PROXY STATEMENT

The following information is furnished in connection with the Annual Meeting of Shareholders (the “Meeting”) of EastGroup Properties, Inc. (the “Company”), to be held on May 26, 2016 at 9:00 a.m., Central Daylight Time, at the Company’s offices, 190 East Capitol Street, Suite 400, Jackson, Mississippi. This Proxy Statement, Annual Report on Form 10-K, and Form of Proxy are first being made available, and a Notice Regarding the Availability of Proxy Materials is first being mailed, to shareholders on or about April 15, 2016.

ABOUT THE 2016 ANNUAL MEETING

What is the purpose of the Meeting?

At the Meeting, shareholders will be asked to elect nine directors of the Company, cast an advisory vote to ratify the appointment of KPMG LLP as the Company’s independent registered public accounting firm for the 2016 fiscal year and cast an advisory vote on executive compensation. In addition, management will report on the performance of the Company and respond to questions from shareholders.

Who is entitled to vote?

All shareholders of record as of the close of business on Monday, April 4, 2016 (the “Record Date”) are entitled to vote at the Meeting. As of the Record Date, 32,439,272 shares of Common Stock were issued and outstanding. Each share of Common Stock outstanding on the Record Date is entitled to one vote on each item submitted to you for consideration.

Why didn’t I automatically receive a paper copy of the Proxy Statement, Proxy Card and Annual Report?

The Securities and Exchange Commission (“SEC”) rules allow us to furnish proxy materials to our shareholders electronically. In an effort to lower the costs of delivery of proxy materials, as well as to reduce our use of paper, we have elected to take advantage of these rules by only mailing materials to those shareholders who specifically request a paper copy. On or around April 15, 2016, all shareholders were mailed a Notice Regarding the Availability of Proxy Materials that contained an overview of the proxy materials and explained several methods by which shareholders could view the proxy materials online or request to receive a copy of proxy materials via regular mail or email. There is NO charge for requesting a copy.

How can I get electronic access to the proxy materials?

The Notice Regarding the Availability of Proxy Materials includes a website address that will:

Provide you with instructions on how to view our proxy materials on the Internet; and

Enable you to notify us to send future proxy materials to you by email.

Choosing to receive future proxy materials by email will save us the cost of printing and mailing documents to you and will reduce the impact of our annual meetings on the environment. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Can I find additional information on the Company’s website?

Yes. Our website is located at www.eastgroup.net. Although the information contained on our website is not part of this proxy statement, you can view additional information on the website, such as our Code of Conduct, Corporate Governance Guidelines, charters of Board committees and reports that we file with the SEC. A copy of our Code of Conduct, Corporate Governance Guidelines and each of the charters of our Board committees may be obtained free of charge by writing to EastGroup Properties, Inc., 190 East Capitol Street, Suite 400, Jackson, Mississippi 39201, Attention: Investor Relations.

How do I vote?

Voting in Person at the Meeting. If you are a shareholder of record and attend the annual meeting, you may vote in person at the meeting. If your shares of Common Stock are held in street name and you wish to vote in person at the meeting, you will need to obtain a “legal proxy” from the broker, bank or other nominee that holds your shares of Common Stock of record.

Voting by Proxy for Shares Registered Directly in the Name of the Shareholder. If you hold your shares of Common Stock in your own name as a holder of record with our transfer agent, Wells Fargo Shareowner Services, you may instruct the proxy holders named in the proxy card how to vote your shares of Common Stock in one of the following ways:

Vote online. You can access proxy materials and vote at www.proxyvote.com. To vote online, you must have a shareholder identification number provided in the Notice Regarding the Availability of Proxy Materials.

Vote by telephone. If you received printed materials, you also have the option to vote by telephone by following the “Vote by Phone” instructions on the proxy card.

Vote by regular mail. If you received printed materials and would like to vote by mail, then please mark, sign and date your proxy card and return it promptly in the postage-paid envelope provided.

Voting by Proxy for Shares Registered in Street Name. If your shares of Common Stock are held in street name, you will receive instructions from your broker, bank or other nominee that you must follow in order to have your shares voted.

Regardless of how you choose to vote, your vote is important to us and we encourage you to vote promptly.

What happens if I return my proxy card without voting on all proposals?

When you return a properly executed proxy card, the Company will vote the shares that the proxy card represents in accordance with your directions. If you return the signed proxy card with no direction on a proposal, the Company will vote your proxy FOR the Board’s nominees for director, FOR the ratification of the independent registered public

accounting firm and FOR the approval of our 2015 executive compensation.

Will there be any other items of business on the agenda?

Pursuant to the Company's Bylaws and SEC rules, shareholder proposals must have been received by February 28, 2016 to be considered at the Annual Meeting. To date, we have received no shareholder proposals and we do not expect any other items of business. Nonetheless, in case there is an unforeseen need, your proxy gives discretionary authority to Marshall A. Loeb and N. Keith McKey with respect to any other matters that might be brought before the Annual Meeting. Those persons intend to vote that proxy in accordance with their best judgment.

How many votes are needed to hold the Meeting?

In order to conduct the Meeting, the presence, in person or by properly executed proxy, of the holders of shares of Common Stock entitled to cast a majority (i.e., greater than 50%) of all the votes entitled to be cast at the Meeting is necessary to constitute a quorum. Shares of Common Stock represented by a properly signed, dated and returned proxy card, or proxies submitted by telephone or online, including abstentions and broker non-votes, will be treated as present at the Meeting for purposes of determining a quorum.

How many votes are needed to approve each proposal?

Proposal 1 concerns the election of nine directors of the Company. The votes cast "For" a nominee must exceed the votes cast "Against" the nominee for the nominee to be elected. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved. If a nominee fails to receive more "For" votes than votes cast "Against" and is an incumbent director, the nominee is required to tender his resignation to the Corporate Governance and Nominating Committee of the Board of Directors for consideration.

Proposal 2 concerns an advisory vote to ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for the 2016 fiscal year. This proposal will be approved if the votes cast "For" the proposal exceed the votes cast "Against" the proposal. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved. The Audit Committee will consider a vote against the firm by the shareholders in selecting our independent registered public accounting firm in the future.

Proposal 3 concerns a non-binding advisory vote to approve the compensation for the Named Executive Officers disclosed in the section of this Proxy Statement entitled “Compensation of Executive Officers.” For the advisory vote to be approved, the votes cast “For” the proposal must exceed the votes cast “Against” this proposal. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved.

Can I change my vote after I have voted?

You can revoke your proxy and change your vote at any time before the polls close at the Meeting. You can do this by:

filing with the Secretary of the Company a written revocation or signing and submitting another proxy with a later date; or

attending the Meeting, withdrawing the proxy and voting in person.

How do I submit a proposal for the 2017 Annual Meeting?

If a shareholder wishes to have a proposal considered for inclusion in the Company’s proxy statement for the 2017 Annual Meeting of Shareholders, the shareholder must submit the proposal in writing to the Secretary of the Company at 190 East Capitol Street, Suite 400, Jackson, Mississippi 39201 so that the Company receives the proposal by December 16, 2016.

If the proposal is not intended to be included in the Company’s proxy statement, a qualified shareholder intending to introduce a proposal or nominate a director at the 2017 Annual Meeting of Shareholders should give written notice to the Company’s Secretary not later than February 25, 2017 and not earlier than January 26, 2017.

Shareholders also are advised to review the Company’s Bylaws, which contain additional advance notice requirements, including requirements with respect to advance notice of shareholder proposals and director nominations.

Will anyone contact me regarding this vote?

No arrangements or contracts have been made with any solicitors as of the date of this Proxy Statement, although we reserve the right to engage solicitors if we deem them necessary. Such solicitations may be made by mail, telephone, facsimile, email or other electronic means or personal interviews. In addition, we reserve the right to solicit proxies through our directors, officers and employees (who will receive no additional compensation for those services). We anticipate that banks, brokerage houses and other institutions, nominees or fiduciaries will be requested to forward the soliciting material to their principals and to obtain authorization for the execution of proxies. The Company may, upon request, reimburse banks, brokerage houses and other institutions, nominees and fiduciaries for their expenses in forwarding proxy material to their principals.

Who has paid for this proxy solicitation?

The Company has paid the entire expense of this proxy statement and any additional materials furnished to shareholders.

Independent Directors

Under the NYSE listing standards, at least a majority of the Company's directors and all of the members of the Company's Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee must meet the test of "independence" as defined by the NYSE. The NYSE standards provide that, to qualify as an "independent" director, in addition to satisfying certain bright-line criteria, the Board of Directors must affirmatively determine that a director has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) that would interfere with such person's ability to exercise independent judgment as a member of the Company's Board.

Our Board currently has 10 members: D. Pike Aloian, H.C. Bailey, Jr., H. Eric Bolton, Jr., Hayden C. Eaves III, Fredric H. Gould, David H. Hoster II, Marshall A. Loeb, Mary E. McCormick, David M. Osnos and Leland R. Speed. The Board of Directors has determined that each director who served during the fiscal year ended December 31, 2015 was, and each current director continues to be, independent other than Mr. Loeb, the Company's Chief Executive Officer, Mr. Hoster, the Company's Chairman of the Board and Mr. Speed, the Company's Chairman Emeritus.

Shareholder Communication With the Board

The Board has created the position of Lead Independent Director to facilitate and strengthen the Board's independent oversight of our performance, strategy and succession planning and to promote effective governance standards. The Lead Independent Director presides over the meetings of the non-management directors of the Company. Our current Lead Independent Director is Mr. Osnos. Shareholders and other parties interested in communicating directly with the Lead Independent Director or with the non-management directors as a group may do so by writing to Lead Independent Director, EastGroup Properties, Inc., 190 East Capitol Street, Suite 400, Jackson, Mississippi 39201. Correspondence so addressed will be forwarded directly to the Lead Independent Director.

Leadership Structure

Our current leadership structure is comprised of the Chairman of the Board, a separate Chief Executive Officer, an independent director serving as Lead Independent Director who presides over the non-management directors, and strong active independent directors. As Chief Executive Officer, Mr. Loeb is responsible for setting the strategic direction of the Company and for the day to day leadership and management of the Company, while Mr. Hoster, Chairman of the Board, provides oversight, direction and leadership to the Board.

Another component of our leadership structure is the active role played by our independent directors in overseeing the Company's business, both at the Board and Committee level. Seven of the current 10 directors are considered independent under the NYSE listing standards. All of our directors are free to suggest the inclusion of items on the agenda for meetings of our Board of Directors or raise subjects that are not on the agenda for that meeting. In addition, our Board of Directors and each committee have complete and open access to any member of management and the authority to retain independent legal, financial and other advisors as they deem appropriate without consulting or obtaining the approval of any member of

management. Our Board of Directors also holds regularly scheduled executive sessions of only non-management directors, led by the Lead Independent Director, in order to promote discussion among the non-management directors and assure independent oversight of management. Moreover, our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee, all of which are comprised entirely of independent directors, also perform oversight functions independent of management.

Board Oversight of Risk Management

The Company believes that its leadership structure allows the Board of Directors to provide effective oversight of the Company's risk management function by receiving and discussing regular reports prepared by the Company's senior management on areas of material risk to the Company, including market conditions, tenant concentrations and credit worthiness, leasing activity and expirations, compliance with debt covenants, management of debt maturities, access to debt and equity capital markets, existing and potential legal claims against the Company and various other matters relating to the Company's business. Additionally, the Board of Directors administers its risk oversight function through (i) the required approval by the Board of Directors (or a committee thereof) of significant transactions and other decisions, including, among others, development and acquisitions of properties, new borrowings and the appointment and retention of the Company's senior management, (ii) the coordination of the direct oversight of specific areas of the Company's business by the Compensation, Audit and Nominating and Corporate Governance Committees, and (iii) periodic reports from the Company's auditors and other outside consultants regarding various areas of potential risk, including, among others, those relating to the qualification of the Company as a REIT for tax purposes and the Company's internal control over financial reporting.

Committees and Meeting Data

The Board of Directors has a standing Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee. Each member of each of these committees is "independent" as that term is defined in the NYSE listing standards. The Board has adopted a written charter for each of these committees, which is available on our website at www.eastgroup.net.

The Audit Committee consists of Messrs. Aloian, Bolton and Osnos and Ms. McCormick. The Audit Committee met six times during the Company's 2015 fiscal year. The Audit Committee oversees the financial reporting of the Company, including the audit by the Company's independent registered public accounting firm. Messrs. Aloian and Bolton and Ms. McCormick have each been designated as an "Audit Committee financial expert" in accordance with the SEC rules and regulations, and the Board has determined that they have accounting and related financial management expertise within the meaning of the listing standards of the New York Stock Exchange. See "Report of the Audit Committee" below.

The Compensation Committee consists of Messrs. Bailey, Eaves and Gould. The Compensation Committee's function is to review and recommend to the Board of Directors appropriate executive compensation policy and compensation of the Company's directors and executive officers. The Compensation Committee also reviews and makes recommendations with respect to executive and employee benefit plans and programs. The Compensation Committee met five times during the Company's 2015 fiscal year.

The Nominating and Corporate Governance Committee currently consists of Messrs. Aloian and Eaves and Ms. McCormick. The Nominating and Corporate Governance Committee met four times during the Company's 2015 fiscal year. The responsibilities of the Nominating and Corporate Governance Committee include assessing Board membership needs and identifying, screening, recruiting, presenting director candidates to the Board, implementing policies regarding corporate governance matters, making recommendations regarding committee memberships and sponsoring and overseeing performance evaluations for the Board as a whole and the directors.

Nominating Procedures

In identifying suitable candidates for nomination as a director, the Nominating and Corporate Governance Committee considers the needs of the Board and the range of skills and characteristics required for effective functioning of the Board. Although the Company does not have a formal policy or guidelines regarding diversity, the Company's Corporate Governance Guidelines recognize the value of having a Board that encompasses a broad range of skills, expertise, contacts, industry knowledge and diversity of opinion. In evaluating such skills and characteristics, the Committee may take into consideration such factors as it deems appropriate, including those included in the Corporate Governance Guidelines. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination. In addition, the Nominating and Corporate Governance Committee will consider nominees suggested by incumbent Board members, management, shareholders and, in certain circumstances, outside search firms; as such, shareholders may influence the composition of the Board. Under this principle, the Nominating and Corporate Governance Committee will consider written recommendations for potential nominees suggested by shareholders. Any such

person will be evaluated in the same manner as any other potential nominee for director. Any suggestion for a nominee for director by a shareholder should be sent to the Company's Secretary at 190 East Capitol Street, Suite 400, Jackson, Mississippi 39201, within the time periods set forth under the heading "About the Meeting – How do I submit a proposal for the 2017 Annual Meeting?"

Board Attendance at Meetings

The Board of Directors held six meetings during the Company's 2015 fiscal year. Each director attended at least 75% of the aggregate of the total number of meetings of the Board of Directors and meetings held by all committees of the Board of Directors on which he or she served. The Company's Corporate Governance Guidelines provide that all directors are expected to regularly attend all meetings of the Board and the Board committees on which he or she serves. In addition, each director is expected to attend the Annual Meeting of Shareholders. In 2015, the Annual Meeting of Shareholders was attended by all of the directors then in office.

Compensation Committee Interlocks

As noted above, the Compensation Committee is comprised of three independent directors: Messrs. Bailey, Eaves and Gould. No member of the Compensation Committee is or was formerly an officer or an employee of the Company. No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's Board of Directors, nor has such interlocking relationship existed in the past.

Compensation of Directors

Under the Company's director compensation program, each non-employee director is paid an annual cash retainer of \$35,000 (\$40,000 beginning with the 2016 Annual Meeting) payable ratably on a monthly basis. The chairperson of the Audit Committee receives an additional cash retainer in the amount of \$15,000 and the chairperson of the Compensation Committee and Nominating and Corporate Governance Committee each receive an additional cash retainer in the amount of \$10,000. All other committee chairpersons receive an additional annual \$7,500 cash retainer and the Lead Independent Director receives an additional annual \$10,000 cash retainer.

The director compensation program provides that each non-employee director is paid \$1,500 for each Board meeting attended. Non-employee directors serving as members of Board committees are paid \$1,000 for each meeting

attended. In each case, the non-employee director is also reimbursed for his or her expenses in connection with attendance at each meeting.

Pursuant to the Independent Director Compensation Policy under the Company's 2013 Equity Incentive Plan, non-employee directors receive an annual award in connection with their election to the Board at the annual meeting of shareholders. The annual award consists of shares of the Company's common stock with a value of \$75,000 (\$80,000 beginning with the 2016 Annual Meeting) as of the date of grant. A director who is appointed to the Board outside of the annual meeting of shareholders will receive a prorated amount of the annual award.

The Independent Director Compensation Policy also provides that each new non-employee director appointed or elected will receive an automatic award of restricted shares of Common Stock on the effective date of election or appointment equal to \$25,000 divided by the fair market value of the Company's Common Stock on such date. These restricted shares will vest over a four-year period upon the performance of future service as a director, subject to certain exceptions.

As officers of the Company, Messrs. Speed and Hoster did not receive any compensation under the Independent Directors Compensation Policy in 2015. Mr. Speed served as executive Chairman of the Board of Directors and received cash compensation of \$300,000. Mr. Hoster's compensation in 2015 as Chief Executive Officer is included in the Summary Compensation Table. The Company's non-employee directors received the following aggregate amounts of compensation for the year ended December 31, 2015:

Name	Fees Earned or Paid in Cash	Stock Awards (1)	Total

For 2016, Mr. Loeb will not receive any compensation for serving the Company as a member of the Board of Directors or any of its committees. Messrs. Hoster and Speed have ceased serving as employees of the Company and will begin receiving the regular cash and equity compensation for Board service under the Company's Director Compensation Program. In addition, Mr. Hoster will receive a \$250,000 stipend for his work as Chairman of the Board. As part of the transition to Chairman Emeritus, the Company awarded Mr. Speed a one-time cash award in the amount of \$750,000. The award is payable in five equal annual installments of \$150,000 on June 30 of each year beginning June 30, 2016, provided that Mr. Speed continues to serve as a director of the Company through June 30, 2016.

PROPOSALS TO BE VOTED ON

Proposal 1 – Election of Directors

Our Board currently has 10 members. David M. Osnos is not standing for re-election to the Board of Directors after his current term expires immediately prior to the Annual Meeting. The Board of Directors thanks Mr. Osnos for his service. Immediately following the Annual Meeting, the number of authorized directors will be reduced to nine. All nine positions on the Board are to be filled by the vote of the shareholders at the Meeting. Each person so elected shall serve until the next Annual Meeting of Shareholders and until his or her successor is elected and qualified.

The nominees for director are: D. Pike Aloian, H.C. Bailey, Jr., H. Eric Bolton, Jr., Hayden C. Eaves III, Fredric H. Gould, David H. Hoster II, Marshall A. Loeb, Mary E. McCormick and Leland R. Speed. All nominees are currently serving as directors of the Company and were elected at the 2015 Annual Meeting of Shareholders with the exception of Mr. Loeb who was appointed to the Board effective January 1, 2016.

Unless instructed otherwise, proxies will be voted “FOR” the nominees listed above. Although the directors do not contemplate that any of the nominees will be unable to serve prior to the Meeting, if such a situation arises, your proxy will be voted in accordance with the best judgment of the person or persons voting the proxy.

Information regarding the director nominees can be found under “Corporate Governance and Board Matters – Director Qualifications and Biographical Information.”

The Board of Directors unanimously recommends that shareholders vote “FOR” the election of each of the nominees.

Nominees receiving more “For” votes than votes cast “Against” will be elected. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved.

Proposal 2 – Advisory Vote on the Ratification of Independent Registered Public Accounting Firm

The Audit Committee is responsible for the appointment of the independent registered public accounting firm engaged by the Company. The Audit Committee has appointed KPMG LLP as independent auditors for 2016. The Board is asking shareholders to approve this appointment. KPMG LLP audited the Company’s financial statements and internal controls over

financial reporting for 2015. A representative of that firm will be present at the Meeting and will have an opportunity to make a statement and answer questions.

The “Audit Committee Matters” section of this Proxy Statement contains additional information regarding the independent auditors, including a description of the Audit Committee’s Policy for Pre-Approval of Audit and Permitted Non-Audit Services and a summary of Auditor Fees and Services.

The Board of Directors recommends that you vote “FOR” the appointment of KPMG LLP, an independent registered public accounting firm, to serve as the Company’s independent auditors for the 2016 fiscal year.

Shareholder approval for the appointment of our independent registered public accounting firm is not required, but the Board is submitting the selection of KPMG LLP for ratification in order to obtain the views of our shareholders. This proposal will be approved if the votes cast “For” the proposal exceed the votes cast “Against” the proposal. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved. The Audit Committee will consider a vote against the firm by the shareholders in selecting our independent registered public accounting firm in the future.

Proposal 3 – Advisory Vote on Executive Compensation

As required by SEC rules, we are asking our shareholders to provide an advisory, nonbinding vote to approve the compensation awarded to our Named Executive Officers, as we have described it in the “Compensation of Executive Officers” section of this Proxy Statement.

As described in detail under the heading “Compensation Discussion and Analysis,” we seek to closely align the interests of our named executive officers with the interests of our shareholders. Our compensation programs are designed to reward our named executive officers for the achievement of short-term and long-term strategic and operational goals and the achievement of increased total shareholder return, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking.

You may vote for or against the following resolution, or you may abstain. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and procedures described in this Proxy Statement.

Accordingly, we ask our shareholders to vote on the following resolution at the Meeting:

“RESOLVED, that the Company’s shareholders approve, on an advisory basis, the compensation awarded to the Company’s Named Executive Officers for 2015, as disclosed under SEC rules, including the Compensation Discussion and Analysis, the compensation tables and related material included in this Proxy Statement.”

The Board of Directors recommends that you vote “FOR” the approval of the foregoing resolution.

For the advisory vote on the compensation of our named executive officers to be approved, the votes cast “For” the proposal must exceed the votes cast “Against” this proposal. Neither abstentions nor broker non-votes will have any legal effect on whether this proposal is approved. While this vote is advisory and not binding on our Company, the Board and the Compensation Committee expect to consider the outcome of the vote, along with other relevant factors, when considering future executive compensation decisions.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

Executive Summary. Our compensation programs are designed to link financial and strategic results to executive rewards. The majority of each executive's pay is tied directly to goal achievement; this pay for performance process ensures that the financial interests of our executives are aligned with those of our shareholders. We are pleased that we received strong "Say-on-Pay" shareholder support over the past five years, with more than 94% of the votes cast in favor of the resolution each year. Accordingly, the Compensation Committee maintained the same principal elements of our executive compensation programs for setting 2015 compensation.

Annual Compensation. The most material quantitative and qualitative performance factors that the Compensation Committee considered in making 2015 annual incentive compensation decisions were:

Earnings performance. The Company's funds from operations, or FFO, was \$3.67 per share, which was the high end of our guidance to investors of \$3.57 to \$3.67 per share.

Same property net operating income growth. Our goal was to increase same property net operating income, or NOI, year over year between a target of 1.1% and a high of 1.8% on a GAAP basis. The Company exceeded this goal by increasing same property GAAP NOI by 2.0%.

Leasing. The Company renewed or re-leased 90% of expiring square feet during the year and rental rates on new and renewal leases increased an average of 11.9% for the year. Occupancy at the end of 2015 stood at 96.1% while average occupancy for 2015 was 96.0% which exceeded our goal of 95.0%.

Acquisitions. The Company completed acquisitions of operating properties (335,000 square feet) and development land (113 acres) for \$51 million for the year.

Development. The Company started 10 new development projects and one redevelopment project (1,283,000 square feet) with a projected total investment of \$87 Million in 2015. Our development program consisted of 14 projects (1.7 million square feet) at December 31, 2015 with a projected total investment of \$114 million.

Dividends. The Company paid annual cash dividends of \$2.34 per share during the year.

Management of the balance sheet. The Company closed on new debt financing to elongate our debt maturity schedule, reduce our overall average corporate borrowing cost and fund acquisitions and development, while also maintaining satisfactory liquidity and leverage ratios.

Management of G&A expenses. The Company's G&A expense of \$15.1 million was below our budgeted goal of \$15.8 million.

Total shareholder return. The Company's total shareholder return, or TSR, for 2015 was (8.5)% which fell below the threshold goal established by the Compensation Committee at the beginning of the performance period.

Long-Term Compensation. The most material quantitative and qualitative performance factors that the Compensation Committee considered in making 2015 long-term incentive compensation decisions were (i) TSR for the five year period ended December 31, 2015 compared to three indexes and (ii) an absolute return for a one year period for EastGroup. Listed below are the shareholder returns for the five year period on an annualized basis.

Company/Index	5 Year TSR
EastGroup Properties, Inc.	10.0%
NAREIT Industrial Index	10.7%
NAREIT Equity Index	12.0%
Russell 2000	9.2 %

In addition, our TSR for 2015 was (8.5)% which fell below the threshold goal established by the Compensation Committee at the beginning of the performance period.

General Philosophy. The Compensation Committee compensates our senior management through a mix of base salary, cash bonus and equity compensation designed to be competitive with comparable employers and to align management's incentives with the long-term interests of our shareholders. The compensation setting process consists of establishing targeted overall compensation for each executive officer and then allocating that compensation among base salary, cash incentive/bonus and equity incentive compensation. The Committee designs the incentive compensation to reward company-wide performance through the use of performance metrics based primarily on growth in funds from operations and total return to shareholders.

The following are the key features of our executive compensation program:

We pay for performance and have a direct alignment with total shareholder return performance.

We seek to target compensation within a competitive range of the median peer group and only deliver greater compensation when warranted by actual performance.

The majority of the total compensation opportunity for our Named Officers is not guaranteed. It is based upon the achievement of corporate and individual performance objectives designed to enhance shareholder value or to promote continued service with the Company, which we believe is also in the best long-term interests of our shareholders.

We use multiple performance metrics as well as different performance measures for cash bonuses and multi-year equity awards, which mitigates compensation-related risk.

We do not pay dividend equivalents on unvested restricted stock awards.

The benefits our Named Officers receive in the form of health insurance, life insurance, and Company matching contributions to the 401(k) Plan are the same benefits generally available to all of our employees.

We have implemented a clawback policy that allows for the recovery of previously paid executive compensation.

We have robust stock ownership guidelines for our named executive officers and directors.

We engage an independent compensation consultant to advise the Compensation Committee on compensation matters.

We maintain a Compensation Committee comprised solely of independent directors.

Consideration of Most Recent Say on Pay Vote. At the annual meeting of shareholders on May 28, 2015, 94.5% of the shares voted were voted in support of the compensation of our Named Officers, as discussed and disclosed in the 2015 proxy statement. In considering the results of this most recent advisory vote on executive compensation, the Committee concluded that the compensation paid to our executive officers and the Company's overall pay practices have strong shareholder support and no significant changes were necessary.

The Committee recognizes that executive pay practices and notions of sound governance principles continue to evolve. Consequently, the Committee intends to continue paying close attention to the advice and counsel of its independent compensation advisors and invites our shareholders to communicate any concerns or opinions on executive pay directly to the Committee or the Board. Please refer to "Shareholder Communication With the Board" above for information about communicating with the Board.

Also at the annual meeting of shareholders on May 25, 2011, our shareholders expressed a preference that advisory votes on executive compensation occur every year. Consistent with this preference, the Board determined to implement an advisory vote on executive compensation every year until the next required vote on the frequency of shareholder votes on the compensation of executives, which will occur no later than the 2017 annual meeting.

Engagement of Compensation Consultant. In 2015 the Compensation Committee again retained FPL Associates, L.P., a nationally recognized compensation consulting firm specializing in the real estate industry that was first engaged by the Compensation Committee in 2003. Neither the Compensation Committee nor the Company has any other professional relationship with FPL. The Compensation Committee directed FPL to, among other things: (1) assist the Compensation Committee in applying our compensation philosophy for our executive officers, including the determination of the portion of total compensation awarded in the form of salary, annual cash incentive and equity-based compensation, as well as selecting the appropriate performance metrics and levels of performance (e.g., threshold, target, high); (2) analyze current compensation conditions among the Company's peers, and assess the competitiveness and appropriateness of compensation levels for our executive officers; (3) recommend to the Compensation Committee any modifications or additions to the Company's existing compensation programs that it deems advisable; and (4) make specific recommendations to the Compensation Committee for base salary, annual cash incentive and equity-based awards for our executive officers. FPL also conducted a Board of Director compensation benchmarking analysis for the Compensation Committee. The Company paid \$47,550 to FPL during 2015 for these services. FPL did not provide any other services to the Compensation Committee, the Company, or any

of its affiliates during 2015.

Peer Group Analysis. The Compensation Committee, with the help of FPL, periodically reviews the composition of our peer groups and the criteria and data used in compiling our peer group lists, and considers modifications to this group. In 2015, the Compensation Committee reviewed data provided by FPL regarding the appropriate companies to include in the peer group and the effect any change in the peer group would have on our standing within the peer groups. The peer groups recommended by FPL and used by the Compensation Committee are all public real estate companies and are divided into two groups based on industry sector (the asset-based peer group) and equity market capitalization, geographic location and historical performance (the size-geographic-performance peer group, or what we refer to as the SGP peer group). FPL's compensation review was based on information contained in FPL's proprietary database, which includes proxy data from fiscal 2014 and other public and non-public sources.

The asset-based peer group was unchanged from 2014 and consists of six public REITs that invest in industrial properties. The following table provides the names and key information for each company in the asset-based peer group as of December 31, 2014 (multi-year TSR performance is annualized):

The SGP peer group consists of 12 public REITs, which (i) operate across multiple asset classes and are similar in size to the Company in terms of market capitalization, (ii) are similar in performance to the Company in terms of 3-year annualized TSR and/or (iii) are headquartered in the Sunbelt region of the United States. The following table provides the names and key information for each company in the SGP peer group as of December 31, 2014 (multi-year TSR performance is annualized):

The SGP based peer group was largely unchanged from 2014 with the exception of the removal of Sovran Self Storage, Inc., Tanger Factory Outlets and Associated Estates Realty Corporation and the addition of CoreSite Realty Corporation, QTS Realty Trust, Inc. and STAG Industrial, Inc.

The overall results of the FPL study produced the starting point for the Compensation Committee's analysis. The Committee compared the Company's actual 2014 compensation for executive officers (including the discretionary restricted stock awards made in 2015 with respect to 2014 performance) with the actual 2014 total compensation of each of the peer groups. The study showed that the target pay, on an aggregate basis for all executive officers, was in line with the median compared to both peer groups while total compensation was in line with the median for the asset-based peer group and the 75th percentile for the SGP peer group.

The Committee then used the peer group data, survey information and other relevant factors to establish the 2015 compensation program for our executive officers. While the Compensation Committee evaluates and discusses compensation data provided by FPL to help inform its decision making process, the Compensation Committee does not set compensation levels at any specific level or percentile against the peer group data (i.e., the Compensation Committee does not "benchmark" the Company's executive compensation levels, particularly on an individual basis). As described below, the peer group data is only a reference point taken into account by the Compensation Committee in determining compensation decisions.

The Committee believes the executive compensation program, in total, reflects the competitive market practices of the asset-based and SGP peer groups described above and provides the opportunities for executives to earn incentive-based compensation driven by the accomplishment of performance expectations. The Compensation Committee bases its targeted overall compensation to executives on a number of factors, including the executive's position with the Company and total compensation package, the executive's performance of his or her individual responsibilities, the equity participation levels of comparable executives at companies in our compensation peer groups, and the executive's contribution to the success of the Company's financial performance. In the case of Mr. Hoster, the Committee also considered the performance of the Company during the period in which he had been Chief Executive Officer.

Targeted Overall Compensation. Based upon this analysis, the Compensation Committee established the targeted annual cash incentive, annual equity incentive and long-term equity incentive for Mr. Hoster, our Chief Executive Officer in 2015, each equal to 110% of his base salary resulting in a targeted overall compensation of \$2,678,900 for 2015. When compared to the peer group information, which was based on 2014 compensation, this amount was below the 25th percentile of the actual overall compensation for both the asset-based and SGP peer groups.

Mr. Loeb was appointed President and Chief Operating Officer of the Company effective March 1, 2015 and he was subsequently appointed Chief Executive Officer effective January 1, 2016. The Compensation Committee approved Mr. Loeb's compensation for 2015 which included a base salary of \$416,667 (\$500,000 annualized), a target cash bonus equal to 100% of base salary and target short- and long-term equity incentive awards in the form of restricted stock each equal to 75% of base salary for a total target compensation of \$1,458,334 (\$1,750,000 annualized).

The Compensation Committee also established targeted overall compensation for our Chief Financial Officer and senior vice presidents. Based upon this analysis, the Committee set the targeted annual cash incentive, annual equity incentive and long-term equity incentive for the Chief Financial Officer each equal to 90% of his base salary resulting in a targeted overall compensation of \$1,372,700 for 2015, which was below the 25th percentile of the actual overall compensation for both the asset-based and SGP peer groups. With regard to the other Named Officers, the targeted annual cash incentive, annual equity incentive and long-term equity incentive were each set at 60% of base salary resulting in a targeted overall compensation ranging from \$980,000 to \$1,010,800 for 2015.

In addition to establishing targeted overall compensation, the Compensation Committee also imposed a maximum on each component of incentive compensation that may be earned by each executive officer equal to 150% of the target award.

Allocation among Components. Under the Company's targeted compensation structure, the approximate mix of base salary, annual cash incentive and equity compensation varies depending upon management level:

	Base Salary		Annual Cash Incentive Target		Equity Target	
Chief Executive Officer	23	%	26	%	51	%
President	29	%	29	%	42	%
Chief Financial Officer	27	%	24	%	49	%
Senior Vice Presidents	36	%	21	%	43	%

In allocating compensation among these elements, the Committee believes that the compensation of our executive officers, specifically our Chief Executive Officer, should be predominately performance-based. In making this allocation, the Committee relied in part upon the advice of FPL. In 2015, FPL performed a study of the compensation practices of the Company and the peer group comparable companies in terms of how each component of compensation is weighted across the

percentage of total pay comprised of base salary, annual cash incentive, and long-term equity value. Although each of the companies has a different compensation structure, all appear to provide their senior management with base salaries of approximately 21% to 38% of overall compensation, bonus opportunities of approximately 26% to 33% of overall compensation and equity compensation of approximately 35% to 50% of overall compensation. The Committee selected allocations that it believes are consistent with the Company's overall compensation philosophy as described above, and in all cases the Company's target compensation included a significant portion allocated to equity awards.

Base Salaries. The Committee seeks to provide our executive officers with a level of assured cash compensation in the form of base salary that is commensurate with their professional status, accomplishments and geographic location. The base salaries are reviewed annually by the Compensation Committee and are adjusted from time to time to recognize competitive market data, the officer's level of responsibility, outstanding individual performance, promotions and internal equity considerations. At the senior vice president level, we have a significant level of competition for employees in our market areas. As a result, the Committee provides a slightly larger portion of the compensation to our senior vice presidents in the form of base salary in order to improve our competitiveness in these areas. Based on this review and the state of the economy, base salaries for 2015 were increased 3.0% from 2014 levels.

Annual Cash and Equity Incentive Compensation. The 2015 annual incentive awards, which were paid one-half in cash and one-half in equity, were based on the Compensation Committee's analysis of the Company's funds from operations (FFO) per share, same property change, certain Company-wide strategic objectives and total shareholder return as discussed below.

Criteria	Internal Guideline or Budget	2015 Actual Results	Goal Met?
FFO Per Share (1)	\$3.62 target; \$3.67 high	\$3.67	Yes, at maximum level (high)
Increase in Same Property Net Operating Income	1.1% target; 1.8% high	2.0%	Yes, at maximum level (high)
G&A Costs	\$15.8 million	\$15.1 million	4.4% below budget
Average Occupancy	95.0%	96.0%	Yes
Debt to Total Market Capitalization	Less than 35%	36.4%	No
Bank Debt	Less than \$150 million	\$150.8 million at December 31, 2015	In line
Fixed Charge Coverage	Greater than 3.0 to 1.0	4.4 to 1.0	Yes
Bank Covenants	In compliance	In compliance each quarter	Yes
Total Shareholder Return	10% target; 13% high	(8.5)%	No, below threshold

FFO is computed in accordance with standards established by the National Association of Real Estate Investment Trusts. NAREIT defines FFO as net income (loss) attributable to common stockholders computed in accordance with GAAP, excluding gains or losses from sales of depreciable real estate property and impairment losses, plus (1) real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We believe that FFO is an appropriate measure of performance for equity real estate investment trusts and that excluding depreciation and amortization in the calculation of FFO is appropriate since real estate values have historically increased or decreased based on market conditions.

In performing this analysis, the Compensation Committee considered the Company's financial and other performance, both on an absolute and relative basis, as well as general economic conditions in the Company's markets and factors such as property acquisitions, dispositions, equity issuances, and debt financings during the year. The Compensation Committee used the asset-based peer group for purposes of reviewing relative financial and other performance as discussed below. This peer group was used as these companies focus on industrial properties, which causes their performance to be most closely correlated with ours.

Criteria	Peer Group Range	Peer Group Average	2015 Actual Company Results
Change in FFO Per Share, excluding impairment charges and acquisition costs	(19.8)% to 8.5 %	1.8 %	6.1 %
Same Property Change (Industrial Assets): GAAP basis	(0.2)% to 5.9 %	3.8 %	2.0 %
Year-End Occupancy	94.4% to 96.1 %	95.3 %	96.1 %

Based on the Compensation Committee's analysis of all of the foregoing criteria, the Compensation Committee determined that actual Company results exceeded target performance and awarded annual cash incentive compensation and annual equity incentive compensation to each Named Officer equal to 115% of the target award as set forth below.

Name	Annual Equity Incentive		
	Annual Cash Incentive	Shares	Grant Date Fair Value
David H. Hoster II	\$788,095	12,446	\$697,598
Marshall A. Loeb	\$479,167	5,676	\$318,140
N. Keith McKey	\$383,985	6,064	\$339,887
John F. Coleman	\$249,090	3,934	\$220,501
William D. Petsas	\$241,500	3,814	\$213,775
Brent W. Wood	\$249,090	3,934	\$220,501

These performance-based shares vested 20% on the date of grant and generally will vest 20% on each of January 1, 2017, 2018, 2019 and 2020. As previously disclosed, the Compensation Committee approved special vesting provisions for Messrs. Hoster and McKey whereby shares issued to Mr. Hoster vested immediately and shares issued to Mr. McKey will become fully vested no later than April 6, 2016. Dividends on the annual equity incentive awards accumulate beginning January 1, 2015 and are paid if and when the restricted stock vests. The Compensation Committee reviewed the Company's results for the 2015 performance period and approved the actual awards in March 2016. Accordingly, these performance-based equity awards are not reflected in the Summary Compensation Table and other compensation tables in this proxy statement, rather these awards will be reflected as 2016 compensation in accordance with the rules of the SEC.

Long-Term Equity Incentive Compensation. Restricted stock awards are provided based on performance and the recipient also must remain employed by the Company for an additional period following the performance period in order for the restricted stock to vest.

Similar to prior years, the Compensation Committee reviewed the Company's relative and absolute performance during 2015 as well as a comparison of the Company's total return to the NAREIT Industrial Index, NAREIT Equity Index and the Russell 2000 Index over the five-year period ended December 31, 2015 when determining long-term equity incentive compensation for the executive officers. The Company's total shareholder return for 2015 was (8.5)% compared to an internal target goal of 10.0%. The annualized total return for the Company and the comparative indexes for the five-year period ended December 31, 2015 were:

Company/Index	Annualized Total Shareholder Return	
EastGroup Properties, Inc.	10.0	%
NAREIT Industrial Index	10.7	%
NAREIT Equity Index	12.0	%
Russell 2000 Index	9.2	%

Based on the foregoing, the Compensation Committee determined that actual Company results exceeded threshold performance but did not meet target and awarded long-term equity incentive compensation to each Named Officer equal to 80% of the target award as set forth below.

Name	Long-Term Equity Incentive	
	Shares	Grant
		Date
		Fair Value
David H. Hoster II	8,658	\$485,281
Marshall A. Loeb	3,948	\$221,285
N. Keith McKey	4,219	\$236,475
John F. Coleman	2,737	\$153,409
William D. Petsas	2,653	\$148,701
Brent W. Wood	2,737	\$153,409

These shares vested 25% on the date of grant and generally will vest 25% on each of January 1, 2017, 2018 and 2019, with the exception of the special vesting provisions for Messrs. Hoster and McKey discussed above. Dividends on the awards accumulate beginning January 1, 2015 and are paid if and when the restricted stock vests. The Compensation Committee reviewed the Company's results at the end of the performance period and approved the actual long-term equity incentive awards in March 2016. Accordingly, these performance-based equity awards are not reflected in the Summary Compensation Table and other compensation tables in this proxy statement, rather these awards will be reflected as 2016 compensation in accordance with the rules of the SEC.

2015 Compensation Based on Performance Year. The compensation paid to our Named Executive Officers is reported in the 2015 Summary Compensation Table as required by SEC rules. We are also providing the supplemental compensation information below to provide our shareholders with a more complete picture of the compensation to our Named Executive Officers for 2015 performance. The table below shows the base salaries for 2015, and the annual cash incentive awards, annual equity incentive awards and long-term equity incentive awards granted in 2016 for services performed in 2015. In contrast to the Summary Compensation Table, which discloses the grant date fair value of equity awards in the year the awards are granted, the table below discloses the equity awards relating to the year of performance. The equity incentive awards are valued using the value at grant date (i.e., March 2, 2016).

Retention Grants. On March 4, 2010, the Compensation Committee awarded 20,000 shares of restricted stock as a retention bonus to each of Messrs. Coleman, Petsas and Wood. Each of these Senior Vice Presidents is a seasoned real estate executive whose departure would disrupt the operations of the Company in the region for which that person is responsible. The Compensation Committee discussed various ways in which to mitigate the risk that one or more of these individuals could be enticed away. The restricted stock awards vest as follows, provided that the applicable officer remains in the employ of the Company as of such date: 1,400 shares on January 10, 2016; 2,600 shares on January 10, 2017; 4,000 shares on January 10, 2018; 5,400 shares on January 10, 2019 and 6,600 shares on January 10, 2020.

In the event the officer's employment terminates for reasons other than death or permanent disability, the officer will forfeit all of his interest in shares that have not vested as of the date of termination. If employment terminates as a result of death or permanent disability, the officer or his estate will receive a pro rata number of restricted shares based on the number of full months elapsed since January 1, 2010 to the date of termination of employment compared to the full vesting period. The Compensation Committee believes these restricted stock awards will give the executive officers incentive to remain with the Company over the long term.

Retirement Plans. We have a 401(k) Plan pursuant to which the Company makes matching and discretionary contributions for eligible employees. When the Compensation Committee calculates targeted overall compensation for our senior management, it factors in the benefits expected to be received under the 401(k) Plan.

Perquisites and Other Benefits. The Compensation Committee annually reviews the perquisites that senior management receives. The primary perquisites for executive officers are the Company's contribution to a 401(k) Plan and life insurance of 2.5 times base salary up to a maximum of \$400,000. Executive officers also participate in the Company's medical insurance plans on the same terms as other officers. We do not provide our executives automobiles or reimbursement for country clubs, financial planning or things of a similar nature.

Severance Benefits. In order to recruit executives and encourage retention of employees, we believe it is appropriate and necessary to provide assurance of certain severance payments if the Company terminates the individual's employment without cause. Pursuant to our Severance and Change in Control Agreements, in the event an executive officer is terminated involuntarily by the Company without cause, as defined in the agreement, and provided the employee executes a full release of claims, in a form satisfactory to the Company, promptly following termination, the employee will be entitled to receive certain severance benefits discussed below under the heading "Potential Payments upon Termination or Change in Control." We believe that the size of the severance package is consistent with severance offered by other companies of our size or in our industry.

Change in Control. Our senior management and other employees have built the Company into a successful real estate investment trust and the Board of Directors believes that it is important to protect them in the event of a change in control. Further, it is the Board's belief that the interests of shareholders will be best served if the interests of our senior management are aligned with them, and providing change in control benefits should eliminate, or at least reduce, the reluctance of senior management to pursue potential change in control transactions that may be in the best interests of shareholders. Relative to the overall value of the Company, these potential change in control benefits are relatively minor. See "Potential Payments upon Termination or Change in Control" for additional information.

Compensation Committee Process. Compensation of the Chief Executive Officer is determined solely by the Compensation Committee of the Board of Directors, with the Chief Executive Officer playing a supporting role in the compensation-setting process for our other executive officers. The Compensation Committee meets in executive session each year to evaluate the performance of the Chief Executive Officer, to determine cash and equity incentive awards, if any, based on goals established for the prior calendar year and to establish base salary, performance goals and target compensation for the current calendar year. The Chief Executive Officer is responsible for evaluating the performance of the other executive officers. The Compensation Committee, following discussions with the Chief Executive Officer and, where it deems appropriate, FPL or other advisors, establishes target and actual compensation levels based on corporate financial performance goals for the other executive officers.

Clawback. We have adopted a policy that allows the clawback of variable compensation in the event of a substantial restatement of our financial results caused by intentional misconduct by senior officers of the Company. The Compensation Committee reserves the right to review the incentive compensation received by the senior officers with respect to the period to which the restatement relates, recalculate the Company's results for the period to which the restatement relates and seek reimbursement of that portion of the incentive compensation that was based on the misstated financial results from the senior officer or officers whose intentional misconduct was the cause of the restatement.

Hedging Policy. Our Board of Directors has adopted a policy that prohibits Company directors, officers and certain designated employees from engaging in any hedging or monetization transactions involving Company securities or from purchasing or selling any put or call option contract or similar instrument with respect to Company securities.

Report of the Compensation Committee

The following Report of the Compensation Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other filing by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934 except to the extent the Company specifically incorporates this Report by reference therein.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The amounts in this column reflect restricted stock awards granted to the Named Officers during 2013, 2014 and (1) 2015 and are disclosed as the aggregate grant date fair value of the awards, computed in accordance with FASB ASC Topic 718 (formerly FAS 123R).

For 2015, the amounts in this column do not reflect the restricted shares awarded by the Compensation Committee with respect to 2015 performance since the awards were discretionary and were granted in March 2016. Under the (2) SEC disclosure rules, these awards will be reflected as 2016 compensation. See the previous discussion in the Compensation Discussion and Analysis under the heading “Equity Compensation”.

(3) The amount shown in this column represents the Company’s discretionary contribution and matching contribution to its 401(k) Plan for the Named Officer’s benefit and the amount of premium paid by the Company for group term

life insurance on the Named Officer's life. For 2015, the amount reported for Mr. Loeb includes relocation expenses of \$48,951. The value of perquisites and other personal benefits are not shown in the table because the aggregate amount of such compensation, if any, is less than \$10,000 for each Named Officer.

(1) Represents the possible payouts under the Company's 2015 non-equity incentive plan discussed in further detail above under the heading "Compensation Discussion and Analysis--Annual Cash and Equity Incentive Compensation." The actual amount earned by each Named Officer in 2015 is reported under the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table.

(2) Represents actual restricted stock awarded on March 5, 2015 in connection with the Compensation Committee's discretionary review of the 2014 annual and long-term incentive compensation as discussed under the headings "Compensation Discussion and Analysis--Annual Cash and Equity Incentive Compensation" and "--Long-Term Equity Incentive Compensation" of the Company's proxy statement for the 2015 Annual Meeting of Shareholders.

(3) Represents the grant date fair value of the award determined in accordance with FASB ASC Topic 718 disregarding for this purpose the estimate of forfeitures related to service-based vesting conditions. The grant date fair value is calculated by multiplying the number of restricted shares granted by the closing price of the Company's Common Stock on the date of grant.

Potential Payments upon Termination or Change in Control

The Company has entered into Severance and Change in Control Agreements and maintains certain plans that will require the Company to provide compensation to executive officers of the Company in the event of a termination of employment or a change in control of the Company. The following table shows potential payouts assuming that the employment of the Named Officer was terminated in each situation listed in the table and that termination occurred on the last business day of 2015. Mr. Hoster's Severance and Change in Control Agreement automatically terminated in connection with his retirement as an employee of the Company.

Below is a description of the definitions and assumptions that were used in creating the table above.

Definitions. A “change of control” means any of the following: (i) any change in control of a nature that would be required to be reported under the Exchange Act proxy rules; (ii) the acquisition by a person or group of beneficial

ownership of 30% of the Company's outstanding voting securities; (iii) a change in the composition of the Board of Directors such that the incumbent directors cease to constitute at least a majority of the Board (including, for purposes of computing a majority, those persons nominated for election by a two-thirds majority of the then incumbent directors who had been similarly nominated); (iv) the security holders of the Company approve a merger or consolidation of the Company, with certain exceptions; or (v) approval by the Company's shareholders of a complete liquidation of the Company or disposition of all or substantially all of the Company's assets.

“Average annual compensation” means an amount equal to the annual average of the sum of (i) the executive's annual base salary from the Company plus (ii) the amount of cash bonus paid by the Company to the executive, in each case for the

average of the three calendar years that ended immediately before (or, if applicable, coincident with) a specified date, provided that: (A) any such year in which the executive was not employed by the Company shall be excluded from the averaging period; and (B) the base salary and cash bonus for any such year that reflects a partial year of employment shall be annualized.

A termination is for “cause” if it is for any of the following reasons: (i) the continued failure by the executive to perform his material responsibilities and duties toward the Company (other than any such failure resulting from the executive’s incapacity due to physical or mental illness); (ii) the executive engaging in willful or reckless conduct that is demonstrably injurious to the Company monetarily or otherwise; (iii) the executive’s conviction, entry of a plea of no contest, or admission of guilt, for any felony or any lesser crime if such lesser crime involves fraud or dishonesty, moral turpitude, or any conduct that adversely affects the business or reputation of the Company; (iv) the commission or omission of any act by the executive that constitutes on the part of the executive fraud, dishonesty, or malfeasance, misfeasance, or nonfeasance of duty toward the Company; or (v) any other action or conduct by the executive that is injurious to the Company, its business, or its reputation.

A “breach of duty” means (i) the executive’s willful misconduct in the performance of his duties toward the Company; or (ii) the commission or omission of any act by the executive that constitutes on the part of the executive fraud or dishonesty toward the Company.

A termination is for “good reason” if it is for any of the following reasons: (i) a material diminution in the executive’s duties, responsibilities or authority; (ii) a material reduction in the executive’s base salary; (iii) a material reduction in the executive’s annual or long-term bonus and equity incentive opportunities; (iv) the Company’s material relocation of the executive without the executive’s consent; and (v) the failure by the Company to obtain the assumption of the obligations contained in the Severance and Change in Control Agreement by any successor entity.

Cash Severance Payment. Cash severance payments following a change in control are paid upon an involuntary termination without breach of duty and upon a voluntary termination by the executive for good reason. Additionally, cash severance payments not in connection with a change in control are paid upon an involuntary termination without cause. In each case, the cash severance payments are paid lump-sum and are based upon average annual compensation as follows:

	Involuntary Termination Without Cause	Involuntary Termination Without Breach of Duty or Voluntary Resignation With Good Reason, Each Following a Change in Control
Chief Executive Officer, President and Chief Financial Officer	2 times	3 times

Senior Vice Presidents	1.5 times	1.5 times
------------------------	-----------	-----------

As a condition of the receipt of the cash severance payment not in connection with a change in control, the executive must execute a waiver and release agreement, in a form satisfactory to the Company, that releases the Company and all affiliates from any and all claims of any nature whatsoever, including, without limit, any and all statutory claims, and may not revoke the waiver and release within any revocation period required by law or permitted by the Company.

Benefits. Upon an involuntary termination without breach of duty or a voluntary termination by the executive for good reason, each following a change in control, the Company will provide each executive officer with life insurance coverage and health plan coverage substantially comparable to the coverage the executive was receiving from the Company immediately before termination of employment. In each case, these benefits will continue for a period of 24 months (18 months for the Company's Senior Vice Presidents) following the date of termination.

The value of the benefits set forth in the above table is based on an estimate of the Company's cost to provide such benefits to an executive officer upon termination following a change in control equal to \$25,000 per year.

Equity Acceleration. The Incentive Restricted Share Agreements issued to executive officers in connection with equity awards granted pursuant to the Company's 2004 Equity Incentive Plan and the Company's 2013 Equity Incentive Plan generally provide that an executive's interest in all of the incentive restricted shares shall become vested as of the date of his death or termination by reason of his permanent disability, provided, however, the agreements for the restricted stock awarded as a retention bonus to certain executive officers in 2010 provide that the number of shares to vest will be prorated upon such officer's death or permanent disability. In addition, a restricted share agreement may also provide that the incentive restricted shares covered by the agreement shall vest upon involuntary termination by the Company without cause.

The Company's 2004 Equity Incentive Plan provides that upon the occurrence of a change in control, whether or not the executive's employment is terminated, the executive's interest in all of the restricted shares that are no longer subject to performance criteria shall become vested and the vesting of restricted shares subject to performance criteria shall be accelerated and the executive shall receive a pro rata number of shares based upon (i) an assumed achievement of all relevant performance objectives at target levels and (ii) the length of time within the performance period elapsed before the effective date of the change in control.

The Company's 2013 Equity Incentive Plan provides that upon the occurrence of a change in control if the awards are not continued, assumed or replaced by the successor corporation, the executive's interest in all of the restricted shares that are no longer subject to performance criteria shall become vested and the executive's interest in any restricted shares subject to performance criteria shall be deemed to have been achieved at the target performance level and shall become vested.

The Company accrues dividends on all incentive restricted shares beginning with the first day of the applicable performance period. The accrued dividends are delivered to the executive officer when the incentive restricted shares vest. The value of the unvested restricted stock in the above table includes the actual value of the dividends accrued with respect to each restricted share award that is no longer subject to performance criteria.

Excise Tax Gross-Up. Upon a change in control of the Company, the executive may be subject to certain excise taxes pursuant to Section 4999 of the Internal Revenue Code. The Company has agreed to reimburse the executive for all excise taxes that are imposed on the executive under Section 4999 and any income and excise taxes that are payable by the executive as a result of any reimbursements for Section 4999 excise taxes.

Assuming that the termination occurred on the last business day of 2015, the Company determined that no excise taxes would have been imposed upon the Named Officers other than Mr. Loeb. The total Section 4999 tax gross-up amount in the above tables assumes that the executive is entitled to a full reimbursement by the Company of (i) any excise taxes that are imposed upon the executive as a result of the change in control, (ii) any income, payroll and excise taxes imposed upon the executive as a result of the Company's reimbursement of the excise tax amount and (iii) any additional income, payroll and excise taxes that are imposed upon executive as a result of the Company's reimbursement of the executive for any excise or income taxes. The calculation of the gross-up amounts in the above tables is based upon a Section 4999 excise tax rate of 20%, a 39.6% federal income tax rate, a 2.35% Medicare tax rate and a 5% state income tax rate. For purposes of the calculation, it is assumed that no amounts will be discounted as attributable to reasonable compensation and no value will be attributed to the executive executing a noncompetition agreement.

CERTAIN TRANSACTIONS AND RELATIONSHIPS

Change in Control Agreement

The Company has entered into a change in control agreement with each of the Company's executive officers. See "Potential Payments Upon Change in Control" above.

value of a minimum of five times the annual cash retainer fee payable to a director. Within five years of their election, officers of the Company are required to own shares of Common Stock having a market value equal to or greater than the following multiples of their base salary: (1) President and Chief Executive Officer: five times annual base salary; (2) Executive Vice President: three times annual base salary; and (3) Senior Vice Presidents: two times annual base salary. Each director and executive officer is currently in compliance with the applicable ownership guideline.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires that directors, officers and more than 10 percent shareholders of the Company file reports with the SEC to report a change in ownership within two business days following the day on which the transaction occurs. During 2015 no officer or director of the Company was late in filing a report under Section 16(a).

AUDIT COMMITTEE MATTERS

Report of the Audit Committee

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other filing by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934 except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee of the Company is composed of four directors, each of whom meets the current independence and experience requirements of the NYSE and the SEC. The Audit Committee operates under a written charter which was amended and restated on December 4, 2015. A complete copy of the Audit Committee charter is available on the Company's website at www.eastgroup.net. The Board has determined that each of D. Pike Aloian, H. Eric Bolton, Jr. and Mary E. McCormick is an "Audit Committee financial expert" as defined in the current rules of the SEC.

Management is primarily responsible for the Company's financial statements and reporting process. The Company's independent registered public accounting firm, KPMG LLP, is responsible for performing an independent audit of the Company's financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and for issuing a report on those statements. The Audit Committee's responsibilities include oversight of the Company's independent registered public accounting firm and internal audit department, as well as oversight of the Company's financial reporting process on behalf of the full Board of Directors. It is not the duty or the

responsibility of the Audit Committee to conduct auditing or accounting reviews or related procedures.

The Audit Committee meets at least quarterly and at such other times as it deems necessary or appropriate to carry out its responsibilities. Those meetings include, whenever appropriate, executive sessions with KPMG without management being present. The Committee met six times during 2015, including two executive sessions with KPMG. In the course of fulfilling its oversight responsibilities, the Audit Committee met with management, internal audit personnel and KPMG to review and discuss all annual financial statements and quarterly operating results prior to their issuance. Management advised the Audit Committee that the financial statements in the Company's Annual Report on Form 10-K were prepared in accordance with U.S. generally accepted accounting principles. The Audit Committee also discussed with KPMG matters required to be discussed by Auditing Standard No. 16, *Communications with Audit Committees*, as adopted by the Public Company Accounting Oversight Board, and other matters required by the charter of this committee. In addition, the Audit Committee has received the written disclosures and the letter from KPMG required by the Public Company Accounting Oversight Board Rule 3526, and has discussed with KPMG their independence from the company and its management.

On the basis of the reviews and discussions the Audit Committee has had with KPMG and management, the Audit Committee recommended to the Board of Directors that the Board approve the inclusion of the Company's audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, for filing with the SEC.

Policy For Pre-Approval of Audit and Permitted Non-Audit Services

The Audit Committee of the Board has adopted policies and procedures providing for the pre-approval of audit and non-audit services performed by the Company's independent registered public accounting firm. Pre-approval may be given as part of the Audit Committee's approval on the engagement of the independent auditor or on an individual case-by-case basis before the independent auditor is engaged to provide each service. The pre-approval of services may be delegated to the Audit Committee chairman, but the decision is subsequently reported to the full Audit Committee.

In connection with the audit of the 2015 financial statements, the Company entered into an engagement agreement with KPMG LLP which set forth the terms by which KPMG LLP will perform audit services for the Company.
