ITEM 8.01 OTHER EVENTS.

On February 8, 2006, Cytogen Corporation ("Cytogen") and Savient Pharmaceuticals, Inc. ("Savient") announced the execution of a binding letter of intent to negotiate a definitive agreement granting Cytogen exclusive marketing rights for SOLTAMOX(TM) (tamoxifen citrate) in the United States. SOLTAMOX, a cytostatic estrogen receptor antagonist, is the first oral liquid hormonal therapy approved in the U.S. It is indicated for the treatment of breast cancer in adjuvant and metastatic settings and to reduce the risk of breast cancer in women with ductal carcinoma in situ (DCIS) or with high risk of breast cancer.

Under the terms of the final transaction, Cytogen will pay to Savient upon closing an upfront licensing fee of \$2 million and additional contingent sales-based milestone payments of up to a total of \$4 million. Savient will also receive royalties on net sales of SOLTAMOX. Additionally, Rosemont Pharmaceuticals Ltd. ("Rosemont"), a wholly owned subsidiary of Savient, will enter into a supply agreement with Cytogen for the manufacture and supply of SOLTAMOX. Consummation of the transaction, which has been approved by the boards of directors of both companies, is subject to a number of conditions, including satisfactory completion of due diligence by Cytogen and negotiation and execution of definitive licensing and supply agreements by Cytogen, Savient and Rosemont.

These matters were announced in a press release issued February 8, 2006, which is attached hereto as Exhibit 99.1.
