THE COMPANY

The Company is a global provider of digital power control systems that are used to control motion and power primarily in material handling, elevator, and mining applications. Magnetek is listed on the NASDAQ Global Market (NASDAQ: MAG) and was founded in 1984 as a Delaware corporation. The Company's digital power control systems serve the needs of selected niches of traditional and emerging markets that are becoming increasingly dependent on "smart" power. Over the past ten years, the Company has successfully transitioned from a component supplier to a provider of systems solutions. Today, much of the Company's focus is on developing and introducing innovative electronic drive solutions that both enhance its customers' operational efficiency and save energy. Its products are sold directly or through manufacturers' representatives to original equipment manufacturers ("OEMs") for incorporation into their products, to system integrators and value-added resellers for assembly and incorporation into end-user systems, to distributors for resale to OEMs and contractors, and to end users for repair and replacement purposes. The Company's principal executive offices are located at N49 W13650 Campbell Drive, Menomonee Falls, Wisconsin 53051, telephone number (262) 783-3500. Its internet address is www.magnetek.com.

RISK FACTORS

Certain information set forth or incorporated by reference in this Prospectus includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and is subject to certain risks and uncertainties, including those identified under this caption. Readers are cautioned not to place undue reliance on these statements, which speak only as of the date hereof. The Company undertakes no obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect unanticipated events or developments.

In addition to the other information included elsewhere in this Prospectus, the following factors should be considered carefully in evaluating an investment in the Securities offered by this Prospectus.

Economic conditions, primarily in the U.S., may adversely affect our served markets, our business, demand for our products, and our results of operations and cash flows

Demand for our products, which impacts our revenue and gross profit, is affected by general business and economic conditions as well as by changes in customer order patterns. Adverse developments in business conditions, economic activity, or capital spending levels could result in reduced demand for our products and impair our ability to accurately forecast and plan future business activities. We cannot predict the timing, duration, or strength of any economic recovery or the timing, duration, or severity of a subsequent economic slowdown, worldwide, in the U.S., or in the specific end markets we serve. In the event of a future prolonged slowdown in economic activity, our business, financial condition, results of operations, and cash flows could be adversely and materially affected. Additionally, our stock price could decrease if investors have concerns that our business and financial condition will be negatively impacted by weakening economic conditions.

We operate in a highly competitive industry

We operate in a competitive industry characterized by periodic changes in technology, product demand, prices and lead times. Our future profitability depends on our ability to successfully identify and react to these changing trends. Specifically, achievement of our sales and profit goals is dependent in part upon our ability to successfully anticipate product demand, to introduce quality products to meet that demand in a timely manner at competitive prices, to gain acceptance of our products in the marketplace, to achieve cost reductions during the product life cycle, and to adapt our existing product platforms in the event of changes in technology. Failure to do so could result in low returns on investment in new products and technologies, a loss of competitive position relative to our peers, obsolete products and technologies, and an adverse impact on our operating results. In addition, price erosion in response to competition in our served markets could have a material impact on our financial position or results of operations.

Our future sales growth is partially dependent on the successful introduction of new products

Achievement of our Company objectives of sales growth of at least 5% on a year-over year basis and gross margins in excess of 35% are in part dependent upon the successful introduction of new products, acceptance of these new products by customers in those markets, and successful cost reduction efforts related to new products. Any delay in introduction of new products, customer acceptance of new products, or cost reduction actions could have an adverse impact on our financial position or results of operations.

Changes in technology could reduce demand for our products

We believe that our intellectual property is equal or superior to our competitors' and we do not know of any new technologies that could cause a shift away from digital power electronic solutions in the end markets we serve. However, major advancements in digital power electronic technologies by competitors or the advent of technologies obviating digital power-electronic solutions could have an adverse effect on our financial position or results of operations.

The loss of one or more major customers could adversely affect our results of operations or financial condition

We rely on several large customers for a significant portion of our sales. While we have taken actions to diversify our customer base, we have three customers whose purchases from us represented in the aggregate approximately 13% of our net sales in fiscal 2013. The loss of one or more of these customers or significant decreases in these customers' purchase levels could have an adverse effect on our business and on our results of operations.

Certain of our competitors have substantially greater resources and greater global reach than us

We compete with crane and hoist drive manufacturers and drive system integrators, radio control manufacturers, elevator drive manufacturers and control system integrators, and mining machinery drive builders. The total number of such enterprises with whom we compete directly is believed to be fewer than 100. However, certain of our competitors are significantly larger and have substantially greater resources than we do, and some are global in scope, whereas we currently compete primarily in the North American market.

We have significant pension liabilities and funding obligations

Our defined benefit pension plan was underfunded as of December 29, 2013, due primarily to reductions in interest rates over the past decade, which impact the discount rate used to estimate the net present value of our pension obligations. Current actuarial estimates indicate that we will be required to make significant contributions to our defined benefit pension plan, which may consume the majority of our cash generated from operations for the next several years.

In addition, changes in interest rates, investment returns, mortality assumptions, and other factors could adversely affect the funded status of our pension plan in the future and require that we contribute additional cash to the pension plan over and above the amounts currently estimated. Such volatility could also increase pension expense in periods beyond fiscal 2013. As a result, we may be required to seek additional sources of cash to fund both our operations and our required pension contributions.

We may seek additional capital through private or public sales of equity, debt or convertible debt securities, which could have negative effects on our existing investors

We may seek to raise additional funding through equity or certain forms of debt financing in the future that could dilute the percentage ownership held by existing stockholders. In addition, new investors may demand rights or privileges that are preferable to, or senior to, those of our existing stockholders, such as interest payments, dividends or warrants, as a condition to completing a transaction that provides us with capital.

We may have limited access to additional financing

Macroeconomic conditions several years ago led to volatility in security prices, the failure of financial institutions, diminished liquidity and credit availability, and deflation in the valuation of investment vehicles across varied asset classes.

In the event capital and credit markets again become illiquid and the availability of funds becomes limited, we could incur increased costs associated with future equity or debt financing transactions. Our ability to access the capital and credit markets may be limited by these or other factors unique to our Company. Limited access to financing opportunities in the future could have a material adverse impact on our ability to fund our operations or meet our corporate obligations.

We are subject to credit risk

We are exposed to the credit risk of our customers, including risk of bankruptcy, and are subject to losses from uncollectable accounts receivable. If the financial condition of any of our customers deteriorates and impairs their ability to make payments, we could incur future write-offs of accounts receivable that could have a material impact on our financial position, results of operations, or cash flows.

We are reliant on suppliers

We purchase raw materials and subassemblies used in our products from third-party suppliers, and also purchase finished goods for resale to customers from third-party subcontractors. If our suppliers or subcontractors cannot meet their commitments to us in terms of price, delivery, or quality, it may negatively impact our ability to meet our commitments to our customers. This could result in disruption of production, delay in shipments to customers, higher material costs, quality issues with our products and damage to customer relationships. In addition, increases in the cost of raw materials purchased from third-party suppliers could negatively impact our gross profit and results of operations.

We may face claims of infringement on the intellectual property of others, or others may infringe upon our intellectual property

Our future success depends in part on our ability to prevent others from infringing on our proprietary rights, as well as our ability to operate without infringing upon the proprietary rights of others. We may be required at times to take legal action to protect our proprietary rights and, despite our best efforts, we may be sued for infringing on the patent rights of others. Patent litigation is costly and, even if we prevail, the cost of such litigation could adversely affect our financial condition. In addition, we could be adversely affected financially should we be judged to have infringed upon the intellectual property of others.

We may suffer losses resulting from legal and environmental issues

Our results of operations could be adversely impacted by pending and future litigation, including claims related to, but not limited to, product liability, patent infringement, contracts, employment and labor issues, personal injury, and property damage, including damage to the environment.

In some cases, we have agreed to provide indemnification against legal and environmental liabilities and potential liabilities associated with operations that we have divested, including certain motor, generator, lighting ballast, transformer, drive and power supply manufacturing operations. If we are required to make payments under such indemnification obligations, such payments could have a material adverse impact on our financial position, results of operations, or cash flows. Further, we have been indemnified against potential legal and environmental liabilities and potential liabilities associated with operations that we have acquired, including lighting ballast, transformer, capacitor, and crane brake manufacturing operations that were subsequently divested. If not borne by the indemnifying party, such liabilities, if any, could be borne by us and have an adverse effect on our financial position or results of operations.

Ordinary transfers of our common stock between stockholders could result in an ownership change as defined in Section 382 of the Internal Revenue Code, limiting our ability to fully utilize our net operating loss carryforwards for U.S. federal tax purposes

We had net operating loss (“NOL”) carryforwards for U.S. federal tax purposes of \$227 million as of December 29, 2013. Our NOLs have a carryforward period of 20 years with expiration dates ranging from 2019 to 2033. We anticipate that no federal income tax liability, other than alternative minimum tax, would be recorded if and when we generate U.S. taxable income and such carryforwards are utilized.

We periodically evaluate whether ordinary transfers of our common stock between stockholders have resulted in an ownership change as defined in Section 382 of the Internal Revenue Code. Based on available information, we have determined that no such ownership change has occurred. If such ownership change had occurred, utilization of the Company’s NOLs would be subject to annual limitation provisions per the Internal Revenue Code and similar state laws. Such annual limitations could defer the utilization of NOL carryforwards and accelerate payment of federal income taxes, and could result in the expiration of a portion of the NOL carryforwards before utilization. An ownership change under Section 382 of the Internal Revenue Code would not have a material adverse effect on our results of operations or financial position, as we have provided a full valuation allowance against substantially all of our deferred tax assets. Ordinary transfers of our common stock between stockholders in future periods could result in an ownership change in such periods and accordingly, at that time, limit the utilization of our NOLs as described above.

THE OFFERING

All of the Securities are subject to the restrictions on transfer in and other terms of the Registration Rights Agreement. Under the Registration Rights Agreement, Evercore may only direct the Selling Stockholder through SPTC to transfer shares of Common Stock in certain types of transactions and under certain circumstances, including pursuant to the Registration contemplated hereby or pursuant to Rule 144 under the Securities Act.

The Securities are being registered by the Company under the Registration Rights Agreement, pursuant to which the Company agreed, among other things, to file a Registration Statement for the sale of the shares of Common Stock offered hereby. The Company is generally required to bear the expenses of the registration of the shares of Common Stock offered hereby, including, without limitation, registration fees and legal and accounting fees. Underwriting discounts, brokerage fees, commissions and transfer taxes will be the responsibility of the Pension Plan. To date, expenses of the registration of the shares of Common Stock offered hereby are estimated at \$72,193, all of which will be paid by the Company. The Company has agreed to indemnify Evercore against certain liabilities under the Securities Act.

Prohibited transactions under Title I of the Employee Retirement Income Security Act of 1974 (“ERISA”) and Section 4975 of the Internal Revenue Code of 1986, as amended (the “Code”), could arise if, absent an available exemption, a person or entity which is a “party in interest,” as defined under ERISA, or a “disqualified person,” as defined under the Code, were to purchase any of the Securities being offered by the Selling Stockholder. Any such potential purchaser should consult with counsel in order to determine whether an exemption is available with respect to any such purchase.

SELLING STOCKHOLDER

The Selling Stockholder is the Magnetek FlexCare Plus Retirement Plan Trust, the funding vehicle for the Pension Plan. The Pension Plan is a defined benefit plan for the purposes of ERISA and is designed to provide employee participants with retirement income related to their salary and years of active service. SPTC is the trustee of the Trust. Evercore acts as investment manager of a segregated account of the Trust established pursuant to the Pension Plan, in which the shares of Common Stock offered hereby are held. Both SPTC and Evercore receive customary compensation for serving as directed trustee and investment manager, respectively.

Evercore acts as investment manager pursuant to an investment management agreement with the Company and the Committee. In accordance with the terms of the investment management agreement, Evercore is responsible for the management and disposition of the shares of Common Stock of the Company held by the Trust and is a fiduciary of the Trust. Evercore, in exercising its fiduciary duty, will decide whether or not, and under what terms, it will direct the Selling Stockholder through SPTC to sell the shares of Common Stock offered hereby. The Company has contributed the Securities to the Trust pursuant to a contribution agreement between the Company and Evercore. The Company did not receive any cash proceeds from the contribution of the Securities, although the contribution of the Securities reduced the Company’s future funding obligations with respect to the Pension Plan. The proceeds of any sales of the Securities by the Selling Stockholder will be retained by the Selling Stockholder and used for the benefit of employees and retirees of the Company who participate in the Pension Plan and their beneficiaries.

At the date of this Prospectus, the Trust beneficially owned 250,000 shares of Common Stock, representing approximately 7.1% of the Company’s outstanding shares of Common Stock. The Trust is offering 250,000 shares of Common Stock for sale pursuant to this offering, and assuming that all such shares are sold, the Trust will beneficially own none of the outstanding shares of Common Stock after completion of this offering.

Item 15. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law permits corporations to indemnify directors and officers. The statute generally requires that to obtain indemnification the director or officer must have acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation; and, additionally, in criminal proceedings, that the officer or director had no reasonable cause to believe his conduct was unlawful. In any proceeding by or in the right of the corporation, no indemnification may be provided if the director or officer is adjudged liable to the corporation (unless ordered by the court). Indemnification against expenses actually and reasonably incurred by a director or officer is required to the extent that such director or officer is successful on the merits in the defense of the proceeding.

The Registrant's Amended and Restated By-laws (the "By-laws") provide generally for indemnification, to the fullest extent permitted by Delaware law, of a director and officer who was or is a party or is threatened to be made a party to or is involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a "proceeding"), by reason of the fact that he or she is or was a director or officer of the company or was serving at the request of the company as a director, officer, employee or agent of certain other related entities. The By-laws provide that the indemnification will cover all costs, charges, expenses, liabilities and losses reasonably incurred by the director or officer. The By-laws further provide that a director or officer has the right to be paid expenses incurred in defending a proceeding, except the amount of any settlement, in advance of its final disposition upon receipt by us of an undertaking from the director or officer to repay the advances if it is ultimately determined that he or she is not entitled to indemnification.

The Registrant's directors and officers are also covered by insurance policies indemnifying them (subject to certain limits and exclusions) against certain liabilities, including certain liabilities arising under the Securities Act, which might be incurred by them in such capacities and against which they cannot be indemnified by the Registrant. Indemnification may also be granted pursuant to provisions of the By-laws that may be adopted in the future, pursuant to the terms of agreements that may be entered into in the future or pursuant to a vote of stockholders or disinterested directors.

The description of the Registrant's By laws contained in the preceding paragraphs is qualified in its entirety by reference to the Registrant's By laws (filed with the Commission as Exhibit 3.2 to the Registrant's Current Report on Form 8-K filed on August 8, 2014), which is incorporated by reference herein.

Item 17. Undertakings

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this Registration Statement shall be deemed to be a new registration statement relating to the securities offered thereby and the offerings of such securities at the time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matters has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement;

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

To reflect in the Prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(ii) To include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement;

provided, however, that paragraphs (1)(i) and (1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the

Commission by the registrant

pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
