UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 1-35229

Xylem Inc.

(Exact name of registrant as specified in its charter)

Indiana
(State or other jurisdiction of incorporation or
organization)

45-2080495

(I.R.S. Employer Identification No.)

1 International Drive, Rye Brook, NY 10573
(Address of principal executive offices) (Zip code)
(914) 323-5700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 24, 2015, there were 181,499,151 outstanding shares of the registrant's common stock, par value \$0.01 per share.

XYLEM INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Background and Basis of Presentation

Background

Xylem Inc. ("Xylem" or the "Company") is a leading equipment and service provider for water and wastewater applications with a broad portfolio of products and services addressing the full cycle of water, from collection, distribution and use to the return of water to the environment. Xylem was incorporated in Indiana on May 4, 2011. Xylem has two reportable segments, Water Infrastructure and Applied Water. The Water Infrastructure segment focuses on the transportation, treatment and testing of water, offering a range of products including water and wastewater pumps, treatment and testing equipment, and controls and systems. The Applied Water segment serves many of the primary uses of water and focuses on the residential, commercial, industrial and agricultural markets. The Applied Water segment's major products include pumps, valves, heat exchangers, controls and dispensing equipment. Hereinafter, except as otherwise indicated or unless the context otherwise requires, "Xylem," "we," "us," "our" and the "Company" refer to Xylem Inc. and its subsidiaries.

Basis of Presentation

The interim condensed consolidated financial statements reflect our financial position and results of operations in conformity with accounting principles generally accepted in the United States of America ("GAAP"). All transactions between our businesses have been eliminated.

The unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and, in the opinion of management, reflect all adjustments (which include normal recurring adjustments) considered necessary for a fair presentation of the financial position and results of operations for the periods presented. Certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules. We believe that the disclosures made are adequate to make the information presented not misleading. We consistently applied the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Annual Report") in preparing these unaudited condensed consolidated financial statements, with the exception of accounting standard updates described in Note 2. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in our 2014 Annual Report. Certain prior year amounts have been reclassified to conform to the current year presentation.

In 2014, we began implementing an organizational redesign to integrate our commercial teams within geographical regions. While this organizational redesign did not change our reportable segments, it had implications on how we manage our business. These changes and the related measurement system were effective in the fourth quarter 2014 and as a result, we commenced reporting our financial performance at such time based on the new organizational design. The 2014 segment information presented herein has been recast from amounts previously reported to reflect these changes. The recast financial information does not represent a restatement of previously issued financial statements and the changes had no impact on our historical consolidated financial position or results of operations. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and

expenses during the reporting period. Estimates are revised as additional information becomes available. Estimates and assumptions are used for, but not limited to, postretirement obligations and assets, revenue recognition, income tax contingency accruals and valuation allowances, goodwill impairment testing and contingent liabilities. Actual results could differ from these estimates. Additionally, our interim condensed consolidated financial statements may not be indicative of our future performance.

Our quarterly financial periods end on the Saturday closest to the last day of the calendar quarter, except for the fourth quarter which ends on December 31. For ease of presentation, the condensed consolidated financial statements included herein are described as ending on the last day of the calendar quarter.

Note 2. Recently Issued Accounting Pronouncements

Pronouncements Not Yet Adopted

In July 2015, the Financial Accounting Standards Board (“FASB”) issued guidance regarding simplifying the measurement of inventory. Under prior guidance, inventory is measured at the lower of cost or market, where market is defined as replacement cost, with a ceiling of net realizable value and a floor of net realizable value less a normal profit margin. The amended guidance requires the measurement of inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This guidance is effective prospectively for interim and annual periods beginning after December 15, 2016 and early application is permitted. We are evaluating the impact of the guidance on our financial condition, results of operations and financial statement disclosures.

In May 2015, the FASB issued guidance regarding the disclosure of investments which are valued at fair value using the net asset value per share practical expedient. The amended guidance removes the requirement to categorize such investments within the fair value hierarchy. The amendments also remove the requirement to make certain disclosures for all investment that are eligible to be measured at fair value using the net asset value per share practical expedient, instead limiting such disclosures to those investments measured at fair value using the practical expedient. This guidance is effective for interim and annual periods beginning after December 15, 2015. The guidance must be applied retrospectively and early adoption is permitted. We are evaluating the impact of the guidance on our financial condition, results of operations and financial statement disclosures.

In May 2014, the FASB issued guidance on recognizing revenue from contracts with customers. The guidance outlines a single comprehensive model to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the model is that an entity recognizes revenue to portray the transfer of goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard also expands disclosure requirements regarding revenue recognition. This guidance is effective for interim and annual reporting periods beginning after December 15, 2017 and may be applied retrospectively to each prior period presented or with the cumulative effect recognized as of the date of initial application. Early adoption is permitted for interim and annual reporting periods beginning after December 15, 2016. We are evaluating the impact of the guidance on our financial condition and results of operations.

Recently Adopted Pronouncements

In April 2015, the FASB issued guidance which changes the presentation of debt issuance costs in the balance sheet. Under prior guidance, debt issuance costs are reflected on the balance sheet as an asset. This amendment requires such costs to be reflected as a direct deduction to the related debt liability, with retrospective application upon adoption. We elected to early adopt this standard effective in the first quarter of 2015. Accordingly, \$4 million of debt issuance costs are now reflected within long-term debt as

of June 30, 2015 and December 31, 2014. These costs were previously recorded within other non-current assets. In April 2015, the FASB issued guidance regarding whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license then the software license element of the arrangement should be accounted for in a manner that is consistent with accounting for the acquisition of other software licenses. If a cloud computing arrangement does not include a software license then the arrangement should be accounted for as a service contract. This guidance is effective for interim and annual periods beginning after December 15, 2015. The guidance may be applied (1) retrospectively or (2) prospectively to arrangements entered into, or materially modified after the effective date. Early adoption is permitted. We elected to early adopt this standard effective in the second quarter of 2015 with retrospective application. Our adoption of this guidance did not have any impact on our financial condition or results of operations.

In February 2015, FASB issued guidance which amends the requirements to determine whether a company needs to consolidate certain legal entities into its reported financial statements. Specifically, the amendment: (1) modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities (“VIEs”) or voting interest entities, (2) eliminates the presumption that a general partner should consolidate a limited partnership and (3) affects the consolidation analysis of reporting entities that are involved with VIEs. This guidance is effective for interim and annual reporting periods beginning after December 15, 2015 and may be applied retrospectively to each prior period presented or with the cumulative effect recognized as of the date of initial application. We elected to early adopt this standard effective in the second quarter of 2015 with retrospective application. Our adoption of this guidance did not have any impact on our financial condition or results of operations.

In January 2015, the FASB issued guidance which eliminates from GAAP the concept of an extraordinary item. Under prior guidance, an event or transaction must be unusual in nature and must occur infrequently to be considered an extraordinary item. Additionally, under prior guidance extraordinary items are separately presented in a company’s income statement and disclosed in the footnotes to the company’s financial statements. As a result of the new guidance regarding extraordinary items, a company will no longer (1) segregate an extraordinary item from the results of ordinary operations, (2) separately present an extraordinary item on its income statement, and (3) disclose income taxes and earnings-per-share data applicable to an extraordinary item. We elected to early adopt this standard effective in the first quarter of 2015 with retrospective application. Our adoption of this guidance did not have any impact on our financial condition or results of operations.

In June 2014, as a result of inconsistency in practice, the FASB issued guidance related to the recognition of compensation on employee share-based payments in which the terms of the award provide that a performance target that affects vesting could be achieved after the requisite service period. The standard states that the performance target should not be reflected in estimating the grant date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the periods for which the service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. We elected to early adopt this standard effective in the first quarter of 2015 with retrospective application. Our adoption of this guidance did not have any impact on our financial condition or results of operations as we were using the accounting prescribed in the new guidance.

In April 2014, the FASB issued guidance related to the reporting of discontinued operations. The guidance states that the disposal of a business or operation is required to be reported as discontinued operations if the disposal represents a strategic shift that will have a major effect on an entity’s operations and financial results. The guidance also expands disclosures about discontinued operations and the disposal of significant businesses that did not qualify for discontinued operations presentation. This standard is effective prospectively, for disposals (or businesses that qualify as “held for sale”) that occur within annual

periods beginning on or after December 15, 2014 and interim periods within those years. Our adoption of this guidance effective in the first quarter of 2015 did not have any impact on our financial condition or results of operations.

In January 2014, the FASB issued guidance related to service concession arrangements. A service concession arrangement is an arrangement between a public-sector entity grantor and an operating entity under which the operating entity operates the grantor's infrastructure (for example, airports, roads and bridges). The guidance states that service concession arrangements should not be accounted for under the guidance of Accounting Standards Codification Topic 840, Leases, but rather other guidance as deemed appropriate. This guidance is effective for interim and reporting periods beginning on or after December 15, 2014. The guidance requires opening retained earnings in the year of adoption to reflect the cumulative historical impact of any arrangements existing at the date of adoption, and the new guidance to be applied to the financial statements on a prospective basis. Our adoption of this guidance effective in the first quarter of 2015 did not have any impact on our financial condition or results of operations.

Note 3. Divestitures

There were no divestitures during the three months ended June 30, 2015. For the six months ended June 30, 2015, we divested two businesses for \$1 million of cash, which were not material, individually or in the aggregate, to our results of operations or financial position. The sales resulted in a gain of \$9 million, reflected in gain from sale of businesses in our Condensed Consolidated Income Statement.

Note 4. Restructuring Charges

During the three and six months ended June 30, 2015, we recognized restructuring charges of \$1 million and \$4 million, respectively. We incurred these charges primarily in an effort to reposition our European and North American businesses to optimize our cost structure and improve our operational efficiency and effectiveness. The charges include the elimination of headcount and consolidation of facilities within our Water Infrastructure segment.

During the three and six months ended June 30, 2014, we recognized restructuring charges of \$3 million and \$18 million, respectively, within both our Water Infrastructure and Applied Water segments for the same aforementioned purposes for which we incurred the 2015 charges.

The following table presents the components of restructuring expense for the three and six months ended June 30, 2015 and 2014.

(in millions)	Three Months Ended		Six Months Ended	
	June 30, 2015	2014	June 30, 2015	2014
By component:				
Severance and other charges	\$1	\$3	\$5	\$18
Reversal of restructuring accruals	—	—	(1)) —
Total restructuring charges	\$1	\$3	\$4	\$18
By segment:				
Water Infrastructure	\$1	\$2	\$4	\$12
Applied Water	—	1	—	6

The following table displays a rollforward of the restructuring accruals, presented on our Condensed Consolidated Balance Sheets within accrued and other current liabilities, for the six months ended June 30, 2015 and 2014.

(in millions)	2015	2014
Restructuring accruals - January 1	\$12	\$13
Restructuring charges	4	18
Cash payments	(9) (17
Foreign currency and other	(1) —
Restructuring accruals - June 30	\$6	\$14
By segment:		
Water Infrastructure	\$3	\$7
Applied Water	—	4
Regional selling locations (a)	3	3

Regional selling locations consist primarily of selling and marketing organizations that incurred restructuring (a) expense which was allocated to the segments. The liabilities associated with restructuring expense were not allocated to the segments.

The following is a rollforward for the six months ended June 30, 2015 and 2014 of employee position eliminations associated with restructuring activities.

	2015	2014
Planned reductions - January 1	133	51
Additional planned reductions	80	233
Actual reductions	(106) (172
Planned reductions - June 30	107	112

Total expected costs associated with actions that commenced during the six months ended June 30, 2015 are approximately \$6 million and are all within Water Infrastructure. These costs primarily consist of severance charges. Related to these actions, we incurred \$1 million and \$3 million for Water Infrastructure during the three and six months ended June 30, 2015, respectively. We currently expect activity related to these actions to continue through the second quarter of 2016.

Total expected costs associated with actions that commenced during 2014 are approximately \$19 million for Water Infrastructure. Approximately \$18 million of the expected cost was incurred in 2014, no additional costs were incurred during the 3 months ended June 30, 2015, and \$1 million was incurred during the six months ended June 30, 2015. The Water Infrastructure actions commenced in 2014 are substantially complete. Total expected costs associated with actions that commenced during 2014 are approximately \$6 million for Applied Water. Approximately \$6 million of the expected cost was incurred in 2014, substantially all of the costs associated with these actions have been incurred.

Note 5. Income Taxes

Our quarterly provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items within periods presented. The comparison of our effective tax rate between periods is significantly impacted by the level and mix of earnings and losses by tax jurisdiction, foreign income tax rate differentials and amount of permanent book-to-tax differences.

The income tax provision for the three months ended June 30, 2015 was \$17 million resulting in an effective tax rate of 18.1%, compared to \$18 million resulting in an effective tax rate of 17.2% for the same period in 2014. The income tax provision for both the six months ended June 30, 2015 and 2014 was \$30 million. The effective tax rate for the six months ended June 30, 2015 was 17.8%, compared to 17.9% for the same period in 2014. The effective tax rate was lower than the United States federal statutory rate in each period primarily due to geographic mix of earnings.

Unrecognized Tax Benefits

We recognize tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized from such positions are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement.

The amount of unrecognized tax benefits at June 30, 2015 was \$41 million which, if ultimately recognized, will reduce our annual effective tax rate. We do not believe that the unrecognized tax benefits will significantly change within the next twelve months.

We classify interest expense relating to unrecognized tax benefits as a component of other non-operating expense, net and tax penalties as a component of income tax expense in our Condensed Consolidated Income Statements. As of June 30, 2015, we had less than \$1 million of interest accrued for unrecognized tax benefits.

Note 6. Earnings Per Share

The following is a reconciliation of the shares used in calculating basic and diluted net earnings per share.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Net income (in millions)	\$74	\$86	\$138	\$135
Shares (in thousands):				
Weighted average common shares outstanding	181,422	183,328	181,735	183,917
Add: Participating securities (a)	52	49	49	45
Weighted average common shares outstanding — Basic	181,474	183,377	181,784	183,962
Plus incremental shares from assumed conversions: (b)				
Dilutive effect of stock options	513	659	522	659
Dilutive effect of restricted stock	326	483	382	523
Weighted average common shares outstanding — Diluted	182,313	184,519	182,688	185,144
Basic earnings per share	\$0.41	\$0.47	\$0.76	\$0.74
Diluted earnings per share	\$0.41	\$0.47	\$0.76	\$0.73

(a) Restricted stock awards containing rights to non-forfeitable dividends that participate in undistributed earnings with common shareholders are considered participating securities for purposes of computing earnings per share.

(b) Incremental shares from stock options, restricted stock and performance share units are computed by the treasury stock method. The weighted average shares listed below were not included in the computation of diluted earnings per

share because to do so would have been anti-dilutive for the periods presented or were otherwise excluded under the treasury stock method. The treasury stock method calculates dilution assuming the exercise of all in-the-money options and vesting of restricted stock and performance share awards, reduced by the repurchase of shares with the proceeds from the assumed exercises, unrecognized compensation expense for outstanding awards and the estimated tax benefit of the assumed exercises. Performance share units will be included in the treasury stock calculation of diluted earnings per share upon achievement of underlying performance conditions. See Note 14, "Share-Based Compensation Plans" for further detail on the performance share units.

(in thousands)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Stock options	2,800	2,851	2,717	2,798
Restricted stock	633	614	612	531
Performance shares	213	136	186	102

Note 7. Inventories

The components of total inventories are summarized as follows:

(in millions)	June 30,	December 31,
	2015	2014
Finished goods	\$213	\$194
Work in process	45	42
Raw materials	240	250
Total inventories	\$498	\$486

Note 8. Property, Plant and Equipment

The components of total property, plant and equipment, net are as follows:

(in millions)	June 30,	December 31,
	2015	2014
Land, buildings and improvements	\$247	\$252
Machinery and equipment	646	655
Equipment held for lease or rental	211	207
Furniture and fixtures	85	87
Construction work in progress	36	41
Other	22	23
Total property, plant and equipment, gross	1,247	1,265
Less accumulated depreciation	816	804
Total property, plant and equipment, net	\$431	\$461

Depreciation expense of \$23 million and \$47 million was recognized in the three and six months ended June 30, 2015, respectively, and \$24 million and \$47 million for the three and six months ended June 30, 2014, respectively.

Note 9. Goodwill and Other Intangible Assets

Changes in the carrying value of goodwill by reportable segment for the six months ended June 30, 2015 are as follows:

(in millions)	Water Infrastructure	Applied Water	Total
Balance as of January 1, 2015	\$1,098	\$537	\$1,635
Activity in 2015			
Foreign currency and other	(29) (14) (43
Balance as of June 30, 2015	\$1,069	\$523	\$1,592

Based on the results of our latest annual impairment tests, we determined that no impairment of goodwill existed as of the measurement date in 2014. However, future goodwill impairment tests could result in a charge to earnings. We will continue to evaluate goodwill on an annual basis as of the beginning of our fourth quarter and whenever events and changes in circumstances indicate there may be a potential impairment.

Other Intangible Assets

Information regarding our other intangible assets is as follows:

(in millions)	June 30, 2015			December 31, 2014		
	Carrying Amount	Accumulated Amortization	Net Intangibles	Carrying Amount	Accumulated Amortization	Net Intangibles
Customer and distributor relationships	\$321	\$(130) \$191	\$331	\$(122) \$209
Proprietary technology and patents	113	(51) 62	116	(49) 67
Trademarks	34	(18) 16	36	(17) 19
Software (a)	131	(91) 40	131	(92) 39
Other	8	(8) —	9	(9) —
Indefinite-lived intangibles	133	—	133	136	—	136
	\$740	\$(298) \$442	\$759	\$(289) \$470

The December 31, 2014 carrying amount of software was previously included within Other non-current assets on (a) the Condensed Consolidated Balance Sheets and is now being reflected within Other intangible assets to conform to a current period change in balance sheet presentation.

Amortization expense related to finite-lived intangible assets was \$11 million and \$22 million for the three and six months ended June 30, 2015, respectively, and \$12 million and \$25 million for the three and six months ended June 30, 2014, respectively.

Note 10. Derivative Financial Instruments

Risk Management Objective of Using Derivatives

We are exposed to certain risks arising from both our business operations and economic conditions and principally manage our exposures to these risks through management of our core business activities. Certain of our foreign operations expose us to fluctuations of foreign interest rates and exchange rates that may impact revenues, expenses, cash receipts and payments. We enter into derivative financial instruments to protect the value or fix the amount of certain cash flows in terms of the functional currency of the business unit with that exposure.

Cash Flow Hedges of Foreign Exchange Risk

We are exposed to fluctuations in various foreign currencies against our functional currencies. We use foreign currency derivatives including currency forward agreements to manage our exposure to fluctuations in the various exchange rates. Currency forward agreements involve fixing the foreign currency exchange rate for delivery of a specified amount of foreign currency on a specified date.

Certain business units with exposure to foreign currency exchange risks have designated certain currency forward agreements as cash flow hedges of forecasted intercompany inventory purchases and sales. Our principal currency exposures relate to the Euro, Swedish Krona, British Pound, Canadian Dollar, Polish Zloty, Australian Dollar and Hungarian Forint. We held forward foreign exchange contracts with purchase notional amounts totaling \$216 million and \$355 million as of June 30, 2015 and December 31, 2014, respectively. As of June 30, 2015, our most significant foreign currency derivatives include contracts to purchase Swedish Krona and sell Euro, sell US Dollar and purchase Euro, and sell British Pound and purchase Euro. The purchased notional amounts associated with these currency derivatives are \$82 million, \$64 million and \$28 million, respectively. As of December 31, 2014, our most significant foreign currency derivatives include contracts to purchase Swedish Krona and sell Euro, sell US Dollar and purchase Euro, and sell British Pound and purchase Euro. The purchased notional amounts associated with these currency derivatives are \$140 million, \$85 million and \$51 million, respectively.

The table below presents the effect of our derivative financial instruments on the Condensed Consolidated Income Statements and Statements of Comprehensive Income.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Derivatives in Cash Flow Hedges				
Foreign Exchange Contracts				
Amount of loss recognized in Other Comprehensive Income (a)	\$—	\$(7)	\$(5)	\$(8)
Amount of loss (gain) reclassified from Other Comprehensive Income into revenue (a)	7	—	11	(1)
Amount of (gain) loss reclassified from Other Comprehensive Income into cost of revenue (a)	—	(1)	1	—
(a) Effective portion				

As of June 30, 2015, \$7 million of the net unrealized losses on cash flow hedges is expected to be reclassified into earnings in the next 12 months. The ineffective portion of the change in fair value of a cash flow hedge is excluded from effectiveness testing and is recognized immediately in selling, general and administrative expenses in the Condensed Consolidated Income Statements. For the three and six months ended June 30, 2015 and 2014, the amounts were not material.

The fair values of our foreign exchange contracts currently included in our hedging program were as follows:

(in millions)	June 30, 2015	December 31, 2014
Derivatives designated as hedging instruments		
Assets		
Other current assets	\$1	\$1
Liabilities		
Other current liabilities	(6) (13
Total fair value	\$(5) \$(12

Note 11. Accrued and Other Current Liabilities

The components of total accrued and other current liabilities are as follows:

(in millions)	June 30, 2015	December 31, 2014
Compensation and other employee benefits	\$159	\$186
Customer-related liabilities	66	66
Accrued warranty costs	30	31
Accrued taxes	70	77
Other accrued liabilities	116	121
Total accrued and other current liabilities	\$441	\$481

Note 12. Credit Facilities and Long-Term Debt

Total debt outstanding is summarized as follows:

(in millions)	June 30, 2015	December 31, 2014
Short-term borrowings and current maturities of long-term debt	\$81	\$89
Long-term debt		
3.550% Senior Notes due 2016 (a)	\$600	\$600
4.875% Senior Notes due 2021 (a)	600	600
Debt issuance costs	(4) (4
Unamortized discount (b)	—	(1
Long-term debt	\$1,196	\$1,195
Total debt	\$1,277	\$1,284

The fair value of our Senior Notes (as defined below) was determined using quoted prices in active markets for identical securities, which are considered Level 1 inputs. The fair value of our Senior Notes due 2016 (as defined (a)below) was \$616 million and \$621 million as of June 30, 2015 and December 31, 2014, respectively. The fair value of our Senior Notes due 2021 (as defined below) was \$646 million and \$653 million as of June 30, 2015 and December 31, 2014, respectively.

The unamortized discount is recognized as a reduction in the carrying value of the Senior Notes in the Condensed (b)Consolidated Balance Sheets and is being amortized to interest expense in our Condensed Consolidated Income Statements over the expected remaining terms of the Senior Notes.

Senior Notes

On September 20, 2011, we issued 3.550% Senior Notes of \$600 million aggregate principal amount due September 2016 (the "Senior Notes due 2016") and 4.875% Senior Notes of \$600 million aggregate principal amount due October 2021 (the "Senior Notes due 2021" and together with the Senior Notes due 2016 the "Senior Notes"). The Senior Notes include covenants which restrict our ability, subject to exceptions, to incur debt secured by liens and engage in sale and leaseback transactions, as well as provide for customary events of default (subject, in certain cases, to receipt of notice of default and/or customary grace and cure periods). We may redeem the Senior Notes, as applicable, in whole or in part, at any time at a redemption price equal to the principal amount of the Senior Notes to be redeemed, plus a make-whole premium. If a change of control triggering event (as defined in the Senior Notes indenture) occurs, we will be required to make an offer to purchase the Senior Notes at a price equal to 101% of their principal amount plus accrued and unpaid interest to the date of repurchase. As of June 30, 2015, we were in compliance with all covenants.

Interest on the Senior Notes due 2016 is payable on March 20 and September 20 of each year. Interest on the Senior Notes due 2021 is payable on April 1 and October 1 of each year.

Five-Year Revolving Credit Facility

Effective March 27, 2015, Xylem entered into a Five-Year Revolving Credit Facility (the "Credit Facility") with Citibank, N.A., as administrative agent, and a syndicate of lenders. The Credit Facility provides for an aggregate principal amount of up to \$600 million of: (i) revolving extensions of credit (the "revolving loans") outstanding at any time and (ii) the issuance of letters of credit in a face amount not in excess of \$100 million outstanding at any time. The Credit Facility provides for increases of up to \$200 million for a possible maximum total of \$800 million in aggregate principal amount at our request and with the consent of the institutions providing such increased commitments.

At our election, the interest rate per annum applicable to the revolving loans will be based on either (i) a Eurodollar rate determined by reference to LIBOR, adjusted for statutory reserve requirements, plus an applicable margin or (ii) a fluctuating rate of interest determined by reference to the greatest of: (a) the prime rate of Citibank, N.A., (b) the U.S. Federal funds effective rate plus half of 1% or (c) the Eurodollar rate determined by reference to LIBOR, adjusted for statutory reserve requirements, in each case, plus an applicable margin.

In accordance with the terms, we may not exceed a maximum leverage ratio of 3.50 to 1.00 (based on a ratio of total debt to earnings before interest, taxes, depreciation and amortization) throughout the term. The Credit Facility also contains limitations on, among other things, incurring secured debt, granting liens, entering into sale and leaseback transactions, mergers, consolidations, liquidations, dissolutions and sales of assets. In addition, the Credit Facility contains other terms and conditions such as customary representations and warranties, additional covenants and customary events of default. As of June 30, 2015, we were in compliance with all covenants.

As of June 30, 2015, the Credit Facility was undrawn.

Research and Development Facility Agreement

On December 4, 2013, the Company amended and restated its Risk Sharing Finance Facility Agreement (the "R&D Facility Agreement") with The European Investment Bank (the "EIB") to add an additional borrower under the facility. The facility provides an aggregate principal amount of up to €120 million (approximately \$134 million) to finance research projects and infrastructure development in the European Union. The Company's wholly owned subsidiaries in Luxembourg, Xylem Holdings S.á r.l. and Xylem International S.á r.l., are the borrowers under the R&D Facility Agreement. The obligations of the borrowers under the R&D Facility Agreement are guaranteed by the Company under an Amended and

Restated Deed of Guarantee, dated as of December 4, 2013, in favor of the EIB. The funds are available to finance research and development projects during the period from 2013 through 2016 at the Company's R&D facilities in Sweden, Germany, Italy, the United Kingdom, Austria, Norway and Hungary.

Under the R&D Facility Agreement, the borrower can draw loans on or before December 14, 2015 with a maturity of no longer than 12 years. The R&D Facility Agreement provides for Fixed Rate loans and Floating Rate loans. The interest rate per annum applicable to Fixed Rate loans is at a fixed percentage rate per annum specified by the EIB which includes the applicable margin. The interest rate per annum applicable to Floating Rate loans is at the rate determined by reference to EURIBOR for loans drawn in Euros and LIBOR for loans drawn in Pounds Sterling or U.S. Dollars, plus an applicable spread specified by the EIB which includes the applicable margin. The applicable margin for both Fixed Rate loans and Floating Rate loans is determined by reference to the credit rating of the Company.

In accordance with the terms of the R&D Facility Agreement, we may not exceed a maximum leverage ratio of 3.50 to 1.00 (based on a ratio of total debt to earnings before interest, taxes, depreciation and amortization) throughout the term. The R&D Facility Agreement also contains limitations on, among other things, incurring debt, granting liens, and entering into sale and leaseback transactions. In addition, the R&D Facility Agreement contains other terms and conditions, such as customary representations and warranties, additional covenants and customary events of default. As of June 30, 2015, we were in compliance with all covenants.

As of June 30, 2015, \$77 million was outstanding under the R&D Facility Agreement. Although the borrowing term for this arrangement is for five years, we have classified it as short-term debt on our Condensed Consolidated Balance Sheet since we intend to repay this obligation in less than one year.

Note 13. Postretirement Benefit Plans

The following table provides the components of net periodic benefit cost for our defined benefit pension plans, disaggregated by domestic and international plans.

(in millions)	Three Months Ended		Six Months Ended	
	June 30, 2015	2014	June 30, 2015	2014
Domestic defined benefit pension plans:				
Service cost	\$1	\$1	\$1	\$1
Interest cost	1	1	2	2
Expected return on plan assets	(1) (1) (2) (2
Amortization of net actuarial loss	—	—	1	1
Net periodic benefit cost	\$1	\$1	\$2	\$2
International defined benefit pension plans:				
Service cost	\$3	\$4	\$6	\$8
Interest cost	6	7	12	14
Expected return on plan assets	(9) (9) (17) (17
Amortization of net actuarial loss	4	2	7	4
Net periodic benefit cost	\$4	\$4	\$8	\$9
Total net periodic benefit cost	\$5	\$5	\$10	\$11

The total net periodic benefit cost for other postretirement employee benefit plans was \$1 million and \$2 million including amounts recognized in other comprehensive income of less than \$1 million for both the three and six months ended June 30, 2015, respectively. The total net periodic benefit cost for other postretirement employee benefit plans was \$2 million and \$3 million including amounts recognized in other comprehensive income of \$1 million for both the three and six months ended June 30, 2014.

We contributed \$13 million and \$22 million to our defined benefit plans during the six months ended June 30, 2015 and 2014, respectively. Additional contributions ranging between approximately \$11 million and \$21 million are expected during the remainder of 2015.

Note 14. Share-Based Compensation Plans

Share-based compensation expense was \$4 million and \$8 million during the three and six months ended June 30, 2015, respectively, and \$5 million and \$9 million during the three and six months ended June 30, 2014. The unrecognized compensation expense related to our stock options, restricted stock and performance based shares was \$8 million, \$26 million and \$5 million, respectively, at June 30, 2015 and is expected to be recognized over a weighted average period of 2.2, 2.2 and 2.2 years, respectively. The amount of cash received from the exercise of stock options was \$9 million and \$17 million for the six months ended June 30, 2015 and 2014, respectively.

Stock Option Grants

The following is a summary of the changes in outstanding stock options for the six months ended June 30, 2015:

(shares in thousands)	Shares	Weighted Average Exercise Price / Share	Weighted Average Remaining Contractual Term (Years)
Outstanding at January 1, 2015	2,989	\$28.60	6.5
Granted	677	36.00	10.0
Exercised	(348)) 27.26	5.2
Forfeited	(49)) 33.14	8.5
Outstanding at June 30, 2015	3,269	\$30.22	6.9
Options exercisable at June 30, 2015	2,121	\$27.38	5.8
Vested and expected to vest as of June 30, 2015	3,107	\$29.96	6.8

The aggregate intrinsic value of the outstanding, exercisable, and vested and expected to vest stock options as of June 30, 2015 was \$22 million, \$20 million and \$22 million, respectively. The total intrinsic value of options exercised (which is the amount by which the stock price exceeded the exercise price of the options on the date of exercise) during the six months ended June 30, 2015 was \$3 million.

Stock Option Fair Value

The fair value of each option grant was estimated on the date of grant using the binomial lattice pricing model which incorporates multiple and variable assumptions over time, including assumptions such as employee exercise patterns, stock price volatility and changes in dividends. The following are weighted-average assumptions for 2015 grants:

Dividend yield	1.57	%
Volatility	27.77	%
Risk-free interest rate	1.64	%
Expected term (in years)	5.59	
Weighted-average fair value / share	\$8.53	

Expected volatility is calculated based on a weighted analysis of historic and implied volatility measures for a set of peer companies and Xylem. We use historical data to estimate option exercise and employee termination behavior within the valuation model. Employee groups and option characteristics are considered separately for valuation purposes. The expected term represents an estimate of the period of time options are expected to remain outstanding. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of option grant.

Restricted Stock Grants

The following is a summary of restricted stock activity for the six months ended June 30, 2015:

(shares in thousands)	Shares	Weighted Average Grant Date Fair Value /Share
Outstanding at January 1, 2015	1,171	\$ 31.80
Granted	388	36.04
Vested	(338) 27.75
Forfeited	(51) 32.04
Outstanding at June 30, 2015	1,170	\$ 34.40

Performance-Based Share Grants

The following is a summary of performance-based share grants for the six months ended June 30, 2015:

(shares in thousands)	Shares	Weighted Average Grant Date Fair Value /Share
Outstanding at January 1, 2015	124	\$ 33.95
Granted	98	36.02
Vested	—	—
Forfeited	(10) 32.17
Outstanding at June 30, 2015	212	\$ 34.86

Note 15. Capital Stock

On August 20, 2013, the Board of Directors authorized the repurchase of up to \$250 million in shares with no expiration date. The program's objective is to deploy our capital in a manner that benefits our shareholders and maintains our focus on growth. There were no shares repurchased under this program during the three months ended June 30, 2015. For the six months ended June 30, 2015, we repurchased 1.4 million shares for \$50 million. There are up to \$20 million in shares that may still be purchased under this plan as of June 30, 2015. For the three and six months ended June 30, 2014, we repurchased 1.3 million and 2.6 million shares for \$50 million and \$100 million, respectively, under this program.

On August 18, 2012, the Board of Directors authorized the repurchase of up to 2.0 million shares of common stock with no expiration date. The program's objective is to offset dilution associated with various Xylem employee stock plans by acquiring shares in the open market from time to time. There were no shares repurchased under this program during the three and six months ended June 30, 2015 and 2014. There are up to 1.0 million shares that may still be purchased under this plan as of June 30, 2015.

Aside from the aforementioned repurchase programs, we repurchased less than 0.1 million and 0.1 million shares for less than \$1 million and \$3 million during the three and six months ended June 30, 2015, respectively, in relation to settlement of employee tax withholding obligations due as a result of the vesting of restricted stock. Likewise, during the three and six months ended June 30, 2014, we repurchased less than 0.1 million shares in both periods for less than \$1 million and \$1 million, respectively.

Note 16. Accumulated Other Comprehensive Income (Loss)

The following table provides the components of accumulated other comprehensive income (loss) for the three months ended June 30, 2015:

(in millions)	Foreign Currency Translation	Postretirement Benefit Plans	Derivative Instruments	Total
Balance at April 1, 2015	\$8	\$(228)	\$(13)	\$(233)
Foreign currency translation adjustment	26	—	—	26
Amortization of net actuarial loss on postretirement benefit plans into:				
Cost of revenue	—	1	—	1
Selling, general and administrative expenses	—	2	—	2
Other non-operating expense, net	—	1	—	1
Income tax impact on amortization of postretirement benefit plan items	—	(1)	—	(1)
Reclassification of unrealized loss on foreign exchange agreements into revenue	—	—	7	7
Income tax benefit on reclassification of unrealized loss on foreign exchange agreements into revenue	—	—	(1)	(1)
Balance at June 30, 2015	\$34	\$(225)	\$(7)	\$(198)

The following table provides the components of accumulated other comprehensive income (loss) for the six months ended June 30, 2015:

(in millions)	Foreign Currency Translation	Postretirement Benefit Plans	Derivative Instruments	Total
Balance at January 1, 2015	\$145	\$(231)	\$(13)	\$(99)
Foreign currency translation adjustment	(103)	—	—	(103)
Foreign currency gain reclassified into gain on sale of businesses	(8)	—	—	(8)
Amortization of net actuarial loss on postretirement benefit plans into:				
Cost of revenue	—	2	—	2
Selling, general and administrative expenses	—	5	—	5
Other non-operating expense, net	—	1	—	1
Income tax impact on amortization of postretirement benefit plan items	—	(2)	—	(2)
Unrealized loss on foreign exchange agreements	—	—	(5)	(5)
Reclassification of unrealized loss on foreign exchange agreements into revenue	—	—	11	11
Reclassification of unrealized loss on foreign exchange agreements into cost of revenue	—	—	1	1
Income tax benefit on reclassification of unrealized loss on foreign exchange agreements into revenue	—	—	(1)	(1)
Balance at June 30, 2015	\$34	\$(225)	\$(7)	\$(198)

Note 17. Commitments and Contingencies

General

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses, including acquisitions and divestitures, intellectual property matters, product liability and personal injury claims, employment and pension matters, government and commercial contract disputes.

On December 17, 2014, the Korea Fair Trade Commission (“KFTC”) issued a written decision regarding an investigation into bid-rigging allegations against Xylem Water Solutions South Korea Co., Ltd. (“Xylem South Korea”), a subsidiary of Xylem Inc. The KFTC found that certain employees of Xylem South Korea had participated in activities that violated Korea’s antitrust laws. Xylem South Korea was assessed a fine of approximately \$1.6 million, and following criminal prosecution a minimal criminal penalty was imposed. In January 2015, Xylem South Korea paid the fine and filed an appeal of the KFTC’s decision with the Seoul High Court.

In connection with the KFTC matter, the Company commenced an internal investigation relating to the allegations against Xylem South Korea. In late 2014, the Company broadened this internal investigation to assess related allegations made by certain employees of Xylem South Korea during the investigation into the KFTC matter. The broadened investigation includes a review of compliance by Xylem South Korea and its employees with the requirements of the Foreign Corrupt Practices Act. The Company engaged independent outside counsel to assist with its investigation and an independent professional services firm to provide forensic accounting assistance. In late January 2015, the Company voluntarily

contacted the SEC and the Department of Justice ("DOJ") to advise both agencies of this internal investigation. The Company is fully cooperating with any government investigation. Xylem South Korea's revenue is less than one percent of the Company's total revenue. Although the Company currently cannot reasonably estimate the potential liability, if any, related to the investigation, we currently believe that these matters will not have a material adverse effect on the Company's business, financial condition or results of operations.

From time to time, claims may be asserted against Xylem alleging injury caused by any of our products resulting from asbestos exposure. We believe there are numerous legal defenses available for such claims and would defend ourselves vigorously. Pursuant to the Distribution Agreement ("Distribution Agreement") dated October 25, 2011 among ITT Corporation ("ITT" or "former parent"), Exelis Inc. and Xylem, the former parent has an obligation to indemnify, defend and hold Xylem harmless for asbestos product liability matters, including settlements, judgments, and legal defense costs associated with all pending and future claims that may arise from past sales of the former parent's legacy products. We believe the former parent remains a substantial entity with sufficient financial resources to honor its obligations to us.

Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including our assessment of the merits of the particular claims, we do not expect that any asserted or unasserted legal claims or proceedings, individually or in aggregate, will have a material adverse effect on our results of operations or financial condition. We have estimated and accrued \$6 million and \$9 million for these general legal matters as of June 30, 2015 and December 31, 2014, respectively.

Indemnifications

As part of our 2011 spin-off from our former parent, ITT, Exelis Inc. and Xylem will indemnify, defend and hold harmless each of the other parties with respect to such parties' assumed or retained liabilities under the Distribution Agreement and breaches of the Distribution Agreement or related spin agreements. The former parent's indemnification obligations include asserted and unasserted asbestos and silica liability claims that relate to the presence or alleged presence of asbestos or silica in products manufactured, repaired or sold prior to October 31, 2011, the Distribution Date, subject to limited exceptions with respect to certain employee claims, or in the structure or material of any building or facility, subject to exceptions with respect to employee claims relating to Xylem buildings or facilities. The indemnification associated with pending and future asbestos claims does not expire. Xylem has not recorded a liability for material matters for which we expect to be indemnified by the former parent or Exelis Inc. through the Distribution Agreement and we are not aware of any claims or other circumstances that would give rise to material payments from us under such indemnifications. On May 29, 2015, Harris Inc. acquired Exelis. As the parent of Exelis, Harris Inc. is responsible for Exelis's indemnification obligations under the Distribution Agreement.

Environmental

In the ordinary course of business, we are subject to federal, state, local, and foreign environmental laws and regulations. We are responsible, or are alleged to be responsible, for ongoing environmental investigation and remediation of sites in various countries. These sites are in various stages of investigation and/or remediation and in many of these proceedings our liability is considered de minimis. We have received notification from the U.S. Environmental Protection Agency, and from similar state and foreign environmental agencies, that a number of sites formerly or currently owned and/or operated by Xylem or for which we are responsible under the Distribution Agreement, and other properties or water supplies that may be or have been impacted from those operations, contain disposed or recycled materials or wastes and require environmental investigation and/or remediation. These sites include instances where we have been identified as a potentially responsible party under federal and state environmental laws and regulations.

Accruals for environmental matters are recorded on a site-by-site basis when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law and existing technologies. Our accrued liabilities for these environmental matters represent the best estimates related to the investigation and remediation of environmental media such as water, soil, soil vapor, air and structures, as well as related legal fees. These estimates, and related accruals, are reviewed quarterly and updated for progress of investigation and remediation efforts and changes in facts and legal circumstances. Liabilities for these environmental expenditures are recorded on an undiscounted basis. We have estimated and accrued \$5 million as of both June 30, 2015 and December 31, 2014 for environmental matters.

It is difficult to estimate the final costs of investigation and remediation due to various factors, including incomplete information regarding particular sites and other potentially responsible parties, uncertainty regarding the extent of investigation or remediation and our share, if any, of liability for such conditions, the selection of alternative remedial approaches, and changes in environmental standards and regulatory requirements. We believe the total amount accrued is reasonable based on existing facts and circumstances.

Warranties

We warrant numerous products, the terms of which vary widely. In general, we warrant products against defect and specific non-performance. The table below provides the changes in our product warranty accrual.

(in millions)	2015	2014
Warranty accrual – January 1	\$31	\$37
Net changes for product warranties in the period	14	12
Settlement of warranty claims	(13) (15
Foreign currency and other	(1) —
Warranty accrual - June 30	\$31	\$34

Note 18. Segment Information

Our business has two reportable segments: Water Infrastructure and Applied Water. The Water Infrastructure segment, focuses on the transportation, treatment and testing of water, offering a range of products including water and wastewater pumps, treatment and testing equipment, and controls and systems. The Applied Water segment encompasses the uses of water and focuses on the residential, commercial, industrial and agricultural markets offering a wide range of products, including pumps, valves and heat exchangers.

Additionally, we have Regional selling locations which consist primarily of selling and marketing organizations and related support that offer products and services across both of our reportable segments. Corporate and other consists of corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs, as well as charges related to certain matters, such as environmental matters that are managed at a corporate level and are not included in the business segments in evaluating performance or allocating resources.

The accounting policies of each segment are the same as those described in the summary of significant accounting policies (see Note 1 in the 2014 Annual Report). The following tables contain financial information for each reportable segment.

(in millions)	Three Months Ended		Six Months Ended	
	June 30, 2015	2014	June 30, 2015	2014
Revenue:				
Water Infrastructure	\$551	\$616	\$1,051	\$1,168
Applied Water	369	389	706	743
Total	\$920	\$1,005	\$1,757	\$1,911
Operating Income:				
Water Infrastructure	\$65	\$76	\$112	\$122
Applied Water	51	53	97	94
Corporate and other	(12) (13) (22) (24
Total	\$104	\$116	\$187	\$192
Depreciation and Amortization:				
Water Infrastructure	\$23	\$25	\$48	\$50
Applied Water	6	7	12	13
Regional selling locations (a)	3	3	5	6
Corporate and other	2	1	4	3
Total	\$34	\$36	\$69	\$72
Capital Expenditures:				
Water Infrastructure	\$12	\$14	\$37	\$27
Applied Water	3	5	10	10
Regional selling locations (b)	4	2	6	4
Corporate and other	1	2	4	7
Total	\$20	\$23	\$57	\$48

Depreciation and amortization expense incurred by the Regional selling locations was included in an overall (a) allocation of Regional selling location costs to the segments; however, a certain portion of that expense was not specifically identified to a segment. That expense is captured in this Regional selling location line.

(b) Represents capital expenditures incurred by the Regional selling locations not allocated to the segments.

The following table contains the total assets for each reportable segment.

(in millions)	Total Assets	
	June 30, 2015	December 31, 2014
Water Infrastructure	\$2,073	\$2,128
Applied Water	1,113	1,114
Regional selling location (a)	929	961
Corporate and other (b)	604	657
Total	\$4,719	\$4,860

- (a) The Regional selling locations have assets that consist primarily of cash, accounts receivable and inventory which are not allocated to the segments.
- (b) Corporate and other consists of items pertaining to our corporate headquarters function, which principally consist of cash, deferred tax assets, pension assets and certain property, plant and equipment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the condensed consolidated financial statements, including the notes thereto, included elsewhere in this report on Form 10-Q (this "Report"). Except as otherwise indicated or unless the context otherwise requires, "Xylem," "we," "us," "our" and the "Company" refer to Xylem Inc. and its subsidiaries. References in the condensed consolidated financial statements to "ITT" or the "former parent" refer to ITT Corporation and its consolidated subsidiaries (other than Xylem Inc.).

This Report contains information that may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Act of 1995. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Generally, the words "anticipate," "estimate," "expect," "project," "intend," "plan," "forecast," "believe," "will," "could," "would," "should" and similar expressions identify forward-looking statements, which generally are not historical in nature. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. These forward-looking statements include statements about the capitalization of the Company, the Company's restructuring and realignment, future strategic plans and other statements that describe the Company's business strategy, outlook, objectives, plans, intentions or goals. All statements that address operating or financial performance, events or developments that we expect or anticipate will occur in the future - including statements relating to orders, revenue, operating margins and earnings per share growth, and statements expressing general views about future operating results - are forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such forward-looking statements.

Factors that could cause results to differ materially from those anticipated include: economic, political and other risks associated with our international operations, including military actions, economic sanctions or trade embargoes that could affect customer markets, and non-compliance with laws, including foreign corrupt practice laws, export and import laws and competition laws; potential for unexpected cancellations or delays of customer orders in our reported backlog; our exposure to fluctuations in foreign currency exchange rates; competition and pricing pressures in the markets we serve; the strength of housing and related markets; weather conditions; ability to retain and attract key members of management; our relationship with and the performance of our channel partners; our ability to borrow or to refinance our existing indebtedness and availability of liquidity sufficient to meet our needs; changes in the value of goodwill or intangible assets; risks relating to product defects, product liability and recalls; governmental investigations; security breaches or other disruptions of our information technology systems; litigation and contingent liabilities; and other factors set forth under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Annual Report") and with subsequent filings we make with the Securities and Exchange Commission ("SEC").

All forward-looking statements made herein are based on information available to the Company as of the date of this Report. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Our quarterly financial periods end on the Saturday closest to the last day of the calendar quarter, except for the fourth quarter which ends on December 31. For ease of presentation, the reporting periods included herein are described as ending on the last day of the calendar quarter.

Overview

Xylem is a leading equipment and service provider for water and wastewater applications with a broad portfolio of products and services addressing the full cycle of water, from collection, distribution and use to the return of water to the environment. Our business focuses on providing technology-intensive equipment and services. Our product and service offerings are organized into two reportable segments: Water Infrastructure and Applied Water. Our segments are aligned with each of the sectors in the cycle of water, water infrastructure and usage applications.

Water Infrastructure serves the water infrastructure sector with pump systems that transport water from aquifers, lakes, rivers and seas; with filtration, ultraviolet and ozone systems that provide treatment, making the water fit to use; and pumping solutions that move the wastewater to treatment facilities where our mixers, biological treatment, monitoring and control systems provide the primary functions in the treatment process. We provide analytical instrumentation used to measure water quality, flow and level in wastewater, surface water and coastal environments. In the Water Infrastructure segment, we provide the majority of our sales directly to customers with strong application expertise, while the remaining amount is through distribution partners.

Applied Water serves the usage applications sector with water pressure boosting systems for heating, ventilation and air conditioning and for fire protection systems to the residential and commercial building services markets. In addition, our pumps, heat exchangers, valves and controls provide cooling to power plants and manufacturing facilities, as well as circulation for food and beverage processing. We also provide boosting systems for farming irrigation, pumps for dairy operations and rainwater reuse systems for small scale crop and turf irrigation. In the Applied Water segment, we provide the majority of our sales through long-standing relationships with the world's leading distributors, with the remainder going directly to customers.

In 2014, we began implementing an organizational redesign to integrate our commercial teams within geographical regions. While this organizational redesign did not change our reportable segments, it had implications on how we manage our business. These changes and the related measurement system were effective in the fourth quarter 2014 and as a result, we commenced reporting our financial performance at such time based on the new organizational design. The 2014 segment information presented herein has been recast from amounts previously reported to reflect these changes. The recast financial information does not represent a restatement of previously issued financial statements and the changes had no impact on our historical consolidated financial position or results of operations.

Executive Summary

Xylem reported revenue for the second quarter of 2015 of \$920 million, a decrease of 8.5% compared to \$1,005 million during the second quarter of 2014. Revenue was flat on a constant currency basis due to organic growth of 1.0% offset by the impact of our divestiture of our Wolverhampton valves business. The organic growth was driven by strength in both the commercial and public utility end markets which was largely offset by weakness in the industrial and residential building end markets. Operating income for the second quarter of 2015 was \$104 million, reflecting a decrease of \$12 million or 10.3% compared to \$116 million in the second quarter of 2014, primarily due to cost inflation, unfavorable foreign exchange translation impacts, unfavorable mix and the divestiture of our Wolverhampton valves business. Partially offsetting these headwinds were incremental cost savings from continuous improvement initiatives and restructuring actions. Additionally, restructuring and realignment cost actions taken to improve the overall cost base of the business were \$6 million in the second quarter of 2015 as compared to \$9 million in the prior year.

Additional financial highlights for the quarter ended June 30, 2015 include the following:

- Orders of \$944 million, or 8.4% decline from \$1,031 million in the prior year, though up 1.0% on an organic basis
- Earnings per share of \$0.41, down 12.8% from the prior year (\$0.43 on an adjusted basis, down 10.4%, though up 2.1% excluding \$0.06 negative impact from currency translation)
- Cash flow from operating activities of \$123 million for the six months ended June 30, 2015, up 25.5% from prior year, and free cash flow of \$66 million as compared to \$50 million in the prior year.

Key Performance Indicators and Non-GAAP Measures

Management reviews key performance indicators including revenue, gross margin, segment operating income and margins, earnings per share, orders growth, working capital, free cash flow and backlog, among others. In addition, we consider certain measures to be useful to management and investors evaluating our operating performance for the periods presented, and provide a tool for evaluating our ongoing operations, liquidity and management of assets. This information can assist investors in assessing our financial performance and measures our ability to generate capital for deployment among competing strategic alternatives and initiatives, including, but not limited to, dividends, acquisitions, share repurchases and debt repayment. These metrics, however, are not measures of financial performance under accounting principles generally accepted in the United States of America ("GAAP") and should not be considered a substitute for revenue, operating income, net income, earnings per share (basic and diluted) or net cash from operations as determined in accordance with GAAP. We consider the following non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, to be key performance indicators:

"organic revenue" and "organic orders" defined as revenue and orders, respectively, excluding the impact of fluctuations in foreign currency translation, intercompany transactions and contributions from acquisitions and divestitures. Divestitures include sales of insignificant portions of our business that did not meet the criteria for classification as a discontinued operation. The period-over-period change resulting from foreign currency translation assumes no change in exchange rates from the prior period.

"constant currency" defined as financial results adjusted for foreign currency translation impacts by translating current period and prior period activity using the same currency conversion rate. This approach is used for countries whose functional currency is not the U.S. Dollar.

"adjusted net income" and "adjusted earnings per share" defined as net income and earnings per share, respectively, adjusted to exclude restructuring and realignment costs, special charges and tax-related special items. A reconciliation of adjusted net income is provided below.

(In millions, except for per share data)	Three Months Ended		Six Months Ended	
	June 30,	June 30,	June 30,	June 30,
	2015	2014	2015	2014
Net income	\$74	\$86	\$138	\$135
Restructuring and realignment, net of tax	5	5	9	20
Special charges, net of tax	1	—	3	—
Tax-related special items	(2) (3) (3) (4
Gain on sale of businesses, net of tax	—	—	(9) —
Adjusted net income	\$78	\$88	\$138	\$151
Weighted average number of shares - Diluted	182.3	184.5	182.7	185.1
Adjusted earnings per share	\$0.43	\$0.48	\$0.76	\$0.82

"operating expenses excluding restructuring and realignment costs and special charges" defined as operating expenses, adjusted to exclude restructuring and realignment costs, and special charges.

"adjusted segment operating income" defined as segment operating income, adjusted to exclude restructuring and realignment costs, and special charges, and "adjusted segment operating margin" defined as adjusted segment operating income divided by total segment revenue.

"realignment costs" defined as costs not included in restructuring costs that are incurred as part of actions taken to reposition our business, including items such as professional fees, severance, relocation, travel, facility set-up and other costs.

"special charges" defined as costs incurred by the Company, such as legal and professional fees, associated with the Korea matters, as well as costs incurred for the contractual indemnification of tax obligations to ITT.

"free cash flow" defined as net cash provided by operating activities less capital expenditures, as well as adjustments for other significant items that impact current results that management believes are not related to our ongoing operations and performance. Our definition of free cash flow does not consider certain non-discretionary cash payments, such as debt. The following table provides a reconciliation of free cash flow.

(In millions)	Six Months Ended	
	June 30,	
	2015	2014
Net cash provided by operating activities	\$123	\$98
Capital expenditures	(57) (48
Free cash flow	\$66	\$50

2015 Outlook

We continue to anticipate organic revenue growth in the low single digits in 2015. This projected organic growth excludes a continued expected negative foreign exchange translation impact on our growth in the high single digits, primarily driven by a weaker Euro. We expect public utilities to increase at low single digits with emerging market infrastructure investments continuing to bolster growth and with improving market conditions in the United States. In the commercial market, we anticipate growth of low to mid-single digits as the United States appears to continue to slowly recover and new products help to drive growth in Europe, while China begins to slow down. We expect industrial markets to be flat as emerging market growth is expected to be offset by general industrial end market weakness, primarily driven by oil and gas declines in Canada and the United States. We believe the residential markets will also be flat as the United States markets stabilize and Europe market softness continues, partially offset by new product launches. Finally, we expect that organic revenue growth in the agriculture markets, which is our smallest end market, will likely decline by low single digits compared to 2014 as we are expecting slower growth in the United States as a result of lapping a strong 2014 combined with weakness in Europe, partially offset by continued strength in emerging markets.

We will continue to execute restructuring and realignment actions to reposition our European and North American business which we expect to optimize our cost structure and improve our operational efficiency and effectiveness. In 2015, we expect to incur approximately \$20 million in restructuring and realignment costs. We expect to realize approximately \$13 million of incremental net savings in 2015 from restructuring actions initiated in 2014, and an additional \$3 million of net savings from our 2015 actions.

Additional strategic actions include strategic initiatives which are expected to drive above-market growth, advance continuous improvement activities to increase productivity, focus on improving cash performance and drive a disciplined capital deployment strategy.

Results of Operations

(In millions)	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	Change	2015	2014	Change
Revenue	\$920	\$1,005	(8.5)%	\$1,757	\$1,911	(8.1)%

Tax rate	18.1 %	17.2 %	90 bp	17.8 %	17.9 %	(10)bp
Net income	\$74	\$86	(14.0)%	\$138	\$135	2.2 %

Revenue

Revenue generated during the three and six months ended June 30, 2015 was \$920 million and \$1,757 million, respectively, reflecting a decrease of \$85 million or 8.5% and \$154 million or 8.1%, respectively, compared to the same prior year periods. On a constant currency basis, revenue increased 0.4% for both the three and six months ended June 30, 2015. These increases reflect organic growth within emerging markets for both periods and growth in Australia in the second quarter, partially offset by the impact of the Wolverhampton valves business divestiture in the third quarter of 2014 and declines in Canada and the United States.

The following table illustrates the impact from organic growth, recent acquisitions and divestitures, and foreign currency translation in relation to revenue during the three and six months ended June 30, 2015:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,			
	Change	% Change	Change	% Change		
2014 Revenue	\$ 1,005		\$ 1,911			
Organic growth	10	1.0	% 19	1.0	%	
Acquisitions/(Divestitures)	(6) (0.6)% (11) (0.6)%	
Constant currency	4	0.4	% 8	0.4	%	
Foreign currency translation (a)	(89) (8.9)% (162) (8.5)%	
Total change in revenue	(85) (8.5)% (154) (8.1)%	
2015 Revenue	\$ 920		\$ 1,757			

(a) Foreign currency translation impact primarily due to fluctuations in the value of the Euro, Swedish Krona, British Pound, Norwegian Krone, Australian Dollar and Canadian Dollar against the U.S. Dollar.

The following table summarizes revenue by segment:

(In millions)	Three Months Ended June 30,				Six Months Ended June 30,				
	2015	2014	As Reported Change	Constant Currency Change	2015	2014	As Reported Change	Constant Currency Change	
Water Infrastructure	\$ 551	\$ 616	(10.6)%	—	% \$ 1,051	\$ 1,168	(10.0)%	0.2	%
Applied Water	369	389	(5.1)%	1.0	% 706	743	(5.0)%	0.8	%
Total	\$ 920	\$ 1,005	(8.5)%	0.4	% \$ 1,757	\$ 1,911	(8.1)%	0.4	%

Water Infrastructure

Water Infrastructure revenue decreased \$65 million, or 10.6% for the second quarter of 2015 (flat at constant currency) and decreased \$117 million, or 10.0%, for the six months ended June 30, 2015 (0.2% increase at constant currency) compared to the respective 2014 periods. The change at constant currency was primarily driven by flat organic growth in the second quarter and \$2 million or 0.2% organic growth for the six months ended June 30, 2015, due to strength in the public utility end market that was essentially offset by weakness in the industrial market. The industrial market performance was due to declines in dewatering applications in the oil and gas market which more than offset increases in the balance of the industrial market.

From an application perspective for the second quarter of 2015, organic revenue from transport and test applications were flat and treatment applications experienced a modest decline. Revenue from transport applications was driven by public utility and industrial strength across Europe and the emerging markets offset by declines in industrial dewatering applications from weakness in the oil and gas market in Canada and the United States. Revenue in test applications was driven by strength in emerging markets, particularly in China and India, offset by weakness in Europe. Revenue from treatment applications declined primarily from continued weakness in Europe, which was partially offset by the delivery of ozone and filtration projects in China and Australia.

For the six months ended June 30, 2015, organic revenue from the transport and treatment applications grew, while test applications declined. The revenue growth from transport applications were predominately due to similar dynamics impacting the second quarter. The modest revenue growth from

treatment applications were due to weakness in Europe which was more than offset by the delivery of ozone and filtration projects in China. Revenue from test applications declined primarily from weakness in Europe as well as the lapping of strong prior year project shipments in the emerging markets.

Applied Water

Applied Water revenue declined \$20 million or 5.1% during the second quarter of 2015 (1.0% increase at constant currency) and decreased \$37 million, or 5.0%, for the six months ended June 30, 2015 (0.8% increase at constant currency) compared to the respective 2014 periods. The 1.0% increase at constant currency during the second quarter was due to organic growth of 2.6%, primarily in the commercial and industrial water end markets which were partially offset by declines in the residential end market and further offset by a \$6 million reduction in revenue due to the absence of revenue from our Wolverhampton valves business which we divested in the third quarter of 2014. The 0.8% increase at constant currency during the six months ended June 30, 2015 was due to \$17 million, or 2.3%, organic growth primarily in the commercial and industrial water end markets. The growth was partially offset by weakness in the agriculture end market, and further offset by the absence of \$11 million in revenue from the divested Wolverhampton valves business.

From an application perspective for the second quarter of 2015, the organic revenue increase was primarily driven by strength in commercial building services and industrial water applications, which was slightly offset by a decline in residential building applications, primarily in Europe. Commercial building services growth was due to strong distribution stocking and related recovery in the institutional building sector in the United States and growth in China and Latin America, partially offset by weakness in southern Europe. Growth in industrial water application revenue was primarily in Europe and Asia due to increased shipments of fire protection systems.

From an applications perspective for the six months ended June 30, 2015, the increase in organic revenue was largely due to strong growth in commercial building services from a recovering institutional building sector in the United States and strength in Asia. There was moderate revenue growth in the industrial water application, primarily due to an increase in sales of fire protection systems, which was offset by a decline in irrigation applications which were largely impacted by flooding in the southeast and southwest portions of the United States.

Orders / Backlog

Orders received during the second quarter of 2015 of \$944 million decreased \$87 million, or 8.4% over the second quarter of the prior year (0.5% increase at constant currency). Orders received during the six months ended June 30, 2015 of \$1,859 million decreased by \$165 million, or 8.2%, from the prior year (0.2% increase at constant currency). Organic order growth increased 1.0% and 0.7% for the three and six months ended June 30, 2015, respectively.

Water Infrastructure segment orders decreased \$69 million, or 10.6%, to \$585 million (flat at constant currency) for the quarter as compared to the prior year. Organic orders were flat during the second quarter, predominately due to a transport and treatment project wins in Asia, offset in industrial dewatering applications due to weakness in the oil and gas market. For the six months ended June 30, 2015 orders decreased \$104 million, or 8.3%, to \$1,147 million (1.6% increase at constant currency) due to similar dynamics impacting the order activity in the second quarter, combined with increased public utility spending in the emerging markets in the treatment and test applications in the first quarter.

Applied Water segment orders decreased \$18 million, or 4.8% to \$359 million (1.6% increase at constant currency) and decreased \$61 million or 7.9% to \$712 million (2.1% decrease at constant currency) for the three and six months ended June 30, 2015, respectively. Organic order volume increased 2.9% during the three months ended June 30, 2015 as a result of similar market dynamics impacting revenue. Organic order volume decreased 0.8% for the six months ended June 30, 2015 due primarily to the absence of orders from our Wolverhampton valves divestiture which was partially offset by stronger order growth in the second quarter of 2015, consistent the factors impacting organic revenue growth.

Delivery schedules vary from customer to customer based upon their requirements. Typically, large projects require longer lead production cycles and delays can occur from time to time. Total backlog was \$812 million at June 30, 2015, flat compared to June 30, 2014 and increased \$72 million or 9.7%, as compared to December 31, 2014. We anticipate that over 70% of the backlog at June 30, 2015 will be recognized as revenue in the remainder of 2015.

Gross Margin

Gross margin declined to 37.8% and 37.7% for the three and six months ended June 30, 2015, compared to 38.6% and 38.2%, respectively, for 2014. Gross margin decline was primarily due to negative currency translation impacts.

Excluding the negative currency translation impacts, gross margin was consistent with the prior year for the quarter and slightly better for the first half of the year as compared to 2014. Cost inflation headwinds and sales mix, primarily due to higher volume sold to the emerging markets were more than mitigated by benefits realized from restructuring savings and cost saving initiatives through lean six sigma and global sourcing.

Operating Expenses

The following table presents operating expenses for the three and six months ended June 30, 2015 and 2014:

(In millions)	Three Months Ended			Six Months Ended		
	June 30, 2015	2014	Change	June 30, 2015	2014	Change
Selling, general and administrative expenses ("SG&A")	\$218	\$242	(9.9)%	\$424	\$466	(9.0)%
SG&A as a % of revenue	23.7	% 24.1	% (40)bp	24.1	% 24.4	% (30)bp
Research and development expenses ("R&D")	25	27	(7.4)%	48	54	(11.1)%
R&D as a % of revenue	2.7	% 2.7	% — bp	2.7	% 2.8	% (10)bp
Restructuring charges	1	3	(66.7)%	4	18	(77.8)%
Operating expenses	\$244	\$272	(10.3)%	\$476	\$538	(11.5)%
Expense to revenue ratio	26.5	% 27.1	% (60)bp	27.1	% 28.2	% (110)bp

Selling, General and Administrative Expenses

SG&A decreased by \$24 million to \$218 million or 23.7% of revenue in the second quarter of 2015, as compared to \$242 million or 24.1% of revenue in 2014; and decreased \$42 million to \$424 million or 24.1% of revenue in the six months ended June 30, 2015, as compared to \$466 million or 24.4% of revenue in 2014. The decrease in SG&A expenses as a percentage of revenue is due to currency translation impacts.

Research and Development Expenses

R&D spending was \$25 million or 2.7% of revenue in the second quarter of 2015 as compared to \$27 million or 2.7% of revenue in the comparable period of 2014. R&D spending was \$48 million or 2.7% of revenue for the six months ended June 30, 2015 as compared to \$54 million or 2.8% of revenue in the comparable period of 2014. The year-over-year decline for the six months is primarily due to currency translation impacts.

Restructuring Charges

During the three and six months ended June 30, 2015, we recognized restructuring charges of \$1 million and \$4 million, respectively. We incurred these charges related to actions taken in 2015 primarily in an effort to reposition our European and North American businesses to optimize our cost structure and improve our operational efficiency and effectiveness. The charges relate to the reduction in structural costs, including a decrease in headcount and consolidation of facilities within our Water Infrastructure segment. No additional costs related to actions commenced in prior years were included in the charges recorded during the three months ended June 30, 2015. Charges of \$1 million during the six months ended June 30, 2015 related to actions that commenced in prior years.

During the three and six months ended June 30, 2014, we recognized restructuring charges of \$3 million and \$18 million, respectively. These charges related to the reduction in structural costs, including the elimination of headcount and consolidation of facilities within both our Water Infrastructure and Applied Water segments.

Total expected costs associated with actions that commenced during the six months ended June 30, 2015 are approximately \$6 million for Water Infrastructure. These costs primarily consist of severance charges. We currently expect activity related to these actions to continue through the second quarter of 2016. As a result of actions initiated during the six months ended June 30, 2015, we estimate net savings of approximately \$3 million in 2015 and annual future net savings beginning in 2016 of approximately \$5 million.

We expect to incur approximately \$10 million in restructuring costs for the full year, which contemplates additional actions beyond those discussed above. As a result of all of the actions taken and expected to be taken in 2015, we anticipate approximately \$3 million of total net savings to be realized during 2015.

Operating Income

We generated operating income of \$104 million during the second quarter of 2015, a \$12 million decrease compared to \$116 million in 2014, and \$187 million during the six months ended June 30, 2015, a \$5 million decrease compared to \$192 million in 2014. The declines were driven by cost inflation combined with foreign exchange translation headwinds and unfavorable mix, partially offset by cost-saving initiatives, savings from restructuring actions, lower restructuring and realignment costs and increased volume.

The following table illustrates operating income results for our business segments:

(In millions)	Three Months Ended			Six Months Ended		
	June 30,		Change	June 30,		Change
	2015	2014		2015	2014	
Water Infrastructure	\$65	\$76	(14.5)%	\$112	\$122	(8.2)%
Applied Water	51	53	(3.8)%	97	94	3.2 %

Water Infrastructure

Operating income for our Water Infrastructure segment decreased \$11 million, or 14.5%, (decreased \$12 million or 14.8% on an adjusted basis) for the second quarter of 2015 and decreased \$10 million, or 8.2%, (decreased \$17 million or 12.2% on an adjusted basis) for the six months ended June 30, 2015 compared with the same respective periods for the prior year. On an adjusted basis, the reductions in operating income were principally due to cost inflation, foreign exchange translation headwinds and unfavorable mix, which were partially offset by cost savings from lean six sigma, restructuring and global sourcing initiatives.

Applied Water

Operating income for our Applied Water segment decreased \$2 million, or 3.8%, (decreased \$4 million or 7.0% on an adjusted basis) for the second quarter of 2015 and increased \$3 million, or 3.2%, (decreased \$4 million or 3.8% on an adjusted basis) for the six months ended June 30, 2015 compared with the same respective periods for the prior year. On an adjusted basis, organic volume growth and cost reductions from global sourcing, lean six sigma initiatives and restructuring savings were more than offset by cost inflation and foreign exchange translation headwinds as well as the divestiture of our Wolverhampton valves business.

Interest Expense

Interest expense was \$14 million and \$28 million for the respective three and six months ended June 30, 2015, and \$13 million and \$27 million for the respective three and six months ended June 30, 2014, primarily related to the interest on the \$1.2 billion long-term debt issued in September 2011. See "Liquidity and Capital Resources" for further details.

Income Tax Expense

The income tax provision for the three months ended June 30, 2015 was \$17 million resulting in an effective tax rate of 18.1%, compared to \$18 million resulting in an effective tax rate of 17.2% for the same period in 2014. The income tax provision for both the six months ended June 30, 2015 and 2014 was \$30 million. The effective tax rate for the six months ended June 30, 2015 was 17.8%, compared to 17.9% for the same period in 2014. In both periods the variance in the effective tax rates resulted primarily from the geographic mix of earnings.

Other Comprehensive Income (Loss)

Other comprehensive income ("OCI") was \$35 million for the three months ended June 30, 2015 compared to a loss of \$8 million in the prior year. For the six months ended June 30, 2015 it was a loss of \$99 million compared to a loss of \$9 million for the same period in 2014. The changes were driven primarily from foreign currency translation impacts in 2015. The translation benefit in the second quarter of 2015 was due to the Euro strengthening against the U.S. Dollar, which was partially offset by the weakening of the Swedish Krona. The negative translation impact for the six months ended June 30, 2015 against the U.S. Dollar was primarily due to the weakening of the Swedish Krona.

Liquidity and Capital Resources

The following table summarizes our sources and (uses) of cash:

(In millions)	Six Months Ended		Change
	June 30,		
	2015	2014	
Operating activities	\$123	\$98	\$25
Investing activities	(53)	(47)	(6)
Financing activities	(96)	(130)	34
Foreign exchange (a)	(37)	(4)	(33)
Total	\$(63)	\$(83)	\$20

(a) 2015 impact is primarily due to the weakness of the Euro against the U.S. Dollar.

Sources and Uses of Liquidity

Operating Activities

During the six months ended June 30, 2015, net cash provided by operating activities increased by \$25 million as compared to the prior year. The year-over-year increase was primarily driven by a decrease in the use of working capital from active management of inventory build in 2015. Additionally, decreases in cash paid for income taxes and restructuring were offset by increased payments for foreign value-added taxes as compared to the prior year.

Investing Activities

Cash used in investing activities was \$53 million for the six months ended June 30, 2015, \$6 million higher as compared to \$47 million in the prior year, primarily due to increased spending on capital improvements in our manufacturing facilities.

Financing Activities

Cash used in financing activities was \$96 million for the six months ended June 30, 2015 as compared to \$130 million in the prior year, primarily driven by a decrease in share repurchase activity of \$49 million which was partially offset by an increase of \$4 million, or a 10% per share increase in dividends paid to shareholders as well as decreased proceeds from the exercise of stock options of \$8 million.

Funding and Liquidity Strategy

Our ability to fund our capital needs depends on our ongoing ability to generate cash from operations, and access to bank financing and the capital markets. Historically, we have generated operating cash flow sufficient to fund our primary cash needs centered on operating activities, working capital, capital expenditures, and strategic investments. If our cash flows from operations are less than we expect, we may need to incur debt or issue equity. From time to time, we may need to access the long-term and short-term capital markets to obtain financing. Our access to, and the availability of, financing on acceptable terms and conditions in the future will be impacted by many factors, including: (i) our credit ratings or absence of a credit rating, (ii) the liquidity of the overall capital markets, and (iii) the current state of the economy. There can be no assurance that such financing will be available to us on acceptable terms or that such financing will be available at all.

We anticipate that our present sources of funds, including funds from operations and additional borrowings, will provide us with sufficient liquidity and capital resources to meet our liquidity and capital needs in both the United States and outside of the United States over the next twelve months.

Senior Notes

On September 20, 2011, we issued 3.550% Senior Notes of \$600 million aggregate principal amount due September 2016 (the "Senior Notes due 2016") and 4.875% Senior Notes of \$600 million aggregate principal amount due October 2021 (the "Senior Notes due 2021" and together with the Senior Notes due 2016 the "Senior Notes").

The Senior Notes include covenants which restrict our ability, subject to exceptions, to incur debt secured by liens and engage in sale and leaseback transactions, as well as provide for customary events of default (subject, in certain cases, to receipt of notice of default and/or customary grace and cure periods). We may redeem the Senior Notes, as applicable, in whole or in part, at any time at a redemption price equal to the principal amount of the Senior Notes to be redeemed, plus a make-whole premium. If a change of control triggering event (as defined in the Senior Notes indenture) occurs, we will be required to make an offer to purchase the Senior Notes at a price equal to 101% of their principal amount plus accrued and unpaid interest to the date of repurchase. As of June 30, 2015, we were in compliance with all covenants.

Interest on the Senior Notes due 2016 is payable on March 20 and September 20 of each year. Interest on the Senior Notes due 2021 is payable on April 1 and October 1 of each year.

Credit Facility

Effective March 27, 2015, Xylem entered into a Five-Year Revolving Credit Facility (the "Credit Facility") with Citibank, N.A., as administrative agent, and a syndicate of lenders. The Credit Facility provides for an aggregate principal amount of up to \$600 million of: (i) revolving extensions of credit (the "revolving loans") outstanding at any time and (ii) the issuance of letters of credit in a face amount not in excess of

\$100 million outstanding at any time. The Credit Facility provides for increases of up to \$200 million for a possible maximum total of \$800 million in aggregate principal amount at our request and with the consent of the institutions providing such increased commitments.

At our election, the interest rate per annum applicable to the revolving loans will be based on either (i) a Eurodollar rate determined by reference to LIBOR, adjusted for statutory reserve requirements, plus an applicable margin or (ii) a fluctuating rate of interest determined by reference to the greatest of: (a) the prime rate of Citibank, N.A., (b) the U.S. Federal funds effective rate plus half of 1% or (c) the Eurodollar rate determined by reference to LIBOR, adjusted for statutory reserve requirements, in each case, plus an applicable margin.

In accordance with the terms, we may not exceed a maximum leverage ratio of 3.50 to 1.00 (based on a ratio of total debt to earnings before interest, taxes, depreciation and amortization) throughout the term. The Credit Facility also contains limitations on, among other things, incurring secured debt, granting liens, entering into sale and leaseback transactions, mergers, consolidations, liquidations, dissolutions and sales of assets. In addition, the Credit Facility contains other terms and conditions such as customary representations and warranties, additional covenants and customary events of default. As of June 30, 2015, we were in compliance with all covenants.

As of June 30, 2015, the Credit Facility was undrawn.

Research and Development Facility Agreement

On December 4, 2013, the Company amended and restated its Risk Sharing Finance Facility Agreement (the "R&D Facility Agreement") with The European Investment Bank (the "EIB") to add an additional borrower under the facility. The facility provides an aggregate principal amount of up to €120 million (approximately \$134 million) to finance research projects and infrastructure development in the European Union. The Company's wholly owned subsidiaries in Luxembourg, Xylem Holdings S.á r.l. and Xylem International S.á r.l., are the borrowers under the R&D Facility Agreement. The obligations of the borrowers under the R&D Facility Agreement are guaranteed by the Company under an Amended and Restated Deed of Guarantee, dated as of December 4, 2013, in favor of the EIB. The funds are available to finance research and development projects during the period from 2013 through 2016 at the Company's R&D facilities in Sweden, Germany, Italy, the United Kingdom, Austria, Norway and Hungary.

Under the R&D Facility Agreement, the borrower can draw loans on or before December 14, 2015 with a maturity of no longer than 12 years. The R&D Facility Agreement provides for Fixed Rate loans and Floating Rate loans. The interest rate per annum applicable to Fixed Rate loans is at a fixed percentage rate per annum specified by the EIB which includes the applicable margin. The interest rate per annum applicable to Floating Rate loans is at the rate determined by reference to EURIBOR for loans drawn in Euros and LIBOR for loans drawn in Pounds Sterling or U.S. Dollars, plus an applicable spread specified by the EIB which includes the applicable margin. The applicable margin for both Fixed Rate loans and Floating Rate loans is determined by reference to the credit rating of the Company.

In accordance with the terms of the R&D Facility Agreement, we may not exceed a maximum leverage ratio of 3.50 to 1.00 (based on a ratio of total debt to earnings before interest, taxes, depreciation and amortization) throughout the term. The R&D Facility Agreement also contains limitations on, among other things, incurring debt, granting liens, and entering into sale and leaseback transactions. In addition, the R&D Facility Agreement contains other terms and conditions, such as customary representations and warranties, additional covenants and customary events of default. As of June 30, 2015, we were in compliance with all covenants.

As of June 30, 2015, \$77 million was outstanding under the R&D Facility Agreement. Although the borrowing term for this arrangement is for five years, we have classified it as short-term debt on our Condensed Consolidated Balance Sheet since we intend to repay this obligation in less than one year.

Non-U.S. Operations

We generated approximately 59% of our revenue from non-U.S. operations for both the three and six months ended June 30, 2015, and 62% and 63% for the three and six months ended June 30, 2014, respectively. As we continue to grow our operations in the emerging markets and elsewhere outside of the United States, we expect to continue to generate significant revenue from non-U.S. operations and we expect our cash will be predominately held by our foreign subsidiaries. We expect to manage our worldwide cash requirements considering available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We may transfer cash from certain international subsidiaries to the U.S. and other international subsidiaries when we believe it is cost effective to do so. We continually review our domestic and foreign cash profile, expected future cash generation and investment opportunities, which support our current designation of a portion of these funds as being indefinitely reinvested and reassess whether there is a demonstrated need to repatriate funds held internationally to support our U.S. operations. If, as a result of our review, it is determined that all or a portion of the funds may be needed for our operations in the United States, we may be required to accrue additional U.S. taxes. As of June 30, 2015, our foreign subsidiaries were holding \$561 million in cash or marketable securities.

Critical Accounting Estimates

Our discussion and analysis of our results of operations and capital resources are based on our condensed consolidated financial statements, which have been prepared in conformity with GAAP. The preparation of these condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the disclosure of contingent assets and liabilities. We believe the most complex and sensitive judgments, because of their significance to the condensed consolidated financial statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2014 Annual Report describes the critical accounting estimates used in preparation of the condensed consolidated financial statements. Actual results in these areas could differ from management's estimates. There have been no significant changes in the information concerning our critical accounting estimates as stated in our 2014 Annual Report.

New Accounting Pronouncements

See Note 2, "Recently Issued Accounting Pronouncements," in the Notes to the condensed consolidated financial statements for a complete discussion of recent accounting pronouncements. We are currently evaluating the impact of certain recently issued guidance on our financial condition and results of operations in future periods.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in the information concerning market risk as stated in our 2014 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the Chief Executive Officer and Chief Financial Officer of the Company, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in our internal control over financial reporting during the fiscal quarter covered by this quarterly report that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses. Some of these proceedings seek remedies relating to environmental matters, intellectual property matters, personal injury claims, employment and pension matters, government contract issues and commercial or contractual disputes, sometimes related to acquisitions or divestitures. See Note 17 "Commitments and Contingencies" to the condensed consolidated financial statements for further information and any updates.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in our 2014 Annual Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents information with respect to purchases of the Company's common stock by the Company during the three months ended June 30, 2015:

(IN MILLIONS, EXCEPT PER SHARE AMOUNTS) PERIOD	TOTAL NUMBER OF SHARES PURCHASED	AVERAGE PRICE PAID PER SHARE (a)	TOTAL NUMBER OF SHARES PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS (b)	APPROXIMATE DOLLAR VALUE OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS (b)
4/1/15 - 4/30/15	—	—	—	\$59
5/1/15 - 5/31/15	—	—	—	\$58
6/1/15 - 6/30/15	—	—	—	\$59

(a) Average price paid per share is calculated on a settlement basis.

On August 18, 2012, the Board of Directors authorized the repurchase of up to 2.0 million shares of common stock with no expiration date. The program's objective is to offset dilution associated with various Xylem employee (b) stock plans by acquiring shares in the open market from time to time. There were no shares purchased under this program during the three months ended June 30, 2015 and there are approximately 1.0 million shares (approximately \$39 million in value) that may still be purchased under this plan.

On August 20, 2013, the Board of Directors authorized the repurchase of shares up to \$250 million in value with no expiration date. The program's objective is to deploy our capital in a manner that benefits our shareholders and maintains our focus on growth. There were no shares purchased under this program during the three months ended June 30, 2015 and there are up to \$20 million in shares that may still be purchased under this plan.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

See the Exhibit Index following the signature page hereto for a list of exhibits filed as part of this report and incorporated herein by reference.
