NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

American Realty Investors, Inc. (ARI, We, The Company, Our or Us) is a Nevada corporation and invests in real estate through direct ownership, leases and partnerships.

The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange under the symbol ARL. ARI owns approximately 83.2% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc., (TCI) a Nevada corporation which has its common stock listed and traded on the New York Stock Exchange, Inc. under the symbol TCI . The ownership of the TCI shares was achieved through a series of transactions, including a cash tender offer completed March 19, 2003, an exchange by certain ARI subsidiaries of securities with Basic Capital Management, Inc. (BCM) and a sale of a participating interest in a line of credit receivable from One Realco Corporation (One Realco) to BCM, as well as certain open market purchases of TCI shares in December 2003. ARI has consolidated TCI s accounts and operations since June 30, 2003. At June 30, 2008, TCI owned approximately 24.9% of the outstanding common stock of Income Opportunity Realty Investors, Inc., (IORI), a public company whose shares are listed and traded on the American Stock Exchange.

Properties

The Company owns or had interests in a total property portfolio of 94 and 110 income producing properties as of June 30, 2008 and December 31, 2007, respectively. The commercial properties aggregate approximately 5.8 million and 5.9 million net rentable square feet as of June 30, 2008 and December 31, 2007, respectively. At June 30, 2008, the properties consisted of:

36 commercial buildings, which consists of 23 office buildings, seven commercial warehouses, and six retail centers;

five hotels;

53 apartment communities; and

11,251 acres of developed and undeveloped land.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal

year. The year end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These financial statements should be read in conjunction with the Company's financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for its fiscal year ended December 31, 2007.

Newly issued accounting standards.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. (SFAS No. 157). SFAS No. 157 defines fair value and establishes a framework for measuring fair value, which includes a hierarchy based on the quality of inputs used to measure fair value. SFAS No. 157 also expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. SFAS No. 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The levels of the SFAS No. 157 fair value hierarchy are described as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

SFAS No. 157 became effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The FASB also removed certain leasing transactions from the scope of SFAS No. 157. On January 1, 2008, the Company adopted SFAS No. 157. The Company currently does not have any non-financial assets or non-financial liabilities that are required to be measured under SFAS No. 157.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115*. (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 became effective for fiscal years beginning after November 15, 2007. On January 1, 2008, the Company adopted SFAS No. 159 and has currently not elected to measure any financial instruments or other items (not currently required to be measured at fair value) at fair value.

In December 2007, the FASB issued SFAS No. 141 (revised in 2007) (SFAS 141R), *Business Combinations*. SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combinations. SFAS 141R is effective for financial statements issued for fiscal years beginning after December 15, 2008. Accordingly, any business combinations the Company engages in will be recorded and disclosed following existing accounting principles until January 1, 2009. The Company expects SFAS 141R will affect the Company's consolidated financial statements when effective, but the nature and magnitude of the specific effects will depend upon the nature, term and size of the acquisitions, if any, the Company consummates after the effective date.

In December 2007, the FASB issued SFAS No. 141 (revised in 2007) (SFAS 141R), *Business Combinations*. In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*, effective for financial statements issued for fiscal years beginning after December 15, 2008. SFAS No. 160 states that accounting and reporting for minority interests will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS No. 160 applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, and will impact the recording of minority interest. The Company is currently evaluating the effects the adoption of SFAS No. 160 will have on its financial position and results of operations.

NOTE 2. REAL ESTATE ACTIVITY

For the six month period ended June 30, 2008, we sold 24 income producing properties for an aggregate sales price of \$168.3 million; we received \$62.6 million in cash after paying off \$94.4 million in existing debt and recorded a gain on sale of \$112.2 million. We purchased six buildings at an aggregate cost of \$62.4 million. The buildings were financed with \$17.4 million cash and \$42.6 million in new debt, plus accrued closing costs. Table of Contents**NOTE 9. OPERATING SEGMENTS**

The Company's segments are based on the Company's method of internal reporting which classifies its operations by property type. The Company's segments are commercial, apartments, hotels and land. Significant differences among the accounting policies of the operating segments as compared to the Consolidated Financial Statements principally involve the calculation and allocation of administrative and other expenses. Management evaluates the performance of each of the operating segments and allocates resources to them based on their net operating income and cash flow.

Presented below are the Company's reportable segments' operating income for the three and six months ended June 30, 2008 and 2007, including segment assets and expenditures.

NOTE 10. DISCONTINUED OPERATIONS

The Company applies the provisions of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

Discontinued operations relates to the sale of 34 apartments of which 17 were sold in 2008, seven commercial buildings which three were sold in 2008, and five hotels which were all sold in 2008.

The Company's application of SFAS No. 144 results in the presentation of the net operating results of these qualifying properties sold or held for sale during 2008 as income from discontinued operations. The application of SFAS No. 144 does not have an impact on net income available to common shareholders. SFAS No. 144 only impacts the presentation of these properties within the Consolidated Statements of Operations.

NOTE 11. COMMITMENTS AND CONTINGENCIES

Partnership Obligations. ARI is the limited partner in several partnerships that are currently constructing residential properties. As permitted in the respective partnership agreements, ARI presently intends to purchase the interests of the general and any other limited partners in these partnerships subsequent to the final completion of these construction projects. The amounts paid to buyout the non-affiliated partners are limited to development fees earned by the non-affiliated partners, and are set forth in the respective partnership agreements.

Liquidity. ARI's principal liquidity needs are funding normal recurring expenses, meeting debt service requirements, funding capital expenditures, funding development costs not otherwise covered by construction loans and funding new property acquisitions not otherwise covered by acquisition financing. In 2008, ARI will rely on aggressive land sales, selected income producing property sales and, to the extent necessary, additional borrowings to meet its cash requirement.

Litigation. ARI is involved in various lawsuits arising in the ordinary course of business. In the opinion of management, the outcome of these lawsuits will not have a material impact on ARI's financial condition, results of operations, or liquidity.

NOTE 12. SUBSEQUENT EVENTS

On July 23, 2008 we purchased 24.1 acres of land known as Las Colinas land in Irving, Texas for \$6.7 million. We financed the transaction with \$2.2 million in cash and a \$4.5 million mortgage.

On July 23, 2008, we purchased 246.0 acres of land known as Windmill Farms Harlan land located in Kaufman County, Texas for \$6.8 million. We financed the transaction with \$1.3 million cash and seller financing of \$5.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: AMERICAN REALTY INVESTORS INC - Form 10-Q

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the captions Business, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations. We caution investors that any forward-looking statements in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and on assumptions made by, and information currently available to, management. When used, the words anticipate, believe, expect, intend,

may, might, plan, estimate, project, should, will, result and similar expressions which do not relate solely to historical matters are in identify forward-looking statements. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors, that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants financial condition, and competition from other developers, owners and operators of real estate);

risks associated with the availability and terms of construction and mortgage financing and the use of debt to fund acquisitions and developments;

demand for apartments and commercial properties in the Company s markets and the effect on occupancy and rental rates;

the Company s ability to obtain financing, enter into joint venture arrangements in relation to or self-fund the development or acquisition of properties;

risks associated with the timing and amount of property sales and the resulting gains/losses associated with such sales;

failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully;

risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);

risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;

costs of compliance with the Americans with Disabilities Act and other similar laws and regulations;

potential liability for uninsured losses and environmental contamination;

risks associated with our dependence on key personnel whose continued service is not guaranteed; and

Edgar Filing: AMERICAN REALTY INVESTORS INC - Form 10-Q

the other risk factors identified in this Form 10-Q, including those described under the caption "Risk Factors." The risks included here are not exhaustive. Some of the risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements, include among others, the factors listed and described at Item 1A "Risk Factors" in the Company's Annual Report on Form 10-K, which investors should review. There have been no changes from the risk factors previously described in the Company's Form 10-K for the fiscal year ended December 31, 2007 (the Form 10-K).

Other sections of this report may also include suggested factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time-to-time and it is not possible for management to predict all such matters: nor can we assess the impact of all such matter on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these uncertainties, investors should not place undue reliance on forward-looking statements as prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise as we file them with the SEC.

Overview

ARI is an externally advised and managed real estate investment company that owns a diverse portfolio of income-producing properties and land held for development. The Company's portfolio of income-producing properties includes residential apartment communities, office buildings, hotels, and other commercial properties. ARI's investment strategy includes

Table of Contents

acquiring existing income-producing properties as well as developing new properties on land already owned or acquired for a specific development project. ARI acquires land primarily in urban in-fill locations or high-growth suburban markets. ARI is an active buyer and seller and during 2008, and acquired over \$78.4 million and sold over \$169 million of land and income-producing properties.

As of June 30, 2008, the Company owned 10,044 units in 53 residential apartment communities, 36 commercial properties comprising almost 6.3 million rentable square feet and five hotels containing a total of 812 rooms. In addition, at June 30, 2008, ARI owned 11,251 acres of land held for development and had 13 apartment projects under construction.

ARI finances its acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific first-lien mortgage loans from commercial banks and institutional lenders. ARI finances its development projects principally with short-term, variable interest rate construction loans that are converted to long-term, fixed rate amortizing mortgages when the development project is completed and occupancy has been stabilized. The Company will, from time to time, also enter into partnerships with various investors to acquire income-producing properties or land and to sell interests in certain of its wholly-owned properties. When the Company sells assets, it may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable. The Company generates operating revenues primarily by leasing apartment units to residents; leasing office, retail and industrial space to commercial tenants; and renting hotel rooms to guests. ARI is advised by Prime under a contractual arrangement that is reviewed annually by ARI's Board of Directors. ARI's commercial properties are managed by Regis Commercial while the Company's hotels are managed by Regis Hotel. ARI currently contracts with five third-party companies to manage the Company's apartment communities. Approximately 64.3% of ARI's common stock is owned by BCM; an additional 13.8% is owned by Prime and TCI owns approximately 7% of the outstanding common shares of ARI. Other affiliated companies own approximately 2.2% of ARI's outstanding common shares. ARI is a C Corporation for U.S. federal income tax purposes and files an annual consolidated income tax return with TCI. ARI does not qualify as a Real Estate Investment Trust (REIT) for federal income tax purposes primarily due to ARI's majority ownership of the Company.

At June 30, 2008, ARI subsidiaries owned 83.2% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc., a Nevada corporation (TCI), which has its common stock listed and traded on the New York Stock Exchange, Inc. (NYSE). The ownership of the TCI shares was achieved through a series of transactions, including a cash tender offer completed March 19, 2003, an exchange by certain ARI subsidiaries of securities with Basic Capital Management, Inc. (BCM) and a sale of a participating interest in a line of credit receivable from One Realco Corporation (One Realco) to BCM, as well as certain open market purchases of TCI shares in December 2003. ARI has consolidated TCI's accounts and operations since March 31, 2003. At June 30, 2008, TCI owned approximately 24.9% of the outstanding common stock of Income Opportunity Realty Investors, Inc., (IORI), a public company whose shares are listed and traded on the American Stock Exchange.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time to time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Real Estate

Upon acquisitions of real estate, ARI assesses the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, above-market and below-market leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations* and allocates the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost.

Table of Contents

We assess and consider fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and extent of the existing relationship with the tenants, the tenants' credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired above-market and below-market leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases.

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are capitalized. Capitalized development costs include interest, property taxes, insurance, and other project costs incurred during the period of development.

Management reviews its long-lived assets used in operations for impairment when there is an event or change in circumstances that indicates impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods.

SFAS No. 144 requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as held for sale, be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and the Company will not have significant continuing involvement following the sale. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be held for sale when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as held for sale, no further depreciation is recorded on the assets.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by SFAS No. 34 *Capitalization of Interest Cost* and SFAS No. 67 *Accounting for Costs and the Initial Rental Operations of Real Estate Properties*. The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Impairment

Management reviews the carrying values of ARI's properties and mortgage notes receivable at least annually and whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. For notes receivable, impairment is considered to exist if it is probable that all amounts due under the terms of the note will not be collected. If impairment is found to exist, a provision for loss is recorded by a charge against earnings to the extent that the investment in the note exceeds management's estimate of the fair value of the collateral securing such note. The mortgage note receivable review includes an evaluation of the collateral property securing each note. The property review generally includes: (1) selective property inspections, (2) a review of the property's current rents compared to market rents, (3) a review of the property's expenses, (4) a review of maintenance requirements, (5) a review of the property's cash flow, (6) discussions with the manager of the property, and (7) a review of properties in the surrounding area.

Table of Contents

Investment in Unconsolidated Real Estate Ventures

Except for ownership interests in variable interest entities, ARI accounts for our investments in unconsolidated real estate ventures under the equity method of accounting because the Company exercises significant influence over, but does not control, these entities. These investments are recorded initially at cost, as investments in unconsolidated real estate ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on the Company's balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated real estate ventures over the life of the related asset. Under the equity method of accounting, ARI's net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses; however, ARI's recognition of joint venture income or loss generally follows the joint venture's distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, the Company consolidates those in which we are the primary beneficiary.

Recognition of Rental Income

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms. In accordance with SFAS 141, we recognize rental revenue of acquired in-place above-market and below-market leases at their fair values over the terms of the respective leases. On our Consolidated Balance Sheets we include as a receivable the excess of rental income recognized over rental payments actually received pursuant to the terms of the individual commercial lease agreements.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a gross basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less.

For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered.

An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

Revenue Recognition on the Sale of Real Estate

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, *Accounting for Sales of Real Estate*. (SFAS No. 66), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been met, transactions are accounted for using the deposit, installment, cost recovery or financing method, whichever is appropriate. When ARI provides seller financing, gain is not recognized at the time of sale unless the buyer's initial investment and continuing investment are deemed to be adequate as determined by SFAS 66 guidelines.

Non-performing Notes Receivable

ARI considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments. Any new note receivable that results from a modification or extension of a note considered non-performing will also be considered non-performing, without regard to the borrower's adherence to payment terms.

Interest Recognition on Notes Receivable

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

Table of Contents

Related Party Transactions

The Company has historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in the best interest of our company.

Allowance for Estimated Losses

A valuation allowance is provided for estimated losses on notes receivable considered to be impaired. Impairment is considered to exist when it is probable that all amounts due under the terms of the note will not be collected. Valuation allowances are provided for estimated losses on notes receivable to the extent that the investment in the note exceeds management's estimate of fair value of the collateral securing such note.

Fair Value of Financial Instruments

The following assumptions were used in estimating the fair value of ARI's notes receivable, marketable equity securities and notes payable. For performing notes receivable, the fair value was estimated by discounting future cash flows using current interest rates for similar loans. For non-performing notes receivable, the estimated fair value of ARI's interest in the collateral property was used. For marketable equity securities, fair value was based on the year-end closing market price of each security. For notes payable, the fair value was estimated using current rates for mortgages with similar terms and maturities.

Results of Operations

The following discussion is based on our Consolidated Statements of Operations for the three and six months ended June 30, 2008 and 2007 as included in Part 1, Item 1 Financial Statements of this report. We had or owned interests in a total property portfolio of 97 and 110 properties as of June 30, 2008 and 2007, respectively.

Comparison of the three months ended June 30, 2008 as compared to the same period ended June 30, 2007

For the three months ended June 30, 2008 the Company reported a net loss applicable to common shares of \$(13.1) million or \$(1.25) per diluted earnings per share, as compared to a net loss applicable to common shares of \$(23.1) million or \$(2.28) per diluted earnings per share.

Revenues

Rental and other property revenues increased by \$1.3 million for the three month period ended June 30, 2008 as compared to the same period ended 2007. This was due to the revenues within the apartment portfolio which increased by \$1.2 million. The majority of the increase was attributable to the larger number of apartments in the lease up phase. Our commercial, hotel and land portfolios attributed to the remaining \$100,000 increase.

Expenses

Operating expenses increased by \$1.5 million for the three months ended June, 30 2008, as compared to the same period ended 2007. The majority of the increase of \$2.9 million was attributable to the larger number of apartments in the lease up phase. This was offset by a \$700,000 decrease in the hotel portfolio. The remaining decrease was from our commercial, land and other portfolios.

Depreciation and amortization were relatively consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

General and administrative expenses were relatively consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

Advisory fee expenses were relatively consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

Table of Contents**Other income/expense**

Interest income was relatively consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

Other income increased by \$1.0 million for the three months ended June 30, 2008, as compared to the same period ended 2007. The income is due to receiving litigation settlement proceeds related to the Tanglewood apartments.

Mortgage and loan interest expense was \$21.8 million for the three months ended June 30, 2008 as compared to \$21.6 million for the same period ended 2007. Our interest expense is a function of our debt balance and the terms on the debt. Although we have acquired several properties via debt financing, we have also sold properties, paying off existing balances. In addition, we have effectively refinanced some of our existing debt at terms that are more beneficial to us, thus effectively keeping our interest expense consistent and comparable to the prior period.

Gain on land sales was \$2.9 million for the three months ended June 30, 2008. We sold 67.9 acres of land for an average gain of \$43,000 per acre.

Minority interest relates primarily to our 83.2% owned subsidiary, Transcontinental Realty Investors, Inc. Approximately 17% of this subsidiary is held by third parties which represents our non-controlling interest. The \$2.4 million represents a recapture of the first quarter minority (non-controlling) interest expense due to the overall loss incurred by the subsidiary in the second quarter ended June 30, 2008.

Net loss from discontinued operations was \$(1.4) million for the three months ended June 30, 2008 as compared to a net loss from discontinued operations of \$(4.1) million for the same period ended 2007. Discontinued operations consists of 34 apartments of which 17 were sold in 2008, seven commercial buildings of which three were sold in 2008, and five hotels of which three were sold in 2008.

Comparison of the six months ended June 30, 2008 as compared to the same period ended June 30, 2007

For the six months ended June 30, 2008, the Company reported a net income applicable to common share of \$46.7 million or \$4.46 per diluted earnings per share, as compared to a net loss applicable to common share of \$(32.1) million or \$(3.17) per diluted earnings per share.

Table of Contents

Revenues

Rental and other property revenue increased by \$3.6 million for the six months ended June 30, 2008 as compared to the same period ended 2007. The increase was due to an increase in our commercial portfolio of \$3.9 million and an increase in our land portfolio of \$1.1 million. This was offset by a decrease in our hotel portfolio of \$800,000 and decreases in our other portfolio of \$600,000.

Expenses

Operating expenses increased by \$4.8 million for the six months ended June 30, 2008 as compared to the same period ended 2007. Our commercial portfolio increased by \$1.2 million. Our apartment portfolio increased by \$4.4 million. In addition, we had an increase in land holding costs of \$900,000. This was offset by a \$1.7 million decrease in our hotel and other portfolios.

Depreciation and amortization increased by \$2.0 million for the six months ended June 30, 2008 as compared to the same period ended 2007. Our new apartments in the lease up phase increased depreciation by \$1.0 million. The remainder of the increase is distributed evenly among our apartment, hotel and commercial portfolio. We continue to refurbish, remodel and upgrade all our existing properties.

General and administrative expenses were relatively consistent for the six months ended June 30, 2008 as compared to the same period ended 2007.

Advisory fees to affiliate increased by \$800,000 as compared to the same period ended 2007. These fees are based in part on our total assets which have increased from prior period.

Other income expense

Interest income increased by \$700,000 for the six months ended June 30, 2008 as compared to the same period ended 2007. The increase is primarily due to receiving interest income on the Unified Housing Foundation excess cash flow notes. These notes were acquired on June 30, 2007.

Other income was relatively consistent for the six months ended June 30, 2008 as compared to the same period ended 2007.

Mortgage and loan interest expense was \$44.0 million for the six months ended June 30, 2008 as compared to \$43.4 million for the same period ended 2007. Our interest expense is a function of our debt balance and the terms on the debt. Although we have acquired several properties via debt financing, we have also sold properties, paying off existing balances. In addition, we have effectively refinanced some of our existing debt at terms that are more beneficial to us, thus effectively keeping our interest expense consistent and comparable to the prior period.

Bad debt allowance for the six months ended June 30, 2008 was \$12.0 million. We recorded a \$5.0 million allowance for doubtful receivables and a \$7.0 million allowance for the doubtful collectability of certain investments within our portfolio.

Minority interest relates primarily to our 83.2% owned subsidiary, Transcontinental Realty Investors, Inc. Approximately 17% of this subsidiary is held by third parties which represents the non-controlling interest. The \$9.5 million represents the subsidiaries' portion of income that is applicable to the minority (non-controlling) interest for the six month period ended June 30, 2008.

Equity in income of investees was \$4.4 million for the six months ended 2008. This represents our portion of the income associated with these investments in which we own 20% or more that are not consolidated within our financial statements. The income from these entities has increased for the six months ended June 30, 2008.

Net income from discontinued operations was \$61.6 million for the six months ended June 30, 2008 as compared to a net loss from discontinued operations of \$(3.7) million for the same period ended 2007. Discontinued operations consists of 34 apartments of which 17 were sold in 2008, seven commercial buildings of which three were sold in 2008, and five hotels of which three were sold in 2008.

Liquidity and Capital Resources

Our principal sources of cash have historically been and will continue to be:

property operations;

proceeds from land and income-producing property sales;

the collection of mortgage notes receivable;

the collection of receivables from affiliated companies;

refinancing of existing mortgage notes payable; and

additional borrowing, including mortgage notes payable and lines of credit.

Our principal liquidity needs over the next twelve months include:

funding of normal recurring expenses and obligations;

funding current development costs not covered by construction loans;

meeting debt service requirements including loan maturities;

funding capital expenditures; and

funding acquisition costs for land and income-producing properties not covered by acquisition financing.

We draw on multiple financing sources to fund our long-term capital needs. We generally fund our development projects with construction loans.

Management anticipates that our available cash from property operations may not be sufficient to meet all of our cash requirements. Management intends to selectively sell land and income producing assets, refinance or extend real estate debt and seek additional borrowing secured by real estate to meet its liquidity requirements. Historically, management has been successful at extending a portion of the Company's current maturity obligations. Management also anticipates funding ongoing real estate development projects and the acquisition of new real estate from cash generated by sales of land and income-producing properties, debt refinancings or extensions and additional borrowings.

Cash flow summary

The following summary discussion of our cash flows is based on the statements of cash flows as presented in Item 1 and is not meant to be an all inclusive discussion of the changes in our cash flow.

Edgar Filing: AMERICAN REALTY INVESTORS INC - Form 10-Q

Cash and Cash equivalents were \$47,000 and \$5.5 million for the six month period ended June 30, 2008 and 2007, respectively. For the six month period ended June 30, 2008, cash used in operating activities was \$(28.9) million, cash provided by investing activities was \$27.0 million, cash used in financing activities was \$(9.6) million.

Cash used in operating activities was \$(29.0) million. Our primary source of cash from operating activities is rental income on properties. Our primary use of cash for operations is daily operating costs, general and administrative, interest expense, and land holding cost. In addition to these costs, we paid \$(13.9) million fees to our advisor. As our cash from operations was not sufficient to meet our operating needs, we used the excess cash from the sales of our income producing properties and land to cover the shortfalls.

Cash provided by investing activities was \$27.0 million. The majority was from proceeds for the sale of income producing properties of \$156.5 million. We sold 24 properties in nine separate transactions. The most significant being the sale of 15 apartments; The 4400, Arbor Pointe, Ashton Way, Autumn Chase, Courtyard, Coventry Pointe, Fairway, Fountains at Waterford, Hunters Glen, Southgate, Sunchase, Sunset, Thornwood, Westwood, and Woodview located in Midland and Odessa, Texas in a single transaction. This was followed by the sale of three hotels in a single transaction; City Suites, Majestic, and the Willows, located in Chicago, Illinois and six other transactions consisting of the Lexington commercial building in Colorado Springs, Colorado, the Fairway View apartments in El Paso, Texas, the Executive court in Memphis, Tennessee, the Hotel Akademia in Worclaw, Poland, the Willow Creek apartments in El Paso, Texas, and Governors Square, a commercial building, in Tallahassee, Florida. The sale of land provided \$12.2 million. We sold 81.6 acres of undeveloped land in Texas. We received \$11.8 million from our investments in marketable equity securities. This was offset by \$(66.9) million used in the construction and development of 13 apartment projects. We used \$(63.2) million to purchase new properties. We acquired six properties consisting of two apartment complexes, Bridgewood Ranch in Kaufman, Texas, and Quail Hollow in Holland, Ohio, and four commercial buildings; Alpenloan building in Dallas, Texas, Teleport Boulevard building in Irving, Texas, Thermalloy building in Farmers Branch, Texas, and Stanford Centre in Dallas, Texas. We purchased 81.6 acres of land in Texas for \$(15.2) million.

Table of Contents

Cash used in financing activities was \$(9.6) million. We paid off the existing mortgages on properties sold consisting of 24 properties and 81.6 acres of land using \$(154.2) million. We paid down \$(11.1) million in recurring debt obligations. This was offset from proceeds received on notes of \$157.2 million.

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, the Company may be potentially liable for removal or remediation costs, as well as certain other potential costs relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may seek recovery for personal injury associated with such materials.

The Company is not aware of any environmental liability relating to the above matters that would have a material adverse effect on ARI's business, assets or results of operations.

Inflation

The effects of inflation on ARI's operations are not quantifiable. Revenues from property operations tend to fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect the sales values of properties and the ultimate gains to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments and the cost of new financings as well as the cost of variable interest rate debt will be affected.

Tax Matters

Financial statement income varies from taxable income principally due to the accounting for income and losses of investees, gains and losses from asset sales, depreciation on owned properties, amortization of discounts on notes receivable and payable and the difference in the allowance for estimated losses. ARI had a loss, after the use of net operating loss carryforwards for federal income tax purposes in the first six months of 2008 and a loss in the first six months of 2007; therefore, it recorded no provision for income taxes.

At June 30, 2008, ARI had a net deferred tax asset of \$91.9 million due to tax deductions available to it in future years. However, as the Company cannot determine that it is more likely than not that ARI will realize the benefit of the deferred tax assets, a 100% valuation allowance has been established.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

At June 30, 2008, ARI's exposure to a change in interest rates on its debt is as follows (dollars in thousands except per share):

	Balance	Weighted Average Interest Rate	Effect of 1% Increase In Base Rates
Notes payable:			
Variable rate	\$ 337,139	6.08%	\$ 3,371
Total decrease in ARI's annual net income			3,371
Per share			\$ 0.32

ITEM 4. CONTROLS AND PROCEDURES

Edgar Filing: AMERICAN REALTY INVESTORS INC - Form 10-Q

- (a) As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Principal Executive Officer and Chief Financial Officer per the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Principal Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings.
