ITEM 2.05 Costs Associated with Exit or Disposal Activities

On September 7, 2004, Eastman Kodak Company committed to a

Edgar Filing: EASTMAN KODAK CO - Form 8-K

plan to close five overnight photofinishing labs in France. The lab closures, which are expected to be completed by December 31, 2004, reflect the Company's plan to deal effectively with the continued deterioration in overnight photofinishing volumes in France.

In conjunction with the lab closures, the Company will pay approximately \$15 million in severance costs to employees who elect not to relocate to other Company labs and will incur other exit costs of approximately \$2 million. In addition, the Company will record approximately \$10 million of accelerated depreciation on the related long-lived assets in cost of goods sold during the remainder of 2004. The severance and other exit costs require the outlay of cash, while the accelerated depreciation represents a non-cash charge.

These lab closures are part of the Company's restructuring program that was announced on January 22, 2004. The Company expects that it will continue to consolidate its worldwide overnight photofinishing operations in order to eliminate excess capacity.

A copy of the September 7, 2004 press release related to the lab closures in France is attached hereto as Exhibit (99.1).
