fee is charged regardless of the level of borrowings.

In the event we no longer have a credit rating from either S&P or Moody's or our rating falls below BBB-/Baa3, with respect to borrowings under our revolving credit facility (a) such borrowings will bear interest at either LIBOR plus 1.500% or 1.750% per annum or the alternative base rate referenced above plus 0.500% or 0.750% per annum, in each

case, depending on our leverage ratio and (b) the facility fee will be 0.250%.

86

Table of Contents

Our revolving credit facility contains a number of affirmative and restrictive covenants including limitations on the ability to place liens on our or our direct or indirect subsidiaries' assets; to merge, consolidate and dissolve; to sell assets; to engage in transactions with affiliates; to change our or our direct or indirect subsidiaries' fiscal year or organizational documents; and to make restricted payments.

Our revolving credit facility also requires us to meet Leverage Ratio and Secured Funded Debt Ratio financial covenants in each case measured quarterly as defined in our revolving credit facility.

We were in compliance with all applicable covenants as of December 31, 2013.

Letters of Credit

We issue letters of credit either under the revolving credit facility or directly with financial institutions. We had a total of \$125 million and \$120 million in letters of credit outstanding at December 31, 2013 and 2012, respectively.

Included in those totals are \$104 million and \$105 million in letters of credit issued under the revolving credit facility as of December 31, 2013 and 2012, respectively. Also included in those totals are letters of credit issued directly with financial institutions of \$21 million and \$15 million at December 31, 2013 and 2012, respectively. The letters of credit issued directly with financial institutions had weighted average fees of 134 basis points at December 31, 2013. The range of maturity on these letters of credit was up to one year as of December 31, 2013.

Other Indebtedness and Future Debt Maturities

We entered into a thirty-year capital lease for the Hyatt Regency Grand Cypress in 2007. The aggregate amount obligated under this lease was \$190 million as of December 31, 2013. The aggregate amount of annual payments under the lease totals \$14 million. This lease agreement includes options, at our discretion, to purchase the hotel, including the land, and the adjacent parcel of land. We exercised our option to purchase the adjacent piece of land on August 28, 2007 and the option remains to purchase the hotel, including land, for \$190 million in the eighth lease year, \$210 million in the tenth lease year, or \$245 million in the fifteenth lease year. We intend to exercise our option to purchase the hotel, including land, for \$190 million in 2014.

Excluding the \$190 million lease obligation described above and \$1,042 million of Senior Notes, all other third-party indebtedness as of December 31, 2013 totaled \$251 million.

As of December 31, 2013, \$194 million of our outstanding debt will mature in the following twelve months. We believe that we will have adequate liquidity to meet requirements for scheduled maturities.

Contractual Obligations

The following table summarizes our contractual obligations as of December 31, 2013:

(dollars in millions)	Total	Payments Due by Period					
		2014	2015	2016	2017	2018	Thereafter
Debt (1)	\$1,810	\$67	\$64	\$314	\$54	\$54	\$1,257
Capital lease obligations (1)	221	197	2	2	2	2	16
Operating lease obligations	487	39	33	32	30	29	324
Purchase obligations	36	36	—	—	—	—	—
Other long-term liabilities (2)	866	394	76	27	3	2	364
Total contractual obligations	\$3,420	\$733	\$175	\$375	\$89	\$87	\$1,961

(1) Includes principal as well as interest payments. Assumes constant foreign exchange rates as of December 31, 2013 for floating rate debt and international debt.

Primarily consists of deferred compensation plan liabilities and obligations to fund contract acquisition costs, loans (2) to hotel owners or other investments. Excludes \$90 million in long-term tax positions due to the uncertainty related to the timing of the reversal of those positions.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements at December 31, 2013 included purchase obligations of \$36 million, letters of credit of \$125 million and surety bonds of \$23 million. These amounts are more fully discussed in “—Sources and Uses of Cash—Revolving Credit Facility and —Letters of Credit”, “—Contractual Obligations” and Note 16 to our consolidated financial statements included in this annual report.

Table of Contents

Critical Accounting Policies and Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of revenues and expenses during the reporting periods and the related disclosures in our consolidated financial statements and accompanying notes.

We believe that of our significant accounting policies, which are described in Note 2 to our consolidated financial statements included in this annual report, the following accounting policies are critical due to the fact that they involve a higher degree of judgment and estimates about the effect of matters that are inherently uncertain. As a result, these accounting policies could materially affect our financial position and results of operations. While we have used our best estimates based on the facts and circumstances available to us at the time, different estimates reasonably could have been used in the current period. In addition, changes in the accounting estimates that we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions. Management has discussed the development and selection of these critical accounting policies and estimates with the audit committee of the board of directors.

Guarantees

We enter into performance guarantees related to certain hotels that we manage or debt repayment guarantees with respect to certain hotels in which we hold an equity investment. We record a liability for the fair value of these performance and debt repayment guarantees at their inception date. The offset depends on the circumstances in which the guarantee was issued. We amortize the liability for the fair value of a guarantee into income over the term of the guarantee using a systematic and rational, risk-based approach. Performance guarantees are amortized into income in other income (loss), net in the consolidated income statements and debt guarantees that relate to our equity method investments are amortized into income in equity earnings (losses) from unconsolidated hospitality ventures in the consolidated income statements. On a quarterly basis, we evaluate the likelihood of funding a guarantee. To the extent we determine an obligation to fund under a guarantee is both probable and estimable, we will record a separate contingent liability. The expense related to the separate contingent liability is recognized in other income (loss), net in the period that we determine funding is probable.

Goodwill

As required, we evaluate goodwill for impairment on an annual basis, and do so during the fourth quarter of each year using balances as of October 1 and at an interim date if indications of impairment exist. Goodwill impairment is determined by comparing the fair value of a reporting unit to its carrying amount. This is done either by performing a qualitative assessment or proceeding to the two-step process, with an impairment being recognized only where the fair value is less than carrying value. We define a reporting unit at the individual property or business level. In any given year we can elect to perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is in excess of its carrying value. If it is not more likely than not that the fair value is in excess of the carrying value, or we elect to bypass the qualitative assessment, we proceed to the two-step process. When determining fair value, we utilize internally developed discounted future cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs and appropriate discount rates. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future operating cash flows, the discount rates and the terminal value growth rate assumptions. Our estimates of long-term growth and costs are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-term planning process. We then compare the estimated fair value to our carrying value. If the carrying value is in excess of the fair value, we must perform step two in order to determine our implied fair value of goodwill to measure if any impairment charge is necessary. The determination of our implied fair value of goodwill requires the allocation of the reporting unit's estimated fair value to

the individual assets and liabilities of the reporting unit as if we had completed a business combination. We perform the allocation based on our knowledge of the reporting unit, the market in which they operate, and our overall knowledge of the hospitality industry. Changes in our allocation approach could result in different measures of implied fair value and impact the final impairment charge, if any.

Changes in economic and operating conditions impacting these assumptions could result in goodwill impairments in future periods. We had \$147 million and \$133 million of goodwill as of December 31, 2013 and December 31, 2012, respectively. An adverse change to our fair value estimates could result in an impairment charge, which could be material to our earnings. The Company has eight reporting units on which we have a goodwill balance as of December 31, 2013. A 10%

Table of Contents

change in our estimates of projected future operating cash flows, discount rates, or terminal value growth rates used in our calculations of the fair values of the reporting units would result in an impairment charge of the entire \$14 million goodwill balance of one of our reporting units as of December 31, 2013. The Company will continue to monitor the impact of the current economic environment on the goodwill of our reporting units.

Goodwill is also reviewed for impairment upon the occurrence of a triggering event. If a triggering event is determined to occur, we then apply the two-step method described above. Determining whether or not a triggering event has occurred requires us to apply judgment. The final determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the property, market conditions and property-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis.

Indefinite Lived Intangibles

As required, we evaluate indefinite lived intangibles for impairment on an annual basis, and do so during the fourth quarter of each year using balances as of October 1 and at an interim date if indications of impairment exist. Indefinite lived intangibles impairment is determined by comparing the fair value of the asset to its carrying amount. This is done either by performing a qualitative or quantitative assessment, with an impairment being recognized only where the fair value is less than carrying value. In any given year we can elect to perform a qualitative assessment to determine whether it is more likely than not that the fair value is in excess of its carrying value. If it is not more likely than not that the fair value is in excess of the carrying value, or we elect to bypass the qualitative assessment, we proceed to the quantitative analysis. When determining fair value, we primarily utilize the income approach. Under the income approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates and appropriate discount rates based on the weighted average cost of capital. Our estimates of long-term growth are based on historical data, various internal estimates and a variety of external sources, and are developed as part of our routine, long-term planning process.

Long-Lived Assets and Definite-Lived Intangibles

We evaluate the carrying value of our long-lived assets and definite-lived intangibles for impairment by comparing the expected undiscounted future cash flows of the assets to the net book value of the assets when certain triggering events occur. If the expected undiscounted future cash flows are less than the net book value of the assets, the excess of the net book value over the estimated fair value is charged to earnings. When determining fair value, we use internally developed discounted future cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs, terminal value growth rate and appropriate discount rates.

As part of the process detailed above we use judgment to:

determine whether or not a triggering event has occurred. The final determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the property, market conditions and property-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis;

determine the projected undiscounted future operating cash flows when necessary. The principal factor used in the undiscounted cash flow analysis requiring judgment is our estimates regarding long-term growth and costs which are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-term planning process; and

determine the estimated fair value of the respective long-lived asset when necessary. In determining the fair value of a long lived asset, we typically use internally developed discounted cash flow models. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future operating cash flows, the discount rates and

the terminal value growth rate assumptions. Our estimates of long-term growth and costs are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-range planning process.

Changes in economic and operating conditions impacting these judgments could result in impairments to our long-lived assets in future periods, which could be material to our earnings. We had \$5,255 million and \$4,527 million of long-lived assets and definite-lived intangibles as of December 31, 2013 and December 31, 2012, respectively.

Table of Contents

Unconsolidated Hospitality Ventures

We record a loss in the value of an unconsolidated hospitality venture that is determined to be an “other than temporary” decline in our consolidated statements of income as an impairment loss. We evaluate the carrying value of our unconsolidated hospitality ventures for impairment by comparing the estimated fair value of the venture to the book value when there is an indication that a loss in value has occurred. If the fair value is less than the book value of the unconsolidated hospitality venture, we use our judgment to determine if the decline in value is temporary or other than temporary. The factors we consider when making this determination include, but are not limited to:

- length of time and extent of the decline;
- loss of value as a percentage of the cost of the unconsolidated hospitality venture;
- financial condition and near-term financial projections of the unconsolidated hospitality venture;
- our intent and ability to retain the unconsolidated hospitality venture to allow for the recoverability of the lost value; and
- current economic conditions.

When determining fair value, we use internally developed discounted cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we use various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs and appropriate discount rates.

As part of the process detailed above we use judgment to determine:

- whether or not there is an indication that a loss in value has occurred. The final determination of whether a loss in value has occurred is based on our knowledge of the hospitality industry, historical experience, location of the underlying venture property, market conditions and venture-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis;
- the estimated fair value of the unconsolidated hospitality venture when necessary. In determining the fair value of an unconsolidated hospitality venture we typically utilize internally developed discounted cash flow models. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future cash flows of the venture, the discount rates and the terminal value growth rate assumptions. Our estimates of long-term growth and costs are based on the unconsolidated hospitality venture’s historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-range planning process; and
- whether a decline in value is deemed to be other than temporary. The final determination is based on our review of the consideration factors mentioned above, as well as our knowledge of the hospitality industry, historical experience, location of the underlying venture property, market conditions and venture-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis.

Changes in economic and operating conditions impacting these judgments could result in impairments to our unconsolidated hospitality ventures in future periods. We had investments of \$320 million and \$212 million of unconsolidated hospitality ventures accounted for under the equity method as of December 31, 2013 and December 31, 2012, respectively.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Judgment is required in addressing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns (e.g., realization of deferred tax assets, changes in tax laws or interpretations thereof). In addition, we are subject to examination of our income tax returns by the IRS and other tax authorities. A change in the assessment of the outcomes of such matters could materially impact our consolidated financial statements.

We adopted the FASB’s guidance on uncertain tax positions on January 1, 2007. The guidance prescribes a financial statement recognition threshold and measurement attribute for tax positions taken or expected to be taken in a tax

return. Specifically, it clarifies that an entity's tax benefits must be "more likely than not" of being sustained assuming that its tax reporting positions will be examined by taxing authorities with full knowledge of all relevant information prior to recording the related tax benefit in the financial statements. If the position drops below the "more likely than not" standard, the benefit can no

Table of Contents

longer be recognized. Assumptions, judgment and the use of estimates are required in determining if the “more likely than not” standard has been met when developing the provision for income taxes. A change in the assessment of the “more likely than not” standard could materially impact our consolidated financial statements.

Stock Compensation

Overview

We utilize our LTIP as a means of attracting, retaining and incentivizing qualified executives, key employees and nonemployee directors to increase our value and continue our efforts to build and sustain growth. As of December 31, 2013, we had authorized 14,375,000 shares of Class A common stock to be issued under the LTIP, of which 12,970,128 shares remain available to be issued. As part of our LTIP, we award Stock Appreciation Rights ("SARs"), Restricted Stock Units ("RSUs"), Performance Share Units ("PSUs") and Performance Vested Restricted Stock ("PSSs").

The following table summarizes by grant date the awards granted since January 1, 2011 under our LTIP, as well as the fair value at the date of grant.

Grant Date	Award Type	Number Granted	Fair Value
March 2011	SARs	359,062	19.08
March 2011	RSUs	484,685	41.74
March 2011	PSUs	99,660	41.74
June 2011	RSUs	14,124	38.92
September 2011	RSUs	10,493	33.35
March 2012	SARs	405,877	17.29
March 2012	RSUs	444,059	41.29
March 2012	PSSs	209,569	41.29
June 2012	RSUs	19,787	35.87
October 2012	RSUs	2,580	38.75
December 2012	RSUs	40,694	36.86
March 2013	SARs	472,003	17.95
March 2013	SARs	54,914	18.21
March 2013	RSUs	453,356	43.44
March 2013	PSSs	218,686	43.44
June 2013	RSUs	2,218	40.56
September 2013	RSUs	13,082	45.86
December 2013	RSUs	2,132	46.90

The majority of the awards are determined to be classified as equity awards with the fair value being determined on the grant date. We have an insignificant portion of the awards which are expected to be settled in cash and therefore are classified as liabilities. We recognize stock-based compensation expense over the requisite service period of the individual grantee, which generally equals the vesting period. We currently have issued service condition awards and performance-based awards. We have elected to use the straight-line method of expense attribution for the service condition awards. The performance-based awards were first granted in 2011 and vest based on satisfaction of certain performance targets. The number of PSSs and PSUs that will ultimately vest and be paid out in Class A common stock will range from 0% to 200% of the target amount stated in each executive officer's award agreement based upon the performance of the Company relative to the applicable performance target. We use the best available estimate of the future achievement of the performance targets and are currently expensing the PSS awards at target and the PSUs awards at 32% of the target, each over the respective three year performance period. The PSSs and PSUs will vest at the end of the performance period only if a minimum performance target is met; there is no interim performance metric. We will continue to assess the achievement of the performance targets and may adjust the amount of stock-based compensation expense we recognize related to the performance-based awards.

The process of estimating the fair value of stock-based compensation awards and recognizing the associated expense over the requisite service period involves significant management estimates and assumptions.

For SARs grants, we use an estimated forfeiture rate of 0% because only a small group of executives has historically received these awards and we have limited historical data on which to base these estimates. We apply a 3% forfeiture rate on

Table of Contents

RSU awards. We monitor the forfeiture activity to ensure that the current estimate continues to be appropriate. Any changes to this estimate will impact the amount of compensation expense we recognize with respect to any future grants.

We determine the fair value of our stock-settled SARs using the Black-Scholes-Merton (BSM) option-pricing model. Under the BSM option-pricing model, management is required to make certain assumptions, including assumptions relating to the following:

Expected volatility. Because there is limited trading history for our common stock, we do not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. As a result, we are using an average historical volatility of our peer group over a time period consistent with our expected term assumption. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation. During 2012, we began incorporating our limited trading history with our peer group's history to obtain our expected volatility of our share price. As we continue to gain more trading history of our common stock, we will continue to phase out our peer group's historical volatility.

Expected term. The expected term assumption is estimated using the midpoint between the vesting period and the contractual life of each SAR, in accordance with the SEC's Staff Accounting Bulletin Topic 14, Share-Based Payment.

Risk-free interest rate. The risk free interest rate is based on the yields of U.S. Treasury instruments with similar expected lives.

Dividend yield. We have never declared or paid any cash dividends. Consequently, we use an expected dividend yield of zero.

Generally, the expected volatility and expected term assumptions are the main drivers of value under the BSM option-pricing model. Consequently, changes in these assumptions can have a significant impact on the resulting fair value. Due to the limited scope of these awards, a 10% change in the expected volatility or the expected term assumption would result in an immaterial change to the grant date fair value.

The fair value of our SARs granted since January 2010 was estimated using the BSM option pricing model with the following assumptions:

	March 15, 2013 Grant	March 16, 2012 Grant	March 16, 2011 Grant	May 11, 2010 Grant	March 2, 2010 Grant		
Expected Volatility	40.67	% 40.84	% 43.39	% 46.27	% 45.67	%	
Expected Life in Years	6.330	6.251	6.251	6.251	6.251		
Risk-free Interest Rate	1.18	% 1.49	% 2.43	% 2.69	% 2.75	%	
Annual Dividend Yield	—	% —	% —	% —	% —	%	

If, in the future, we determine that another method is more reasonable, or, if another method for calculating these input assumptions is prescribed by authoritative guidance, and, therefore, should be used to estimate expected volatility or expected term, the fair value calculated for our stock-based compensation could change significantly. Higher volatility and longer expected term assumptions result in an increase to stock-based compensation expense determined at the date of grant. Stock-based compensation expense affects our selling, general and administrative expense.

Our total unearned compensation under our LTIP program was \$14 million and \$13 million as of December 31, 2013 and 2012, respectively, for SARs, \$31 million and \$31 million as of December 31, 2013 and 2012, respectively, for RSUs, and \$4 million and \$3 million as of December 31, 2013 and 2012, respectively, for PSUs and PSSs. We will record these amounts to compensation expense primarily over the next four years with respect to SARs and RSUs, with a limited portion of RSU awards extending over the next seven years, and over the next two years with respect to PSUs and PSSs.

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ("FASB") released Accounting Standards Update No. 2011-10 ("ASU 2011-10"), Property, Plant and Equipment (Topic 360): Derecognition of in Substance Real

Estate-a Scope Clarification (a consensus of the FASB Emerging Issues Task Force). ASU 2011-10 clarifies when a parent (reporting entity) ceases to have a controlling financial interest in a subsidiary that is in substance real estate as a result of default on the subsidiary's nonrecourse debt, the reporting entity should apply the guidance for Real Estate Sales (Subtopic 360-20). The provisions of ASU 2011-10 are effective for public companies for fiscal years and interim periods within those years, beginning on or after June 15, 2012. See Note 6 for discussion of property and equipment. The adoption of ASU 2011-10 did not materially impact our consolidated financial statements.

Table of Contents

In December 2011, the FASB released Accounting Standards Update No. 2011-11 ("ASU 2011-11"), Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities and in January 2013 the FASB released Accounting Standards Update No. 2013-01 ("ASU 2013-01"), Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 requires companies to provide new disclosures about offsetting and related arrangements for financial instruments and derivatives. ASU 2013-01 clarified the scope of ASU 2011-11. The provisions of ASU 2011-11 and ASU 2013-01 are effective for annual reporting periods beginning on or after January 1, 2013, and are required to be applied retrospectively. The adoption of ASU 2011-11 and ASU 2013-01 did not materially impact our consolidated financial statements.

In July 2012, the FASB released Accounting Standards Update No. 2012-02 ("ASU 2012-02"), Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 gives companies the option to perform a qualitative assessment before calculating the fair value of the indefinite-lived intangible asset. Under the guidance in ASU 2012-02, if this option is selected, a company is not required to calculate the fair value of the indefinite-lived intangible unless the entity determines it is more likely than not that its fair value is less than its carrying amount. The provisions of ASU 2012-02 are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, but early adoption was permitted. See Note 9 for discussion of goodwill. The adoption of ASU 2012-02 did not materially impact our consolidated financial statements.

In February 2013, the FASB released Accounting Standards Update No. 2013-02 ("ASU 2013-02"), Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (loss) by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income (loss) by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. The provisions of ASU 2013-02 are effective for reporting periods beginning after December 15, 2012. The adoption of ASU 2013-02 resulted in additional disclosure within our equity footnote.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk primarily from changes in interest rates and foreign currency exchange rates. In certain situations, we seek to reduce earnings and cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent they are not hedged. We enter into derivative financial arrangements to the extent they meet the objectives described above, and we do not use derivatives for trading or speculative purposes. At December 31, 2013, we were a party to hedging transactions including the use of derivative financial instruments, as discussed below.

Interest Rate Risk

In the normal course of business, we are exposed to the impact of interest rate changes due to our borrowing activities. Our objective is to manage the risk of interest rate changes on the results of operations, cash flows, and the market value of our debt by creating an appropriate balance between our fixed and floating-rate debt. Interest rate derivative transactions, including interest rate swaps, are entered into to maintain a level of exposure to interest rate variability that the Company deems acceptable.

After the issuance of our 2015 Notes, we entered into eight \$25 million interest rate swap contracts, each of which was set to expire on August 15, 2015. Taken together, these eight interest rate swap contracts effectively converted a total of \$200 million of the \$250 million 2015 Notes to floating rate debt based on three-month LIBOR plus a fixed rate component. During the year ended December 31, 2012, we terminated four \$25 million interest rate swap contracts, for which we received cash payments of \$8 million to settle the fair value of the swaps. The cash payments

received during the year ended December 31, 2012 included \$1 million of accrued interest. These amounts are included within the carrying value of long-term debt at December 31, 2012. The cash received from the terminations was being amortized as a benefit to interest expense over the remaining term of the 2015 Notes until the notes were sold in 2013 and the gain was fully recognized.

As of December 31, 2012, we still held a total of four \$25 million interest rate swap contracts issued in August 2009, each of which was set to expire on August 15, 2015. Taken together, these four swap contracts effectively converted a total of \$100 million of the \$250 million of our 2015 Notes to floating rate debt based on three-month LIBOR plus a fixed rate component. The fixed rate component of the four swaps varied by contract, ranging from 4.5675% to 4.77%. The interest rate

Table of Contents

swaps were designated as fair value hedges as their objective was to protect the 2015 Notes against changes in fair value due to changes in the three-month LIBOR interest rate. The swaps were designated as fair value hedges at inception and at December 31, 2012 were highly effective in offsetting fluctuations in the fair value of the 2015 Notes prior to their redemption during the year ended December 31, 2013.

At December 31, 2012, the fixed to floating interest rate swaps were recorded within other assets at a value of \$1 million offset by a fair value adjustment to long-term debt of \$1 million. At December 31, 2012, the difference between the other asset value and fair market value adjustment to long-term debt includes the ineffective portion of the swap life-to-date which was insignificant.

During the year ended December 31, 2013, we redeemed all of our 2015 Notes (see Note 10) and settled the remaining four outstanding swap agreements. At the time the 2015 Notes were redeemed, we recognized a gain of \$7 million, which included the remaining unamortized benefit from the settlement of the initial four swaps during 2012 of \$5 million and a gain on the remaining four swaps of \$2 million that were terminated in 2013 in anticipation of the redemption of the 2015 Notes. The gain is included within debt settlement costs in other income (loss), net on the consolidated statements of income.

Our fixed percentage of total debt is approximately 98%. This percentage relates only to our gross debt balance and does not include the effect of our floating rate cash investments. We will continue to evaluate our fixed debt as a percentage of total debt and it is possible that this percentage will change in the future. See Note 12 to the accompanying consolidated financial statements for further information on our interest rate risk.

Foreign Currency Exposures and Exchange Rate Instruments

We conduct business in various foreign currencies and utilize foreign currency forward contracts to offset our exposure associated with the fluctuations of certain foreign currencies. These foreign currency exposures typically arise from intercompany loans and other intercompany transactions. The U.S. dollar equivalent of the notional amount of the forward contracts as of December 31, 2013 and 2012 was \$229 million and \$254 million, respectively, all of which expire within the next twelve months. We intend to offset the gains and losses related to our intercompany loans and transactions with gains or losses on our foreign currency forward contracts such that there is a negligible effect to net income attributable to Hyatt Hotels Corporation. We expect to continue this practice relating to our intercompany loans and transactions, and may also begin to manage the risks associated with other transactional and translational foreign currency volatility within our business. See Note 12 to the accompanying consolidated financial statements for further information on our foreign currency exposures and exchange rate risk.

Item 8. Financial Statements and Supplementary Data.

The consolidated financial statements and supplementary data required by Item 8 are contained in Item 15 of this annual report and are incorporated herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this annual report, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this annual report, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the

Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

The Attestation Report of Independent Registered Public Accounting Firm is included in Part IV, Item 15 of this annual report.

Changes in Internal Control

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information.

On February 13, 2014, the Compensation Committee of the Company in its capacity as Administrator of the Second Amended and Restated Hyatt Hotels Corporation Long-Term Incentive Plan, granted restricted stock which vests based on satisfaction of performance targets to be known as "performance shares" or "PSs" pursuant to a Performance Share Agreement consistent with the form filed herewith as Exhibit 10.22 (the "PS Agreement").

The performance shares vest at the end of a three year performance period based on attainment of a performance goal that is based on Adjusted EBITDA less a specified percentage of the Company's average invested capital and the Company's variable compensation expense, which may be further adjusted to reflect certain future events which were not otherwise accounted for when the performance goal was set and that would otherwise unfairly impact results. For this purpose Adjusted EBITDA is defined as set forth in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Key Business Metrics Evaluated by Management - Adjusted EBITDA" but calculated in accordance with GAAP as in effect on the effective date of grant of the performance shares, and average invested capital is defined to include long-term assets, with adjustment for fully funded nonqualified deferred compensation plans and balances associated with the Hyatt Gold passport program, and excluding purchases of and construction in process on unimproved land with a value less than a specified amount, the first year of assets relating to single acquisitions in excess of a specified amount and performance or debt guarantees on assets in excess of a certain level.

If the threshold goal is not achieved at the end of the three-year performance period, then the performance shares will be forfeited and none will vest. If the threshold performance goal is achieved, 25% of the performance shares will vest. If the target performance goal is achieved, 50% of the performance shares will vest. If the maximum performance goal is achieved, then 100% of the performance shares will vest. Achievement between the threshold and maximum performance goals will vest pro-rata based on level of achievement.

In the future, the Committee may change the performance goals upon which future PS grants may vest and the vesting percentages, but any such future PS grants will otherwise be consistent with the terms of the form PS Agreement.

The following lists the named executive officers of the Company who received PS grants on February 13, 2014, and the number of shares of Class A common stock of the Company subject to such grants:

Mark Hoplamazian	51,628
Gebhard F. Rainer	17,208
Rakesh K. Sarna	21,798
H. Charles Floyd	21,798
Stephen G. Haggerty	17,208

Part III

Item 10. Directors, Executive Officers and Corporate Governance.

The information required by this Item 10 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2013 pursuant to Regulation 14A under the Exchange Act in connection with our 2014 annual meeting of stockholders.

Information required by this Item 10 appears under the captions: "CORPORATE GOVERNANCE - PROPOSAL 1- ELECTION OF DIRECTORS," "CORPORATE GOVERNANCE - OUR BOARD OF DIRECTORS," "CORPORATE GOVERNANCE," "CORPORATE GOVERNANCE - COMMITTEES OF THE BOARD OF DIRECTORS - Nominating and Corporate Governance Committee," "STOCK - SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE" and "CORPORATE GOVERNANCE - COMMITTEES OF THE BOARD OF DIRECTORS - Audit Committee" in the definitive proxy statement. See Part I, "Executive Officers of the Registrant" of this annual report for information regarding executive officers of the Company.

Code of Business Conduct and Ethics

The Company has adopted the Hyatt Hotels Corporation Code of Business Conduct and Ethics (the "Code of Ethics"), which is applicable to all of the Hyatt directors, officers and associates, including the Company's President and Chief Executive Officer, Chief Financial Officer, Principal Accounting Officer or Controller and other senior financial officers performing similar functions. The Code of Ethics is posted on the Company's website at <http://www.hyatt.com>. The Company will furnish a copy of the Code of Ethics to any person, without charge, upon written request directed to: Senior Vice President - Investor Relations, Hyatt Hotels Corporation, 71 South Wacker Drive, Chicago, Illinois 60606. In the event that the Company amends or waives any of the provisions of the Code of Ethics that applies to the Company's Chief Executive Officer, Chief Financial Officer, Principal Accounting Officer or Controller and other senior financial officers performing similar functions, the Company intends to disclose the subsequent information on its website.

Item 11. Executive Compensation.

The information required by this Item 11 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2013 pursuant to Regulation 14A under the Exchange Act in connection with our 2014 annual meeting of stockholders.

Information related to this Item 11 appears under the captions: "EXECUTIVE COMPENSATION," "CORPORATE GOVERNANCE - COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION," "CORPORATE GOVERNANCE - COMPENSATION OF DIRECTORS," "CORPORATE GOVERNANCE - COMPENSATION COMMITTEE REPORT" and "CORPORATE GOVERNANCE - COMMITTEES OF THE BOARD OF DIRECTORS - Compensation Committee - Compensation Risk Considerations" in the definitive proxy statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The information required by this Item 12 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2013 pursuant to Regulation 14A under the Exchange Act in connection with our 2014 Annual Meeting of Stockholders.

Information related to this Item 12 appears under the caption: "STOCK - SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT" in the definitive proxy statement.

Table of Contents

Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides certain information as of December 31, 2013 about Class A common stock that may be issued under our existing equity compensation plans:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in the First Column)
Equity Compensation Plans Approved by Security Holders	5,205,975	(1) \$45.51	(2) 8,478,082
Equity Compensation Plans Not Approved by Security Holders	—	—	1,469,287
Total	5,205,975	\$45.51	9,947,369

(1) Includes (a) SARs to purchase 3,721,186 shares of Class A common stock issued under the LTIP with a weighted average exercise price of \$45.51 (calculated on a one-for-one basis), (b) 1,470,304 shares of Class A common stock to be issued upon the vesting of RSUs issued under the LTIP for which no exercise price will be paid (assuming maximum payout of PSS and PSU awards) and (c) 14,485 shares of Class A common stock issued pursuant to the ESPP in connection with the January 2013 to March 2013 purchase period (which shares were issued in April 2013).

(2) The calculation of weighted average exercise price includes only outstanding SARs.

(3) Includes (a) 7,725,236 shares of Class A common stock that remain available for issuance under the LTIP and (b) 752,846 shares of Class A common stock that remain available for issuance pursuant to the ESPP.

(4) Includes (a) 1,169,287 shares of Class A common stock that remain available for issuance pursuant to the DCP and (b) 300,000 shares of Class A common stock that remain available for issuance pursuant to the FRP.

The DCP and the FRP are non-qualified defined contribution plans. The DCP provides eligible participants employed in the United States with the opportunity to defer any or all compensation, to receive employer matching contributions and to receive discretionary employer contributions. Compensation deferred under the DCP as well as matching and discretionary credits, if any, are credited to a participant's account under the DCP and are held in a rabbi trust, on behalf of the participants. A participant may direct the investment of funds in such participant's account in certain investment funds. In 2010, certain participants were offered a one-time election to have up to 15% of certain fully vested and nonforfeitable accounts invested in Class A common stock (with the account balances being calculated as of June 1, 2010). In connection with such elections, 30,805 shares of Class A common stock were issued to the trustee of the DCP. The number of shares of Class A common stock to be allocated to each electing participant's account was determined by dividing the dollar amount of such participant's elected percentage of their account balances by the closing price of Class A common stock on June 2, 2010. The shares of Class A common stock held in such accounts are held in the trust on behalf of the participant until distributed upon termination of employment. Participants' accounts under the DCP generally are distributed in cash. However, the portion of the participant's account invested in Class A common stock will be distributed in shares of Class A common stock. The material terms of the FRP are the same as the material terms of the DCP; however, the FRP includes an employer contribution schedule based on age and years of service. Participants in the FRP are employees located outside of the United States. Participants in the FRP have not been given an election to invest their accounts in Class A common stock due to international securities

law considerations. However, the board of directors has reserved 300,000 shares of Class A common stock for issuance under the FRP in the event that participants in the FRP are given such an election in the future.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

The information required by this Item 13 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2013 pursuant to Regulation 14A under the Exchange Act in connection with our 2014 Annual Meeting of Stockholders.

Information related to this Item 13 appears under the captions: "CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS" and "CORPORATE GOVERNANCE - DIRECTOR INDEPENDENCE" in the definitive proxy statement.

Table of Contents

Item 14. Principal Accountant Fees and Services.

The information required by this Item 14 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2013 pursuant to Regulation 14A under the Exchange Act in connection with our 2014 Annual Meeting of Stockholders.

Information related to this Item 14 appears under the caption "INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM" in the definitive proxy statement.

MANAGEMENT'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Hyatt Hotels Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Hyatt Hotels Corporation's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Hyatt Hotels Corporation; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of Hyatt Hotels Corporation are being made only in accordance with authorizations of Hyatt Hotels Corporation's management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets of Hyatt Hotels Corporation that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2013. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework. Based on this assessment, management determined that Hyatt Hotels Corporation maintained effective internal control over financial reporting as of December 31, 2013.

Deloitte & Touche LLP, the independent registered public accounting firm that has audited the consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2013. That report is included in Item 15 of this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Hyatt Hotels Corporation
Chicago, Illinois

We have audited the accompanying consolidated balance sheets of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2013 and 2012, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2013. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Hyatt Hotels Corporation and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control- Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 14, 2014 expressed an unqualified opinion on the Company's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Hyatt Hotels Corporation
Chicago, Illinois

We have audited the internal control over financial reporting of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2013, based on criteria established in Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2013 of the Company and our report dated February 14, 2014 expressed an unqualified opinion on those financial statements and financial statement schedule.
