### Item 7 Regulation FD disclosure

Data I/O had orders of \$1.8 million for the month of October 2008, which was weaker than anticipated, and we believe reflects our customers reacting to the current economic uncertainty. Data I/O has taken additional actions to reduce expenses. These actions are expected to result in a restructuring charge during the fourth quarter of 2008 of approximately \$325,000, primarily severance related. Our manufacturing, service and operating expenses going forward will be reduced by an estimated \$330,000 per quarter when these actions are fully complete. For the fourth quarter of 2008, we expect that manufacturing, service and operating expense savings of approximately \$185,000 will result from these actions.
