PROSPECTUS SUMMARY

This summary highlights some information from this prospectus. It may not contain all the information important to making an investment decision. You should read the following summary together with the more detailed information regarding our Company and the securities being sold in this offering, including “Risk Factors” and other information incorporated by reference herein.

Business Overview

Genius Brands International, Inc. (“we”, “us”, “our”, or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by industry veterans, the Company distributes its content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, the Company's portfolio features “content with a purpose” for toddlers to tweens, which provides enrichment as well as entertainment including the award-winning *Baby Genius*; new preschool property *Rainbow Rangers*; preschool property debuting on Netflix *Llama Llama*; tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*® available on public broadcast stations and the Company's Kid Genius Carton Channel on Comcast's Xfinity on Demand, Roku, AppleTV, and Amazon Prime; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. The Company is also co-producing an all-new adult-themed animated series, *Stan Lee's Cosmic Crusaders*, with Stan Lee's Pow! Entertainment and *The Hollywood Reporter*.

In addition, the Company acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include *Llama Llama* and Celescence Technologies.

The Company commenced operations in January 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC,

its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to effect a reverse split on a one-for-three basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock (“Common Stock”) share and per share information in this prospectus, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

Summary of Risk Factors

Our business is subject to a number of risks and uncertainties that you should understand before making an investment decision. As of September 30, 2017, we had an accumulated deficit of \$40,374,944. Additional risks are discussed more fully in the section entitled “Risk Factors” following this prospectus summary. These risks include, but are not limited to, the following:

- We have a history of net losses and our future profitability is uncertain.

- We may be required to raise additional funds to finance our operations; we may not be able to do so when necessary, and/or the terms of any financings may not be advantageous to us.

- If we lose key personnel or are unable to attract and retain necessary talent, we may be unable to continue to grow and develop our business profitably.

- Third parties may claim that we infringe their intellectual property, and we could suffer significant litigation or licensing expense as a result.

- Raising additional funds may cause dilution to our existing stockholders, restrict our operations or require us to relinquish rights to our technologies.

- Trading volume in our stock is low and an active trading market for our common stock may not be available on a consistent basis to provide stockholders with adequate liquidity. Our stock price may be extremely volatile, and our stockholders could lose a significant part of their investment.

- Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

Offering of Common Stock and Concurrent Private Placement of Warrants

On October 3, 2017, we entered into a Securities Purchase Agreement (the “Purchase Agreement”) with certain investors named therein (the “Investors”), pursuant to which we agreed to issue and sell, in a registered direct offering

directly to the Investors (the “Registered Offering”), an aggregate of 1,647,691 shares (the “Shares”) of common stock, at an offering price of \$3.90 per share for gross proceeds of approximately \$6,425,995, before deducting the placement agent fee and related offering expenses.

In a concurrent private placement (the “Private Placement” and together with the Registered Offering, the “Offerings”), we agreed to issue to the Investors who participated in the Registered Offering warrants (the “Warrants”) exercisable for one share of common stock for each Share purchased in the Registered Offering for an aggregate of 1,647,691 shares of Common Stock at an exercise price of \$3.90 per share. Each Warrant was immediately exercisable on the date of its issuance and expire five years from that date. The Warrants and the shares of our common stock issuable upon the exercise of the Warrants were not registered under the Securities Act of 1933, as amended (the “Securities Act”), were not offered pursuant to a registration statement and were offered pursuant to the exemption provided in Section 4(a)(2) under the Securities Act, and Rule 506(b) promulgated thereunder. Shares of common stock underlying the Warrants are being registered for resale by the selling security holders pursuant to the Registration Statement of which this prospectus forms a part. We closed such Offerings on October 5, 2017.

RISK FACTORS

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information appearing elsewhere in this prospectus, including our financial statements and related notes thereto, before deciding to invest in our common stock. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition, results of operations and future growth prospects. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosure we make in our reports filed with the Securities and Exchange Commission.

RISKS RELATING TO OUR BUSINESS

We have incurred net losses since inception.

We have a history of operating losses and incurred net losses in each fiscal quarter since our inception. For the three months ended September 30, 2017, we generated net revenues of \$256,501 and incurred a net loss of \$1,164,406, while for the three months ended September 30, 2016, we generated net revenue of \$120,486 and incurred a net loss of \$1,530,900. For the nine months ended September 30, 2017, we generated net revenues of \$650,723 and incurred a net loss of \$3,732,183, while for the nine months ended September 30, 2016, we generated net revenue of \$648,711 and incurred a net loss of \$4,363,567. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate additional revenue to achieve profitability. We are beginning to generate revenues derived from our existing properties, properties in production, new brands being introduced into the marketplace, and incremental revenue derived from the licensing business we manage on behalf of our clients. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control.

We will need additional financing to continue our operations. If we are unable to obtain additional financing on acceptable terms, we will need to curtail or cease our development plans and operations.

As of September 30, 2017, we had approximately \$3,247,402 of available cash, cash equivalents, and restricted cash. Additional funds may be required to fund operations which could be raised through the issuance of equity securities and/or debt financing. There being no assurance that any type of financing on terms acceptable to us will be available or otherwise occur. Debt financing must be repaid regardless of whether we generate revenues or cash flows from operations and may be secured by substantially all of our assets. Any equity financing or debt financing that requires the issuance of warrants or other equity securities to the lender would cause the percentage ownership by our current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. Any equity financing at a price below the then current conversion price of our Series A Convertible Preferred Stock will result in an adjustment to the conversion ratio, applicable to such securities, resulting in the issuance of additional shares of our Common Stock upon the conversion of our Series A Convertible Preferred Stock, which would further dilute our other stockholders.

If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.

We expect that as our business continues to grow we will need additional working capital. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve our company. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our revenues and results of operations may fluctuate from period to period.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of our control. While we believe that we have mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our Common Stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we would be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

We face competition from a variety of retailers that sell similar merchandise and have better resources than we do.

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

We have sought a competitive advantage by providing “content with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could impact our ability, through our licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.

As part of our business model to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in our failure to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

If we fail to honor our obligations under the terms of our third-party supplier or loan agreements, our business may be adversely affected.

On January 10, 2017, we entered into an amendment of our home entertainment Distribution Agreement with Sony pursuant to which, among other things, Sony agreed to pay \$1,489,583 which was owed and payable by us to DADC for certain disk manufacturing and replication services, thereby terminating the agreement with DADC.

In connection with such transaction, we (i) granted Sony home entertainment rights in territories worldwide in addition to the United States and Canada and (ii) issued Sony 301,231 shares of our Common Stock at \$4.945 per share, Sony's exclusive territory for exercising its home entertainment distribution rights under the distribution agreement was extended from the United States and Canada to worldwide, and the amount of advances subject to recoupment by Sony out of royalty payments that would otherwise be due to us under the Distribution Agreement was increased by the amount of the payment to DADC. Future cash flow from the distributed products under the distribution agreement, if any, will be impacted by the additional recoupment obligation and additional rights granted. In connection with the above issuance of our shares, we entered into a subscription agreement with Sony, effective as of January 17, 2017.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not

successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

The failure of others to promote our products may adversely affect our business.

The availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

We may not be able to keep pace with technological advances.

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

Failure in our information technology and storage systems could significantly disrupt the operation of our business.

Our ability to execute our business plan and maintain operations depends on the continued and uninterrupted performance of our information technology (“IT”) systems. IT systems are vulnerable to risks and damages from a variety of sources, including telecommunications or network failures, malicious human acts and natural disasters. Moreover, despite network security and back-up measures, some of our and our vendors’ servers are potentially vulnerable to physical or electronic break-ins, including cyber-attacks, computer viruses and similar disruptive problems. These events could lead to the unauthorized access, disclosure and use of non-public information. The techniques used by criminal elements to attack computer systems are sophisticated, change frequently and may originate from less regulated and remote areas of the world. As a result, we may not be able to address these techniques proactively or implement adequate preventative measures. If our computer systems are compromised, we could be subject to fines, damages, litigation and enforcement actions, and we could lose trade secrets, the occurrence of which could harm our business. Despite precautionary measures to prevent unanticipated problems that could affect our IT systems, sustained or repeated system failures that interrupt our ability to generate and maintain data could adversely affect our ability to operate our business.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andy Heyward, our Chief Executive Officer. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition. The employment agreement of Stone Newman, our former President of Global Consumer Products, Worldwide Content Sales and Marketing, expired on July 14, 2017 and was not renewed.

Our management team currently owns a substantial interest in our voting stock.

As of September 30, 2017, our management team and Board of Directors beneficially own or control (including conversions, options or warrants exercisable or convertible within 60 days) a combined 1,838,159, or 28.2%, of our shares currently outstanding (including conversions, options or warrants exercisable or convertible within 60 days). Sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our Common Stock. Additionally, management has the ability to control any proposals submitted to shareholders, including corporate actions and board changes which may not be in accordance with the votes of other shareholders.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. If litigation is necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

RISKS RELATING TO OUR COMMON STOCK

Our stock price may be subject to substantial volatility, and stockholders may lose all or a substantial part of their investment.

Our Common Stock currently trades on the NASDAQ Capital Market. There is limited public float, and trading volume historically has been low and sporadic. As a result, the market price for our Common Stock may not necessarily be a reliable indicator of our fair market value. The price at which our Common Stock trades may fluctuate as a result of a number of factors, including the number of shares available for sale in the market, quarterly variations in our operating results, actual or anticipated announcements of new releases by us or competitors, the gain or loss of significant customers, changes in the estimates of our operating performance, market conditions in our industry and the economy as a whole.

If we fail to maintain effective internal controls over financial reporting, the price of our Common Stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our Common Stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our Common Stock.

We are authorized to issue “blank check” preferred stock without stockholder approval, which could adversely impact the rights of holders of our Common Stock.

Our Articles of Incorporation authorize us to issue up to 10,000,000 shares of blank check preferred stock. Any additional preferred stock that we issue in the future may rank ahead of our Common Stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our Common Stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of Common Stock, which could dilute the value of Common Stock to current stockholders and could adversely affect the market price, if any, of our Common Stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of our company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our Common Stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our Common Stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as our Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our Common Stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our Board of Directors. If we do not pay dividends, our Common Stock may be less valuable because the return on investment will only occur if its stock price appreciates.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions that, if triggered, could cause substantial dilution to our then-existing Common Stock holders which could adversely affect our stock price.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions to benefit the holders thereof. As a result, if we, in the future, issue Common Stock or grant any rights to purchase our Common Stock or other securities convertible into our Common Stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock, an adjustment to the then current conversion price would occur. This reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations. Either or both of which could adversely affect the price of our Common Stock.

Offers or availability for sale of a substantial number of shares of our Common Stock may cause the price of our Common Stock to decline.

If our stockholders sell substantial amounts of our Common Stock in the public market upon the expiration of any statutory holding period under Rule 144, or shares issued upon the exercise of outstanding options or warrants, it could create a circumstance commonly referred to as an “overhang” and, in anticipation of which, the market price of our Common Stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make more difficult our ability to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

In general, under Rule 144, a non-affiliated person who has held restricted shares of our Common Stock for a period of six months may sell into the market all of their shares, subject to us being current in our periodic reports filed with the Commission.

As of September 30, 2017, approximately 3,557,216 shares of Common Stock of the 5,938,103 shares of Common Stock issued and outstanding are free trading. Additionally, as of September 30, 2017, there are 1,201,667 shares of Common Stock underlying the Series A Convertible Preferred Stock that could be sold pursuant to Rule 144. As of the same date, there are 1,553,359 shares of Common Stock underlying outstanding warrants that could be sold pursuant to Rule 144 to the extent permitted by any applicable vesting requirements. Lastly, as of September 30, 2017, there are 1,303,215 shares of Common Stock underlying outstanding options granted and 363,452 shares reserved for issuance under our Genius Brands International, Inc. Amended 2015 Incentive Plan, all of which are unregistered but will become eligible for sale in the public market to the extent permitted by any applicable vesting requirements and Rule 144 under the Securities Act.

Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

Based on the number of shares outstanding as of September 30, 2017, our officers, directors and stockholders who hold at least 5% of our stock beneficially own a combined total of approximately 58.7% of our outstanding common stock, including shares of common stock subject to preferred shares, stock options, and warrants that are currently convertible or exercisable or will be convertible or exercisable within 60 days after September 30, 2017. If these officers, directors, and principal stockholders or a group of our principal stockholders act together, they will be able to exert a significant degree of influence over our management and affairs and control matters requiring stockholder approval, including the election of directors and approval of mergers, business combinations or other significant transactions. The interests of one or more of these stockholders may not always coincide with our interests or the interests of other stockholders. For instance, officers, directors, and principal stockholders, acting together, could cause us to enter into transactions or agreements that we would not otherwise consider. Similarly, this concentration of ownership may have the effect of delaying or preventing a change in control of our company otherwise favored by our other stockholders.

Overview

The management's discussion and analysis is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Marketing and sales expenses increased \$614,729 for the year ended December 31, 2016 compared to the year ended December 31, 2015 primarily due to promotional and branding activity related to the June 2016 debut of *SpacePop* on YouTube and in preparation for its launch at retail locations in the fourth quarter of 2016 as well as an increase in trade show expenses related to our promotion of our brands at MIPCOM in the Fall of 2016.

Direct operating costs include costs of our product sales, unamortizable post-production costs, film and television cost amortization expense, and participation expense related to agreements with various animation studios, post-production studios, writers, directors, musicians or other creative talent with which we are obligated to share net profits of the properties on which they have rendered services. During the year ended December 31, 2016, we recorded film and television cost amortization expense of \$167,788 and participation expense of \$17,238 compared to prior period expenses of \$127,552 and \$0, respectively. These increases are primarily due to our continued exploitation of *Thomas Edison's Secret Lab*.

General and administrative expenses consist primarily of salaries, employee benefits, share-based compensation related to stock options, insurances, rent, depreciation and amortization as well as other professional fees related to finance, accounting, legal and investor relations. General and administrative costs for the year ended December 31, 2016 increased \$2,193,881 compared to the same period in 2015. This increase includes: (i) increases in share-based compensation expense of \$1,549,878 related to the grant of options to officers, directors, employees and consultants in the fourth quarter of 2015 and in 2016; (ii) increases in salaries and related expenses of \$209,711 associated with several critical hires in various functions including the President of the Kid Genius Cartoon Channel; (iii) increases in investor relations expense of \$198,230; and (iv) increases in professional fees of \$61,309 related to the up-listing to the NASDAQ Capital Market from OTCQB. Fluctuations in other general and administrative expenses make up the balance of the increase.

For the year ended December 31, 2016, other income totaled \$251,726 compared to \$53,222 in the prior period. This \$198,504 increase was primarily due to the \$275,000 settlement of a distribution agreement with limited comparable activity in the prior period.

Liquidity and Capital Resources

Working Capital

As of September 30, 2017, we had current assets of \$3,989,900, including cash, cash equivalents, and restricted cash of \$3,247,402, and current liabilities of \$2,126,844, including certain trade payables of \$925,000 of which we dispute the claim, resulting in working capital of \$1,863,056, compared to a working capital deficit of \$479,404 as of December 31, 2016.

Increases in working capital were the result of two transactions:

- On January 10, 2017, we entered into an amendment of our home entertainment distribution agreement with Sony pursuant to which, among other things, Sony paid DADC \$1,489,583 which was the total sum owed and payable by us to DADC.

- On February 9, 2017, we entered into the Private Transaction for which we received gross proceeds of \$3,866,573 from the exercise of the Original Warrants.

Credit Facility

On August 8, 2016, Llama Productions LLC, our wholly-owned subsidiary, closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA to produce our animated series *Llama Llama* (the “Series”). The Series is configured as fifteen half-hour episodes comprised of thirty 11-minute programs anticipated to be delivered to Netflix in the fourth quarter of 2017. The Facility is secured by the license fees we will receive from Netflix for the delivery of the Series as well as our copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six-month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, we deposited \$1,000,000 into a cash account to be used solely for the production of the series.

The cash used in operating activities

in the prior period resulted primarily from the \$2,000,000 advance from the Sony Distribution Agreement offset by our operating results and increases in film and television costs of \$754,770 related to the production of *SpacePop* and *Llama Llama*.

Investing Activities

Cash used in investing activities for the nine months ended September 30, 2017 was \$47,361 for the enhancement of our information technology infrastructure as compared to a use of \$7,192 during the comparable period for the development of certain intangible assets.

Increase (decrease) in cash and cash equivalents	\$ (2,299,699)	\$ 886,521	\$ (3,186,220)

During the year ended December 31, 2016, our primary source of cash was the \$2.0 million advance from Sony in the first quarter of 2016 coupled with financing activities including the proceeds from the exercise of warrants as well as proceeds from the *Llama Llama* production facility. During the comparable period in 2015, our primary source of cash was financing activity including the collection of the second payment related to a long-term, exclusive supply chain services contract. Financing Activities

Cash generated from financing activities for the year ended December 31, 2016 was \$1,428,072 as compared to \$4,577,309 generated in the comparable period in 2015 representing a decrease of \$3,149,237.

Capital Expenditures

As of September 30, 2017, we do not have any material commitments for capital expenditures.

Critical Accounting Policies

Our accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. We complete the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. In accordance with FASB ASC 350 Intangible Assets, the costs of new

product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

We capitalize production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. We expense all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

We capitalize production costs for films produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. We evaluate our capitalized production costs annually and limit recorded amounts by our ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, we develop additional content, improved animation and bonus songs/features for our existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

We recognize revenue in accordance with FASB ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, we recognize revenue when (i) persuasive evidence of a sale with a customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

Our licensing and royalty revenue represents revenue generated from license agreements that are held in conjunction with third parties that are responsible for collecting fees due and remitting to us our share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees. Licensing income that we recognize as an agent is in accordance with FASB ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, our revenue is our gross billings to our customers less the amounts we pay to suppliers for their products and services.

We sell advertising on our Kid Genius channel in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, we recognize revenue when all five revenue recognition criteria under FASB ASC 605 are met. For impressions served, we deliver a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to us on a monthly basis, and revenue is reported in the month the impressions are served.

We recognize revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the

seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by FASB ASC 605 Revenue Recognition.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of non-financial assets unless those contracts are within the scope of other standards (e.g. insurance contracts). This ASU will supersede all revenue recognition requirements in Topic 605, Revenue Recognition, and industry-specific guidance throughout the industry topics of the codification. The guidance's core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the revenue principles, an entity will identify the contract(s) with a customer, identify the performance obligations, determine the transaction price, allocate the transaction price to the performance obligations and recognize revenue when the performance obligation is satisfied (either over time or at a point in time). The ASU further states that an entity should disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”, which approved a one-year deferral of the effective date of the ASU from the original effective date of annual reporting periods beginning after December 15, 2016, to annual reporting periods (including interim reporting periods) beginning after December 15, 2017, with an option for early adoption of the standard on the original effective date. Additionally, in March 2016, the FASB issued ASU 2016-08, “Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)”, which clarified the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing”, that amended the revenue guidance on identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU 2016-11 “Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 805): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016, EITF Meeting”, which rescinded from the FASB Accounting Standards Codification certain SEC paragraphs as a result of two SEC Staff Announcements. The FASB also issued ASU 2016-12 “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”, which clarified guidance on assessment of collectability, presentation of sale taxes, measurement of noncash consideration, and certain transition matters. In the second and third quarters, the Company initiated and executed a project to evaluate the impact of these changes, which included a review of existing contracts with customers, an evaluation of the specific terms of those contracts and the appropriate treatment under the new standards, and a comparison of that new treatment to the Company’s existing accounting policies, to identify differences. The Company is currently evaluating the potential impact on the its internal controls to identify any necessary changes. The standard can be applied either retrospectively to each period presented or as a cumulative effect adjustment as of the date of adoption. The Company plans to implement these standards effective January 1, 2018 based on the modified retrospective method, but may opt for the full retrospective method depending on the final outcome of our evaluation. The Company believes that it is following an appropriate timeline to allow for proper adoption on the implementation date of January 1, 2018 and will continue to monitor new customer contracts through the remainder of 2017.

In February 2016, the FASB issued Accounting Standards Update 2016-02, “Leases”. The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset

representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update 2016-18, "Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force." This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18. The impact to our consolidated financial position, results of operations and cash flows is minimal.

In January 2017, the FASB issued Accounting Standards Update 2017-04, “Simplifying the Test for Goodwill Impairment”, which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit’s carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017, permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2017, the FASB issued Accounting Standard Update 2017-09, “Compensation—Stock Compensation: Scope of Modification Accounting”, which clarifies which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. Under the new guidance, modification accounting is required if the fair value, vesting conditions or classification (equity or liability) of the new award are different from the original award immediately before the original award is modified. The standard is effective beginning January 1, 2018, with early adoption permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Kid Genius Cartoon Channel

In April 2015, we partnered with Comcast to launch the new Kid Genius Cartoon Channel on Xfinity on Demand. With Xfinity, Kid Genius Cartoon Channel is currently in over 22 million homes. In November 2016, we partnered with a leading kids' app distributor adding Over-The-Top ("OTT") distribution expanding the channel onto platforms such as Roku, Apple TV, Amazon Fire and Google thus reaching an additional 40 million homes. Our plans are to continue this roll-out into 2017 adding additional reach with the goal of being in over 80 million homes. Kid Genius Cartoon Channel combines the powerful value of owning a channel in its own right with the ability to promote our brands and products. In September 2017, we announced that we had partnered with Amazon Prime to launch Kid Genius Cartoon Channel Plus, a subscription video on demand channel available to the approximately 80 million subscribers to Amazon Prime for \$3.99 per month. In December 2017, we announced the launch of a second children's content destination on the Xfinity On Demand Platform featuring our Baby Genius® programming. The new Baby Genius destination complements our existing Kid Genius Cartoon Channel on Xfinity on Demand.

Distribution

Content

Today's global marketplace and the manner in which content is consumed has evolved to a point where we believe there is only one viable strategy, ubiquity. Kids today expect to be able to watch what they want whenever they want and wherever they want. They, the kids, are their own programmers and therefore as content creators we now must offer direct access on multiple fronts. This includes digital distribution as well as linear broadcast. We, through our partnership with Comcast's Xfinity platform, launched the all-digital on demand network Kid Genius Cartoon Channel. Originally debuting in approximately 22 million households via Comcast, the reach of the Kid Genius Cartoon Channel and therefore all of the Genius Brands content expanded in November 2016 to approximately 40 million households through a distribution deal that brought Kid Genius Cartoon Channel into homes via AppleTV, Roku, Samsung TV, and Amazon Fire. In these homes, Genius Brands programs are always available to kids when they want it. Genius Brands also distributes its content via leading digital providers such as Netflix and Amazon giving additional instant availability to consumers of its shows. In September 2017, we announced that we had partnered with Amazon Prime to launch Kid Genius Cartoon Channel Plus, a subscription video on demand channel available to the approximately 80 million subscribers to Amazon Prime for \$3.99 per month.

We also have strong ties to and actively solicit placement for our content from the largest linear broadcasters such as Nickelodeon, The Disney Channel, Cartoon Network, Sprout, and PBS. Finally, we are a preferred partner of YouTube having successfully launched an original series with YouTube in May 2016 and making YouTube a focal point of the distribution of some of our shows. We replicate this model of ubiquity around the world defining content distribution strategies by market that blends the best of linear, VOD, and digital distribution.

Finally, we expanded our long term strategic partnership with Sony Pictures Home Entertainment from domestic to a global partnership in January 2017.

Consumer Products

A source of our revenue is our licensing and merchandising activities from our underlying intellectual property content. We work directly licensing properties to a variety of manufacturers, wholesalers, and retailers. We currently have across all brands in excess of 50 licensees and hundreds of licensed products in the market. Products bearing our marks can be found in a wide variety of retail distribution outlets reaching consumers in over 10,000 retail doors. Our licensees sell to best-in-class retailers including Wal Mart, Target, Claire's, Kohl's, Best Buy, Hudson News, Barnes & Noble, Amazon.com and many more. We often negotiate dedicated retail space on a direct basis with retailers that will include branded signage to give our brands prominence and clear communication with the consumer. License agreements that we enter into often include financial guarantees and commitments from the manufacturers guaranteeing a minimum stream of revenue for us. As licensed merchandise is sold at retail, these advances and/or minimum guarantees are paid out, and we then earn additional revenue.

Marketing

We believe that generating awareness and consumer interest in our brands requires a dedicated 360-degree approach to marketing which we regularly deploy. Beyond the content creation and achieving distribution, consumers must become engaged with the content in all aspects of their lives. Successful marketing campaigns for our brands have included utilizing influencers (individuals with a strong, existing social media presence who drive awareness of our brands to their followers) and influencer marketing, participating in fast casual restaurant promotions, on-pack promotions with leading consumer packaged goods companies, and national live events at theme parks with companies like Six Flags. We also deploy digital and print advertising to support the brands. Finally, we work with a leading PR agency to promote our efforts to both consumer and trade. We regularly initiate grass roots marketing campaigns and strategic partnerships with brands that align and offer value to us.

Competition

We compete against other creators of children’s content including Disney, Nickelodeon, Cartoon Network, and Sesame Street as well as other small and large creators. In the crowded children’s entertainment space, we compete with these other creators for both content distribution across linear, VOD, and digital platforms as well as retail shelf space for our licensed products. To compete, we are focused on our strategic positioning of “content with a purpose” which we believe is a point of differentiation embraced by the industry, as well as parents and educators. Additionally, the Kid Genius Cartoon Channel and Kid Genius Cartoon Channel Plus enables us to increase the awareness of our brands through an owned platform.

Customers and Licensees

Our business is not reliant on one or a few major customers. As of December 31, 2016, we had partnered with over 50 consumer products licensees going to market with over 500 stock keeping units (“SKU”). As of the same date, we licensed our content to over 20 broadcasters in nearly 90 territories globally as well as a number of VOD and online platforms that have a global reach. This broad cross-section of customers includes companies such as Comcast, Netflix, Sony, YouTube, Mattel, Target, Kohls, Claire’s, Penguin Publishing, Manhattan Toys, Roku, Apple TV, Amazon, Google, Bertelsmann Music Group, Discovery International, and others both domestically and internationally. In 2016, approximately 19% of our revenue was attributable to the recognition of revenues earned from one customer that paid advances in 2013 and 2014 for the administration of certain music publishing right on our behalf.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). We are subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of children younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some states and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at www.gnusbrands.com, as well as www.spacepopgirls.com, www.kidgeniustv.com, www.babygenius.com, www.smckids.com, www.slam7.com, and www.edisonsecretlab.com. These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws related to children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, we are not significantly impacted by federal, state and local environmental laws and do not have significant costs associated with compliance with such laws and regulations.

Employees

As of September 30, 2017, we had 18 full-time equivalent employees and an additional seven temporary, contracted part-time or full-time equivalents in certain functions, such as legal, accounting and production management. We employ on an outsourced, as-needed basis, contractors in the fields of investor relations, public relations and production.

We also have a number of registered and pending trademarks in Europe and other countries in which our products are sold.

As of December 31, 2016, we also held 96 motion picture, 13 sound recording and one literary work copyrights related to our video, music and written work products.

We have a two-third ownership interest in Stan Lee Comics, LLC which owns the publishing brand *Stan Lee Comics* and all properties produced therein. Stan Lee Comics, LLC is a joint venture with Stan Lee's POW! Entertainment. Stan Lee Comics, LLC is the owner of the *Stan Lee's Mighty 7* and the *Stan Lee's Cosmic Crusaders* properties.

We have 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bündchen's *Gisele & the Green Team*.

In addition to the wholly-owned or partially-owned properties listed above, we have agreements with certain intellectual property owners to represent their content as a licensing agent. We act as a licensing agent for the following established brands: *Llama Llama* and Celescence Technologies.

Upon closing of the transactions contemplated under the Merger Agreement (the "Merger"), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became our wholly-owned subsidiary. As a result of the Merger, we acquired the business and operations of A Squared.

Corporate Governance

General

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers, directors, and any persons who own more than 10% of common stock, to file reports of ownership of, and transactions in, our common stock with the SEC and furnish copies of such reports to us. Based solely on our review of the copies of such forms and amendments thereto furnished to us and on written representations from our officers, directors, and any person whom we understand owns more than 10% of our common stock, we found that during 2016, Andy Heyward failed to file one Form 4 report with the SEC on a timely basis, and Rebecca D. Hershinger failed to file one Form 4 report with the SEC on a timely basis.

Code of Conduct and Ethics

We have adopted a Corporate Code of Conduct and Ethics and Whistleblower Policy that applies to all of our officers, directors and employees. A copy of the Code of Conduct and Ethics may be obtained, free of charge, by submitting a written request to the Company or on our website at www.gnusbrands.com. Disclosure regarding any amendments to, or waivers from, provisions of the code of conduct and ethics that apply to our directors, principal executive and financial officers will be posted on the “Investor Relations-Corporate Governance” section of our website at www.gnusbrands.com or included in a Current Report on Form 8-K within four business days following the date of the amendment or waiver.

Compensation Committee Risk Assessment. We have assessed our compensation programs and concluded that our compensation practices do not create risks that are reasonably likely to have a material adverse effect on us.

Nominating Committee

Ms. Segall serves on our Nominating Committee. The Nominating Committee's responsibilities include:

- identify qualified individuals to serve as members of the Company's board of directors;

We are registering the shares of common stock in order to permit the selling security holders to offer the shares for resale from time to time. Except for the ownership of the Warrants, the transactions contemplated pursuant to the Purchase Agreement, the selling security holders have not had any material relationship with us within the past three years.

The following table sets forth certain information with respect to each selling stockholder, including (i) the shares of our common stock beneficially owned by the selling stockholder prior to this offering, (ii) the number of shares being offered by the selling stockholder pursuant to this prospectus and (iii) the selling stockholder’s beneficial ownership after completion of this offering. The registration of the shares of common stock issuable to the selling stockholders upon the exercise of the Warrants does not necessarily mean that the selling stockholders will sell all or any of such shares, but the number of shares and percentages set forth in the final two columns below assume that all shares of common stock being offered by the Selling Stockholders are sold.

The table is based on information supplied to us by the selling stockholders, with beneficial ownership and percentage ownership determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to shares of stock. This information does not necessarily indicate beneficial ownership for any other purpose. In computing the number of shares beneficially owned by a selling stockholder and the percentage ownership of that selling stockholder, shares of common stock subject to warrants held by that selling stockholder that are exercisable within 60 days after December 15, 2017, are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. The percentage of beneficial ownership after this offering is based on 7,610,794 shares of Common Stock outstanding on December 15, 2017.

This prospectus covers the resale of 1,647,691 shares of our common stock that may be sold or otherwise disposed of by the selling stockholders. Such shares are issuable to the selling stockholders upon the exercise of the Warrants. Each Warrant is immediately exercisable on the date of its issuance and expires five years from that date. All of the Warrants have an exercise price of \$3.90 per share. See “Prospectus Summary —Offering of Common Stock and Concurrent Private Placement of Warrants” above for a complete description of the Warrants. The selling security holders may sell all, some or none of their shares in this offering, but the number of shares and percentages set forth in the final two columns below assume that all shares of common stock being offered by the Selling Stockholders are sold. See “Plan of Distribution.”

PLAN OF DISTRIBUTION

Each selling stockholder of the shares of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the NASDAQ Capital Market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act of 1933, as amended (the “Securities Act”), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the Selling Stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for the Company to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

DESCRIPTION OF OUR CAPITAL STOCK

General

The following description of our common stock and preferred stock, together with the additional information we include in any applicable prospectus supplement summarizes some of the terms and provisions of the shares of our common stock and preferred stock that we may offer under this prospectus. These summary descriptions of our common stock and preferred stock are not meant to be complete descriptions of each security. For the complete terms of our common stock and preferred stock, please refer to our articles of incorporation, as may be amended from time to time, any certificates of designation for our preferred stock that may be authorized from time to time, and our bylaws, as amended from time to time. The Nevada Revised Statutes may also affect the terms of these securities. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer under this prospectus, we will describe the specific terms of any series of these securities in more detail in the applicable prospectus supplement. The applicable prospectus supplement for a particular offering of our common stock or preferred stock may specify different or additional terms.

Our authorized capital stock consists of 243,333,334 shares of capital stock, of which 233,333,334 are shares of common stock, par value \$0.001 per share, and 10,000,000 are shares of preferred stock, par value \$0.001.

Capital Stock Issued and Outstanding

As of December 15, 2017, we have issued and outstanding:

·7,610,794 shares of common stock; and

·3,530 shares of shares of Series A Convertible Preferred Stock which are convertible into 1,176,667 shares of common stock.

Common Stock

The holders of our common stock are entitled to one vote per share. In addition, the holders of our common stock will be entitled to receive ratably such dividends, if any, as may be declared by our Board of Directors out of legally available funds; however, the current policy of our Board of Directors is to retain earnings, if any, for operations and growth. Upon liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share ratably

in all assets that are legally available for distribution. The holders of our common stock will have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of our board of directors and issued in the future.

Preferred Stock

Our Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

Series A Convertible Preferred Stock

We have designated six thousand (6,000) shares of preferred stock as Series A Convertible Preferred Stock. Each share of Series A Preferred Stock is convertible into shares of our common stock based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event we issue shares of our common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. Any reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations.

Accordingly, in connection with the closing of the October 2015 Private Placement, the conversion price of the Series A Preferred Stock was reduced to \$3.00. We are prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the holder would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of our common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

Warrants

In connection with the sale of the Company’s Series A Convertible Preferred Stock in May 2014, Chardan Capital Markets LLC (“Chardan”) acted as sole placement agent in consideration for which it received a cash fee of \$535,000 and a warrant to purchase up to 100,002 shares of the Company’s Common Stock. These warrants are exercisable immediately, have an exercise price of \$6.00 per share, and have a five-year term.

In connection with the 2015 Private Placement, the Company issued to accredited investors the Original Warrants to purchase up to an aggregate of 1,443,362 shares of Common Stock for a purchase price of \$3.00 per share. The Original Warrants are exercisable into shares of Common Stock for a period of five (5) years from issuance at an initial exercise price of \$3.30 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. The Original Warrants are exercisable immediately. The Company is prohibited from effecting an exercise of the warrants to the extent that as a result of such exercise, the holder would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days’ notice) in the aggregate of the issued and outstanding shares of

Common Stock, calculated immediately after giving effect to the issuance of shares of Common Stock upon exercise of the warrant.

In connection with the 2015 Private Placement, Chardan acted as sole placement agent in consideration for which it received a cash fee of \$300,000 and a warrant to purchase up to 141,668 shares of the Company's Common Stock. These warrants are exercisable immediately, have an exercise price of \$3.60 per share, and have a five-year term.

On February 9, 2017, the Company entered into the Private Transaction pursuant to the Agreement with certain holders of the Original Warrants. Pursuant to the Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants, with the new warrants being identical to the Original Warrants except that the termination date of such new warrants is February 10, 2022 (the "Reload Warrants"). In addition, depending on the number of Original Warrants exercised by all holders of the Original Warrants, the Company also agreed to issue to the holders another new warrant, identical to the Original Warrant except that the exercise price of such warrant is \$5.30 and such warrant is not exercisable until August 10, 2017 (the "Market Price Warrants" and together with the Reload Warrants, the "New Warrants").

The Company received gross proceeds of \$3,866,573 from the exercise of the Original Warrants and issued Reload Warrants to purchase an aggregate of 799,991 shares of the Company's Common Stock and Market Price Warrants to purchase an aggregate of 371,699 shares of the Company's Common Stock. In association with the Private Transaction, the Company recorded \$1,402,174, representing the difference in the fair market value of the Original Warrants and the New Warrants, as an adjustment to additional paid-in capital.

In a concurrent private placement to a registered direct offering in October 2017, we sold warrants to purchase 1,647,691 shares of our Common Stock (the “October 2017 Warrants”). The October 2017 Warrants were immediately exercisable at an exercise price of \$3.90 per share, subject to adjustment, and will remain exercisable for five years from issuance, but not thereafter. A holder of Warrants will not have the right to exercise any portion of its warrants if the holder, together with its affiliates, would beneficially own in excess of 4.99% of the number of shares of our Common Stock outstanding immediately after giving effect to such exercise (the “Beneficial Ownership Limitation”); provided, however, that upon notice to the Company, the holder may increase or decrease the Beneficial Ownership Limitation, provided that in no event shall the Beneficial Ownership Limitation exceed 9.99% and any increase in the Beneficial Ownership Limitation will not be effective until 61 days following notice of such increase from the holder to us. In addition, the holders of the Warrants will have the right to participate in any rights offering or distribution of assets (such as a spinoff) together with the holders of our Common Stock on an as-exercised basis. The exercise price and number of the shares of our Common Stock issuable upon the exercise of the October 2017 Warrants will be subject to adjustment for stock splits, reverse splits, and similar capital transactions. The Warrants will be exercisable on a “cashless” basis in certain circumstances.

As of December 15, 2017, the Company has warrants outstanding to purchase up to 3,414,389 shares of common stock.

Nevada Anti-Takeover Law and Certain Charter and Bylaw Provisions

Some features of the Nevada Revised Statutes, which are further described below, may have the effect of deterring third parties from making takeover bids for control of our company or may be used to hinder or delay a takeover bid. This would decrease the chance that our stockholders would realize a premium over market price for their shares of common stock as a result of a takeover bid.

Acquisition of Controlling Interest

The Nevada Revised Statutes contain provisions governing acquisition of a controlling interest of a Nevada corporation. These provisions provide generally that any person or entity that acquires a certain percentage of the outstanding voting shares of a Nevada corporation may be denied voting rights with respect to the acquired shares, unless the holders of a majority of the voting power of the corporation, excluding shares as to which any of such acquiring person or entity, an officer or a director of the corporation, or an employee of the corporation exercises voting rights, elect to restore such voting rights in whole or in part. These provisions apply whenever a person or entity acquires shares that, but for the operation of these provisions, would bring voting power of such person or entity in the election of directors within any of the following three ranges:

- 20% or more but less than 33 1/3%;
- 33 1/3% or more but less than or equal to 50%; or
- more than 50%.

The stockholders or board of directors of a corporation may elect to exempt the stock of the corporation from these provisions through adoption of a provision to that effect in the articles of incorporation or bylaws of the corporation. Our articles of incorporation and bylaws do not exempt our common stock from these provisions.

These provisions are applicable only to a Nevada corporation, which:

- has 200 or more stockholders of record, at least 100 of whom have addresses in Nevada appearing on the stock ledger of the corporation; and
- does business in Nevada directly or through an affiliated corporation.

On November 20, 2013, we amended our bylaws to provide that the provisions of NRS 78.378 and 78.3793 (“Acquisition of a Controlling Interest”) shall not apply to the Company or to any acquisition of a controlling interest in the Company by any existing or future stockholder.

Combination with Interested Stockholder

The Nevada Revised Statutes contain provisions governing combination of a Nevada corporation that has 200 or more stockholders of record with an interested stockholder. As of December 15, 2017, we had 249 stockholders of record, not including persons or entities that hold our stock in nominee or “street name” through various brokerage firms.

A corporation affected by these provisions may not engage in a combination within two years after the interested stockholder first became an interested stockholder, unless either (i) the combination or transaction by which the interested stockholder first became an interested stockholder is approved by the board of directors before the interested stockholder first became an interested stockholder, or (ii) the combination is approved by the board of directors and by the affirmative vote of the corporation’s stockholders representing at least 60% of the outstanding voting power of the corporation not beneficially owned by the interested stockholder or the interested stockholder’s affiliates. Generally, if approval is not obtained, then after the expiration of the two-year period, the business combination may be consummated with the approval of the board of directors of the combination or transaction by which the interested stockholder first became an interested stockholder before the person became an interested stockholder, or a majority of the voting power held by disinterested stockholders, or if the consideration to be received per share by disinterested stockholders is at least equal to the highest of:

- the highest price per share paid by the interested stockholder within the two years immediately preceding the date of the announcement of the combination or within two years immediately before, or in the transaction in which he, she or it became an interested stockholder, whichever is higher;
- the market value per share on the date of announcement of the combination or the date the person became an interested stockholder, whichever is higher; or
- if higher for the holders of preferred stock, the highest liquidation value of the preferred stock, if any.

Generally, these provisions define an interested stockholder as a person who is the beneficial owner, directly or indirectly, of 10% or more of the voting power of the outstanding voting shares of a corporation. Generally, these provisions define combination to include any merger or consolidation with an interested stockholder, or any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions, with an interested stockholder of assets of the corporation having:

- an aggregate market value equal to 5% or more of the aggregate market value of the assets of the corporation;
- an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation; or
- representing 10% or more of the earning power or net income of the corporation.

Articles of Incorporation and Bylaws

Pursuant to our Articles of Incorporation, the existence of authorized but unissued common stock and undesignated preferred stock may enable our board of directors to make more difficult or to discourage an attempt to obtain control of our Company by means of a merger, tender offer, proxy contest or otherwise, and thereby to protect the continuity of management. If, in the due exercise of its fiduciary obligations, the board of directors were to determine that a takeover proposal was not in our best interest, such shares could be issued by the board of directors without stockholder approval in one or more transactions that might prevent or render more difficult or costly the completion of the takeover transaction by diluting the voting or other rights of the proposed acquirer or insurgent stockholder group, by putting a substantial voting block in institutional or other hands that might undertake to support the position of the incumbent board of directors, by effecting an acquisition that might complicate or preclude the takeover, or otherwise.

In addition, our Articles of Incorporation grant our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred stock. The issuance of shares of preferred stock could decrease the amount of earnings and assets available for distribution to holders of shares of common stock. The issuance also may adversely affect the rights and powers, including voting rights, of those holders and may have the effect of delaying, deterring or preventing a change in control of our Company.

The transfer agent and registrar for our common stock is VStock Transfer LLC, 18 Lafayette Place, Woodmere, NY 11598.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders

Genius Brands International, Inc.

We have audited the accompanying consolidated statements of financial condition of Genius Brands International, Inc. and subsidiaries (collectively, the “Company”) as of December 31, 2016, and the related consolidated statements of operations, comprehensive loss, stockholders’ equity, and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Genius Brands International, Inc. and subsidiaries as of December 31, 2016, and the results of their operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

We also have audited the adjustments to the 2015 financial statements to correct the errors, as described in Note 2. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 2015 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2015 financial statements taken as a whole.
