Item 2.02 Results of Operations and Financial Condition.

On November 5, 2015, Alliant Energy Corporation (Alliant Energy) issued a press release announcing its earnings for the three and nine months ended September 30, 2015. A copy of such press release is furnished as Exhibit 99.1 and is incorporated by reference herein.

Alliant Energy included in the press release earnings per share from continuing operations, earnings per share, income from continuing operations and net income for the three months ended September 30, 2015 excluding voluntary employee separation charges. Alliant Energy included in the press release earnings per share from continuing operations, earnings per share, income from continuing operations and net income for the nine months ended September 30, 2015 excluding voluntary employee separation charges and losses from the sales of Interstate Power and Light Company's (IPL's) Minnesota electric and natural gas distribution assets. Alliant Energy believes these non-GAAP financial measures (financial measures not prepared in accordance with accounting principles generally accepted in the United States of America) are useful to investors because they provide an alternate measure to better understand and compare across periods the operating performance of Alliant Energy without the distortion of items that management believes are not normally associated with ongoing operations, and also provide additional information about Alliant Energy's operations on a basis consistent with the measures that management uses to manage its operations and evaluate its performance. Alliant Energy's management also uses income from continuing operations, as adjusted, to determine performance-based compensation.

In addition, Alliant Energy included in the press release IPL; Wisconsin Power and Light Company; AE Transco Investments, LLC and Alliant Energy Corporate Services, Inc.; utilities, American Transmission Company LLC and Alliant Energy Corporate Services, Inc.; and non-regulated and parent earnings per share from continuing operations for the three and nine months ended September 30, 2015 and 2014. Alliant Energy believes these non-GAAP financial measures are useful to investors because they facilitate an understanding of segment performance and trends and provide additional information about Alliant Energy's operations on a basis consistent with the measures that management uses to manage its operations and evaluate its performance.
