PAR TECHNOLOGY CORPORATION REPORTS THIRD QUARTER RESULTS
REVENUES GROW 13%
NET INCOME FROM CONTINUING OPERATIONS RISE 18%

NEW HARTFORD, NY, PAR TECHNOLOGY CORPORATION (NYSE:PTC)

(New Hartford, NY- October 30, 2003) PAR Technology Corporation (NYSE: PTC), a provider of integrated hardware, software and service solutions to the restaurant and hospitality industries and of government information-technology services, today reported financial results for the third quarter ended September 30, 2003.

Edgar Filing: PAR TECHNOLOGY CORP - Form 8-K

For the third quarter ended September 30, 2003, PAR Technology Corporation reported revenues of \$36.0 million compared to \$31.8 million in the third quarter 2002, an increase of 13%. Income from continuing operations was \$858,000, an 18% increase over the \$726,000 earned in the third quarter one year ago. The Company reported diluted income from continuing operations per share of \$0.10 for this past quarter, compared to the \$0.09 reported for the same period a year earlier.

For the nine months ended September 30, 2003, PAR Technology Corporation reported revenues of \$98.6 million, compared to the \$99.4 million reported one year ago. The Company also reported income from continuing operations of \$1.5 million in the first nine months of 2003 versus \$2.3 million for the first nine months of 2002. Diluted income from continuing operations per share for the first nine months of 2003 was reported at \$0.17, compared to diluted income from continuing operations per share of \$0.28 reported for the same period in 2002.

Net income for the quarter ended September 30, 2003 was \$813,000 and \$0.09 diluted net income per share, in contrast to a net loss of \$268,000 or \$0.03 diluted net loss per share for the same quarter in 2002. The net income results for the nine months ended September 30, 2003 were \$1.4 million or \$0.15 diluted net income per share, compared to net income of \$431,000 and \$0.05 diluted net income per share for the same period in 2002.

"We are pleased with our performance this quarter, having weathered a difficult climate for selling software, hardware and services to restaurant and hospitality enterprises over the past year. We have seen increasing interest and activity in this sector of our business as reflected in product sales being up 18% for the quarter," said PAR Technology Chairman and CEO, John W. Sammon. "Additionally, we experienced a 10% increase in our government contracts business in spite of a funding hiatus in our Logistics Management project. Companywide, we expect to continue to execute and improve on the plan we laid out at the beginning of the year."

Forward-looking statements in this release, including forward-looking statements regarding our expected performance for the remainder of this fiscal year, are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that all forward-looking statements involve risks and uncertainties, including without limitation, further delays in new product introduction; risks in technology development and commercialization; risks in product development and market acceptance of, and demand for, the Company's products; risks associated with government contracts; risks of downturns in economic conditions generally, and in the quick service sector of the restaurant market specifically; risks of intellectual property rights and litigation; risks associated with foreign sales and high customer concentration; risks associated with competition and competitive pricing pressures; and other risks detailed in the Company's filings with the Securities and Exchange Commission. Any forward-looking statements should be considered in light of all of these factors. The information contained in this release is applicable only today and should thereafter be considered historical and will no longer constitute PAR's current expectations. PAR undertakes no obligation to update information contained in this release.

PAR is a provider of professional services and enterprise business intelligence hardware and software systems.
