UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

(MARK ONE)

/ X / QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July 4, 2015

OR

/ / TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-14225

HNI Corporation
(Exact name of registrant as specified in its charter)

Iowa (State or other jurisdiction of incorporation or organization)	42-0617510 (I.R.S. Employer Identification Number)
---	--

P. O. Box 1109, 408 East Second Street Muscatine, Iowa 52761-0071 (Address of principal executive offices)	52761-0071 (Zip Code)
--	--------------------------

Registrant's telephone number, including area code: 563/272-7400

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Edgar Filing: HNI CORP - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date.

Class	Outstanding at July 4, 2015
Common Shares, \$1 Par Value	44,350,077

HNI CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

July 4, 2015

Note A. Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. The January 3, 2015 consolidated balance sheet included in this Form 10-Q was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the six-month period ended July 4, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending January 2, 2016. For further information, refer to the consolidated financial statements and accompanying notes included in HNI Corporation's (the "Corporation") Annual Report on Form 10-K for the fiscal year ended January 3, 2015. Certain reclassifications have been made to the condensed consolidated financial statements of prior periods to conform to the current period presentation.

Note B. Stock-Based Compensation

The Corporation measures stock-based compensation expense at grant date, based on the fair value of the award, and recognizes expense over the employee requisite service period. For the three months and six months ended July 4, 2015 and June 28, 2014, the Corporation recognized \$2.8 million and \$6.3 million and \$2.1 million and \$4.8 million, respectively, of stock-based compensation expense for the cost of stock options and time-based restricted stock units issued under the HNI Corporation 2007 Stock-Based Compensation Plan and shares issued under the HNI Corporation 2002 Members' Stock Purchase Plan.

At July 4, 2015, there was \$5.3 million of unrecognized compensation cost related to nonvested stock options, which the Corporation expects to recognize over a weighted-average remaining service period of 1.2 years and \$1.2 million of unrecognized compensation cost related to nonvested restricted stock units, which the Corporation expects to recognize over a weighted-average remaining service period of 0.7 years.

Note C. Inventories

The Corporation values its inventory at the lower of cost or market with approximately 72% valued by the last-in, first-out ("LIFO") costing method.

(In thousands)	July 4, 2015	January 3, 2015
Finished products	\$95,477	\$65,126
Materials and work in process	97,219	84,677
LIFO allowance	(28,012)	(28,012)
	\$164,684	\$121,791

Note D. Accumulated Other Comprehensive Income (Loss) and Shareholders' Equity

The following table summarizes the components of accumulated other comprehensive income (loss) and the changes in accumulated other comprehensive income (loss), net of tax, as applicable for the six months ended July 4, 2015:

(In thousands)	Foreign Currency Translation Adjustment	Unrealized Gains (Losses) on Marketable Securities	Pension Postretirement Liability	Derivative Financial Instruments	Accumulated Other Comprehensive Income (Loss)
Balance at January 3, 2015	\$2,223	\$37	\$(6,763)	\$(872)	\$(5,375)
Other comprehensive income (loss) before reclassifications	145	(2)	—	(266)	(123)
Amounts reclassified from accumulated other comprehensive income	—	—	—	837	837
Balance at July 4, 2015	\$2,368	\$35	\$(6,763)	\$(301)	\$(4,661)

All amounts are net-of tax. Amounts in parentheses indicate debits.

The following table details the reclassifications from accumulated other comprehensive income (loss) for the three and six months ended July 4, 2015 and June 28, 2014 (in thousands):

Details about Accumulated Other Comprehensive Income (Loss) Components	Affected Line Item in the Statement Where Net Income Is Presented	Three Months Ended		Six Months Ended	
		July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014
Derivative financial instruments					
Diesel hedge	Selling and administrative expenses	\$(612)	\$32	\$(1,307)	\$87
	Tax (expense) or benefit	229	(12)	470	(32)
	Net of tax	\$(383)	\$20	\$(837)	\$55

Amounts in parentheses indicate reductions to profit.

During the six months ended July 4, 2015, the Corporation repurchased 305,000 shares of its common stock at a cost of approximately \$15.2 million. As of July 4, 2015, \$204.2 million of the Corporation's Board of Directors' ("Board") current repurchase authorization remained unspent. These share repurchases, offset by shares issued under the member stock purchase plan and stock awards, account for the change in Additional paid-in capital balance for the six months ended July 4, 2015.

During the six months ended July 4, 2015, the Corporation paid dividends to shareholders of \$0.515 per share.

Note E. Earnings Per Share

The following table reconciles the numerators and denominators used in the calculation of basic and diluted earnings per share ("EPS"):

(In thousands, except per share data)	Three Months Ended		Six Months Ended	
	July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014
Numerators:				
Numerator for both basic and diluted EPS attributable to HNI Corporation net income	\$23,879	\$9,705	\$32,357	\$20,801
Denominators:				
Denominator for basic EPS weighted-average common shares outstanding	44,416	45,020	44,360	45,029
Potentially dilutive shares from stock-based compensation plans	1,205	848	1,214	813
Denominator for diluted EPS	45,621	45,868	45,574	45,843
Earnings per share – basic	\$0.54	\$0.22	\$0.73	\$0.46
Earnings per share – diluted	\$0.52	\$0.21	\$0.71	\$0.45

The weighted average common stock equivalents presented above do not include the effect of 441,211 and 354,852 common stock equivalents for the three months ended July 4, 2015 and June 28, 2014 and 945,338 and 999,423 common stock equivalents for the six months ended July 4, 2015 and June 28, 2014 because their inclusion would be anti-dilutive.

Note F. Restructuring Reserve and Plant Closures

As a result of the Corporation's ongoing business simplification and cost reduction strategies, the Corporation has closed, consolidated, and realigned a number of its office furniture facilities during the past few years. During the three months ended July 4, 2015, in connection with the closures, consolidations, and realignments, the Corporation recorded a \$0.6 million reduction of restructuring costs due to lower than anticipated postemployment costs.

The following is a summary of changes in restructuring accruals during the six months ended July 4, 2015.

(In thousands)	Severance	Facility Exit Costs & Other	Total
Balance as of January 3, 2015	\$1,213	\$—	\$1,213
Restructuring charges	(788) 605	(183)
Cash payments	(284) (589) (873)
Balance as of July 4, 2015	\$141	\$16	\$157

Note G. Goodwill and Other Intangible Assets

The table below summarizes amortizable definite-lived intangible assets as of July 4, 2015 and January 3, 2015, which are reflected in the "Other Assets" line item in the Corporation's Condensed Consolidated Balance Sheets:

(In thousands)	July 4, 2015	January 3, 2015
Patents	\$ 18,945	\$ 18,945
Less: accumulated amortization	18,747	18,724
Net patents	198	221
Software	107,224	93,343
Less: accumulated amortization	19,379	17,711
Net software	87,845	75,632
Customer lists and other	126,750	125,095
Less: accumulated amortization	63,572	59,743
Net customer lists and other	63,178	65,352
Net definite lived intangible assets	\$ 151,221	\$ 141,205

Aggregate amortization expense for the six months ended July 4, 2015 and June 28, 2014 was \$5.5 million and \$5.1 million, respectively. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the following five fiscal years is as follows:

(In millions)	2015	2016	2017	2018	2019
Amortization Expense	\$ 10.8	\$ 11.4	\$ 15.9	\$ 15.8	\$ 15.6

As events such as potential acquisitions, dispositions or impairments occur in the future, these amounts may change.

The Corporation also owns certain trademarks and trade names with a net carrying amount of \$41.0 million as of July 4, 2015 and January 3, 2015. These trademarks and trade names are deemed to have indefinite useful lives because they are expected to generate cash flows indefinitely.

The changes in the carrying amount of goodwill since January 3, 2015 are as follows by reporting segment:

(In thousands)	Office Furniture	Hearth Products	Total
Balance as of January 3, 2015			
Goodwill	\$ 149,713	\$ 181,901	\$ 331,614
Accumulated impairment losses	(52,161) (143) (52,304
Net goodwill balance as of January 3, 2015	97,552	181,758	279,310
Goodwill acquired	—	59	59
Foreign currency translation adjustments	5	—	5
Balance as of July 4, 2015			
Goodwill	149,718	181,960	331,678
Accumulated impairment losses	(52,161) (143) (52,304
Net goodwill balance as of July 4, 2015	\$ 97,557	\$ 181,817	\$ 279,374

The Corporation evaluates its goodwill and indefinite-lived intangible assets for impairment on an annual basis during the fourth quarter, or whenever indicators of impairment exist. The Corporation estimates the fair value of its reporting units using various valuation techniques, with the primary technique being a discounted cash flow method. This method employs market participant based assumptions. The increase in the hearth segment relates to a purchase price allocation adjustment for an acquisition completed during the fourth quarter of 2014. The purchase

price allocation adjustments did not have a significant impact on the Corporation's Condensed Consolidated Balance Sheet as of July 4, 2015 or its Condensed Consolidated Statement of Comprehensive Income

for the three months and six months ended July 4, 2015. Therefore, the Corporation has not retrospectively adjusted this financial information. The Corporation will record the final purchase price allocation during the third quarter 2015 upon finalization of deferred taxes associated with the acquisition.

Note H. Product Warranties

The Corporation issues certain warranty policies on its office furniture and hearth products that provide for repair or replacement of any covered product or component that fails during normal use because of a defect in design or workmanship. Reserves have been established for the various costs associated with the Corporation's warranty programs.

A warranty reserve is determined by recording a specific reserve for known warranty issues and an additional reserve for unknown claims that are expected to be incurred based on historical claims experience. Actual claims incurred could differ from the original estimates, requiring adjustments to the reserve. Activity associated with warranty obligations was as follows during the periods noted:

(In thousands)	Six Months Ended	
	July 4, 2015	June 28, 2014
Balance at beginning of period	\$16,719	\$13,840
Accruals for warranties issued during period	10,535	10,465
Adjustments related to pre-existing warranties	349	(14)
Settlements made during the period	(11,139)	(9,248)
Balance at end of period	\$16,464	\$15,043

The portion of the reserve for estimated settlements expected to be paid in the next twelve months was \$8.1 million and \$7.7 million as of July 4, 2015 and June 28, 2014, respectively, and is included in "Accounts payable and accrued expenses" in the Condensed Consolidated Balance Sheets. The portion of the reserve for settlements expected to be paid beyond one year was \$8.4 million and \$7.4 million, as of July 4, 2015 and June 28, 2014, respectively, and is included in "Other Long-Term Liabilities" in the Condensed Consolidated Balance Sheets.

Note I. Postretirement Health Care

The following table sets forth the components of net periodic benefit cost included in the Corporation's Condensed Consolidated Statements of Comprehensive Income for:

(In thousands)	Three Months Ended		Six Months Ended	
	July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014
Service cost	\$201	\$126	\$402	\$252
Interest cost	204	184	408	368
Amortization of (gain)/loss	12	—	71	—
Net periodic benefit cost	\$417	\$310	\$881	\$620

Note J. Income Taxes

The provision for income taxes for the three months ended July 4, 2015 reflects an effective tax rate of 36.4 percent compared to 35.0 percent for the same period last year. The provision for income taxes for the six months ended July 4, 2015 reflects an effective tax rate of 36.7 percent compared to 33.6 percent for the same period last year.

Note K. Derivative Financial Instruments

The Corporation uses derivative financial instruments to reduce its exposure to adverse fluctuations in diesel fuel prices. On the date a derivative is entered into, the Corporation designates the derivative as (i) a fair value hedge, (ii) a cash flow hedge, (iii) a

11

hedge of a net investment in a foreign operation or (iv) a risk management instrument not designated for hedge accounting. The Corporation recognizes all derivatives on its Condensed Consolidated Balance Sheets at fair value.

Diesel Fuel Risk

Independent freight carriers, used by the Corporation to deliver its products, charge the Corporation a basic rate per mile that is subject to a mileage surcharge for diesel fuel price increases. The Corporation enters into variable to fixed rate commodity swap agreements with two financial counterparties to manage fluctuations in fuel costs. The Corporation hedges approximately 50% of its diesel fuel surcharge exposure for the next twelve months. The Corporation uses the hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges, and not to speculate on the future price of diesel fuel. The hedge agreements are designed to add stability to the Corporation's costs, enabling the Corporation to make pricing decisions and lessen the economic impact of abrupt changes in diesel fuel prices over the term of the contract. The hedging instruments consist of a series of financially settled fixed forward contracts with expiration dates ranging up to twelve months. The contracts have been designated as cash flow hedges of future diesel purchases, and as such, the net amount paid or received upon monthly settlements is recorded as an adjustment to freight expense, while the effective change in fair value is recorded as a component of Accumulated other comprehensive income in the equity section of the Corporation's Condensed Consolidated Balance Sheets.

As of July 4, 2015, \$0.3 million of deferred net losses, net of tax, included in equity ("Accumulated other comprehensive income" ("AOCI") in the Corporation's Condensed Consolidated Balance Sheets) related to the diesel hedge agreements are expected to be reclassified to current earnings ("Selling and administrative expenses" in the Corporation's Condensed Consolidated Statements of Comprehensive Income) over the next twelve months.

The location and fair value of derivative instruments reported in the Corporation's Condensed Consolidated Balance Sheets are as follows (in thousands):

	Balance Sheet Location	Asset (Liability) Fair Value	
		July 4, 2015	January 3, 2015
Diesel fuel swap	Accounts payable and accrued expenses	\$ (484) \$ (1,374
Diesel fuel swap	Prepaid expenses and other current assets	—	—
Net balance at end of period		\$ (484) \$ (1,374

The effect of derivative instruments on the Corporation's Condensed Consolidated Statements of Comprehensive Income for the three months ended July 4, 2015 was as follows (in thousands):

Diesel fuel swap	\$ 55) Selling and administrative expenses	\$ 87) Selling and administrative expenses	\$ (4)
Total	\$ 55)	\$ 87)	\$ (4)

The Corporation entered into master netting agreements with the two financial counterparties where they entered into commodity swap agreements that permit the net settlement of amounts owed under their respective derivative contracts. Under these master netting agreements, net settlement of all outstanding contracts with a counterparty in the

case of an event of default or a termination event is allowed. The amounts under the master netting agreement are considered immaterial.

Note L. Fair Value Measurements

For recognition purposes, on a recurring basis the Corporation is required to measure at fair value its marketable securities and derivative instruments. The marketable securities are comprised of government securities, corporate bonds and money market funds. When available the Corporation uses quoted market prices to determine fair value and classifies such measurements within Level 1. Where market prices are not available, the Corporation makes use of observable market-based inputs (prices or quotes from published exchanges/indexes) to calculate fair value using the market approach, in which case the measurements are classified within Level 2.

Assets measured at fair value as of July 4, 2015 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Government securities	\$9,063	\$—	\$9,063	\$—
Corporate bonds	\$2,210	\$—	\$2,210	\$—
Derivative financial instruments	\$(484)	\$—	\$(484)	\$—

Assets measured at fair value as of January 3, 2015 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Government securities	\$9,835	\$—	\$9,835	\$—
Corporate bonds	\$2,205	\$—	\$2,205	\$—
Derivative financial instruments	\$(1,374)	\$—	\$(1,374)	\$—

In addition to the methods and assumptions the Corporation uses to record the fair value of financial instruments as discussed in the section above, it uses the following methods and assumptions to estimate the fair value of its financial instruments.

Cash and cash equivalents - Level 1

The carrying amount approximated fair value and includes money market funds.

Long-term debt (including current portion) - Level 2

The carrying value of the Corporation's outstanding variable-rate, long-term debt obligations at July 4, 2015 and January 3, 2015, the end of the Corporation's 2014 fiscal year, approximated the fair value. The fair value of the Corporation's outstanding fixed-rate, long-term debt obligations is estimated based on discounted cash flow method to be \$151 million at July 4, 2015 and \$154 million at January 3, 2015, compared to the carrying value of \$150 million. This debt is classified as current on the Condensed Consolidated Balance Sheet as of July 4, 2015 due to the timing of maturity. The Corporation plans to refinance at which point the debt classification will move back to long-term.

Note M. Commitments and Contingencies

The Corporation utilizes letters of credit in the amount of \$11 million to back certain insurance policies and payment obligations. The letters of credit reflect fair value as a condition of their underlying purpose and are subject to competitively determined fees.

The Corporation has contingent liabilities which have arisen in the ordinary course of its business, including liabilities relating to pending litigation, environmental remediation, taxes, and other claims. It is the Corporation's opinion that liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, cash flows or on the Corporation's quarterly or annual operating results when resolved in a future period.

Note N. New Accounting Standards

In April 2014, the FASB issued accounting guidance which changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. The guidance is effective for fiscal years beginning on or after December 15, 2014 and interim periods within those annual periods with early adoption allowed. The Corporation adopted the guidance effective January 4, 2015, the beginning of the Corporation's 2015 fiscal year. The guidance did not have a material impact on the Corporation's financial statements.

Note O. Business Segment Information

14

Management views the Corporation as being in two reportable segments based on industries: office furniture and hearth products, with the former being the principal business segment.

The aggregated office furniture segment manufactures and markets a broad line of metal and wood office furniture which includes storage products, desks, credenzas, chairs, tables, bookcases, classroom solutions, freestanding office partitions and panel systems and other related products. The hearth products segment manufactures and markets a broad line of manufactured gas, electric, wood and biomass burning fireplaces, inserts and stoves, facings and accessories, principally for the home.

For purposes of segment reporting, intercompany sales transfers between segments are not material and operating profit is income before income taxes exclusive of certain unallocated corporate expenses. These unallocated corporate expenses include the net cost of the Corporation's corporate operations, interest income and interest expense. Management views interest income and expense as corporate financing costs and not as a reportable segment cost. In addition, management applies an effective income tax rate to its consolidated income before income taxes so income taxes are not reported or viewed internally on a segment basis. Identifiable assets by segment are those assets applicable to the respective industry segments. Corporate assets consist principally of cash and cash equivalents, short-term investments, long-term investments and corporate office real estate and related equipment.

No geographic information for revenues from external customers or for long-lived assets is disclosed since the Corporation's primary market and capital investments are concentrated in the United States.

Edgar Filing: HNI CORP - Form 10-Q

Reportable segment data reconciled to the Corporation's condensed consolidated financial statements for the three and six month periods ended July 4, 2015, and June 28, 2014, is as follows:

(In thousands)	Three Months Ended		Six Months Ended	
	July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Corporation has two reportable segments: office furniture and hearth products. The Corporation is a leading global office furniture manufacturer and North America's leading manufacturer and marketer of gas and wood-burning fireplaces. The Corporation utilizes a split and focus, decentralized business model to deliver value to customers through various brands and selling models. The Corporation is focused on growing existing businesses while seeking out and developing new opportunities for growth.

Net sales for the second quarter of fiscal 2015 increased 11.6 percent to \$568.2 million when compared to the second quarter of fiscal 2014. The change was driven by an increase in office furniture sales across both the supplies-driven and contract channels as well as an increase in hearth product sales in the new construction channel, retail gas portion of the remodel-retrofit channel, and acquisition impact. Gross margin for the quarter increased from prior year levels due to higher volume, increased price realization, lower restructuring and transition charges and strong operational performance, partially offset by unfavorable product mix. Total selling and administrative expenses increased due to strategic investments, incentive based compensation, and acquisition impact.

Restructuring charges for the quarter were favorable \$0.6 million due to lower than anticipated postemployment costs. Second quarter 2014 included \$1.4 million of restructuring costs along with a goodwill impairment of \$8.9 million and a \$1.3 million gain on the sale of assets.

Results of Operations

The following table presents certain key highlights from the results of operations for the periods indicated:

(In thousands)	Three Months Ended			Six Months Ended			
	July 4, 2015	June 28, 2014	Percent Change	July 4, 2015	June 28, 2014	Percent Change	
Net sales	\$568,226	\$509,143	11.6	% \$1,091,703	\$961,344	13.6	%
Cost of sales	362,102	328,010	10.4	% 701,079	625,039	12.2	%
Gross profit	206,124	181,133	13.8	% 390,624	336,305	16.2	%
Selling and administrative expenses	167,278	155,288	7.7	% 335,982	300,498	11.8	%
(Gain) loss on sale of assets	—	(1,346) NM	—	(9,746) NM	
Restructuring and impairment charges	(560) 10,282	NM	(183) 10,254	NM	
Operating income	39,406	16,909	133.0	% 54,825	35,299	55.3	%
Interest expense, net	1,849	2,041	(9.4)% 3,748	4,173	(10.2)%
Income before income taxes	37,557	14,868	152.6	% 51,077	31,126	64.1	%
Income taxes	13,680	5,203	162.9	% 18,748	10,445	79.5	%
Net income	\$23,877	\$9,665	147.0	% \$32,329	\$20,681	56.3	%

Consolidated net sales for the second quarter of 2015 increased 11.6 percent or \$59.1 million compared to the same quarter last year. The change was driven by an increase in office furniture sales across both the supplies-driven and

contract channels as well as an increase in hearth product sales driven by growth in the new construction channel, the retail gas portion of the remodel/retrofit channel, and acquisition impact.

Gross margin for the second quarter of 2015 increased to 36.3 percent compared to 35.6 percent for the same quarter last year. The increase in gross margin was driven by higher volume, increased price realization, lower restructuring and transition costs and strong operational performance, partially offset by unfavorable product mix. Second quarter 2015 included \$1.3 million of transition

costs related to previously announced closures, acquisition integration and structural realignment. Second quarter 2014 included \$3.4 million of accelerated depreciation and transition costs related to previously announced closures.

Total selling and administrative expenses as a percentage of net sales decreased to 29.4 percent compared to 30.5 percent for the same quarter last year. The benefit of higher volume was partially offset by strategic investments, incentive based compensation, and acquisition impact. In the second quarter of 2015, the Corporation recorded a \$0.6 million reduction in restructuring costs due to lower than anticipated postemployment costs on previously announced closures. Second quarter 2014 included \$1.4 million of restructuring costs on these closures along with a pre-tax goodwill impairment expense of \$8.9 million and a \$1.3 million pre-tax gain on the sale of assets.

The provision for income taxes for continuing operations for the three months ended July 4, 2015 reflects an effective tax rate of 36.4 percent compared to 35.0 percent for the same period last year, driven mainly by higher state taxes.

Net income attributable to the Corporation was \$23.9 million or \$0.52 per diluted share in the second quarter of 2015 compared to \$9.7 million or \$0.21 per diluted share in the second quarter of 2014.

For the first six months of 2015, consolidated net sales increased \$130.4 million, or 13.6 percent, to \$1.1 billion from \$1.0 billion from the first six months of 2014 driven by an increase in office furniture sales across both the supplies-driven and contract channels as well as an increase in hearth product sales driven by growth in the new construction channel, the retail gas portion of the remodel/retrofit channel, and acquisition impact. Gross margins increased to 35.8 percent from 35.0 percent for the same period last year driven by higher volume, increased price realization, lower restructuring and transition costs and strong operational performance, partially offset by unfavorable product mix.

For the first six months of 2015, total selling and administrative expenses as a percentage of net sales decreased to 30.8 percent compared to 31.3 percent for the same period last year. The benefit of higher volume was partially offset by strategic investments, incentive based compensation and acquisition impact. In 2015, the Corporation recorded a \$0.2 million reduction in restructuring costs associated with expense from previously announced closures which was more than offset by lower than anticipated postemployment costs. In the same period last year, the Corporation recorded \$1.4 million of restructuring expenses associated with facility closures, a goodwill impairment of \$8.9 million and \$9.7 million in gains on the sale of assets.

Net income attributable to HNI Corporation was \$32.4 million for the first six months of 2015 compared to \$20.8 million for the first six months of 2014. Earnings per share increased to \$0.71 per diluted share compared to \$0.45 per diluted share for the same period last year.

Office Furniture

Second quarter 2015 sales for the office furniture segment increased 6.4 percent or \$27.2 million to \$450.6 million from \$423.4 million for the same quarter last year. Sales for the quarter increased across both the supplies-driven and contract channels. Second quarter 2015 operating profit prior to unallocated corporate expenses increased 118.1 percent or \$21.5 million to \$39.8 million from \$18.2 million in the prior year quarter as a result of higher volume, increased price realization, lower restructuring and transition costs and strong operational performance. These factors were partially offset by by unfavorable product mix, strategic investments and incentive based compensation. In the second quarter of 2015, the office furniture segment recorded \$0.2 of restructuring and transition costs associated with previously announced facility closures. In the second quarter of 2014, the office furniture segment recorded \$4.8 million of restructuring and transition costs for these closures along with an \$8.9 million goodwill impairment.

Net sales for the first six months of 2015 increased 9.8 percent or \$76.3 million to \$858.1 million compared to \$781.8 million

for the same period in 2014 driven by growth in both channels. Operating profit for the first six months of 2015 increased 72.6 percent or \$25.2 million to \$59.9 million compared to \$34.7 million for the same period in 2014 driven by the same drivers experienced in the current quarter plus an \$8.4 million gain on the sale of a vacated facility during the first quarter of 2014.

Hearth Products

Second quarter 2015 net sales for the hearth products segment increased 37.2 percent or \$31.9 million to \$117.6 million from \$85.7 million for the same quarter last year. The change was driven by continued growth in the new construction channel along with growth in the retail gas portion of the remodel/retrofit channel. The Vermont Castings Group acquisition increased sales \$25.0 million compared to the prior year quarter. Operating profit prior to unallocated corporate expenses increased 31.6 percent

or \$2.7 million to \$11.2 million compared to \$8.5 million in the prior year quarter due to higher volume and better price realization, partially offset by strategic investments and acquisition integration.

Net sales for the first six months of 2015 increased 30.1 percent or \$54.1 million to \$233.7 million compared to \$179.6 million

for the same period in 2014. The Vermont Castings Group acquisition increased sales \$44.0 million compared to prior year. Operating profit for the first six months of 2015 increased \$3.5 million to \$23.7 million compared to \$20.2 million for the same period in 2014. The year-to-date increases in sales and operating profit were driven by the same drivers experienced in the current quarter.

Liquidity and Capital Resources

Cash Flow – Operating Activities

Operating activities used \$31.9 million of cash in the first six months of 2015 compared to \$7.0 million in the first six months of 2014. Working capital resulted in a \$106.6 million use of cash in the first six months of the current fiscal year compared to a \$62.4 million use of cash in the same period of the prior year. The increased use of cash compared to prior year is due to timing of expenses resulting in lower Accounts Payable and Accruals and higher sales volume driving an increase in Accounts Receivable. Cash flow from operating activities is expected to be positive for the year.

Cash Flow – Investing Activities

Capital expenditures, including capitalized software, for the first six months of fiscal 2015 were \$49.9 million compared to \$51.1 million in the same period of fiscal 2014 and were primarily for tooling, equipment and capacity for new products, continuous improvements in manufacturing processes and the on-going implementation of new integrated information systems to support business process transformation. For the full year 2015, capital expenditures are expected to be approximately \$110 to \$115 million, primarily related to new products, operational process improvements and capabilities and the business process transformation project referred to above.

During the first quarter of 2014 the Corporation completed the sale of a facility located in South Gate, California. The proceeds from the sale of \$12.0 million are reflected in the Condensed Consolidated Statement of Cash Flows as "Proceeds from sale of property, plant and equipment".

Cash Flow – Financing Activities

The Corporation, certain subsidiaries of the Corporation, the lenders and Wells Fargo Bank, National Association, as administrative agent, entered into a second Amended and Restated Credit Agreement (the "Credit Agreement") on June 9, 2015. The Credit Agreement amends and restates the Corporation's existing revolving credit facility dated September 28, 2011 (the "Existing Facility").

The Corporation's borrowing capacity under the Credit Agreement remained at \$250 million with the option to increase its borrowing capacity by an additional \$150 million versus \$100 million in the Existing Facility to the maturity date of the Corporation's Senior Notes (April 6, 2016), subject to certain exceptions.

The net borrowings under the revolving credit agreement at the end of the second quarter were \$154 million of which all are classified as current. The Corporation also extended the term of the Existing Facility under the Credit Agreement from September 28, 2016 to the earlier of June 9, 2020 or 90 days prior to the maturity date of the Corporation's senior notes (April 6, 2016), unless the Corporation's senior notes are refinanced by January 6, 2016 or the Corporation has \$225 million in liquidity available (as defined in the Credit Agreement) as of that date.

The Credit Agreement governing the Corporation's revolving credit facility contains a number of covenants, including covenants requiring maintenance of the following financial ratios as of the end of any fiscal quarter:

a consolidated interest coverage ratio of not less than 4.0 to 1.0, based upon the ratio of (a) consolidated EBITDA (as defined in the Credit Agreement) for the last four fiscal quarters to (b) the sum of consolidated interest charges; and a consolidated leverage ratio of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the Credit Agreement) to (b) consolidated EBITDA for the last four fiscal quarters.

The note purchase agreement pertaining to the Corporation's Senior Notes also contains a number of covenants, including a covenant requiring maintenance of consolidated debt to consolidated EBITDA (as defined in the note purchase agreement) of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the note purchase agreement) to (b) consolidated EBITDA for the last four fiscal quarters.

Additional borrowing capacity of \$96.0 million is available through the revolving credit facility. The revolving credit facility is the primary source of committed funding from which the Corporation finances its planned capital expenditures and strategic initiatives, such as acquisitions, repurchases of common stock and certain working capital needs. Non-compliance with the various financial covenant ratios in the revolving credit facility or the Senior Notes could prevent the Corporation from being able to access further borrowings under the revolving credit facility, require immediate repayment of all amounts outstanding with respect to the revolving credit facility and Senior Notes and/or increase the cost of borrowing.

The most restrictive of the financial covenants is the consolidated leverage ratio requirement of 3.5 to 1.0 included in the Credit Agreement. Under the Credit Agreement, consolidated EBITDA is defined as consolidated net income before interest expense, income taxes and depreciation and amortization of intangibles, as well as non-cash, nonrecurring charges and all non-cash items increasing net income. At July 4, 2015, the Corporation was well below the maximum allowable ratio and was in compliance with all of the covenants and other restrictions in the Credit Agreement and the note purchase agreement. The Corporation currently expects to remain in compliance over the next twelve months.

On May 5, 2015 the Corporation's Board of Directors ("Board") approved a 6.0 percent increase in the common stock quarterly cash dividend from \$0.25 per share to \$0.265 per share. The dividend was paid May 29, 2015 to shareholders of record at the close of business on May 15, 2015.

During the six months ended July 4, 2015, the Corporation repurchased 305,000 shares of common stock at a cost of \$15.2 million, or an average price of \$49.84 per share. As of July 4, 2015, \$204.2 million of the Board's current repurchase authorization remained unspent.

Cash, cash equivalents and short-term investments, coupled with cash from future operations, borrowing capacity under the existing facility and the ability to access capital markets, are expected to be adequate to fund operations and satisfy cash flow needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Corporation does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on the Corporation's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations

Contractual obligations associated with ongoing business and financing activities will result in cash payments in future periods. A table summarizing the amounts and estimated timing of these future cash payments was provided in the Corporation's Annual Report on Form 10-K for the year ended January 3, 2015. During the first six months of fiscal 2015, there were no material changes outside the ordinary course of business in the Corporation's contractual obligations or the estimated timing of the future cash payments.

Commitments and Contingencies

The Corporation is involved in various kinds of disputes and legal proceedings that have arisen in the ordinary course of business, including pending litigation, environmental remediation, taxes and other claims. It is the Corporation's opinion, after consultation with legal counsel, that additional liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, cash flows or on the Corporation's quarterly or annual operating results when resolved in a future period.

Critical Accounting Policies

The preparation of the financial statements requires the Corporation to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Corporation continually evaluates its accounting policies and estimates. The Corporation bases its estimates on historical experience and on a variety of other assumptions believed by management to be reasonable in order to make judgments about the carrying value of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. A summary of the

more significant accounting policies that require the use of estimates and judgments in preparing the financial statements is provided in the Corporation's Annual Report on Form 10-K for the year ended January 3, 2015.

New Accounting Standards

In May 2014, the FASB issued accounting guidance which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The core principle of the revenue model is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. In July 2015, the FASB deferred the effective date of this guidance by one year, with early adoption permitted on the original effective date. The Corporation is currently evaluating the impact of adopting this standard and the method of adoption on its financial statements.

Looking Ahead

Management remains optimistic about the office furniture and hearth products markets. Management believes the Corporation is well positioned to drive sales and significantly increase profits in 2015.

The Corporation continues to focus on creating long-term shareholder value by growing its businesses through investment in building brands, product solutions and selling models, enhancing its strong member-owner culture and continuing to execute its long-standing continuous improvement discipline to build best total cost and a lean enterprise.

Forward-Looking Statements

Statements in this report that are not strictly historical, including statements as to plans, outlook, objectives and future financial performance, are "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words, such as "anticipate," "believe," "could," "confident," "estimate," "expect," "forecast," "hope," "intend," "likely," "may," "plan," "possible," "potential," "predict," "project," "should," "will," "would" and variations of such words and similar expressions identify forward-looking statements. Forward-looking statements involve known and unknown risks, which may cause the Corporation's actual results in the future to differ materially from expected results. These risks include, without limitation: the Corporation's ability to realize financial benefits from its (a) price increases, (b) cost containment and business simplification initiatives, including its business system transformation, (c) investments in strategic acquisitions, production capacity, new products and brand building, (d) investments in distribution and rapid continuous improvement, (e) ability to maintain its effective tax rate, (f) repurchases of common stock and (g) consolidation and logistical realignment initiatives; uncertainty related to the availability of cash and credit, and the terms and interest rates on which credit would be available, to fund operations and future growth; lower than expected demand for the Corporation's products due to uncertain political and economic conditions, slow or negative growth rates in global and domestic economies or in the domestic housing market; lower industry growth than expected; major disruptions at our key facilities or in the supply of any key raw materials, components or finished goods; competitive pricing pressure from foreign and domestic competitors; higher than expected costs and lower than expected supplies of materials; higher costs for energy and fuel; changes in the mix of products sold and of customers purchasing; relationships with distribution channel partners, including the financial viability of distributors and dealers; restrictions imposed by the terms of the Corporation's revolving credit facility and note purchase agreement; currency fluctuations and other

factors described in the Corporation's annual and quarterly reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q. The Corporation undertakes no obligation to update, amend, or clarify forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of July 4, 2015, there were no material changes to the financial market risks that affect the quantitative and qualitative disclosures presented in Item 7A of the Corporation's Annual Report on Form 10-K for the year ended January 3, 2015.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure information required to be disclosed by the Corporation in the reports it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Corporation carried out an evaluation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rules 13a – 15(e) and 15d – 15(e). As of July 4, 2015, based on this evaluation, the chief executive officer and chief financial officer have concluded these disclosure controls and procedures are effective.

Changes in Internal Controls

There have been no changes in the Corporation's internal control over financial reporting during the fiscal quarter covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There are no new legal proceedings or material developments to report other than ordinary routine litigation incidental to the business.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Corporation's Annual Report on Form 10-K for the year ended January 3, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities:

The following is a summary of share repurchase activity during the quarter ended July 4, 2015.

Period	(a) Total Number of Shares (or Units) Purchased (1)	(b) Average Price Paid per Share or Unit	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plans or Programs
