SENSATA TECHNOLOGIES HOLDING PLC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts, or unless otherwise noted)
(unaudited)

1. Business Description and Basis of Presentation

Description of Business

The accompanying unaudited condensed consolidated financial statements reflect the financial position, results of operations, comprehensive income, and cash flows of Sensata Technologies Holding plc ("Sensata plc"), the successor issuer to Sensata Technologies Holding N.V. ("Sensata N.V."), and its wholly-owned subsidiaries, collectively referred to as the "Company," "Sensata," "we," "our," or "us."

On September 28, 2017, the board of directors of Sensata N.V. unanimously approved a plan to change our location of incorporation from the Netherlands to the United Kingdom (the "U.K."). To effect this change, on February 16, 2018, the shareholders of Sensata N.V. approved a cross-border merger between Sensata N.V. and Sensata plc, a newly formed, public limited company incorporated under the laws of England and Wales, with Sensata plc being the surviving entity (the "Merger").

We received approval of the transaction by the U.K. High Court of Justice, and the Merger was completed on March 28, 2018, on which date Sensata plc became the publicly-traded parent of the subsidiary companies that were previously controlled by Sensata N.V., with no changes made to the business being conducted by us prior to the Merger. Due to the fact that the Merger was a business combination between entities under common control in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 805, Business Combinations, the assets and liabilities exchanged were accounted for at their carrying values.

Sensata plc conducts its operations through subsidiary companies that operate business and product development centers primarily in the United States (the "U.S."), the Netherlands, Belgium, Bulgaria, China, Germany, Japan, South Korea, and the U.K.; and manufacturing operations primarily in China, Malaysia, Mexico, Bulgaria, France, Germany, the U.K., and the U.S. We organize our operations into two segments, Performance Sensing and Sensing Solutions.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and the instructions to Form 10-Q. Accordingly, these interim financial statements do not include all of the information and note disclosures required by U.S. GAAP for complete financial statements. The accompanying financial information reflects all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the interim period results. The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the full year, nor were the results of operations of the comparable periods in 2017 necessarily representative of those actually experienced for the full year 2017. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017.

All intercompany balances and transactions have been eliminated.

All U.S. dollar and share amounts presented, except per share amounts, are stated in thousands, unless otherwise indicated.

2. New Accounting Standards

Adopted in the current year

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which modifies how all entities recognize revenue, and consolidates into one ASC Topic (FASB ASC Topic 606, Revenue from Contracts with Customers) the guidance found in FASB ASC Topic 605, Revenue Recognition, and various other revenue accounting standards for specialized transactions and industries. FASB ASC Topic 606 outlines a comprehensive five-step revenue recognition model based on the principle that an entity should recognize revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We adopted FASB ASC Topic 606 on January 1, 2018 using the modified retrospective transition method. Refer to Note

16, "Revenue Recognition," for additional details on this implementation and the required disclosures.

7

Table of Contents

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. The new recognition and measurement guidance requires entities to measure equity investments (except those accounted for under the equity method, those that result in consolidation of the investee, and certain other investments) either at fair value, with changes to fair value recognized in net income, or, in certain instances, by use of a measurement alternative. Under the measurement alternative, such investments are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. We adopted this guidance on January 1, 2018, which resulted in no impact on our consolidated financial position or results of operations. Refer to Note 11, "Fair Value Measures," for further detail regarding the application of the measurement alternative to our \$50.0 million equity investment in Series B Preferred Stock of Quanergy, Inc ("Quanergy"), which does not have a readily determinable fair value.

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires a change in the presentation of net periodic benefit cost on the consolidated statements of operations. Specifically, entities must present the service cost component of net periodic benefit cost in the same financial statement line item(s) as other compensation costs arising from services rendered by the related employees during the period, whereas the non-service components of net periodic benefit cost must be presented separately from the financial statement line item(s) that include service cost and outside of operating income. We adopted this guidance on January 1, 2018 and, as a result, we present the service cost component of net periodic benefit cost in the Cost of revenue, Research and development, and Selling, general, and administrative ("SG&A") expense line items, and we present the non-service components of net periodic benefit cost in Other, net. Refer to Note 13, "Other, Net," for the total other components of net periodic benefit cost. All prior period amounts have been recast to reflect the revised presentation, and the adjustments made to revise the presentation of our prior year condensed consolidated statement of operations are presented in Note 8, "Pension and Other Post-Retirement Benefits."

To be adopted in a future period

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of one year or less) using a method similar to the current operating lease model. The statement of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods therein, with early adoption permitted. FASB ASU No. 2016-02 currently must be applied using a modified retrospective approach, which requires the recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available. However, in January 2018, the FASB issued a proposed ASU that would amend certain aspects of FASB ASU No. 2016-02. The proposed amendments create an additional practical expedient that would allow an entity to apply the transition provisions of the new standard, including its disclosure requirements, at its adoption date instead of at the beginning of the earliest comparative period presented. We are monitoring the status of this proposed ASU, and we will adopt FASB ASU No. 2016-02 on January 1, 2019.

We are in the process of implementing a plan for the adoption of FASB ASU No. 2016-02. Through our implementation efforts, we have determined that we intend to elect to apply the package of practical expedients, and we do not intend to elect to apply the hindsight practical expedient.

While we have not yet determined the impact of FASB ASU No. 2016-02 on our consolidated financial position or results of operations, at December 31, 2017, we were contractually obligated to make future payments of \$68.6 million under our operating lease obligations in existence as of that date, primarily related to long-term facility leases. Under FASB ASU No. 2016-02 these operating leases would potentially be required to be presented on our

consolidated balance sheets.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. The adoption of FASB ASU No. 2017-12 will not have a material impact on our consolidated financial position or results of operations.

Table of Contents

3. Inventories

The components of inventories as of June 30, 2018 and December 31, 2017 were as follows:

	June 30, 2018	December 31, 2017
Finished goods	\$ 183,870	\$ 195,089
Work-in-process	101,036	92,678
Raw materials	177,100	158,362
Inventories	\$ 462,006	\$ 446,129

4. Shareholders' Equity

Prior to the Merger, Sensata N.V.'s articles of association authorized it to issue up to 400.0 million ordinary shares. Entities incorporated under the laws of England and Wales are limited in the number of shares they can issue to those shares that have been authorized for "allotment" by their shareholders. In connection with the Merger, our board of directors asked shareholders to approve an allotment of ordinary shares equal to the total ordinary shares issued and outstanding plus the maximum number of ordinary shares that could be reasonably expected to be issued under our equity plans within the next year, which resulted in an allotment of 177.1 million ordinary shares.

Treasury Shares

Ordinary shares repurchased by us are recorded as treasury shares, at cost, resulting in a reduction of shareholders' equity.

In connection with the Merger, all then outstanding treasury shares were cancelled in accordance with U.K. law. Accordingly, we (1) derecognized the total purchase price of these treasury shares, (2) recognized a reduction to ordinary shares at an amount equal to the total par value of such shares, and (3) recognized a reduction to Retained earnings at an amount equal to the excess of the total repurchase price over the total par value of the then outstanding treasury shares, or \$286.1 million.

Also, upon completion of the Merger, the \$250.0 million share repurchase program previously authorized by the board of directors of Sensata N.V. lapsed, and our ability to repurchase shares as a company incorporated in England and Wales became contingent upon the completion of certain court proceedings in the U.K. (which were completed in the second quarter of 2018), approval of our shareholders (which occurred at our May 31, 2018 annual general meeting of shareholders), and authorization by our board of directors.

On May 31, 2018, we announced that our board of directors had authorized a \$400.0 million share repurchase program. Under this program, we may repurchase ordinary shares at such times and in amounts to be determined by our management, based on market conditions, legal requirements, and other corporate considerations, on the open market or in privately negotiated transactions, provided that such transactions are completed pursuant to an agreement and with a third party approved by our shareholders at the annual general meeting. The authorized amount of our share repurchase program may be modified or terminated by our board of directors at any time. We repurchased 1,137 ordinary shares under this program during the three months ended June 30, 2018, for a total purchase price of approximately \$60.1 million, which are now held as treasury shares. At June 30, 2018, \$339.9 million remained available under this program for future repurchases of our ordinary shares.

As a result of certain aspects of U.K. law, we discontinued the practice of reissuing treasury shares as part of our share-based compensation programs upon completion of the Merger. The number of treasury shares reissued in the first quarter of 2018, prior to the Merger, was not material.

Table of Contents

Accumulated Other Comprehensive Loss

The following is a roll forward of the components of Accumulated other comprehensive loss for the six months ended June 30, 2018:

	Cash Flow Hedges	Defined Benefit and Retiree Healthcare Plans	Accumulated Other Comprehensive Loss
Balance as of December 31, 2017	\$(28,179)	\$(34,985)	\$ (63,164)
Other comprehensive income before reclassifications, net of tax	15,346	578	15,924
Reclassifications from accumulated other comprehensive loss, net of tax	13,866	460	14,326
Other comprehensive income	29,212	1,038	30,250
Balance as of June 30, 2018	\$1,033	\$(33,947)	\$ (32,914)

The details of the amounts reclassified from Accumulated other comprehensive loss for the three and six months ended June 30, 2018 and 2017 are as follows:

Component	Loss/(Gain) Reclassified from Accumulated Other Comprehensive Loss				Affected Line in Condensed Consolidated Statements of Operations
	For the three months ended June 30, 2018	For the three months ended June 30, 2017	For the six months ended June 30, 2018	For the six months ended June 30, 2017	
Derivative instruments designated and qualifying as cash flow hedges:					
Foreign currency forward contracts	\$8,064	\$(2,368)	\$18,948	\$(7,753)	Net revenue ⁽¹⁾
Foreign currency forward contracts	(2,662)	4,835	(1,836)	11,403	Cost of revenue ⁽¹⁾

(1) See Note 12, "Derivative Instruments and Hedging Activities," for additional details on amounts to be reclassified in the future from Accumulated other comprehensive loss.

(2) See Note 8, "Pension and Other Post-Retirement Benefits," for additional details of net periodic benefit cost.

5. Restructuring and Other Charges, Net

Restructuring and other charges, net for the three and six months ended June 30, 2018 were \$0.2 million and \$4.0 million, respectively. In the first quarter of 2018, we recognized a \$3.8 million restructuring charge, which consisted primarily of severance related to limited workforce reductions in manufacturing, engineering, and administrative positions as well as the transfer of certain positions to more cost-effective locations. The expected payback period for these actions is approximately two years, and they are expected to generate incremental pre-tax savings of approximately \$3 million on an annual basis once fully implemented.

Restructuring and other charges, net for the three and six months ended June 30, 2017 were \$6.4 million and \$17.4 million, respectively, which related primarily to the closing of our facility in Minden, Germany that was part of the

acquisition of CST, a limited number of other line moves and exit activities, and the termination of a limited number of employees. Charges related to the closing of our facility in Minden, Germany for the three and six months ended June 30, 2017 consisted of (i) severance charges of \$2.6 million and \$8.4 million, respectively; and (ii) facility exit costs of \$0.8 million and \$1.1 million, respectively.

Table of Contents

Changes to the severance portion of our restructuring liability during the six months ended June 30, 2018 were as follows:

	Severance
Balance at December 31, 2017	\$ 7,583
Charges, net of reversals	3,320
Payments	(5,631)
Impact of changes in foreign currency exchange rates	(96)
Balance at June 30, 2018	\$ 5,176

6. Debt

Our long-term debt and capital lease and other financing obligations as of June 30, 2018 and December 31, 2017 consisted of the following:

	Maturity Date	June 30, 2018	December 31, 2017
Term Loan	October 14, 2021	\$917,794	\$ 927,794
4.875% Senior Notes	October 15, 2023	500,000	500,000
5.625% Senior Notes	November 1, 2024	400,000	400,000
5.0% Senior Notes	October 1, 2025	700,000	700,000
6.25% Senior Notes	February 15, 2026	750,000	750,000
Less: discount		(16,545)	(14,424)
Less: deferred financing costs		(25,457)	(27,758)
Less: current portion		(4,753)	(9,802)
Long-term debt, net		\$3,221,039	\$ 3,225,810
Capital lease and other financing obligations		\$32,389	\$ 34,657
Less: current portion		(6,291)	(5,918)
Capital lease and other financing obligations, less current portion		\$26,098	\$ 28,739

In connection with the Merger, in the first quarter of 2018, we paid \$5.8 million of creditor fees and related third party costs in order to obtain consents to the transaction from our existing lenders. We applied the provisions of FASB ASC Subtopic 470-50, Modifications and Extinguishments, in accounting for the amounts paid. As a result, we recorded an adjustment of \$3.5 million to the carrying amount of Long-term debt, and we recognized a loss of \$2.4 million in Other, net.

As of June 30, 2018, we had \$415.4 million available under our \$420.0 million revolving credit facility, net of \$4.6 million in letters of credit. Outstanding letters of credit are issued primarily for the benefit of certain operating activities. As of June 30, 2018, no amounts had been drawn against these outstanding letters of credit.

Accrued Interest

Accrued interest associated with our outstanding debt is included as a component of Accrued expenses and other current liabilities in the condensed consolidated balance sheets. As of June 30, 2018 and December 31, 2017, accrued interest totaled \$37.0 million and \$36.9 million, respectively.

7. Income Taxes

Provision for income taxes for the three months ended June 30, 2018 and 2017 totaled \$23.4 million and \$18.6 million, respectively, and for the six months ended June 30, 2018 and 2017 totaled \$37.5 million and \$32.9 million, respectively. The Provision for income taxes consists of current tax expense, which relates primarily to our profitable operations in non-U.S. tax jurisdictions, and deferred tax expense, which relates to adjustments in book-to-tax basis differences primarily due to the step-up in fair value of fixed and intangible assets, including goodwill, acquired in connection with business combination transactions, and the utilization of net operating losses.

On December 22, 2017, President Trump signed into U.S. law the Tax Cuts and Jobs Act of 2017 ("Tax Reform" or "the Act"). FASB ASC Topic 740, Accounting for Income Taxes, requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning

after December 31, 2017.

11

Table of Contents

Given the significance of the legislation, the U.S. Securities and Exchange Commission (the "SEC") staff issued Staff Accounting Bulletin No.118 ("SAB 118"), which allows registrants to record provisional amounts during a one-year "measurement period" similar to that used when accounting for business combinations. However, the measurement period is deemed to have ended earlier when the registrant has obtained, prepared, and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. As of June 30, 2018, we have not recorded incremental accounting adjustments related to the Act as we continue to consider interpretations of its application.

In measuring the related deferred tax assets, we consider all available evidence, both positive and negative, to determine whether, based on the weight of that evidence, a valuation allowance is needed for all or some portion of the deferred tax assets. Significant judgment is required in considering the relative impact of the negative and positive evidence, and weight given to each category of evidence is commensurate with the extent to which it can be objectively verified. The greater negative evidence that exists, more positive evidence is necessary to support a conclusion that a valuation allowance is not needed. Additionally, we utilize the "more likely than not" criteria established in FASB ASC Topic 740, Income Taxes, to determine whether the future tax benefit from the deferred tax assets should be recognized. As a result, we maintain a full valuation allowance on the deferred tax assets in jurisdictions that have incurred net operating losses and in which it is more likely than not that such losses will not be utilized in the foreseeable future.

We have concluded that a valuation allowance is required on our deferred tax assets in the U.S., in large part due to the cumulative losses that our U.S. operations have experienced in recent years. Such cumulative losses are negative evidence that is difficult to overcome in concluding whether a valuation allowance is required. We continue to assess both positive and negative evidence surrounding our U.S. operations, and to evaluate the impact of Tax Reform on our tax attributes and related valuation allowance implications. As a consequence of our assessment, at June 30, 2018, we have concluded that maintaining the U.S. valuation allowance is appropriate.

8. Pension and Other Post-Retirement Benefits

We provide various pension and other post-retirement benefit plans for current and former employees, including defined benefit, defined contribution, and retiree healthcare benefit plans.

The components of net periodic benefit cost/(credit) associated with our defined benefit and retiree healthcare plans for the three months ended June 30, 2018 and 2017 were as follows:

	U.S. Plans				Non-U.S. Plans			
	Defined Benefit		Retiree Healthcare		Defined Benefit		Total	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Service cost	\$—	\$—	\$ 19	\$ 22	\$804	\$654	\$823	\$676
Interest cost	364	409	70	79	332	262	766	750
Expected return on plan assets	(408)	(537)	—	—	(235)	(226)	(643)	(763)

Net periodic benefit cost/(credit)	\$1,000	\$1,506	\$ (490)	\$ (441)	\$1,677	\$1,456	\$2,187	\$2,521

On January 1, 2018, we adopted the guidance in FASB ASU No. 2017-07. Refer to Note 2, "New Accounting Standards," for further discussion. As a result of this adoption, the components of net periodic benefit cost, excluding service cost, were reclassified in our condensed consolidated statements of operations from various operating cost and expense line items to Other, net for the three and six months ended June 30, 2017.

The table below presents the effects of this adjustment.

	For the three months ended June 30, 2017			For the six months ended June 30, 2017		
	As reported	ASU No. 2017-07 Adjustment	As Adjusted	As reported	ASU No. 2017-07 Adjustment	As Adjusted

Table of Contents

9. Share-Based Payment Plans

Share-Based Compensation Expense

The table below presents non-cash compensation expense related to our equity awards, which is recognized within SG&A expense in the condensed consolidated statements of operations, during the identified periods:

	For the three months ended June 30,		For the six months ended June 30,	
	2018	2017	2018	2017
Stock options	\$1,789	\$2,055	\$3,078	\$3,480
Restricted securities	4,623	4,002	8,424	6,529
Share-based compensation expense	\$6,412	\$6,057	\$11,502	\$10,009

Equity Awards

We grant options and restricted stock units ("RSUs") for which vesting is subject only to continued employment and the passage of time. In addition, we grant performance-based options and performance-based restricted stock units ("PRSUs") for which vesting also depends on the attainment of certain performance criteria.

We granted the following options under the Sensata Technologies Holding plc First Amended and Restated 2010 Equity Incentive Plan (the "2010 Equity Plan") during the six months ended June 30, 2018:

Options Granted to	Number of Options Granted (in thousands)	Weighted- Average Grant Date Fair Value	Vesting Period
Various executives and employees	307	\$ 15.70	25% per year over four years

We granted the following RSUs and PRSUs under the 2010 Equity Plan during the six months ended June 30, 2018

Awards Granted to	Type of Award	Number of Units Granted (in thousands)	Percentage of PRSUs Awarded That May Vest	Weighted- Average Grant Date Fair Value
Various executives and employees	RSU ⁽¹⁾	146	N/A	\$ 52.04
Directors	RSU ⁽¹⁾	23	N/A	\$ 52.47
Various executives and employees	PRSU ⁽²⁾	118	0.0% - 172.5%	\$ 51.83
Various executives and employees	PRSU ⁽²⁾	63	0.0% - 150.0%	\$ 51.83

⁽¹⁾ RSUs granted during the six months ended June 30, 2018 vest on various dates between June 2019 and May 2021.

PRSUs granted during the six months ended June 30, 2018 vest on April 1, 2021, with the amount ultimately

⁽²⁾ vesting within the range shown in the table above, depending on the extent to which certain performance criteria are met.

Option Exercises

During the six months ended June 30, 2018, 88 stock options were exercised.

10. Commitments and Contingencies

We are the defendant in a lawsuit, Wasica Finance GmbH et al v. Schrader International Inc. et al, Case No. 13-1353-CPS, U.S.D.C., Delaware, in which the claimant alleges infringement of their patent (US 5,602,524) in connection with our TPMS products. The patent in question has expired, and as a result, the claimant only seeks damages for past infringement with interest and costs. Should the claimant prevail, these amounts could be material. We have denied liability and have been defending the litigation, which is in discovery. The court has currently scheduled a claims construction hearing for December 2018 and trial for February 2020. We do not believe a loss

related to this matter is probable. As of June 30, 2018, we have not recorded an accrual for this matter. We are regularly involved in a number of claims and litigation matters in the ordinary course of business, primarily related to allegations of intellectual property infringement and property damage or personal injury caused by our products. Although it is

Table of Contents

not feasible to predict the outcome of these matters, based upon our experience and current information known to us, we do not expect the outcome of these matters, either individually or in the aggregate, to have a material adverse effect on our results of operations, financial position, or cash flows.

11. Fair Value Measures

Our assets and liabilities recorded at fair value have been categorized based upon the fair value hierarchy in accordance with FASB ASC Topic 820, Fair Value Measurement.

Measured on a Recurring Basis

The fair values of our assets and liabilities measured at fair value on a recurring basis as of June 30, 2018 and December 31, 2017 are as shown in the below table. All fair value measures presented are categorized in Level 2 of the fair value hierarchy.

	June 30, December 31,	
	2018	2017
Assets		
Foreign currency forward contracts	\$13,179	\$ 3,955
Commodity forward contracts	1,599	6,458
Total	\$14,778	\$ 10,413
Liabilities		
Foreign currency forward contracts	\$11,977	\$ 40,969
Commodity forward contracts	2,925	1,104
Total	\$14,902	\$ 42,073

Measured on a Nonrecurring Basis

We evaluated our goodwill and other indefinite-lived intangible assets for impairment as of October 1, 2017 and determined that they were not impaired. In connection with the proposed sale of all of the outstanding shares of Schrader-Bridgeport International, Inc. and August France Holding Company SAS (collectively the "Valves Business") as discussed in Note 17, "Disposal Group," we evaluated the goodwill of the Performance Sensing reporting unit (excluding the Valves Business) for impairment and determined it was not impaired. As of June 30, 2018, no other events or changes in circumstances occurred that would have triggered the need for an additional impairment review of our goodwill and other indefinite-lived intangible assets.

We periodically re-evaluate the carrying values and estimated useful lives of long-lived assets whenever events or changes in circumstances indicate that the carrying values of these assets may not be recoverable.

On January 1, 2018, we adopted FASB ASU No. 2016-01, which requires that equity investments (except those accounted for under the equity method, those that result in consolidation of the investee, and certain other investments) be measured at either fair value, with changes to fair value recognized in net income, or, in certain instances, by use of a measurement alternative. Under the measurement alternative, such investments are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. As it relates to our \$50.0 million equity investment in Quanergy, we elected to use the measurement alternative. As of June 30, 2018, we noted no material observable price changes as a result of orderly transactions for an identical or similar investment of the same issuer, nor did we note any indicators of impairment that would require us to measure the fair value of the asset.

Table of Contents

Financial Instruments Not Recorded at Fair Value

The following table presents the carrying values and fair values of financial instruments not recorded at fair value in the condensed consolidated balance sheets as of June 30, 2018 and December 31, 2017. All fair value measures presented are categorized in Level 2 of the fair value hierarchy.

	June 30, 2018		December 31, 2017	
	Carrying Value (1)	Fair Value	Carrying Value (1)	Fair Value
Liabilities				
Term Loan	\$917,794	\$917,794	\$927,794	\$930,114
4.875% Senior Notes	\$500,000	\$502,500	\$500,000	\$521,875
5.625% Senior Notes	\$400,000	\$416,000	\$400,000	\$439,000
5.0% Senior Notes	\$700,000	\$703,500	\$700,000	\$741,125
6.25% Senior Notes	\$750,000	\$778,125	\$750,000	\$813,750

(1) Carrying value excludes discounts and deferred financing costs.

The fair values of the Term Loan and senior notes are determined primarily using observable prices in markets where these instruments are generally not traded on a daily basis.

Cash and cash equivalents, accounts receivable, and accounts payable are carried at their cost, which approximates fair value, because of their short-term nature.

12. Derivative Instruments and Hedging Activities

Hedges of Foreign Currency Risk

We are exposed to fluctuations in various foreign currencies against our functional currency, the U.S. dollar. We use foreign currency forward agreements to manage this exposure. We currently have outstanding foreign currency forward contracts that qualify as cash flow hedges and are intended to offset the effect of exchange rate fluctuations on forecasted sales and certain manufacturing costs. We also have outstanding foreign currency forward contracts that are not designated for hedge accounting treatment in accordance with FASB ASC Topic 815, Derivatives and Hedging, and are intended to preserve the economic value of foreign currency denominated monetary assets and liabilities.

For the three and six months ended June 30, 2018 and 2017, amounts excluded from the assessment of effectiveness and the ineffective portion of the changes in the fair value of our foreign currency forward agreements that are designated as cash flows were not material. As of June 30, 2018, we estimate that \$0.4 million of net gains will be reclassified from Accumulated other comprehensive loss to earnings during the twelve-month period ending June 30, 2019.

Table of Contents

As of June 30, 2018, we had the following outstanding foreign currency forward contracts:

Notional (in millions)	Effective Date(s)	Maturity Date(s)	Index	Weighted- Average Strike Rate	Hedge Designation
45.0 EUR	June 27, 2018	July 31, 2018	Euro to U.S. Dollar Exchange Rate	1.16 USD	Not designated
360.2 EUR	Various from August 2016 to June 2018	Various from July 2018 to May 2020	Euro to U.S. Dollar Exchange Rate	1.19 USD	Designated
756.0 CNY	June 26, 2018	July 31, 2018	U.S. Dollar to Chinese Renminbi Exchange Rate	6.59 CNY	Not designated
540.7 CNY	Various from October 2017 to January 2018	Various from July to December 2018	U.S. Dollar to Chinese Renminbi Exchange Rate	6.72 CNY	Designated
114.0 JPY	June 27, 2018	July 31, 2018	U.S. Dollar to Japanese Yen Exchange Rate	110.15 JPY	Not designated
411.8 JPY	January 25, 2018	Various from July to December 2018	U.S. Dollar to Japanese Yen Exchange Rate	106.90 JPY	Designated
32,237.0 KRW	Various from August 2016 to June 2018	Various from July 2018 to May 2020	U.S. Dollar to Korean Won Exchange Rate	1,106.11 KRW	Designated
21.0 MYR	June 26, 2018	July 31, 2018	U.S. Dollar to Malaysian Ringgit Exchange Rate	4.03 MYR	Not Designated
3.5 MYR	Various from August to November 2016	Various from July to October 2018	U.S. Dollar to Malaysian Ringgit Exchange Rate	4.33 MYR	Designated
250.0 MXN	June 27, 2018	July 31, 2018	U.S. Dollar to Mexican Peso Exchange Rate	20.14 MXN	Not designated
2,621.0 MXN	Various from August 2016 to June 2018	Various from July 2018 to May 2020	U.S. Dollar to Mexican Peso Exchange Rate	20.58 MXN	Designated
6.8 GBP	June 27, 2018	July 31, 2018	British Pound Sterling to U.S. Dollar Exchange Rate	1.32 USD	Not Designated
38.2 GBP	Various from July 2016 to June 2018	Various from July 2018 to May 2020	British Pound Sterling to U.S. Dollar Exchange Rate	1.34 USD	Designated

Hedges of Commodity Risk

Our objective in using commodity forward contracts is to offset a portion of our exposure to the potential change in prices associated with certain commodities used in the manufacturing of our products, including silver, gold, nickel, aluminum, copper, platinum, and palladium. The terms of these forward contracts fix the price at a future date for various notional amounts associated with these commodities. These instruments are not designated for hedge accounting treatment in accordance with FASB ASC Topic 815.

As of June 30, 2018, we had the following outstanding commodity forward contracts, none of which were designated as derivatives in qualifying hedging relationships:

Edgar Filing: Sensata Technologies Holding plc - Form 10-Q

Commodity	Notional	Remaining Contracted Periods	Weighted-Average Strike Price Per Unit
Silver	974,890 troy oz.	July 2018 - April 2020	\$17.54
Gold	10,389 troy oz.	July 2018 - April 2020	\$1,318.67
Nickel	258,668 pounds	July 2018 - April 2020	\$5.46
Aluminum	4,615,267 pounds	July 2018 - April 2020	\$0.94
Copper	6,160,002 pounds	July 2018 - April 2020	\$2.95
Platinum	7,093 troy oz.	July 2018 - April 2020	\$972.54
Palladium	1,602 troy oz.	July 2018 - April 2020	\$905.37

Table of Contents

The following tables present the effect of our derivative financial instruments on the condensed consolidated statements of operations for the six months ended June 30, 2018 and 2017:

Derivatives designated as hedging instruments	Amount of Deferred Gain/(Loss) Recognized in Other Comprehensive Income/ (Loss) June 30, 2018		Location of Net (Loss)/Gain Reclassified from Accumulated Other Comprehensive Loss into Net Income	Amount of Net (Loss)/Gain Reclassified from Accumulated Other Comprehensive Loss into Net Income June 30, 2018	
	June 30, 2017			June 30, 2017	
Foreign currency forward contracts	\$ 15,803	\$(39,791)	Net revenue	\$(18,948)	\$7,753
Foreign currency forward contracts	\$4,658	\$21,427	Cost of revenue	\$1,836	\$(11,403)
Foreign currency forward contracts	\$—	\$—	Other, net	\$(1,376)	\$—
Derivatives not designated as hedging instruments	Amount of (Loss)/Gain Recognized in Net Income June 30, 2018		Location of (Loss)/Gain Recognized in Net Income	Amount of (Loss)/Gain Recognized in Net Income June 30, 2017	
	June 30, 2018	June 30, 2017			June 30, 2017
Commodity forward contracts	\$(4,621)	\$3,483	Other, net		
Foreign currency forward contracts	\$826	\$(6,677)	Other, net		

Credit Risk Related Contingent Features

We have agreements with certain of our derivative counterparties that contain a provision whereby if we default on our indebtedness, and where repayment of the indebtedness has been accelerated by the lender, then we could also be declared in default on our derivative obligations.

As of June 30, 2018, the termination value of outstanding derivatives in a liability position, excluding any adjustment for non-performance risk, was \$15.0 million. As of June 30, 2018, we have not posted any cash collateral related to these agreements. If we breach any of the default provisions on any of our indebtedness, as described above, we could be required to settle our obligations under the derivative agreements at their termination values.

13. Other, Net

Other, net consisted of the following for the three and six months ended June 30, 2018 and 2017:

	For the three months ended		For the six months ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Currency remeasurement (loss)/gain on net monetary assets	\$ (15,677)	\$ 4,830	\$(8,929)	\$7,021
Gain/(loss) on foreign currency forward contracts	5,776	(4,141)	(550)	(6,677)
(Loss)/gain on commodity forward contracts	(1,426)	(1,957)	(4,621)	3,483
Loss on debt financing	—	—	(2,350)	—
Net periodic benefit cost, excluding service cost ⁽¹⁾	(216)	(745)	(514)	(1,222)
Other	490	150	1,278	251
Other, net	\$ (11,053)	\$ (1,863)	\$(15,686)	\$2,856

(1) On January 1, 2018, we adopted FASB ASU No. 2017-07, which requires the service cost component and other components of net periodic benefit cost to be presented separately on the condensed consolidated statements of

operations. Refer to Note 2, "New Accounting Standards," and Note 8, "Pension and Other Post-Retirement Benefits," for additional details.

14. Segment Reporting

We organize our business into two reportable segments, Performance Sensing and Sensing Solutions, each of which is also an operating segment. Our operating segments are businesses that we manage as components of an enterprise for which separate financial information is evaluated regularly by our chief operating decision maker in deciding how to allocate resources and assess performance.

An operating segment's performance is primarily evaluated based on Segment profit, which excludes amortization expense, Restructuring and other charges, net, and certain corporate costs/credits not associated with the operations of the segment,

Table of Contents

including share-based compensation expense and a portion of depreciation expense associated with assets recorded in connection with acquisitions. In addition, an operating segment's performance excludes results from discontinued operations, if any. Corporate and other costs excluded from an operating segment's performance are separately stated below and also include costs that are related to functional areas, such as finance, information technology, legal, and human resources. We believe that Segment profit, as defined above, is an appropriate measure for evaluating the operating performance of our segments. However, this measure should be considered in addition to, and not as a substitute for, or superior to, profit from operations or other measures of financial performance prepared in accordance with U.S. GAAP. The accounting policies of each of our reporting segments are materially consistent with those in the summary of significant accounting policies as described in Note 2, "Significant Accounting Policies," included in our Annual Report on Form 10-K for the year ended December 31, 2017.

The following table presents Net revenue and Segment profit for the reported segments and other operating results not allocated to the reported segments for the three and six months ended June 30, 2018 and 2017:

	For the three months ended		For the six months ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Net revenue:				
Performance Sensing	\$676,217	\$621,829	\$1,339,046	\$1,221,972
Sensing Solutions	237,643	218,045	461,107	425,173
Total net revenue	\$913,860	\$839,874	\$1,800,153	\$1,647,145
Segment profit (as defined above):				
Performance Sensing	\$187,365	\$169,100	\$356,775	\$320,836
Sensing Solutions	79,070	70,101	150,954	137,539
Total segment profit	266,435	239,201	507,729	458,375
Corporate and other	(53,537)	(51,840)	(108,318)	(98,080)
Amortization of intangible assets	(34,594)	(41,003)	(69,663)	(81,261)
Restructuring and other charges, net	(244)	(6,389)	(4,010)	(17,439)
Profit from operations	178,060	139,969	325,738	261,595
Interest expense, net	(38,321)	(40,038)	(76,750)	(80,315)
Other, net	(11,053)	(1,863)	(15,686)	2,856
Income before taxes	\$128,686	\$98,068	\$233,302	\$184,136

15. Net Income per Share

Basic and diluted net income per share are calculated by dividing Net income by the number of basic and diluted weighted-average ordinary shares outstanding during the period. For the three and six months ended June 30, 2018 and 2017, the weighted-average ordinary shares outstanding for basic and diluted net income per share were as follows:

	For the three months ended		For the six months ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Basic weighted-average ordinary shares outstanding	171,439	171,132	171,422	171,040
Dilutive effect of stock options	883	518	905	542
Dilutive effect of unvested restricted securities	371	270	448	331
Diluted weighted-average ordinary shares outstanding	172,693	171,920	172,775	171,913

Net income and net income per share are presented in the condensed consolidated statements of operations.

Table of Contents

Certain potential ordinary shares were excluded from our calculation of diluted weighted-average ordinary shares outstanding because either they would have had an anti-dilutive effect on net income per share or they related to equity awards that were contingently issuable for which the contingency had not been satisfied. These potential ordinary shares are as follows:

	For the three months ended		For the six months ended
	June 30, 2018	June 30, 2017	June 30, 2018 June 30, 2017
Anti-dilutive shares excluded	989	2,040	849 1,660
Contingently issuable shares excluded	808	947	798 732

16. Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). Refer to Note 2, "New Accounting Standards," for additional detail of this standard. We adopted FASB ASC Topic 606 on January 1, 2018, only for contracts that were not completed as of January 1, 2018, using the modified retrospective method.

Because (1) the vast majority of our revenue is derived from the sale of tangible products for which we recognize revenue at a point in time and (2) the contracts that relate to these product shipments are purchase orders that have firm purchase commitments (generally over a short period of time), the adoption of FASB ASC Topic 606 did not have a material effect on our financial statements or results of operations, and no cumulative catch-up adjustment was required.

We are electing to apply certain practical expedients that allow for more limited disclosures than those that would otherwise be required by FASB ASC Topic 606, including (1) the disclosure of transaction price allocated to the remaining unsatisfied performance obligations at the end of the period and (2) an explanation of when we expect to recognize the related revenue.

The following tables present revenue by segment, further disaggregated by end-market:

	For the three months ended June 30, 2018			For the three months ended June 30, 2017		
	Performance Sensing	Sensing Solutions	Total	Performance Sensing	Sensing Solutions	Total

Performance Obligations

Our revenue and related cost of revenue are primarily the result of promises to transfer products to our customers. Revenue is recognized when control of the product is transferred to the customer (i.e. when our performance obligation has been satisfied), which is generally when the product is shipped from our warehouse or, in limited instances, when it is received by the customer, depending on the specific terms of the arrangement. Payment for products is generally due a short time (less than a year) after shipment to the customer.

21

Table of Contents

Sales to customers generally include a right of return for defective or non-conforming product. Sales returns have not historically been significant in relation to our net revenue and have been within our estimates. Product sales are recorded net of variable consideration, such as sales returns and trade discounts (including volume and early payment incentives), as well as value-added tax and similar taxes. Amounts billed to our customers for shipping and handling are recorded in revenue. Shipping and handling costs are included in cost of revenue.

Warranties

Our standard terms of sale provide our customers with a warranty against faulty workmanship and the use of defective materials, which, depending on the product, generally exists for a period of twelve to eighteen months after the date we ship the product to our customer or for a period of twelve months after the date the customer resells our product, whichever comes first. We do not offer separately priced extended warranty or product maintenance contracts. Our liability associated with this warranty is, at our option, to repair the product, replace the product, or provide the customer with a credit.

We also sell products to customers under negotiated agreements or where we have accepted the customer's terms of purchase. In these instances, we may provide additional warranties for longer durations, consistent with differing end market practices, and where our liability is not limited. In addition, many sales take place in situations where commercial or civil codes, or other laws, would imply various warranties and restrict limitations on liability.

Contract Assets and Liabilities

Our contract assets consist of Accounts receivable. Contract liabilities, whereby we receive payment by customers related to our promise to satisfy performance obligations in the future, are not material.

17. Disposal Group

On May 22, 2018, we entered into a stock purchase agreement (the "SPA") with Pacific Industrial Co., Ltd. ("Pacific") to sell the Valves Business for cash consideration of approximately \$173.0 million, subject to working capital and other adjustments. The transaction is subject to customary regulatory approvals and is expected to close in the third quarter of 2018. Also on May 22, 2018, we entered into an agreement to purchase components manufactured by the Valves Business from Pacific for an initial term of five years, beginning on the date of the closing of the sale.

The Valves Business, which we acquired in 2014 as part of our acquisition of Schrader, manufactures mechanical valves for pressure applications in tires and fluid controls and assembles tire hardware aftermarket products. The Valves Business has manufacturing locations in the United States and Europe.

Prior to entering into the SPA, we determined that the assets and liabilities of the Valves Business constituted a disposal group that met the held for sale criteria described in FASB ASC Topic 360, Property, Plant and Equipment. Accordingly, as of June 30, 2018, such assets and liabilities are presented separately on our balance sheet as assets held for sale and liabilities held for sale, respectively.

Table of Contents

The table below presents the individual assets and liabilities that comprise these balance sheet amounts.

	June 30, 2018
Assets	
Accounts receivable, net	\$21,977
Inventory	19,255
Prepaid and other current assets	6,207
Property, plant and equipment, net	22,952
Goodwill	37,500
Other intangible assets, net	10,922
Total assets held for sale	\$118,813
Liabilities	
Accounts payable	\$14,495
Income tax payable	2,270
Accrued expenses and other current liabilities	13,275
Deferred income tax liabilities	11,467
Pension and other post-retirement benefit obligations	3,252
Other long term liabilities	3,130
Total liabilities held for sale	\$47,889

The Valves Business was included in our Performance Sensing segment (and reporting unit). We allocated goodwill to the Valves Business based on its fair value relative to the fair value of the remaining Performance Sensing reporting unit. We determined that the fair value of the Valves Business, less costs to sell, exceeded the carrying amount of the related disposal group.

Table of Contents

Cautionary Statements Concerning Forward-Looking Statements

This Quarterly Report on Form 10-Q, including any document incorporated by reference herein, includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These forward-looking statements also relate to our future prospects, developments, and business strategies. These forward-looking statements may be identified by terminology such as "may," "will," "could," "should," "expect," "anticipate," "believe," "estimate," "predict," "project," "forecast," "continue," "intend," "plan," and similar terms or phrases, or the negative of such terminology, including references to assumptions. However, these terms are not the exclusive means of identifying such statements.

Forward-looking statements contained herein, or in other statements made by us, are made based on management's expectations and beliefs concerning future events impacting us. These statements are subject to uncertainties and other important factors relating to our operations and business environment, which are difficult to predict and, oftentimes, beyond our control, and could cause our actual results to differ materially from those matters expressed or implied by forward-looking statements. Although we believe that our plans, intentions, and expectations reflected in, or suggested by, such forward-looking statements are reasonable, we can give no assurances that any of the events anticipated by these forward-looking statements will occur or, if any of them do, what impact they will have on our results of operations and financial condition.

We believe that the following important factors, among others (including those described in Item 1A, "Risk Factors," included in our Annual Report on Form 10-K for the year ended December 31, 2017, filed on February 1, 2018), could affect our future performance and the liquidity and value of our securities and cause our actual results to differ materially from those expressed or implied by forward-looking statements made by us or on our behalf:

- instability and changes in the global markets, including regulatory, political, economic, and military matters;
- changes to current policies, such as trade tariffs, by the U.S. government;
- adverse conditions in the automotive industry;
- competition in our industry;
 - pressure from customers to reduce prices;
- supplier interruption or non-performance limiting our access to manufactured components or raw materials;
- business disruptions due to natural disasters or other disasters outside our control;
- labor disruptions or increased labor costs;
- difficulties or failures to integrate businesses we acquire;
- disruptions from any future acquisitions dispositions, joint ventures, collaborative arrangements, or other investments that either require significant resources, result in significant unanticipated losses, costs, or liabilities, or a combination thereof;
- market acceptance of new product introductions and product innovations;
 - changes to, or our inability to comply with, various regulations, including tax laws, import/export regulations, anti-bribery laws, environmental and safety laws, and other governmental regulations;
- foreign currency risks, changes in socio-economic conditions, or changes to monetary and fiscal policies, including as a result of the impending exit of the U.K. from the European Union;
- losses and costs as a result of intellectual property, product liability, warranty, and recall claims that may be brought against us;
- taxing authorities challenging our historical and future tax positions or our allocation of taxable income among our subsidiaries, and challenges to the sovereign taxation regimes of European Union member states by the European Commission;
- our level of indebtedness, or our inability to meet debt service obligations or comply with the covenants contained in the credit agreement and indentures; and
- security breaches and other disruptions to our information technology infrastructure.

All forward-looking statements attributable to us or persons acting on our behalf speak only as of the date of this Quarterly Report on Form 10-Q and are expressly qualified in their entirety by the cautionary statements contained in this Quarterly Report on Form 10-Q. We undertake no obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events. We urge readers to review carefully the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2017 and in the other documents that we file with the U.S. Securities and Exchange Commission. You can read these documents at www.sec.gov or on our website at www.sensata.com.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the U.S. Securities and Exchange Commission on February 1, 2018, and the unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

Results of Operations

The tables below present our results of operations, in millions of dollars and as a percentage of net revenue, for the three and six months ended June 30, 2018 compared to the three and six months ended June 30, 2017. We have derived the results of operations from the condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. Amounts and percentages have been calculated based on unrounded numbers. Accordingly, certain amounts may not sum due to the effect of rounding.

Three Months Ended June 30, 2018 Compared to the Three Months Ended June 30, 2017

(\$ in millions)	For the three months ended					
	June 30, 2018			June 30, 2017		
	Amount	Percent of Net Revenue		Amount	Percent of Net Revenue	
Net revenue:

Restructuring and other charges, net	0.2	0.0		6.4	0.8	
Total operating costs and expenses	735.8	80.5		699.9	83.3	
Profit from operations	178.1	19.5		140.0	16.7	
Interest expense, net	(38.3)	(4.2)		(40.0)	(4.8)	
Other, net	(11.1)	(1.2)		(1.9)	(0.2)	
Income before taxes	128.7	14.1		98.1	11.7	
Provision for income taxes	23.4	2.6		18.6	2.2	
Net income	\$105.3	11.5 %		\$79.5	9.5 %	

Net revenue

Net revenue for the three months ended June 30, 2018 increased \$74.0 million, or 8.8%, to \$913.9 million from \$839.9 million for the three months ended June 30, 2017. This increase in net revenue was composed of an 8.7% increase in Performance Sensing and a 9.0% increase in Sensing Solutions. Excluding a 2.4% increase due to changes in foreign currency exchange rates, primarily the Euro and Chinese Renminbi, organic revenue growth was 6.4% when compared to the three months ended June 30, 2017. Organic revenue growth is a non-GAAP financial measure. Refer to the section entitled Non-GAAP Financial Measures for further information on our use of this measure. Performance Sensing net revenue for the three months ended June 30, 2018 increased \$54.4 million, or 8.7%, to \$676.2 million from \$621.8 million for the three months ended June 30, 2017. Excluding a 2.8% increase due to changes in foreign currency exchange rates, primarily the Euro and Chinese Renminbi, organic revenue growth was 5.9% when compared to the three months ended June 30, 2017. This organic revenue growth was primarily driven by growth in our automotive business, principally China, as well as the heavy vehicle off-road ("HVOR") business, more specifically the on-road truck markets in North America and, to a lesser extent, Europe, and the global construction and agriculture markets.

Sensing Solutions net revenue for the three months ended June 30, 2018 increased \$19.6 million, or 9.0%, to \$237.6 million from \$218.0 million for the three months ended June 30, 2017. Excluding a 1.4% increase due to changes in foreign currency

Table of Contents

exchange rates, largely related to the Chinese Renminbi and Euro, organic revenue growth was 7.6% when compared to the three months ended June 30, 2017. Organic revenue growth in Sensing Solutions was primarily due to growth in our semiconductor, industrial, and aerospace end-markets, primarily in North America and Asia.

Cost of revenue

Cost of revenue for the three months ended June 30, 2018 and 2017 was \$582.5 million (63.7% of net revenue) and \$540.5 million (64.4% of net revenue), respectively. Cost of revenue as a percentage of net revenue decreased primarily due to improved operating efficiencies, synergies from the integration of acquired businesses, and the favorable impact of foreign currency exchange rates.

Research and development expense

Research and development ("R&D") expense for the three months ended June 30, 2018 and 2017 was \$38.0 million and \$31.2 million, respectively. R&D expense was higher primarily due to increased design and development effort to support new design wins and fund development activities to intersect emerging "megatrends" that are shaping our markets, and the unfavorable impact of foreign currency exchange rates, primarily the Euro. We invest in R&D to support new platform and technology developments, both in our recently acquired and existing businesses, in order to drive future revenue growth. The level of R&D expense is related to the number of products in development, the stage of such products in the development process, the complexity of the underlying technology, the potential scale of the product upon successful commercialization, and the level of our exploratory research.

Selling, general and administrative expense

Selling, general and administrative ("SG&A") expense for the three months ended June 30, 2018 and 2017 was \$80.5 million and \$80.8 million, respectively. SG&A expense was negatively impacted by foreign currency exchange rates and costs related to the Merger, which were offset by lower integration costs, synergies from the integration of acquired businesses, and productivity improvements. SG&A expense consists of all expenditures incurred in connection with the sales and marketing of our products, as well as administrative overhead costs. These costs are fixed or variable in nature, and we may at times experience increased or decreased variable costs for reasons other than increased or decreased net revenue. As a result, SG&A expense will not necessarily remain consistent as a percentage of revenue.

Amortization of intangible assets

Amortization expense associated with definite-lived intangible assets for the three months ended June 30, 2018 and 2017 was \$34.6 million and \$41.0 million, respectively. Definite-lived intangible assets are amortized on an economic benefit basis according to the useful lives of the assets, or on a straight-line basis if a pattern of economic benefits cannot be reliably determined. In general, the economic benefit of an intangible asset is concentrated towards the beginning of that intangible asset's useful life. The decrease in amortization expense is due to the effect of the economic benefit method.

Restructuring and other charges, net

Restructuring and other charges, net for the three months ended June 30, 2018 and 2017 were \$0.2 million and \$6.4 million, respectively. Restructuring and other charges, net for the three months ended June 30, 2017 consisted primarily of severance charges recorded in connection with the closing of our facility in Minden, Germany that was part of the acquisition of certain subsidiaries of Custom Sensors & Technologies Ltd. ("CST"), a limited number of other line moves and exit activities, and severance charges related to the termination of a limited number of employees.

Interest expense, net

Interest expense, net for the three months ended June 30, 2018 and 2017 was \$38.3 million and \$40.0 million, respectively. The reduction in interest expense, net relates primarily to higher interest income due to increasing cash balances.

Other, net

Other, net for the three months ended June 30, 2018 and 2017 represented net losses of \$11.1 million and \$1.9 million, respectively. The change in Other, net relates primarily to fluctuations in foreign currency exchange rates, primarily the Chinese Renminbi, net of any offsetting hedge gain or loss. Refer to Note 13, "Other, Net," of our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a detail of the

components of Other, net.

26

Table of Contents

Provision for income taxes

Provision for income taxes for the three months ended June 30, 2018 and 2017 was \$23.4 million and \$18.6 million, respectively. The provision for income taxes consists of (i) current tax expense, which relates primarily to our profitable operations in non-U.S. tax jurisdictions and withholding taxes on interest and royalty income; and (ii) deferred tax expense, which represents adjustments in book-to-tax basis differences primarily related to the step-up in fair value of fixed and intangible assets, including goodwill, acquired in connection with business combination transactions, the utilization of net operating losses, and prospective changes in U.S. tax rates due to newly enacted legislation.

On December 22, 2017, President Trump signed into U.S. law the Tax Cuts and Jobs Act of 2017 ("Tax Reform" or "the Act"). Financial Accounting Standards Board Accounting Standards Codification Topic 740, Income Taxes, requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning after December 31, 2017.

Given the significance of the legislation, the U.S. Securities and Exchange Commission (the "SEC") staff issued Staff Accounting Bulletin No.118 ("SAB 118"), which allows registrants to record provisional amounts during a one-year "measurement period" similar to that used when accounting for business combinations. However, the measurement period is deemed to have ended earlier when the registrant has obtained, prepared, and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. As of June 30, 2018, we have not recorded incremental accounting adjustments related to the Act as we continue to consider interpretations of its application, including its impact on the realizability of our U.S. deferred tax asset valuation allowance.

Net revenue

Net revenue for the six months ended June 30, 2018 increased \$153.0 million, or 9.3%, to \$1,800.2 million from \$1,647.1 million for the six months ended June 30, 2017. This increase in net revenue was composed of a 9.6% increase in Performance Sensing and an 8.5% increase in Sensing Solutions. Excluding a 2.9% increase due to changes in foreign currency exchange rates, primarily the Euro and Chinese Renminbi, organic revenue growth was

6.4% when compared to the six months ended June 30, 2017. Organic revenue growth is a non-GAAP financial measure. Refer to the section entitled Non-GAAP Financial Measures for further information on our use of this measure.

Table of Contents

Performance Sensing net revenue for the six months ended June 30, 2018 increased \$117.1 million, or 9.6%, to \$1,339.0 million from \$1,222.0 million for the six months ended June 30, 2017. Excluding a 3.4% increase due to changes in foreign currency exchange rates, primarily the Euro and Chinese Renminbi, organic revenue growth was 6.2% when compared to the six months ended June 30, 2017. This organic revenue growth was primarily driven by growth in our automotive business, principally China, as well as the HVOR business, more specifically the on-road truck markets in North America and, to a lesser extent, Europe, and the global construction and agriculture markets. Sensing Solutions net revenue for the six months ended June 30, 2018 increased \$35.9 million, or 8.5%, to \$461.1 million from \$425.2 million for the six months ended June 30, 2017. Excluding a 1.5% increase due to changes in foreign currency exchange rates, largely related to the Chinese Renminbi and Euro, organic revenue growth was 7.0% when compared to the six months ended June 30, 2017. Organic revenue growth in Sensing Solutions was primarily due to growth in our semiconductor, industrial, and aerospace end-markets, primarily in North America and Asia.

Cost of revenue

Cost of revenue for the six months ended June 30, 2018 and 2017 was \$1,165.0 million (64.7% of net revenue) and \$1,072.9 million (65.1% of net revenue), respectively. Cost of revenue as a percentage of net revenue decreased primarily due to the favorable impact of foreign currency exchange rates, improved operating efficiencies, and synergies from the integration of acquired businesses.

Research and development expense

R&D expense for the six months ended June 30, 2018 and 2017 was \$74.0 million and \$63.0 million, respectively. R&D expense was higher primarily due to increased design and development effort to support new design wins and fund development activities to intersect emerging "megatrends" that are shaping our markets, and the unfavorable impact of foreign currency exchange rates, primarily the Euro.

Selling, general and administrative expense

SG&A expense for the six months ended June 30, 2018 and 2017 was \$161.8 million and \$150.9 million, respectively. SG&A increased primarily due to the unfavorable impact of foreign currency exchange rates, costs related to the Merger, and higher selling costs, partially offset by lower integration costs, synergies from the integration of acquired businesses, and productivity improvements.

Amortization of intangible assets

Amortization expense associated with definite-lived intangible assets for the six months ended June 30, 2018 and 2017 was \$69.7 million and \$81.3 million, respectively. The decrease in amortization expense is due to the effect of the economic benefit method.

Restructuring and other charges, net

Restructuring and other charges, net for the six months ended June 30, 2018 and 2017 were \$4.0 million and \$17.4 million, respectively. For the six months ended June 30, 2018, Restructuring and other charges, net consisted primarily of severance charges of \$3.5 million, recognized in the first quarter, related to limited workforce reductions in manufacturing, engineering, and administrative positions as well as the transfer of certain positions to more cost-effective locations. The expected payback period for these actions is approximately two years, and they are expected to generate incremental pre-tax savings of approximately \$3 million on an annual basis once fully implemented. Restructuring and other charges, net for the six months ended June 30, 2017 consisted primarily of severance charges recorded in connection with the closing of our facility in Minden, Germany that was part of the acquisition of CST, a limited number of other line moves and exit activities, and severance charges related to the termination of a limited number of employees.

Interest expense, net

Interest expense, net for the six months ended June 30, 2018 and 2017 was \$76.8 million and \$80.3 million, respectively. The reduction in interest expense, net relates primarily to higher interest income due to increasing cash balances.

Other, net

Other, net for the six months ended June 30, 2018 and 2017 represented a \$(15.7) million net loss and a \$2.9 million net gain, respectively. The change in Other, net relates primarily to fluctuations in foreign currency exchange rates, primarily the Chinese Renminbi, net of any hedge gain or loss, fluctuations in commodity prices relative to the strike

prices on outstanding forward

28

Table of Contents

contracts, and a \$(2.4) million loss recognized in connection with obtaining creditor consents prior to completing the Merger. Refer to Note 13, "Other, Net," of our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a detail of the components of Other, net. Refer to Note 6, "Debt," of our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion of the loss recognized in connection with obtaining creditor consents.

Provision for income taxes

Provision for income taxes for the six months ended June 30, 2018 and 2017 was \$37.5 million and \$32.9 million, respectively. The provision for income taxes consists of (i) current tax expense, which relates primarily to our profitable operations in non-U.S. tax jurisdictions and withholding taxes on interest and royalty income; and (ii) deferred tax expense, which represents adjustments in book-to-tax basis differences primarily related to the step-up in fair value of fixed and intangible assets, including goodwill, acquired in connection with business combination transactions, and the utilization of net operating losses, and prospective changes in U.S. tax rates due to newly enacted legislation.

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q includes references to organic revenue growth, which is a non-GAAP financial measure. Organic revenue growth is defined as the reported percentage change in net revenue calculated in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"), excluding the impact of acquisitions, net of exited businesses that occurred within the previous 12 months and the effect of differences in foreign currency exchange rates, net of related hedges, between the current and prior-year periods.

We believe that organic revenue growth provides investors with helpful information with respect to our operating performance, and we use organic revenue growth to evaluate our ongoing operations as well as for internal planning and forecasting purposes. We believe organic revenue growth provides useful information in evaluating the results of our business because it excludes items that we believe are not indicative of ongoing performance or that we believe impact comparability with the prior-year period.

However, organic revenue growth should be considered as supplemental in nature and is not intended to be considered in isolation or as a substitute for the reported percentage change in net income calculated in accordance with U.S. GAAP. In addition, our measure of organic revenue growth may not be the same as, or comparable to, similar non-GAAP financial measures presented by other companies.

Liquidity and Capital Resources

We held cash and cash equivalents globally in the following regions:

	June	December
(in millions)	30,	31, 2017
	2018	
United Kingdom	\$ 12.5	\$ 13.7
United States	7.8	9.0
The Netherlands	395.8	260.9
China	358.9	383.0
Other	88.4	86.5
Total	\$ 863.4	\$ 753.1

The amount of cash and cash equivalents held in these geographic regions fluctuates throughout the year due to a variety of factors, such as our use of intercompany loans and dividends and the timing of cash receipts and disbursements in the normal course of business. Our earnings are not considered to be permanently reinvested in certain jurisdictions in which they were earned. We record a deferred tax liability on these unremitted earnings to the extent the remittance of such earnings cannot be recovered in a tax free manner.

Table of Contents

Cash Flows:

The table below summarizes our primary sources and uses of cash for the six months ended June 30, 2018 and 2017. We have derived the summarized statements of cash flows from the condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. Amounts in the table below have been calculated based on unrounded numbers. Accordingly, certain amounts may not sum due to the effect of rounding.

(in millions)	For the six months ended	
	June 30, 2018	June 30, 2017
Net cash provided by/(used in):		
Operating activities:		
Net income adjusted for non-cash items	\$357.1	\$317.0
Changes in operating assets and liabilities, net of effects of acquisitions	(103.2)	(83.2)
Operating activities	253.9	233.8
Investing activities	(61.3)	(61.5)
Financing activities	(82.3)	(12.3)
Net change	\$110.3	\$160.1

Operating activities. Net cash provided by operating activities for the six months ended June 30, 2018 and 2017 was \$253.9 million and \$233.8 million, respectively. The increase in cash provided by operating activities relates primarily to improved operating profitability, partially offset by a build up of inventory, in part to support line moves.

Investing activities. Net cash used in investing activities for the six months ended June 30, 2018 and 2017 was \$61.3 million and \$61.5 million, respectively, which primarily related to capital expenditures. In 2018, we anticipate capital expenditures of approximately \$150 million to \$160 million, which we expect to be funded from net cash provided by operating activities.

Financing activities. Net cash used in financing activities for the six months ended June 30, 2018 and 2017 was \$82.3 million and \$12.3 million, respectively, which included \$12.4 million and \$12.3 million, respectively, in payments on debt. The six months ended June 30, 2018 also included \$63.7 million in payments to repurchase our ordinary shares (including \$60.1 million related to our \$400.0 million share repurchase program) and \$5.8 million of fees paid to creditors and third parties in order to obtain consents to the Merger from our existing lenders.

Indebtedness and Liquidity:

Our liquidity requirements are significant due to our highly leveraged nature. As of June 30, 2018, we had \$3,300.2 million in gross indebtedness, which includes capital lease and other financing obligations and excludes debt discounts and deferred financing costs.

A summary of our indebtedness as of June 30, 2018 is as follows:

(in thousands)	Maturity Date	June 30, 2018
Term Loan	October 14, 2021	\$917,794
4.875% Senior Notes	October 15, 2023	500,000
5.625% Senior Notes	November 1, 2024	400,000
5.0% Senior Notes	October 1, 2025	700,000
6.25% Senior Notes	February 15, 2026	750,000
Less: discount		(16,545)
Less: deferred financing costs		(25,457)
Less: current portion		(4,753)
Long-term debt, net		\$3,221,039
Capital lease and other financing obligations		\$32,389
Less: current portion		(6,291)
Capital lease and other financing obligations, less current portion		\$26,098

Table of Contents

As of June 30, 2018, we had \$415.4 million available under the Revolving Credit Facility, net of \$4.6 million in letters of credit. Outstanding letters of credit are issued primarily for the benefit of certain operating activities. As of June 30, 2018, no amounts had been drawn against these outstanding letters of credit.

Capital Resources

Our sources of liquidity include cash on hand, cash flows from operations, and available capacity under the Revolving Credit Facility. In addition, our senior secured credit facilities provide for incremental facilities (the "Accordion"), under which additional term loans may be issued or the capacity of the Revolving Credit Facility may be increased. Pursuant to the Eighth Amendment, the Accordion was increased from \$230.0 million to \$1,000.0 million, all of which remained available for issuance as of as of June 30, 2018.

We believe, based on our current level of operations as reflected in our results of operations for the three and six months ended June 30, 2018, and taking into consideration the restrictions and covenants discussed below, that these sources of liquidity will be sufficient to fund our operations, capital expenditures, ordinary share repurchases, and debt service for at least the next twelve months. However, we cannot make assurances that our business will generate sufficient cash flows from operations or that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. Further, our highly leveraged nature may limit our ability to procure additional financing in the future.

Upon completion of the Merger, the \$250.0 million share repurchase program previously authorized by the board of directors of Sensata N.V. lapsed, and our ability to repurchase shares as a company incorporated in England and Wales became contingent upon the completion of certain court proceedings in the U.K. (which were completed in the second quarter of 2018), approval of our shareholders (which occurred at our May 31, 2018 annual general meeting of shareholders), and authorization by our board of directors.

On May 31, 2018, we announced that our board of directors had authorized a \$400.0 million share repurchase program. Under this program, we may repurchase ordinary shares at such times and in amounts to be determined by our management, based on market conditions, legal requirements, and other corporate considerations, on the open market or in privately negotiated transactions, provided that such transactions are completed pursuant to an agreement and with a third party approved by our shareholders at the annual general meeting. The authorized amount of our share repurchase program may be modified or terminated by our board of directors at any time. We repurchased 1,137 ordinary shares under this program during the three months ended June 30, 2018, at a weighted-average price of \$52.87 per share, which are now held as treasury shares. At June 30, 2018, \$339.9 million remained available for the repurchase of shares under this program. We expect to complete this program in the next six months.

The Credit Agreement stipulates certain events and conditions that may require us to use excess cash flow, as defined by the terms of the Credit Agreement, generated by operating, investing, or financing activities, to prepay some or all of the outstanding borrowings under the Senior Secured Credit Facilities. The Credit Agreement also requires mandatory prepayments of the outstanding borrowings under the Senior Secured Credit Facilities upon certain asset dispositions and casualty events, in each case subject to certain reinvestment rights, and the incurrence of certain indebtedness (excluding any permitted indebtedness). These provisions were not triggered during the six months ended June 30, 2018.

Our ability to raise additional financing, and our borrowing costs, may be impacted by short- and long-term debt ratings assigned by independent rating agencies, which are based, in significant part, on our performance as measured by certain credit metrics such as interest coverage and leverage ratios. As of July 20, 2018, Moody's Investors Service's corporate credit rating for Sensata Technologies B.V. ("STBV") was Ba2 with a stable outlook and Standard & Poor's corporate credit rating for STBV was BB+ with a stable outlook. Any future downgrades to STBV's credit ratings may increase our borrowing costs, but will not reduce availability under the Credit Agreement.

The Credit Agreement and the indentures under which our senior notes were issued contain restrictions and covenants that limit the ability of STBV and certain of its subsidiaries to, among other things, incur subsequent indebtedness, sell assets, make capital expenditures, pay dividends, and make other restricted payments. For a full discussion of these restrictions and covenants, refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Capital Resources," included in our Annual Report on Form 10-K for the year ended December 31, 2017.

As of June 30, 2018, we believe we were in compliance with all covenants and default provisions under our credit arrangements.

Recently Issued Accounting Pronouncements

Adopted in the current period

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which modifies how all entities recognize revenue, and consolidates into one ASC Topic (FASB ASC Topic 606, Revenue from Contracts with Customers) the guidance found in FASB ASC Topic 605, Revenue Recognition, and various other revenue accounting standards for specialized transactions and industries. FASB ASC Topic 606 outlines a comprehensive five-step revenue recognition model based on the principle that an entity should recognize revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We adopted FASB ASC Topic 606 on January 1, 2018 using the modified retrospective transition method. Refer to Note 16, "Revenue Recognition," for additional details on this implementation and the required disclosures.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. The new recognition and measurement guidance requires entities to measure equity investments (except those accounted for under the equity method, those that result in consolidation of the investee, and certain other investments) either at fair value, with changes to fair value recognized in net income, or, in certain instances, by use of a measurement alternative. Under the measurement alternative, such investments are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. We adopted this guidance on January 1, 2018, which resulted in no impact on our consolidated financial position or results of operations. Refer to Note 11, "Fair Value Measures," for further detail regarding the application of the measurement alternative to our \$50.0 million equity investment in Series B Preferred Stock of Quanergy, Inc ("Quanergy"), which does not have a readily determinable fair value.

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires a change in the presentation of net periodic benefit cost on the consolidated statements of operations. Specifically, entities must present the service cost component of net periodic benefit cost in the same financial statement line item(s) as other compensation costs arising from services rendered by the related employees during the period, whereas the non-service components of net periodic benefit cost must be presented separately from the financial statement line item(s) that include service cost and outside of operating income. We adopted this guidance on January 1, 2018 and, as a result, we present the service cost component of net periodic benefit cost in the Cost of revenue, Research and development, and Selling, general, and administrative ("SG&A") expense line items, and we present the non-service components of net periodic benefit cost in Other, net. Refer to Note 13, "Other, Net," for the total other components of net periodic benefit cost. All prior period amounts have been recast to reflect the revised presentation, and the adjustments made to revise the presentation of our prior year condensed consolidated statement of operations are presented in Note 8, "Pension and Other Post-Retirement Benefits."

To be adopted in a future period

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of one year or less) using a method similar to the current operating lease model. The statement of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods therein, with early adoption permitted. FASB ASU No. 2016-02 currently must be applied using a modified retrospective approach, which requires the recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available. However, in January 2018, the FASB issued a proposed ASU that would amend certain aspects of FASB ASU No. 2016-02. The proposed amendments create an additional practical expedient that would allow an entity to

apply the transition provisions of the new standard, including its disclosure requirements, at its adoption date instead of at the beginning of the earliest comparative period presented. We are monitoring the status of this proposed ASU, and we will adopt FASB ASU No. 2016-02 on January 1, 2019.

We are in the process of implementing a plan for the adoption of FASB ASU No. 2016-02. Through our implementation efforts, we have determined that we intend to elect to apply the package of practical expedients, and we do not intend to elect to apply the hindsight practical expedient.

Table of Contents

While we have not yet determined the impact of FASB ASU No. 2016-02 on our consolidated financial position or results of operations, at December 31, 2017, we were contractually obligated to make future payments of \$68.6 million under our operating lease obligations in existence as of that date, primarily related to long-term facility leases. Under FASB ASU No. 2016-02 these operating leases would potentially be required to be presented on our consolidated balance sheets.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. The adoption of FASB ASU No. 2017-12 will not have a material impact on our consolidated financial position or results of operations.

Critical Accounting Policies and Estimates

For a discussion of the critical accounting policies that require the use of significant judgments and estimates by management, refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates," included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

No significant changes to our market risk have occurred since December 31, 2017. For a discussion of market risk affecting us, refer to Part II, Item 7A—"Quantitative and Qualitative Disclosures About Market Risk," included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures.

The required certifications of our Chief Executive Officer and Chief Financial Officer are included as exhibits to this Quarterly Report on Form 10-Q. The disclosures set forth in this Item 4 contain information concerning the evaluation of our disclosure controls and procedures and changes in internal control over financial reporting referred to in these certifications. These certifications should be read in conjunction with this Item 4 for a more complete understanding of the matters covered by the certifications.

Evaluation of Disclosure Controls and Procedures

With the participation of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2018. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 30, 2018, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the three months ended June 30, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

There are inherent limitations to the effectiveness of any system of internal control over financial reporting. Accordingly, even an effective system of internal control over financial reporting can only provide reasonable assurance with respect to financial statement preparation and presentation in accordance with U.S. generally accepted accounting principles. Our internal controls over financial reporting are subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the soundness of our systems, the possibility of human error, and the risk of fraud. Moreover, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may be inadequate because of changes in conditions and the risk that the degree of compliance with policies or procedures may deteriorate over time.

Table of Contents

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

As discussed in Part I, Item 3—"Legal Proceedings," in our Annual Report on Form 10-K for the year ended December 31, 2017, we are regularly involved in a number of claims and litigation matters in the ordinary course of business. Most of our litigation matters are third-party claims related to patent infringement allegations or for property damage allegedly caused by our products, but some involve allegations of personal injury or wrongful death. From time to time, we are also involved in disagreements with vendors and customers. Information on certain legal proceedings in which we are involved is included in Note 10, "Commitments and Contingencies," of our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. Although it is not feasible to predict the outcome of these matters, based upon our experience and current information known to us, we do not expect the outcome of these matters, either individually or in the aggregate, to have a material adverse effect on our results of operations, financial position, or cash flows.

Item 1A. Risk Factors.

Information regarding risk factors appears in Part I, Item 1A—"Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no changes to the risk factors disclosed therein.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (in shares)	Weighted-Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plan or Programs (in millions)

June 1 through June 30, 2018	—	\$ 52.87	1,136,741	\$ 339.9
Total	70,264	\$ 52.81	1,136,741	\$ 339.9

Pursuant to the "withhold to cover" method for collecting and paying withholding taxes for our employees upon the vesting of restricted securities, we withheld from certain employees the shares noted in the table above to cover such tax withholdings. These transactions took place outside of a publicly-announced repurchase plan. The weighted-average price per share listed in the above table is the weighted-average of the fair market prices at which we calculated the number of shares withheld to cover tax for the employees.

Item 3. Defaults Upon Senior Securities.

None.
