UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended September 30, 2015

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____
Commission file number 1-10706

Comerica Incorporated
(Exact name of registrant as specified in its charter)

Delaware 38-1998421
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)
Comerica Bank Tower
1717 Main Street, MC 6404
Dallas, Texas 75201
(Address of principal executive offices)
(Zip Code)
(214) 462-6831
(Registrant’s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer,” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

| | | | |
|--|---|--|---|
| Large accelerated filer <input checked="" type="checkbox"/> | Accelerated filer <input type="checkbox"/> | Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company) | Smaller reporting company <input type="checkbox"/> |
|--|---|--|---|

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: COMERICA INC /NEW/ - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

\$5 par value common stock:

Outstanding as of October 26, 2015: 176,734,815 shares

Notes to Consolidated Financial Statements (unaudited)
Comerica Incorporated and Subsidiaries

NOTE 1 - BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Organization

The accompanying unaudited consolidated financial statements were prepared in accordance with United States (U.S.) generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation were included. The results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. Certain items in prior periods were reclassified to conform to the current presentation. For further information, refer to the consolidated financial statements and footnotes thereto included in the Annual Report of Comerica Incorporated and Subsidiaries (the Corporation) on Form 10-K for the year ended December 31, 2014.

Revenue Recognition

In the first quarter 2015, the Corporation entered into a new contract for an existing debit card program. Guidance provided in Accounting Standards Code 605-45, "Principal Agent Considerations," indicates whether revenue should be reported gross or net for this type of arrangement. Management assessed various principal versus agent indicators provided in the guidance and concluded that the Corporation bears the risks and rewards of providing the services for the card program based on the new contract terms and, therefore, gross presentation of revenues and expenses is appropriate. This change in presentation resulted in increases of \$48 million and \$136 million to both "card fees" in noninterest income and "outside processing fee expense" in noninterest expenses for the three- and nine-month periods ended September 30, 2015, respectively.

Recently Adopted Accounting Pronouncements

Effective January 1, 2015, the Corporation prospectively adopted Accounting Standards Update (ASU) No. 2014-04, "Receivables – Troubled Debt Restructurings by Creditors (Subtopic 310-40): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure," (ASU 2014-04), which clarifies when an in-substance foreclosure or repossession of residential real estate property occurs, requiring a creditor to reclassify the loan to other real estate. According to ASU 2014-04, a consumer mortgage loan should be reclassified to other real estate either upon the creditor obtaining legal title to the real estate collateral or when the borrower voluntarily conveys all interest in the real estate property to the creditor through a deed in lieu of foreclosure or similar legal agreement. ASU 2014-04 also clarifies that a creditor that has obtained legal title to a foreclosed property should not delay reclassification when a borrower has a legal right of redemption for a period of time. The Corporation's existing accounting treatment is consistent with the new guidance, and therefore the adoption of ASU 2014-04 had no impact to the Corporation's financial condition and results of operations. Disclosures required by ASU 2014-04 are provided in Note 4.

Also effective January 1, 2015, the Corporation prospectively adopted ASU No. 2014-12, "Compensation-Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period," (ASU 2014-12). The new guidance requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. The Corporation's current accounting treatment of performance conditions for employees who are or become retirement eligible prior to the achievement of the performance target is consistent with ASU 2014-12, and as such the adoption of ASU 2014-12 had no impact to the Corporation's financial condition and results of operations.

In the second quarter 2015, the Corporation early adopted ASU 2015-03, "Interest - Imputation of Interest (Subtopic 835-30)," which amends the presentation of debt issuance costs in the balance sheet as a direct deduction from the carrying amount of the related debt liability rather than as a deferred charge. The new guidance was retrospectively applied, which resulted in a decrease of \$4 million to both "accrued income and other assets" and "medium- and long-term debt" on the consolidated balance sheets as of December 31, 2014. Unamortized debt issuance costs

deducted from the carrying amount of medium- and long-term debt totaled \$9 million at September 30, 2015.

Pending Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)," (ASU 2014-09), which is intended to improve and converge the financial reporting requirements for revenue contracts with customers. Previous GAAP comprised broad revenue recognition concepts along with numerous industry-specific requirements. The new guidance establishes a five-step model which entities must follow to recognize revenue and removes inconsistencies and weaknesses in existing guidance. The guidance under ASU 2014-09 is effective for annual and interim periods beginning after December 15, 2017 and must be retrospectively applied. Entities will have the option of presenting

Table of Contents

Notes to Consolidated Financial Statements (unaudited)
Comerica Incorporated and Subsidiaries

prior periods as impacted by the new guidance or presenting the cumulative effect of initial application along with supplementary disclosures. Early adoption is permitted, but not before annual and interim periods beginning after December 15, 2016. The Corporation is currently evaluating the impact of adopting ASU 2014-09.

In February 2015, the FASB issued ASU 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis," (ASU 2015-02), which makes targeted amendments to the considerations applied by reporting entities when determining if a legal entity should be consolidated, including placing more emphasis on risk of loss when determining a controlling financial interest. Low-income housing tax credit investments that meet the criteria for the proportional amortization method are not impacted by these amendments. ASU 2015-02 is effective for annual and interim periods beginning after December 15, 2015, and must be retrospectively applied. Early adoption is permitted. The Corporation does not expect the adoption of ASU 2015-02 to have a material effect on its financial condition and results of operations.

In April 2015, the FASB issued ASU 2015-05, "Goodwill and Other - Internal-Use Software (Subtopic 350-40)," (ASU 2015-05), which defines specific criteria entities must apply to determine if a cloud computing arrangement includes an in-substance software license. The result of the assessment will direct the entity to apply either software licensing or service contract guidance to record the related costs. ASU 2015-05 is effective for annual and interim periods beginning after December 15, 2015, and can be prospectively or retrospectively applied. Early adoption is permitted. The Corporation does not expect the adoption to have a material effect on its financial condition and results of operations.

In May 2015, the FASB issued ASU 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)," (ASU 2015-07) which amends disclosure requirements for entities that utilize net asset value per share (or its equivalent) to measure fair value as a practical expedient. The update eliminates the requirement to classify these investments within the fair value hierarchy and instead requires disclosure of sufficient information about these investments to permit reconciliation of the fair value of investments categorized within the fair value hierarchy to the investments presented in the consolidated balance sheet. ASU 2015-07 is effective for annual and interim periods beginning after December 15, 2015 and must be applied retrospectively. Early adoption is permitted. The adoption of ASU 2015-07 will have no impact on the Corporation's financial condition or results of operations.

NOTE 2 – FAIR VALUE MEASUREMENTS

The Corporation utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The determination of fair values of financial instruments often requires the use of estimates. In cases where quoted market values in an active market are not available, the Corporation uses present value techniques and other valuation methods to estimate the fair values of its financial instruments. These valuation methods require considerable judgment and the resulting estimates of fair value can be significantly affected by the assumptions made and methods used.

Trading securities, investment securities available-for-sale, derivatives and deferred compensation plan liabilities are recorded at fair value on a recurring basis. Additionally, from time to time, the Corporation may be required to record other assets and liabilities at fair value on a nonrecurring basis, such as impaired loans, other real estate (primarily foreclosed property), nonmarketable equity securities and certain other assets and liabilities. These nonrecurring fair value adjustments typically involve write-downs of individual assets or application of lower of cost or fair value accounting.

Refer to Note 1 to the consolidated financial statements in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2014 for further information about the fair value hierarchy, descriptions of the valuation methodologies and key inputs used to measure financial assets and liabilities recorded at fair value, as well as a description of the methods and significant assumptions used to estimate fair value disclosures for financial instruments not recorded at fair value in their entirety on a recurring basis. When credit valuation adjustments are significant to the overall fair value of a derivative, the Corporation classifies the over-the-counter derivative valuation in Level 3 of the fair value hierarchy; otherwise, over-the-counter derivative valuations are classified in Level 2.

ASSETS AND LIABILITIES RECORDED AT FAIR VALUE ON A NONRECURRING BASIS

The Corporation may be required, from time to time, to record certain assets and liabilities at fair value on a nonrecurring basis. These include assets that are recorded at the lower of cost or fair value that were recognized at fair value below cost at the end of the period. The following table presents assets recorded at fair value on a nonrecurring basis at September 30, 2015 and December 31, 2014. No liabilities were recorded at fair value on a nonrecurring basis at September 30, 2015 and December 31, 2014.

| (in millions) | Total | Level 2 | Level 3 |
|---------------------------------|-------|---------|---------|
| September 30, 2015 | | | |
| Loans held-for-sale: | | | |
| Commercial | \$12 | \$12 | \$— |
| Loans: | | | |
| Commercial | 124 | — | 124 |
| Commercial mortgage | 12 | — | 12 |
| International | 8 | — | 8 |
| Total loans | 144 | — | 144 |
| Nonmarketable equity securities | 1 | — | 1 |
| Other real estate | 3 | — | 3 |
| Total assets at fair value | \$160 | \$12 | \$148 |
| December 31, 2014 | | | |
| Loans: | | | |
| Commercial | 38 | — | \$38 |
| Commercial mortgage | 26 | — | 26 |
| Total loans | 64 | — | 64 |
| Nonmarketable equity securities | 2 | — | 2 |
| Other real estate | 2 | — | 2 |
| Total assets at fair value | \$68 | \$— | \$68 |

Level 3 assets recorded at fair value on a nonrecurring basis at September 30, 2015 and December 31, 2014 included loans for which a specific allowance was established based on the fair value of collateral and other real estate for which fair value of the properties was less than the cost basis. For both asset classes, the unobservable inputs were the additional adjustments applied by management to the appraised values to reflect such factors as non-current appraisals and revisions to estimated time to sell. These adjustments are determined based on qualitative judgments made by management on a case-by-case basis and are not quantifiable inputs, although they are used in the determination of fair value.

The following table presents quantitative information related to the significant unobservable inputs utilized in the Corporation's Level 3 recurring fair value measurement as of September 30, 2015 and December 31, 2014. The Corporation's Level 3 recurring fair value measurements include auction-rate securities where fair value is determined using an income approach based on a discounted cash flow model. The inputs in the table below reflect management's expectation of continued illiquidity in the secondary auction-rate securities market due to a lack of market activity for the issuers remaining in the portfolio, a lack of market incentives for issuer redemptions, and the expectation for a continuing low interest rate environment. The September 30, 2015 workout periods reflect management's view that short-term interest rates could begin to rise in 2015.

| | Fair Value (in millions) | Discounted Cash Flow Model Unobservable Input | |
|------------------------------------|-----------------------------|--|------------------------------|
| | | Discount Rate | Workout Period (in years) |
| September 30, 2015 | | | |
| State and municipal securities (a) | \$9 | 3% - 10% | 1 - 3 |

ESTIMATED FAIR VALUES OF FINANCIAL INSTRUMENTS NOT RECORDED AT FAIR VALUE ON A RECURRING BASIS

The Corporation typically holds the majority of its financial instruments until maturity and thus does not expect to realize many of the estimated fair value amounts disclosed. The disclosures also do not include estimated fair value amounts for items that are not defined as financial instruments, but which have significant value. These include such items as core deposit intangibles, the future earnings potential of significant customer relationships and the value of trust operations and other fee generating businesses. The Corporation believes the imprecision of an estimate could be significant.

The carrying amount and estimated fair value of financial instruments not recorded at fair value in their entirety on a recurring basis on the Corporation's consolidated balance sheets are as follows:

| (in millions) | Carrying Amount | Estimated Fair Value Total | Level 1 | Level 2 | Level 3 |
|---|--------------------|-------------------------------|----------|---------|---------|
| September 30, 2015 | | | | | |

NOTE 3 - INVESTMENT SECURITIES

A summary of the Corporation's investment securities follows:

| (in millions) | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
|---|-------------------|------------------------------|-------------------------------|------------|
| September 30, 2015 | | | | |
| Investment securities available-for-sale: | | | | |
| U.S. Treasury and other U.S. government agency securities | \$917 | \$13 | \$— | \$930 |
| Residential mortgage-backed securities (a) | 7,445 | 133 | 19 | 7,559 |
| State and municipal securities | 9 | — | — | 9 |
| Corporate debt securities | 45 | — | — | 45 |
| Equity and other non-debt securities | 206 | 1 | 1 | 206 |
| Total investment securities available-for-sale (b) | \$8,622 | \$147 | \$20 | \$8,749 |
| Investment securities held-to-maturity (c): | | | | |
| Residential mortgage-backed securities (a) | \$1,863 | \$10 | \$1 | \$1,872 |
| December 31, 2014 | | | | |
| Investment securities available-for-sale: | | | | |
| U.S. Treasury and other U.S. government agency securities | \$526 | \$— | \$— | \$526 |
| Residential mortgage-backed securities (a) | 7,192 | 122 | 40 | 7,274 |
| State and municipal securities | 24 | — | 1 | 23 |
| Corporate debt securities | 51 | — | — | 51 |
| Equity and other non-debt securities | 242 | 1 | 1 | 242 |
| Total investment securities available-for-sale (b) | \$8,035 | \$123 | \$42 | \$8,116 |
| Investment securities held-to-maturity (c): | | | | |
| Residential mortgage-backed securities (a) | \$1,935 | \$— | \$2 | \$1,933 |

(a) Residential mortgage-backed securities issued and/or guaranteed by U.S. government agencies or U.S. government-sponsored enterprises.

(b) Included auction-rate securities at amortized cost and fair value of \$80 million and \$79 million, respectively as of September 30, 2015 and \$137 million and \$136 million, respectively, as of December 31, 2014.

The amortized cost of investment securities held-to-maturity included net unrealized losses of \$17 million at (c) September 30, 2015 and \$23 million at December 31, 2014 related to securities transferred from available-for-sale, which are included in accumulated other comprehensive loss.

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

A summary of the Corporation's investment securities in an unrealized loss position as of September 30, 2015 and December 31, 2014 follows:

| (in millions) | Temporarily Impaired | | 12 Months or more | | Total | | Unrealized Losses | |
|---|----------------------|-------------------|-------------------|-------------------|------------|-------------------|-------------------|--|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | | |
| September 30, 2015 | | | | | | | | |
| Residential mortgage-backed securities (b) | \$642 | \$3 | \$2,071 | \$37 | \$2,713 | \$40 | | |
| State and municipal securities (c) | — | — | 9 | — | (a) 9 | — | (a) | |
| Corporate debt securities (c) | — | — | 1 | — | (a) 1 | — | (a) | |
| Equity and other non-debt securities (c) | 70 | 1 | — | — | 70 | 1 | | |
| Total temporarily impaired securities | \$712 | \$4 | \$2,081 | \$37 | \$2,793 | \$41 | | |
| December 31, 2014 | | | | | | | | |
| U.S. Treasury and other U.S. government agency securities | \$298 | \$— | (a) \$— | \$— | \$298 | \$— | (a) | |
| Residential mortgage-backed securities (b) | 626 | 3 | 3,112 | 71 | 3,738 | 74 | | |
| State and municipal securities (c) | — | — | 22 | 1 | 22 | 1 | | |
| Corporate debt securities (c) | — | — | 1 | — | (a) 1 | — | (a) | |
| Equity and other non-debt securities (c) | — | — | 112 | 1 | 112 | 1 | | |
| Total temporarily impaired securities | \$924 | \$3 | \$3,247 | \$73 | \$4,171 | \$76 | | |

(a) Unrealized losses less than \$0.5 million.

(b) Residential mortgage-backed securities issued and/or guaranteed by U.S. government agencies or U.S. government-sponsored enterprises.

(c) Auction-rate securities.

At September 30, 2015, the Corporation had 123 securities in an unrealized loss position with no credit impairment, including 68 residential mortgage-backed securities, 38 auction-rate preferred securities, 16 state and municipal auction-rate securities, and one corporate auction-rate debt security. As of September 30, 2015, approximately 94 percent of the aggregate par value of auction-rate securities have been redeemed or sold since acquisition, of which approximately 91 percent were redeemed at or above cost. The unrealized losses for these securities resulted from changes in market interest rates and liquidity. The Corporation ultimately expects full collection of the carrying amount of these securities, does not intend to sell the securities in an unrealized loss position, and it is not more-likely-than-not that the Corporation will be required to sell the securities in an unrealized loss position prior to recovery of amortized cost. The Corporation does not consider these securities to be other-than-temporarily impaired at September 30, 2015.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

Sales, calls and write-downs of investment securities available-for-sale resulted in the following gains and losses recorded in “net securities losses” on the consolidated statements of comprehensive income, computed based on the adjusted cost of the specific security.

| (in millions) | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|-----------------------|----------------------------------|------|---------------------------------|-------|
| | 2015 | 2014 | 2015 | 2014 |
| Securities gains | \$— | \$— | \$— | \$1 |
| Securities losses | — | (1 |) (2 |) (1 |
| Net securities losses | \$— | \$(1 |) \$(2 |) \$— |

The following table summarizes the amortized cost and fair values of debt securities by contractual maturity.

Securities with multiple maturity dates are classified in the period of final maturity. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

| (in millions) | Available-for-sale | | Held-to-maturity | |
|--------------------------------------|--------------------|------------|------------------|------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| September 30, 2015 | | | | |
| Contractual maturity | | | | |
| Within one year | \$74 | \$74 | \$— | \$— |
| After one year through five years | 1,123 | 1,136 | — | — |
| After five years through ten years | 929 | 976 | — | — |
| After ten years | 6,290 | 6,357 | 1,863 | 1,872 |
| Subtotal | 8,416 | 8,543 | 1,863 | 1,872 |
| Equity and other non-debt securities | 206 | 206 | | |
| Total investment securities | \$8,622 | \$8,749 | \$1,863 | \$1,872 |

Included in the contractual maturity distribution in the table above were residential mortgage-backed securities available-for-sale with total amortized cost and fair value of \$7.4 billion and \$7.6 billion, respectively, and residential mortgage-backed securities held-to-maturity with a total amortized cost and fair value of \$1.9 billion. The actual cash flows of mortgage-backed securities may differ from contractual maturity as the borrowers of the underlying loans may exercise prepayment options.

At September 30, 2015, investment securities with a carrying value of \$2.9 billion were pledged where permitted or required by law to secure \$2.1 billion of liabilities, primarily public and other deposits of state and local government agencies and derivative instruments.

(a) Includes all loans not included in the categories of special mention, substandard or nonaccrual.

Special mention loans are accruing loans that have potential credit weaknesses that deserve management's close attention, such as loans to borrowers who may be experiencing financial difficulties that may result in deterioration of repayment prospects from the borrower at some future date.

Substandard loans are accruing loans that have a well-defined weakness, or weaknesses, such as loans to borrowers who may be experiencing losses from operations or inadequate liquidity of a degree and duration that jeopardizes the orderly repayment of the loan. Substandard loans also are distinguished by the distinct possibility of loss in the future if these weaknesses are not corrected. This category is generally consistent with the "substandard" category as defined by regulatory authorities.

Nonaccrual loans are loans for which the accrual of interest has been discontinued. For further information regarding nonaccrual loans, refer to the Nonperforming Assets subheading in Note 1 - Basis of Presentation and Accounting Policies - on page F-55 in the Corporation's 2014 Annual Report. A significant majority of nonaccrual loans are generally consistent with the "substandard" category and the remainder are generally consistent with the "doubtful" category as defined by regulatory authorities.

(e) Primarily loans to real estate developers.

(f) Primarily loans secured by owner-occupied real estate.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)
Comerica Incorporated and Subsidiaries

The following table summarizes nonperforming assets.

| (in millions) | September 30, 2015 | December 31, 2014 |
|----------------------------|--------------------|-------------------|
| Nonaccrual loans | \$357 | \$273 |
| Reduced-rate loans (a) | 12 | 17 |
| Total nonperforming loans | 369 | 290 |
| Foreclosed property (b) | 12 | 10 |
| Total nonperforming assets | \$381 | \$300 |

(a) Reduced-rate business loans were zero at both September 30, 2015 and December 31, 2014, and reduced-rate retail loans were \$12 million and \$17 million at September 30, 2015 and December 31, 2014, respectively.

(b) Foreclosed residential real estate properties.

Nonaccrual loans included retail loans secured by residential real estate properties in process of foreclosure of \$1 million at September 30, 2015.

Allowance for Credit Losses

The following table details the changes in the allowance for loan losses and related loan amounts.

| (in millions) | 2015 | | | 2014 | | | |

Troubled Debt Restructurings

The following tables detail the recorded balance at September 30, 2015 and 2014 of loans considered to be TDRs that were restructured during the three- and nine-month periods ended September 30, 2015 and 2014, by type of modification. In cases of loans with more than one type of modification, the loans were categorized based on the most significant modification.

| Total loans | \$ 139 | \$ 1 | \$ 140 | \$ 15 | \$ 2 | \$ 17 |

(a) Primarily represents loan balances where terms were extended 90 days or more at or above contractual interest rates.

(b) Primarily loans to real estate developers.

(c) Primarily loans secured by owner-occupied real estate.

Commitments to lend additional funds to borrowers whose terms have been modified in TDRs were \$1 million at September 30, 2015 and \$3 million at December 31, 2014.

The majority of the modifications considered to be TDRs that occurred during the nine months ended September 30, 2015 and 2014 were principal deferrals. The Corporation charges interest on principal balances outstanding during deferral periods. Additionally, none of the modifications involved forgiveness of principal. As a result, the current and future financial effects of the recorded balance of loans considered to be TDRs that were restructured during the nine months ended September 30, 2015 and 2014 were insignificant.

On an ongoing basis, the Corporation monitors the performance of modified loans to their restructured terms. In the event of a subsequent default, the allowance for loan losses continues to be reassessed on the basis of an individual evaluation of the loan.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

The following table presents information regarding the recorded balance at September 30, 2015 and 2014 of loans modified by principal deferral during the twelve-month periods ended September 30, 2015 and 2014, and those principal deferrals which experienced a subsequent default during the three- and nine-month periods ended September 30, 2015 and 2014. For principal deferrals, incremental deterioration in the credit quality of the loan, represented by a downgrade in the risk rating of the loan, for example, due to missed interest payments or a reduction of collateral value, is considered a subsequent default.

| (in millions) | 2015 | | | 2014 | | |
|--|-------------------------|---|--|-------------------------|---|--|
| | Balance at September 30 | Subsequent Default in the Three Months Ended September 30 | Subsequent Default in the Nine Months Ended September 30 | Balance at September 30 | Subsequent Default in the Three Months Ended September 30 | Subsequent Default in the Nine Months Ended September 30 |

| Home equity | 1 | (c) — | — | 2 | (c) — | — |
| Total retail loans | 19 | — | — | 4 | — | — |
| Total principal deferrals | \$145 | \$1 | \$4 | \$32 | \$10 | \$13 |

(a) Primarily loans to real estate developers.

(b) Primarily loans secured by owner-occupied real estate.

(c) Includes bankruptcy loans for which the court has discharged the borrower's obligation and the borrower has not reaffirmed the debt.

During the twelve-month periods ended September 30, 2015 and 2014, loans with a carrying value of \$2 million and \$3 million, respectively, were modified by interest rate reduction. For reduced-rate loans a subsequent payment default is defined in terms of delinquency, when a principal or interest payment is 90 days past due. There were no subsequent payment defaults of reduced-rate loans during the three- and nine-month periods ended September 30, 2015 and 2014.

Purchased Credit-Impaired Loans

Acquired loans are initially recorded at fair value with no carryover of any allowance for loan losses. Loans acquired with evidence of credit quality deterioration at acquisition for which it was probable that the Corporation would not be able to collect all contractual amounts due were accounted for as PCI loans. The Corporation aggregated the acquired PCI loans into pools of loans based on common risk characteristics.

No allowance for loan losses was required on the acquired PCI loan pools at both September 30, 2015 and December 31, 2014. The carrying amount of acquired PCI loans included in the consolidated balance sheet and the related outstanding balance at September 30, 2015 and December 31, 2014 were as follows.

| (in millions) | September 30, 2015 | December 31, 2014 |
|---------------|--------------------|-------------------|
| | | |

Acquired PCI loans:

| | | |
|---|-----|-----|
| Carrying amount | \$2 | \$2 |
| Outstanding balance (principal and unpaid interest) | 6 | 8 |

Changes in the accretable yield for acquired PCI loans for the three- and nine-month periods ended September 30, 2015 and 2014 were as follows.

| (in millions) | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--------------------------------------|----------------------------------|------|---------------------------------|-------|

NOTE 5 - DERIVATIVE AND CREDIT-RELATED FINANCIAL INSTRUMENTS

In the normal course of business, the Corporation enters into various transactions involving derivative and credit-related financial instruments to manage exposure to fluctuations in interest rate, foreign currency and other market risks and to meet the financing needs of customers (customer-initiated derivatives). These financial instruments involve, to varying degrees, elements of market and credit risk. Market and credit risk are included in the determination of fair value.

Market risk is the potential loss that may result from movements in interest rates, foreign currency exchange rates or energy commodity prices that cause an unfavorable change in the value of a financial instrument. The Corporation manages this risk by establishing monetary exposure limits and monitoring compliance with those limits. Market risk inherent in interest rate and energy contracts entered into on behalf of customers is mitigated by taking offsetting positions, except in those circumstances when the amount, tenor and/or contract rate level results in negligible economic risk, whereby the cost of purchasing an offsetting contract is not economically justifiable. The Corporation mitigates most of the inherent market risk in foreign exchange contracts entered into on behalf of customers by taking offsetting positions and manages the remainder through individual foreign currency position limits and aggregate value-at-risk limits. These limits are established annually and reviewed quarterly. Market risk inherent in derivative instruments held or issued for risk management purposes is typically offset by changes in the fair value of the assets or liabilities being hedged.

Credit risk is the possible loss that may occur in the event of nonperformance by the counterparty to a financial instrument. The Corporation attempts to minimize credit risk arising from customer-initiated derivatives by evaluating the creditworthiness of each customer, adhering to the same credit approval process used for traditional lending activities and obtaining collateral as deemed necessary. Derivatives with dealer counterparties are either cleared through a clearinghouse or settled directly with a single counterparty. For derivatives settled directly with dealer counterparties, the Corporation utilizes counterparty risk limits and monitoring procedures as well as master netting arrangements and bilateral collateral agreements to facilitate the management of credit risk. Master netting arrangements effectively reduce credit risk by permitting settlement of positive and negative positions and offset cash collateral held with the same counterparty on a net basis. Bilateral collateral agreements require daily exchange of cash or highly rated securities issued by the U.S. Treasury or other U.S. government entities to collateralize amounts due to either party beyond certain risk limits. At September 30, 2015, counterparties with bilateral collateral agreements had pledged \$143 million of marketable investment securities and deposited \$342 million of cash with the Corporation to secure the fair value of contracts in an unrealized gain position, and the Corporation had pledged \$12 million of marketable investment securities and posted \$6 million of cash as collateral for contracts in an unrealized loss position. For those counterparties not covered under bilateral collateral agreements, collateral is obtained, if deemed necessary, based on the results of management's credit evaluation of the counterparty. Collateral varies, but may include cash, investment securities, accounts receivable, equipment or real estate. Included in the fair value of derivative instruments are credit valuation adjustments reflecting counterparty credit risk. These adjustments are determined by applying a credit spread for the counterparty or the Corporation, as appropriate, to the total expected exposure of the derivative.

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that were in a liability position at September 30, 2015 was \$5 million, for which the Corporation had pledged collateral of \$1 million. The credit-risk-related contingent features require the Corporation's debt to maintain an investment grade credit rating from each of the major credit rating agencies. If the Corporation's debt were to fall below investment grade, the counterparties to the derivative instruments could require additional overnight collateral on derivative instruments in net liability positions. If the credit-risk-related contingent features underlying these agreements had been triggered on September 30, 2015, the Corporation would have been required to assign an additional \$4 million of collateral to its counterparties.

Derivative Instruments

Derivative instruments utilized by the Corporation are negotiated over-the-counter and primarily include swaps, caps and floors, forward contracts and options, each of which may relate to interest rates, energy commodity prices or foreign currency exchange rates. Swaps are agreements in which two parties periodically exchange cash payments based on specified indices applied to a specified notional amount until a stated maturity. Caps and floors are agreements which entitle the buyer to receive cash payments based on the difference between a specified reference rate or price and an agreed strike rate or price, applied to a specified notional amount until a stated maturity. Forward contracts are over-the-counter agreements to buy or sell an asset at a specified future date and price. Options are similar to forward contracts except the purchaser has the right, but not the obligation, to buy or sell the asset during a specified period or at a specified future date.

Over-the-counter contracts are tailored to meet the needs of the counterparties involved and, therefore, contain a greater degree of credit risk and liquidity risk than exchange-traded contracts, which have standardized terms and readily available price information. The Corporation reduces exposure to market and liquidity risks from over-the-counter derivative instruments entered into for risk management purposes, and transactions entered into to mitigate the market risk associated with customer-initiated transactions, by conducting hedging transactions with investment grade domestic and foreign financial institutions and subjecting

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

counterparties to credit approvals, limits and collateral monitoring procedures similar to those used in making other extensions of credit. In addition, certain derivative contracts executed bilaterally with a dealer counterparty in the over-the-counter market are cleared through a clearinghouse, whereby the clearinghouse becomes the counterparty to the transaction.

The following table presents the composition of the Corporation's derivative instruments held or issued for risk management purposes or in connection with customer-initiated and other activities at September 30, 2015 and December 31, 2014. The table excludes commitments, warrants accounted for as derivatives and a derivative related to the Corporation's 2008 sale of its remaining ownership of Visa shares.

| (in millions) | September 30, 2015 | | | December 31, 2014 | | |
|---|-------------------------------------|---|------------------------------------|-------------------------------------|---|------------------------------------|
| | Notional/ Contract Amount (a) | Fair Value Gross Derivative Assets | Gross Derivative Liabilities | Notional/ Contract Amount (a) | Fair Value Gross Derivative Assets | Gross Derivative Liabilities |

| Caps and floors purchased | 714 | 101 | — | 1,218 | 173 | — |
| Swaps | 2,130 | 358 | 355 | 2,496 | 354 | 352 |
| Total energy contracts | 3,558 | 459 | 456 | 4,932 | 527 | 525 |
| Foreign exchange contracts: | | | | | | |
| Spot, forwards, options and swaps | 2,028 | 50 | 43 | 1,994 | 35 | 34 |
| Total customer-initiated and other activities | 18,199 | 698 | 639 | 19,254 | 715 | 661 |
| Total gross derivatives | \$21,356 | 885 | 640 | \$21,562 | 894 | 661 |
| Amounts offset in the consolidated balance sheets: | | | | | | |
| Netting adjustment - Offsetting derivative assets/liabilities | | (123) | (123) | | (133) | (133) |
| Netting adjustment - Cash collateral received/posted | | (282) | (6) | | (262) | — |
| Net derivatives included in the consolidated balance sheets (b) | | 480 | 511 | | 499 | 528 |

Amounts not offset in the consolidated balance sheets:

| | | | | |
|---|--------|-------|--------|-------|
| Marketable securities pledged under bilateral collateral agreements | (141) | (12) | (239) | (2) |
| Net derivatives after deducting amounts not offset in the consolidated balance sheets | \$339 | \$499 | \$260 | \$526 |

(a) Notional or contractual amounts, which represent the extent of involvement in the derivatives market, are used to determine the contractual cash flows required in accordance with the terms of the agreement. These amounts are typically not exchanged, significantly exceed amounts subject to credit or market risk and are not reflected in the consolidated balance sheets.

(b) Net derivative assets are included in “accrued income and other assets” and net derivative liabilities are included in “accrued expenses and other liabilities” on the consolidated balance sheets. Included in the fair value of net derivative assets and net derivative liabilities are credit valuation adjustments reflecting counterparty credit risk and credit risk of the Corporation. The fair value of net derivative assets included credit valuation adjustments for counterparty credit risk of \$5 million and \$2 million at September 30, 2015 and December 31, 2014, respectively.

Comerica Incorporated and Subsidiaries

Risk Management

As an end-user, the Corporation employs a variety of financial instruments for risk management purposes, including cash instruments, such as investment securities, as well as derivative instruments. Activity related to these instruments is centered predominantly in the interest rate markets and mainly involves interest rate swaps. Various other types of instruments also may be used to manage exposures to market risks, including interest rate caps and floors, total return swaps, foreign exchange forward contracts and foreign exchange swap agreements.

The Corporation entered into interest rate swap agreements for interest rate risk management purposes. These interest rate swap agreements effectively modify the Corporation's exposure to interest rate risk by converting fixed-rate debt to a floating rate. These agreements involve the receipt of fixed-rate interest amounts in exchange for floating-rate interest payments over the life of the agreement, without an exchange of the underlying principal amount. Risk management fair value interest rate swaps generated net interest income of \$18 million for both the three-month periods ended September 30, 2015 and 2014, and \$52 million and \$54 million for the nine months ended September 30, 2015 and 2014, respectively. The Corporation recognized \$3 million of net gains and \$1 million of net losses for the three months ended September 30, 2015 and 2014, respectively, and \$2 million of net gains and \$1 million of net losses for the nine months ended September 30, 2015 and 2014, respectively, for the ineffective portion of risk management derivative instruments designated as fair value hedges of fixed-rate debt, included in "other noninterest income" in the consolidated statements of comprehensive income.

Foreign exchange rate risk arises from changes in the value of certain assets and liabilities denominated in foreign currencies. The Corporation employs spot and forward contracts in addition to swap contracts to manage exposure to these and other risks. The Corporation recognized \$1 million of net gains for both the three- and nine-month periods ended September 30, 2015 and an insignificant amount of net gains for the three- and nine-month periods ended September 30, 2014 on risk management derivative instruments used as economic hedges, included in "other noninterest income" in the consolidated statements of comprehensive income. The following table summarizes the expected weighted average remaining maturity of the notional amount of risk management interest rate swaps and the weighted average interest rates associated with amounts expected to be received or paid on interest rate swap agreements as of September 30, 2015 and December 31, 2014.

| (dollar amounts in millions) | Notional Amount | Weighted Average Remaining Maturity (in years) | Receive Rate | Pay Rate (a) |
|--|--------------------|---|--------------|--------------|
| September 30, 2015 | | | | |
| Swaps - fair value - receive fixed/pay floating rate Medium- and long-term debt designation | \$2,525 | 5.3 | 3.89 | % 1.00 % |
| December 31, 2014 | | | | |
| Swaps - fair value - receive fixed/pay floating rate Medium- and long-term debt designation | 1,800 | 4.6 | 4.54 | 0.49 |

(a) Variable rates paid on receive fixed swaps are based on six-month LIBOR rates in effect at September 30, 2015 and December 31, 2014.

Management believes these hedging strategies achieve the desired relationship between the rate maturities of assets and funding sources which, in turn, reduce the overall exposure of net interest income to interest rate risk, although there can be no assurance that such strategies will be successful.

Customer-Initiated and Other

The Corporation enters into derivative transactions at the request of customers and generally takes offsetting positions with dealer counterparties to mitigate the inherent market risk. Income primarily results from the spread between the customer derivative and the offsetting dealer position.

For customer-initiated foreign exchange contracts where offsetting positions have not been taken, the Corporation manages the remaining inherent market risk through individual foreign currency position limits and aggregate

value-at-risk limits. These limits are established annually and reviewed quarterly. For those customer-initiated derivative contracts which were not offset or where the Corporation holds a position within the limits described above, the Corporation recognized no net gains and \$1 million of net gains in “other noninterest income” in the consolidated statements of comprehensive income for the three- and nine-month periods ended September 30, 2015, respectively, and \$1 million of net gains for both the three- and nine-month periods ended September 30, 2014.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

Fair values of customer-initiated and other derivative instruments represent the net unrealized gains or losses on such contracts and are recorded in the consolidated balance sheets. Changes in fair value are recognized in the consolidated statements of comprehensive income. The net gains recognized in income on customer-initiated derivative instruments, net of the impact of offsetting positions, were as follows.

| (in millions) | Location of Gain | Three Months Ended | | Nine Months Ended | |
|----------------------------|--------------------------|--------------------|--------------------|--------------------|--------------------|
| | | September 30, 2015 | September 30, 2014 | September 30, 2015 | September 30, 2014 |
| Interest rate contracts | Other noninterest income | \$4 | \$3 | \$11 | \$11 |
| Energy contracts | Other noninterest income | 1 | 1 | 2 | 1 |
| Foreign exchange contracts | Foreign exchange income | 9 | 9 | 27 | 29 |
| Total | | \$14 | \$13 | \$40 | \$41 |

Credit-Related Financial Instruments

The Corporation issues off-balance sheet financial instruments in connection with commercial and consumer lending activities. The Corporation's credit risk associated with these instruments is represented by the contractual amounts indicated in the following table.

| (in millions) | September 30, 2015 | December 31, 2014 |
|---|--------------------|-------------------|
| Unused commitments to extend credit: | | |
| Commercial and other | \$26,887 | \$27,905 |
| Bankcard, revolving check credit and home equity loan commitments | 2,376 | 2,151 |
| Total unused commitments to extend credit | \$29,263 | \$30,056 |
| Standby letters of credit | \$3,993 | \$3,880 |
| Commercial letters of credit | 59 | 75 |
| Other credit-related financial instruments | 1 | 1 |

The Corporation maintains an allowance to cover probable credit losses inherent in lending-related commitments, including unused commitments to extend credit, letters of credit and financial guarantees. At September 30, 2015 and December 31, 2014, the allowance for credit losses on lending-related commitments, included in "accrued expenses and other liabilities" on the consolidated balance sheets, was \$48 million and \$41 million, respectively.

Unused Commitments to Extend Credit

Commitments to extend credit are legally binding agreements to lend to a customer, provided there is no violation of any condition established in the contract. These commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many commitments expire without being drawn upon, the total contractual amount of commitments does not necessarily represent future cash requirements of the Corporation. Commercial and other unused commitments are primarily variable rate commitments. The allowance for credit losses on lending-related commitments included \$34 million and \$30 million at September 30, 2015 and December 31, 2014, respectively, for probable credit losses inherent in the Corporation's unused commitments to extend credit.

Standby and Commercial Letters of Credit

Standby letters of credit represent conditional obligations of the Corporation which guarantee the performance of a customer to a third party. Standby letters of credit are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing and similar transactions. Commercial letters of credit are issued to finance foreign or domestic trade transactions. These contracts expire in decreasing amounts through the year 2022. The Corporation may enter into participation arrangements with third parties that effectively reduce the maximum amount of future payments which may be required under standby and commercial letters of credit. These risk participations covered \$295 million and \$316 million, respectively, of the \$4.1 billion and \$4.0 billion standby and commercial letters of credit outstanding at September 30, 2015 and December 31, 2014, respectively.

The carrying value of the Corporation's standby and commercial letters of credit, included in "accrued expenses and other liabilities" on the consolidated balance sheets, totaled \$54 million at September 30, 2015, including \$40 million

in deferred fees and \$14 million in the allowance for credit losses on lending-related commitments. At December 31, 2014, the comparable amounts were \$55 million, \$44 million and \$11 million, respectively.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)
Comerica Incorporated and Subsidiaries

The following table presents a summary of criticized standby and commercial letters of credit at September 30, 2015 and December 31, 2014. The Corporation's criticized list is generally consistent with the Special mention, Substandard and Doubtful categories defined by regulatory authorities. The Corporation manages credit risk through underwriting, periodically reviewing and approving its credit exposures using Board committee approved credit policies and guidelines.

| (dollar amounts in millions) | September 30, 2015 | December 31, 2014 |
|---|-----------------------|-------------------|
| Total criticized standby and commercial letters of credit | \$104 | \$79 |
| As a percentage of total outstanding standby and commercial letters of credit | 2.6 | % 2.0 |

Other Credit-Related Financial Instruments

The Corporation enters into credit risk participation agreements, under which the Corporation assumes credit exposure associated with a borrower's performance related to certain interest rate derivative contracts. The Corporation is not a party to the interest rate derivative contracts and only enters into these credit risk participation agreements in instances in which the Corporation is also a party to the related loan participation agreement for such borrowers. The Corporation manages its credit risk on the credit risk participation agreements by monitoring the creditworthiness of the borrowers, which is based on the normal credit review process had it entered into the derivative instruments directly with the borrower. The notional amount of such credit risk participation agreement reflects the pro-rata share of the derivative instrument, consistent with its share of the related participated loan. As of September 30, 2015 and December 31, 2014, the total notional amount of the credit risk participation agreements was approximately \$653 million and \$598 million, respectively, and the fair value, included in customer-initiated interest rate contracts recorded in "accrued expenses and other liabilities" on the consolidated balance sheets, was insignificant at both September 30, 2015 and December 31, 2014. The maximum estimated exposure to these agreements, as measured by projecting a maximum value of the guaranteed derivative instruments, assuming 100 percent default by all obligors on the maximum values, was approximately \$12 million and \$7 million at September 30, 2015 and December 31, 2014, respectively. In the event of default, the lead bank has the ability to liquidate the assets of the borrower, in which case the lead bank would be required to return a percentage of the recouped assets to the participating banks. As of September 30, 2015, the weighted average remaining maturity of outstanding credit risk participation agreements was 2.4 years.

In 2008, the Corporation sold its remaining ownership of Visa Class B shares and entered into a derivative contract. Under the terms of the derivative contract, the Corporation will compensate the counterparty primarily for dilutive adjustments made to the conversion factor of the Visa Class B shares to Class A shares based on the ultimate outcome of litigation involving Visa. Conversely, the Corporation will be compensated by the counterparty for any increase in the conversion factor from anti-dilutive adjustments. The notional amount of the derivative contract was equivalent to approximately 780,000 Visa Class B shares. The fair value of the derivative liability, included in "accrued expenses and other liabilities" on the consolidated balance sheets, was \$1 million at both September 30, 2015 and December 31, 2014.

NOTE 6 - VARIABLE INTEREST ENTITIES (VIEs)

The Corporation evaluates its interest in certain entities to determine if these entities meet the definition of a VIE and whether the Corporation is the primary beneficiary and should consolidate the entity based on the variable interests it held both at inception and when there is a change in circumstances that requires a reconsideration.

The Corporation holds ownership interests in funds in the form of limited partnerships or limited liability companies (LLCs) investing in affordable housing projects that qualify for the low-income housing tax credit (LIHTC). The Corporation also directly invests in limited partnerships and LLCs which invest in community development projects which generate similar tax credits to investors. As an investor, the Corporation obtains income tax credits and deductions from the operating losses of these tax credit entities. These tax credit entities meet the definition of a VIE; however, the Corporation is not the primary beneficiary of the entities, as the general partner or the managing member has both the power to direct the activities that most significantly impact the economic performance of the entities and

the obligation to absorb losses or the right to receive benefits that could be significant to the entities. While the partnership/LLC agreements allow the limited partners/investor members, through a majority vote, to remove the general partner/managing member, this right is not deemed to be substantive as the general partner/managing member can only be removed for cause.

The Corporation accounts for its interests in LIHTC entities using the proportional amortization method. Exposure to loss as a result of the Corporation's involvement with LIHTC entities at September 30, 2015 was limited to approximately \$383 million. Ownership interests in other community development projects which generate similar tax credits to investors (other tax credit entities) are accounted for under either the cost or equity method. Exposure to loss as a result of the Corporation's involvement in other tax credit entities at September 30, 2015 was limited to approximately \$10 million.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

Investment balances, including all legally binding commitments to fund future investments, are included in “accrued income and other assets” on the consolidated balance sheets. A liability is recognized in “accrued expenses and other liabilities” on the consolidated balance sheets for all legally binding unfunded commitments to fund tax credit entities (\$126 million at September 30, 2015). Amortization and other write-downs of LIHTC investments are presented on a net basis as a component of the “provision for income taxes” on the consolidated statements of comprehensive income, while amortization and write-downs of other tax credit investments are recorded in “other noninterest income.” The income tax credits and deductions are recorded as a reduction of income tax expense and a reduction of federal income taxes payable.

The Corporation provided no financial or other support that was not contractually required to any of the above VIEs during the nine months ended September 30, 2015 and 2014.

The following table summarizes the impact of these tax credit entities on line items on the Corporation’s consolidated statements of comprehensive income.

| (in millions) | Three Months Ended September | | Nine Months Ended September | |
|---|------------------------------|--------|-----------------------------|-------|
| | 30, 2015 | 2014 | 30, 2015 | 2014 |
| Other noninterest income: | | | | |
| Amortization of other tax credit investments | \$— | \$(2 |) \$1 | \$(5 |
| Provision for income taxes: | | | | |
| Amortization of LIHTC investments | 15 | 15 | 45 | 43 |
| Low income housing tax credits | (15 |) (15 |) (45 |) (43 |
| Other tax benefits related to tax credit entities | (5 |) (6 |) (15 |) (19 |
| Total provision for income taxes | \$(5 |) \$(6 |) (15 |) (19 |

For further information on the Corporation’s consolidation policy, see Note 1 to the consolidated financial statements in the Corporation's 2014 Annual Report.

NOTE 7 - MEDIUM- AND LONG-TERM DEBT

Medium- and long-term debt is summarized as follows:

| (in millions) | September 30, 2015 | December 31, 2014 |
|---|--------------------|-------------------|
| Parent company | | |
| Subordinated notes: | | |
| 4.80% subordinated notes due 2015 (a) | \$— | \$304 |
| 3.80% subordinated notes due 2026 (a) | 264 | 257 |
| Medium-term notes: | | |
| 3.00% notes due 2015 | — | 300 |
| 2.125% notes due 2019 (a) | 354 | 347 |
| Total parent company | 618 | 1,208 |
| Subsidiaries | | |
| Subordinated notes: | | |
| 5.75% subordinated notes due 2016 (a) (b) | 662 | 670 |
| 5.20% subordinated notes due 2017 (a) | 538 | 548 |
| 4.00% subordinated notes due 2025 (a) | 358 | — |
| 7.875% subordinated notes due 2026 (a) | 228 | 227 |
| Total subordinated notes | 1,786 | 1,445 |
| Medium-term notes: | | |
| 2.50% notes due 2020 (a) | 680 | — |
| Other notes: | | |
| 6.0% - 6.4% fixed-rate notes due 2020 | 16 | 22 |
| Total subsidiaries | 2,482 | 1,467 |

| | | |
|----------------------------------|---------|---------|
| Total medium- and long-term debt | \$3,100 | \$2,675 |
|----------------------------------|---------|---------|

The fixed interest rates on these notes have been swapped to a variable rate and designated in a hedging (a)relationship. Accordingly, carrying value has been adjusted to reflect the change in the fair value of the debt as a result of changes in the benchmark rate.

(b) The fixed interest rate on \$250 million of \$600 million total par value of these notes have been swapped to a variable rate. The remaining amount is not swapped.

Subordinated notes with remaining maturities greater than one year qualify as Tier 2 capital.

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

Comerica Bank, a wholly-owned subsidiary of the Corporation (the Bank), is a member of the FHLB, which provides short- and long-term funding to its members through advances collateralized by real estate-related assets. Actual borrowing capacity is contingent on the amount of collateral available to be pledged to the FHLB. At September 30, 2015, \$14 billion of real estate-related loans were pledged to the FHLB as blanket collateral for potential future borrowings of approximately \$6 billion.

In the second quarter 2015, the Bank issued \$500 million of 2.50% medium-term notes due 2020, which were swapped to a floating rate based on six-month LIBOR. Proceeds were used for general corporate purposes.

In the third quarter 2015, the Bank issued \$350 million of 4.00% subordinated notes due 2025 and \$175 million of 2.50% medium-term notes due 2020, both of which were swapped to a floating rate based on six-month LIBOR.

Proceeds were used for general corporate purposes.

NOTE 8 - ACCUMULATED OTHER COMPREHENSIVE LOSS

The following table presents a reconciliation of the changes in the components of accumulated other comprehensive loss and details the components of other comprehensive income (loss) for the nine months ended September 30, 2015 and 2014, including the amount of income tax expense (benefit) allocated to each component of other comprehensive income (loss).

| (in millions) | Nine Months Ended September | |
|--|-----------------------------|------------|
| | 30, 2015 | 2014 |
| Accumulated net unrealized gains (losses) on investment securities: | | |
| Balance at beginning of period, net of tax | \$37 | \$(68) |
| Net unrealized holding gains arising during the period | 44 | 85 |

Comerica Incorporated and Subsidiaries

NOTE 9 - NET INCOME PER COMMON SHARE

Basic and diluted net income per common share are presented in the following table.

| (in millions, except per share data) | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|---|----------------------------------|--------|---------------------------------|--------|
| | 2015 | 2014 | 2015 | 2014 |
| Basic and diluted | | | | |
| Net income | \$136 | \$154 | \$405 | \$444 |
| Less: | | | | |
| Income allocated to participating securities | 2 | 2 | 5 | 6 |
| Net income attributable to common shares | \$134 | \$152 | \$400 | \$438 |
| Basic average common shares | 176 | 179 | 176 | 179 |
| Basic net income per common share | \$0.76 | \$0.85 | \$2.27 | \$2.44 |
| Basic average common shares | 176 | 179 | 176 | 179 |
| Dilutive common stock equivalents: | | | | |
| Net effect of the assumed exercise of stock options | 2 | 2 | 2 | 2 |
| Net effect of the assumed exercise of warrants | 3 | 4 | 4 | 5 |
| Diluted average common shares | 181 | 185 | 182 | 186 |
| Diluted net income per common share | \$0.74 | \$0.82 | \$2.20 | \$2.35 |

The following average shares related to outstanding options to purchase shares of common stock were not included in the computation of diluted net income per common share because the options were anti-dilutive for the period.

| (shares in millions) | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|-----------------------------|----------------------------------|-------------------|---------------------------------|-------------------|
| | 2015 | 2014 | 2015 | 2014 |
| Average outstanding options | 4.6 | 6.0 | 5.4 | 7.3 |
| Range of exercise prices | \$46.68 - \$60.82 | \$50.87 - \$60.82 | \$46.68 - \$60.82 | \$48.17 - \$61.94 |

NOTE 10 - EMPLOYEE BENEFIT PLANS

Net periodic benefit costs are charged to "employee benefits expense" on the consolidated statements of comprehensive income. The components of net periodic benefit cost for the Corporation's qualified pension plan, non-qualified pension plan and postretirement benefit plan are as follows.

| Qualified Defined Benefit Pension Plan | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--|----------------------------------|------|---------------------------------|------|
| | 2015 | 2014 | 2015 | 2014 |
| (in millions) | | | | |
| Service cost | \$9 | \$7 | \$27 | \$22 |
| Interest cost | 22 | 22 | 66 | 66 |
| Expected return on plan assets | (40) | (33) | (120) | (99) |
| Amortization of prior service cost | 1 | 1 | 3 | 4 |
| Amortization of net loss | 15 | 9 | 44 | 24 |
| Net periodic defined benefit cost | \$7 | \$6 | \$20 | \$17 |
| Non-Qualified Defined Benefit Pension Plan | Three Months Ended September 30, | | Nine Months Ended September 30, | |
| (in millions) | 2015 | 2014 | 2015 | 2014 |
| Service cost | \$1 | \$1 | \$3 | \$3 |
| Interest cost | 2 | 2 | 7 | 7 |

Edgar Filing: COMERICA INC /NEW/ - Form 10-Q

| | | | | | |
|--------------------------------------|-----|------|------|------|---|
| Amortization of prior service credit | (1 |) (1 |) (3 |) (3 |) |
| Amortization of net loss | 3 | 2 | 8 | 5 | |
| Net periodic defined benefit cost | \$5 | \$4 | \$15 | \$12 | |

For further information on the Corporation's employee benefit plans, refer to Note 17 to the consolidated financial statements in the Corporation's 2014 Annual Report.

NOTE 11 - INCOME TAXES AND TAX-RELATED ITEMS

At September 30, 2015, net unrecognized tax benefits were \$22 million, compared to \$14 million at December 31, 2014. The Corporation anticipates that it is reasonably possible that final settlement of federal and state tax issues will result in a decrease in net unrecognized tax benefits of \$8 million within the next twelve months. Included in "accrued expense and other liabilities" on the consolidated balance sheets was a \$3 million liability for tax-related interest and penalties at September 30, 2015 compared to \$2 million at December 31, 2014.

Net deferred tax assets were \$132 million at September 30, 2015, compared to \$130 million at December 31, 2014. Deferred tax assets were evaluated for realization and it was determined that no valuation allowance was needed at both September 30, 2015 and December 31, 2014. This conclusion was based on sufficient taxable income in the carryback period and projected future reversals of existing taxable temporary differences to absorb the deferred tax assets.

In the ordinary course of business, the Corporation enters into certain transactions that have tax consequences. From time to time, the Internal Revenue Service (IRS) or other tax jurisdictions may review and/or challenge specific interpretive tax positions taken by the Corporation with respect to those transactions. The Corporation believes that its tax returns were filed based upon applicable statutes, regulations and case law in effect at the time of the transactions. The IRS or other tax jurisdictions, an administrative authority or a court, if presented with the transactions, could disagree with the Corporation's interpretation of the tax law.

Based on current knowledge and probability assessment of various potential outcomes, the Corporation believes that current tax reserves are adequate, and the amount of any potential incremental liability arising is not expected to have a material adverse effect on the Corporation's consolidated financial condition or results of operations. Probabilities and outcomes are reviewed as events unfold, and adjustments to the reserves are made when necessary.

NOTE 12 - CONTINGENT LIABILITIES**Legal Proceedings**

As previously reported in the Corporation's Form 10-K for the year ended December 31, 2014 and Form 10-Q for the periods ended March 31, 2015 and June 30, 2015, Comerica Bank, a wholly owned subsidiary of the Corporation, was named in November 2011 as a third-party defendant in *Butte Local Development v. Masters Group v. Comerica Bank* ("the case"), for lender liability. The case was tried in January 2014, in the Montana Second District Judicial Court for Silver Bow County in Butte, Montana. On January 17, 2014, a jury awarded Masters \$52 million against the Bank. On July 1, 2015, after an appeal filed by the Corporation, the Montana Supreme Court ("the court") reversed the judgment against the Corporation and remanded the case for a new trial with instructions that Michigan law should apply. The court also reversed punitive and consequential damages previously awarded by the jury. The Corporation believes it has meritorious defenses to the remaining claims in this case and intends to continue to defend itself vigorously.

Management believes that current reserves related to this case are adequate in the event of a negative outcome. The Corporation and certain of its subsidiaries are subject to various other pending or threatened legal proceedings arising out of the normal course of business or operations. The Corporation believes it has meritorious defenses to the claims asserted against it in its other currently outstanding legal proceedings and, with respect to such legal proceedings, intends to continue to defend itself vigorously, litigating or settling cases according to management's judgment as to what is in the best interests of the Corporation and its shareholders. Settlement may result from the

Corporation's determination that it may be more prudent financially to settle, rather than litigate, and should not be regarded as an admission of liability. On at least a quarterly basis, the Corporation assesses its potential liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. On a case-by-case basis, reserves are established for those legal claims for which it is probable that a loss will be incurred either as a result of a settlement or judgment, and the amount of such loss can be reasonably estimated. The actual costs of resolving these claims may be substantially higher or lower than the amounts reserved. Based on current knowledge, and after consultation with legal counsel, management believes that current reserves are adequate, and the amount of any incremental liability arising

Table of Contents

Notes to Consolidated Financial Statements (unaudited)
Comerica Incorporated and Subsidiaries

from these matters is not expected to have a material adverse effect on the Corporation's consolidated financial condition, consolidated results of operations or consolidated cash flows. Legal fees of \$5 million and \$8 million were included in "other noninterest expenses" on the consolidated statements of income for the three-month periods ended September 30, 2015 and 2014, respectively, and \$15 million and \$18 million for the nine-month periods ended September 30, 2015 and 2014, respectively.

For matters where a loss is not probable, the Corporation has not established legal reserves. The Corporation believes the estimate of the aggregate range of reasonably possible losses, in excess of reserves established, for all legal proceedings in which it is involved is from zero to approximately \$32 million at September 30, 2015. This estimated aggregate range of reasonably possible losses is based upon currently available information for those proceedings in which the Corporation is involved, taking into account the Corporation's best estimate of such losses for those cases for which such estimate can be made. For certain cases, the Corporation does not believe that an estimate can currently be made. The Corporation's estimate involves significant judgment, given the varying stages of the proceedings (including the fact that many are currently in preliminary stages), the existence in certain proceedings of multiple defendants (including the Corporation) whose share of liability has yet to be determined, the numerous yet-unresolved issues in many of the proceedings (including issues regarding class certification and the scope of many of the claims) and the attendant uncertainty of the various potential outcomes of such proceedings. Accordingly, the Corporation's estimate will change from time to time, and actual losses may be more or less than the current estimate. In the event of unexpected future developments, it is possible that the ultimate resolution of these matters, if unfavorable, may be material to the Corporation's consolidated financial condition, consolidated results of operations or consolidated cash flows.

For information regarding income tax contingencies, refer to Note 11.

NOTE 13 - BUSINESS SEGMENT INFORMATION

The Corporation has strategically aligned its operations into three major business segments: the Business Bank, the Retail Bank and Wealth Management. These business segments are differentiated based on the type of customer and the related products and services provided. In addition to the three major business segments, the Finance Division is also reported as a segment. Business segment results are produced by the Corporation's internal management accounting system. This system measures financial results based on the internal business unit structure of the Corporation. The performance of the business segments is not comparable with the Corporation's consolidated results and is not necessarily comparable with similar information for any other financial institution. Additionally, because of the interrelationships of the various segments, the information presented is not indicative of how the segments would perform if they operated as independent entities. The management accounting system assigns balance sheet and income statement items to each business segment using certain methodologies, which are regularly reviewed and refined. These methodologies may be modified as the management accounting system is enhanced and changes occur in the organizational structure and/or product lines. For comparability purposes, amounts in all periods are based on business segments and methodologies in effect at September 30, 2015.

In the second quarter 2014, the Corporation enhanced the approach used to determine the standard reserve factors used in estimating the allowance for credit losses, which had the effect of capturing certain elements in the standard reserve component that had formerly been included in the qualitative assessment. The impact of the change was largely neutral to the total allowance for loan losses at June 30, 2014. However, because standard reserves are allocated to the segments at the loan level, while qualitative reserves are allocated at the portfolio level, the impact of the methodology change on the allowance of each segment reflected the characteristics of the individual loans within each segment's portfolio, causing segment reserves to increase or decrease accordingly. As a result, the current year provision for credit losses within each segment is not comparable to prior period amounts.

The following discussion provides information about the activities of each business segment. A discussion of the financial results and the factors impacting performance can be found in the section entitled "Business Segments" in the financial review.

The Business Bank meets the needs of middle market businesses, multinational corporations and governmental entities by offering various products and services, including commercial loans and lines of credit, deposits, cash management, capital market products, international trade finance, letters of credit, foreign exchange management services and loan syndication services.

The Retail Bank includes small business banking and personal financial services, consisting of consumer lending, consumer deposit gathering and mortgage loan origination. In addition to a full range of financial services provided to small business customers, this business segment offers a variety of consumer products, including deposit accounts, installment loans, credit cards, student loans, home equity lines of credit and residential mortgage loans.

Wealth Management offers products and services consisting of fiduciary services, private banking, retirement services, investment management and advisory services, investment banking and brokerage services. This business segment also offers the sale of annuity products, as well as life, disability and long-term care insurance products.

Table of Contents

Notes to Consolidated Financial Statements (unaudited)

Comerica Incorporated and Subsidiaries

The Finance segment includes the Corporation's securities portfolio and asset and liability management activities. This segment is responsible for managing the Corporation's funding, liquidity and capital needs, performing interest sensitivity analysis and executing various strategies to manage the Corporation's exposure to liquidity, interest rate risk and foreign exchange risk.

The Other category includes discontinued operations, the income and expense impact of equity and cash, tax benefits not assigned to specific business segments, charges of an unusual or infrequent nature that are not reflective of the normal operations of the business segments and miscellaneous other expenses of a corporate nature.

For further information on the methodologies which form the basis for these results refer to Note 22 to the consolidated financial statements in the Corporation's 2014 Annual Report.

Business segment financial results are as follows:

| (dollar amounts in millions) | Business | Retail | Wealth | Finance | Other | Total | |

The Corporation operates in three primary markets - Texas, California, and Michigan, as well as in Arizona and Florida, with select businesses operating in several other states, and in Canada and Mexico. The Corporation produces market segment results for the Corporation's three primary geographic markets as well as Other Markets. Other Markets includes Florida, Arizona, the International Finance division and businesses with a national perspective. The Finance & Other category includes the Finance segment and the Other category as previously described. Market segment results are provided as supplemental information to the business segment results and may not meet all operating segment criteria as set forth in GAAP. For comparability purposes, amounts in all periods are based on market segments and methodologies in effect at September 30, 2015.

A discussion of the financial results and the factors impacting performance can be found in the section entitled "Market Segments" in the financial review.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. In addition, the Corporation may make other written and oral communications from time to time that contain such statements. All statements regarding the Corporation's expected financial position, strategies and growth prospects and general economic conditions expected to exist in the future are forward-looking statements. The words, "anticipates," "believes," "contemplates," "feels," "expects," "estimates," "seeks," "strives," "plans," "intends," "outlook," "forecast," "position," "target," "mission," "assume," "achievable," "potential," "strategy," "goal," "aspiration," "opportunity," "initiative," "outcome," "continue," "remain," "maintain," "on course," "trend," "objective," "looks forward," "projects," "models," and variations of such words and similar expressions, or future or conditional verbs such as "will," "would," "should," "could," "might," "can," "may" or similar expressions, as they relate to the Corporation or its management, are intended to identify forward-looking statements. These forward-looking statements are predicated on the beliefs and assumptions of the Corporation's management based on information known to the Corporation's management as of the date of this report and do not purport to speak as of any other date. Forward-looking statements may include descriptions of plans and objectives of the Corporation's management for future or past operations, products or services, and forecasts of the Corporation's revenue, earnings or other measures of economic performance, including statements of profitability, business segments and subsidiaries, estimates of credit trends and global stability. Such statements reflect the view of the Corporation's management as of this date with respect to future events and are subject to risks and uncertainties. Should one or more of these risks materialize or should underlying beliefs or assumptions prove incorrect, the Corporation's actual results could differ materially from those discussed. Factors that could cause or contribute to such differences are changes in general economic, political or industry conditions; changes in monetary and fiscal policies, including changes in interest rates; changes in regulation or oversight; the Corporation's ability to maintain adequate sources of funding and liquidity; the effects of more stringent capital or liquidity requirements; declines or other changes in the businesses or industries of the Corporation's customers, including the energy industry; operational difficulties, failure of technology infrastructure or information security incidents; reliance on other companies to provide certain key components of business infrastructure; factors impacting noninterest expenses which are beyond the Corporation's control; changes in the financial markets, including fluctuations in interest rates and their impact on deposit pricing; changes in the Corporation's credit rating; unfavorable developments concerning credit quality; the interdependence of financial service companies; the implementation of the Corporation's strategies and business initiatives; the Corporation's ability to utilize technology to efficiently and effectively develop, market and deliver new products and services; competitive product and pricing pressures among financial institutions within the Corporation's markets; changes in customer behavior; any future strategic acquisitions or divestitures; management's ability to maintain and expand customer relationships; management's ability to retain key officers and employees; the impact of legal and regulatory proceedings or determinations; the effectiveness of methods of reducing risk exposures; the effects of terrorist activities and other hostilities; the effects of catastrophic events including, but not limited to, hurricanes, tornadoes, earthquakes, fires, droughts and floods; changes in accounting standards and the critical nature of the Corporation's accounting policies. The Corporation cautions that the foregoing list of factors is not exclusive. For discussion of factors that may cause actual results to differ from expectations, please refer to our filings with the Securities and Exchange Commission. In particular, please refer to "Item 1A. Risk Factors" beginning on page 12 of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2014. Forward-looking statements speak only as of the date they are made. The Corporation does not undertake to update forward-looking statements to reflect facts, circumstances, assumptions or events that occur after the date the forward-looking statements are made. For any forward-looking statements made in this report or in any documents, the Corporation claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

Table of Contents

RESULTS OF OPERATIONS

Net income for the three months ended September 30, 2015 was \$136 million, a decrease of \$18 million from \$154 million reported for the three months ended September 30, 2014. The decrease in net income primarily reflected increases in the provision for credit losses and noninterest expenses, partially offset by an increase in net interest income. Net income per diluted common share was \$0.74 and \$0.82 for the three months ended September 30, 2015 and 2014, respectively, and average diluted common shares were 181 million and 185 million for each respective period.

Net income for the nine months ended September 30, 2015 was \$405 million, a decrease of \$39 million from \$444 million reported for the nine months ended September 30, 2014. The decrease in net income was largely due to the same reasons as described in the quarterly discussion above, partially offset by a benefit from the net release of litigation reserves. Net income per diluted common share was \$2.20 and \$2.35 for the nine months ended September 30, 2015 and 2014, respectively. Average diluted common shares were 182 million and 186 million for the nine months ended September 30, 2015 and 2014, respectively.

Full-Year and Fourth Quarter 2015 Outlook

Management expectations for full-year 2015 compared to full-year 2014 have not changed from the previously provided outlook:

• Average full-year loan growth consistent with 2014.

• Net interest income relatively stable, assuming no rise in interest rates.

• Provision for credit losses higher.

• Noninterest income relatively stable, excluding the impact of a change in accounting presentation for a card program.

• Noninterest expenses higher, excluding the impact of a change in accounting presentation for a card program, with continued focus on driving efficiencies for the long term. Technology and regulatory expenses are expected to increase approximately \$40 million in total compared to 2014.

• Income tax expense to approximate 32 percent of pre-tax income.

For fourth quarter 2015 compared to third quarter 2015, management expects the following, assuming a continuation of the current economic and low-rate environment:

• Average loans relatively stable, reflecting a seasonal decline in Mortgage Banker Finance, a continued decline in Energy and small increases in other lines of business.

• Net interest income relatively stable, with a contribution from earning asset growth approximately offset by continued pressure on yields from the low rate environment.

• Provision for credit losses remains low, with fourth quarter provision at a level similar to the third quarter. Continued negative migration of loans related to energy is possible, which may be offset by lower exposure balances.

• Noninterest income slightly higher, with growth in card fees, along with fiduciary income and investment banking fees should markets improve. The levels of warrant income, hedge ineffectiveness income and deferred compensation asset losses experienced in the third quarter 2015 are not expected to repeat, but are difficult to predict.

• Noninterest expenses moderately higher, reflecting seasonal increases in benefits expense, outside processing, marketing and occupancy expenses. The levels of litigation-related expense, share-based compensation and deferred compensation plan expense experienced in the third quarter 2015 are not expected to repeat, but are difficult to predict.

For information about the change in accounting presentation for a card program, refer to Note 1 to the unaudited consolidated financial statements and the "Noninterest Income" subheading later in this section of the financial review.

| Medium- and long-term debt | 1 | 3 | 4 |
| Total interest expense | — | 4 | 4 |
| Net interest income (FTE) | \$(6) | \$ 14 | \$ 8 |

(a) Rate/volume variances are allocated to variances due to volume.

(b) Includes investment securities available-for-sale and investment securities held-to-maturity.

Net interest income was \$422 million for the three months ended September 30, 2015, an increase of \$8 million compared to \$414 million for the three months ended September 30, 2014. The increase in net interest income resulted primarily from the benefit provided by an increase in average earning assets, partially offset by the impact of lower yields on loans and investment securities as well as higher funding costs. Average earning assets increased \$4.5 billion, or 7 percent, to \$66.2 billion, compared to \$61.7 billion for the same period in 2014. The increase in average earning assets primarily reflected increases of \$1.9 billion in average interest-bearing deposits with banks, \$1.8 billion in average loans and \$844 million in average investment securities. The net interest margin (FTE) for the three months ended September 30, 2015 decreased 13 basis points to 2.54 percent, from 2.67 percent for the comparable period in 2014, primarily from increased balances deposited with the Federal Reserve Bank (FRB), lower yields on loans and investment securities, and an increase in average medium- and long-term debt. The decrease in loan yields primarily reflected shifts in the average loan portfolio mix and the impact of a competitive low-rate environment, partially offset by a benefit from the increase in 30-day LIBOR. Accretion of the purchase discount on the acquired loan portfolio increased the net interest margin by 1 basis point for the three months ended September 30, 2015, compared to 2 basis points for the same period in 2014. Average balances deposited with the FRB were \$6.7 billion and \$4.9 billion in the three months ended September 30, 2015 and 2014, respectively, and are included in "interest bearing deposits with banks" on the consolidated balance sheets.

| Net interest income (FTE) | \$(51) | \$67 | \$16 |

(a) Rate/volume variances are allocated to variances due to volume.

(b) Includes investment securities available-for-sale and investment securities held-to-maturity.

Net interest income was \$1.3 billion for the nine months ended September 30, 2015, an increase of \$16 million compared to \$1.2 billion for the nine months ended September 30, 2014. The increase in net interest income resulted primarily from the benefit provided by an increase in average earning assets, partially offset by the impact of lower yields on loans and investment securities. Average earning assets increased \$4.0 billion, or 7 percent, to \$64.6 billion for the nine months ended September 30, 2015, compared to \$60.6 billion for the same period in 2014. The increase in average earning assets primarily reflected increases of \$2.3 billion in average loans, \$971 million in average interest-bearing deposits with banks and \$681 million in average investment securities. The net interest margin (FTE) for the nine months ended September 30, 2015 decreased 13 basis points to 2.61 percent, from 2.74 percent for the comparable period in 2014, lower loan yields and increased balances deposited with the Federal Reserve Bank (FRB). The decrease in loan yields primarily reflected a decrease in accretion on the acquired loan portfolio, shifts in the average loan portfolio mix and the impact of a competitive low-rate environment, partially offset by a benefit from the increase in 30-day LIBOR. Accretion of the purchase discount on the acquired loan portfolio increased the net interest margin by 1 basis point for the nine months ended September 30, 2015, compared to 6 basis points for the same period in 2014. Average balances deposited with the Federal Reserve Bank (FRB) were \$5.6 billion and \$4.7 billion in the nine months ended September 30, 2015 and 2014, respectively, and are included in "interest bearing deposits with banks" on the consolidated balance sheets.

For further discussion of the effects of market rates on net interest income, refer to the "Market and Liquidity Risk" section of this financial review.

Provision for Credit Losses

The provision for credit losses was \$26 million and \$5 million for the three-month periods ended September 30, 2015 and 2014, respectively, and \$87 million and \$25 million for the nine-month periods ended September 30, 2015 and 2014, respectively. The provision for credit losses includes both the provision for loan losses and the provision for credit losses on lending-related commitments.

The provision for loan losses is recorded to maintain the allowance for loan losses at the level deemed appropriate by the Corporation to cover probable credit losses inherent in the portfolio. The provision for loan losses was \$28 million for the three months ended September 30, 2015, compared to \$4 million for the three months ended September 30, 2014. The increase in the provision primarily reflected increased reserves for Technology and Life Sciences as well as energy and energy-related loans. In addition, Corporate Banking and, to a lesser extent, Commercial Real Estate contributed to the increase in the provision. These increases were partially offset by improvements in credit quality in the remainder of the portfolio. The provision for loan losses was \$79 million for the nine months ended September 30, 2015, an increase of \$61 million compared to \$18 million for the same period in the prior year, primarily reflecting

increased reserves for energy and energy-related loans, Corporate Banking and Technology and Life Sciences. Net loan charge-offs in the three months ended September 30, 2015 increased \$20 million to \$23 million, or 0.19 percent of average total loans, compared to \$3 million, or 0.03 percent, for the three months ended September 30, 2014. The increase in net loan charge-offs in the three months ended September 30, 2015, compared to the same period in 2014, primarily reflected increases in general Middle Market (largely due to an increase in charge-offs on energy-related loans), Technology and Life Sciences and Commercial Real Estate partially offset by a decrease in Private Banking.

Table of Contents

Net loan charge-offs in the nine months ended September 30, 2015 increased \$25 million to \$49 million, or 0.14 percent of average total loans, compared to \$24 million, or 0.07 percent, for the nine months ended September 30, 2014. The increase in net loan charge-offs in the nine months ended September 30, 2015, compared to the same period in 2014, primarily reflected increases in general Middle Market and Corporate Banking, partially offset by decreases in Private Banking and Commercial Real Estate.

The provision for credit losses on lending-related commitments is recorded to maintain the allowance for credit losses on lending-related commitments at the level deemed appropriate by the Corporation to cover probable credit losses inherent in lending-related commitments. The provision for credit losses on lending-related commitments was a benefit of \$2 million in the three months ended September 30, 2015, compared to a provision of \$1 million in the three months ended September 30, 2014, and a provision of \$8 million for the nine months ended September 30, 2015 compared to \$7 million for the same period in 2014. The \$3 million decrease in the provision for credit losses on lending-related commitments in the three months ended September 30, 2015 compared to the same period in 2014 primarily reflected a decrease in reserves for letters of credit. Lending-related commitment charge-offs were \$1 million for the nine months ended September 30, 2015 and insignificant for the three months ended September 30, 2015 and the three- and nine-month periods ended September 30, 2014.

An analysis of the allowance for credit losses and nonperforming assets is presented under the "Credit Risk" subheading in the "Risk Management" section of this financial review.

Noninterest Income

| (in millions) | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--|----------------------------------|-------|---------------------------------|-------|
| | 2015 | 2014 | 2015 | 2014 |
| Service charges on deposit accounts | \$56 | \$54 | \$167 | \$162 |
| Fiduciary income | 47 | 44 | 142 | 133 |
| Commercial lending fees | 22 | 26 | 69 | 69 |
| Card fees | 75 | 23 | 214 | 68 |
| Card fees excluding presentation change (a) | 27 | 23 | 78 | 68 |
| Letter of credit fees | 13 | 14 | 39 | 43 |
| Bank-owned life insurance | 10 | 11 | 29 | 31 |
| Foreign exchange income | 10 | 9 | 29 | 30 |
| Brokerage fees | 5 | 4 | 13 | 13 |
| Net securities losses | — | (1) | (2) | — |
| Other noninterest income (b) | 26 | 31 | 80 | 94 |
| Total noninterest income | \$264 | \$215 | \$780 | \$643 |
| Total noninterest income excluding presentation change (a) | \$216 | \$215 | \$644 | \$643 |

Effective January 1, 2015, contractual changes to a card program resulted in a change to the accounting presentation of the related revenues and expenses. The effect of this change was increases of \$48 million and \$136 (a) million to card fees in the three- and nine-month periods ended September 30, 2015, respectively. The Corporation believes that this information will assist investors, regulators, management and others in comparing results to prior periods.

(b) The table below provides further details on certain categories included in other noninterest income.

Excluding the \$48 million impact of the change in accounting presentation on card fees as described in footnote (a) to the above table, noninterest income was stable for the three months ended September 30, 2015, compared to the same period in 2014, with the largest fluctuations including a \$4 million increase in card fees, a \$4 million decrease in commercial lending fees and a \$5 million decrease in other noninterest income. The increase in card fees was primarily driven by a change to the Corporation's strategy for providing merchant payment processing services. The Corporation concluded its participation in a joint venture that provided merchant payment processing services in the second quarter 2015. Income from the exited joint venture, recorded in other noninterest income using the equity method, decreased \$4 million. The Corporation now directly enters into agreements with its merchants and uses a

third party to process the transactions. Pursuant to the agreements with the merchants and the arrangement with the third-party vendor, merchant payment processing income is recognized in card fees, and related processing expense is recognized in outside processing fees in noninterest expenses. For further discussion about the impact of using a third party to process merchant transactions on outside processing fees, refer to the "Noninterest Expenses" subheading below. For further detail on the changes within other noninterest income, refer to the table below.

Excluding the \$136 million impact of the above-described accounting presentation change, noninterest income increased \$1 million for the nine months ended September 30, 2015, compared to the same period in 2014, with the largest fluctuations including increases of \$10 million in card fees, \$9 million in fiduciary income, \$5 million in service charges on deposit accounts, and a decrease of \$14 million in other noninterest income. The increase in card fees was largely for the same reasons as described in the quarterly discussion above, and the related income from the exited joint venture decreased \$7 million. Refer to the table below for further detail on the changes within other noninterest income.

Table of Contents

The following table illustrates certain categories included in "other noninterest income" on the consolidated statements of comprehensive income.

| (in millions) | Three Months Ended September | | Nine Months Ended September | |
|--|------------------------------|------|-----------------------------|------|
| | 30, 2015 | 2014 | 30, 2015 | 2014 |
| Investment banking fees | \$2 | \$4 | \$11 | \$14 |
| Customer derivative income | 5 | 4 | 13 | 12 |
| Insurance commissions | 2 | 2 | 7 | 9 |
| Securities trading income | 1 | 3 | 6 | 7 |
| Deferred compensation asset returns (a) | (4 |) 3 | (2 |) 6 |
| Income from principal investing and warrants | 5 | 3 | 6 | 9 |
| Income from unconsolidated subsidiaries | — | 2 | 3 | 6 |
| Risk management hedge income | 3 | — | 2 | — |
| All other noninterest income | 12 | 10 | 34 | 31 |
| Other noninterest income | \$26 | \$31 | \$80 | \$94 |

Compensation deferred by the Corporation's officers is invested based on investment selections of the officers.

(a) Income earned on these assets is reported in noninterest income and the offsetting increase in liability is reported in salaries and benefits expense.

The increases in all other noninterest income in the above table included \$3 million and \$7 million of revenue increases from a retirement savings program for the three and nine months ended September 30, 2015, respectively, which were largely offset by corresponding increases in outside processing fees in noninterest expenses.

Noninterest Expenses

| (in millions) | Three Months Ended September | | Nine Months Ended September | | |
|--|------------------------------|-------|-----------------------------|---------|---|
| | 30, 2015 | 2014 | 30, 2015 | 2014 | |
| Salaries and benefits expense | \$243 | \$248 | \$747 | \$735 | |
| Net occupancy expense | 41 | 46 | 118 | 125 | |
| Equipment expense | 14 | 14 | 40 | 43 | |
| Outside processing fee expense | 86 | 31 | 249 | 89 | |
| Outside processing fee expense excluding presentation change (a) | 38 | 31 | 113 | 89 | |
| Software expense | 26 | 25 | 73 | 72 | |
| Litigation-related expense | (3 |) (2 |) (32 |) 4 | |
| FDIC insurance expense | 9 | 9 | 27 | 25 | |
| Advertising expense | 6 | 5 | 17 | 16 | |
| Gain on debt redemption | — | (32 |) — | (32 |) |
| Other noninterest expenses | 39 | 53 | 117 | 130 | |
| Total noninterest expenses | \$461 | \$397 | \$1,356 | \$1,207 | |
| Total noninterest expenses excluding presentation change (a) | \$413 | \$397 | \$1,220 | \$1,207 | |

Effective January 1, 2015, contractual changes to a card program resulted in a change to the accounting

presentation of the related revenues and expenses. The effect of this change was increases of \$48 million and \$136

(a) million to outside processing fee expense in the three- and nine-month periods ended September 30, 2015,

respectively. The Corporation believes that this information will assist investors, regulators, management and others in comparing results to prior periods.

Excluding the \$48 million impact of the change in accounting presentation on outside processing fees as described in footnote (a) to the above table, noninterest expenses increased \$16 million in the three months ended September 30, 2015, compared to the same period in the prior year, largely reflecting higher outside processing expenses and the impact of a net benefit of \$8 million in the third quarter 2014 from certain cost-saving actions. Outside processing fee

expense increased \$7 million, largely due to third-party processing expenses associated with merchant payment processing services, as discussed under the "Noninterest Income" subheading above, including up-front costs incurred for converting customers to the new vendor providing the services, as well as the increase associated with a retirement savings program and smaller increases in other outside processing expenses related to revenue-generating activities. Salaries expense decreased \$5 million, primarily reflecting a decrease in severance-related expenses, as an increase in technology-related contract labor expenses and the impact of merit increases were largely offset by a decrease in deferred compensation plan expense and lower share-based compensation expense as a result of forfeitures. Third quarter 2014 cost-saving actions primarily included a \$9 million contribution to the Comerica Charitable Foundation (in other noninterest expenses), a \$32 million gain on the early redemption of debt, \$6 million of severance-related expenses (in salaries and benefits expense) and \$5 million of lease termination charges associated with real estate optimization (in net occupancy expense).

Table of Contents

Excluding the \$136 million impact of the above-described accounting presentation change, noninterest expenses increased \$13 million in the nine months ended September 30, 2015, compared to the same period in the prior year, primarily for the same reasons as describe above as well as an increase in salaries and benefits expenses, mostly offset by a \$36 million benefit from the net release of litigation reserves. Outside processing fee expense increased \$24 million, largely for the same reasons as described in the quarterly discussion above. The increase in salaries and benefits expense primarily reflected an increase in technology-related contract labor expenses and the impact of merit increases, partially offset by a decrease in deferred compensation plan expense and a decrease in severance-related expenses.

STRATEGIC LINES OF BUSINESS

The Corporation's management accounting system assigns balance sheet and income statement items to each segment using certain methodologies, which are regularly reviewed and refined. These methodologies may be modified as the management accounting system is enhanced and changes occur in the organizational structure and/or product lines. Note 22 to the consolidated financial statements in the Corporation's 2014 Annual Report describes the Corporation's segment reporting methodology.

In the second quarter 2014, the Corporation enhanced the approach used to determine the standard reserve factors used in estimating the allowance for credit losses, which had the effect of capturing certain elements in the standard reserve component that had formerly been included in the qualitative assessment. The impact of the change was largely neutral to the total allowance for loan losses at June 30, 2014. However, because standard reserves are allocated to the segments at the loan level, while qualitative reserves are allocated at the portfolio level, the impact of the methodology change on the allowance of each segment reflected the characteristics of the individual loans within each segment's portfolio, causing segment reserves to increase or decrease accordingly. As a result, the current year provision for credit losses within each segment is not comparable to prior year amounts.

Business Segments

The Corporation's operations are strategically aligned into three major business segments: the Business Bank, the Retail Bank and Wealth Management. These business segments are differentiated based upon the products and services provided. In addition to the three major business segments, Finance is also reported as a segment. The Other category includes items not directly associated with these business segments or the Finance segment. The performance of the business segments is not comparable with the Corporation's consolidated results and is not necessarily comparable with similar information for any other financial institution. Additionally, because of the interrelationships of the various segments, the information presented is not indicative of how the segments would perform if they operated as independent entities. Note 13 to the consolidated financial statements describes the business activities of each business segment and presents financial results of these business segments for the three- and nine-month periods ended September 30, 2015 and 2014.

The following table presents net income (loss) by business segment.

| (dollar amounts in millions) | Nine Months Ended September 30, | | | | | |
|------------------------------|---------------------------------|-----|------|-------|-----|---|
| | 2015 | | 2014 | | | |
| Business Bank | \$565 | 84 | % | \$606 | 86 | % |
| Retail Bank | 49 | 7 | | 33 | 5 | |
| Wealth Management | 63 | 9 | | 62 | 9 | |
| Finance | 677 | 100 | % | 701 | 100 | % |
| Other (a) | (273 |) | | (257 |) | |
| Total | \$405 | | | \$444 | | |

(a) Includes items not directly associated with the three major business segments or the Finance Division.

The Business Bank's net income of \$565 million for the nine months ended September 30, 2015 decreased \$41 million compared to the nine months ended September 30, 2014. Net interest income (FTE) of \$1.1 billion for the nine months ended September 30, 2015 increased \$3 million compared to the same period in the prior year, as the benefit from a \$2.0 billion increase in average loans and the funds transfer pricing (FTP) benefit provided by a \$2.9 billion increase in average deposits were offset by a decrease in accretion of the purchase discount on the acquired loan

portfolio, lower loan yields and a lower FTP crediting rate. The provision for credit losses increased \$67 million to \$115 million for the nine months ended September 30, 2015, compared to the same period in the prior year. The increase in the provision primarily reflected the impact of loan growth and increased reserves for loans related to energy, as a result of an increase in criticized loans and the impact of sustained lower energy prices. In addition, Corporate Banking and Technology and Life Sciences contributed to the increase in the provision. These increases were partially offset by improvements in credit quality in the remainder of the portfolio. Net loan charge-offs of \$54 million increased \$36 million in the nine months ended September 30, 2015, compared to the same period in the prior year, primarily reflecting increases in general Middle Market and Corporate Banking, partially offset by a decrease in Commercial Real Estate. Excluding the impact of the change in accounting presentation for a card program, noninterest income for the nine months ended September 30, 2015 increased \$3 million from the comparable period in the prior year, primarily reflecting an increase of \$6

Table of Contents

million in card fees, largely driven by the change to the Corporation's strategy for providing merchant payment processing services, as well as small increases in several other categories, partially offset by decreases \$4 million in letter of credit fees, \$3 million each in income from unconsolidated subsidiaries and investment banking fees, and small decreases in several other categories. Excluding the impact of the change in accounting presentation for a card program, noninterest expenses for the nine months ended September 30, 2015 increased \$2 million compared to the same period in the prior year. The increase included a \$14 million increase in outside processing expenses, largely due to the third-party processing expenses associated with merchant payment processing services described above; an \$11 million increase in corporate overhead; and a \$4 million increase in salaries and benefits expense, primarily reflecting the impact of merit increases; and small increases in several other noninterest expense categories; largely offset by a \$31 million decrease in litigation-related expense.

Net income for the Retail Bank of \$49 million for the nine months ended September 30, 2015 increased \$16 million, compared to \$33 million for the nine months ended September 30, 2014. Net interest income (FTE) of \$466 million increased \$12 million in the nine months ended September 30, 2015, primarily due to the benefit provided by a \$195 million increase in average loans, the FTP benefit provided by an \$892 million increase in average deposits, and lower deposit rates, partially offset by a lower FTP crediting rate and a decrease in accretion of the purchase discount on the acquired loan portfolio. The provision for credit losses was a benefit of \$14 million for the nine months ended September 30, 2015, an increase of \$9 million from the \$5 million benefit in the comparable period in the prior year, primarily reflecting improvements in credit quality. Net loan charge-offs were \$3 million for the nine months ended September 30, 2015 compared to \$6 million in the same period for the prior year. Noninterest income of \$137 million for the nine months ended September 30, 2015 increased \$13 million compared to the comparable period in the prior year, primarily due to a \$7 million increase in revenue related to a retirement savings program and small increases in several other fee categories. Noninterest expenses of \$542 million for the nine months ended September 30, 2015 increased \$9 million from the comparable period in the prior year; primarily due to an increase of \$9 million in outside processing expenses, mostly related to the retirement savings program and other revenue-generating activities; and an increase of \$3 million in salaries and benefits expense, primarily reflecting the impact of merit increases.

Wealth Management's net income of \$63 million for the nine months ended September 30, 2015 increased \$1 million, compared to \$62 million for the nine months ended September 30, 2014. Net interest income (FTE) of \$133 million for the nine months ended September 30, 2015 decreased \$2 million compared to the same period in the prior year, primarily reflecting a decrease in net FTP credits and lower loan yields, partially offset by the benefit from a \$147 million increase in average loans and the FTP benefit provided by a \$374 million increase in average deposits. The provision for credit losses was a benefit of \$12 million for the nine months ended September 30, 2015, compared to a benefit of \$11 million for the same period in the prior year. Net loan recoveries were \$8 million for the nine months ended September 30, 2015, compared to an insignificant amount for the comparable prior year period. Noninterest income of \$177 million decreased \$4 million, primarily reflecting a \$4 million decrease resulting from securities losses of \$2 million for the nine months ended September 30, 2015 compared to a \$2 million gain for the same period in 2014. An \$8 million increase in fiduciary income was offset by small decreases in several other categories of noninterest income. Noninterest expenses of \$225 million for the nine months ended September 30, 2015 decreased \$6 million from the comparable period in the prior year, primarily due to a \$3 million decrease in litigation-related expenses and small decreases in several other noninterest expense categories.

The net loss in the Finance segment was \$273 million for the nine months ended September 30, 2015, compared to a net loss of \$257 million for the nine months ended September 30, 2014. Net interest expense (FTE) of \$470 million for the nine months ended September 30, 2015 decreased \$15 million, compared to the nine months ended September 30, 2014, primarily reflecting a decrease in net FTP expense as a result of lower rates paid to the business segments under the Corporation's internal FTP methodology. Noninterest expenses increased \$31 million as a result of the third quarter 2014 gain of \$32 million on the early redemption of debt.

Table of Contents

Market Segments

Market segment results are provided for the Corporation's three largest geographic markets: Michigan, California and Texas. In addition to the three largest geographic markets, Other Markets is also reported as a market segment. The Finance & Other category includes the Finance segment and the Other category as previously described in the "Business Segments" section of this financial review. Note 13 to these consolidated financial statements presents a description of each of these market segments as well as the financial results for the three- and nine-month periods ended September 30, 2015 and 2014.

The following table presents net income (loss) by market segment.

| (dollar amounts in millions) | Nine Months Ended September 30, | | | | | |
|------------------------------|---------------------------------|-----|------|-------|-----|---|
| | 2015 | | 2014 | | | |
| Michigan | \$243 | 36 | % | \$209 | 30 | % |
| California | 207 | 30 | | 189 | 27 | |
| Texas | 82 | 12 | | 128 | 18 | |
| Other Markets | 145 | 22 | | 175 | 25 | |
| | 677 | 100 | % | 701 | 100 | % |
| Finance & Other (a) | (272 |) | | (257 |) | |
| Total | \$405 | | | \$444 | | |

(a) Includes items not directly associated with the market segments.

The Michigan market's net income of \$243 million for the nine months ended September 30, 2015 increased \$34 million, compared to \$209 million for the nine months ended September 30, 2014. Net interest income (FTE) of \$537 million for the nine months ended September 30, 2015 decreased \$7 million from the comparable period in the prior year, primarily due to lower loan yields, the impact of a \$155 million decrease in average loans and a lower FTP crediting rate, partially offset by the FTP benefit provided by a \$935 million increase in average deposits and lower deposit rates. The provision for credit losses was a benefit of \$15 million for the nine months ended September 30, 2015, compared to a benefit of \$13 million for the comparable period in the prior year. Net loan charge-offs were \$10 million for the nine months ended September 30, 2015, compared to \$13 million for the comparable period in the prior year, primarily reflecting decreases in Commercial Real Estate and Private Banking, partially offset by an increase in general Middle Market. Noninterest income of \$251 million for the nine months ended September 30, 2015 decreased \$5 million from the comparable period in the prior year, primarily reflecting decreases of \$3 million each in income from unconsolidated subsidiaries and letter of credit fees as well as small decreases in several noninterest income categories, partially offset by a \$6 million increase in card fees, primarily driven by the change to the Corporation's strategy for providing merchant payment processing services. Noninterest expenses of \$436 million for the nine months ended September 30, 2015 decreased \$50 million from the comparable period in the prior year, primarily reflecting a \$33 million decrease in litigation-related expense and small decreases in several other noninterest expense categories, partially offset by a \$6 million increase in outside processing expense, largely due to an increase in third-party processing expenses associated with merchant payment processing services.

The California market's net income of \$207 million increased \$18 million in the nine months ended September 30, 2015, compared to \$189 million for the nine months ended September 30, 2014. Net interest income (FTE) of \$543 million for the nine months ended September 30, 2015 increased \$12 million from the comparable period in the prior year, primarily due to the benefit provided by a \$1.2 billion increase in average loans and the FTP benefit provided by a \$2.0 billion increase in average deposits, partially offset by a lower FTP crediting rate and lower loan yields. The provision for credit losses was \$24 million for the nine months ended September 30, 2015, compared to \$39 million for the comparable period in the prior year. An increase in the provision related to increased reserves for Technology and Life Sciences was more than offset by improvements in credit quality in the remainder of the portfolio. Net loan charge-offs of \$16 million in the nine months ended September 30, 2015 decreased \$5 million compared to the nine months ended September 30, 2014. Noninterest income of \$112 million for the nine months ended September 30, 2015 increased \$2 million compared to the nine months ended September 30, 2014, primarily reflecting increases of \$3 million each in card fees and service charges on deposit accounts, partially offset by a \$4 million decrease in warrant income. Noninterest expenses of \$300 million for the nine months ended September 30, 2015 increased \$2

million from the comparable period in the prior year.

The Texas market's net income of \$82 million for the nine months ended September 30, 2015 decreased \$46 million from \$128 million for the nine months ended September 30, 2014. Net interest income (FTE) of \$390 million for the nine months ended September 30, 2015 decreased \$13 million from the comparable period in the prior year, primarily due to a decrease in accretion of the purchase discount on the acquired loan portfolio, lower loan yields and a decrease in net FTP credits due to a lower FTP crediting rate, partially offset by the benefit provided by a \$431 million increase in average loans. The provision for credit losses of \$74 million for the nine months ended September 30, 2015 increased \$42 million from the comparable period in the prior year, primarily reflecting increased reserves for loans related to energy and Technology and Life Sciences, partially offset by credit quality improvements in the remainder of the portfolio. Net loan charge-offs of \$12 million for nine-month periods ended September

Table of Contents

30, 2015 increased \$5 million compared to the nine months ended September 30, 2014, primarily reflecting an increase in general Middle Market. Noninterest income of \$101 million for the nine months ended September 30, 2015 decreased \$3 million compared to the comparable period in the prior year, primarily due to a \$3 million decrease in investment banking fees. Noninterest expenses of \$287 million for the nine months ended September 30, 2015 increased \$12 million compared to the nine months ended September 30, 2014, primarily reflecting a \$3 million increase in salaries and benefits expense and small increases in several other noninterest expense categories. Net income in Other Markets of \$145 million for the nine months ended September 30, 2015 decreased \$30 million from the nine months ended September 30, 2014. Net interest income (FTE) of \$252 million for the nine months ended September 30, 2015 increased \$21 million from the comparable period in the prior year, primarily due to the benefit provided by a \$838 million increase in average loans and the FTP benefit provided by a \$1.0 billion increase in average deposits, partially offset by the impact of a lower FTP crediting rate. The provision for credit losses of \$6 million increased \$32 million in the nine months ended September 30, 2015, compared to a benefit of \$26 million for the same period in the prior year, primarily reflecting increases in Corporate Banking and Commercial Real Estate. Net loan charge-offs were \$11 million for the nine months ended September 30, 2015, compared to net recoveries of \$17 million for the comparable period in the prior year, primarily reflecting increases in Corporate Banking, Commercial Real Estate, Technology and Life Sciences, and general Middle Market. Excluding the impact of the change in accounting presentation for a card program, noninterest income for the nine months ended September 30, 2015 increased \$18 million from the comparable period in the prior year, primarily reflecting a \$7 million increase in revenue related to a retirement savings program as well as increases of \$4 million in warrant income, \$3 million in fiduciary income and small increases in several other noninterest income categories, partially offset by a \$4 million decrease resulting from securities losses of \$2 million for the nine months ended September 30, 2015 compared to a \$2 million gain for the same period in 2014. Excluding the impact of the change in accounting presentation for a card program, noninterest expenses for the nine months ended September 30, 2015 increased \$41 million compared to the same period in the prior year, primarily due to an increase of \$13 million in outside processing expenses largely due to the third-party processing expenses associated with a retirement savings program and merchant payment processing services, a \$7 million increase in corporate overhead expense and small increases in several categories of noninterest expense.

The net loss for the Finance & Other category of \$272 million in the nine months ended September 30, 2015 increased \$15 million compared to the nine months ended September 30, 2014. For further information, refer to the Finance segment discussion under the "Business Segments" subheading above.

The following table lists the Corporation's banking centers by geographic market segment.

| | September 30, | |

Table of Contents

FINANCIAL CONDITION

Total assets were \$71.0 billion at September 30, 2015, an increase of \$1.8 billion from \$69.2 billion at December 31, 2014, primarily reflecting increases of \$1.1 billion in interest-bearing deposits with banks, \$561 million in investment securities and \$349 million in total loans. On an average basis, total assets increased \$2.0 billion to \$71.3 billion in the third quarter 2015, compared to \$69.3 billion in the fourth quarter 2014, resulting primarily from increases of \$1.6 billion in average loans and \$867 million in average investment securities, partially offset by a decrease of \$753 million in average interest-bearing deposits with banks.

The following tables provide information about the change in the Corporation's average loan portfolio in the third quarter 2015, compared to the fourth quarter 2014.

| (dollar amounts in millions) | Three Months Ended | | Change | Percent Change | |
|--|--------------------|-------------------|---------|----------------|---|
| | September 30, 2015 | December 31, 2014 | | | |
| Average Loans: | | | | | |

| Consumer loans | 2,477 | 2,347 | 130 | 6 | |
| Total loans | \$48,972 | \$47,361 | \$1,611 | 3 | % |
| Average Loans By Geographic Market: | | | | | |
| Michigan | \$13,223 | \$13,142 | \$81 | 1 | % |
| California | 16,789 | 15,777 | 1,012 | 6 | |
| Texas | 10,997 | 11,327 | (330) | (3) |) |
| Other Markets | 7,963 | 7,115 | 848 | 12 | |
| Total loans | \$48,972 | \$47,361 | \$1,611 | 3 | % |

In general, Middle Market serves customers with annual revenue between \$20 million and \$500 million, while Corporate serves customers with revenue over \$500 million. Changes in average total loans by geographic market are provided in the table above.

Investment securities increased \$561 million to \$10.6 billion at September 30, 2015, from \$10.1 billion at December 31, 2014, primarily reflecting the purchase of approximately \$390 million of U.S. Treasury securities and \$154 million of additional residential mortgage-backed securities in the second and third quarters of 2015. These actions were taken primarily to continue to position the Corporation for compliance with Liquidity Coverage Ratio (LCR) rules, as further discussed under the "Wholesale Funding" subheading in the "Risk Management" section of

this financial review. Net unrealized gains on investment securities available-for-sale increased \$46 million to a net unrealized gain of \$127 million at September 30, 2015, compared to \$81 million at December 31, 2014. On an average basis, investment securities increased \$867 million in the third quarter 2015, compared to the fourth quarter 2014, primarily reflecting a \$780 million increase in average U.S. Treasury securities.

The Corporation has been purchasing U.S. Treasury securities and reinvesting paydowns on residential mortgage-backed securities (RMBS) issued by the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation

Table of Contents

(government-sponsored enterprises or GSEs) with RMBS issued by the Government National Mortgage Association (GNMA), as U.S. Treasury and GNMA securities receive more favorable treatment under LCR rules. The following table provides a summary of securities issued and/or guaranteed by the U.S. government, its agencies and GSEs.

| (dollar amounts in millions) | September 30, 2015 | December 31, 2014 |
|---|--------------------|-------------------|
| U.S. Treasury and other U.S. government agency securities | \$930 | \$526 |
| RMBS issued by GNMA | 3,355 | 2,111 |
| RMBS issued by GSEs | 6,067 | 7,098 |
| Total RMBS | 9,422 | 9,209 |
| Total | \$10,352 | \$9,735 |

Total liabilities increased \$1.6 billion to \$63.4 billion at September 30, 2015, compared to \$61.8 billion at December 31, 2014, primarily reflecting increases of \$1.3 billion in total deposits and \$425 million in medium- and long-term debt. On an average basis, total liabilities increased \$2.0 billion in the third quarter 2015, compared to the fourth quarter 2014, primarily due to an increase of \$1.4 billion in total deposits, comprising a \$1.1 billion increase in noninterest-bearing deposits and a \$261 million increase in interest-bearing deposits. The increase in average total deposits primarily reflected increases in Retail Banking (\$598 million), general Middle Market (\$557 million), Technology and Life Sciences (\$511 million) and Small Business Banking (\$207 million), partially offset by decreases in Commercial Real Estate (\$346 million) and Corporate Banking (\$330 million). By geographic market, average total deposits increased in Other Markets (\$685 million), Michigan (\$416 million) and California (\$343 million), partially offset by a decrease in Texas (\$72 million).

Capital

Total shareholders' equity increased \$220 million to \$7.6 billion at September 30, 2015, compared to December 31, 2014. The following table presents a summary of changes in total shareholders' equity in the nine months ended September 30, 2015.

| (in millions) | | |
|---|------|---------|
| Balance at January 1, 2015 | | \$7,402 |

| Share-based compensation | | 29 |
| Balance at September 30, 2015 | | \$7,622 |

The Corporation periodically conducts stress tests to evaluate potential impacts to the Corporation's forecasted financial condition under various economic scenarios and business conditions. These stress tests are a normal part of the Corporation's overall risk management and capital planning process and are part of the forecasting process used by the Corporation to conduct the enterprise-wide stress test that was part of the Federal Reserve's Comprehensive Capital Analysis and Review (CCAR). For additional information about risk management processes, refer to the "Risk Management" sections of this financial review and the Corporation's 2014 Annual Report.

Table of Contents

The Federal Reserve completed its 2015 CCAR review in March 2015 and did not object to the Corporation's capital plan and capital distributions contemplated in the plan. The plan provides for up to \$393 million in equity repurchases for the five-quarter period ending June 30, 2016. In the third quarter 2015, the Corporation's equity repurchases totaled \$59 million. Any material increase in the pace of equity repurchases will be linked to net income performance, which should improve with rising interest rates over time. The following table summarizes the Corporation's repurchase activity during the nine months ended September 30, 2015.

| (shares in thousands) | Total Number of Shares and Warrants Purchased as Part of Publicly Announced Repurchase Plans or Programs | Remaining Repurchase Authorization (a) | Total Number of Shares and Warrants Purchased (b) | Average Price Paid Per Share | Average Price Paid Per Warrant (c) |
|---------------------------|--|--|---|------------------------------|------------------------------------|
| Total first quarter 2015 | 1,354 | 12,728 | 1,517 | \$43.38 | \$— |
| Total second quarter 2015 | 1,513 | 19,608 | (d) 1,523 | 48.00 | 20.70 |
| July 2015 | 664 | 18,944 | 690 | 48.80 | — |
| August 2015 | 570 | 18,374 | 570 | 46.48 | — |
| September 2015 | — | 18,374 | — | — | — |
| Total third quarter 2015 | 1,234 | 18,374 | 1,260 | 47.75 | — |
| Total 2015 | 4,101 | 18,374 | 4,300 | \$46.07 | \$20.70 |

(a) Maximum number of shares and warrants that may yet be purchased under the publicly announced plans or programs.

Includes approximately 198,000 shares purchased pursuant to deferred compensation plans and shares purchased from employees to pay for taxes related to restricted stock vesting under the terms of an employee share-based compensation plan during the nine months ended September 30, 2015. These transactions are not considered part of the Corporation's repurchase program.

(b)

The Corporation repurchased 500,000 warrants under the repurchase program during the nine months ended September 30, 2015. Shares withheld in connection with the exercise of warrants are not included in the total number of shares or warrants purchased in the above table. Upon exercise of a warrant, the number of shares with a value equal to the aggregate exercise price is withheld from an exercising warrant holder as payment (known as a "net exercise provision"). During the nine months ended September 30, 2015, the Corporation withheld the equivalent of approximately 1,291,000 shares to cover an aggregate of \$65.7 million in exercise price and issued approximately 934,000 shares to the exercising warrant holders.

(c)

(d) Includes April 28, 2015 equity repurchase authorization for up to an additional 10.6 million shares and share-equivalents.

On April 28, 2015, the Board of Directors of the Corporation (the Board) approved a 1-cent increase in the quarterly dividend to \$0.21 per share. The Board also authorized the repurchase of up to an additional 10.0 million shares of Comerica Incorporated outstanding common stock, in addition to the 2.1 million shares remaining at March 31, 2015 under the Board's prior authorizations for the share repurchase program initially approved in November 2010. Including the April 28, 2015 authorization, a total of 40.3 million shares has been authorized for repurchase under the share repurchase program since its inception in 2010. On April 28, 2015, the Board also authorized the repurchase of up to an additional 2.6 million warrants, in addition to the 10.6 million warrants remaining at March 31, 2015 under an authorization initially approved in November 2010. There is no expiration date for the Corporation's equity repurchase program.

In July 2013, U.S. banking regulators issued a final rule for the U.S. adoption of the Basel III regulatory capital framework (Basel III). Basel III includes a more stringent definition of capital and introduces a new common equity Tier 1 (CET1) capital requirement; sets forth two comprehensive methodologies for calculating risk-weighted assets (RWA), a standardized approach and an advanced approach; introduces two new capital buffers, a conservation buffer and a countercyclical buffer (applicable to advanced approaches entities); establishes a new supplemental leverage ratio (applicable to advanced approaches entities); and sets out minimum capital ratios and overall capital adequacy standards. As a banking organization subject to the standardized approach, Basel III became effective for the

Corporation on January 1, 2015. Certain deductions and adjustments to regulatory capital phase in starting January 1, 2015 and will be fully implemented on January 1, 2018. The capital conservation buffer phases in beginning January 1, 2016 and will be fully implemented on January 1, 2019.

Under Basel III, CET1 capital predominantly includes common shareholders' equity, less certain deductions for goodwill, intangible assets and deferred tax assets that arise from net operating losses and tax credit carry-forwards. Additionally, the Corporation has elected to permanently exclude capital in accumulated other comprehensive income (AOCI) related to debt and equity securities classified as available-for-sale as well as for defined benefit postretirement plans from CET1, an option available to standardized approach entities under Basel III. Tier 1 capital incrementally includes noncumulative perpetual preferred stock. Tier 2 capital includes Tier 1 capital as well as subordinated debt qualifying as Tier 2 and qualifying allowance for credit losses. Certain deductions and adjustments to CET1 capital, Tier 1 capital and Tier 2 capital are subject to phase-in through December 31, 2017.

Comerica computes RWA using the standardized approach. Under the standardized approach, RWA is generally based on supervisory risk-weightings which vary by counterparty type and asset class. Under the Basel III standardized approach, capital is required for credit risk RWA, to cover the risk of unexpected losses due to failure of a customer or counterparty to meet its

Table of Contents

financial obligations in accordance with contractual terms; and if trading assets and liabilities exceed certain thresholds, capital is also required for market risk RWA, to cover the risk of losses due to adverse market movements or from position-specific factors.

The following table presents the minimum ratios required to be considered "adequately capitalized" as of September 30, 2015 and December 31, 2014.

| | September 30, 2015 Basel III Rules | | December 31, 2014 Basel I Rules | |
|--|---------------------------------------|-------|------------------------------------|---|
| Common equity tier 1 capital to risk-weighted assets | 4.5 | % (a) | n/a | |
| Tier 1 capital to risk-weighted assets | 6.0 | (a) | 4.0 | % |
| Total capital to risk-weighted assets | 8.0 | (a) | 8.0 | |
| Tier 1 capital to adjusted average assets (leverage ratio) | 4.0 | | 3.0 | |

In order to avoid restrictions on capital distributions and discretionary bonuses, the Corporation will also be (a) required to maintain a minimum capital conservation buffer, which phases in at 0.625% beginning on January 1, 2016 and ultimately increases to 2.5% on January 1, 2019.

n/a - not applicable.

The Corporation's capital ratios exceeded minimum regulatory requirements as follows:

| | September 30, 2015 (Basel III Rules) | | December 31, 2014 (Basel I Rules) | | |
|------------------------------|---|-------|--------------------------------------|-------|---|
| (dollar amounts in millions) | Capital/Assets | Ratio | Capital/Assets | Ratio | |
| Common equity tier 1 (a) | \$7,327 | 10.58 | % n/a | n/a | |
| Tier 1 common (b) | n/a | n/a | \$7,169 | 10.50 | % |
| Tier 1 risk-based (a) | 7,327 | 10.58 | 7,169 | 10.50 | |
| Total risk-based (a) | 8,938 | 12.91 | 8,543 | 12.51 | |
| Leverage (a) | 7,327 | 10.29 | 7,169 | 10.35 | |
| Tangible common equity (b) | 6,973 | 9.91 | 6,752 | 9.85 | |
| Risk-weighted assets (a) | 69,232 | | 68,273 | | |

(a) September 30, 2015 capital, risk-weighted assets and ratios are estimated.

(b) See Supplemental Financial Data section for reconciliations of non-GAAP financial measures.

RISK MANAGEMENT

The following updated information should be read in conjunction with the "Risk Management" section on pages F-21 through F-36 in the Corporation's 2014 Annual Report.

Credit Risk**Allowance for Credit Losses**

The allowance for credit losses includes both the allowance for loan losses and the allowance for credit losses on lending-related commitments. The allowance for loan losses represents management's assessment of probable, estimable losses inherent in the Corporation's loan portfolio. The allowance for credit losses on lending-related commitments, included in "accrued expenses and other liabilities" on the consolidated balance sheets, provides for probable losses inherent in lending-related commitments, including unused commitments to extend credit and standby letters of credit.

The economy continued to exhibit some mixed trends in the third quarter 2015. Job growth and employment figures continued to slowly improve, but uncertainty remained elevated. The Federal Reserve continues to set expectations for a near-term movement towards interest rate increases and monetary policy normalization. At the same time, lower energy prices have persisted and geopolitical tensions remain.

The allowance for loan losses was \$622 million at September 30, 2015, compared to \$594 million at December 31, 2014, an increase of \$28 million, or 5 percent. While the overall credit quality of the loan portfolio remained strong, reserves increased, primarily reflecting increases in reserves for energy and energy-related exposure as well as Technology and Life Sciences, partially offset by improved credit quality in the remainder of the portfolio. The increase in reserves for energy and energy-related exposure reflected an increase in criticized loans and the impact of

sustained lower energy prices, partially mitigated by collateral levels. Technology and Life Sciences reserves increased largely as a result of the levels and trends of charge-offs.

The allowance for credit losses on lending-related commitments includes specific allowances, based on individual evaluations of certain letters of credit in a manner consistent with business loans, and allowances based on the pool of the remaining letters of credit and all unused commitments to extend credit within each internal risk rating.

Table of Contents

The allowance for credit losses on lending-related commitments was \$48 million at September 30, 2015 compared to \$41 million at December 31, 2014. The \$7 million increase in the allowance for credit losses on lending-related commitments primarily reflected the impact of downgrades of energy and energy-related unfunded commitments and issued letters of credit.

For additional information regarding the allowance for credit losses, refer to page F-37 in the "Critical Accounting Policies" section and pages F-54 through F-55 in Note 1 to the consolidated financial statements of the Corporation's 2014 Annual Report.

Nonperforming Assets

Nonperforming assets include loans on nonaccrual status, troubled debt restructured loans (TDRs) which have been renegotiated to less than the original contractual rates (reduced-rate loans) and foreclosed property. TDRs include performing and nonperforming loans. Nonperforming TDRs are either on nonaccrual or reduced-rate status.

Nonperforming assets do not include purchased credit impaired (PCI) loans.

The following table presents a summary of nonperforming assets and past due loans.

| (dollar amounts in millions) | September 30, 2015 | December 31, 2014 | | |
|--|--------------------|-------------------|--|---|
| Nonaccrual loans: | | | | |
| Business loans: | | | | |
| Commercial | \$214 | \$109 | | |
| Real estate construction | 1 | 2 | | |
| Commercial mortgage | 66 | 95 | | |
| Lease financing | 8 | — | | |
| International | 8 | — | | |
| Total nonaccrual business loans | 297 | 206 | | |
| Retail loans: | | | | |
| Residential mortgage | 31 | 36 | | |
| Consumer: | | | | |
| Home equity | 28 | 30 | | |
| Other consumer | 1 | 1 | | |
| Total consumer | 29 | 31 | | |
| Total nonaccrual retail loans | 60 | 67 | | |
| Total nonaccrual loans | 357 | 273 | | |
| Reduced-rate loans | 12 | 17 | | |
| Total nonperforming loans | 369 | 290 | | |
| Foreclosed property | 12 | 10 | | |
| Total nonperforming assets | \$381 | \$300 | | |
| Nonperforming loans as a percentage of total loans | 0.75 | % 0.60 | | % |
| Nonperforming assets as a percentage of total loans and foreclosed property | 0.78 | 0.62 | | |
| Allowance for loan losses as a percentage of total nonperforming loans | 169 | 205 | | |
| Loans past due 90 days or more and still accruing | \$5 | \$5 | | |
| Loans past due 90 days or more and still accruing as a percentage of total loans | 0.01 | % 0.01 | | % |

Nonperforming assets increased \$81 million to \$381 million at September 30, 2015, from \$300 million at December 31, 2014. The increase in nonperforming assets primarily reflected an increase of \$99 million in nonaccrual energy and energy-related loans. Nonperforming assets as a percentage of total loans and foreclosed property was 0.78 percent at September 30, 2015, compared to 0.62 percent at December 31, 2014.

The following table presents a summary of TDRs at September 30, 2015 and December 31, 2014.

| (in millions) | September 30, 2015 | December 31, 2014 |
|---------------------|--------------------|-------------------|
| Nonperforming TDRs: | | |
| Nonaccrual TDRs | \$76 | \$58 |

| | | |
|--------------------------|-------|-------|
| Reduced-rate TDRs | 12 | 17 |
| Total nonperforming TDRs | 88 | 75 |
| Performing TDRs (a) | 118 | 43 |
| Total TDRs | \$206 | \$118 |

(a) TDRs that do not include a reduction in the original contractual interest rate which are performing in accordance with their modified terms.

Table of Contents

Performing TDRs primarily included \$75 million in Middle Market, \$22 million in Small Business Banking and \$20 million in Private Banking at September 30, 2015. The \$75 million increase in performing TDRs from December 31, 2014 to September 30, 2015 included \$54 million of energy and energy-related loans.

The following table presents a summary of changes in nonaccrual loans.

| (in millions) | Three Months Ended | | December 31, 2014 |
|---|-----------------------|---------------|----------------------|
| | September 30, 2015 | June 30, 2015 | |
| Balance at beginning of period | \$349 | \$266 | \$329 |
| Loans transferred to nonaccrual (a) | 69 | 145 | 41 |
| Nonaccrual business loan gross charge-offs (b) | (31) | (31) | (16) |
| Loans transferred to accrual status (a) | — | — | (18) |
| Nonaccrual business loans sold (c) | — | (1) | (24) |
| Payments/other (d) | (30) | (30) | (39) |
| Balance at end of period | \$357 | \$349 | \$273 |
| (a) Based on an analysis of nonaccrual loans with book balances greater than \$2 million. | | | |
| (b) Analysis of gross loan charge-offs: | | | |
| Nonaccrual business loans | \$31 | \$31 | \$16 |
| Retail loans | 3 | 4 | 4 |
| Total gross loan charge-offs | \$34 | \$35 | \$20 |
| (c) Analysis of loans sold: | | | |
| Nonaccrual business loans | \$— | \$1 | \$24 |
| Performing criticized loans | — | — | 5 |
| Total criticized loans sold | \$— | \$1 | \$29 |

(d) Includes net changes related to nonaccrual loans with balances less than \$2 million, payments on nonaccrual loans with book balances greater than \$2 million, transfers of nonaccrual loans to foreclosed property and retail loan gross charge-offs. Excludes business loan gross charge-offs and nonaccrual business loans sold.

There were seven borrowers with balances greater than \$2 million, totaling \$69 million, transferred to nonaccrual status in the third quarter 2015, a decrease of \$76 million when compared to \$145 million in the second quarter 2015.

The transfers to nonaccrual greater than \$2 million in the third quarter 2015 included \$25 million in energy and energy-related loans, compared to energy and energy-related transfers of \$100 million in the second quarter 2015.

The following table presents the composition of nonaccrual loans by balance and the related number of borrowers at September 30, 2015 and December 31, 2014.

| (dollar amounts in millions) | September 30, 2015 | | December 31, 2014 | |
|------------------------------|------------------------|---------|------------------------|---------|
| | Number of Borrowers | Balance | Number of Borrowers | Balance |
| Under \$2 million | 1,347 | \$126 | 1,492 | \$154 |
| \$2 million - \$5 million | 12 | 35 | 15 | 48 |
| \$5 million - \$10 million | 8 | 62 | 3 | 22 |
| \$10 million - \$25 million | 4 | 63 | 2 | 23 |
| Greater than \$25 million | 2 | 71 | 1 | 26 |
| Total | 1,373 | \$357 | 1,513 | \$273 |

Table of Contents

The following table presents a summary of nonaccrual loans at September 30, 2015 and loans transferred to nonaccrual and net loan charge-offs for the three months ended September 30, 2015, based primarily on North American Industry Classification System (NAICS) categories.

| (dollar amounts in millions) Industry Category | September 30, 2015 | | | Three Months Ended September 30, 2015 | | | | | |
|---|--------------------|-----|---|---------------------------------------|-----|---|-----------------------------------|------|---|
| | Nonaccrual Loans | | | Loans Transferred to Nonaccrual (a) | | | Net Loan Charge-Offs (Recoveries) | | |
| Mining, Quarrying and Oil & Gas Extraction (b) | \$98 | 27 | % | \$17 | 24 | % | \$9 | 39 | % |

| Total | \$357 | 100 | % | \$69 | 100 | % | \$23 | 100 | % |

(a) Based on an analysis of nonaccrual loans with book balances greater than \$2 million.

Included nonaccrual energy and energy-related loans of approximately \$96 million in Mining, Quarrying and Oil & Gas Extraction, \$4 million in Manufacturing, \$18 million in Contractors and \$8 million in Utilities at September 30, 2015.

(c) Consumer, excluding residential mortgage and certain personal purpose nonaccrual loans and net charge-offs, are included in the "Other" category.

Loans past due 90 days or more and still accruing interest generally represent loans that are well collateralized and in a continuing process of collection. Loans past due 90 days or more and still accruing interest remained unchanged at \$5 million at both September 30, 2015 and December 31, 2014. Loans past due 30-89 days decreased \$6 million to \$157 million at September 30, 2015, compared to \$163 million at December 31, 2014.

The following table presents a summary of total criticized loans. Criticized loans with balances of \$2 million or more on nonaccrual status or whose terms have been modified in a TDR are individually subjected to quarterly credit quality reviews, and the Corporation may establish specific allowances for such loans.

| (dollar amounts in millions) | September 30, 2015 | June 30, 2015 | December 31, 2014 |
|--------------------------------|--------------------|---------------|-------------------|
| Total criticized loans | \$2,898 | \$2,361 | \$1,893 |
| As a percentage of total loans | 6.0 | % 4.7 | % 3.9 |

The \$1.0 billion increase in criticized loans in the nine months ended September 30, 2015 included an increase of \$861 million of energy and energy-related loans. For further information about criticized energy and energy-related loans, refer to the "Energy Lending" subheading later in this section.

The following table presents a summary of changes in foreclosed property.

| (in millions) | Three Months Ended | | |
|--|--------------------|---------------|-------------------|
| | September 30, 2015 | June 30, 2015 | December 31, 2014 |

| Acquired in foreclosure | 5 | 2 | 3 |
| Foreclosed property sold (a) | (2 |) (2 |) (4 |
| Balance at end of period | \$12 | \$9 | \$10 |
| (a) Net gain on foreclosed property sold | \$1 | \$1 | \$1 |

Table of Contents

Commercial Real Estate Lending

The following table summarizes the Corporation's commercial real estate loan portfolio by loan category.

| (in millions) | September 30, 2015 | December 31, 2014 |
|--|--------------------|-------------------|
| Real estate construction loans: | | |
| Commercial Real Estate business line (a) | \$1,562 | \$1,606 |
| Other business lines (b) | 312 | 349 |
| Total real estate construction loans | \$1,874 | \$1,955 |
| Commercial mortgage loans: | | |
| Commercial Real Estate business line (a) | \$2,002 | \$1,790 |
| Other business lines (b) | 6,785 | 6,814 |
| Total commercial mortgage loans | \$8,787 | \$8,604 |

(a) Primarily loans to real estate developers.

(b) Primarily loans secured by owner-occupied real estate.

The Corporation limits risk inherent in its commercial real estate lending activities by limiting exposure to those borrowers directly involved in the commercial real estate markets and adhering to conservative policies on loan-to-value ratios for such loans. Commercial real estate loans, consisting of real estate construction and commercial mortgage loans, totaled \$10.7 billion at September 30, 2015, of which \$3.6 billion, or 33 percent, were to borrowers in the Commercial Real Estate business line, which includes loans to real estate developers. The remaining \$7.1 billion, or 67 percent, of commercial real estate loans in other business lines consisted primarily of owner-occupied commercial mortgages, which bear credit characteristics similar to non-commercial real estate business loans. In the Texas market, commercial real estate loans totaled \$2.6 billion at September 30, 2015, of which \$1.3 billion were to borrowers in the Commercial Real Estate business line. The remaining \$1.3 billion consisted primarily of owner-occupied commercial mortgages. Loans in the Commercial Real Estate business line secured by properties located in Texas totaled \$1.0 billion at September 30, 2015, none of which were on nonaccrual status at September 30, 2015, primarily including \$588 million for multifamily properties, \$102 million for retail properties and \$101 million for commercial properties.

The real estate construction loan portfolio primarily contains loans made to long-time customers with satisfactory completion experience. Credit quality in the real estate construction loan portfolio was strong, with \$1 million on nonaccrual status at September 30, 2015 compared to \$2 million at December 31, 2014, and real estate construction loan net recoveries of \$1 million and \$2 million in the nine months ended September 30, 2015 and 2014, respectively. Loans in the commercial mortgage portfolio generally mature within three to five years. Of the \$2.0 billion and \$1.8 billion of commercial mortgage loans in the Commercial Real Estate business line outstanding at September 30, 2015 and December 31, 2014, respectively, \$17 million and \$22 million were on nonaccrual status at September 30, 2015 and December 31, 2014, respectively. Commercial mortgage loan net recoveries in the Commercial Real Estate business line were \$3 million and \$2 million for the nine months ended September 30, 2015 and 2014, respectively. In other business lines, \$49 million and \$73 million of commercial mortgage loans were on nonaccrual status at September 30, 2015 and December 31, 2014, respectively. Commercial mortgage loan net recoveries in other business lines were \$3 million for the nine months ended September 30, 2015, compared to net charge-offs of \$10 million for the nine months ended September 30, 2014.

Residential Real Estate Lending

The following table summarizes the Corporation's residential mortgage and home equity loan portfolios by geographic market.

| (dollar amounts in millions) | September 30, 2015 | | | | December 31, 2014 | | | | |
|------------------------------|----------------------------|------------|-------------------|------------|----------------------------|------------|-------------------|------------|---|
| | Residential Mortgage Loans | % of Total | Home Equity Loans | % of Total | Residential Mortgage Loans | % of Total | Home Equity Loans | % of Total | |
| Geographic market: | | | | | | | | | |
| Michigan | \$393 | 21 | % \$794 | 47 | % \$417 | 23 | % \$795 | 48 | % |
| California | 864 | 46 | 604 | 35 | 831 | 46 | 564 | 34 | |

Edgar Filing: COMERICA INC /NEW/ - Form 10-Q

| | | | | | | | | | |
|---------------|---------|-----|-----------|-----|-----------|-----|-----------|-----|---|
| Texas | 341 | 18 | 261 | 15 | 337 | 18 | 247 | 15 | |
| Other Markets | 282 | 15 | 55 | 3 | 246 | 13 | 52 | 3 | |
| Total | \$1,880 | 100 | % \$1,714 | 100 | % \$1,831 | 100 | % \$1,658 | 100 | % |

Residential real estate loans consist of residential mortgages and home equity loans and lines of credit. Residential mortgages totaled \$1.9 billion at September 30, 2015, and were primarily larger, variable-rate mortgages originated and retained for certain private banking relationship customers. Of the \$1.9 billion of residential mortgage loans outstanding, \$31 million were on nonaccrual status at September 30, 2015. The home equity portfolio totaled \$1.7 billion at September 30, 2015, of which \$1.7 billion was outstanding under primarily variable-rate, interest-only home equity lines of credit and \$61 million were closed-end

Table of Contents

home equity loans. Of the \$1.7 billion of home equity loans outstanding, \$28 million were on nonaccrual status at September 30, 2015. A majority of the home equity portfolio was secured by junior liens at September 30, 2015. The residential real estate portfolio is principally located within the Corporation's primary geographic markets. Substantially all residential real estate loans past due 90 days or more are placed on nonaccrual status, and substantially all junior lien home equity loans that are current or less than 90 days past due are placed on nonaccrual status if full collection of the senior position is in doubt. At no later than 180 days past due, such loans are charged off to current appraised values less costs to sell.

Energy Lending

The Corporation has a portfolio of energy and energy-related loans that are included primarily in "commercial loans" in the consolidated balance sheets. The Corporation's energy lending team has over 30 years of experience, with a focus on larger middle market companies in the oil and gas business. Customers in the Corporation's Energy business line (approximately 200 relationships) are engaged in three segments of the oil and gas business: exploration and production (E&P), midstream and energy services. E&P generally includes such activities as searching for potential oil and gas fields, drilling exploratory wells and operating active wells. Commitments to E&P borrowers are subject to semi-annual borrowing base re-determinations based on a variety of factors including updated pricing (reflecting market and competitive conditions), energy reserve levels and the impact of hedging. Fall semi-annual borrowing base re-determinations began in September 2015. The midstream sector is generally involved in the transportation, storage and marketing of crude and/or refined oil and gas products. The Corporation's energy services customers provide products and services primarily to the E&P segment. More than 90 percent of the loans in the Energy business line are Shared National Credits (SNC), which are facilities greater than \$20 million shared by three or more federally supervised institutions, reflecting the Corporation's focus on larger middle market companies that have financing needs that generally exceed internal individual borrower credit risk limits. The Corporation seeks to develop full relationships with SNC borrowers.

In addition to oil and gas loans in the Energy business line, the Corporation is monitoring a portfolio of loans in other lines of business to companies that have a sizable portion of their revenue related to oil and gas or could be otherwise disproportionately negatively impacted by prolonged lower oil and gas prices ("energy-related"), primarily in general Middle Market, Corporate Banking, Small Business, and Technology and Life Sciences. These companies include downstream businesses such as refineries and petrochemical companies, companies that sell products to E&P, midstream and energy services companies, companies involved in developing new technologies for the oil and gas industry, and other similar businesses.

The following table summarizes information about the Corporation's portfolio of energy and energy-related loans.

| (dollar amounts in millions) | September 30, 2015 | | | December 31, 2014 | | | | |
|--|--------------------|------------|------------|-------------------|------------|------------|------|------|
| | Outstandings | Nonaccrual | Criticized | Outstandings | Nonaccrual | Criticized | | |
| Exploration and production (E&P) | \$2,249 | 69 | %57 | \$629 | \$2,539 | 71 | %\$— | \$73 |
| Midstream | 481 | 15 | — | 52 | 454 | 13 | — | — |
| Services | 513 | 16 | 23 | 212 | 566 | 16 | — | 26 |
| Total Energy business line | 3,243 | 100 | %80 | 893 | 3,559 | 100 | %— | 99 |
| Energy-related | 614 | 46 | 165 | 741 | 27 | 98 | | |
| Total energy and energy-related | \$3,857 | \$126 | \$1,058 | \$4,300 | \$27 | \$197 | | |
| As a percentage of total energy and energy-related loans | | 3 | %27 | % | | 1 | %5 | % |

Loans in the Energy business line were \$3.2 billion, or approximately 7 percent of total loans, at September 30, 2015 and \$3.6 billion, or approximately 7 percent of total loans, at December 31, 2014, a decrease of \$316 million, or 9 percent. Total exposure, including unused commitments to extend credit and letters of credit, was \$6.5 billion and \$7.1 billion at September 30, 2015 and December 31, 2014, respectively. The decrease in total exposure in the Energy business line primarily reflected reduced borrowing bases as a result of the decline in value of oil and gas reserves, while the decrease in outstandings largely reflected energy customers taking actions to adjust their cash flow and

reduce their bank debt. As of September 30, 2015, a majority of the Corporation's E&P customers had at least 50 percent of their oil and/or gas production hedged up to the end of 2015. Approximately 95 percent of the loans outstanding and 90 percent of total exposure in the Energy business line had varying levels and types of collateral at September 30, 2015, including oil and gas reserves and pipelines, equipment, accounts receivable, inventory and other assets, or some combination thereof. Energy-related outstandings were approximately \$614 million at September 30, 2015 (approximately 110 relationships), a decrease of \$127 million, or 17 percent, compared to December 31, 2014. Internal risk-rating reviews were completed on all borrowers in the Energy business line during the nine months ended September 30, 2015. Criticized energy and energy-related loans increased from \$197 million, or 5 percent of total energy and energy-related loans, at December 31, 2014 to \$1.1 billion or 27 percent at September 30, 2015, in part reflecting the Corporation's weighting of current and expected operating cash flows in the assessment of the probability of default. A majority of the criticized energy and energy-related loans remain well secured and therefore losses are expected to be manageable. While the Corporation expects some continued negative migration, at this point in the cycle, many credits are being satisfactorily resolved through

Table of Contents

paydowns and payoffs. Nonaccrual energy and energy-related loans increased to \$126 million, or 3 percent of total energy and energy-related loans at September 30, 2015, compared to \$27 million, or 1 percent at December 31, 2014. Energy and energy-related net loan charge-offs were \$9 million and \$13 million for the three- and nine-month periods ended September 30, 2015, respectively, substantially all of which were from the energy-related portfolio.

The Corporation's allowance methodology carefully considers the various risk elements within its loan portfolio. The allowance for loan losses at September 30, 2015 appropriately incorporated the changing dynamics in energy and energy-related loans described above, including the value of collateral considered in determining estimated loss given default, which has resulted in increases in reserves for this portfolio for the past four quarterly periods. The Corporation continued to incorporate a qualitative reserve component for energy and energy-related loans at September 30, 2015 due to the uncertainty associated with continued volatility and the impact of sustained lower oil and gas prices. Refer to the "Allowance for Credit Losses" subheading earlier in this section for a discussion of changes in the allowance for loan losses as a result of the above-described events.

Automotive Lending

Substantially all dealer loans are in the National Dealer Services business line. Loans in the National Dealer Services business line include floor plan financing and other loans to automotive dealerships. Floor plan loans, included in "commercial loans" in the consolidated balance sheets, totaled \$3.5 billion at September 30, 2015, a decrease of \$252 million compared to \$3.8 billion at December 31, 2014. At both September 30, 2015 and December 31, 2014, other loans to automotive dealers in the National Dealer Services business line totaled \$2.4 billion, including \$1.6 billion and \$1.5 billion of owner-occupied commercial real estate mortgage loans at September 30, 2015 and December 31, 2014, respectively. Automotive lending also includes loans to borrowers involved with automotive production, primarily Tier 1 and Tier 2 suppliers. Loans to borrowers involved with automotive production totaled approximately \$1.2 billion at both September 30, 2015 and December 31, 2014.

International Exposure

International assets are subject to general risks inherent in the conduct of business in foreign countries, including economic uncertainties and each foreign government's regulations. Risk management practices minimize the risk inherent in international lending arrangements. These practices include structuring bilateral agreements or participating in bank facilities, which secure repayment from sources external to the borrower's country. Accordingly, such international outstandings are excluded from the cross-border risk of that country.

The Corporation does not hold any sovereign exposure to Europe. The Corporation's international strategy as it pertains to Europe is to focus on European companies doing business in North America, with an emphasis on the Corporation's primary geographic markets. The following table summarizes cross-border exposure to entities domiciled in European countries.

| (in millions) | September 30, 2015 | December 31, 2014 |
|--|--------------------|-------------------|
| European exposure: | | |
| Commercial and industrial | \$271 | \$211 |
| Banks and other financial institutions | 23 | 52 |
| Total outstanding | 294 | 263 |
| Unfunded commitments and guarantees | 311 | 382 |
| Total European exposure (a) | \$605 | \$645 |

(a) Primarily United Kingdom and the Netherlands. The Corporation had no exposure to Greece, Portugal or Ireland at September 30, 2015 and December 31, 2014.

For further discussion of credit risk, see the "Credit Risk" section of pages F-21 through F-29 in the Corporation's 2014 Annual Report.

Market and Liquidity Risk

Market risk represents the risk of loss due to adverse movements in market rates or prices, including interest rates, foreign exchange rates, and commodity and equity prices. Liquidity risk represents the failure to meet financial obligations coming due resulting from an inability to liquidate assets or obtain adequate funding, and the inability to easily unwind or offset specific exposures without significant changes in pricing, due to inadequate market depth or market disruptions.

The Asset and Liability Policy Committee (ALCO) of the Corporation establishes and monitors compliance with the policies and risk limits pertaining to market and liquidity risk management activities. ALCO meets regularly to discuss and review market and liquidity risk management strategies, and consists of executive and senior management from various areas of the Corporation, including treasury, finance, economics, lending, deposit gathering and risk management. The Treasury Department mitigates market and liquidity risk through the actions it takes to manage the Corporation's market, liquidity and capital positions under the direction of ALCO.

58

Table of Contents

Market Risk Analytics, of the Office of Enterprise Risk, supports ALCO in measuring, monitoring and managing interest rate risk and coordinating all other market risks. Key activities encompass: (i) providing information and analysis of the Corporation's balance sheet structure and measurement of interest rate and all other market risks; (ii) monitoring and reporting of the Corporation's positions relative to established policy limits and guidelines; (iii) developing and presenting analyses and strategies to adjust risk positions; (iv) reviewing and presenting policies and authorizations for approval; (v) monitoring of industry trends and analytical tools to be used in the management of interest rate and all other market risks; and (vi) developing and monitoring the interest rate risk economic capital estimate.

Interest Rate Risk

Net interest income is the primary source of revenue for the Corporation. Interest rate risk arises in the normal course of business due to differences in the repricing and cash flow characteristics of assets and liabilities, primarily through the Corporation's core business activities of extending loans and acquiring deposits. The Corporation's balance sheet is predominantly characterized by floating-rate loans funded by a combination of core deposits and wholesale borrowings. Approximately 85 percent of the Corporation's loans were floating at September 30, 2015, of which approximately 75 percent were based on LIBOR and 25 percent were based on Prime. This creates sensitivity to interest rate movements due to the imbalance between the floating-rate loan portfolio and the more slowly repricing deposit products. In addition, growth and/or contraction in the Corporation's loans and deposits may lead to changes in sensitivity to interest rate movements in the absence of mitigating actions. Examples of such actions are purchasing investment securities, primarily fixed-rate, which provide liquidity to the balance sheet and act to mitigate the inherent interest sensitivity, and hedging the sensitivity with interest rate swaps. The Corporation actively manages its exposure to interest rate risk, with the principal objective of optimizing net interest income and the economic value of equity while operating within acceptable limits established for interest rate risk and maintaining adequate levels of funding and liquidity.

Since no single measurement system satisfies all management objectives, a combination of techniques is used to manage interest rate risk. These techniques examine the impact of interest rate risk on net interest income and the economic value of equity under a variety of alternative scenarios, including changes in the level, slope and shape of the yield curve, utilizing multiple simulation analyses. Simulation analyses produce only estimates of net interest income, as the assumptions used are inherently uncertain. Actual results may differ from simulated results due to many factors, including, but not limited to, the timing, magnitude and frequency of changes in interest rates, market conditions, regulatory impacts and management strategies.

Sensitivity of Net Interest Income to Changes in Interest Rates

The analysis of the impact of changes in interest rates on net interest income under various interest rate scenarios is management's principal risk management technique. Management models a base case net interest income under an unchanged interest rate environment and what is believed to be the most likely balance sheet structure. Existing derivative instruments entered into for risk management purposes are included in the analysis, but no additional hedging is currently forecasted. These derivative instruments currently comprise interest rate swaps that convert fixed-rate long-term debt to variable rates. This base case net interest income is then compared against interest rate scenarios in which rates rise or decline in a linear, non-parallel fashion from the base case over 12 months. In the scenarios presented, short-term interest rates increase 200 basis points, resulting in an average increase in short-term interest rates of 100 basis points over the period (+200 scenario). Due to the current low level of interest rates, the analysis reflects a declining interest rate scenario of a 25 basis point drop in short-term interest rates, to zero percent. Each scenario includes assumptions such as loan growth, investment security prepayment levels, depositor behavior, yield curve changes, loan and deposit pricing, and overall balance sheet mix and growth. In the +200 scenario, assumptions related to loan growth are based on historical experience. Because deposit balances have continued to grow significantly in this persistent low rate environment, historical depositor behavior may be less indicative of future trends. As a result, the September 30, 2015 +200 scenario reflects a greater decrease in deposits than we have experienced historically as rates begin to rise. Investment securities modeling includes the replacement of prepayments as well as an estimate of projected growth in High Quality Liquid Assets (HQLA) needed for compliance with the LCR, and expected funding maturities are included. In addition, the model reflects deposit pricing based on

historical price movements with short-term interest rates, and loan spreads are held at current levels. Changes in actual economic activity may result in a materially different interest rate environment as well as a balance sheet structure that is different from the changes management included in its simulation analysis.

Table of Contents

The table below, as of September 30, 2015 and December 31, 2014, displays the estimated impact on net interest income during the next 12 months by relating the base case scenario results to those from the rising and declining rate scenarios described above.

| (in millions) | Estimated Annual Change | | September 30, 2015 | | December 31, 2014 | |
|------------------------------------|-------------------------|------|--------------------|-------|-------------------|---|
| | Amount | % | Amount | % | Amount | % |
| Change in Interest Rates: | | | | | | |
| +200 basis points | \$222 | 13 | % | \$224 | 13 | % |
| -25 basis points (to zero percent) | (37 |) (2 |) | (32 |) (2 |) |

Sensitivity decreased slightly from December 31, 2014 to September 30, 2015 primarily due to changes in the current balance sheet mix driving a revised forecast, offset by the impact from the addition of HQLA for the LCR and the modeled reduction in deposit growth in the +200 scenario discussed above. The risk to declining interest rates is limited as a result of the inability of the current low level of rates to fall significantly.

The table below, as of September 30, 2015, illustrates the estimated sensitivity of the above results to a change in deposit balance assumptions in the +200 scenario, with all other assumptions held constant. In this analysis, average noninterest-bearing deposit run-off in the 12-month period has been increased by \$1 billion and \$3 billion from the historical run-off experience included in the standard +200 scenario presented above and assumes the deposit run-off reduces excess reserves and increases purchased funds. The analysis is provided as an indicator of the sensitivity of net interest income to the modeled deposit run-off assumption. It is not meant to reflect management's expectation or best estimate. Actual deposit levels may vary from those reflected.

| (in millions) | +200 Basis Points | | Estimated Annual Change | |
|---|-------------------|----|-------------------------|---|
| | Amount | % | Amount | % |
| September 30, 2015 | | | | |
| Incremental Average Decrease in Noninterest-bearing Deposit Balances: | | | | |
| \$1 billion | \$211 | 13 | | % |
| \$3 billion | 188 | 11 | | |

Sensitivity of Economic Value of Equity to Changes in Interest Rates

In addition to the simulation analysis on net interest income, an economic value of equity analysis provides an alternative view of the interest rate risk position. The economic value of equity is the difference between the estimate of the economic value of the Corporation's financial assets, liabilities and off-balance sheet instruments, derived through discounting cash flows based on actual rates at the end of the period and the estimated economic value after applying the estimated impact of rate movements. The economic value of equity analysis is based on an immediate parallel 200 basis point increase and 25 basis point decrease in interest rates.

The table below, as of September 30, 2015 and December 31, 2014, displays the estimated impact on the economic value of equity from the interest rate scenario described above.

| (in millions) | September 30, 2015 | | December 31, 2014 | | | |
|------------------------------------|--------------------|------|-------------------|---------|------|---|
| | Amount | % | Amount | % | | |
| Change in Interest Rates: | | | | | | |
| +200 basis points | \$1,173 | 10 | % | \$1,218 | 10 | % |
| -25 basis points (to zero percent) | (267 |) (2 |) | (293 |) (2 |) |

The change in the sensitivity of the economic value of equity to a 200 basis point parallel increase in rates between December 31, 2014 and September 30, 2015 was primarily driven by changes in market interest rates at the middle to long end of the curve, which most significantly impact mortgage-backed security prepayments and the value of deposits without a stated maturity.

Wholesale Funding

The Corporation may access the purchased funds market when necessary, which includes foreign office time deposits and short-term borrowings. Capacity for incremental purchased funds at September 30, 2015 included the ability to purchase federal funds, sell securities under agreements to repurchase, as well as issue deposits to institutional investors and issue certificates of deposit through brokers. Purchased funds totaled \$253 million at September 30,

2015, compared to \$251 million at December 31, 2014. At September 30, 2015, the Bank had pledged loans totaling \$26 billion which provided for up to \$20 billion of available collateralized borrowing with the FRB.

60

Table of Contents

The Bank is a member of the FHLB of Dallas, Texas, which provides short- and long-term funding to its members through advances collateralized by real estate-related assets. Actual borrowing capacity is contingent on the amount of collateral available to be pledged to the FHLB. At September 30, 2015, real estate-related loans pledged to the FHLB as blanket collateral provided for potential future borrowings of approximately \$6 billion. As of September 30, 2015, the Corporation did not have any outstanding borrowings from the FHLB. Additionally, as of September 30, 2015 the Bank had the ability to issue up to \$14 billion of debt under an existing \$15 billion note program which allows the issuance of debt with maturities between three months and 30 years. The Corporation also maintains a shelf registration statement with the Securities and Exchange Commission from which it may issue debt and/or equity securities.

The ability of the Corporation and the Bank to raise funds at competitive rates is impacted by rating agencies' views of the credit quality, liquidity, capital and earnings of the Corporation and the Bank. As of September 30, 2015, the four major rating agencies had assigned the following ratings to long-term senior unsecured obligations of the Corporation and the Bank. A security rating is not a recommendation to buy, sell, or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

| September 30, 2015 | Comerica Incorporated | | Comerica Bank | |
|---------------------------|-----------------------|----------|---------------|----------|
| | Rating | Outlook | Rating | Outlook |
| Standard and Poor's | A- | Negative | A | Negative |
| Moody's Investors Service | A3 | Stable | A3 | Stable |
| Fitch Ratings | A | Stable | A | Stable |
| DBRS | A | Stable | A(High) | Stable |

The Corporation satisfies liquidity requirements with either liquid assets or various funding sources. Liquid assets, which totaled \$15.0 billion at September 30, 2015, compared to \$13.3 billion at December 31, 2014, provide a reservoir of liquidity. Liquid assets include cash and due from banks, federal funds sold, interest-bearing deposits with banks, other short-term investments and unencumbered investment securities. At September 30, 2015, the Corporation held deposits at the FRB of \$5.9 billion, compared to \$4.9 billion at December 31, 2014.

In September 2014, U.S. banking regulators issued a final rule implementing a quantitative liquidity requirement in the U.S. generally consistent with the LCR minimum liquidity measure established under the Basel III liquidity framework. Under the rule, the Corporation is subject to a modified LCR standard, which requires a financial institution to hold a minimum level of HQLA to fully cover modified net cash outflows under a 30-day systematic liquidity stress scenario. The rule is effective for the Corporation on January 1, 2016. During the transition year, 2016, the Corporation will be required to maintain a minimum LCR of 90 percent. Beginning January 1, 2017, and thereafter, the minimum required LCR will be 100 percent.

In the third quarter, the Bank issued \$350 million of 4.00% subordinated notes, swapped to floating at 6-month LIBOR plus 1.478%, maturing in 2025 and \$175 million of 2.50% senior notes, swapped to floating at 6-month LIBOR plus 0.6348%, maturing in 2020. In the second quarter 2015, the Bank issued \$500 million of 2.50% senior debt maturing in 2020 and swapped it to floating at six-month LIBOR plus 75 basis points. Of the proceeds from these issuances, approximately \$575 million was invested in five-year Treasury notes and GNMA RMBS, which helped position the Corporation for full compliance with LCR. Any future funding needs for LCR purposes will depend on loan and deposit trends as well as balance sheet strategy. Should the Corporation need to add HQLA to maintain full compliance with the LCR rule, a variety of wholesale funding sources are available, as previously discussed.

The Basel III liquidity framework includes a second minimum liquidity measure, the Net Stable Funding Ratio (NSFR), which requires the amount of available longer-term, stable sources of funding to be at least 100 percent of the required amount of longer-term stable funding over a one-year period. On October 31, 2014, the Basel Committee on Banking Supervision issued its final NSFR rule, which was originally introduced in 2010 and revised in January 2014. U.S. banking regulators have announced that they expect to issue proposed rules to implement the NSFR in advance of its scheduled global implementation in 2018. While uncertainty exists in the final form and timing of the U.S. rule implementing the NSFR and whether or not the Corporation will be subject to the full requirements, the Corporation is closely monitoring the development of the rule.

The Corporation regularly evaluates its ability to meet funding needs in unanticipated, stressed environments. In conjunction with the quarterly 200 basis point interest rate simulation analyses, discussed in the “Interest Rate Sensitivity” section of this financial review, liquidity ratios and potential funding availability are examined. Each quarter, the Corporation also evaluates its ability to meet liquidity needs under a series of broad events, distinguished in terms of duration and severity. The evaluation as of September 30, 2015 projected that sufficient sources of liquidity were available under each series of events.

CRITICAL ACCOUNTING POLICIES

The Corporation’s consolidated financial statements are prepared based on the application of accounting policies, the most significant of which are described in Note 1 to the consolidated financial statements included in the Corporation's 2014 Annual Report. These policies require numerous estimates and strategic or economic assumptions, which may prove inaccurate or subject to variations. Changes in underlying factors, assumptions or estimates could have a material impact on the Corporation’s future financial condition and results of operations. At December 31, 2014, the most critical of these significant accounting policies were the policies related to the allowance for credit losses, valuation methodologies, goodwill, pension plan accounting and income taxes. These policies were reviewed with the Audit Committee of the Corporation’s Board of Directors and are discussed more fully on pages F-37 through F-40 in the Corporation's 2014 Annual Report. As of the date of this report, there have been no significant changes to the Corporation's critical accounting policies or estimates, except as discussed below.

Table of Contents

Goodwill

Goodwill is initially recorded as the excess of the purchase price over the fair value of net assets acquired in a business combination and is subsequently evaluated at least annually for impairment. Goodwill impairment testing is performed at the reporting unit level, equivalent to a business segment or one level below. The Corporation has three reporting units: the Business Bank, the Retail Bank and Wealth Management. At September 30, 2015 and December 31, 2014, goodwill totaled \$635 million, including \$380 million allocated to the Business Bank, \$194 million allocated to the Retail Bank and \$61 million allocated to Wealth Management.

The Corporation performs its annual evaluation of goodwill impairment in the third quarter of each year and on an interim basis if events or changes in circumstances between annual tests suggest additional testing may be warranted to determine if goodwill might be impaired. The quantitative goodwill impairment test is a two-step test. The first step of the goodwill impairment test compares the estimated fair value of identified reporting units with their carrying amount, including goodwill. If the estimated fair value of the reporting unit is less than the carrying value, the second step must be performed to determine the implied fair value of the reporting unit's goodwill and the amount of goodwill impairment, if any. The implied fair value of goodwill is determined as if the reporting unit were being acquired in a business combination. If the implied fair value of goodwill exceeds the goodwill assigned to the reporting unit, there is no impairment. If the goodwill assigned to a reporting unit exceeds the implied fair value of goodwill, an impairment charge is recorded for the excess.

In performing the annual impairment test, the carrying value of each reporting unit is the greater of economic or regulatory capital. The Corporation assigns economic capital using internal management methodologies on the basis of each reporting unit's credit, operational and interest rate risks, as well as goodwill. To determine regulatory capital, each reporting unit is assigned sufficient capital such that their respective Tier 1 ratio, based on allocated risk-weighted assets, is the same as that of the Corporation. Using this two-pronged approach, the Corporation's equity is fully allocated to its reporting units except for capital held primarily for the risk associated with the securities portfolio which is assigned to the Finance segment of the Corporation.

Determining the fair value of reporting units is a subjective process involving the use of estimates and judgments related to the selection of inputs such as future cash flows, discount rates, comparable public company multiples, applicable control premiums and economic expectations used in determining the interest rate environment. The estimated fair values of the reporting units are determined using a blend of two commonly used valuation techniques: the market approach and the income approach. For the market approach, valuations of reporting units consider a combination of earnings, equity and other multiples from companies with characteristics similar to the reporting unit. Since the fair values determined under the market approach are representative of noncontrolling interests, the valuations accordingly incorporate a control premium. For the income approach, estimated future cash flows and terminal value are discounted. Estimated future cash flows are derived from internal forecasts and economic expectations for each reporting unit which incorporate uncertainty factors inherent to long-term projections. The applicable discount rate is based on the imputed cost of equity capital appropriate for each reporting unit, which incorporates the risk-free rate of return, the level of non-diversified risk associated with companies with characteristics similar to the reporting unit, a size risk premium and a market equity risk premium.

The annual test of goodwill impairment was performed as of the beginning of the third quarter 2015. The Corporation's assumptions included modest increases to the Federal funds target rate until eventually reaching a normal interest rate environment. At the conclusion of the first step of the annual goodwill impairment tests performed in the third quarter 2015, the estimated fair values of all reporting units substantially exceeded their carrying amounts, including goodwill. The results of the annual test of the goodwill impairment test for each reporting unit were subjected to stress testing as appropriate.

Economic conditions impact the assumptions related to interest and growth rates, loss rates and imputed cost of equity capital. The fair value estimates for each reporting unit incorporated current economic and market conditions, including the recent Federal Reserve announcements and the impact of legislative and regulatory changes, to the extent known and as described above. However, further weakening in the economic environment, such as adverse changes in interest rates, a decline in the performance of the reporting units or other factors could cause the fair value of one or more of the reporting units to fall below their carrying value, resulting in a goodwill impairment charge.

Additionally, new legislative or regulatory changes not anticipated in management's expectations may cause the fair value of one or more of the reporting units to fall below the carrying value, resulting in a goodwill impairment charge. Any impairment charge would not affect the Corporation's regulatory capital ratios, tangible common equity ratio or liquidity position.

SUPPLEMENTAL FINANCIAL DATA

The following table provides a reconciliation of non-GAAP financial measures used in this financial review with financial measures defined by GAAP.

| (dollar amounts in millions) | September 30, 2015 | December 31, 2014 | |
|---|--------------------|-------------------|---|
| Tier 1 Common Capital Ratio: | | | |
| Tier 1 and Tier 1 common capital (a) | n/a | \$7,169 | |
| Risk-weighted assets (a) | n/a | 68,269 | |
| Tier 1 and Tier 1 common risk-based capital ratio | n/a | 10.50 | % |
| Tangible Common Equity Ratio: | | | |
| Common shareholders' equity | \$7,622 | \$7,402 | |
| Less: | | | |
| Goodwill | 635 | 635 | |
| Other intangible assets | 14 | 15 | |
| Tangible common equity | \$6,973 | \$6,752 | |
| Total assets | \$71,012 | \$69,186 | |
| Less: | | | |
| Goodwill | 635 | 635 | |
| Other intangible assets | 14 | 15 | |
| Tangible assets | \$70,363 | \$68,536 | |
| Common equity ratio | 10.73 | % 10.70 | % |
| Tangible common equity ratio | 9.91 | 9.85 | |
| Tangible Common Equity per Share of Common Stock: | | | |
| Common shareholders' equity | \$7,622 | \$7,402 | |
| Tangible common equity | 6,973 | 6,752 | |
| Shares of common stock outstanding (in millions) | 177 | 179 | |
| Common shareholders' equity per share of common stock | \$43.02 | \$41.35 | |
| Tangible common equity per share of common stock | 39.36 | 37.72 | |

(a) Tier 1 capital and risk-weighted assets as defined by Basel I risk-based capital rules.

n/a - not applicable.

The Tier 1 common capital ratio removes preferred stock and qualifying trust preferred securities from Tier 1 capital as defined by and calculated in conformity with Basel I risk-based capital rules in effect through December 31, 2014. Effective January 1, 2015, regulatory capital components and risk-weighted assets are defined by and calculated in conformity with Basel III risk-based capital rules. The tangible common equity ratio removes preferred stock and the effect of intangible assets from capital and the effect of intangible assets from total assets and tangible common equity per share of common stock removes the effect of intangible assets from common shareholders' equity per share of common stock. The Corporation believes these measurements are meaningful measures of capital adequacy used by investors, regulators, management and others to evaluate the adequacy of common equity and to compare against other companies in the industry.

Table of Contents

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Quantitative and qualitative disclosures for the current period can be found in the "Market and Liquidity Risk" section of "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations."

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. The Corporation maintains a set of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed by the Corporation in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Corporation's management, including the Corporation's Chief Executive

(a) Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management has evaluated, with the participation of the Corporation's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Corporation's disclosure controls and procedures as of the end of the period covered by this quarterly report (the "Evaluation Date"). Based on the evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, the Corporation's disclosure controls and procedures are effective.

(b) Changes in Internal Control Over Financial Reporting. During the period to which this report relates, there have not been any changes in the Corporation's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or that are reasonably likely to materially affect, such controls.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

For information regarding the Corporation's legal proceedings, see "Part I. Item 1. Note 12 – Contingent Liabilities," which is incorporated herein by reference.

ITEM 1A. Risk Factors

There has been no material change in the Corporation's risk factors as previously disclosed in our Form 10-K for the fiscal year ended December 31, 2014 in response to Part I, Item 1A. of such Form 10-K. Such risk factors are incorporated herein by reference.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

For information regarding the Corporation's purchase of equity securities, see "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – Capital," which is incorporated herein by reference.
