- (iii) cash provided by operating activities for such period and scenario less cash paid for capital expenditures for the applicable period and scenario. A reconciliation of this forward-looking non-GAAP financial measure was included in the Earnings Release.

No reconciliation of the forward-looking non-GAAP financial measures were included in the Earnings Release for items (i) and (ii) because, due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measures without unreasonable efforts.

Management of the Company uses the non-GAAP Measures to evaluate ongoing operations and believes that these non-GAAP Measures are useful to investors. The exclusion of the impact of the identified special items (restructuring charges, acquisition-related costs, non-cash asset impairment charges, non-cash pension settlement charges, the provisional net tax benefit resulting from the Tax Reform Act and disposals of properties, plants, equipment and businesses, net) enable management and investors to perform meaningful comparisons of current and historical performance of the Company. Management of the Company also believes that the exclusion of the impact of the identified special items provide a stable platform on which to compare the historical performance of the Company and that investors desire this information. Management believes that the use of consolidated free cash flow, which excludes cash paid for capital expenditures from the Company's consolidated net cash provided by operating activities, provides additional information on which to evaluate the cash flow generated by the Company and believes that this is information that investors find valuable. The non-GAAP Measures are intended to supplement and should be read together with our financial results. The non-GAAP Measures should not be considered an alternative or substitute for, and should not be considered superior to, our reported financial results. Accordingly, users of this

financial information should not place undue reliance on the non-GAAP Measures.
