MGM RESORTS INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1 — ORGANIZATION

Organization. MGM Resorts International (together with its consolidated subsidiaries, unless otherwise indicated or unless the context requires otherwise, the “Company”) is a Delaware corporation that acts largely as a holding company and, through subsidiaries, owns and operates casino resorts.

The Company owns and operates the following integrated casino, hotel and entertainment resorts in Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, The Mirage, Mandalay Bay, Luxor, New York-New York, Park MGM (which had previously been branded as Monte Carlo prior to May 2018), Excalibur and Circus Circus Las Vegas. Operations at MGM Grand Las Vegas include management of The Signature at MGM Grand Las Vegas, a condominium-hotel consisting of three towers. The Company operates and, along with local investors, owns MGM Grand Detroit in Detroit, Michigan and MGM National Harbor in Prince George’s County, Maryland. The Company also owns and operates Borgata located on Renaissance Pointe in the Marina area of Atlantic City, New Jersey and the following resorts in Mississippi: Beau Rivage in Biloxi and Gold Strike in Tunica. Additionally, the Company owns and operates The Park, a dining and entertainment district located between New York-New York and Park MGM, Shadow Creek, an exclusive world-class golf course located approximately ten miles north of its Las Vegas Strip resorts, Primm Valley Golf Club at the California/Nevada state line and Fallen Oak golf course in Saucier, Mississippi.

MGM Growth Properties LLC (“MGP”), a consolidated subsidiary of the Company, is organized as an umbrella partnership REIT (commonly referred to as an UPREIT) structure in which all of its assets are owned by and all of its businesses are conducted through MGM Growth Properties Operating Partnership LP (the “Operating Partnership”), its subsidiary. MGP has two classes of authorized and outstanding voting common shares (collectively, the “shares”): Class A shares and a single Class B share. The Company owns MGP’s Class B share, which does not provide its holder any rights to profits or losses or any rights to receive distributions from operations of MGP or upon liquidation or winding up of MGP. MGP’s Class A shareholders are entitled to one vote per share, while the Company, as the owner of the Class B share, is entitled to an amount of votes representing a majority of the total voting power of MGP’s shares so long as the Company and its controlled affiliates’ (excluding MGP) aggregate beneficial ownership of the combined economic interests in MGP and the Operating Partnership does not fall below 30%. The Company and MGP each hold Operating Partnership units representing limited partner interests in the Operating Partnership. The general partner of the Operating Partnership is a wholly-owned subsidiary of MGP. The Operating Partnership units held by the Company are exchangeable into Class A shares of MGP on a one-to-one basis, or cash at the fair value of a Class A share. The determination of settlement method is at the option of MGP’s independent conflicts committee. As of June 30, 2018, the Company owned 73.3% of the Operating Partnership units and MGP held the remaining 26.7% of the Operating Partnership units.

Pursuant to a master lease agreement between a subsidiary of the Company (the “tenant”) and a subsidiary of the Operating Partnership (the “landlord”), the tenant leases the real estate assets of The Mirage, Mandalay Bay, Luxor, New York-New York, Park MGM, Excalibur, The Park, Gold Strike Tunica, MGM Grand Detroit, Beau Rivage, Borgata, and MGM National Harbor from the landlord.

On April 4, 2018, MGP entered into an agreement with Milstein Entertainment LLC to acquire the membership interests of Northfield Park Associates, LLC, an Ohio limited liability company that owns the real estate assets and operations of the Hard Rock Rocksino Northfield Park (“Rocksino”) for approximately \$1.06 billion, and on July 6, 2018, MGP completed the acquisition of the Rocksino. MGP funded the acquisition through a \$200 million draw on the Operating Partnership’s delayed draw Term Loan A, a \$655 million draw under the Operating Partnership’s revolving credit facility with the remainder of the purchase price paid with cash on hand. Simultaneously with the close, MGP entered into a new agreement with Hard Rock to continue to serve as the manager of the property.

The Company has an approximate 56% controlling interest in MGM China, which owns MGM Grand Paradise, S.A. (“MGM Grand Paradise”). MGM Grand Paradise owns and operates the MGM Macau resort and casino and the related gaming subconcession and land concessions as well as MGM Cotai, an integrated casino, hotel and entertainment resort located on the Cotai Strip in Macau that opened on February 13, 2018.

The Company owns 50% of and manages CityCenter Holdings, LLC (“CityCenter”), located between Bellagio and Park MGM. The other 50% of CityCenter is owned by Infinity World Development Corp, a wholly owned subsidiary of Dubai World, a Dubai, United Arab Emirates government decree entity. CityCenter consists of Aria, an integrated casino, hotel and entertainment resort; and Vdara, a luxury condominium-hotel. In addition, CityCenter features residential units in the Residences at Veer. In March 2018, a subsidiary of CityCenter entered into an agreement for the sale of the Mandarin Oriental Las Vegas. See Note 3 for additional information related to CityCenter.

The Company and a subsidiary of Anschutz Entertainment Group, Inc. (“AEG”) each own 42.5% of the Las Vegas Arena Company, LLC (“Las Vegas Arena Company”), the entity which owns the T-Mobile Arena, and Athena Arena, LLC owns the remaining 15%. The Company manages the T-Mobile Arena, which is located on a parcel of the Company’s land between Frank Sinatra Drive and New York-New York, adjacent to the Las Vegas Strip. The T-Mobile Arena is a 20,000 seat venue designed to host world-class events – from mixed martial arts, boxing, basketball and bull riding, to high profile awards shows and top-name concerts, and is the home of the Vegas Golden Knights of the National Hockey League. Additionally, the Company leases the MGM Grand Garden Arena, located adjacent to the MGM Grand Las Vegas, to the Las Vegas Arena Company. See Note 3 for additional information regarding the Company’s investment in the Las Vegas Arena Company.

The Company also has a 50% interest in Grand Victoria. Grand Victoria is a riverboat casino in Elgin, Illinois; an affiliate of Hyatt Gaming owns the other 50% of Grand Victoria and also operates the resort. In April 2018, the Company, along with its venture partner, entered into a definitive agreement to sell the Grand Victoria Casino. See Note 3 for additional information regarding the Company’s investment in Grand Victoria.

A subsidiary of the Company was awarded a casino license to build and operate MGM Springfield in Springfield, Massachusetts. MGM Springfield is in the process of being developed on approximately 14 acres of land in downtown Springfield. The Company’s plans for the resort currently include a casino with approximately 2,500 slots and 120 table games including poker; a 250-room hotel; 110,000 square feet of retail and restaurant space; 46,000 square feet of meeting and event space; and a 3,500 space parking garage, with an expected development and construction cost of approximately \$960 million, excluding capitalized interest and land-related costs. MGM Springfield is expected to open on August 24, 2018.

On May 28, 2018, the Company entered into an agreement to acquire the real property and operations associated with the Empire City Casino's race track and casino ("Empire City") for total consideration of \$850 million, subject to customary working capital and other adjustments, including the assumption of approximately \$245 million of debt, the issuance of approximately \$260 million of the Company’s common stock, and the remaining balance in cash. If Empire City is awarded a license for live table games on or prior to December 31, 2022 and the Company accepts such license by December 31, 2024, the Company will pay additional consideration of \$50 million.

The Company and MGP have also entered into a definitive agreement whereby MGP will acquire the developed real property associated with Empire City from the Company for total consideration of approximately \$625 million, which will include the assumption of approximately \$245 million of debt by MGP, with the balance through the issuance of operating partnership units to the Company. Empire City will be added to the existing Master Lease between the Company and MGP through which MGP will lease the real property back to a subsidiary of the Company, after which a subsidiary of the Company will operate the property. In addition, pursuant to the Master Lease, the Company has agreed to give MGP a right of first offer with respect to certain undeveloped land adjacent to the property to the extent that the Company develops additional gaming facilities and chooses to sell or transfer the property in the future. The transactions are expected to close in the first quarter of 2019, subject to regulatory approvals and other customary closing conditions.

The Company has two reportable segments: domestic resorts and MGM China. See Note 9 for additional information about the Company's segments.

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation. As permitted by the rules and regulations of the Securities and Exchange Commission, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") have been condensed or omitted. These consolidated financial statements should be read in conjunction with the Company's 2017 annual consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's interim financial statements. The results for such periods are not necessarily indicative of the results to be expected for the full year.

Principles of consolidation. Management has determined that MGP is a variable interest entity ("VIE") because the Class A equity investors as a group lack the power through voting or similar rights to direct the activities of such entity that most significantly impact such entity's economic performance. The Company has determined that it is the primary beneficiary of MGP and consolidates MGP because (i) its ownership of MGP's single Class B share entitles it to a majority of the total voting power of MGP's shares, and (ii) the exchangeable nature of the Operating Partnership units owned provide the Company the right to receive benefits from MGP that could potentially be significant to MGP. The Company has recorded MGP's ownership interest in the Operating Partnership of 26.7% as of June 30, 2018 as noncontrolling interest in the Company's consolidated financial statements. As of June 30, 2018 and December 31, 2017, on a consolidated basis, MGP had total assets of \$10.3 billion and \$10.4 billion, respectively, primarily related to its real estate investments, and total liabilities of \$4.3 billion as of both dates, primarily related to its indebtedness.

Property and equipment. Property and equipment are stated at cost. A significant amount of the Company's property and equipment was acquired through business combinations and therefore recognized at fair value at the acquisition date. Gains and losses on dispositions of property and equipment are included in the determination of income or loss. Maintenance costs are expensed as incurred. As of June 30, 2018 and December 31, 2017, the Company had accrued \$60 million and \$28 million, respectively, for property and equipment within accounts payable, and \$1 million and \$34 million, respectively, related to construction retention within other long-term liabilities.

Revenue recognition. The Company's revenue contracts with customers consist of casino wager transactions, hotel room sales, food and beverage transactions, entertainment shows, and retail transactions.

The transaction price for a casino wager is the difference between gaming wins and losses ("net win"). In certain circumstances, the Company offers discounts on markers, which is estimated based upon historical business practice, and recorded as a reduction of casino revenue. Commissions rebated to gaming promoters and VIP players at MGM China are also recorded as a reduction of casino revenue. The Company accounts for casino revenue on a portfolio basis given the similar characteristics of wagers by recognizing net win per gaming day versus on an individual wager basis.

For casino wager transactions that include complimentary goods and services provided by the Company to gaming patrons on a discretionary basis to incentivize gaming, the Company allocates revenue to the good or service delivered based upon stand-alone selling price ("SSP"). Discretionary complimentaries provided by the Company and supplied by third parties are recognized as an operating expense. The Company accounts for complimentaries on a portfolio basis given the similar characteristics of the incentives by recognizing redemption per gaming day.

For casino wager transactions that include incentives earned by customers under the Company's loyalty programs, the Company allocates a portion of net win based upon the SSP of such incentive (less estimated breakage). This allocation is deferred and recognized as revenue when the customer redeems the incentive. When redeemed, revenue is recognized in the department that provides the goods or service. Redemption of loyalty incentives at third party outlets are deducted from the loyalty liability and amounts owed are paid to the third party, with any discount received recorded as other revenue. During the three and six months ended June 30, 2018, commissions, complimentaries, and other incentives provided to gaming customers were \$520 million and \$1.1 billion, respectively. During the three and six months ended June 30, 2017, commissions, complimentaries, and other incentives provided to gaming customers were \$473 million and \$958 million, respectively. After allocating revenue to other goods and services provided as part of casino wager transactions, the Company records the residual amount to casino revenue.

The transaction price of rooms, food and beverage, and retail contracts is the net amount collected from the customer for such good and services. The transaction price for such contracts is recorded as revenue when the good or service is transferred to the customer over their stay at the hotel or when the delivery is made for the food & beverage and retail & other contracts. Sales and usage-based taxes are excluded from revenues. For some arrangements, the Company acts as an agent in that it arranges for another party to transfer goods and services, which primarily include certain of

the Company's entertainment shows as well as customer rooms arranged by online travel agents.

The Company also has other contracts that include multiple goods and services, such as packages that bundle food, beverage, or entertainment offerings with hotel stays and convention services. For such arrangements, the Company allocates revenue to each good or service based on its relative SSP. The Company primarily determines the SSP of rooms, food and beverage, entertainment, and retail goods and services based on the amount that the Company charges when sold separately in similar circumstances to similar customers.

Contract and Contract-Related Liabilities. There may be a difference between the timing of cash receipts from the customer and the recognition of revenue, resulting in a contract or contract-related liability. The Company generally has three types of liabilities related to contracts with customers: (1) outstanding chip liability, which represents the amounts owned in exchange for gaming chips held by a customer, (2) loyalty program obligations, which represents the deferred allocation of revenue relating to loyalty program incentives earned, as discussed above, and (3) customer advances and other, which is primarily funds deposited by customers before gaming play occurs ("casino front money") and advance payments on goods and services yet to be provided such as advance ticket sales and deposits on rooms and convention space or for unpaid wagers. These liabilities are generally expected to be recognized as revenue within one year of being purchased, earned, or deposited and are recorded within "Other accrued liabilities" on the Company's consolidated balance sheets.

The following table summarizes the activity related to contract and contract-related liabilities:

	Outstanding Chip Liability		Loyalty Program		Customer Advances and Other	
	2018	2017	2018	2017	2018	2017

Reimbursed costs. Costs reimbursed pursuant to management services are recognized as revenue in the period it incurs the costs as this reflects when the Company performs its related performance obligation and is entitled to reimbursement. Reimbursed costs relate primarily to the Company's management of CityCenter.

Revenue by source. The Company presents the revenue earned disaggregated by the type or nature of the good or service (casino, room, food and beverage, and entertainment, retail and other) and by relevant geographic region within Note 9. Lease revenues earned by the Company from third-parties are classified within the line item corresponding to the type or nature of the tenant's good or service. During the three and six months ended June 30, 2018, lease revenues include \$12 million and \$25 million recorded within food and beverage revenue, respectively, and \$22 million and \$43 million recorded within entertainment, retail, and other revenue for the same such periods, respectively. During the three and six months ended June 30, 2017, lease revenues include \$14 million and \$26 million recorded within food and beverage revenue, respectively, and \$19 million and \$39 million recorded within entertainment, retail, and other revenue for the same such periods, respectively.

Recently issued accounting standards. In May 2014, the FASB issued the ASC 606, "Revenue from Contracts with Customers (Topic 606)" which outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. Under the standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to receive in exchange for those goods and services.

The Company adopted ASC 606 on a full retrospective basis effective January 1, 2018. The most significant impacts of adoption of the new accounting pronouncement were as follows:

- **Promotional Allowances:** The Company no longer recognizes revenues for goods and services provided to customers for free as an inducement to gamble as gross revenue with a corresponding offset to promotional allowances to arrive at net revenues, and accordingly the promotional allowances line item has been removed. The majority of such amounts previously included in promotional allowances now

Edgar Filing: MGM Resorts International - Form 10-Q

offset casino revenues based on an allocation of revenues to performance obligations using stand-alone selling price. This change resulted in a reclassification of revenue between revenue line items;

◆ **Loyalty Accounting:** As discussed within Revenue Recognition above, the outstanding performance obligations of the loyalty program liability are now recognized at retail value of such benefits owed to the customer (less estimated breakage). This change resulted in a decrease to retained earnings as of January 1, 2015 of \$29 million, net of tax of \$15 million, with a corresponding increase primarily to other accrued liabilities, as a result of the initial application of the standard and did not have a significant impact to other balance sheet accounts or earnings;

◆ **Gaming Promoter Commission:** Commissions paid to gaming promoters under MGM China's incentive program are now fully reflected as a reduction in casino revenue. This change resulted in a decrease in casino expense and a corresponding decrease in casino revenue;

◆ **Gross versus Net Presentation:** Mandatory service charges on food and beverage and wide area progressive operator fees are recorded gross, that is, the amount received from the customer has been recorded as revenue with the corresponding amount paid as an expense. These changes resulted in an increase in revenue with a corresponding increase in expense;

◆ **Estimated Cost of Promotional Allowances:** The Company no longer reclassifies the estimated cost of complimentary provided to the gaming patron from other expense line items to the casino expense line item. This change resulted in a reclassification between expense line items.

These changes, and other less significant adjustments that were required upon adoption, did not have an aggregate material impact on operating income, net income, or cash flows. The following tables show the increase/(decrease) to our 2017 quarters and full-year 2017, 2016, and 2015 income statement line items as follows:

In February 2016, the FASB issued ASC 842 “Leases (Topic 842),” which replaces the existing guidance in ASC 840, “Leases.” ASC 842 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. ASC 842 requires a dual approach for lessee accounting under which a lessee would account for leases as finance leases or operating leases. Both finance leases and operating leases will result in the lessee recognizing a right-of-use (“ROU”) asset and a corresponding lease liability. For finance leases, the lessee would recognize interest expense and amortization of the ROU asset and for operating leases the lessee would recognize a straight-line total

lease expense. The Company is currently assessing the impact the adoption of ASC 842 will have on its consolidated financial statements and footnote disclosures.

In January 2018, the Company adopted ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)," ("ASU 2016-15"). ASU 2016-15 amends the guidance of ASC 230 on the classification of certain cash receipts and payments in the statement of cash flows. The primary purpose of ASU 2016-15 is to reduce the diversity in practice that has resulted from the lack of consistent principles, specifically clarifying the guidance on eight cash flow issues. The adoption of ASU 2016-15 did not have a material effect on the Company's consolidated financial statements and footnote disclosures.

In March 2018, the FASB issued ASU No. 2018-05, "Income Taxes (Topic 740) - Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118," ("ASU 2018-05"). ASU 2018-05 provides guidance on accounting for the tax effects of the U.S. Tax Cuts and Jobs Act (the "Tax Act") pursuant to the Staff Accounting Bulletin No. 118, which allows companies to complete the accounting under ASC 740 within a one-year measurement period from the Tax Act enactment date, which occurred in the financial statements for the year ended December 31, 2017. The Company continues to evaluate the tax effects of the Tax Act (see Note 5) and expects to finalize its provisional amounts by the fourth quarter of 2018.

NOTE 3 — INVESTMENTS IN AND ADVANCES TO UNCONSOLIDATED AFFILIATES

Mandarin Oriental. In March 2018, a subsidiary of CityCenter entered into an agreement for the sale of the Mandarin Oriental Las Vegas and adjacent retail parcels for approximately \$214 million, subject to customary closing conditions. As a result of this transaction, CityCenter recorded an impairment charge of approximately \$127 million. The Company recorded a reversal of certain basis differences of \$64 million, which entirely offset its 50% share of the impairment charge. The transaction is expected to close during the third quarter of 2018.

CityCenter distributions. In May 2018, CityCenter paid a \$400 million dividend, of which the Company received its 50% share, or \$200 million and in April 2017, CityCenter paid a \$600 million dividend, of which the Company received its 50% share, or \$300 million.

CityCenter credit facility. In May 2018, CityCenter repriced its term loan B facility to LIBOR plus 2.25% representing a 25 basis point decrease from the prior rate. All other material provisions of the existing credit facility remain unchanged. Concurrently, CityCenter completed the execution of a \$200 million incremental term loan which has the same terms as its existing term loan B facility.

Grand Victoria sale. In April 2018, the Company, along with its venture partner, entered into a definitive agreement to sell the Grand Victoria Casino, of which a subsidiary of the Company owns 50% interest, to Eldorado Resorts, Inc. for \$328 million in cash, subject to a working capital adjustment. The Company will receive its 50% share of the net proceeds after certain transaction costs, or approximately \$162 million. The transaction is expected to close during the third quarter of 2018, subject to regulatory approvals and other customary closing conditions.

Debt due within one year of the June 30, 2018 and December 31, 2017 balance sheets was classified as long-term as the Company had both the intent and ability to refinance current maturities on a long-term basis under its revolving senior credit facilities, with the exception that \$158 million related to MGM China's term loan amortization payments in excess of available borrowings under the MGM China revolving credit facility were classified as current at December 31, 2017.

Senior credit facility. At June 30, 2018, the Company's senior credit facility consisted of a \$231 million term loan A facility and a \$1.25 billion revolving facility. The Company permanently repaid \$3 million and \$6 million of the term loan A facility in the three and six months ended June 30, 2018, respectively, in accordance with the scheduled amortization. At June 30, 2018, the interest rate on the term loan A was 4.34%. At June 30, 2018, no amounts were drawn on the revolving credit facility. The Company was in compliance with its credit facility covenants at June 30, 2018.

Operating Partnership senior credit facility. At June 30, 2018, the Operating Partnership senior credit facility consisted of a \$470 million term loan A facility, a \$1.8 billion term loan B facility, and a \$1.35 billion revolving credit facility. On March 23, 2018, the Operating Partnership repriced its term loan B interest rate to LIBOR plus 2.00% and extended the maturity of the term loan B facility to March 2025, effective June 14, 2018. On June 14, 2018, the Operating Partnership amended its credit agreement to provide for a \$750 million increase of the revolving facility to \$1.35 billion, provide for a new \$200 million delayed draw on the term loan A facility and extend the maturity of the revolving facility and the term loan A facility to June 2023. Additionally, the revolving and term loan A facilities were repriced to LIBOR plus 1.75% to 2.25% determined by reference to a total net leverage ratio pricing grid. In addition, the term loan A facility's repayment will start on the last business day of each calendar quarter beginning September 30, 2019, for an amount equal to 0.625% of the aggregate principal amount of the term loan A outstanding as of the amendment effective date. The Operating Partnership permanently repaid \$0 and \$4 million of the term loan A facility in the three and six months ended June 30, 2018, respectively, in accordance with the scheduled amortization, and the Operating Partnership permanently repaid \$5 million and \$9 million of the term loan B facility in the three and six months ended June 30, 2018, respectively, in accordance with the scheduled amortization. At June 30, 2018, the interest rate on the term loan A facility was 4.34% and the interest rate on the term loan B facility was 4.09%. At June 30, 2018, no amounts were drawn on the revolving credit facility or on the delayed draw on the term loan A facility. The Operating Partnership was in compliance with its credit facility covenants at June 30, 2018.

The Operating Partnership is party to interest rate swaps to mitigate the interest rate risk inherent in its senior secured term loan B facility. As of June 30, 2018, the Operating Partnership pays a weighted average fixed rate of 1.844% on total notional amount of \$1.2 billion and the variable rate received resets monthly to the one-month LIBOR with no minimum floor. The fair values of the interest rate swaps were \$34 million and \$11 million as of June 30, 2018 and December 31, 2017, respectively. The interest rate swaps were valued in a net unrealized gain position and were recorded in “Other long-term assets, net” in the accompanying consolidated balance sheets.

MGM China credit facility. At June 30, 2018, the MGM China credit facility consisted of \$2.0 billion of term loans and a \$1.0 billion revolving credit facility, which bear interest at a fluctuating rate per annum based on HIBOR plus 1.375% to 2.50%, as determined by MGM China’s leverage ratio. On June 15, 2018, MGM China amended and restated its credit facility for a reduction in the total revolving credit commitments of \$450 million to \$1.0 billion and an increase in the total term loan commitments of \$450 million to \$2.0 billion (the aggregate amount of commitments remains unchanged). The final maturity date was also extended to June 2022, but no revolving credit loans or term loans shall remain outstanding after, and no revolving credit or term loan commitments shall be available after, March 31, 2022. Quarterly principal amortization payments of the term loan facilities were amended to be 5% of the original principal amount beginning in September 2018 through December 2021, with the remaining balance due in March 2022, and the maximum total leverage ratio was increased to 6.00 to 1.00 at June 30, 2018, declining to 5.50 to 1.00 at September 30, 2018, 5.00 to 1.00 at December 31, 2018, and 4.50 to 1.00 at March 31, 2019 and thereafter. At June 30, 2018, \$98 million was drawn on the revolving credit facility. At June 30, 2018, the interest rates on the term loans and the revolving credit facility were 4.53%. MGM China was in compliance with its credit facility covenants at June 30, 2018.

Senior Notes. In June 2018, the Company issued \$1.0 billion in aggregate principal amount of 5.750% senior notes due 2025 for net proceeds of \$986 million.

Fair value of long-term debt. The estimated fair value of the Company’s long-term debt was \$13.8 billion and \$13.6 billion at June 30, 2018 and December 31, 2017, respectively. Fair value was estimated using quoted market prices for the Company’s senior notes and senior credit facilities.

NOTE 5 — INCOME TAXES

For interim income tax reporting the Company estimates its annual effective tax rate and applies it to its year-to-date ordinary income. The tax effects of unusual or infrequently occurring items, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, are reported in the interim period in which they occur. The Company’s effective income tax rate was a provision of 14.4% and a benefit of 17.9% for the three and six months ended June 30, 2018, respectively.

The Company recognizes deferred income tax assets, net of applicable reserves, related to net operating losses, tax credit carryforwards and certain temporary differences. The Company recognizes future tax benefits to the extent that realization of such benefit is more likely than not. Otherwise, a valuation allowance is applied.

The six months ended June 30, 2018 included a \$72 million non-cash income tax benefit measurement period adjustment under SAB118 that was recorded during the first quarter for the tax effect of the Tax Act based upon additional information gathered and evaluated during the period. The adjustment primarily resulted from global intangible low-taxed income (“GILTI”) foreign tax credits (“FTCs”) treated as general basket income rather than GILTI basket income. Unless the Tax Act is amended or regulatory guidance is issued treating this income as GILTI basket income, the Company believes that it will utilize a greater amount of its existing FTCs during their 10-year carryforward period and has provided additional tax benefit accordingly. This additional tax benefit could be reversed in a future period should such guidance be issued, resulting in an increase in provision for income taxes in such period.

While no measurement period adjustments were recorded during the three months ended June 30, 2018, the Company continues to evaluate the impact of the Tax Act and may adjust provisional amounts in future periods as it gathers additional information and evaluates any future regulatory or other guidance on items that may impact the FTC benefit, including, but not limited to, the treatment of income resulting from GILTI FTCs described above and allocations of interest and other expenses among active, exempt and GILTI foreign source income.

MGM Grand Paradise has had an agreement with the Macau government to settle the 12% complementary tax that would otherwise be due by its shareholder, MGM China, on distributions of its gaming profits by paying a flat annual payment (“annual fee arrangement”) regardless of the amount of distributable dividends. Such annual fee arrangement was effective for distributions of profits earned through December 31, 2016. On March 15, 2018, MGM Grand Paradise executed an extension of the annual fee arrangement, which covers the distributions of gaming profits earned for the period of January 1, 2017 through March 31, 2020. It requires annual payments of approximately \$1 million for 2017 through 2019 and a payment of approximately \$300,000 for the first quarter 2020. The Company reversed the \$41 million of deferred taxes previously recorded on 2017 earnings, resulting in a reduction in provision for income taxes during the six months ended June 30, 2018, partially offset by the 2017 annual payment amount.

NOTE 6 — COMMITMENTS AND CONTINGENCIES

October 1 litigation. The Company and/or certain of its subsidiaries have been named as defendants in a number of lawsuits related to the October 1, 2017 shooting in Las Vegas. The matters involve in large degree the same legal and factual issues, in each case being filed on behalf of individuals who are seeking damages for emotional distress, physical injury, medical expenses, economic damages and/or wrongful death based on assertions that the Company and/or certain of its subsidiaries were negligent. The Company has also received letters from attorneys purporting to represent persons with claims related to the October 1, 2017 shooting. Pending lawsuits were first filed in October 2017 and include actions filed by multiple individuals in the District Court of Clark County, Nevada and in the Superior Court of Los Angeles County, California. Some of the original actions have been voluntarily dismissed, and plaintiffs' counsel indicate they anticipate re-filing the lawsuits in similar form. In June 2018, the Company has removed to federal court all actions that remained pending in California and Nevada state courts following the voluntary dismissals. Motions to remand have been filed in several cases, and the Company anticipates that there may be additional motions to remand filed in the future. The Company has also initiated declaratory relief actions against individuals who had sued or stated an intent to sue in federal courts in various districts. Additional lawsuits related to this incident may be filed in the future.

The Company is currently unable to reliably predict the developments in, outcome of, and economic costs and other consequences of pending or future litigation related to this matter. The Company will continue to investigate the factual and legal defenses, and evaluate these matters based on subsequent events, new information and future circumstances. The Company intends to defend against these lawsuits and ultimately believes it should prevail, but litigation of this type is inherently unpredictable. Although there are significant procedural, factual and legal issues to be resolved that could significantly affect the Company's belief as to the possibility of liability, the Company currently believes that it is reasonably possible that it could incur liability in connection with certain of these lawsuits. The foregoing determination was made in accordance with generally accepted accounting principles, as codified in ASC 450-20, and is not an admission of any liability on the part of the Company or any of its affiliates. Given that these cases are in the early stages and in light of the uncertainties surrounding them, the Company does not currently possess sufficient information to determine a range of reasonably possible liability. In the event the Company incurs any liability, the Company believes it is unlikely it would incur losses in connection with these claims in excess of its insurance coverage. In addition, the Company's general liability insurance coverage provides, as part of the contractual "duty to defend", payment of legal fees and associated costs incurred to defend covered lawsuits that are filed arising from the October 1, 2017 shooting in Las Vegas. Payment of such fees and costs is in addition to (and not limited by) the limits of the insurance policies and does not erode the total liability coverage available. The insurance carriers have not expressed any reservation of rights or coverage defenses that indicate they dispute coverage under the applicable policies.

Other litigation. The Company is a party to various legal proceedings, most of which relate to routine matters incidental to its business. Management does not believe that the outcome of such proceedings will have a material adverse effect on the Company's financial position, results of operations or cash flows.

T-Mobile Arena senior credit facility. The Company is party to a repayment guarantee for the term loan B facility under the Las Vegas Arena Company's senior credit facility. As of June 30, 2018, the term loan B was \$50 million. As of June 30, 2018, the Company does not believe it is probable that it will need to perform on the guarantee.

Other guarantees. The Company and its subsidiaries are party to various guarantee contracts in the normal course of business, which are generally supported by letters of credit issued by financial institutions. The Company's senior credit facility limits the amount of letters of credit that can be issued to \$250 million, the Operating Partnership's senior credit facility limits the amount to \$75 million, and MGM China's credit facility limits the amount to \$100 million. At June 30, 2018, \$14 million in letters of credit were outstanding under the Company's senior credit facility and \$38 million in letters of credit were outstanding under MGM China's credit facility. No amounts were outstanding under the Operating Partnership senior credit facility at June 30, 2018. The amount of available borrowings under each of the credit facilities are reduced by any outstanding letters of credit.

NOTE 7 — INCOME PER SHARE OF COMMON STOCK

The table below reconciles basic and diluted income per share of common stock. Diluted net income attributable to common stockholders includes adjustments for redeemable noncontrolling interests and the potentially dilutive effect on the Company's equity interests in MGP and MGM China due to shares outstanding under their respective stock compensation plans. Diluted weighted-average common and common equivalent shares include adjustments for potential dilution of share-based awards outstanding under the Company's stock compensation plan.

MGM Resorts International stock repurchase program. In May 2018, the Company's Board of Directors authorized a \$2.0 billion stock repurchase program and completed the previously announced \$1.0 billion stock repurchase program. Under each stock repurchase program, the Company may repurchase shares from time to time in the open market or in privately negotiated agreements. The timing, volume and nature of stock repurchases will be at the sole discretion of management, dependent on market conditions, applicable securities laws, and other factors, and may be suspended or discontinued at any time.

The Company repurchased the following shares of common stock during the six months ended June 30, 2018 under the \$1.0 billion stock repurchase program:

• in March 2018, 10 million shares at \$36.24 per share for an aggregate amount of \$362 million and

• in May 2018, approximately 10 million shares at an average price of \$31.38 per share for an aggregate amount of \$310 million.

The Company repurchased the following shares of common stock during the six months ended June 30, 2018 under the \$2.0 billion stock repurchase program:

in June 2018, approximately 9 million shares at an average price of \$31.21 per share for an aggregate amount of \$285 million.

Repurchased shares were retired. The remaining availability under the \$2.0 billion stock repurchase program was approximately \$1.7 billion as of June 30, 2018.

NOTE 9 — SEGMENT INFORMATION

The Company's management views each of its casino resorts as an operating segment. Operating segments are aggregated based on their similar economic characteristics, types of customers, types of services and products provided, the regulatory environments in which they operate and their management and reporting structure. The Company's principal operating activities occur in two geographic regions: the United States and Macau S.A.R. The Company has aggregated its operations into two reportable segments based on the similar characteristics of the operating segments: domestic resorts and MGM China. The Company's operations related to investments in unconsolidated affiliates and certain other corporate operations and management services have not been identified as separate reportable segments; therefore, these operations are included in "Corporate and other" in the following segment disclosures to reconcile to consolidated results.

The Company's management utilizes Adjusted Property EBITDA as the primary profit measure for its reportable segments. Adjusted Property EBITDA is a measure defined as Adjusted EBITDA before corporate expense and stock compensation expense, which are not allocated to each property. Adjusted EBITDA is a measure defined as earnings before interest and other non-operating income (expense), taxes, depreciation and amortization, NV energy exit expense, preopening and start-up expenses, and property transactions, net.

NOTE 10 — RELATED PARTY TRANSACTIONS

MGM China

Ms. Ho, Pansy Catilina Chiu King (“Ms. Ho”) is a member of the Board of Directors of, and holds a minority ownership interest in, MGM China. MGM Branding and Development Holdings, Ltd. (together with its subsidiary MGM Development Services, Ltd., “MGM Branding and Development”), an entity included in the Company’s consolidated financial statements in which Ms. Ho indirectly holds a noncontrolling interest, is party to a brand license agreement and a development services agreement with MGM China, for which the related amounts are eliminated in consolidation. Entities owned by Ms. Ho received distributions in connection with her ownership of a noncontrolling interest in MGM Branding and Development Holdings, Ltd. of \$4 million and \$13 million during the three and six months ended June 30, 2018, respectively, and \$8 million and \$10 million during the three and six months ended June 30, 2017, respectively.

MGP

As described in Note 1, pursuant to the master lease, the tenant leases the real estate assets of The Mirage, Mandalay Bay, Luxor, New York-New York, Park MGM, Excalibur, The Park, Gold Strike Tunica, MGM Grand Detroit, Beau Rivage, Borgata, and MGM National Harbor from the landlord. In connection with the commencement of the third lease year on April 1, 2018, annual rent payments under the master lease increased to \$770 million from \$757 million. The master lease contains customary events of default and financial covenants. The Company was in compliance with all applicable covenants as of June 30, 2018.

All intercompany transactions, including transactions under the master lease, have been eliminated in the Company's consolidation of MGP. The public ownership of MGP's Class A shares is recognized as non-controlling interests in the Company's consolidated financial statements.

NOTE 11 — CONDENSED CONSOLIDATING FINANCIAL INFORMATION

As of June 30, 2018, all of the Company's principal debt arrangements are guaranteed by each of its material domestic subsidiaries, other than MGP and the Operating Partnership, MGM Grand Detroit, LLC, MGM National Harbor, LLC, Blue Tarp reDevelopment, LLC (the company that will own and operate the Company's casino in Springfield, Massachusetts), and each of their respective subsidiaries. The Company's international subsidiaries, including MGM China and its subsidiaries, are not guarantors of such indebtedness. Separate condensed financial statement information for the subsidiary guarantors and non-guarantors as of June 30, 2018 and December 31, 2017, and for the three and six months ended June 30, 2018 and 2017 are presented below. Within the Condensed Consolidating Statements of Cash Flows, the Company has presented net changes in intercompany accounts as investing activities if the applicable entities have a net asset in intercompany accounts and as a financing activity if the applicable entities have a net intercompany liability balance.

Certain of the Company's subsidiaries collectively own Operating Partnership units and each subsidiary accounts for its respective investment under the equity method within the condensed consolidating financial information presented below. For these subsidiaries, such investment constitutes continuing involvement, and accordingly, the contribution and leaseback of the real estate assets do not qualify for sale-leaseback accounting. The real estate assets are reflected in the balance sheets of the applicable MGM subsidiaries. In addition, such subsidiaries recognized finance liabilities within "Other long-term obligations" related to rent payments due under the master lease and recognized the related interest expense component of such payments. These real estate assets are also reflected on the balance sheet of the MGP subsidiary that received such assets. The condensed consolidating financial information presented below therefore includes the accounting for such activity within the respective columns presented and in the elimination column.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations contain forward-looking statements that involve risks and uncertainties. Please see "Cautionary Statement Concerning Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions that may cause our actual results to differ materially from those discussed in the forward-looking statements. This discussion should be read in conjunction with our historical financial statements and related notes thereto and the other disclosures contained elsewhere in this Quarterly Report on Form 10-Q, the audited consolidated financial statements and notes for the fiscal year ended December 31, 2017, which were included in our Form 10-K, filed with the Securities and Exchange Commission ("SEC") on March 1, 2018, and the audited consolidated financial statements and notes for the fiscal year ended December 31, 2017, as retrospectively recasted for the adoption of ASC 606, which were filed on Current Report on Form 8-K with the SEC on June 27, 2018. The results of operations for the periods reflected herein are not necessarily indicative of results that may be expected for future periods. MGM Resorts International together with its subsidiaries may be referred to as "we," "us" or "our." MGM China Holdings Limited together with its subsidiaries is referred to as "MGM China." MGM Growth Properties LLC together with its subsidiaries is referred to as "MGP."

Description of our business and key performance indicators

Our primary business is the ownership and operation of casino resorts which offer gaming, hotel, convention, dining, entertainment, retail and other resort amenities. We own or invest in several of the finest casino resorts in the world and we continually reinvest in our resorts to maintain our competitive advantage. Most of our revenue is cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards. We rely heavily on the ability of our resorts to generate operating cash flow to fund capital expenditures, provide excess cash flow for future development and repay debt financings. We make significant investments in our resorts through newly remodeled hotel rooms, restaurants, entertainment and nightlife offerings, as well as other new features and amenities. We also make investments in initiatives for sustained growth and margin enhancement by improving our data and digital technology, pricing strategy, and our guests' experience to increase cash flow and improve margins.

Key performance indicators related to gaming and hotel revenue at our domestic resorts are:

• Gaming revenue indicators – table games drop and slots handle (volume indicators); "win" or "hold" percentage, which is not fully controllable by us. Our normal table games hold percentage is in the range of 20% to 23% of table games drop and our normal slots hold percentage is in the range of 8.5% to 9.0% of slots handle; and

• Hotel revenue indicators – hotel occupancy (a volume indicator); average daily rate ("ADR," a price indicator); and revenue per available room ("REVPAR," a summary measure of hotel results, combining ADR and occupancy rate). Our calculation of ADR, which is the average price of occupied rooms per day, includes the impact of complimentary rooms. Complimentary room rates are determined based on an analysis of retail or "cash" rates for each customer segment and each type of room product to estimate complimentary rates which are consistent with retail

rates. Complimentary rates are reviewed at least annually and on an interim basis if there are significant changes in market conditions. Because the mix of rooms provided on a complimentary basis, particularly to casino customers, includes a disproportionate suite component, the composite ADR including complimentary rooms is slightly higher than the ADR for cash rooms, reflecting the higher retail value of suites.

Additional key performance indicators at MGM China are:

◆ Gaming revenue indicators - MGM China utilizes “turnover,” which is the sum of nonnegotiable chip wagers won calculated as nonnegotiable chips purchased plus nonnegotiable chips exchanged less nonnegotiable chips returned. Turnover provides a basis for measuring VIP casino win percentage. Win for VIP gaming operations at MGM Macau is typically in the range of 2.7% to 3.0% of turnover. Win for main floor gaming operations is in the range of 16% to 22% of table games drop.

Results of Operations

Summary Financial Results

The following table summarizes our consolidated financial results for the three and six months ended June 30, 2018 and 2017:

Net income attributable to MGM Resorts International	123,777	209,864	347,221	416,276

Summary Operating Results

Consolidated net revenues increased 8% for the three months ended June 30, 2018 compared to the prior year quarter, due primarily to the opening of MGM Cotai on February 13, 2018 and an increase in casino revenues at our domestic resorts. Consolidated net revenues increased 6% for the six months ended June 30, 2018 compared to the same period in the prior year, due primarily to the opening of MGM Cotai and an increase in casino revenues at our domestic resorts, partially offset by a decrease in rooms revenue and food and beverage revenue at our domestic resorts. See “Operating Results – Segment Information” below for additional information related to segment revenues.

Consolidated operating income was \$363 million for the three months ended June 30, 2018 compared to \$500 million for the prior year quarter. Operating income at our domestic resorts was \$449 million for the second quarter of 2018 compared to \$520 million in the second quarter of 2017. The decrease is reflective of disruption related to the rebranding of Park MGM as well as the prior year quarter benefit of \$36 million related to Borgata’s share of a property tax settlement from Atlantic City and \$41 million related to a modification of the 2016 NV Energy exit fee. Operating income at MGM China was \$46 million for both the three months ended June 30, 2018 and 2017, respectively. Depreciation and amortization expense related to certain corporate assets at MGM China of \$41 million is included in corporate in our non-GAAP reconciliations included herein for the three months ended June 30, 2018. Income from unconsolidated affiliates was \$48 million for the three months ended June 30, 2018 compared to \$41 million in the prior year quarter. See “Operating Results – Income from Unconsolidated Affiliates” for additional information.

Consolidated general and administrative expense increased \$84 million for the three months ended June 30, 2018 compared to the prior year quarter due to the opening of MGM Cotai and an increase in marketing expense and repairs and maintenance expense at our domestic resorts. The prior year quarter benefited from the Borgata property tax settlement, as discussed above. Corporate expense, including share-based compensation for corporate employees, was \$103 million for the three months ended June 30, 2018, an increase of \$24 million compared to the prior year quarter, due primarily to expenses related to our corporate brand campaign of \$9 million and the inclusion of MGM China corporate expense of \$5 million. Depreciation and amortization expense increased \$51 million for the three months ended June 30, 2018 compared to the same period in the prior year due to the opening of MGM Cotai.

Consolidated operating income was \$723 million for the six months ended June 30, 2018 compared to \$996 million for the prior year period. Operating income at our domestic resorts decreased \$96 million for the six months ended June 30, 2018, or 10%, compared to the prior year period. The six months ended June 30, 2017 benefited from the NV Energy exit fee modification and the Borgata property tax settlement, as discussed above. Operating income at MGM China was \$101 million for the six months ended June 30, 2018 compared to \$121 million in the prior year period, and was negatively impacted by \$55 million of preopening expenses in the current year period in connection with the opening of MGM Cotai, compared to \$23 million in the prior year period. Depreciation and amortization expense related to certain corporate assets at MGM China of \$83 million is included in corporate in our non-GAAP reconciliations included herein for the six months ended June 30, 2018. Income from unconsolidated affiliates was \$80 million for both the six months ended June 30, 2018 and 2017. See “Operating Results – Income from Unconsolidated Affiliates” for additional information.

Consolidated general and administrative expense increased \$113 million for the six months ended June 30, 2018 compared to the same period in the prior year due to the opening of MGM Cotai and an increase in marketing expense and repairs and maintenance expense at our domestic resorts. The prior year period benefited from the Borgata property tax settlement, as discussed above. Corporate expense, including share-based compensation for corporate employees was \$203 million for the six months ended June 30, 2018, an increase of \$50 million compared to the prior year period, due primarily to expenses related to our corporate brand campaign of \$24 million and the inclusion of MGM China corporate expense of \$11 million. Preopening expense increased to \$86 million for

the current year period from \$36 million in the prior year period due primarily to the opening of MGM Cotai as well as increases related to the MGM Springfield project. Depreciation and amortization expense increased \$71 million for the six months ended June 30, 2018 compared to the same period in the prior year due to the opening of MGM Cotai, partially offset by a decrease at our domestic resorts due to certain assets becoming fully depreciated.

Operating Results – Segment Information

The following table presents detailed consolidated net revenues and Adjusted EBITDA by segment. Management uses Adjusted Property EBITDA as the primary profit measure for its reportable segments. See “Non-GAAP Measures” for additional information:

Food and beverage revenue at our domestic resorts decreased 3% for the six months ended June 30, 2018 compared to the same period in the prior year primarily driven by disruption related to the rebranding at Park MGM and closure of several outlets at our Las Vegas Strip resorts.

Adjusted Property EBITDA at our domestic resorts decreased 5% to \$626 million during the three months ended June 30, 2018 compared to the prior year quarter. The decrease is reflective of disruption related to the rebranding of Park MGM as well as the prior year quarter benefit of the Borgata property tax settlement, as discussed above. Adjusted Property EBITDA margin was 28.9% for the three months ended June 30, 2018, a 227 basis point decrease compared to the prior year quarter.

Adjusted Property EBITDA at our domestic resorts decreased 5% to \$1.2 billion during the six months ended June 30, 2018 compared to the prior year period. The decrease is reflective of disruption related to the rebranding of Park MGM as well as the prior year quarter benefit of the Borgata property tax settlement and an increase in general and administrative expenses, as discussed above. Adjusted Property EBITDA margin was 29.1% for the six months ended June 30, 2018, a 170 basis point decrease compared to the same period in the prior year.

For the three months ended June 30, 2018, net revenues for MGM China increased 32% compared to the prior year quarter, and benefited from the opening of MGM Cotai, which contributed \$185 million of net revenues. Main floor table games win increased 42% compared to the prior year quarter due to the opening of MGM Cotai. VIP table games win decreased 7% compared to the prior year quarter due primarily to a decrease in the VIP win percentage to 2.3% in the current quarter, partially offset by a 19% increase in turnover predominantly at MGM Macau.

For the six months ended June 30, 2018, net revenues for MGM China increased 29% compared to the same period in the prior year, due primarily to the opening of MGM Cotai, which contributed \$270 million of net revenues. Main floor table games win increased 30% compared to the prior year period due to the opening of MGM Cotai. VIP table games win increased 10% compared to the prior year period due primarily to a 23% increase in turnover predominantly at MGM Macau partially offset by a decrease in the VIP win percentage to 2.8% in the current year period.

MGM China's Adjusted Property EBITDA for the three months ended June 30, 2018 and 2017 was \$120 million and \$119 million, respectively. Adjusted Property EBITDA margin decreased 669 basis points to 21.4% in the current year quarter from 28.0% in the prior year quarter predominantly due to MGM Cotai, which has recently opened and not yet attained a level of normalized business operations, as well as a decrease in casino margin at MGM Macau due to a decrease in both main floor table games and VIP table games win percentage. Excluding license fees of \$10 million in the current year quarter and \$8 million in the prior year quarter, Adjusted Property EBITDA increased 2%.

MGM China's Adjusted Property EBITDA for the six months ended June 30, 2018 and 2017 was \$272 million and \$264 million, respectively. Adjusted Property EBITDA margin decreased 589 basis points to 23.5% in the current year period from 29.4% in the prior year period predominantly due to MGM Cotai and a decrease in casino margin, as discussed above. Excluding license fees of \$20 million in the current year period and \$17 million in the prior year period, Adjusted Property EBITDA increased 4%.

Corporate and other. Corporate and other revenue includes revenue from corporate operations, management services and reimbursed costs revenue primarily related to our CityCenter management agreement. Corporate and other Adjusted EBITDA for the three and six months ended June 30, 2018 decreased compared to the same periods in the prior year due to an increase in corporate expense as described in "Summary Operating Results". See below for additional discussion of our share of operating results from unconsolidated affiliates.

Operating Results – Income from Unconsolidated Affiliates

The following table summarizes information related to our income from unconsolidated affiliates:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2017		2017	
	(In thousands)			
CityCenter	\$46,070	\$37,702	\$74,062	\$75,084
Other	1,870	2,937	5,644	5,321
	\$47,940	\$40,639	\$79,706	\$80,405

Our share of CityCenter's operating income, including certain basis difference adjustments, for the three months ended June 30, 2018 was \$46 million, compared to \$38 million in the prior year quarter and benefited from increases in casino and non-casino revenues. At Aria, table games win increased 20%, due to an 11% increase in table games drop and an increase in table games hold percentage to 29.1% in the current year quarter compared to 26.8% in the prior year quarter. Aria's slots win increased 12% from the prior year quarter due primarily to a 10% increase in volume. REVPAR increased by 5% at Aria and Vdara, respectively, which led to a 6% increase in CityCenter's rooms revenue in the current quarter compared to the prior year quarter.

Our share of CityCenter's operating income, including certain basis difference adjustments, for the six months ended June 30, 2018 was \$74 million, compared to \$75 million in the prior year period which included a benefit of \$4 million of NV Energy exit fee modification in the prior period. The current year period benefited from increases in casino and non-casino revenues compared to the prior year period. At Aria, table games win increased 8% due to a 13% increase in table games drop, partially offset by a decrease in table games hold percentage to 24.9% in the current year period compared to 26.2% in the prior year period. Aria's slots win increased 3% due to a 9% increase in slot volume. REVPAR increased by 2% and 3% at Aria and Vdara, respectively, which led to a 3% increase in CityCenter's rooms revenue the six months ended June 30, 2018 compared to the prior year period.

Non-operating Results

Interest Expense

Gross interest expense for the three months ended June 30, 2018 decreased \$4 million compared to the prior year period due to a decrease in amortization of debt issuance costs. Gross interest expense for the six months ended June

30, 2018 decreased \$11 million compared to the prior year period due to a decrease in amortization of debt issuance costs and a decrease in the average debt outstanding for both our senior notes and our senior credit facilities. Capitalized interest was \$14 million and \$37 million during the three and six months ended June 30, 2018 compared to \$25 million and \$50 million during the three and six months ended June 30, 2017, respectively. The decrease in capitalized interest was due primarily to the substantial completion of MGM Cotai in February 2018, partially offset by an increase related to the MGM Springfield project during the six months ended June 30, 2018.

Income Taxes

Our effective tax rate for the three months ended June 30, 2018 was a provision of 14.4% compared to a provision of 23.5% in the prior year quarter. Our effective tax rate for the six months ended June 30, 2018 was a benefit of 17.9% compared to a provision of 21.6% in the prior year period. The effective tax rate for the three months ended June 30, 2018 was favorably impacted by the Tax Act's reduction of the U.S. corporate tax rate from 35% to 21%. The effective tax rate for the six months ended June 30, 2018 was favorably impacted by the reduction in the U.S. corporate tax rate as well as income tax benefits recorded in the six-month period for a measurement period adjustment for the Tax Act and the reversal of Macau shareholder dividend tax accruals resulting from extending the annual fee arrangement. The annual effective tax rate calculation for all periods is impacted by assumptions made regarding projected foreign tax credit usage and valuation allowance. See Note 5 in the accompanying consolidated financial statements for further discussion.

Non-GAAP Measures

“Adjusted EBITDA” is earnings before interest and other non-operating income (expense), taxes, depreciation and amortization, preopening and start-up expenses, NV Energy exit expense and property transactions, net. “Adjusted Property EBITDA” is Adjusted EBITDA before corporate expense and stock compensation expense, which are not allocated to each property. “Adjusted Property EBITDA margin” is Adjusted Property EBITDA divided by net revenues. Adjusted EBITDA information is presented solely as a supplemental disclosure to reported GAAP measures because management believes these measures are 1) widely used measures of operating performance in the gaming industry, and 2) a principal basis for valuation of gaming companies.

Management believes that while items excluded from Adjusted EBITDA, Adjusted Property EBITDA, and Adjusted Property EBITDA margin may be recurring in nature and should not be disregarded in evaluation of the Company's earnings performance, it is useful to exclude such items when analyzing current results and trends compared to other periods because these items can vary significantly depending on specific underlying transactions or events that may not be comparable between the periods being presented. Also, management believes excluded items may not relate specifically to current operating trends or be indicative of future results. For example, preopening and start-up expenses will be significantly different in periods when the Company is developing and constructing a major expansion project and will depend on where the current period lies within the development cycle, as well as the size and scope of the project(s). Property transactions, net includes normal recurring disposals, gains and losses on sales of assets related to specific assets within the Company's resorts, but also includes gains or losses on sales of an entire operating resort or a group of resorts and impairment charges on entire asset groups or investments in unconsolidated affiliates, which may not be comparable period over period. In addition, capital allocation, tax planning, financing and stock compensation awards are all managed at the corporate level. Therefore, management uses Adjusted Property EBITDA as the primary measure of the Company's operating resorts' performance.

Adjusted EBITDA, Adjusted Property EBITDA, and Adjusted Property EBITDA margin should not be construed as alternatives to operating income or net income, as indicators of our performance; or as alternatives to cash flows from operating activities, as measures of liquidity; or as any other measure determined in accordance with generally accepted accounting principles. We have significant uses of cash flows, including capital expenditures, interest payments, taxes and debt principal repayments, which are not reflected in Adjusted EBITDA, Adjusted Property EBITDA, or Adjusted Property EBITDA margin. Also, other companies in the gaming and hospitality industries that report Adjusted EBITDA, Adjusted Property EBITDA, or Adjusted Property EBITDA margin information may calculate Adjusted EBITDA or Adjusted Property EBITDA in a different manner.

Liquidity and Capital Resources

Cash Flows

Our cash and cash equivalents at June 30, 2018 were \$1.3 billion, which included \$448 million at MGM China and \$290 million at MGP.

Operating activities. Trends in our operating cash flows tend to follow trends in operating income, excluding non-cash charges, but can be affected by changes in working capital, the timing of significant tax payments or refunds, and by earnings and distributions from unconsolidated affiliates. Cash provided by operating activities was \$1.1 billion for the six months ended June 30, 2018 compared to cash provided by operating activities of \$939 million in the prior year period. The current year period was positively affected by changes in working capital due primarily to an increase in outstanding chip liability related to gaming promoters at MGM China while the prior year period was

negatively affected by changes in working capital related to gaming deposits and payroll liabilities at domestic resorts. In addition, cash paid for interest decreased compared to the prior year period. Cash paid for taxes decreased compared to the prior year period primarily as a result of the Tax Act. This was partially offset by a decrease in operating income at our domestic resorts and MGM China during the six months ended June 30, 2018 compared to the prior year period.

Investing activities. We made capital expenditures of \$862 million for the six months ended June 30, 2018, of which \$260 million related to MGM China, excluding development fees and capitalized interest on development fees eliminated in consolidation. Capital expenditures at MGM China included \$239 million related to the construction of MGM Cotai and \$21 million related to projects at MGM Macau. Capital expenditures at our domestic resorts and corporate entities of \$602 million included \$201 million related to the construction of MGM Springfield, \$110 million related to the Park MGM rebranding project, \$58 million related to a deposit for the purchase of an airplane, as well as expenditures relating to the expansion of the convention center at MGM Grand Las Vegas and various room, restaurant, and entertainment venue remodels. Most of the costs capitalized at our domestic resorts during the six months ended June 30, 2018 related to construction materials, furniture and fixtures, and external labor costs.

We made capital expenditures of \$873 million for the six months ended June 30, 2017, of which \$505 million related to MGM China, excluding development fees and capitalized interest on development fees eliminated in consolidation. Capital expenditures at MGM China included \$486 million related to the construction of MGM Cotai and \$19 million related to projects at MGM Macau.

Capital expenditures at our domestic resorts and corporate entities of \$367 million included \$126 million related to MGM National Harbor, \$91 million related to the construction of MGM Springfield, and \$50 million related to the Monte Carlo rebranding as well as various room remodels, construction of the parking garage at Excalibur, a waterpark at Circus Circus, and restaurant and entertainment venue remodels. Most of the costs capitalized at our domestic resorts during the six months ended June 30, 2017 related to construction materials, furniture and fixtures, and external labor costs.

Distributions from unconsolidated affiliates for the six months ended June 30, 2018 consisted of our \$200 million share of a \$400 million dividend paid by CityCenter in May 2018. Distributions from unconsolidated affiliates for the six months ended June 30, 2017 consisted of our \$300 million share of a \$600 million dividend paid by CityCenter in April 2017.

Financing activities. In the six months ended June 30, 2018, we borrowed net debt of \$637 million which consisted of the issuance of \$1.0 billion 5.750% senior notes due 2025 and \$92 million of net borrowings on the MGM China credit facility. The issuance of debt was primarily offset by \$327 million of scheduled amortization payments on the term loan facilities and \$135 million of payments on our senior secured revolving credit facility. Additionally, we paid \$65 million of debt issuance costs related to the amendments of the Operating Partnership's senior credit facility in March and June 2018, the amendment of MGM China's credit facility in June 2018 and the issuance of the \$1.0 billion 5.750% senior notes.

In the six months ended June 30, 2017, we borrowed net debt of \$205 million which primarily consisted of draws on MGM China's credit facility and amortization payments on the term loan facilities, and we paid \$5 million of debt issuance costs related to the amendments to the MGM China and MGP credit facilities.

We repurchased approximately 29 million shares for an aggregate amount of \$957 million during the six months ended June 30, 2018.

As discussed further below, we paid dividends to common shareholders and made distributions to noncontrolling interests in each of 2018 and 2017.

Other Factors Affecting Liquidity

Anticipated uses of cash. We have significant outstanding debt and contractual obligations in addition to planned capital expenditures. At June 30, 2018, we had \$13.6 billion in principal amount of indebtedness, including \$231 million of borrowings outstanding under our \$1.5 billion senior secured credit facility, \$2.1 billion outstanding under the \$3.6 billion Operating Partnership credit facility, and \$2.1 billion outstanding under the \$3.0 billion MGM China credit facility. We have an estimated \$791 million of cash interest payments based on current outstanding debt and applicable interest rates within the next twelve months. We expect to meet our debt maturities and planned capital expenditure requirements with future anticipated operating cash flows, cash and cash equivalents, and available borrowings under our credit facilities.

In addition, we have made significant investments through June 30, 2018 and we expect to make capital investments as described below during the remainder of 2018.

- Approximately \$290 million in capital expenditures at our domestic resorts and corporate entities, excluding MGM Springfield;
- Approximately \$270 million on the MGM Cotai project, excluding capitalized interest;
- Approximately \$200 million on the MGM Springfield project, excluding capitalized interest and land-related costs; and
 - Approximately \$35 million in other capital improvements at MGM China.

Our capital expenditures fluctuate depending on our decisions with respect to strategic capital investments in new or existing resorts and the timing of capital investments to maintain the quality of our resorts, the amounts of which can vary depending on timing of larger remodel projects related to our public spaces and hotel rooms. Future capital expenditures could vary from our current expectations depending on the progress of our development efforts and the structure of our ownership interests in future developments.

MGM Resorts International stock repurchase program. In May 2018, our Board of Directors authorized a \$2.0 billion stock repurchase program and completed the previously announced \$1.0 billion stock repurchase program. Under each stock repurchase program, we may repurchase shares from time to time in the open market or in privately negotiated agreements. The timing, volume and nature of stock repurchases will be at the sole discretion of management, dependent on market conditions, applicable securities laws, and other factors, and may be suspended or discontinued at any time. Repurchased shares are retired. The remaining availability under the \$2.0 billion stock repurchase program was approximately \$1.7 billion as of June 30, 2018.

MGM Resorts International dividends. During the six months ended June 30, 2018 we paid dividends each quarter of \$0.12 per share, totaling \$133 million for the period. On August 2, 2018, the Company's Board of Directors approved a quarterly dividend of \$0.12 per share that will be payable on September 14, 2018 to holders of record on September 10, 2018. Our intention is to pay a comparable quarterly dividend in each quarter of 2018, subject to our operating results, cash requirements and financial conditions, any applicable provisions of state law that may limit the amount of funds available to us, and compliance with covenants and financial ratios related to existing or future agreements governing the indebtedness at our subsidiaries and any limitations in other agreements such subsidiaries may have with third parties. During the six months ended June 30, 2017, we paid dividends each quarter of \$0.11 per share, totaling \$126 million for the period.

Operating Partnership distributions and MGP dividends. The Operating Partnership paid the following distributions to its partnership unit holders during the six months ended June 30, 2018 and 2017:

- \$112 million distribution paid in April 2018, of which the Company received \$82 million and MGP received \$30 million, which MGP concurrently paid as a dividend to its Class A shareholders;
- \$112 million distribution paid in January 2018, of which the Company received \$82 million and MGP received \$30 million, which MGP concurrently paid as a dividend to its Class A shareholders;
- \$94 million distribution paid in April 2017, of which the Company received \$72 million and MGP received \$22 million, which MGP concurrently paid as a dividend to its Class A shareholders; and
- \$94 million distribution paid in March 2017, of which the Company received \$72 million and MGP received \$22 million, which MGP concurrently paid as a dividend to its Class A shareholders.

Additionally, the Operating Partnership paid a \$114 million distribution in July 2018, of which the Company received \$84 million and MGP received \$30 million, which MGP concurrently paid as a dividend to its Class A shareholders.

MGM China dividends. In June 2018, MGM China paid the 2017 final dividend of \$47 million, of which the Company received \$26 million and noncontrolling interests received \$21 million. In June 2017, MGM China paid the 2016 final dividend of \$78 million, of which the Company received \$44 million and noncontrolling interests received \$34 million.

Critical Accounting Policies and Estimates

A complete discussion of our critical accounting policies and estimates is included in our Form 10-K for the fiscal year ended December 31, 2017. There have been no significant changes in our critical accounting policies and estimates since year end.

Market Risk

In addition to the inherent risks associated with our normal operations, we are also exposed to additional market risks. Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates. Our primary exposure to market risk is interest rate risk associated with our variable rate long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term fixed rate borrowings and short-term borrowings under our bank credit facilities and by utilizing interest rate swap agreements that provide for a fixed interest payment on the Operating Partnership's term loan B facility. A change in interest rates generally does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures. We do not hold or issue financial instruments for trading purposes and do not enter into derivative transactions that would be considered speculative positions.

As of June 30, 2018, variable rate borrowings represented approximately 23% of our total borrowings after giving effect to the \$500 million and \$700 million notional amount Operating Partnership interest rate swaps with weighted average fixed rates that we pay 1.764% and 1.901%, respectively. The following table provides additional information about our gross long-term debt subject to changes in interest rates excluding the effect of the Operating Partnership interest rate swaps discussed above:

	Debt maturing in						Total	Fair Value
	2018	2019	2020	2021	2022	Thereafter		June 30, 2018
	(In millions)							
Fixed-rate	\$—	\$850	\$1,500	\$1,250	\$1,000	\$4,651	\$9,251	\$9,435
Average interest rate	N/A	8.6 %	6.3 %	6.6 %	7.8 %	5.4 %	6.3 %	
Variable rate	\$214	\$432	\$435	\$623	\$720	\$1,971	\$4,395	\$4,363
Average interest rate	4.5 %	4.5 %	4.5 %	4.5 %	4.5 %	4.1 %	4.3 %	

In addition to the risk associated with our variable interest rate debt, we are also exposed to risks related to changes in foreign currency exchange rates, mainly related to MGM China and to our operations at MGM Macau and MGM Cotai. While recent fluctuations in exchange rates have not been significant, potential changes in policy by governments or fluctuations in the economies of the United States, China, Macau or Hong Kong could cause variability in these exchange rates. We cannot assure you that the Hong Kong dollar will continue to be pegged to the U.S. dollar or the current peg rate for the Hong Kong dollar will remain at the same level. The possible changes to the peg of the Hong Kong dollar may result in severe fluctuations in the exchange rate thereof. As of June 30, 2018, a 1% increase in the Hong Kong dollar (the functional currency of MGM China) to the U.S. dollar exchange rate would impact the carrying value of our cash balance by \$4 million and a 1% decrease in the exchange rate would impact the carrying value of our debt balance by \$21 million.

Cautionary Statement Concerning Forward-Looking Statements

This Form 10-Q contains “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as “anticipates,” “intends,” “plans,” “seeks,” “believes,” “estimates,” “expects,” “will,” “may” and similar references to future periods. Examples of forward-looking statements include, but are not limited to, statements we make regarding expected market growth in Macau, our ability to generate significant cash flow and execute on ongoing and future projects, amounts we will spend in capital expenditures and investments, the opening of strategic resort developments, the estimated costs and components associated with those developments, our expectations with respect to future cash dividends on our common stock, dividends and distributions we will receive from MGM China, the Operating Partnership or CityCenter and amounts projected to be realized as deferred tax assets. The foregoing is not a complete list of all forward-looking statements we make.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks, and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Therefore, we caution you against relying on any of these forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, regional, national or global political, economic, business, competitive, market, and regulatory conditions and the following:

- our substantial indebtedness and significant financial commitments, including the fixed component of our rent payments to MGP, could adversely affect our development options and financial results and impact our ability to satisfy our obligations;
- current and future economic, capital and credit market conditions could adversely affect our ability to service or refinance our indebtedness and to make planned expenditures;
- restrictions and limitations in the agreements governing our senior credit facility and other senior indebtedness could significantly affect our ability to operate our business, as well as significantly affect our liquidity;
- the fact that we are required to pay a significant portion of our cash flows as fixed and percentage rent under the master lease, which could adversely affect our ability to fund our operations and growth, service our indebtedness and limit our ability to react to competitive and economic changes;

38

significant competition we face with respect to destination travel locations generally and with respect to our peers in the industries in which we compete;

the fact that our businesses are subject to extensive regulation and the cost of compliance or failure to comply with such regulations could adversely affect our business;

- the impact on our business of economic and market conditions in the jurisdictions in which we operate and in the locations in which our customers reside;

our ability to sustain continuous improvement efforts and achieve anticipated results;

our ability to pay ongoing regular dividends is subject to the discretion of our board of directors and certain other limitations;

a significant number of our domestic gaming facilities are leased and could experience risks associated with leased property, including risks relating to lease termination, lease extensions, charges and our relationship with the lessor, which could have a material adverse effect on our business, financial position or results of operations;

financial, operational, regulatory or other potential challenges that may arise with respect to MGP, as our sole lessor for a significant portion of our properties, may adversely impair our operations;

the fact that MGP has adopted a policy under which certain transactions with us, including transactions involving consideration in excess of \$25 million, must be approved in accordance with certain specified procedures;

restrictions on our ability to have any interest or involvement in gaming businesses in China, Macau, Hong Kong and Taiwan, other than through MGM China;

the ability of the Macau government to terminate MGM Grand Paradise's subconcession under certain circumstances without compensating MGM Grand Paradise, exercise its redemption right with respect to the subconcession, or refuse to grant MGM Grand Paradise an extension of the subconcession in 2020;

the dependence of MGM Grand Paradise upon gaming promoters for a significant portion of gaming revenues in Macau;

changes to fiscal and tax policies;

our ability to recognize our foreign tax credit deferred tax asset and the variability of the valuation allowance we may apply against such deferred tax asset;

extreme weather conditions or climate change may cause property damage or interrupt business;

the concentration of a majority of our major gaming resorts on the Las Vegas Strip;

the fact that we extend credit to a large portion of our customers and we may not be able to collect such gaming receivables;

the potential occurrence of impairments to goodwill, indefinite-lived intangible assets or long-lived assets which could negatively affect future profits;

the susceptibility of leisure and business travel, especially travel by air, to global geopolitical events, such as terrorist attacks, other acts of violence or acts of war or hostility;

the fact that co-investing in properties, including our investment in CityCenter, decreases our ability to manage risk;

the fact that future construction, development, or expansion projects will be subject to significant development and construction risks;

our ability to commence operations at MGM Springfield on the required timeline;

- the fact that our insurance coverage may not be adequate to cover all possible losses that our properties could suffer, our insurance costs may increase and we may not be able to obtain similar insurance coverage in the future;
- the fact that a failure to protect our trademarks could have a negative impact on the value of our brand names and adversely affect our business;
- the risks associated with doing business outside of the United States and the impact of any potential violations of the Foreign Corrupt Practices Act or other similar anti-corruption laws;
 - risks related to pending claims that have been, or future claims that may be brought against us;
- the fact that a significant portion of our labor force is covered by collective bargaining agreements;
- the sensitivity of our business to energy prices and a rise in energy prices could harm our operating results;
- the potential that failure to maintain the integrity of our computer systems and internal customer information could result in damage to our reputation and/or subject us to fines, payment of damages, lawsuits or other restrictions on our use or transfer of data;
- the potential reputational harm as a result of increased scrutiny related to our corporate social responsibility efforts;
- the potential failure of future efforts to expand through investments in other businesses and properties or through alliances or acquisitions, such as the Empire City acquisition, or to divest some of our properties and other assets;
- increases in gaming taxes and fees in the jurisdictions in which we operate; and
- the potential for conflicts of interest to arise because certain of our directors and officers are also directors of MGM China, which is a publicly traded company listed on the Hong Kong Stock Exchange.

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law. If we update one or more forward-looking statements, no inference should be made that we will make additional updates with respect to those or other forward-looking statements.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility and are not endorsed by us.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We incorporate by reference the information appearing under “Market Risk” in Part I, Item 2 of this Form 10-Q.

Item 4. Controls and Procedures

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (“the Exchange Act”)) were effective as of June 30, 2018 to provide

reasonable assurance that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and regulations and to provide that such information is accumulated and communicated to management to allow timely decisions regarding required disclosures. This conclusion is based on an evaluation as required by Rules 13a-15(b) and 15d-15(b) under the Exchange Act conducted under the supervision and participation of the principal executive officer and principal financial officer along with company management.

During the quarter ended June 30, 2018, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

October 1 litigation. We and/or certain of our subsidiaries have been named as defendants in a number of lawsuits related to the October 1, 2017 shooting in Las Vegas. The matters involve in large degree the same legal and factual issues, in each case being filed on behalf of individuals who are seeking damages for emotional distress, physical injury, medical expenses, economic damages and/or wrongful death based on assertions that we and/or certain of our subsidiaries were negligent. We have also received letters from attorneys purporting to represent persons with claims related to the October 1, 2017 shooting. Lawsuits were first filed in October 2017 and include actions filed by multiple individuals in the District Court of Clark County, Nevada and in the Superior Court of Los Angeles County, California. Some of the original actions have been voluntarily dismissed, and plaintiffs' counsel indicate they anticipate re-filing the lawsuits in similar form. In June 2018, we have removed to federal court all actions that remained pending in California and Nevada state courts following the voluntary dismissals. Motions to remand have been filed in several cases, and we anticipate that there may be additional motions to remand filed in the future. We have also initiated declaratory relief actions against individuals who had sued or stated an intent to sue in federal courts in various districts. Additional lawsuits related to this incident may be filed in the future.

We are currently unable to reliably predict the developments in, outcome of, and economic costs and other consequences of pending or future litigation related to this matter. We will continue to investigate the factual and legal defenses, and evaluate these matters based on subsequent events, new information and future circumstances. We intend to defend against these lawsuits and ultimately believe we should prevail, but litigation of this type is inherently unpredictable. Although there are significant procedural, factual and legal issues to be resolved that could significantly affect our belief as to the possibility of liability, we currently believe that it is reasonably possible that we could incur liability in connection with certain of these lawsuits. The foregoing determination was made in accordance with generally accepted accounting principles, as codified in Accounting Standards Codification ("ASC") 450-20, and is not an admission of any liability on the part of us or any of our affiliates. Given that these cases are in the early stages and in light of the uncertainties surrounding them, we do not currently possess sufficient information to determine a range of reasonably possible liability. In the event we incur any liability, we believe it is unlikely we would incur losses in connection with these claims in excess of our insurance coverage. In addition, our general liability insurance coverage provides, as part of the contractual "duty to defend", payment of legal fees and associated costs incurred to defend covered lawsuits that are filed arising from the October 1, 2017 shooting in Las Vegas. Payment of such fees and costs is in addition to (and not limited by) the limits of the insurance policies and does not erode the total liability coverage available. The insurance carriers have not expressed any reservation of rights or coverage defenses that indicate they dispute coverage under the applicable policies.

Other. We and our subsidiaries are also defendants in various other lawsuits, most of which relate to routine matters incidental to our business. We do not believe that the outcome of such pending litigation, considered in the aggregate, will have a material adverse effect on us.

Item 1A. Risk Factors

A description of certain factors that may affect our future results and risk factors is set forth in our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no material changes to those factors previously disclosed in our 2017 Annual Report on Form 10-K, except as discussed below.

Risks Related to Our Business

We may not be able to sustain our continuous improvement efforts. We have initiatives for sustained growth and margin enhancement which are focused on improving our data and digital technology, pricing strategy, and our guests' experience to increase cash flow and improve margins. While we believe these initiatives will result in financial benefit, our optimization efforts may fail to achieve expected results or we may not be able to sustain our historic efforts to produce continuous improvements.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about share repurchases made by the Company of its common stock during the quarter ended June 30, 2018:
