Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “continues,” “may,” “will,” “should,” “seeks,” “approximately,” “intends,” “plans,” “estimates,” “anticipates” or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under the section entitled "Risk Factors" in our Form 10-K for the year ended December 31, 2013, as such factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC’s website at www.sec.gov, including the following:

- adverse global, national and regional economic, market and real estate conditions;
- the competitive environment in which we operate and the ability to renew or re-let space as leases expire;
- financial stability of tenants, including the ability of tenants to pay rent, tenants’ decision to close stores or maintain and renew leases and the effect of bankruptcy laws;
- the illiquidity of real estate property investments;
- increasing or constant expenses at times when income from our properties decreases;
- adverse effects of required payments of debt or related interest;
- our significant leverage;
- inability to obtain financing through the debt and equity markets;
- interest rate risk due to our variable rate indebtedness;
- loss of our investment in a property or group of properties through foreclosure due to default in our mortgage debt obligations;
- covenants in our debt agreements limiting our flexibility in operating our business;
- inability to realize expected returns on current and future redevelopment or real estate property acquisitions;
- inadequate insurance coverage;
- environmental regulations, expenditures and liabilities;
- expenditures in connection with compliance with the Americans with Disabilities Act and fire, safety and other regulations;
- future losses;

impairment of the value of our real estate assets;

cybersecurity risks;

failure to attract and retain key members of senior management;

- 3 -

• competition in pursuing acquisition opportunities;

• Blackstone's (as defined in Note 1) control of us;

• consequences of a loss of our qualification as a real estate investment trust ("REIT");

• incurrence of tax liabilities in connection with our REIT status;

• compliance with REIT requirements (i) causing us to forego otherwise attractive opportunities and limit our expansion opportunities; (ii) forcing us to liquidate or restructure otherwise attractive investments; (iii) limiting our ability to hedge effectively and causing us to incur tax liabilities; (iv) causing us to borrow to make distributions to stockholders; (v) causing us to depend on external sources of capital to fund growth and (vi) restricting our ownership of and relationship with any taxable REIT subsidiaries ("TRS"); and

• adverse legislative or regulatory tax changes.

These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report and in our other periodic filings. The forward-looking statements speak only as of the date of this report, and we undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Unless otherwise stated or indicated by context, all references to "we," "us," "our," "ours," "Brixmor" or the "Company" in this Quarterly Report refer to Brixmor Property Group Inc. and its consolidated subsidiaries.

BRIXMOR PROPERTY GROUP INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2014 and 2013

(Unaudited, in thousands, unless otherwise stated)

1. Nature of Business and Financial Statement Presentation

Description of Business

Brixmor Property Group Inc. and its consolidated subsidiaries (the “Company”) were formed for the purpose of owning, operating and managing grocery-anchored community and neighborhood shopping centers throughout the United States.

The Company does not distinguish its principal business or group its operations on a geographical basis for purposes of measuring performance. Accordingly, the Company believes it has a single reportable segment for disclosure purposes in accordance with U.S. generally accepted accounting principles (“GAAP”).

Initial Public Offering and IPO Property Transfers

On November 4, 2013, the Company completed an initial public offering (“IPO”) in which it sold approximately 47.4 million shares of its common stock, at an IPO price of \$20.00 per share. The Company received net proceeds from the sale of shares in the IPO of approximately \$893.9 million after deducting \$54.9 million in underwriting discounts, expenses and transaction costs. Of the total proceeds received, \$824.7 million was used to pay down amounts outstanding under the Company's Unsecured Credit Facility (see Note 5 for additional information).

In connection with the IPO, the Company acquired interests in 43 properties (the “Acquired Properties”) from certain investment funds affiliated with The Blackstone Group L.P. (together with such affiliated funds, “Blackstone”) in exchange for 15,877,791 common units of partnership interest (the “OP Units”) in Brixmor Operating Partnership LP (the “Operating Partnership”) having a value equivalent to the value of the Acquired Properties. In connection with the acquisition of the Acquired Properties, the Company repaid \$66.6 million of indebtedness to Blackstone attributable to certain of the Acquired Properties with a portion of the net proceeds of the IPO. During the three months ended March 31, 2014 the Company repaid the remaining \$7.6 million of indebtedness to Blackstone attributable to certain of the Acquired Properties.

Also in connection with the IPO the Company created a separate series of interest in the Operating Partnership (“Series A”) that allocated to certain funds affiliated with The Blackstone Group L.P. and Centerbridge Partners, L.P. (owners of the Operating Partnership prior to the IPO) (the “pre-IPO owners”) all of the economic consequences of ownership of the Operating Partnership’s interest in 47 properties that the Operating Partnership historically held in its portfolio (the “Non-Core Properties”). During 2013, the Company disposed of 11 of the Non-Core Properties. During the three months ended March 31, 2014, the Operating Partnership caused its ownership interests in all but one of the remaining 36 Non-Core Properties to be transferred to the pre-IPO owners. The 35 Non-Core Properties distributed to the pre-IPO owners had a carrying value of \$179.0 million and a fair value of \$195.2 million resulting in a gain of \$16.2 million. The one remaining Non-Core Property was transferred to the lender in satisfaction of the property's mortgage balance and, following such transfer, on March 28, 2014, the Series A was terminated. The operating results of the 44 wholly-owned Non-Core Properties, including the gain on disposition, are included in Discontinued operations on the unaudited Condensed Consolidated Statements of Operations. The operating results of the remaining three Non-Core Properties, in which the Company owned a 20% interest, are included in Equity in income of unconsolidated joint ventures within continuing operations, through their distribution date, on the unaudited Condensed Consolidated Statements of Operations.

Basis of Presentation

Edgar Filing: Brixmor Property Group Inc. - Form 10-Q

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for the fair presentation of the financial position of the Company at March 31, 2014 and the results of operations for the periods presented have been included. The operating results for the period presented are not necessarily indicative of the results that may be expected for a full fiscal year. These financial statements should be read in conjunction with the financial

- 10 -

statements and accompanying notes included in the Company's Form 10-K for the year ended December 31, 2013 filed with the SEC on March 12, 2014.

Certain prior period balances in the accompanying unaudited Condensed Consolidated Statements of Operations have been reclassified to conform to the current period presentation including for the results of discontinued operations.

Principles of Consolidation

The accompanying unaudited Condensed Consolidated Financial Statements include the accounts of Brixmor Property Group Inc., its wholly owned subsidiaries and all other entities in which it has a controlling financial interest. The portions of consolidated entities not owned by the Company are presented as non-controlling interests as of and during the periods presented. All intercompany transactions have been eliminated.

Subsequent Events

In preparing the unaudited Condensed Consolidated Financial Statements, the Company has evaluated events and transactions occurring after March 31, 2014 for recognition or disclosure purposes. Based on this evaluation, there were no subsequent events from March 31, 2014 through the date the financial statements were issued.

Income Taxes

The Company has elected to qualify as a REIT in accordance with the Internal Revenue Code (the "Code"). To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its adjusted REIT taxable income to its stockholders. It is management's intention to adhere to these requirements and maintain the Company's REIT status.

As a REIT, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income as defined under the Code. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years.

New Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board issued ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU No. 2014-08 amends the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity's operations and financial results. The amendments require expanded disclosures for discontinued operations that would provide users of financial statements with more information about the assets, liabilities, revenues, and expenses of discontinued operations reporting. ASU No. 2014-08 is to be applied prospectively to all disposals (or classifications as held for sale) of components of an entity and all businesses or nonprofit activities that, on acquisition, are classified as held for sale that occur within fiscal years, and interim periods within those years, beginning after December 15, 2014. The adoption of ASU 2014-08 is expected to eliminate discontinued operations reporting for disposals that are routine in nature and do not change the Company's strategy.

It has been determined that any other recently issued accounting standards or pronouncements not disclosed above have been excluded as they either are not relevant to the Company, or they are not expected to have a material effect on the unaudited Condensed Consolidated Financial Statements of the Company.

2. Discontinued Operations and Assets Held for Sale

The Company reports as discontinued operations real estate assets that are held for sale as of the end of the current period and real estate assets that were disposed of during the period. The operating results of the real estate properties are included in a separate component of income on the unaudited Condensed Consolidated Statements of Operations

under Discontinued operations. This has resulted in certain reclassifications for the three months ended March 31, 2013.

Discontinued operations includes the results of 51 shopping centers, including the 44 wholly-owned Non-Core Properties, disposed of during the year ended December 31, 2013 and the three months ended March 31, 2014.

As of March 31, 2014, the Company did not have any properties classified as held for sale. As of December 31, 2013, the Company had one property classified as held for sale and is presented in Other assets within the unaudited Condensed Consolidated Balance Sheets. The property had a carrying value of approximately \$5.5 million as of December 31, 2013.

During the three months ended March 31, 2014, one of the Non-Core Properties was transferred to the lender in satisfaction of the property's mortgage balance resulting in a \$6.1 million gain on extinguishment of debt which is included in Other income (expense), net.

During the three months ended March 31, 2013, the Company disposed of two shopping centers for aggregate proceeds of \$10.9 million. In connection with these dispositions, the Company recognized provisions for impairment of \$3.0 million. For purposes of measuring this provision, fair value was determined based upon contracts with buyers and then adjusted to reflect associated disposition costs.

3. Real Estate

The Company's components of Real estate, net consisted of the following:

	March 31, 2014	December 31, 2013
Land	\$1,998,902	\$2,055,802

respectively, of above-market leases, and (iii) \$476.1 million and \$462.5 million, respectively, of accumulated amortization. These intangible assets are amortized over the term of each related lease. In addition, at March 31, 2014 and December 31, 2013, the Company had intangible liabilities relating to below-market leases of \$534.7 million and \$541.8 million, respectively, and accumulated amortization of \$164.9 million and \$153.6 million, respectively. These intangible liabilities, which are included in Accounts payable, accrued expenses and other liabilities in the Company's unaudited Condensed Consolidated Balance Sheets, are amortized over the term of each related lease including any renewal periods with fixed rentals that are considered to be below market.

Amortization expense associated with the above mentioned intangible assets and liabilities recognized for the three months ended March 31, 2014 and 2013 was \$21.7 million and \$25.5 million, respectively. The estimated net amortization expense associated with the Company's intangible assets and liabilities for the next five years is as follows:

Year ending December 31,	Estimated net amortization expense
2014 (remaining nine months)	\$51,792
2015	46,370
2016	22,207
2017	9,811
2018	3,642

On a continuous basis, management assesses whether there are any indicators, including property operating performance and general market conditions, that the value of the Company's assets (including any related amortizable intangible assets or liabilities) may be impaired. To the extent impairment has occurred, the carrying value of the asset would be adjusted to an amount to reflect the estimated fair value of the asset.

During the three months ended March 31, 2014 and 2013, the Company did not recognize any provisions for impairment, excluding provisions for impairment included in Discontinued operations.

4. Financial Instruments - Derivatives and Hedging

The Company's use of derivative instruments is limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. In certain situations, the Company has entered into derivative financial instruments such as interest rate swap and interest rate cap agreements to manage interest rate risk exposure arising from variable rate debt transactions that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's objective in using interest rate derivatives is to add stability to interest expense and to manage its exposure to interest rate movements.

Cash Flow Hedges of Interest Rate Risk

Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without changing the underlying notional amount. During the three months ended March 31, 2014, the Company did not enter into any new interest rate swap agreements. During the year ended December 31, 2013, the Company entered into five forward starting interest rate swap agreements with a notional amount of \$1,500.0 million to hedge the variable cash flows associated with third party debt.

A detail of the Company's interest rate derivatives designated as cash flow hedges outstanding as of March 31, 2014 is as follows:

	Number of Instruments	Notional Amount
Interest Rate Swaps	5	\$1,500,000

The Company has elected to present its interest rate derivatives on its unaudited Condensed Consolidated Balance Sheets on a gross basis as interest rate swap assets and interest rate swap liabilities. A detail of the Company's fair value of interest rate derivatives on a gross and net basis as of March 31, 2014 and December 31, 2013, respectively, is as follows:

Edgar Filing: Brixmor Property Group Inc. - Form 10-Q

Interest rate swaps classified as:	Fair Value of Derivative Instruments	
	March 31, 2014	December 31, 2013
Gross derivative assets	\$—	\$—
Gross derivative liabilities	(6,597)	(6,795)
Net derivative liability	\$(6,597)	\$(6,795)

- 13 -

All of the Company's outstanding interest rate swap agreements for the periods presented were designated as cash flow hedges of interest rate risk. The effective portion of changes in the fair value of derivatives designated as, and that qualify as, cash flow hedges is recorded in other comprehensive income ("OCI") and is reclassified into earnings as interest expense in the period that the hedged forecasted transaction affects earnings. The effective portion of the Company's interest rate swaps that was recorded in the accompanying unaudited Condensed Consolidated Statements of Operations for the three months ended March 31, 2014 is as follows:

Derivatives in Cash Flow Hedging Relationships (Interest Rate Swaps and Caps)	Three Months Ended March 31, 2014
Amount of loss recognized in OCI on derivative	\$(2,265)
Amount of loss reclassified from accumulated OCI into interest expense	\$(2,464)

The Company estimates that approximately \$9.6 million will be reclassified from accumulated other comprehensive loss as an increase to interest expense over the next twelve months. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on the Company's cash flow hedges during the three months ended March 31, 2014 and the year ended December 31, 2013.

Non-Designated (Mark-to Market) Hedges of Interest Rate Risk

The Company does not use derivatives for trading or speculative purposes. Derivatives not designated as hedges are used to manage the Company's exposure to interest rate movements but do not meet the strict hedge accounting requirements. The Company's only non-designated interest rate derivatives held as of March 31, 2014 and December 31, 2013 were interest rate caps. Interest rate caps involve the receipt of variable amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. As of March 31, 2014 and December 31, 2013, the fair value of these interest rate caps was nominal, and, during the three months ended March 31, 2014, and 2013, no payments were received from the respective counterparties.

A detail of the Company's non-designated interest rate derivatives outstanding as of March 31, 2014 is as follows:

	Number of Instruments	Notional Amount
Interest Rate Caps	10	\$1,118,000

Credit-risk-related Contingent Features

The Company has agreements with its derivative counterparties that contain a provision whereby if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. If the Company were to breach any of the contractual provisions of the derivative contracts, it would be required to settle its obligations under the agreements at their termination value including accrued interest, or approximately \$6.7 million.

5. Debt Obligations

As of March 31, 2014 and December 31, 2013, the Company had the following indebtedness outstanding:

Total debt obligations, net	\$5,975,891	\$5,981,289		

(1) The Company's mortgages and secured loans are collateralized by certain properties and the equity interests of certain subsidiaries. These properties had a carrying value as of March 31, 2014 of approximately \$4.2 billion.

(2) The weighted average interest rate on the Company's fixed rate mortgage and secured loans was 5.95% as of March 31, 2014.

The weighted average interest rate on the Company's variable rate mortgage was 3.75% as of March 31, 2014. The Company incurs interest on a \$57.0 million mortgage using the 30-day LIBOR rate (which was 0.15% as of March 31, 2014 subject to a rate floor requirement of 25 basis points), plus an interest spread of 350 basis points.

(3) The weighted average interest rate on the Company's unsecured notes was 5.75% as of March 31, 2014.

The Company had a one-time put repurchase right to certain unsecured notes that required the Company to offer to repurchase the notes if tendered by holders (but did not require the holders to tender) for an amount equal to the

(5) principal amount plus accrued and unpaid interest on January 15, 2014. In January 2014 \$57.7 million was tendered to, and repurchased by the Company. The Company also repaid an additional \$2.2 million of the notes in separate transactions during the three months ended March 31, 2014.

The Unsecured Credit Facility consists of a \$1.25 billion revolving credit facility and a \$1.5 billion term loan facility. The Company has in place five forward starting interest rate swap agreements that convert the floating interest rate on the \$1.5 billion term loan facility to a fixed, combined interest rate of 0.844% plus an interest spread of 150 basis points.

2014 Debt Transactions

During the three months ended March 31, 2014, the Operating Partnership entered into an unsecured \$600.0 million term loan (the "Term Loan") which matures on March 18, 2019. The obligations under the Term Loan are guaranteed by both BPG Subsidiary Inc. ("BPG Sub") and Brixmor OP GP LLC, the general partner of the Operating Partnership, (together, the "Parent Guarantors"). The Term Loan bears interest, at the Operating Partnership's option, at a rate equal to a margin over either (a) a base rate determined by reference to the highest of (1) the administrative agent's prime

lending rate, (2) the federal funds effective rate plus half of 1%, and (3) the LIBOR rate that would be payable on such day for a LIBOR rate loan with a one-month interest period plus 1% or (b) a LIBOR rate determined by reference to the BBA LIBOR rate for the interest period relevant to a particular borrowing. The margin associated with the Term Loan is based on a total leverage based grid and ranges from 0.35% to 0.75%, for base rate loans, and 1.35% to 1.75% for LIBOR rate loans. Proceeds from borrowings under the Term Loan were used to repay outstanding borrowings on the Company's Unsecured Credit Facility.

In addition, during the three months ended March 31, 2014, the Company repaid \$569.6 million of mortgages and secured loans and repaid \$60.0 million of unsecured notes resulting in a \$2.3 million net loss on extinguishment of debt. These repayments were funded primarily from borrowings under the Company's Unsecured Credit Facility.

Pursuant to the terms of the Term Loan and Unsecured Credit Facility, the Company among other things, is subject to maintenance of various financial covenants. The Company is currently in compliance with these covenants.

Debt Maturities

As of March 31, 2014 and December 31, 2013, the Company had accrued interest of \$26.6 million and \$32.2 million outstanding, respectively. As of March 31, 2014, scheduled maturities of the Company's outstanding debt obligations were as follows:

Year ending December 31,	
2014 (remaining nine months)	\$72,169
2015	728,909
2016	1,318,644
2017	524,595
2018	1,521,557
Thereafter	1,734,224
Total debt maturities	5,900,098
Net unamortized premiums on mortgages	87,556
Net unamortized discount on notes	(11,763
Total debt obligations	\$5,975,891

6. Financing Liabilities

As of March 31, 2014 and December 31, 2013, the Company had the following financing liabilities outstanding:

	Carrying Value as of		Stated Interest Rates	Scheduled Maturity Date
	March 31, 2014	December 31, 2013		
Financing Liabilities				
Inland preferred interest (1)	\$121,470	\$130,966	11.00%	2015
Capital leases (2)	—	41,723	N/A	N/A
Total financing liabilities	121,470	172,689		
Net unamortized premium	—	2,422		
Total financing liabilities, net	\$121,470	\$175,111		

(1) On December 6, 2010, the Company formed a real estate venture with Inland American CP Investment, LLC (“Inland”). The Company contributed 25 shopping centers with a fair value of approximately \$471.0 million and Inland contributed cash of \$121.5 million, resulting in Inland receiving a 70% ownership interest with a cumulative preferential share of cash flow generated by the shopping centers at an 11% stated return. The Company received a 30% ownership interest, subordinated to Inland’s preferred interest. Due to the venture agreement providing Inland with the right to put its interest to the Company for an amount of cash equal to the amount it contributed plus accrued interest beginning December 6, 2015, the Company consolidates the real estate venture under the financing method which requires the amount Inland contributed to be reflected as a liability. The venture agreement also provided the Company with the right to call Inland’s interest, beginning December 6, 2014, for an amount of cash determined on the same basis as described above.

(2) During the three months ended March 31, 2014, the Company exercised its option to purchase the underlying assets subject to the capital leases.

7. Fair Value Disclosures

All financial instruments of the Company are reflected in the accompanying unaudited Condensed Consolidated Balance Sheets at amounts which, in management's judgment, reasonably approximate their fair values, except those instruments listed below:

Edgar Filing: Brixmor Property Group Inc. - Form 10-Q

	March 31, 2014		December 31, 2013	
	Carrying Amounts	Fair Value	Carrying Amounts	Fair Value
Mortgage and secured loans payable	\$3,420,982	\$3,333,428	\$4,021,259	\$4,179,640
Notes payable	281,904	293,667	339,851	371,393
Unsecured credit facility and term loan	2,273,005	2,273,005	1,620,179	1,620,179
Total debt obligations	\$5,975,891	\$5,900,100	\$5,981,289	\$6,171,212
Financing liabilities	\$121,470	\$121,470	\$175,111	\$175,111

The valuation methodology used to estimate the fair value of the Company's fixed and variable-rate indebtedness and financing liabilities is based on discounted cash flows, with assumptions that include credit spreads, loan amounts and debt maturities. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition.

As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy is included in GAAP that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs that are classified within Level 3 of the hierarchy).

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

At March 31, 2014 and December 31, 2013, the fair values of the Company's marketable securities, valued based on quoted market prices, were classified within Level 1 of the fair value hierarchy. Conversely, at March 31, 2014 and December 31, 2013, the fair values of the Company's mortgage and secured loans, notes payable, financing liabilities and interest rate caps, valued based on discounted cash flow or other similar methodologies were classified within Level 3 of the fair value hierarchy.

8. Redeemable Non-controlling Interests

The redeemable non-controlling interests presented in these unaudited Condensed Consolidated Financial Statements relate to portions of a consolidated subsidiary held by non-controlling interest holders in a partnership that was formed to own certain real estate properties which were contributed to it in exchange for cash, the assumption of mortgage indebtedness and limited partnership units.

The changes in redeemable non-controlling interests are as follows:

	Three Months Ended March 31, 2014	Year Ended December 31, 2013
Balance at beginning of period	\$21,467	\$21,467
Distributions to redeemable non-controlling interests	(322)	(1,288)

Balance at end of period	\$21,467	\$21,467

9. Non-controlling Interests

The non-controlling interests presented in these unaudited Condensed Consolidated Financial Statements relate to portions of consolidated subsidiaries held by the non-controlling interest holders.

Blackstone Retail Transaction II Holdco L.P. ("Holdco II"), an affiliate of Blackstone Real Estate Partners VI, L.P. owns 20.05% of BPG Sub. Holdco II may, from and after the first anniversary of the IPO, exchange their BPG Sub shares for shares of the Company's common stock on a one-for-one basis subject to customary rate adjustments for splits, share dividends and reclassifications, or, at the Company's election, for cash.

In connection with the IPO, the Company issued 15,877,791 OP Units in the Operating Partnership having a value of \$317.5 million in exchange for the Acquired Properties. These units represent a 5.22% non-controlling interest in the Operating Partnership. Holders of outstanding OP Units may, from and after the first anniversary of the IPO, redeem their OP Units for cash, or at our election, exchange their OP Units for shares of the Company's common stock on a one-for-one basis subject to customary rate adjustments for splits, unit distributions and reclassifications.

Also in connection with the IPO, the Company created the Series A that allocates to certain funds affiliated with the pre-IPO owners all of the economic consequences of ownership of the Operating Partnership's interest in 47 properties that the Operating Partnership historically held in its Non-Core Properties. During 2013, the Company disposed of 11 of the Non-Core Properties. As of December 31, 2013, the Company owned a 100% interest in 33 of the Non-Core Properties and a 20% interest in three of the Non-Core Properties. During the three months ended March 31, 2014, the Operating Partnership caused all but one of the Non-Core Properties to be transferred to the pre-IPO owners. The remaining Non-Core Property was transferred to the lender in satisfaction of the property's mortgage balance, and, following such transfer, on March 28, 2014, the Series A was terminated.

10. Stock Based Compensation

In 2011 and 2013 prior to the IPO, certain employees of the Company were granted long-term incentive awards which provide them with equity interests as an incentive to remain in the Company's service and align executives' interests with those of the Company's equity holders. The awards were granted to such employees by two of the Company's current equity holders, BRE Retail Holdco L.P. and Holdco II (the "Partnerships"), in the form of Class B Units in each of the Partnerships. The awards were granted with service, performance and market conditions. In connection with the IPO, certain of these awards vested and the vested awards were exchanged for a combination of vested common shares of the Company and vested shares of BPG Sub. The remaining unvested Class B Units as of the IPO effective date were exchanged for a combination of unvested restricted common shares of the Company and unvested restricted common shares of BPG Sub, (collectively, the "RSAs"). The RSAs are subject to the same vesting terms as those applicable to the exchanged Class B Units.

In connection with the IPO the Board of Directors approved the 2013 Omnibus Incentive Plan (the "Plan"). The Plan provides for a maximum of 15,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options, stock appreciation rights, restricted stock and restricted stock units, OP Units in the Operating Partnership, performance awards and other stock-based awards.

During the three months ended March 31, 2014, the Company granted restricted stock units ("RSUs") in the Company to certain employees, or at the election of certain employees, long-term incentive plan units ("LTIP Units") in the Operating Partnership. The RSUs and LTIP Units are divided into three tranches, with each tranche subject to separate performance-based vesting conditions, market-based vesting conditions and service based vesting conditions. Each award contains a threshold, target, and maximum number of units in respect to each tranche. The number of units actually earned for each tranche is determined based on performance during a specified performance period, and the earned units are then further subject to time-based vesting conditions. The aggregate number of RSUs and LTIP Units granted, assuming that the target level of performance is achieved, was 0.6 million with service periods ranging from one to five years.

The Company recognized \$2.1 million and \$1.6 million of equity based compensation expense for the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, the Company had \$27.2 million of total unrecognized compensation cost related to unvested stock compensation including \$5.8 million associated with a

portion of the RSAs subject to performance and market conditions which vest on the date, if any, that the Company's pre-IPO Owners receive cash proceeds resulting in a 15% internal rate of return on their investment in the Company, subject to continued employment on such date. The remaining \$21.4 million of unrecognized compensation cost related to unvested stock compensation is expected to be recognized over a weighted average period of approximately 2.3 years.

11. Earnings per Share

Basic earnings per share ("EPS") is calculated by dividing net income (loss) attributable to the Company's common stockholders, including participating securities, by the weighted average number of common shares outstanding for the period. Certain restricted shares issued pursuant to the Company's share-based compensation program are considered participating securities, as such shares have non-forfeitable rights to receive dividends. Unvested restricted shares are not allocated net losses and/or any excess of dividends declared over net income, as such amounts are allocated entirely to the common stockholders.

The following table provides a reconciliation of the numerator and denominator of the EPS calculations for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31, 2014	Three Months Ended March 31, 2013

Units and BPG Sub shares had an anti-dilutive effect upon the calculation of income from continuing operations per share for the three months ended March 31, 2014 and 2013. Accordingly, the impact of such conversions has not been included in the determination of diluted earnings per share. For the three months ended March 31, 2014, the weighted average number of vested OP Units and BPG Sub shares outstanding was 15.9 million shares and 58.2 million shares, respectively.

12. Commitments and Contingencies

Leasing commitments

The Company periodically enters into leases in connection with ground leases for neighborhood and community shopping centers which it operates and office leases for administrative space. During the three months ended March 31, 2014 and 2013, the Company recognized rent expense associated with these leases of \$2.4 million and \$2.3 million, respectively. Minimum annual rental commitments associated with these leases during the next five years and thereafter are as follows: 2014, \$6.0 million; 2015, \$8.0 million; 2016, \$7.6 million; 2017, \$7.6 million; 2018, \$7.2 million and thereafter, \$94.5 million.

Insurance captive

In April 2007, the Company formed a wholly owned captive insurance company, ERT-CIC, LLC (“ERT CIC”) which underwrote the first layer of general liability insurance programs for the Company’s wholly owned, majority owned and joint venture properties. The Company formed ERT-CIC as part of its overall risk management program and to stabilize insurance costs, manage exposure and recoup expenses through the functions of the captive program. The Company capitalized ERT CIC in accordance with the applicable regulatory requirements. ERT CIC established annual premiums based on projections derived from the past loss experience of the Company’s properties. ERT CIC engaged an independent third party to perform an actuarial estimate of future projected claims, related deductibles and projected expenses necessary to fund associated risk management programs. Premiums paid to ERT CIC may be adjusted based on this estimate and may be reimbursed by tenants pursuant to specific lease terms.

During 2012, the Company replaced ERT-CIC with a newly formed, wholly owned captive insurance company, Brixmor Incap, LLC (“Incap”). Incap underwrites the first layer of general liability insurance programs for the Company’s wholly owned, majority owned and joint venture properties. The Company formed Incap as part of its overall risk management program and to stabilize insurance costs, manage exposure and recoup expenses through the functions of the captive program. The Company has capitalized Incap in accordance with the applicable regulatory requirements. Incap established annual premiums based on projections derived from the past loss experience of the Company’s properties. Incap has engaged an independent third party to perform an actuarial estimate of future projected claims, related deductibles and projected expenses necessary to fund associated risk management programs.

Premiums paid to Incap may be adjusted based on this estimate and may be reimbursed by tenants pursuant to specific lease terms.

Environmental matters

Under various federal, state and local laws, ordinances and regulations, the Company may be considered an owner or operator of real property or may have arranged for the disposal or treatment of hazardous or toxic substances. As a result, the Company may be liable for certain costs including removal, remediation, government fines and injuries to persons and property. The Company does not believe that any resulting liability from such matters will have a material adverse effect on the financial position, results of operations or liquidity of the Company.

Other legal matters

The Company is subject to various other legal proceedings and claims that arise in the ordinary course of business. Management believes that the final outcome of such matters will not have a material adverse effect on the financial position, results of operations or liquidity of the Company.

13. Related-Party Transactions

In the ordinary course of conducting its business, the Company enters into customary agreements with its affiliates and unconsolidated joint ventures in relation to the leasing and management of its and/or its related parties' real estate assets.

As of March 31, 2014 and December 31, 2013, receivables from related parties were \$4.6 million and \$6.1 million, respectively, which are included in Receivables, net in the unaudited Condensed Consolidated Balance Sheets. As of March 31, 2014 and December 31, 2013, there were no material payables to related parties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and the accompanying notes thereto. Historical results and percentage relationships set forth in the unaudited Condensed Consolidated Statements of Operations and contained in the unaudited Condensed Consolidated Financial Statements and accompanying notes, including trends which might appear, should not be taken as indicative of future operations.

Executive Summary

Our Company

We are a REIT that owns and operates the largest wholly owned portfolio of grocery-anchored community and neighborhood shopping centers in the United States. Our high quality national portfolio is diversified by geography, tenancy and retail format, and our shopping centers are primarily anchored by market-leading grocers. We have been organized and operated in conformity with the requirements for qualification and taxation as a REIT under the United States federal income tax laws, commencing with our taxable year ended December 31, 2011, and we satisfied the requirements for qualification and taxation as a REIT under the United States income tax laws for our taxable year ended December 31, 2013, and expect to satisfy such requirements for subsequent taxable years.

Our primary objective is to maximize total returns to our stockholders through a combination of growth and value-creation at the asset level supported by stable cash flows. We seek to achieve this through ownership of a large, high quality, diversified portfolio of primarily grocery-anchored community and neighborhood shopping centers and by creating meaningful NOI growth from this portfolio. We expect that the major drivers of this growth will be a combination of occupancy increases across both our anchor and small shop space, positive rent spreads from below-market in-place rents and significant near-term lease rollover, annual contractual rent increases across the portfolio and the realization of embedded anchor space repositioning / redevelopment opportunities.

The following set of core competencies is expected to position us to execute on our growth strategies:

Anchor Space Repositioning / Redevelopment Expertise - We have been a top redeveloper over the past decade, according to Chain Store Age magazine, having completed anchor space repositioning / redevelopment projects totaling approximately \$1 billion since January 1, 2003.

Expansive Retailer Relationships - Given the scale of our asset base and our nationwide footprint, we believe that we have a competitive advantage in supporting the growth plans of the nation's largest retailers. We are the largest landlord by gross leasable area ("GLA") to Kroger and TJX Companies, as well as a key landlord to all major grocers and most major retail category leaders. Our strong relationships with leading retailers affords us insight into their strategies and priority access to their expansion plans, enabling us to efficiently provide these retailers with space in multiple locations.

Fully-Integrated Operating Platform - We operate with a fully-integrated, comprehensive platform both leveraging our national presence and demonstrating our commitment to a regional and local presence. We provide our tenants with personalized service through our network of three regional offices in Atlanta, Chicago and Philadelphia, as well as via 12 leasing and property management satellite offices throughout the country. This strategy enables us to obtain critical market intelligence and to benefit from the regional and local expertise of our workforce.

Experienced Management - Senior members of our management team are experienced real estate operators with deep industry expertise and retailer relationships and have an average of 25 years of experience in the real estate industry and an average tenure of 13 years with the Company.

Factors That May Influence our Future Results

We derive our revenues primarily from rents (including percentage rents based on tenants' sales levels) and expense reimbursements due to us from tenants under existing leases at each of our properties. Expense reimbursements consist of payments made by tenants to us under contractual lease obligations for their proportional share of the property's operating expenses, insurance and real estate taxes.

- 21 -

The amount of rental income and expense reimbursements we receive is primarily dependent on our ability to maintain or increase rental rates and on our ability to lease available space including renewing expiring leases. Factors that could affect our rental income include: (1) changes in national, regional or local economic climates; (2) local conditions, including an oversupply of space in, or a reduction on demand for, properties similar to those in our portfolio; (3) the attractiveness of properties in our portfolio to our tenants; (4) the financial stability of tenants, including the ability of tenants to pay rents; (5) in the case of percentage rents, our tenants' sales volumes; (6) competition from other available properties; (7) changes in market rental rates; and (8) changes in the regional demographics of our properties.

Our operating expenses include property-related costs including repairs and maintenance, roof repair, landscaping, parking lot repair, snow removal, utilities, property insurance costs, security, ground rent expense related to ground lease payments for which we are the lessee and various other property related costs. Increases in our operating expenses, to the extent they are not offset by revenue increases, would impact our overall performance. For a further discussion of these and other factors that could impact our future results, performance or transactions, see Item 1A. "Risk Factors" in our Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission on March 12, 2014.

Portfolio and Financial Highlights

The information below presents historical property and financial information as of and for the periods presented.

As of March 31, 2014, we owned interests in 522 shopping centers (the "Total Portfolio"), including 521 wholly owned shopping centers and one shopping center held through an unconsolidated joint venture.

Billed occupancy for the Total Portfolio was 90.5% and 89.6% as of March 31, 2014 and 2013, respectively. Leased occupancy for the Total Portfolio was 92.3% and 91.2% at March 31, 2014 and 2013, respectively.

During the three months ended March 31, 2014, we executed 525 leases in our Total Portfolio totaling 2.9 million square feet of GLA, including 202 new leases totaling 0.7 million square feet of GLA and 323 renewals totaling 2.2 million sq. ft. of GLA. The average annualized base rent ("ABR") under the new leases increased 21.0% from the prior tenant's ABR and increased 11.3% for both new and renewal leases on comparable space from the prior tenant's ABR. The average ABR per leased square foot of these new leases in our Total Portfolio is \$15.18 and the average ABR per leased square foot of these new and renewal leases in our Total Portfolio is \$12.96. The cost per square foot for tenant improvements and leasing commissions for new leases was \$21.05 and \$2.83, respectively. The cost per square foot for tenant improvements and leasing commissions for renewal leases was \$1.14 and \$0.04, respectively.

During the three months ended March 31, 2013, we executed 486 leases in our Total Portfolio totaling 2.6 million square feet of GLA, including 137 new leases totaling 0.7 million square feet of GLA and 349 renewals totaling 1.9 million sq. ft. of GLA. The average ABR under the new leases increased 19.2% from the prior tenant's ABR and increased 7.6% for both new and renewal leases on comparable space from the prior tenant's ABR. The average ABR per leased square foot of these new leases in our Total Portfolio is \$12.10 and the average ABR per leased square foot of these new and renewal leases in our Total Portfolio is \$13.08. The cost per square foot for tenant improvements and leasing commissions for new leases was \$11.33 and \$2.08, respectively. The cost per square foot for tenant improvements and leasing commissions for renewal leases was \$0.40 and \$0.04, respectively.

Net income (loss) attributable to the Company was \$15.4 million and \$(19.5) million for the three months ended March 31, 2014 and 2013, respectively.

Net cash provided by operating activities was \$86.6 million and \$33.6 million for the three months ended March 31, 2014 and 2013, respectively.

Funds from Operations ("FFO"), increased \$40.2 million, or 43.5%, from \$92.5 million for the three months ended March 31, 2013 to \$132.7 million for the three months ended March 31, 2014. Additional information regarding FFO, a non-GAAP financial measure, including a reconciliation of net income (loss) to FFO, is included under - "Funds From Operations."

- 22 -

Same property net operating income, as described below, ("Same Property NOI") in our Total Portfolio increased by \$7.2 million or 3.8%, from \$188.4 million for the three months ended March 31, 2013 to \$195.6 million for the three months ended March 31, 2014. Additional information regarding Same Property NOI, a non-GAAP measure, including a reconciliation of net income (loss) attributable to Brixmor Property Group Inc. to Same Property NOI, is included under "Same Property Net Operating Income."

Acquisition Activity

In connection with the IPO in 2013 the Company acquired interests in the 43 properties (the "Acquired Properties") from Blackstone in exchange for 15,877,791 common units of partnership interest ("OP Units") in Brixmor Operating Partnership LP, the Company's operating partnership (the "Operating Partnership") having a value equivalent to the value of the Acquired Properties. See Note 1 - Nature of Business and Financial Statement Presentation in the unaudited Notes to the Condensed Consolidated Financial Statements located elsewhere in this report.

There were no acquisitions during the three months ended March 31, 2014 and 2013.

Disposition Activity

In connection with the IPO, the Company created a separate series of interest in the Operating Partnership that allocated to certain funds affiliated with The Blackstone Group L.P. and Centerbridge Partners, L.P. (owners of the Operating Partnership prior to the IPO) (the "pre-IPO owners") all of the economic consequences of ownership of the Operating Partnership's interest in certain properties that the Operating Partnership had historically held in its portfolio (the "Non-Core Properties"). See Note 1 - Nature of Business and Financial Statement Presentation in the unaudited Notes to the Condensed Consolidated Financial Statements located elsewhere in this report. During the three months ended March 31, 2014, we transferred our ownership interests in 35 Non Core-Properties to the pre-IPO owners. The 35 Non-Core Properties distributed to the pre-IPO owners had a carrying value of \$179.0 million and a fair value of \$195.2 million resulting in a gain of \$16.2 million. The remaining Non-Core Property was transferred to the lender in satisfaction of the property's mortgage balance. In addition, we sold a building in one of our shopping centers for net proceeds of \$2.8 million.

- During the three months ended March 31, 2013, we disposed of two shopping centers for aggregate proceeds of \$10.9 million.

Results of Operations

Comparison of the Three Months Ended March 31, 2014 to the Three Months Ended March 31, 2013

Revenues (in thousands)

	Three months ended March 31,		
	2014	2013	\$ Change
Revenues			
Rental income	\$237,260	\$214,558	\$22,702
Expense reimbursements	68,623	59,603	9,020
Other revenues	1,813	3,157	(1,344)
Total revenues	\$307,696	\$277,318	\$30,378

Rental income

The increase in rental income for the three months ended March 31, 2014 of \$22.7 million, as compared to the corresponding period in 2013, was primarily due to a \$21.1 million increase in ABR driven by (i) an increase in billed occupancy from 89.6% as of March 31, 2013 to 90.5% as of March 31, 2014, (ii) an increase in leasing spreads of 11.3% for both new and renewal leases, and (iii) \$14.0 million of ABR from the Acquired Properties.

Expense reimbursements

The increase in expense reimbursements for the three months ended March 31, 2014, of \$9.0 million, as compared to the corresponding period in 2013, was primarily due to an increase in reimbursable expenses related to the Acquired Properties and an increase in the recovery percentage which increased to 86.5% for 2014, as compared to 83.3% for the same period in 2013. The increased percentage of recoveries from tenants is primarily attributable to increased occupancy of our portfolio coupled with reconciliation income due to year end billings.

Other revenues

The decrease in other revenues for the three months ended March 31, 2014, of \$1.3 million as compared to the corresponding period in 2013, was primarily due to a decrease in fee revenues resulting from the acquisition of the Acquired Properties at the time of IPO which were managed by the Company prior to the IPO.

Operating Expenses (in thousands)

	Three months ended March 31,		
	2014	2013	\$ Change
Operating expenses:			
Operating costs	\$34,888	\$29,846	\$5,042
Real estate taxes	44,446	41,700	2,746

General and administrative	19,658	23,068	(3,410)
Total operating expenses	\$215,137	\$208,715	\$6,422

Operating costs

The increase in operating costs for the three months ended March 31, 2014 of \$5.0 million, as compared to the corresponding period in 2013, was due to \$2.4 million of operating costs for the Acquired Properties, increased weather related expenses including snow removal costs, utility costs, roof and parking lot repairs and maintenance expenses.

Real estate taxes

The increase in real estate taxes for the three months ended March 31, 2014 of \$2.7 million, as compared to the corresponding period in 2013, was primarily due to the acquisition of the Acquired Properties and the purchase of 100% ownership in a previously unconsolidated joint venture.

Depreciation and amortization

The increase in depreciation and amortization for the three months ended March 31, 2014 of \$1.5 million, as compared to the corresponding period in 2013, was primarily due to \$11.2 million of depreciation and amortization recorded in connection with the Acquired Properties, partially offset by a decrease in intangible asset amortization due to tenant lease expirations and lease terminations.

Provision for doubtful accounts

The increase in the provision for doubtful accounts for the three months ended March 31, 2014 of \$0.5 million, as compared to the corresponding period in 2013, was primarily due to the Acquired Properties as well as an increase in billed receivables for properties owned for the entirety of both periods.

General and administrative

The decrease in general and administrative costs for the three months ended March 31, 2014 of \$3.4 million, as compared to the corresponding period in 2013, was primarily due to a decrease in personnel related expenses

associated with the realignment of certain corporate functions in 2013.

Other	(2,161) (960) (1,201)
Total other income (expense)	\$(71,917) \$(90,500) \$18,583

Dividends and interest

Dividends and interest remained approximately the same for the three months ended March 31, 2014, as compared to the corresponding period in 2013.

Interest expense

The decrease in interest expense for the three months ended March 31, 2014 of \$23.9 million, as compared to the corresponding period in 2013, was primarily due to the repayment of \$3.3 billion of secured mortgage loans and unsecured notes during 2013 and the three months ended March 2014, with a weighted-average interest rate of 5.45% which decreased interest expense by approximately \$37.3 million, partially offset by an increase of \$13.4 million on our Unsecured Credit Facility and Term Loan. The secured mortgage loan and unsecured note repayments were financed primarily from proceeds of borrowings under our Unsecured Credit Facility and Term Loan which had a weighted average interest rate of 2.1% as of March 31, 2014 as well as from proceeds of our initial public offering.

Gain on sales of real estate assets

During the three months ended March 31, 2014, we disposed of one building for net proceeds of \$2.8 million resulting in a gain of \$0.4 million. There were no gains on the sale of real estate assets during the three months ended March 31, 2013.

Gain (loss) on extinguishment of debt, net

During the three months ended March 31, 2014, we repaid \$569.6 million of mortgages and repaid \$60.0 million of unsecured notes resulting in a \$2.3 million loss on extinguishment of debt. During the three months ended March 31, 2013, we repaid \$42.0 million of mortgage loans resulting in a \$2.1 million gain on extinguishment of debt.

Other

The increase in other for the three months ended March 31, 2014 of \$1.2 million, as compared to the corresponding period in 2013, was primary due to a \$1.4 million expense in 2014 related to a litigation settlement.

Equity in Income of Unconsolidated Joint Ventures (in thousands)

	Three months ended March 31,

Income (loss) from discontinued operations	\$19,213	\$(3,796) \$23,009

Income (loss) from discontinued operations

Results from discontinued operations include the results from the following: (i) 33 Non-Core Properties disposed of during the three months ended March 31, 2014, and (ii) 18 shopping centers disposed of during 2013, including 11 Non-Core Properties. There were no properties classified as held for sale at March 31, 2014. The income from discontinued operations for the three months ended March 31, 2014 includes a \$6.1 million gain on extinguishment of debt related to one of the Non-Core Properties.

Gain on disposition of operating properties

During the three months ended March 31, 2014, the gain on disposition of operating properties was attributable to the distribution of our interests in 35 Non-Core Properties to our pre-IPO owners.

Impairment of real estate assets held for sale

During the three months ended March 31, 2014, we did not recognize any provisions for impairment. During the three months ended March 31, 2013, we recognized \$3.0 million of provisions for impairment relating to two shopping centers disposed of during the period. For purposes of measuring the provision, fair value was determined based upon the contracts with buyers or for purchase and then adjusted to reflect associated disposition costs.

Same Property NOI increased \$7.2 million or 3.8% for the three months ended March 31, 2014, as compared to the same period in 2013, primarily due to (i) a \$6.5 million increase in rental income driven by an increase in billed occupancy to 90.6% from 89.6% and (ii) an increase in the expense recovery percentage to 86.3% from 83.4% driven by increased occupancy of our portfolio coupled with reconciliation income due to year end billings. These increases were partially offset by increased weather related expenses including snow removal costs, utility costs, roof and parking lot repairs and maintenance expenses. Additional information regarding Same Property NOI, a non-GAAP measure, including a reconciliation of net income (loss) attributable to Brixmor Property Group Inc. to Same Property NOI, is included under "Same Property Net Operating Income."

Liquidity and Capital Resources

We anticipate that our cash flows from the sources listed below will provide adequate capital for the next 12 months for all anticipated uses, including all scheduled principal and interest payments on our outstanding indebtedness, current and anticipated tenant improvements, stockholder distributions to maintain our qualification as a REIT and other capital obligations associated with conducting our business.

Our primary expected sources and uses and capital are as follows:

Sources

- cash and cash equivalents;
- operating cash flow;
- available borrowings under our existing revolving credit facility;
- issuance of long-term debt; and
- asset sales.

Uses

Short term:

- leasing costs and tenant improvements allowances;
- active anchor space repositioning/redevelopments;

recurring maintenance capital expenditures;
 debt repayment requirements;
 corporate and administrative costs; and
 distribution payments.

Long term:

major active redevelopments, renovation or expansion programs at individual properties;
 acquisitions; and
 debt maturities.

Our cash flow activities are summarized as follows (dollars in thousands):

	Three Months Ended March 31, 2014	Three Months Ended March 31, 2013	
Cash flows provided by operating activities	\$86,576	\$33,627	
Cash flows used in investing activities	\$(39,774) \$(22,850)
Cash flows used in financing activities	\$(105,021) \$(7,483)

Operating Activities

Cash and cash equivalents were \$55.7 million and \$106.4 million as of March 31, 2014 and March 31, 2013, respectively.

Our net cash flow provided by operating activities primarily consist of net income from property operations, adjusted for non-cash items including depreciation and amortization, gains and impairments, and equity based compensation expense.

For the three months ended March 31, 2014, net cash flow provided by operating activities increased \$52.9 million as compared to the corresponding period in 2013. The increase is primarily due to (i) an increase in Same Property NOI, (ii) increased NOI due to the acquisition of the Acquired Properties, (iii) a decrease in interest expense due a reduction in our outstanding indebtedness as well as a decrease in the weighted average interest rate on outstanding indebtedness, (iv) a decrease in general and administrative expenses and (v) an increase in working capital due to an increase in cash flows from receivables and restricted cash, partially offset by a decrease in accounts payable accrued expenses and other liabilities due to timing of payments.

Investing Activities

Net cash flow used in investing activities is impacted by the nature, timing and extent of improvements made to our shopping centers, allowances provided to our tenants, and our acquisition and disposition programs. Capital used to fund these activities, and the source thereof, can vary significantly from period to period based on, for example, negotiations with tenants and their willingness to pay higher base rents over the terms of their respective leases as well as the availability of operating cash flows. Net cash flow used in investing activities is also impacted by the level of recurring property capital expenditures in a given period. Recurring capital expenditures are costs to maintain properties and their common areas including new roofs, paving of parking lots and other general upkeep items. Recurring capital expenditures per square foot for the three months ended March 31, 2014 and 2013, were \$0.01 and \$0.00, respectively.

For the three Months ended March 31, 2014, net cash flow used in investing activities increased \$16.9 million as compared to the corresponding period in 2013. The increase was primarily due to an \$8.1 million decrease in proceeds from sales of real estate acquisitions, a \$5.2 million increase in capital expenditures and investments in real estate assets, and a \$2.9 million increase in net purchases of marketable securities.

Currently, our anchor space repositioning/redevelopments in our Total Portfolio relate to 20 shopping centers for which we anticipate incurring approximately \$89.8 million in improvements, of which \$58.6 million had not yet been incurred as of March 31, 2014.

- 28 -

Financing Activities

Our net cash flow used in financing activities is impacted by the nature, timing and extent of issuances of debt and equity, principal and other payments associated with our outstanding indebtedness, and prevailing market conditions associated with each source of capital.

For the three months ended March 31, 2014, net cash used in financing activities increased \$97.5 million as compared to the corresponding period in 2013. The increase was due to (i) an increase of \$52.0 million of repayments of debt obligations, net of borrowings, (ii) an increase of \$24.3 million in distributions to non-controlling interests and (iii) an increase of \$19.7 million in distributions to common stockholders.

Debt transactions

During the three months ended March 31, 2014, the Operating Partnership entered into an unsecured \$600.0 million term loan (the "Term Loan") which matures on March 18, 2019. The obligations under the Term Loan are guaranteed by both BPG Subsidiary Inc. ("BPG Sub") and Brixmor OP GP LLC, the general partner of the Operating Partnership, (together, the "Parent Guarantors"). The Term Loan bears interest, at the Operating Partnership's option, at a rate equal to a margin over either (a) a base rate determined by reference to the highest of (1) the administrative agent's prime lending rate, (2) the federal funds effective rate plus half of 1%, and (3) the LIBOR rate that would be payable on such day for a LIBOR rate loan with a one-month interest period plus 1% or (b) a LIBOR rate determined by reference to the BBA LIBOR rate for the interest period relevant to a particular borrowing. The margin associated with the Term Loan is based on a total leverage based grid and ranges from 0.35% to 0.75%, for base rate loans, and 1.35% to 1.75% for LIBOR rate loans. Pursuant to the terms of the Term Loan, the Company among other things, is subject to maintenance of various financial covenants. The Company is currently in compliance with these covenants. Proceeds from the Term Loan were used to repay outstanding borrowings on the Company's Unsecured Credit Facility.

In addition during the three months ended March 31, 2014, the Company repaid \$569.6 million of mortgages and secured loans repaid \$60.0 million of unsecured notes, and repaid \$50.6 million of financing liabilities resulting in a net loss on extinguishment of \$2.3 million. These repayments were funded primarily from borrowings under the Company's Unsecured Credit Facility.

During the remainder of 2014, we have an aggregate of \$47.4 million of mortgage loans scheduled to mature and approximately \$24.8 million of scheduled mortgage amortization payments. We currently intend to repay the \$47.4 million of mortgage loans scheduled to mature during the remainder of 2014 primarily with borrowings under our Unsecured Credit Facility and to repay the \$24.8 million of scheduled mortgage amortization payments using cash generated from operations.

Contractual Obligations

Our contractual debt obligations relate to our notes payable, mortgages and secured loans and financing liabilities with maturities ranging from one year to 16 years, and non-cancelable operating leases pertaining to our shopping centers.

The following table summarizes our debt maturities (excluding options and fair market debt adjustments) and obligations under non-cancelable operating leases as of March 31, 2014.

Contractual Obligations (in thousands)	Payment due by period				
	Total	Less than 1 year	1-3 years	3-5 years	more than 5 years
Debt (1)	\$5,900,098	\$72,169	\$2,047,553	\$2,046,152	\$1,734,224

Total	\$7,224,960	\$286,452	\$2,640,017	\$2,304,550	\$1,993,941

(1) Debt includes scheduled amortization and scheduled maturities for mortgages and secured loans, credit facilities and notes payable.

(2) We incur interest on a \$57.0 million mortgage using the 30-day LIBOR rate (which was 0.15% as of March 31, 2014, subject to a rate floor requirement of 25 basis points), plus an interest spread of 350 basis points. We also incur variable rate interest on \$173.0 million and \$600.0 million of debt related to the Unsecured Credit Facility and Term Loan, respectively. The margin associated with Unsecured Credit Facility borrowings is based on a total leverage based grid and ranges from 0.40% to 1.00%, for base rate loans, and 1.40% to 2.00%, for LIBOR rate loans. The margin associated with the Term Loan is based on a total leverage based grid and ranges from 0.35% to 0.75%, for base rate loans, and 1.35% to 1.75% for LIBOR rate loans.

Funds From Operations

FFO is calculated as the sum of net income (loss) in accordance with GAAP excluding (i) gain (loss) on disposition of operating properties, and (ii) extraordinary items, plus (iii) depreciation and amortization of operating properties, (iv) impairment of operating properties and real estate equity investments, and (v) after adjustments for joint ventures calculated to reflect funds from operations on the same basis, and (vi) after adjustments for net income (loss) attributable to non-controlling interests not convertible into common stock.

FFO is a supplemental, non-GAAP measure utilized to evaluate the operating performance of real estate companies. It is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of financial performance and is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of liquidity. Non-GAAP financial measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental to financial results presented in accordance with GAAP. Computation of FFO may differ in certain respects from the methodology utilized by other REITs and, therefore, may not be comparable to such other REITs. Investors are cautioned that items excluded from FFO are significant components in understanding and addressing financial performance.

Our reconciliation of net income (loss) to FFO for the three months ended March 31, 2014 and 2013 is as follows (in thousands, except per share amounts):

	Three Months Ended March 31,	
	2014	2013
Net income (loss)	\$41,740	\$(25,446)
Gain on disposition of operating properties	(14,804)	—

EBITDA and Adjusted EBITDA

Earnings before interest, tax depreciation and amortization ("EBITDA") is calculated as the sum of net income (loss) in accordance with GAAP before interest expense, income taxes, depreciation and amortization, and after adjustments for net income (loss) attributable to non-controlling interests not convertible into common stock.

Adjusted EBITDA represents EBITDA as adjusted for (i) acquisition related costs, (ii) gain (loss) on disposition of operating properties, (iii) impairment of real estate assets and real estate equity investments, and (iv) gain (loss) on disposition of unconsolidated joint ventures.

EBITDA and Adjusted EBITDA are supplemental, non-GAAP financial measures utilized in various financial ratios and are helpful to securities analysts, investors and other interested parties in the evaluation of REITs, as a measure of our operational performance because EBITDA and Adjusted EBITDA exclude various items that do not relate to or are not indicative of its operating performance. In addition, it includes the results of operations of real estate properties that have been sold or classified as real estate held for sale at the end of the reporting period. Accordingly, the use of EBITDA and Adjusted EBITDA in various ratios provides a meaningful performance measure as it relates to its ability to meet various coverage tests for the stated period.

EBITDA and Adjusted EBITDA should not be considered as alternatives to net income (determined in accordance with GAAP) as indicators of financial performance and are not alternatives to cash flow from operating activities (determined in accordance with GAAP) as a measure of liquidity. Non-GAAP financial measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental to financial results presented in accordance with GAAP. Computation of EBITDA and

Adjusted EBITDA may differ in certain respects from the methodology utilized by other REITs and, therefore, may not be comparable to such other REITs. Investors are cautioned that items excluded from EBITDA and Adjusted EBITDA are significant components in understanding and addressing financial performance.

Same Property Net Operating Income

Same Property NOI is calculated (using properties owned as of the end of both reporting periods and for the entirety of both periods excluding properties classified as discontinued operations), as rental income (minimum rent, percentage rents, tenant recoveries and other property income) less rental operating expenses (property operating expenses, real estate taxes and bad debt expense) of the properties owned by us. Same Property NOI excludes corporate level income (including transaction and other fees), lease termination income, straight-line rent and amortization of above-/below-market leases of the same property pool from the prior year reporting period to the current year reporting period.

Same Property NOI is a supplemental, non-GAAP financial measure utilized to evaluate the operating performance of real estate companies and is frequently used by securities analysts, investors and other interested parties in understanding business and operating results regarding the underlying economics of our business operations. It includes only the net operating income of properties owned for the full period presented, which eliminates disparities in net income due to the acquisition or disposition of properties during the period presented, and therefore, provides a more consistent metric for comparing the performance of properties. Management uses Same Property NOI to review operating results for comparative purposes with respect to previous periods or forecasts, and also to evaluate future prospects. Same Property NOI is not intended to be a performance measure that should be regarded as an alternative to, or more meaningful than, net income (determined in accordance with GAAP) or other GAAP financial measures. Non-GAAP financial measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental to financial results presented in accordance with GAAP. Computation of Same Property NOI may differ in certain respects from the methodology utilized by other REITs and, therefore, may not be comparable to such other REITs.

The following table provides a reconciliation of net income (loss) attributable to common stockholders to Same Property NOI for the periods presented (dollars in thousands):

Inflation

The majority of leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions contain clauses enabling us to receive percentage rents, which generally increase as prices rise but may be adversely impacted by tenant sales decreases, and/or escalation clauses which are typically related to increases in the consumer price index or similar inflation indices. In addition, we believe that many of our existing lease rates are below current market levels for comparable space and that upon renewal or re-rental such rates may be increased to be consistent with, or closer to, current market rates. This belief is based upon an analysis of relevant market conditions, including a comparison of comparable market rental rates, and upon the fact that many of our leases have been in place for a number of years and may not contain escalation clauses sufficient to match the increase in market rental rates over such time. Most of our leases require the tenant to pay its share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation. In addition, we periodically evaluate our exposure to interest rate fluctuations, and may enter into interest rate protection agreements which mitigate, but do not eliminate, the effect of changes in interest rates on our floating rate loans.

In the normal course of business we also face risks that are either non-financial or non-qualitative. Such risks principally include credit risks and legal risks. For a discussion of other factors which may adversely affect our liquidity and capital resources, please see the section titled “Risk Factors” in our Form 10-K for the year ended December 31, 2013.

Off-Balance Sheet Arrangements

We had no material off-balance sheet arrangements as of March 31, 2014.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We may be exposed to interest rate changes primarily as a result of long-term debt used to maintain liquidity and fund capital expenditures and expansion of our real estate investment portfolio and operations. Our interest rate risk

management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve our objectives we borrow primarily at fixed rates or variable rates with the lowest margins available.

With regard to variable rate financing, we assess interest rate cash flow risk by continually identifying and monitoring changes in interest rate exposures that may adversely impact expected future cash flows and by evaluating hedging opportunities. We maintain risk management control systems to monitor interest rate cash flow risk attributable to both our outstanding or forecasted debt obligations as well as our potential offsetting hedge positions. The risk management control systems involve the use of analytical techniques, including cash flow sensitivity analysis, to estimate the expected impact of changes in interest rates on our future cash flows.

We may use additional derivative financial instruments to hedge exposures to changes in interest rates on loans secured by our properties or unsecured debt obligations. To the extent we do we are exposed to market and credit risk. Market risk is the adverse effect on the value of the financial instrument that result a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value derivative contract is positive, the counterparty owes us, which creates credit risk to us. We will minimize the credit risk in derivative instruments by entering into transactions with high-quality counterparties.

As of March 31, 2014, we had \$1.7 billion of outstanding floating rate borrowings under the Unsecured Credit Facility, \$600.0 million of outstanding floating rate borrowings under the Term Loan and a \$57.0 million outstanding floating rate mortgage. \$1.5 billion of the borrowings under the Unsecured Credit Facility are subject to interest rate swap agreements, which effectively convert the interest rate on the borrowings from floating to fixed. The floating rate mortgage is subject to an interest rate cap agreement, which effectively limits the interest rate risk. During the three months ended March 31, 2014, no payment was received from the respective counterparties to the interest rate cap agreements.

As of March 31, 2014, our variable rate debt consisted primarily of the following:

- Unsecured Credit Facility, which is comprised of the Term Loan Facility and the Revolving Facility, which bore interest at a rate equal to LIBOR plus an interest spread of 150 basis points.
- \$600.0 million Term Loan which bore interest at a rate equal to LIBOR plus an interest spread of 145 basis points.
- Variable rate mortgage loan, which bore interest at a rate equal to LIBOR (subject to a floor rate of 25 basis points) plus an interest spread of 350 basis points.

If market rates of interest on our variable rate debt increased by 1%, the increase in annual interest expense on our variable rate debt would decrease future earnings and cash flows by approximately \$7.7 million (this includes the impact of the \$1.5 billion of interest rate swap agreements). If market rates of interest on our variable rate debt decreased by 1%, the decrease in annual interest expense on our variable rate debt would increase future earnings and cash flows by approximately \$1.3 million (this includes the impact of the \$1.5 billion of interest rate swap agreements). As of March 31, 2014, LIBOR was 0.15%. Even if LIBOR were 0%, certain of our variable debt would still be subject to a floor rate of 25 basis points plus an interest spread of 350 basis points. Accordingly, the decrease in LIBOR with respect to these debt instruments would have a nominal effect on future earnings and cash flows. This assumes that the amount outstanding under our variable rate debt remains at approximately \$2.3 billion, the balance as of March 31, 2014. The foregoing assumes that our total debt outstanding remains at approximately \$5.9 billion, the balance as of March 31, 2014.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information

required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period

- 33 -

covered by this report, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended March 31, 2014 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are not presently involved in any material litigation arising outside the ordinary course of our business. However, we are involved in routine litigation arising in the ordinary course of business, none of which we believe, individually or in the aggregate, taking into account existing reserves, will have a material impact on our results of operations or financial condition.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in our Form 10-K, dated December 31, 2013 and filed with the SEC on March 12, 2014 pursuant to Rule 424(b)(4) under the Securities Act.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
