Item 5. Other Events.

Drilling of Bohr Prospect Well in Gulf of Mexico  
-----

The Company has completed drilling operations on the Bohr prospect at Mississippi Canyon block 637 in the deepwater Gulf of Mexico.

Edgar Filing: UNOCAL CORP - Form 8-K

The Bohr well has been temporarily abandoned. Based on the initial understanding from the well, it appears unlikely that the well encountered commercial quantities of oil and gas. Additional analysis and evaluation will be required to determine the potential commerciality of the overall prospect. Unocal was operator of the Bohr well and holds a 27.5 percent working interest in the prospect, which covers four blocks. Unocal will record a charge to earnings for its net cost of the well in the first quarter 2003 results.

The Company estimates that the total pre-tax dry hole expense for the first quarter 2003 will approximate \$60 million.

Item 7. Financial Statements and Exhibits.
