FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: September 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number: 001-33280

HFF, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State of Incorporation)

51-0610340
(I.R.S. Employer Identification No.)

One Victory Park
2323 Victory Avenue, Suite 1200
Dallas, Texas 75219
(Address of Principal Executive Offices) (Zip code)

(214) 265-0880

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Edgar Filing: HFF, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller Reporting Company
	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

Number of shares of Class A common stock, par value \$0.01 per share, of the registrant outstanding as of October 29, 2018 was 39,116,745 shares.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. The forward-looking statements reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “continues,” “may,” “will,” “should,” “seeks,” “approximately,” “predicts,” “intends,” “plans,” “estimates,” or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include, but are not limited to, those described under the caption “Risk Factors” in our Annual Report on Form 10-K and this Quarterly Report on Form 10-Q. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this Quarterly Report on Form 10-Q and our other periodic filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by securities laws.

SPECIAL NOTE REGARDING THE REGISTRANT

In connection with our initial public offering in February 2007, we effected a reorganization of our business into a holding company holding the partnership interests in Holliday Fenoglio Fowler, L.P. and HFF Securities L.P. (together, the “Operating Partnerships”), held through the wholly owned subsidiary HFF Partnership Holdings, LLC, a Delaware limited liability company, and all of the outstanding shares of Holliday GP Corp. (“Holliday GP”), the sole general partner of each of the Operating Partnerships. The transactions that occurred in connection with the initial public offering and reorganization are referred to as the “Reorganization Transactions.”

Unless the context otherwise requires, references to (1) “HFF Holdings” refer solely to HFF Holdings LLC, a Delaware limited liability company that was previously the holding company for our consolidated subsidiaries, and not to any of its subsidiaries, (2) “HFF LP” refer to Holliday Fenoglio Fowler, L.P., a Texas limited partnership, (3) “HFF Securities” refer to HFF Securities L.P., a Delaware limited partnership and registered broker-dealer, (4) “Holliday GP” refer to Holliday GP Corp., a Delaware corporation and the general partner of HFF LP and HFF Securities, (5) “HoldCo LLC” refer to HFF Partnership Holdings LLC, a Delaware limited liability company and a wholly-owned subsidiary of HFF, Inc., (6) “Holdings Sub” refer to HFF LP Acquisition LLC, a Delaware limited liability company and wholly-owned subsidiary of HFF Holdings, (7) “HFF Real Estate” refer to HFF Real Estate Limited, a company incorporated in England and Wales and (8) “HFF Securities Limited” refer to HFF Securities Limited, a company incorporated in England and Wales (collectively, with HFF Real Estate, the “UK Subsidiaries” and, with HFF Securities, the “Securities Subsidiaries”). Except where specifically noted, references in this Quarterly Report on Form 10-Q to “the Company,” “we” or “us” mean HFF, Inc., a Delaware corporation and its consolidated subsidiaries after giving effect to the Reorganization Transactions.

HFF, Inc.

Notes to Consolidated Financial Statements

1. Organization and Basis of Presentation

Organization

HFF, Inc., a Delaware corporation (the “Company”), through its wholly-owned subsidiaries, Holliday Fenoglio Fowler, L.P., a Texas limited partnership (“HFF LP”), HFF Securities L.P., a Delaware limited partnership and registered broker-dealer (“HFF Securities” and together with HFF LP, the “Operating Partnerships”), HFF Real Estate Limited and HFF Securities Limited, in the United Kingdom, is a commercial real estate financial intermediary providing commercial real estate and capital markets services including debt placement, investment advisory, equity placements, investment banking and advisory services, loan sales and loan sale advisory services, commercial loan servicing, and capital markets advice and maintains offices in 25 cities in the United States and effective January 17, 2017, one office in London, United Kingdom. The Company’s operations are impacted by the availability of equity and debt as well as credit and liquidity in the domestic and global capital markets especially in the commercial real estate sector. Significant disruptions or changes in domestic and global capital market flows, as well as credit and liquidity issues in the global and domestic capital markets, regardless of their duration, could adversely affect the supply and demand for capital from investors for commercial real estate investments which could have a significant impact on all of the Company’s capital market services revenues.

Initial Public Offering and Reorganization

The Company completed its initial public offering (“IPO”) and the Company’s Class A Common Stock began trading on the New York Stock Exchange under the symbol “HF” in the first quarter of 2007. The proceeds of the initial public offering, including the exercise of the underwriter’s option to purchase additional shares, were used to purchase from HFF Holdings LLC, a Delaware limited liability company (“HFF Holdings”), all of the shares of Holliday GP Corp. (“Holliday GP”) and purchase from HFF Holdings partnership units of the Operating Partnerships (including partnership units in the Operating Partnerships held by Holliday GP). HFF Holdings used a portion of its proceeds to repay all outstanding indebtedness under HFF LP’s credit agreement. Accordingly, the Company did not retain any of the proceeds from the initial public offering.

In addition to cash received for its sale of all of the shares of Holliday GP and approximately 45% of partnership units of each of the Operating Partnerships (including partnership units in the Operating Partnerships held by Holliday GP), HFF Holdings also received, through the issuance of one share of HFF, Inc.’s Class B common stock to HFF Holdings, an exchange right that permitted, subject to certain restrictions, HFF Holdings to exchange interests in the Operating Partnerships for shares of (i) the Company’s Class A common stock (the “Exchange Right”) and (ii) rights under a tax receivable agreement between the Company and HFF Holdings (the “TRA”). See Notes 16 and 17 for further discussion of the tax receivable agreement.

As a result of the reorganization in connection with the IPO, the Company became a holding company through a series of transactions pursuant to a sale and purchase agreement. As a result of the IPO and reorganization, the Company’s sole assets were partnership interests in Operating Partnerships (that are held through its wholly-owned subsidiary HFF Partnership Holdings, LLC, a Delaware limited liability company (“Partnership Holdings”) and all of the shares of Holliday GP, the sole general partner of each of the Operating Partnerships. The transactions that occurred in connection with the IPO and reorganization are referred to as the “Reorganization Transactions.”

The Reorganization Transactions were treated, for financial reporting purposes, as a reorganization of entities under common control. As of August 31, 2012, HFF Holdings had utilized its Exchange Right to exchange all of its remaining interests in the Operating Partnerships and therefore the Company, through its wholly-owned subsidiaries, became and continues to be the sole equity holder of the Operating Partnerships.

Basis of Presentation

The accompanying consolidated financial statements of the Company include the accounts of HFF LP, HFF Securities, HFF Real Estate Limited and HFF Securities Limited, as well as the Company's additional wholly-owned subsidiaries, Holliday GP, Partnership Holdings and HFF InvestCo LLC. All significant intercompany accounts and transactions have been eliminated.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" and subsequently issued a series of amendments to the new revenue standard ("Topic 606"). Topic 606 supersedes the revenue recognition requirements in FASB ASC Topic 605, "Revenue Recognition," and most industry-specific guidance. Topic 606 implements a five-step model for determining when and how revenue is recognized along with expanded disclosure requirements. Under the model, an entity will be required to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. Topic 606 also permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method) or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method).

The Company adopted the requirements of the new standard on January 1, 2018, using the modified retrospective approach. Under this method, the Company could elect to apply the cumulative effect method to either all contracts as of the date of initial application or only to contracts that are not complete as of that date. The Company elected to apply the modified retrospective method to contracts that are not complete as of the date of initial application. Comparative information has not been adjusted and continues to be reported under the prior revenue recognition accounting guidance. The Company recorded a \$1.3 million cumulative effect adjustment to retained earnings related to the adoption of the new standard. As a result of the adoption of Topic 606, the Company now estimates the variable consideration associated with equity capital raising fees and recognizes the revenue once the constraint on revenue is lifted, which generally occurs once capital is committed. For additional information regarding the adoption of Topic 606, refer to Note 2 within the notes to the financial statements.

In February 2016, the FASB issued new guidance on the accounting for leases. This new guidance will require that a lessee recognize assets and liabilities on the balance sheet for all leases with a lease term of more than twelve months, with the result being the recognition of a right of use asset and a lease liability. The new lease accounting requirements are effective for the Company's 2019 fiscal year with a modified retrospective transition approach required, with early adoption permitted. The Company has completed the evaluation of its existing lease portfolio, including accumulating all of the necessary information required to properly account for the leases under the new standard and is now working toward implementation of the new standard. The Company continues to evaluate additional changes to the processes and internal controls to ensure the standard's reporting disclosure requirements are met. The Company is currently evaluating the impact of the new guidance on its consolidated financial statements.

In June 2016, the FASB issued its final standard on measurement of credit losses on financial instruments. This standard, issued as ASU 2016-13, requires that an entity measure impairment of certain financial instruments, including trade receivables, based on expected losses rather than incurred losses. This update is effective for annual and interim financial statement periods beginning after December 15, 2019, with early adoption permitted for financial statement periods beginning after December 15, 2018. The Company is currently evaluating this standard to determine the impact of adoption on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, "Stock Compensation (Topic 718): Scope of Modification Accounting". ASU 2017-09 clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017 with early adoption permitted. The adoption of ASU 2017-09 had no impact on the Company's consolidated financial statements.

In June 2018, the FASB issued ASU 2018-07 “Stock Compensation (Topic 718): Improvements to Nonemployee Share-based Payment Accounting”, to simplify the accounting for share-based payments granted to nonemployees by aligning the accounting with the requirements for employee share-based compensation. ASU 2018-07 is effective for the Company beginning in fiscal 2019, including interim periods within that fiscal year. The Company does not expect the adoption of this guidance to have a material impact on the Company's consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13 “Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for the Fair Value Measurement. The update eliminates the disclosure requirements associated with (a) the amount and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, (b) policies related to the timing and transfers between levels of the fair value hierarchy and (c) the valuation processes for Level 3 fair value measurements. ASU 2018-13 will require disclosures related to the range and weighted averages used to develop significant unobservable inputs for Level 3 fair value measurements. ASU 2018-13 is effective for the Company on January 1, 2020 with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on the Company's consolidated financial statements or disclosures.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

2. Summary of Significant Accounting Policies

These interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information, the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X and should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments consisting of normal and recurring entries considered necessary for a fair presentation of the results for the interim periods presented have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. These estimates are based on information available as of the date of the unaudited consolidated financial statements. Therefore, actual results could differ from those estimates. Furthermore, operating results for the nine months ended September 30, 2018 are not necessarily indicative of the results expected for the year ending December 31, 2018.

Revenue Recognition. Substantially all of the Company’s revenues are derived from capital markets services. These capital markets services revenues are in the form of fees collected from the Company’s clients, usually negotiated on a transaction-by-transaction basis, which includes origination fees, investment advisory fees earned for brokering sales of commercial real estate, loan sales and loan servicing fees. The Company also earns interest on mortgage notes receivable during the period between the origination of the loan and the subsequent sale to Freddie Mac in connection with the Company’s participation in the Freddie Mac Program.

Total Revenues:

Capital markets services revenues. The Company earns its capital markets services revenue through the following activities and sources:

• **Origination fees.** Origination fees are earned through the placement of debt and equity or structured financing for commercial real estate transactions. Fees earned by the Securities Subsidiaries for discretionary and non-discretionary equity capital raises and other debt referral transactions are also included within origination fees in the Company’s consolidated statements of comprehensive income.

• **Investment advisory fees.** The Company earns investment advisory fees by acting as a broker for commercial real estate owners seeking to sell a property or multiple properties or an interest in a property or multiple properties and by providing investment banking advisory services through the Securities Subsidiaries.

• **Loan sales.** The Company generates loan sales fees through assisting its clients in their efforts to sell all or portions of commercial real estate debt notes.

The Company’s contracts are generally negotiated on a transaction-by-transaction basis with a success-based fee awarded upon the satisfaction of the origination, sale, referral, placement or equity raise. The Company’s agreements generally include such success-based fees for services that are performed over time under one performance obligation. The variable consideration associated with the successful outcome remains constrained until the completion of the transaction, generally at the closing of the applicable financing or funding of the transaction. Once the constraint is lifted, revenue is recognized as the Company’s fee agreements do not include terms or conditions that require the Company to perform any service or fulfill any obligation once the transaction closes. The substantial majority of the Company’s transactions are completed within one year and the Company has utilized the practical expedients within

Topic 606 related to financing components and costs of obtaining a contract due to the short-term nature of the contracts.

Loan servicing fees. The Company generates loan servicing fees through the provision of collection, remittance, recordkeeping, reporting and other related loan servicing functions, activities and services for either lenders or borrowers on mortgages placed with third-party lenders.

The revenues associated with loan servicing fees are accounted for in accordance with Topic 860, Transfers and Servicing, whereby the Company recognizes loan servicing revenues at the time services are rendered, provided the loans are current and the debt service payments are made by the borrowers.

Interest on mortgage notes receivable. The Company recognizes interest income on the accrual basis during the holding period based on the contract interest rate in the loan that is to be purchased by Freddie Mac in connection with the Company's

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

participation in the Freddie Mac Multifamily Approved Seller/Servicer for Conventional and Senior Housing Loans program ("Freddie Mac Program"), provided that the debt service is paid by the borrower.

Other. Certain of the Company's fee agreements provide for reimbursement of transaction-related costs which the Company recognizes as other revenue. Reimbursements received from clients for out-of-pocket expenses are characterized as revenue in the consolidated statements of comprehensive income rather than as a reduction of expenses incurred. Because the Company is the primary obligor, has supplier discretion, and bears the credit risk for such expenses, the Company records reimbursement revenue for such out-of-pocket expenses. Reimbursement revenue is recognized over time based upon the measure of progress to completion.

Disaggregation of Revenue

The Company disaggregates its revenue from contracts with customers by its multiple platforms, as the Company believes it best depicts how the nature, amount, timing and uncertainty of the Company's revenue and cash flows are affected by economic factors. The following table provides a reconciliation of the Company's revenue recognized under Topic 606 to the Company's consolidated revenues:

	Three Months Ended	Nine Months Ended
Revenue Category	September 30, 2018	September 30, 2018 ⁽²⁾
Debt placement origination fees	\$ 62,090	\$ 182,178
Equity placement origination fees	14,572	40,998
Investment advisory fees	70,273	179,210
Loan sales	1,105	2,851
Capital Markets Services Revenue recognized under Topic 606	148,040	405,237
Loan servicing fees	8,816	25,668
Capital markets services revenue	156,856	430,905
Interest on mortgage notes receivable	3,315	12,828
Other ⁽¹⁾	1,223	3,010
Total revenue	\$ 161,394	\$ 446,743

(1)- Other revenues are recognized under Topic 606

(2)- The nine months ended September 30, 2018 revenue totals reflect reclassifications of certain revenues in the second quarter of 2018 related to (a) an increase of \$6.6 million in debt placement origination fees and (b) reductions of (i) \$0.9 million in equity placement origination fees, (ii) \$4.6 million in investment sales fees and (iii) \$1.1 million in loan sales.

Firm and Office Profit Participation Plans and Executive Bonus Plan. The Company has a firm profit participation plan, office profit participation plans, and an executive bonus plan (the “Plans”) that each allow for incentive payments to be made, based on the achievement of various performance metrics, either in the form of cash or stock at the election of the Company’s board of directors. The expense associated with the Plans is included within personnel expenses in the consolidated statements of comprehensive income. The expense recorded for these Plans is estimated during the year based on actual results at each interim reporting date and an estimate of future results for the remainder of the year. Based on an accounting policy election and consistent with ASC 718, Compensation - Stock Compensation, the expense associated with the estimated share-based component of the estimated incentive payout is recognized before the grant date of the share-based awards due to the fact that the terms of the Plans have been approved by the Company’s board of directors, the employees of the Company understand the requirements to earn the award, the number of shares is not determined before the grant date and, finally, if the performance metrics are not met during the performance year, the award is not earned and therefore forfeited. Prior to the grant date, the share-based component expense is recorded as incentive compensation expense within personnel expenses in the Company’s consolidated statements of comprehensive income. Following the award, if any, of the related incentive payout, the share-based component expense is reclassified as stock compensation costs within personnel expenses and the share-based component of the accrued incentive compensation is reclassified as additional paid-in-capital upon the granting of the awards on the Company’s consolidated balance sheets. The Plans allow for payment to be made in both cash and share-based awards. The cash portion of the awards will not be subject to time-based vesting conditions and will be expensed during the performance year. The share-based portion of the awards is subject to a three-year time-based vesting schedule beginning on the first anniversary of the grant (which is made in the first calendar quarter of the subsequent year). As a result, the total expense for the share-based portion of the awards is recorded over the period from the beginning of the performance year through the vesting date, or 50 months.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

3. Stock Compensation

The stock compensation cost that has been charged against income for the three and nine months ended September 30, 2018 was \$6.3 million and \$18.9 million, respectively, which is recorded in personnel expenses in the consolidated statements of comprehensive income. Stock compensation cost for the three and nine months ended September 30, 2017 was \$4.3 million and \$13.0 million, respectively. At September 30, 2018, there was approximately \$43.7 million of unrecognized compensation cost related to non-vested restricted stock units with a weighted average remaining contractual term of 2.0 years. As of September 30, 2018, there were 2,364,687 restricted stock units outstanding, of which 2,134,385 have continued vesting requirements.

During the three-month period ended September 30, 2018, no options were granted, vested, exercised or forfeited.

During the three-month period ended September 30, 2018, no new restricted stock units were granted, 5,579 restricted stock units vested of which 5,579 were converted to Class A common stock, and 1,139 restricted stock units were forfeited.

The fair value of vested restricted stock units was \$9.8 million at September 30, 2018.

4. Property and Equipment

Property and equipment consist of the following:

	September 30,	December 31,
	2018	2017
	(in thousands)	
Furniture and equipment	\$8,848	\$ 8,192
Computer equipment	2,139	2,139
Capitalized software costs	3,263	2,567
Leasehold improvements	20,937	19,536
Subtotal	35,187	32,434
Less accumulated depreciation and amortization	(17,655)	(14,537)
	\$17,532	\$ 17,897

At September 30, 2018 and December 31, 2017, the Company has recorded, within furniture and equipment, office equipment under capital leases of \$1.5 million and \$1.7 million, respectively, including accumulated amortization of \$1.3 million and \$1.3 million, respectively, which is included within depreciation and amortization expense in the accompanying consolidated statements of comprehensive income.

5. Business Combinations, Goodwill and Intangible Assets

During the first quarter of 2017, the Company completed two acquisitions for approximately \$6.2 million, net of cash acquired. The acquired businesses are based in New York and the United Kingdom and provide capital advisory and investment banking services to the commercial real estate market. The fair value of consideration transferred was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date, with the remaining unallocated amount recognized as goodwill. The goodwill represents the expected synergies and the Company's ability to control the assembled workforces of the acquired businesses and approximately \$1.8 million is deductible for tax purposes.

The Company's goodwill at September 30, 2018 is summarized as follows (in thousands):

Balance at December 31, 2017	\$8,688
Additions through acquisitions	-
Foreign currency translation	(107)
Balance at September 30, 2018	\$8,581

The Company performs goodwill impairment tests annually during the fourth quarter, and also performs interim goodwill impairment tests if it is determined that it is more likely than not that the fair value of a reporting unit is less than the carrying amount. No goodwill impairment test was required for the three-month period ended September 30, 2018.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

The Company's intangible assets are summarized as follows:

	September 30, 2018			December 31, 2017		
	Gross	Net	Book	Gross	Net	Book
	Carrying	Accumulated	Value	Carrying	Accumulated	Value
	Amount	Amortization	(in thousands)	Amount	Amortization	Value
Intangible assets:						
Mortgage servicing rights	\$ 104,642	\$ (40,328)	\$ 64,314	\$ 92,856	\$ (34,373)	\$ 58,483
Other	947	(712)	235	959	(605)	354
Total intangible assets	\$ 105,589	\$ (41,040)	\$ 64,549	\$ 93,815	\$ (34,978)	\$ 58,837

The Company's intangible assets consist of mortgage servicing rights, non-competition agreements and customer relationships. The non-competition agreements and customer relationships intangible assets relate to the acquisitions completed during the first quarter of 2017 and were assigned a five- and one-year useful life, respectively.

As of September 30, 2018 and December 31, 2017, the Company serviced \$76.0 billion and \$69.8 billion, respectively, of commercial loans. The Company earned \$8.8 million and \$25.7 million in servicing fees for the three and nine months ended September 30, 2018, respectively. The Company earned \$7.3 and \$21.0 million in servicing fees for the three and nine months ended September 30, 2017, respectively. These revenues are recorded within capital markets services revenues in the consolidated statements of comprehensive income.

The total commercial loan servicing portfolio includes loans for which there are no corresponding mortgage servicing rights recorded on the balance sheet, as these servicing rights were assumed prior to the Company's adoption of ASC 860, Transfers and Servicing ("ASC 860") on January 1, 2007 and involved no initial consideration paid by the Company. As of September 30, 2018 and December 31, 2017 the Company has recorded mortgage servicing rights of \$64.3 million and \$58.5 million on \$75.1 billion and \$68.8 billion, respectively, of the total loans serviced.

The Company stratifies its servicing portfolio based on the type of loan, including life company loans, commercial mortgage backed securities ("CMBS"), Freddie Mac and limited-service life company loans.

Changes in the carrying value of mortgage servicing rights for the nine months ended September 30, 2018 and 2017, were as follows (dollars in thousands):

Category	December 31, 2017		September 30, 2018	
	Capitalized	Amortized	Capitalized	Amortized
Freddie Mac	\$ 40,468	\$ 17,514	\$ (9,312)	\$ 48,670
CMBS	13,514	817	(2,664)	11,667

Edgar Filing: HFF, Inc. - Form 10-Q

Life company	3,833	1,728	(2,070)	3,491
Life company – limited	668	161	(343)	486
Total	\$ 58,483	\$ 20,220	\$ (14,389)	\$ 64,314

Category	December 31, 2016	Capitalized	Amortized	September 30, 2017
Freddie Mac	\$ 16,234	\$ 18,242	\$ (3,621)	\$ 30,855
CMBS	16,247	774	(3,006)	14,015
Life company	3,567	2,150	(1,860)	3,857
Life company – limited	566	376	(269)	673
Total	\$ 36,614	\$ 21,542	\$ (8,756)	\$ 49,400

Amounts capitalized represent mortgage servicing rights retained upon the sale of originated loans to Federal Home Loan Mortgage Corporation (“Freddie Mac”) and mortgage servicing rights acquired without the exchange of initial consideration. The Company recorded mortgage servicing rights retained upon the sale of originated loans to Freddie Mac of \$4.7 million and \$17.5 million on \$0.9 billion and \$4.0 billion of loans, respectively, during the three and nine months ended September 30, 2018, respectively and \$6.5 million and \$18.2 million on \$1.7 billion and \$4.3 billion of loans during the three and nine months ended September 30, 2017, respectively. The Company recorded mortgage servicing rights acquired without the exchange of initial consideration on the CMBS and Life company tranches of \$0.9 million and \$2.7 million on \$2.1 billion and \$8.1 billion of loans

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

during the three and nine months ended September 30, 2018, respectively and \$1.2 million and \$3.3 million on \$3.5 billion and \$9.3 billion of loans during the three and nine months ended September 30, 2017, respectively. The Company also received securitization compensation in relation to the securitization of certain Freddie Mac mortgage servicing rights in the three and nine months ended September 30, 2018 of \$2.2 million and \$10.3 million, respectively and \$3.6 million and \$8.6 million for the three and nine months ended September 30, 2017, respectively. The securitization compensation is recorded within interest and other income, net in the consolidated statements of comprehensive income.

Amortization expense related to intangible assets was \$5.4 million and \$14.5 million during the three and nine months ended September 30, 2018, respectively and \$3.5 million and \$9.1 million during the three and nine months ended September 30, 2017, respectively and is recorded in depreciation and amortization in the consolidated statements of comprehensive income.

Estimated amortization expense for the remainder of 2018 and the following five years is as follows (dollars in thousands):

Remainder of 2018	\$3,717
2019	13,008
2020	10,868
2021	9,146
2022	8,113
2023	7,140

The weighted-average life of the mortgage servicing rights intangible asset was 6.7 years at September 30, 2018

6. Fair Value Measurement

ASC Topic 820, Fair Value Measurement establishes a valuation hierarchy for disclosure of the inputs used to measure fair value. This hierarchy prioritizes the inputs into the following three levels: Level 1 inputs which are quoted market prices in active markets for identical assets or liabilities; Level 2 inputs which are observable market-based inputs or unobservable inputs corroborated by market data for the asset or liability; and Level 3 inputs which are unobservable inputs based on the Company's own assumptions that are not corroborated by market data. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

In the normal course of business, the Company enters into contractual commitments to originate (purchase) and sell multifamily mortgage loans at fixed prices with fixed expiration dates. The commitments become effective when the borrowers "lock-in" a specified interest rate. To mitigate the effect of the interest rate risk inherent in providing rate lock commitments to borrowers, the Company enters into a sale commitment with Freddie Mac simultaneously with the rate lock commitment with the borrower. The terms of the contract with Freddie Mac and the rate lock with the

borrower are matched in substantially all respects to eliminate interest rate risk. Both the rate lock commitments to borrowers and the forward sale contracts to Freddie Mac are undesignated derivatives with level 2 inputs and, accordingly, are marked to fair value through earnings. The impact on the Company's financial position and earnings resulting from loan commitments is not significant. The Company elected the fair value option for all mortgage notes receivable originated after January 1, 2016 to eliminate the impact of the variability in interest rate movements on the value of the mortgage notes receivable.

The following tables set forth the Company's financial assets that were accounted for at fair value on a recurring basis by level within the fair value hierarchy as of September 30, 2018 and December 31, 2017 (in thousands):

Recurring fair value measurements

	Carrying Value	Fair Value Measurements Using:	
		Quoted Prices in Active Markets for Identical Assets	Significant Other Unobservable Inputs
September 30, 2018	Value	(Level 1)	(Level 2)
Mortgage notes receivable	\$634,298	\$—	\$ 634,298
Total recurring fair value measurements	\$634,298	\$—	\$ 634,298

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

	Carrying Value	Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Significant Other Identical Assets		
		Observable Inputs (Level 1)	Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2017				
Mortgage notes receivable	\$450,821	\$—	\$ 450,821	\$ —
Total recurring fair value measurements	\$450,821	\$—	\$ 450,821	\$ —

The valuation of mortgage notes receivable is calculated based on already locked in interest rates. These assets are classified as Level 2 in the fair value hierarchy as all inputs are reasonably observable.

The following table sets forth the Company's financial assets that were accounted for at fair value on a nonrecurring basis by level within the fair value hierarchy as of September 30, 2018 and December 31, 2017 (in thousands):

Nonrecurring fair value measurements:

	Carrying Value	Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Significant Other Identical Assets		
		Observable Inputs (Level 1)	Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
September 30, 2018				
Mortgage servicing rights	\$64,314	\$—	\$ —	\$ 82,636
Total nonrecurring fair value measurements	\$64,314	\$—	\$ —	\$ 82,636
December 31, 2017				

		(Level 1)		
Mortgage servicing rights	\$ 58,483	\$—	\$ —	\$ 75,899
Total nonrecurring fair value measurements	\$ 58,483	\$—	\$ —	\$ 75,899

In accordance with GAAP, from time to time, the Company measures certain assets at fair value on a nonrecurring basis. These assets may include mortgage servicing rights. The mortgage servicing rights are recorded at fair value upon initial recording and were not remeasured at fair value as of September 30, 2018 because the Company continues to utilize the amortization method under ASC 860 and the fair value of the mortgage servicing rights exceeds the carrying value at September 30, 2018.

Mortgage servicing rights do not trade in an active, open market with readily-available observable prices. Since observable inputs do not exist to determine the market value for the mortgage servicing rights, such as quoted market prices or prices based on sales or purchases of similar assets, the Company determines the fair value of the mortgage servicing rights by estimating the present value of future cash flows associated with the servicing of the loans. Management makes certain assumptions and judgments in estimating the fair value of servicing rights, including the cost of servicing, prepayment rates (including risk of default), an inflation rate, the expected life of the cash flows and the discount rate. The significant assumptions utilized to value servicing rights as of September 30, 2018 and December 31, 2017 are as follows:

	September 30, 2018	December 31, 2017
Expected life of cash flows	3 years to 10 years	3 years to 10 years
Discount rate ⁽¹⁾	10% to 16%	10% to 16%
Prepayment rate	0% to 8%	0% to 8%
Inflation rate	2 %	2 %
Cost of service per loan	\$1,920 to \$4,748	\$1,920 to \$4,780

⁽¹⁾Reflects the time value of money and the risk of future cash flows related to the possible cancellation of servicing contracts, transferability restrictions on certain servicing contracts, concentration in the life company portfolio and large loan risk.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

The above assumptions are subject to change based on management's judgments and estimates of future changes in the risks related to future cash flows and interest rates. Changes in these factors would cause a corresponding increase or decrease in the prepayment rates and discount rates used in the Company's valuation model.

The Company's financial instruments also include cash and cash equivalents, restricted cash, securities held to maturity, a note payable and warehouse lines of credit. The cash and cash equivalents and restricted cash balances include accounts with maturities of less than three months and therefore, the carrying amount approximates fair value due to the short-term maturities of these instruments. The cash and cash equivalents and restricted cash accounts are classified as Level 1 within the fair value hierarchy. The Company's \$25.0 million investment in securities held to maturity are classified as level 2 within the fair value hierarchy and carried at amortized cost. The securities are required to be redeemed upon the completion of the three-year term of the Risk Transfer Agreement, as defined in Note 8, and will be redeemed for \$25.0 million. The note payable is classified as level 2 within the fair value hierarchy. The warehouse line of credit is a short-term facility with variable interest rates and therefore, fair value approximates carrying value. The warehouse line of credit is classified as Level 2 within the fair value hierarchy.

7. Joint Venture

On September 17, 2018, one of the Company's wholly-owned subsidiaries entered into a securities purchase agreement to facilitate the Company's \$5.5 million investment in Kensington CA, LLC, a third-party provider of service offerings related to derivative product transactions (the "Joint Venture"). Pursuant to the securities purchase agreement and the operating agreement of the Joint Venture, to which the Company's wholly owned subsidiary, HFF InvestCo LLC, is a party, the Company indirectly owns a 50% interest in the Joint Venture and is entitled to a 50% interest in the profits and losses of the Joint Venture.

The Company's investment in the Joint Venture is subject to a customary post-closing purchase price adjustments and is recorded within other noncurrent assets. The consideration paid by the Company at closing consisted of approximately \$1.7 million in cash and a note payable of \$3.8 million, which matures January 15, 2019. Through the Company's 50% interest in the Joint Venture, the Company has the ability to exert significant influence over the Joint Venture but does not have control. As such, the Joint Venture is accounted for as an equity method investment. Profits and losses of the Joint Venture are recorded within other income and were not material for the three months ended September 30, 2018.

8. Securities Held-to-Maturity

On July 2, 2018, the Company invested \$25.0 million in mandatorily redeemable preferred stock of M&T Realty Capital Corporation ("M&T-RCC") in connection with a risk transfer agreement entered into between the Company and M&T-RCC (the "Risk Transfer Agreement"), which is expected to enable the Company to increase the Company's share of Fannie Mae's Delegated Underwriting and Servicing ("DUS®") business. Through the Risk Transfer Agreement, the Company sources multifamily property loans to M&T-RCC, which funds the loans through its Fannie Mae DUS®

loan platform.

In connection with the Risk Transfer Agreement, the Company indemnifies M&T-RCC for their credit recourse obligations associated with loans originated under the Risk Transfer Agreement. In addition to the \$25.0 million investment, the Company deposits a portion of the original principal balance for each loan originated under the Risk Transfer Agreement to serve as collateral for any potential future indemnification obligations. As of September 30, 2018 the collateral deposits were not material to the Company's consolidated financial position. For additional information on the Company's indemnification obligation under the Risk Transfer Agreement see Note 17.

9. Warehouse Line of Credit

HFF LP maintains two uncommitted warehouse revolving lines of credit for the purpose of funding Freddie Mac mortgage loans that it originates under the Freddie Mac Program. The Company is a party to an uncommitted \$600 million financing arrangement with PNC Bank, N.A. ("PNC"). The PNC arrangement was amended during the third quarter of 2017 to increase the uncommitted amount from \$450 million to \$600 million, which can be increased to \$1.0 billion for the remainder of 2018. On October 1, 2018, HFF LP entered into an extended funding agreement with Freddie Mac (the "Extended Funding Agreement") whereby Freddie Mac can extend the required purchase date for each mortgage that has an Original Funding Date (as defined in the Extended Funding Agreement) occurring within the fourth quarter of 2018, to February 15, 2019. In connection with the Extended Funding Agreement with Freddie Mac, PNC agreed to increase the maximum capacity of the financing arrangement to \$2.5 billion through the term of the Extended Funding Agreement. The Company is also party to an uncommitted \$150 million financing arrangement with The Huntington National Bank ("Huntington"). The Huntington arrangement was amended in July 2017 to increase the uncommitted

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

amount from \$125 million to \$150 million, which can be increased to \$175 million three times in a one-year period for 45 calendar days.

Each funding is separately approved on a transaction-by-transaction basis and is collateralized by a loan and mortgage on a multifamily property that is ultimately purchased by Freddie Mac. The PNC and Huntington financing arrangements are only for the purpose of supporting the Company's participation in the Freddie Mac Program and cannot be used for any other purpose. As of September 30, 2018 and December 31, 2017, HFF LP had \$632.5 million and \$450.3 million, respectively, outstanding on the warehouse lines of credit. Interest on the warehouse lines of credit is at the 30-day LIBOR rate (2.11% and 1.37% at September 30, 2018 and December 31, 2017, respectively) plus a spread. HFF LP is also paid interest on the mortgage note receivable secured by a multifamily loan at the rate in the Freddie Mac note.

10. Lease Commitments

The Company leases various corporate offices (which leases sometime include parking spaces) and office equipment under noncancelable operating leases. These leases have initial terms of three to eleven years. Several of the leases have termination clauses whereby the term may be reduced by two to eight years upon prior notice and payment of a termination fee by the Company. Total rental expense charged to operations was \$3.2 million and \$9.8 million during the three and nine months ended September 30, 2018 and \$3.2 million and \$10.2 million during the three and nine months ended September 30, 2017, respectively, and is recorded within occupancy expense in the consolidated statements of comprehensive income.

Future minimum rental payments for the remainder of 2018 and the next five years under operating leases with noncancelable terms in excess of one year and without regard to early termination provisions are as follows:

	Future minimum rent payments (in thousands)
Remainder of 2018	\$ 3,099
2019	11,082
2020	10,740
2021	9,286
2022	7,075
2023	4,213

The Company subleases certain office space to subtenants, which subleases may be canceled at any time. The rental income received from these subleases is included as a reduction of occupancy expenses in the accompanying consolidated statements of comprehensive income.

The Company also leases certain office equipment under capital leases that expire at various dates through 2023. See Note 4 for further information on the assets recorded under these capital leases at September 30, 2018 and December 31, 2017, respectively.

11. Servicing

The Company services commercial real estate loans for lenders. The unpaid principal balance of the servicing portfolio totaled \$76.0 billion and \$69.8 billion at September 30, 2018 and December 31, 2017, respectively.

12. Legal Proceedings

The Company is party to various litigation matters, in most cases involving ordinary course and routine claims incidental to its business. The Company cannot estimate with certainty its ultimate legal and financial liability with respect to any pending matters. In accordance with ASC 450, Contingencies, a reserve for estimated losses is recorded when the amount is probable and can be reasonably estimated. However, the Company does not believe, based on examination of such pending matters, that a material loss related to these matters is reasonably possible.

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

13. Income Taxes

Income tax expense includes current and deferred taxes as follows (dollars in thousands):

	Current	Deferred	Total
Nine Months Ended September 30, 2018:			
Federal	\$8,470	\$8,222	\$16,692
State	2,326	826	3,152
Foreign	—	(678)	(678)
	\$10,796	\$8,370	\$19,166
	Current	Deferred	Total
Nine Months Ended September 30, 2017:			
Federal	\$20,175	\$15,901	\$36,076
State	3,620	1,808	5,428
Foreign	-	(911)	(911)
	\$23,795	\$16,798	\$40,593

The reconciliation between the income tax computed by applying the U.S. federal statutory rate and the effective tax rate on net income is as follows for the nine months ended September 30, 2018 and 2017 (dollars in thousands):

	September 30,			
	2018	Rate	2017	Rate
Income tax expense / (benefit)				
Taxes computed at federal rate	\$18,940	21.0 %	\$35,460	35.0 %

During the third quarter of 2018, the Company completed its analysis related to the impacts of the U.S. Tax Cuts and Jobs Act of 2017 (the “2017 Tax Act”) in connection with the finalization of its tax returns. There were no adjustments from previously estimated amounts as a result of the completion of the Company’s assessment.

14. Stockholders' Equity

The Company is authorized to issue 175,000,000 shares of Class A common stock, par value \$0.01 per share. Each share of Class A common stock entitles its holder to one vote on all matters to be voted on by stockholders generally. Holders of Class A common stock vote together as a single class on all matters presented to the stockholders for their vote or approval. The Company had issued 39,143,253 and 38,742,698 shares of Class A common stock as of September 30, 2018 and December 31, 2017, respectively.

On January 26, 2018, the Company's board of directors declared a special cash dividend of \$1.75 per share of Class A common stock to stockholders of record on February 9, 2018. The aggregate dividend payment was paid on February 21, 2018 and totaled approximately \$67.8 million based on the number of shares of Class A common stock then outstanding. Additionally, 79,387 restricted stock units (dividend equivalent units) were granted for those unvested and vested but not issued restricted stock units as of the record date of February 9, 2018. These dividend equivalent units follow the same vesting terms as the underlying restricted stock units.

On January 24, 2017, the Company's board of directors declared a special cash dividend of \$1.57 per share of Class A common stock to stockholders of record on February 9, 2017. The aggregate dividend payment was paid on February 21, 2017 and totaled

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

approximately \$60.0 million based on the number of shares of Class A common stock then outstanding. Additionally, 95,648 restricted stock units (dividend equivalent units) were granted for those unvested and vested but not issued restricted stock units as of the record date of February 9, 2017. These dividend equivalent units follow the same vesting terms as the underlying restricted stock units.

15. Earnings Per Share

The Company's net income and weighted average shares outstanding for the three and nine months ended September 30, 2018 and 2017 consist of the following:

	Three Months Ended		Nine Months Ended	
	September 30, 2018	2017	September 30, 2018	2017
	(in thousands, except share data)			
Net income	\$29,617	\$21,603	\$71,024	\$60,721
Weighted Average Shares Outstanding:				
Basic	39,262,706	38,706,240	39,185,500	38,647,021
Diluted	40,321,546	39,891,583	40,205,988	39,515,826

The calculations of basic and diluted earnings per share amounts for the three and nine months ended September 30, 2018 and 2017 are described and presented below.

Basic Earnings per Share

Numerator — net income for the three and nine months ended September 30, 2018 and 2017, respectively.

Denominator — the weighted average shares of unrestricted Class A common stock for the three and nine months ended September 30, 2018 and 2017, including 230,302 and 210,707 restricted stock units that have vested and whose issuance is no longer contingent as of September 30, 2018 and 2017, respectively.

Diluted Earnings per Share

Numerator — net income for the three and nine months ended September 30, 2018 and 2017 as in the basic earnings per share calculation described above.

Denominator — the weighted average shares of unrestricted Class A common stock for the three and nine months ended September 30, 2018 and 2017, including 230,302 and 210,707 restricted stock units that have vested and whose issuance is no longer contingent as of September 30, 2018 and 2017, respectively, plus the dilutive effect of the unvested restricted stock units, restricted stock and stock options.

16. Related Party Transactions

As a result of the Company's initial public offering, the Company entered into a tax receivable agreement with HFF Holdings that provides for the payment by the Company to HFF Holdings of 85% of the amount of the cash savings, if any, in U.S. federal, state and local income tax that the Company actually realizes as a result of the increase in tax basis of the assets owned by HFF LP and HFF Securities and as a result of certain other tax benefits arising from entering into the tax receivable agreement and making payments under that agreement. As members of HFF Holdings, each of Mark Gibson, the Company's chief executive officer, Jody Thornton, the Company's president and member of the Company's board of directors and a capital markets advisor of the Operating Partnerships, John Fowler, a current director emeritus of the Company's board of directors and a capital markets advisor of the Operating Partnerships, and Matthew D. Lawton, Gerard T. Sansosti, Michael J. Tepedino and Manuel A. de Zarraga, each an Executive Managing Director and a capital markets advisor of the Operating Partnerships, is entitled to participate in such payments, in each case on a pro rata basis based upon such person's ownership of interests in each series of tax receivable payments created by the initial public offering or subsequent exchange of Operating Partnership units. During the third quarter of 2018, Messrs. Gibson, Thornton, Fowler, Lawton, Sansosti, Tepedino and de Zarraga received payments of \$1.0 million, \$1.0 million, \$0.8 million, \$0.3 million, \$0.4 million, \$0.2 million and \$0.3

million, respectively, in connection with the Company's payment of \$11.9 million to HFF Holdings under the tax receivable agreement. During the third quarter 2017, Messrs. Gibson, Thornton, Fowler, Lawton, Sansosti, Tepedino and de Zarraga received payments of \$1.1 million, \$1.1 million, \$0.9 million, \$0.3 million, \$0.5 million, \$0.2 million, and \$0.3 million, respectively, in connection with the Company's payment of \$11.2 million to HFF Holdings under the tax receivable agreement. The Company will retain the remaining 15% of cash savings, if any, in income tax that it realizes. For purposes of the tax receivable agreement, cash savings in income tax is computed by comparing the Company's actual income tax liability to the amount of such taxes that it would have been required to pay had there been no increase to the tax basis of the assets of HFF LP and HFF Securities allocable to the Company as a result of the initial sale and later exchanges and had the Company not entered into the tax receivable agreement. The term of the tax receivable agreement commenced upon consummation of the initial public offering and will continue until all such tax benefits have been utilized or have expired. See Note 17 for the amount recorded in relation to this agreement.

17. Commitments and Contingencies

Tax Receivable Agreement

The Company is obligated, pursuant to its tax receivable agreement with HFF Holdings, to pay to HFF Holdings 85% of the amount of cash savings in U.S. federal, state and local income tax that the Company actually realizes as a result of the increases in tax

HFF, Inc.

Notes to Consolidated Financial Statements - (Continued)

basis under Section 754 and as a result of certain other tax benefits arising from the Company entering into the tax receivable agreement and making payments under that agreement. The Company has recorded \$50.3 million and \$60.9 million for this obligation to HFF Holdings as a liability on the consolidated balance sheets as of September 30, 2018 and December 31, 2017, respectively.

Employment Agreements

In recent years, the Company has entered into arrangements with newly-hired capital markets advisors whereby these capital markets advisors would be paid additional compensation if certain performance targets are met over a defined period. These payments will be made to the capital markets advisors only if they enter into an employment agreement at the end of the performance period. Payments under these arrangements, if earned, would be paid in fiscal years 2018 through 2019. Currently, the Company cannot reasonably estimate the amounts that would be payable under all of these arrangements. The Company begins to accrue for these payments when it is deemed probable that payments will be made; therefore, on a quarterly basis, the Company evaluates the probability of each of the capital markets advisors achieving the performance targets and the probability of each of the capital markets advisors signing an employment agreement. As of both September 30, 2018 and December 31, 2017, \$0.6 million has been accrued for these arrangements on the consolidated balance sheet.

Risk Transfer Agreement

In connection with the Risk Transfer Agreement, the Company will indemnify M&T-RCC's loan loss exposure for each loan originated under the Risk Transfer Agreement. The Company's loss exposure is capped at 33.33% of the unpaid principal balance in excess of the collateral securing such loan. As of September 30, 2018, the Company's maximum quantifiable loss exposure associated with the Company's indemnification obligation is \$18.7 million on \$56.2 million of unpaid principal balances. The maximum quantifiable liability is not representative of the actual loss the Company may incur as the Company would only be liable for this amount in the event that all of the loans for which the Company indemnifies M&T-RCC were to default and all of the collateral underlying these loans was determined to be without value at the time of settlement. There were no actual losses incurred under this arrangement during the three months ended September 30, 2018.

For loans that have been sold through the Risk Transfer Agreement, the Company records an indemnification accrual equal to the fair value of the guarantee obligations undertaken upon M&T-RCC's sale of the loan. Subsequently, this accrual is amortized over the estimated life of the loan and recorded as an increase in capital markets services revenues within the consolidated statements of comprehensive income. The Company records a corresponding asset related to loan performance fee rights which will also be amortized over the estimated life of the loan. As of September 30, 2018, the guarantee obligations and corresponding asset were not material to the Company's consolidated financial position.

18. Subsequent Events

The Company has evaluated subsequent events through the date these financial statements were issued and concluded that no subsequent events have occurred that would require recognition in the Condensed Consolidated Financial Statements or disclosure in the Notes to Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion summarizes the financial position of the Company and its subsidiaries as of September 30, 2018, and the results of our operations for the three and nine months ended September 30, 2018, and should be read in conjunction with (i) the unaudited consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q and (ii) the consolidated financial statements and accompanying notes to our Annual Report on Form 10-K for the year ended December 31, 2017.

Overview

Our Business

We are, based on transaction volume, one of the leading providers of commercial real estate and capital markets services to both the consumers and providers of capital in the commercial real estate industry and one of the largest full-service commercial real estate financial intermediaries in the country. We operate out of 26 offices with approximately 1,059 associates including approximately 390 capital markets advisors.

Substantially all of our revenues are in the form of capital markets services fees collected from our clients, usually negotiated on a transaction-by-transaction basis. We also earn fees from commercial loan servicing activities. We believe that our multiple product offerings and platform services, diverse client mix, expertise in a wide range of property types and national platform have the potential to create a diversified revenue stream within the commercial real estate sector.

We operate in one reportable segment, the commercial real estate financial intermediary segment, and offer debt placement, investment advisory, equity placements, investment banking and advisory services, loan sales and loan sale advisory services, commercial loan servicing and capital markets advice.

Our business may be significantly affected by factors outside of our control, particularly including:

Economic and commercial real estate market downturns. Our business is dependent on international and domestic economic conditions and the demand for commercial real estate and related services in the markets in which we operate. A slow-down, a significant downturn and/or recession in either the global economy and/or the domestic economy, including but not limited to even a regional economic downturn, could adversely affect our business. A general decline in acquisition and disposition activity, as well as a general decline in commercial real estate investment activity, can lead to a reduction in fees and commissions for arranging such transactions, as well as in fees and commissions for arranging financing for acquirers and property owners that are seeking to recapitalize their existing properties. Such a general decline can also lead to a significant reduction in our loan servicing activities, due to increased delinquencies and defaults and lack of additional loans that we would have otherwise added to our loan servicing portfolio. Additionally, evolving global regulatory and compliance trends, including changes to the UK regulatory framework resulting from the UK's exit from the European Union, may adversely affect our business and the economic and commercial real estate markets in which we do business.

Global and domestic credit and liquidity issues. Global and domestic credit and liquidity issues have in the recent past led to an economic downturn, including a commercial real estate market downturn. This downturn in turn led to a decrease in transaction activity and lower values. Restrictions on the availability of capital, both debt and/or equity, created significant reductions, and could in the future cause, further reductions of the liquidity in and the flow of capital to the commercial real estate markets. These restrictions also caused, and could in the future cause, commercial real estate prices to decrease due to the reduced amount of equity capital and debt financing available which can lead to a reduction in our revenues.

•

Decreased investment allocation to commercial real estate class. Allocations to commercial real estate as an asset class for investment portfolio diversification may decrease for a number of reasons beyond our control, including but not limited to poor performance of the asset class relative to other asset classes or the superior performance of other asset classes when compared with the performance of the commercial real estate asset class. In addition, while commercial real estate is now viewed as an accepted and valid class for portfolio diversification, if this perception changes, there could be a significant reduction in the amount of debt and equity capital available in the commercial real estate sector which could therefore, result in decreased transactional volume.

22

Fluctuations in interest rates. Significant fluctuations in interest rates as well as steady and protracted movements of interest rates in one direction (increases or decreases) could adversely affect the operation and income of commercial real estate properties as well as the demand from investors for commercial real estate investments. Both of these events could adversely affect investor demand and the supply of capital for debt and equity investments in commercial real estate. In particular, increased interest rates may cause prices to decrease due to the increased costs of obtaining financing and could lead to decreases in purchase and sale activities, thereby reducing the amounts of investment advisory and loan originations and related servicing fees. If our debt placement and investment advisory origination and servicing businesses are negatively impacted, it is likely that our other lines of business would also suffer due to the relationship among our various capital markets services.

The factors discussed above have adversely affected and continue to be a risk to our business, as evidenced by the effects of the significant disruptions during 2007 through 2010 to the global capital and credit markets, and in particular the domestic capital markets. The global and domestic credit and liquidity issues and reductions in debt and equity allocations to commercial real estate reduced, and could in the future reduce, the number of acquisitions, dispositions and loan originations, as well as the respective number of transactions, which could in turn adversely affect our capital markets services revenues including our servicing revenue. While conditions have generally improved, global and domestic credit and liquidity issues, economic recessions or slowdowns and other global and domestic macro events beyond our control, could have a significant adverse effect on our capital markets services revenues (including, but not limited to, our servicing revenues). The significant balance sheet issues of many CMBS lenders, banks, life insurance companies, mortgage REITS and debt funds, captive finance companies and other financial institutions have adversely affected, and could again in the future adversely affect, the flow of commercial mortgage debt to the U.S. capital markets, and, in turn, could potentially adversely affect all of our capital markets services platforms and resulting revenues.

Other factors that may adversely affect our business are discussed under the caption "Risk Factors" in this Quarterly Report on Form 10-Q.

Results of operations for the three months ended September 30, 2018 and 2017

Following is a discussion of our results of operations for the three months ended September 30, 2018 and 2017. The table included in the period comparisons below provides summaries of our results of operations. The period-to-period comparisons of financial results are not necessarily indicative of future results. For a description of the key financial measures and indicators included in our consolidated financial statements, refer to the discussion under “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Key Financial Measures and Indicators” in our Annual Report on Form 10-K for the year ended December 31, 2017.

	Three Months Ended September 30, 2018		2017		Total Dollar Change	Total Percentage Change
	Dollars (in thousands, unless percentages)	% of Revenue	Dollars	% of Revenue		
Revenues						
Capital markets services revenue	\$156,856	97.2 %	\$142,857	96.5 %	\$13,999	9.8 %
Interest on mortgage notes receivable	3,315	2.1 %	4,325	2.9 %	(1,010)	(23.4)%
Other	1,223	0.8 %	840	0.6 %	383	45.6 %
Total revenues	161,394	100.0 %	148,022	100.0 %	13,372	9.0 %
Operating expenses						
Cost of services	90,700	56.2 %	84,020	56.8 %	6,680	8.0 %
Personnel	18,033	11.2 %	15,109	10.2 %	2,924	19.4 %
Occupancy	3,991	2.5 %	3,959	2.7 %	32	0.8 %
Travel and entertainment	4,169	2.6 %	4,294	2.9 %	(125)	(2.9)%
Supplies, research and printing	2,719	1.7 %	2,269	1.5 %	450	19.8 %
Other	15,809	9.8 %	13,725	9.3 %	2,084	15.2 %
Total operating expenses	135,421	83.9 %	123,376	83.3 %	12,045	9.8 %
Operating income	25,973	16.1 %	24,646	16.7 %	1,327	5.4 %
Interest and other income, net	14,305	8.9 %	12,209	8.2 %	2,096	17.2 %
Interest expense	(3)	(0.0)%	(5)	(0.0)%	2	(40.0)%
(Increase) decrease in payable under the tax receivable agreement	(1,226)	(0.8)%	479	0.3 %	(1,705)	(355.9)%
Income before income taxes	39,049	24.2 %	37,329	25.2 %	1,720	4.6 %
Income tax expense	9,432	5.8 %	15,726	10.6 %	(6,294)	(40.0)%
Net income	\$29,617	18.4 %	\$21,603	14.6 %	\$8,014	37.1 %
Adjusted EBITDA (1)	\$43,821	27.2 %	\$38,627	26.1 %	\$5,194	13.4 %

(1) The Company defines Adjusted EBITDA as net income before (i) interest expense, (ii) income tax expense, (iii) depreciation and amortization, (iv) stock-based compensation expense, which is a non-cash charge, (v) income recognized on the initial recording of mortgage servicing rights that are acquired with no initial consideration and the inherent value of servicing rights, which are non-cash income amounts, and (vi) the increase (decrease) in payable under the tax receivable agreement, which represents changes in a liability recorded on the Company’s consolidated balance sheet determined by the ongoing remeasurement of related deferred tax assets and, therefore, can be income or expense in the Company’s consolidated statement of comprehensive income in any individual period. The Company uses Adjusted EBITDA in its business operations to, among other things, evaluate the performance of its business, develop budgets and measure its performance against those budgets. The Company

also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate its overall operating performance. However, Adjusted EBITDA has material limitations as an analytical tool and should not be considered in isolation, or as a substitute for analysis of the Company's results as reported under GAAP. The Company finds Adjusted EBITDA as a useful tool to assist in evaluating performance because it eliminates items related to capital structure and taxes, including the Company's tax receivable agreement. Note that the Company classifies the interest expense on its warehouse lines of credit as an operating expense and, accordingly, it is not eliminated from net income in determining Adjusted EBITDA. Some of the items that the Company has eliminated from net income in determining Adjusted EBITDA are significant to the Company's business. For example, (i) interest expense is a necessary element of the Company's costs and ability to generate revenue because it incurs interest expense related to any outstanding indebtedness, (ii) payment of income taxes is a necessary element of the Company's costs, and (iii) depreciation and amortization are necessary elements of the Company's costs.

Any measure that eliminates components of the Company's capital structure and costs associated with the Company's operations has material limitations as a performance measure. In light of the foregoing limitations, the Company does not rely solely on Adjusted EBITDA as a performance measure and also considers its GAAP results. Adjusted EBITDA is not a measurement of the Company's financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other measures derived in accordance with GAAP. Because Adjusted EBITDA is not calculated in the same manner by all companies, it may not be comparable to other similarly titled measures used by other companies.

Set forth below is a reconciliation of consolidated net income to Adjusted EBITDA for the Company for the three months ended September 30, 2018 and 2017:

Adjusted EBITDA for the Company is calculated as follows:
(dollars in thousands)

	Three Months Ended	
	September 30, 2018	2017
Net income	\$29,617	\$21,603
Add:		
Interest expense	3	5
Income tax expense	9,432	15,726
Depreciation and amortization	6,632	4,563
Stock-based compensation (a)	6,322	4,297
Initial recording of mortgage servicing rights	(9,411)	(7,088)
Increase (decrease) in payable under the tax receivable agreement	1,226	(479)
Adjusted EBITDA	\$43,821	\$38,627

(a) Amounts do not reflect expense associated with the stock component of estimated incentive payouts under the Company's firm profit participation plan, office profit participation plans and executive bonus plan that are anticipated to be paid in respect of the applicable year. Such expense is recorded as incentive compensation expense within personnel expenses in the Company's consolidated statements of comprehensive income during the year to which the expense relates. Following the award, if any, of the related incentive payout, the stock component expense is reclassified as stock compensation costs within personnel expenses. See Note 2 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its firm profit participation plan, office profit participation plans and executive bonus plan. See Note 3 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its stock compensation.

Revenues. Our total revenues were \$161.4 million for the three months ended September 30, 2018 compared to \$148.0 million for the same period in 2017, an increase of \$13.4 million, or 9.0%. Revenues increased primarily due to a 13.1% increase in total production volume as compared to the three months ended September 30, 2017.

The revenues we generated from capital markets services for the three months ended September 30, 2018 increased approximately \$14.0 million, or 9.8%, to \$156.9 million from \$142.9 million for the same period in 2017. The increase is attributable to a 13.1% increase in the total production volume, an increase in the number of transactions as well as a marginal increase in average basis points per transaction during the three months ended September 30,

2018 compared to the three months ended September 30, 2017.

- The revenues derived from interest on mortgage notes receivable were \$3.3 million for the three months ended September 30, 2018 compared to \$4.3 million for the same period in 2017, a decrease of approximately \$1.0 million. Revenues decreased primarily as a result of a reduction in the average principal balance per loan associated with loan originations in the three months ended September 30, 2018 compared to the three months ended September 30, 2017 in connection with the Freddie Mac Program.
- The other revenues we earned, which include expense reimbursements from clients related to out-of-pocket costs incurred and vary on a transaction-by-transaction basis, were approximately \$1.2 million for the three months ended September 30, 2018, an increase of \$0.4 million compared to the prior year period.

25

Total Operating Expenses. Our total operating expenses were \$135.4 million for the three months ended September 30, 2018 compared to \$123.4 million for the same period in 2017, an increase of \$12.0 million, or approximately 9.8%. Expenses increased primarily due to additional commission expenses on increased revenues, personnel costs associated with an increase in headcount, incentive compensation and amortization expense associated with mortgage servicing rights.

Cost of services for the three months ended September 30, 2018 increased \$6.7 million, or 8.0%, to \$90.7 million from \$84.0 million for the same period in 2017. The increase is primarily the result of additional commission and other compensation-related expenses associated with the growth in capital markets services revenue and higher salary and fringe benefit costs from increased headcount. Cost of services as a percentage of capital markets services revenues was approximately 57.8% and 58.8% for the three months ended September 30, 2018 and 2017, respectively.

Personnel expenses that are not directly attributable to providing services to our clients increased approximately \$2.9 million, or 19.4%, to \$18.0 million for the three months ended September 30, 2018 from \$15.1 million for the same period in 2017. The increase is primarily related to salaries and equity compensation related costs. Personnel expenses are impacted quarterly by the adjustments made to accrue for the estimated expense associated with the Plans. The Plans allow for payments in the form of both cash and share-based awards based on the decision of the Company's board of directors. The stock compensation cost included in personnel expenses was \$6.3 million and \$4.3 million for the three months ended September 30, 2018 and 2017, respectively. At September 30, 2018, there was approximately \$43.7 million of unrecognized compensation cost related to share-based awards. The weighted average remaining contractual term of the unvested restricted stock units is 2.0 years as of September 30, 2018. The weighted average remaining contractual term of the vested options is 1.5 years as of September 30, 2018.

Occupancy expenses of \$4.0 million and travel and entertainment expenses of \$4.2 million for the three months ended September 30, 2018 remained relatively flat compared to \$4.0 million and \$4.3 million for the three months ended September 30, 2017, respectively.

Other expenses, including costs for insurance, professional fees, depreciation and amortization, interest on our warehouse line of credit and other operating expenses, were \$15.8 million in the three months ended September 30, 2018, an increase of \$2.1 million, or 15.2% versus \$13.7 million in the three months ended September 30, 2017. This increase is principally related to additional amortization associated with an increase in the mortgage servicing right intangible assets.

Net Income. Our net income for the three months ended September 30, 2018 was \$29.6 million, an increase of approximately \$8.0 million versus \$21.6 million for the same period in 2017. This increase is due principally to a reduction in income tax expense related to the 2017 Tax Act as well as a 4.6% increase in income before income taxes.

Interest and other income, net for the three months ended September 30, 2018 was \$14.3 million, an increase of \$2.1 million as compared to \$12.2 million for the same period in 2017 primarily due to an increase in income from the valuation of mortgage servicing rights of \$2.3 million and increased interest and other related income which was partially offset by a reduction in other agency related income.

The interest expense we incurred in the three months ended September 30, 2018 was \$3,000 as compared to \$5,000 in the three months ended September 30, 2017.

(Increase) decrease in payable under the tax receivable agreement reflects the change in the estimated tax benefits owed to HFF Holdings under the tax receivable agreement. The \$1.2 million increase in payable under the tax receivable agreement for the three months ended September 30, 2018 represents 85% of the increase in the related deferred tax asset. The \$0.5 million decrease in payable under the tax receivable agreement for the three months ended September 30, 2017 represents 85% of the decrease in the related deferred tax asset.

Income tax expense was approximately \$9.4 million for the three months ended September 30, 2018, as compared to \$15.7 million in the three months ended September 30, 2017. The \$6.3 million decrease in income tax expense

primarily relates to a reduction in the statutory tax rate related to the 2017 Tax Act. During the three months ended September 30, 2018, the Company recorded a current income tax expense of \$7.4 million and deferred income tax expense of \$2.0 million.

26

Results of operations for the nine months ended September 30, 2018 and 2017

Following is a discussion of our results operations for the nine months ended September 30, 2018 and 2017. The table included in the period comparisons below provides summary of our results of operations. The period to period comparisons of financial results are not necessarily indicative of future results. For a description of the key financial measures and indicators included in our consolidated financial statements, refer to the discussions under “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Key Financial Measures and Indicators” in our Annual Report on Form 10-K for the year ended December 31, 2017.

	Nine Months Ended September 30, 2018		2017		Total Dollar Change	Total Percentage Change
	Dollars (in thousands, unless percentages)	% of Revenue	Dollars	% of Revenue

27

(a) Amounts do not reflect expense associated with the stock component of estimated incentive payouts under the Company's firm profit participation plan, office profit participation plans and executive bonus plan that are anticipated to be paid in respect of the applicable year. Such expense is recorded as incentive compensation expense within personnel expenses in the Company's consolidated statements of comprehensive income during the year to which the expense relates. Following the award, if any, of the related incentive payout, the stock component expense is reclassified as stock compensation costs within personnel expenses. See Note 2 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its firm profit participation plan, office profit participation plans and executive bonus plan. See Note 3 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its stock compensation.

Revenues. Our total revenues were \$446.7 million for the nine months ended September 30, 2018 compared to \$424.2 million for the same period in 2017, an increase of \$22.6 million, or 5.3%. Revenues increased primarily due to increases in capital markets services revenue, and to a lesser extent, increases in interest on mortgage notes receivable and other revenues.

- The revenues we generated from capital markets services for the nine months ended September 30, 2018 increased \$21.6 million, or 5.3%, to \$430.9 million from \$409.3 million for the same period in 2017. The increase is primarily attributable to an increase of 1.2% in production volume as well as an increase in the number of transactions.

• The revenues derived from interest on mortgage notes receivable were \$12.8 million for the nine months ended September 30, 2018 compared to \$12.0 million for the same period in 2017, an increase of approximately \$0.8 million. Revenues increased primarily as a result of an increase in interest rates in the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017 in connection with the Freddie Mac Program.

• The other revenues we earned, which include expense reimbursements from clients related to out-of-pocket costs incurred and vary on a transaction-by-transaction basis, were approximately \$3.0 million for the nine months ended September 30, 2018 and \$2.9 million for the nine months ended September 30, 2017, an increase of \$0.1 million or 5.0%.

Total Operating Expenses. Our total operating expenses were \$396.5 million for the nine months ended September 30, 2018 compared to \$359.4 million for the same period in 2017, an increase of \$37.1 million, or 10.3%. Expenses increased primarily due to increased cost of services, personnel and amortization expenses as well as other costs related to an increase in capital markets services revenue and increased headcount.

• The cost of services for the nine months ended September 30, 2018 increased \$11.5 million, or 4.7%, to \$254.9 million from \$243.4 million for the same period in 2017. The increase is primarily the result of an increase in commissions and other incentive compensation directly related to the increase in capital markets services revenues. Also contributing to the increase in cost of services are higher salary and fringe benefit costs from increased headcount. Cost of services as a percentage of capital markets services revenues was approximately 59.2% and 59.5% for the nine months ended September 30, 2018 and 2017, respectively.

- Personnel expenses that are not directly attributable to providing services to our clients increased \$14.3 million, or 32.0%, to \$59.0 million for the nine months ended September 30, 2018 from \$44.7 million for the same period in 2017. The increase is primarily related to an increase in salaries and incentive compensation costs of \$8.3 million and an increase in stock compensation of \$5.8 million. The increase in incentive compensation is primarily related to incentive compensation costs of \$5.0 million associated with the additional compensation award granted during the first quarter of 2018. Personnel expenses are also impacted quarterly by the adjustments made to accrue for the estimated expense associated with the performance-based firm and office profit participation plans. Both the firm and

office profit participation plans allow for payments in the form of both cash and share-based awards based on the decision of the Company's board of directors. The stock compensation cost included in personnel expenses was \$18.9 million and \$13.0 million for the nine months ended September 30, 2018 and 2017, respectively. At September 30, 2018, there was approximately \$43.7 million of unrecognized compensation cost related to share-based awards. The weighted average remaining contractual term of the unvested restricted stock units is 2.0 years as of September 30, 2018. The weighted average remaining contractual term of the vested options is 1.5 years as of September 30, 2018.

Occupancy costs for the nine months ended September 30, 2018 were \$11.9 million compared to \$12.3 million for the nine months ended September 30, 2017. The \$0.4 million decrease relates to office relocation costs incurred during the nine months ended September 30, 2017.

Travel and entertainment expenses for the nine months ended September 30, 2018 increased \$1.6 million, or 11.1%, to \$15.6 million compared to the same period in 2017. These increases are primarily due to costs associated with the increase in headcount.

Other expenses, including costs for insurance, professional fees, depreciation and amortization, interest on our warehouse line of credit and other operating expenses, were \$47.6 million in the nine months ended September 30, 2018, an increase of \$8.8 million, or approximately 22.6%, compared to \$38.8 million in the nine months ended September 30, 2017. This increase is primarily related to additional depreciation and amortization of \$5.7 million largely attributable to a higher balance of mortgage servicing rights, increased interest on the warehouse line of credit of \$1.4 million along with miscellaneous increases in other operating expenses.

Net Income. Our net income for the nine months ended September 30, 2018 was \$71.0 million, an increase of approximately \$10.3 million versus \$60.7 million for the same period in 2017. This increase is primarily due to the reduction in statutory tax rates associated with the 2017 Tax Act.

Interest and other income, net for the nine months ended September 30, 2018 was \$41.2 million, as compared to \$36.0 million for the same period in 2017. The increase in interest and other income is attributable to increases in income on the initial recording of mortgage servicing rights, securitization compensation and interest and other related income compared to the prior year period.

The interest expense we incurred in the nine months ended September 30, 2018 and 2017 was \$12,000 and \$17,000, respectively.

(Increase) decrease in payable under the tax receivable agreement reflects the change in the estimated tax benefits owed to HFF Holdings under the tax receivable agreement. The \$1.2 million increase in payable under the tax receivable agreement for the nine months ended September 30, 2018 represents 85% of the increase in the related deferred tax asset. The \$0.5 million decrease in payable under the tax receivable agreement for the nine months ended September 30, 2017 represents 85% of the decrease in the related deferred tax asset.

Income tax expense was approximately \$19.2 million for the nine months ended September 30, 2018, as compared to \$40.6 million in the nine months ended September 30, 2017. This reduction is primarily due to a decrease in income before income tax and a reduction in statutory tax rates as a result of the 2017 Tax Act. During the nine months ended September 30, 2018, the Company recorded current income tax expense of \$10.8 million and deferred income tax expense of approximately \$8.4 million.

Financial Condition

Total assets increased by \$180.9 million to \$1.1 billion at September 30, 2018 from \$892.2 million at December 31, 2017, primarily due to an increase in mortgage notes receivable of \$183.5 million associated with an increase in the principal balance of loans pending sale to Freddie Mac at September 30, 2018, compared to December 31, 2017. Additionally, cash and cash equivalents and restricted cash decreased by \$36.4 million which was partially offset by the Company's \$25.0 million investment in M&T-RCC and \$1.7 million investment in the Joint Venture. The remaining reduction in cash and cash equivalents relates to a first quarter 2018 dividend payment of \$67.8 million and annual incentive compensation distributions, largely offset by cash flows from operations.

Total liabilities increased by \$167.7 million to \$773.5 million at September 30, 2018 from \$605.7 million at December 31, 2017. The increase was attributable to an increase in amounts outstanding under the warehouse lines of credit of \$182.3 million due to an increase in the principal balance outstanding related to our Freddie Mac business at September 30, 2018, compared to December 31, 2017. The increase associated with the warehouse lines of credit was partially offset by \$10.6 million related to a reduction in the obligation associated with the tax receivable agreement as well as \$10.7 million in other current liabilities and accounts payable.

Cash Flows

Our historical cash flows are primarily related to the timing of receipt of transaction fees, the timing of payments under the tax receivable agreement and payment of commissions and bonuses to employees.

First Nine Months of 2018

Cash and cash equivalents and restricted cash decreased \$36.4 million in the nine months ended September 30, 2018. Net cash of \$75.9 million was provided by operating activities for the nine months ended September 30, 2018 compared to net cash provided by operating activities of \$63.2 million in the nine months ended September 30, 2017. The increase in cash flows from operating activities was primarily attributable to increased net income over the prior year period. Investing activities used \$29.7 million of cash resulting from investments in M&T-RCC preferred securities, the Joint Venture arrangement and capital expenditures related to property and equipment. Financing activities used \$82.1 million principally related to a \$67.8 million dividend payment that we made to holders of our Class A common stock on February 21, 2018. Additionally, \$14.2 million was used to purchase shares of Class A common stock in connection with the minimum employee statutory tax withholdings.

First Nine Months of 2017

Cash and cash equivalents and restricted cash decreased \$13.8 million in the nine months ended September 30, 2017. Net cash of \$63.2 million was provided by operating activities, primarily resulting from \$60.7 million of net income and a \$7.3 million increase in accrued compensation and related taxes which was partially offset by uses of cash related to an \$11.2 million payment under the tax receivable agreement and a \$5.8 million decrease in other accrued liabilities. Investing activities used \$10.6 million of cash resulting from \$6.2 million for the purchase of businesses and \$4.4 million for investing in property and equipment. Financing activities used \$66.3 million primarily due to a \$60.0 million dividend payment that we made to holders of our Class A common stock on February 21, 2017. Additionally, payments on certain capital leases used \$0.4 million and \$5.9 million was used to purchase shares of Class A common stock in connection with the minimum employee statutory tax withholdings.

Liquidity and Capital Resources

Our current assets typically have consisted primarily of cash and cash equivalents and accounts receivable in relation to earned transaction fees. At September 30, 2018, our cash and cash equivalents of approximately \$239.6 million were invested or held in a mix of money market funds and bank demand deposit accounts at three financial institutions. Our liabilities have typically consisted of accounts payable and accrued compensation. We regularly monitor our liquidity position, including cash level, credit lines, interest and payments on debt, capital expenditures and other matters relating to liquidity and compliance with regulatory net capital requirements.

During the nine months ended September 30, 2018, we generated approximately \$75.9 million of cash from operations. Our short-term liquidity needs are typically related to compensation expenses and other operating expenses such as occupancy, supplies, marketing, professional fees and travel and entertainment. For the nine months ended September 30, 2018, we incurred approximately \$396.5 million in total operating expenses. A large portion of our operating expenses are variable, highly correlated to our revenue streams and dependent on the collection of transaction fees. During the nine months ended September 30, 2018, approximately 56.6% of our operating expenses were considered variable expenses. Our cash flow generated from operations historically has been sufficient to enable us to meet our objectives. However, if the economy deteriorates in the future, we may be unable to generate enough cash flow from operations to meet our operating needs and therefore we could use all or substantially all of our existing cash reserves on hand to support our operations. We currently believe that cash flows from operating activities and our existing cash balance will provide adequate liquidity and are sufficient to meet our working capital

needs for the foreseeable future.

Our tax receivable agreement with HFF Holdings entered into in connection with our initial public offering provides for the payment by us to HFF Holdings of 85% of the amount of cash savings in U.S. federal, state and local income tax that we actually realize as a result of the increases in tax basis and as a result of certain other tax benefits arising from our entering into the tax receivable agreement and making payments under that agreement. We have estimated that future payments that will be made to HFF Holdings will be \$50.3 million, of which approximately \$8.3 million is anticipated to be paid in 2019.

Our liquidity needs related to our long-term obligations are primarily related to our facility leases. For the nine months ended September 30, 2018, we incurred approximately \$11.9 million in occupancy expenses.

30

During the period ended September 30, 2018, the Company entered into a Risk Transfer Agreement with M&T-RCC. Through this agreement the Company sources certain loans to M&T-RCC who then funds such loans through M&T-RCC's Fannie Mae DUS® platform. We are required to share the risk of loss on loans sold through M&T-RCC's Fannie Mae DUS® platform under the terms of the Risk Transfer Agreement. For each loan originated under the Risk Transfer Agreement, we deposit a portion of the original principal balance to serve as collateral for future loan losses. Our loss exposure is capped at 33.33% of the unpaid principal balance in excess of the collateral securing such loan. As of September 30, 2018, the Company's maximum quantifiable loss exposure associated with our indemnification obligation was \$18.7 million. The maximum quantifiable liability is not representative of the actual loss we may incur as we would only be liable for this amount in the event that all of the loans that we indemnify for M&T-RCC were to default and all of the collateral underlying these loans was determined to be without value at the time of settlement.

We are a party to an uncommitted \$600 million financing arrangement with PNC that has a maximum capacity of \$1.0 billion. We also have an uncommitted \$150 million financing arrangement with Huntington that can be increased to \$175 million three times in a one-year period for 45 calendar days. Pursuant to these arrangements, PNC or Huntington funds the multifamily Freddie Mac loan closings in accordance with the Freddie Mac Program on a transaction-by-transaction basis, with each loan being separately collateralized by a loan and mortgage on a multifamily property that is ultimately purchased by Freddie Mac. The PNC and Huntington financing arrangements are only for the purpose of supporting our participation in the Freddie Mac Program and cannot be used for any other purpose. The PNC arrangement was amended during the third quarter of 2017 to increase the uncommitted amount from \$450 million to \$600 million, which can be increased to \$1.0 billion for the remainder of 2018. On October 1, 2018, HFF LP entered into the Extended Funding Agreement with Freddie Mac whereby Freddie Mac can extend the required purchase date for each mortgage that has an Original Funding Date (as defined in the Extended Funding Agreement) occurring within the fourth quarter of 2018, to February 15, 2019. In connection with the Extended Funding Agreement with Freddie Mac, PNC agreed to increase the maximum capacity of the financing arrangement to \$2.5 billion through the term of the Extended Funding Agreement. As of September 30, 2018, we had outstanding borrowings of \$632.5 million under the PNC/Huntington arrangements. Non-cash activity totaling \$182.3 million increased these financing arrangements during the nine months ended September 30, 2018. Although we believe that our current financing arrangements with PNC and Huntington are sufficient to meet our current needs in connection with our participation in the Freddie Mac Program, in the event we are not able to secure financing for our Freddie Mac loan closings, we will cease originating such Freddie Mac loans until we have available financing.

Critical Accounting Policies

We prepare our financial statements in accordance with U.S. generally accepted accounting principles. In applying many of these accounting principles, we need to make assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses in our consolidated financial statements. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable under the circumstances. These assumptions, estimates and judgments, however, are often subjective and our actual results may change negatively based on changing circumstances or changes in our analyses. If actual amounts are ultimately different from our estimates, the revisions are included in our results of operations for the period in which the actual amounts become known. We believe the following critical accounting policies could potentially produce materially different results if we were to change underlying assumptions, estimates and/or judgments. See the notes to our consolidated financial statements for a summary of our significant accounting policies.

Business Combinations. The Company accounts for acquired businesses using the acquisition method of accounting, which requires that the assets acquired and liabilities assumed be recorded at the date of acquisition at their respective estimated fair values. The cost to acquire a business is allocated to the underlying net assets of the acquired business based on estimates of their respective fair values. The purchase price allocation process requires management to make significant estimates and assumptions with respect to intangible assets. Although we believe the assumptions and estimates we have made are reasonable, they are based in part on historical experience and information obtained from the management of the acquired companies and are inherently uncertain. Examples of critical estimates in valuing certain of the intangible assets we have acquired or may acquire in the future include but are not limited to: future expected cash flows from customer relationships and discount rates. The fair value of the acquired intangible assets is considered a level 3 asset within the fair value hierarchy and is amortized over the expected life of the asset.

Goodwill. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Goodwill is required to be tested for impairment at least annually. The Company performs its annual impairment test as of October 1st or more frequently when indicators of impairment are present. The goodwill impairment test involves comparing the fair value of a reporting unit to its carrying value, including goodwill. A goodwill impairment loss is recognized for the amount that the carrying amount of a reporting unit, including goodwill, exceeds its fair value, limited to the total amount of goodwill allocated to that reporting unit. The Company uses a combination of a discounted cash flow model (“DCF model”) and a market approach to determine the current fair values of the reporting units. A number of significant assumptions and estimates are involved in the application of the DCF model to forecast operating cash flows, including capital market information and market share, sales volume and pricing, costs of services, working capital changes and discount rates. The fair value of goodwill is considered a level 3 asset within the fair value hierarchy.

Intangible Assets. Intangible assets include mortgage servicing rights under agreements with third-party lenders, non-competition agreements and customer relationships. Servicing rights are recorded at the lower of cost or market. Mortgage servicing rights do not trade in an active, open market with readily available observable prices. Since there is no ready market value for the mortgage servicing rights, such as quoted market prices or prices based on sales or purchases of similar assets, we determine the fair value of the mortgage servicing rights by estimating the present value of future cash flows associated with servicing the loans. Management makes certain assumptions and judgments in estimating the fair value of servicing rights. The estimate is based on a number of assumptions, including the benefits of servicing (contractual servicing fees and interest on escrow and float balances), the cost of servicing, prepayment rates (including risk of default), an inflation rate, the expected life of the cash flows and the discount rate. Management estimates a market participant’s cost of servicing by analyzing the limited market activity and considering our own internal servicing costs. Management estimates the discount rate by considering the various risks involved in the future cash flows of the underlying loans which include the cancellation of servicing contracts, concentration in the life company portfolio and the incremental risk related to large loans. Management estimates the

prepayment levels of the underlying mortgages by analyzing recent historical experience. Many of the commercial loans being serviced have financial penalties for prepayment or early payoff before the stated maturity date. As a result, we have consistently experienced a low level of loan runoff. The estimated value of the servicing rights is impacted by changes in these assumptions. As of September 30, 2018, the fair value and net book value of the servicing rights were \$82.6 million and \$64.3 million, respectively. The most sensitive assumptions in estimating the fair value of the mortgage servicing rights are the level of prepayments, discount rate and cost of servicing. If the assumed level of prepayments increased 93%, the discount rate increased 60% or if there is a 18% increase in the cost of servicing at the stratum level, the estimated fair value of the servicing rights may result in the recorded mortgage servicing rights being potentially impaired and would require management to measure the amount of the potential impairment charge. The effect of a variation in each of these assumptions on the estimated fair value of the servicing rights is calculated independently without changing any other assumption. Servicing rights are amortized in proportion to and over the period of estimated servicing income which results in an accelerated level of amortization. We evaluate intangible assets for potential impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Income Taxes. The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax losses and for tax credit carryforwards, if any. Deferred tax assets and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period of the tax rate change. In assessing the realizability of deferred tax assets, we consider whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company completed its analysis related to the impacts of the 2017 Tax Act during the third quarter 2018 in connection with the finalization of its tax returns. There were no adjustments from previously estimated amounts as a result of the completion of the Company's assessment.

Our effective tax rate is sensitive to several factors including changes in the mix of our geographic profitability. We evaluate our estimated tax rate on a quarterly basis to reflect changes in: (i) our geographic mix of income, (ii) legislative actions on statutory tax rates, and (iii) tax planning for jurisdictions affected by double taxation. We continually seek to develop and implement potential strategies and/or actions that would reduce our overall effective tax rate.

The net deferred tax asset of \$42.6 million at September 30, 2018 is comprised mainly of a \$51.6 million deferred tax asset related to the Section 754 of the Internal Revenue Code ("Section 754") election tax basis step up. The net deferred tax asset related to the Section 754 election tax basis step up represents annual pre-tax deductions on the Section 754 basis step up and payments under the tax receivable agreement of approximately \$38.4 million in 2018, then increasing to \$45.7 million in 2021 and then decreasing over the next eight years to approximately \$0.1 million by 2029. In order to realize the anticipated pre-tax benefit of approximately \$38.4 million in 2018, the Company needs to generate approximately \$369 million in revenue, assuming a constant cost structure. In the event that the Company cannot realize the annual pre-tax benefit each year, the shortfall becomes a net operating loss that can be carried forward indefinitely to offset future taxable income. If it is more likely than not that the Company would not be able to generate a sufficient level of taxable income through the carryforward period, a valuation allowance would be recorded as a charge to income tax expense and a proportional reduction would be made in the payable under the tax receivable agreement which would be recorded as income in the consolidated statements of comprehensive income. The trend in revenue growth over the next few years and through the amortization and carryforward periods is a key factor in assessing the realizability of the deferred tax assets.

Leases. The Company leases all of its facilities under operating lease agreements. These lease agreements typically contain tenant improvement allowances. The Company records tenant improvement allowances as leasehold improvement assets, included in property and equipment, net in the consolidated balance sheet, and related deferred rent liabilities and amortizes them on a straight-line basis over the shorter of the term of the lease or useful life of the asset as additional depreciation expense and a reduction to rent expense, respectively. Lease agreements sometimes contain rent escalation clauses or rent holidays, which are recognized on a straight-line basis over the life of the lease in accordance with ASC 840, Leases (ASC 840). Lease terms generally range from three to eleven years. An analysis is performed on each equipment lease to determine whether it should be classified as a capital or operating lease according to ASC 840.

Firm and Office Profit Participation Plans and Executive Bonus Plan. The Company's firm and office profit participation plans and executive bonus plan provide for payments in cash and share-based awards if certain performance targets are achieved during the year. The expense recorded for these plans is estimated during the year based on actual results at each interim reporting date and an estimate of future results for the remainder of the year. The plans allow for payments to be made in both cash and share-based awards, the composition of which is

determined in the first calendar quarter of the subsequent year. Cash and share-based awards issued under these plans are subject to vesting conditions over the subsequent year, such that the total expense measured for these plans is recorded over the period from the beginning of the performance year through the vesting date. Based on an accounting policy election, the expense associated with the share-based component of the estimated incentive payout is recognized before the grant date of the stock due to the fact that the terms of the profit participation plans have been approved by the Company's board of directors, the employees of the Company understand the requirements to earn the award, the number of shares is not determined before the grant date and, finally, if the performance metrics are not met during the performance year, the award is not earned and therefore forfeited. Prior to the grant date, the share-based component expense is recorded as incentive compensation within personnel expenses in the Company's consolidated statements of comprehensive income. Following the award, if any, of the related incentive payout, the stock component expense is reclassified as stock compensation costs within personnel expenses. See Note 2 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its firm and office profit participation bonus plans and executive bonus plan.

Certain Information Concerning Off-Balance Sheet Arrangements

We do not currently invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support. Other than the risk-sharing obligations under the Risk Transfer Agreement disclosed previously in this Quarterly Report on Form 10-Q, we do not have any off-balance sheet arrangements or engage in any leasing activities that expose us to any liability that is not reflected in our consolidated financial statements.

Seasonality

Our capital markets services revenue has historically been seasonal, which can affect an investor's ability to compare our financial condition and results of operation on a quarter-by-quarter basis. This seasonality has caused our revenue, operating income, net income and cash flows from operating activities to be lower in the first half of the year and higher in the second half of the year. The typical concentration of earnings and cash flows in the last half of the year has historically been due to an industry-wide focus of clients to complete transactions towards the end of the calendar year. However, disruptions, write-offs and credit losses in the global and domestic capital markets, liquidity issues facing all global capital markets, and in particular, U.S. commercial real estate markets, this historical pattern of seasonality may or may not continue.

Effect of Inflation and Deflation

Inflation or deflation, or both, could significantly affect our compensation costs, particularly those not directly tied to our capital markets advisors' compensation, due to factors such as availability of capital and/or increased costs of capital. The rise of inflation could also significantly and adversely affect certain expenses, such as debt service costs, information technology and occupancy costs. To the extent that inflation or deflation results in rising interest rates and has other effects upon the commercial real estate markets in which we operate and, to a lesser extent, the securities markets, it may affect our financial position and results of operations by reducing the demand for commercial real estate and related services which could have a material adverse effect on our financial condition. See Part II, Item 1A, "Risk Factors" in this Quarterly Report on Form 10-Q.

Recent Accounting Pronouncements

For information regarding Recent Accounting Pronouncements, see Note 1 of the Notes to Consolidated Financial Statements, included in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Due to the nature of our business and the manner in which we conduct our operations, in particular the fact that our financial instruments that are exposed to concentrations of credit risk consist primarily of short-term cash deposits and investments, we believe we do not face any material interest rate risk, equity price risk or other market risk.

Foreign Currency Exchange Rate Risk

We may be subject to exposures to changes in foreign currency exchange rates. Our risk management objective is to reduce our exposure to the effects of changes in exchange rates and we may manage our exposure to changes in foreign currency exchange rates by entering into foreign currency forward contracts. We did not engage in foreign currency hedging transactions during the three months ended September 30, 2018 and 2017.

Item 4. Controls and Procedures

Management's Quarterly Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, as amended is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required financial disclosure.

Our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively) have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of September 30, 2018, the Company's disclosure controls and procedures are effective to provide reasonable assurance that material information required to be included in our periodic SEC reports is recorded, processed, summarized and reported within the time periods specified in rules and forms.

The design of any system of control is based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated objectives under all future events, no matter how remote, or that the degree of compliance with the policies or procedures may not deteriorate. Because of its inherent limitations, disclosure controls and procedures may not prevent or detect all misstatements. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during the three-month period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to various litigation matters, in most cases involving normal ordinary course and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to such pending matters. In accordance with ASC 450, Contingencies, a reserve for estimated losses is recorded when the amount is probable and can be reasonably estimated. However, we believe, based on our examination of such pending matters, that our ultimate liability for such matters will not have a material adverse effect on our business or financial condition.

Item 1A. Risk Factors.

We are subject to risk of loss in connection with defaults on loans sold under the Risk Transfer Agreement that could materially and adversely affect our results of operations and liquidity.

The Company sources certain loans to M&T-RCC who then funds such loans through M&T RCC's Fannie Mae DUS® platform. We are required to share the risk of loss on loans sold through M&T-RCC's Fannie Mae DUS® platform under the terms of the Risk Transfer Agreement. For each loan originated under the Risk Transfer Agreement, we deposit a portion of the original principal balance to serve as collateral for future loan losses. Our loss exposure is capped at 33.33% of the unpaid principal balance in excess of the collateral securing such loan. If future loan defaults exceed our estimated reserve levels, actual risk-sharing obligation payments under the Risk Transfer Agreement may increase, and such defaults and payments could have a material adverse effect on our results of operations and liquidity. As of September 30, 2018, the Company's maximum quantifiable loss exposure associated with our indemnification obligation was \$18.7 million.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2017, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K and this Quarterly Report on Form 10-Q are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On March 29, 2017, we completed the acquisition of Hentschel & Company, LLC, pursuant to which we issued 83,333 restricted shares of our Class A common stock to the equity holder of the acquired entity as part of the transaction consideration. No underwriters were involved in the foregoing issuance of securities. The issuance of such shares was deemed to be exempt from registration under the Securities Act of 1933, as amended, in reliance on Section 4(a)(2) and Rules 505 and 506 thereunder, as transactions by an issuer not involving a public offering. We determined that the acquirer of the restricted shares in the transaction, Stephen Hentschel, was an accredited investor.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.
