## EXPLANATORY NOTE

In connection with our Annual Report on Form 10-K for the year ended December 31, 2011 filed with the Securities and Exchange Commission (“SEC”) on February 13, 2012 (the “Original Filing”), Stryker Corporation's management assessed the effectiveness of its internal control over financial reporting as of December 31, 2011 and concluded that its internal control over financial reporting is effective as of December 31, 2011. This Amendment No. 1 on Form 10-K/A (this “Form 10-K/A”) to the Original Filing is being filed to correct an incorrect reference to “disclosure controls and procedures” in “Management's Report on Internal Control Over Financial Reporting” included in “Item 9A. Controls and Procedures” of the Original Filing.

As required by the rules of the SEC, this Form 10-K/A also includes an amended “Item 15. Exhibits and Financial Statement Schedules” and includes a new certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 from the individual who currently serves as Interim Chief Executive Officer and Chief Financial Officer of the Company. Because no financial statements have been included in this Form 10-K/A, paragraph 3 of the certification has been omitted.

Except as described above, no other changes have been made to the Original Filing. This Form 10-K/A does not modify or update disclosures in the Original Filing or reflect events subsequent to the Original Filing. Accordingly, this Form 10-K/A should be read in conjunction with the Original Filing.

## PART II

### ITEM 9A. CONTROLS AND PROCEDURES.

**Evaluation of Disclosure Controls and Procedures**—An evaluation of the effectiveness of our disclosure controls and procedures as of December 31, 2011 was carried out under the supervision and with the participation of our management, including the then-President and Chief Executive Officer and the Vice President and Chief Financial Officer (who currently also serves as our Interim Chief Executive Officer). Based on that evaluation, our management concluded that our disclosure controls and procedures are effective.

**Changes in Internal Control Over Financial Reporting**—There was no change to our internal control over financial reporting during the quarter ended December 31, 2011 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Management's Report on Internal Control Over Financial Reporting**—The management of Stryker Corporation is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Stryker Corporation's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

Stryker Corporation's management assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control-Integrated Framework. Based on that assessment, management concluded that our internal control over financial reporting is effective. The internal controls over financial reporting of an acquired business are eligible for a one year exclusion as permitted by Securities and Exchange Commission Staff interpretive guidance. Accordingly, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of the Neurovascular business, which is included in the December 31, 2011 consolidated financial statements of Stryker Corporation and subsidiaries and constitutes 13% and 7% of total assets and shareholders' equity, respectively, as of December 31, 2011 and 4% of revenues for the year then ended.

Stryker Corporation's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on the effectiveness of our internal control over financial reporting. This report appears on the following page.

**Other Matters**—We are in the process of implementing new Enterprise Resource Planning (ERP) systems at certain of our divisions including our Canadian and European divisions and the Neurovascular business acquired in 2011 from

Boston Scientific Corporation. An ERP system is a fully-integrated set of programs and databases that incorporate order processing, production planning and scheduling, purchasing, accounts receivable and inventory management and accounting. In connection with this ERP system implementation, we are updating our internal controls over financial reporting, as necessary, to accommodate modifications to our business processes and accounting procedures. We do not believe that this ERP system implementation will have an adverse effect on our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
THE BOARD OF DIRECTORS AND SHAREHOLDERS OF STRYKER CORPORATION:

We have audited Stryker Corporation and subsidiaries' internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Stryker Corporation and subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of the Neurovascular business, which is included in the December 31, 2011 consolidated financial statements of Stryker Corporation and subsidiaries and constituted 13% and 7% of total assets and shareholders' equity, respectively, as of December 31, 2011 and 4% of revenues, for the year then ended. Our audit of internal control over financial reporting of Stryker Corporation and subsidiaries also did not include an evaluation of the internal control over financial reporting of the Neurovascular business.

In our opinion, Stryker Corporation and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Stryker Corporation and subsidiaries as of December 31, 2011 and 2010

and the related consolidated statements of earnings, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2011 of Stryker Corporation and subsidiaries, and our report dated February 13, 2012 expressed an unqualified opinion thereon.
