Director Independence

The Board reviewed the independence of the Company's directors in February 2004 on the basis of the standards adopted by the NASDAQ. In this review, the Board considered transactions and relationships between each director, and any member of his or her immediate family and of the Company or the Bank and between certain entities in which any director or any immediately family member has certain interest, on the one hand and the Company or the Bank, on the other hand. The purpose of this review was to determine which of such transactions or relationships were inconsistent with a determination that the director is independent under the NASDAQ rules.

As a result of the review, the Board affirmatively determined that all of the directors are independent of the Company, the Bank and under the NASDAQ rules with the exception of President Daigneault.

About the Board of Directors and Its Committees

As of the date of this Proxy Statement, First National Lincoln Corporation had a Board comprised of ten directors. During 2003 there were 12 regular Board meetings, one special Board meeting and one Annual Meeting. All directors attended at least 75% of Board meetings and meetings held by Committees of which they were members in 2003, and the aggregate attendance at Board and Committee meetings by all members of the Board of Directors in 2003 was in excess of 90%. All Directors are expected to attend the Annual Meeting of Shareholders, and all Directors were in attendance at the 2003 Annual Meeting.

There are three standing committees of the Company's Board of Directors: Audit, Options and Nominating.

Audit Committee. The members of the Company's Audit Committee are David B. Soule, Jr., Chairman, Dana L. Dow, Robert B. Gregory and Randy A. Nelson. This committee met four times during 2003. The Company's Audit Committee receives and reviews reports on examinations and accounting audits of the Company, and works to ensure the adequacy of operating practices, procedures and controls. The Company's Board of Directors has adopted a written charter for the Company's Audit Committee.

Nominating Committee. The members of the Company's Nominating Committee consisted of Malcolm E. Blanchard, Chair, Robert B. Gregory, Carl S. Poole, Jr., and Stuart G. Smith. This committee met three times during 2003. The Company's Nominating Committee is responsible for the nomination of Board of Director members, establishing the tenure and the retirement policies for members of the Board of Directors and reviewing the Board of Directors' overall effectiveness. Each of the members of the Nominating Committee is independent as defined under the listing standards of the NASDAQ stock market.

Options Committee. The members of the Company's Options Committee consisted of Malcolm E. Blanchard, Chair, Robert B. Gregory, Carl S. Poole, Jr., and Stuart G. Smith. This committee met one time during 2003. The Company's Options Committee is responsible for administering the 1995 Stock Option Plan which provides for grants of incentive stock options to purchase Company common stock.

Compensation Committee. The Company's Compensation Committee is a standing committee of the Bank's Board of Directors since all executive compensation is paid by the Bank. The Committee consisted of Malcolm E. Blanchard, Chair, Robert B. Gregory, Carl S. Poole, Jr., and Stuart G. Smith. This committee met

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

one time during 2003. None of the members of this committee served on a similar committee for any other company. The function of this committee is to establish the compensation of the Chief Executive Officer and to review the compensation of other senior executive officers.

In addition to the Compensation Committee, there are five other standing committees of the Bank's Board of Directors: Executive, Audit, Asset/Liability, Trust, and Directors' Loan. Certain members of management also serve on some committees of the Bank.

Director Compensation

In 2003, each of the outside directors of the Bank, with the exception of the Chairman of the Board, received a director's fee in the amount of \$550 for each meeting attended and \$300 for each meeting attended of a committee of which the director is a member. The Chairman of the Board received an annual fee of \$19,000. The Chairman of the Executive Committee also received a stipend of \$4,500 in addition to meeting fees paid for meetings attended. In addition to the above referenced fees, each of the outside directors was reimbursed for 85% of the cost of his or her health insurance premiums. This reimbursement amount is equivalent to the average rate provided to employees of the Company. Certain Board members were also paid fees for appraisals, consulting services and legal services, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. Fees and health insurance premiums paid by the Bank to its Directors as a group totaled \$168,000 in 2003, but no fees are paid to Directors of the Company. President Daigneault, who is the only director who is also an employee of the Company, receives no additional compensation for serving on the Board of Directors of the Company or the Bank.

There are no family relationships among any of the Executive Officers, nor are there any arrangements or understandings between any Executive Officer and any other person pursuant to which that Executive Officer has been or is to be elected.

The Federal Reserve Act permits the Bank to contract for or purchase property from any of its Directors only when such purchase is made in the regular course of business upon terms not less favorable to the Bank than those offered by others unless the purchase has been authorized by a majority of the Board of Directors not interested in the transaction. Similarly, the Federal Reserve Act prohibits loans to Executive Officers of the Bank unless such loans are on terms not more favorable than those afforded other borrowers and certain other prescribed conditions have been met.

The Bank has had, and expects to have in the future, banking transactions in the ordinary course of its business with Directors, Officers and principal shareholders of the Company and their affiliates. All such transactions have been made upon substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with others. In the opinion of management, such loans have not involved more than the normal risk of collectibility nor have they presented other unfavorable features. The total amount of loans outstanding at December 31, 2003 to the Company's Directors, Executive Officers and their associates was \$9,048,000, which constituted 2.27% of the Bank's total loans outstanding at that date.

Report of Compensation Committee on Executive Compensation

The Compensation Committee consists of four outside members of the Board of Directors. This Committee has the responsibility for conducting the annual performance evaluation of the Chief Executive Officer. The Committee is also responsible for determining the compensation of the Chief Executive Officer and approving the compensation of the other senior executive officers.

The Company is committed to providing competitive compensation packages to attract and retain quality high performance executives who can and do make major contributions to the Company's overall success. The compensation package generally includes base salary, cash bonuses, stock option grants and other benefits which the Committee may deem appropriate to remain competitive and reward the executive for high performance.

Base Salaries

The amount of base compensation potentially payable to the Chief Executive Officer and other senior executive officers is determined by reviewing independent salary surveys of compensation of officers for similar financial institutions located primarily in the New England region. Base salaries are

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

targeted at market levels taking into consideration the executive's level of responsibility, experience, knowledge, leadership and attainment of performance goals and objectives.

Annual Bonuses

In 1994, the Company instituted a formal performance-based compensation program called "Performance Compensation for Stakeholders". The objective of the program is to align the performance of all employees with the Company's short term and long term objectives. In 2003, total cash payout under this Stakeholder Performance Compensation program was 18.50% of the participating employees' base salaries paid to all eligible employees.

The performance compensation program's overall objective is to maximize the long-term viability of the Company and increase shareholder value. It addresses this by tying the bonus payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should collectively have a positive impact on maximizing long-term shareholder value. The Committee believes that this bonus program rewards current performance without sacrificing the achievement of long-term goals. Each year specific key performance indicators are chosen along with company wide financial performance trigger levels. In 2003 some of the indicators were: loan volume, deposit volume, nonperforming loan levels, non-interest income, net interest income and the efficiency ratio. Since its introduction in 1994 in the opinion of Management and this Committee, the program has been successful in meeting its objectives as measured by the Company's performance over this same period.

In addition to this bonus program the Committee, with the consent of the Board of Directors, may also establish a discretionary bonus pool. From this available pool the CEO with the consent of this Committee may grant additional cash bonuses to selected employees in recognition of their outstanding performance during the year. The Chief Executive Officer has been excluded for eligibility under this discretionary bonus program since 2003. This Committee, however, may from time to time with the consent of the Board of Directors grant the Chief Executive Officer a cash bonus in addition to the formal Stakeholder Performance Compensation program.

Compensation of Chief Executive Officer

As previously noted, the amount of base salary potentially payable to the Chief Executive Officer was determined by reviewing independent salary surveys of CEOs of similar financial institutions located in New England. The Committee took into consideration the actual salaries paid to CEOs of these banks and the performance of the Company in comparison to the selected peer group.

At the beginning of each year the Chief Executive Officer and the Board of Directors agree to a set of performance objectives for the Company as a whole and the CEO individually. Throughout the year the attainment of the performance objectives is carefully monitored and evaluated. These performance objectives are a combination of Company financial targets such as attainment of certain net income levels, return on equity levels, and increases in earnings per share. In addition, goals are set for asset growth as well as loan quality targets. Goals are also set for non-financial performance items such as implementation of strategic plan goals and compliance with regulatory matters.

For the year ended December 31, 2002, the Company posted outstanding performance results with an 18.46% increase in net income and a Return on Average Equity of 16.34%. In addition to these strong financial performance results the Chief Executive Officer also did an excellent job at meeting all of his other performance objectives. Therefore, based on these results as well as

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

During 2003, Directors Gregory, Blanchard, Poole and Smith served as members of the Compensation Committee. No member of the Committee was, or ever has been, an officer or employee of the Company or the Bank. All Committee members are customers of and engage in transactions with the Bank in the ordinary course of business. As described in the section entitled "Certain Relationships and Related Transactions", all loans to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and, in the opinion of Management, did not involve more than the normal risk of collectability or present other unfavorable features.

Executive Compensation

The table below sets forth the cash compensation and certain other compensation paid to the President & Chief Executive Officer as well as the Treasurer & Chief Financial Officer, the Senior Vice President/Senior Loan Officer and the Senior Vice President/Senior Operations Officer during 2003, 2002 and 2001. No other Executive Officers of the Company received compensation in excess of \$100,000 for the years ended December 31, 2003, 2002 and 2001.

(1) Bonuses are listed in the year earned and normally accrued. Such bonuses may be paid in the following year. (2) (a) Amounts shown include contributions paid by the Company to the respective accounts of the named Executive Officers in the 401(k) Plan. In 2003 the Company and the Bank contributed to the Bank's 401(k) Plan a matching amount for the salary deferred by Messrs. Daigneault, Ward, Wootton and Vietze equal to 3.0% of their respective earnings and a profit-sharing component of 2.5% for 2003 and 3.0% for 2002 and 2001, of their respective earnings, which were subject to IRS regulations limiting the maximum amount of an officer's earnings eligible for matching or profit-sharing 401(k) contributions to \$200,000. These percentages were equivalent to the 401(k) Plan match and profit sharing contributions made for all eligible employees.

(b) This figure also recognizes the value to the officers of a Company-owned vehicle to Messrs. Daigneault, Ward and Wootton which were \$5,665, \$5,273 and \$5,150 respectively for 2003. (c) Also included in 2003 is the economic value of split dollar life insurance benefits provided to Messrs. Daigneault, Ward and Vietze under the Life Insurance Endorsement Split Dollar Plan agreement for Bank Owned Life Insurance. This value was \$722 for Mr. Daigneault, \$466 for Mr. Ward and \$490 for Mr. Vietze.

Stock Option Plan

In April 1995, the stockholders approved a Stock Option Plan. The purpose of the Stock Option Plan is to encourage the retention of key employees by facilitating their purchase of a stock interest in the Company and to align their interest with those of the shareholders. The 1995 Stock Option Plan provides for grants of options to purchase Company common stock and is administered by an Options Committee, which consists of four outside directors. During 2003, no stock options were granted under the 1995 Stock Option Plan. The following table sets forth the status of the Stock Option Plan as of December 31, 2003:

Long-Term Compensation

Long-term compensation may be distinguished from annual compensation by the time frame for which performance results are measured to determine awards. While annual compensation covers a calendar year, long-term compensation is provided through the Company's stock option plan, which covers a period of two to ten years. The following table sets forth information with respect to the named executives and all other employees concerning grants of stock options during 2003:

- 1) The dollar gains under these columns result from calculations assuming 5% and 10% growth rates compounded over a 10-year period as set by the Securities and Exchange Commission and are not intended to forecast future price appreciation of the Company's common stock. The gains reflect a future value based upon growth at these prescribed rates. The values have not been discounted to present value. It is important to note that options have value to the listed executive and to all option recipients only if the stock price advances beyond the exercise price shown on the table during the effective option period.
- 2) Under the Stock Option Plan, the exercise price may not be less than the fair market value of the common stock on the date the option is granted.

Description of the Company's Benefit Plans

Overview

The Company has reserved 160,000 shares of its common stock to be made available to directors and employees who elect to participate in the directors' deferral, employee stock purchase, or 401(k) savings and investment plans. As of December 31, 2003, 119,014 shares had been issued pursuant to these plans, leaving 40,986 shares available for future issuance. The issuance price is based on the market price of the stock at issuance date. All shares issued under the 401(k) savings and investment plans are issued pursuant to an exemption from registration under the Securities Act of 1933, as amended (the "Securities Act"), contained in Section 3(a)(11) thereof and Rule 147 promulgated thereunder. During the period ending nine months after the date of issuance of these shares, these shares may be transferred only to residents of the State of Maine. Each certificate issued for these plan shares bears a legend referring to this restriction.

Shares issued under the employee stock purchase plan prior to September 11, 1998, were issued pursuant to exemptions from registration under Section 3(a)(11) and Rule 147 of the Securities Act. Shares issued under the employee stock purchase plan on or after September 11, 1998, have been issued pursuant to a registration statement filed under the Securities Act. The members of the Board of Directors and certain officers of the Company, who may be deemed to be "affiliates", may resell shares of the Company's common stock purchased or acquired under this plan only in accordance with certain restrictions imposed by the Securities Act and Rule 144 promulgated thereunder.

401(K) Plan

The Bank's 401(k) Plan (The First National Bank of Damariscotta Savings and Investment Plan) is the Bank's sole retirement plan, and was modified in 1996

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

after termination of the Bank's traditional defined benefit pension plan. It is available to any employee who has attained the age of 21 and completed six months of continuous service. Employees may contribute up to 50.0% of their compensation (not to exceed \$12,000 if under age 50 and \$14,000 if over age 50), and the Bank may provide a match of up to 3.0% of compensation. Subject to a vote of the Board of Directors, the Bank may also make a profit-sharing contribution to the Plan, and in 2003 this contribution equaled 2.5% of each eligible employee's compensation. The 401(k) Plan is administered by a special committee appointed by the Board of Directors.

Employee contributions are 100% vested at all times, while employer contributions are vested over a five-year period. Upon termination of employment for any reason, a plan participant may receive his or her contribution account and earnings allocated to it, as well as the vested portion of his or her employer-matching account and earnings allocated to it. Non-vested amounts are forfeited and are used by the Bank to help defray plan administration expenses incurred by the Bank. The Bank paid \$104,000 in matching contributions and \$113,000 in profit-sharing contributions to this plan in 2003. Plan participants may direct the trustees of the 401(k) Plan to purchase specific assets for their accounts from a selection which includes seven mutual funds as well as the Company's stock. As of December 31, 2003, 63,484 shares of the Company's stock had been purchased by the 401(k) Plan at the direction of plan participants.

Stock Purchase Plan

The Bank instituted an employee and director stock purchase plan effective February 1, 1987, and the Board of Directors has allocated 80,000 shares of stock to be available for purchase under this plan. Employees who have been employed by the Bank for three consecutive calendar months are eligible to purchase shares on a quarterly basis through payroll deduction. The price per share for shares sold pursuant to the plan is defined as the closing price on the day the shares are purchased. As of December 31, 2003, 55,530 shares of the Company's stock had been purchased pursuant to the plan.

Employee Benefits

The Bank provides all full-time employees with group life, health, and long-term-disability insurance through the Independent Bankers' Employee Benefits Trust of Maine. A Flexible Benefits Plan is available to all full-time employees after satisfying eligibility requirements and to part-time employees scheduled to work 20 or more hours a week.

Supplemental Executive Retirement Plan

The Bank also sponsors an un-funded, non-qualified supplemental retirement plan for certain officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating officers. The projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Bank until normal retirement age of 65, is \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Bank until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The projected retirement benefit for Mr. Vietze, assuming he remains employed by the Bank until normal retirement age of 65, is \$39,235 per year, with such payments beginning in the year 2006. The expense for all participants in this supplemental plan was \$135,000 in 2003, \$112,000 in 2002 and \$141,000 in 2001. As of December 31, 2003 and 2002, the accrued liability of this plan was \$709,000 and \$591,000, respectively.

Stock Option Plan

On December 15, 1994, the Company's board of directors adopted a Stock Option Plan (the "Option Plan") for the benefit of officers and other full-time employees of the Company and the Bank. This plan was approved by the Company's shareholders at the 1995 Annual Meeting. Under the Option Plan, 200,000 shares

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

(subject to adjustment to reflect stock splits and similar events) are reserved from the authorized but unissued common stock of the Company for future issuance by the Company for exercise of stock options granted to certain key employees of the Company and the Bank from time to time. The purpose of the Option Plan is to encourage the retention of such key employees by facilitating their purchase of a stock interest in the Company. The Option Plan is intended to provide for the granting of incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") to employees of the Company or the Bank.

The Option Plan is administered by the Options Committee of the Company's board of directors, which is comprised solely of directors who are ineligible to receive grants of stock options under the Option Plan and who have not received grants of options within the 12 months preceding their appointment to the Options Committee. The Options Committee selects the employees of the Bank and the Company to whom options are to be granted and designates the number of options to be granted. The Option Plan may be amended only by the vote of the holders of a majority of the Company's outstanding common stock if such amendment would increase the number of shares available for issuance under the Option Plan, change the eligibility criteria for grants of options under the Option Plan, change the minimum option exercise price or increase the maximum term of options. Other amendments may be effected by the Options Committee.

Employees selected by the Options Committee receive, at no cost to them, options under the Option Plan. The option exercise prices are equal to or exceed the fair market value of the shares on the date of the grant, and no option is exercisable after the expiration of ten years from the date it is granted. The fair market value of the shares is determined by the Options Committee as specified in the Option Plan. The optionee cannot transfer or assign any option other than by will or in accordance with the laws of descent and distribution, and the option may be exercised only by the employee during the employee's lifetime. After an employee's death, options may be exercised by the employee's estate or heirs up to one year following the date of death. Code Section 422 limits option grants by providing that during the term of the Option Plan, no grant may be made to any employee owning more than 10% of the Company's outstanding shares unless the exercise price is at least 110% of the underlying shares' fair market value and such option is not exercisable more than five years following the option grant. The aggregate fair market value of the stock for which any employee may be granted incentive stock options which are first exercisable in any calendar year may generally not exceed \$100,000.

While generally no options may be exercisable before the second anniversary of the grant date, in the event of a change in control involving the Company all options (other than those held by officers or directors of the Company or the Bank for less than six months) shall become immediately exercisable. Also, an employee whose employment is terminated in connection with or within two years after such a change in control event shall be entitled to exercise all options for up to three months following the date of termination; provided that options held by officers or directors shall not be exercisable until six months after the grant date. Employees whose services are terminated, other than following a change in control as described above, shall thereupon forfeit any options held; provided, however, that following termination due to disability an employee shall be entitled to exercise options for up to one year (provided, further, that officers may exercise only with respect to options held for at least six months).

The Company receives no monetary consideration for the granting of incentive stock options. Upon the exercise of options, the Company receives payment in cash from optionees in exchange for shares issued. No federal income tax consequences are incurred by the Company at the time incentive stock options are granted or exercised, unless the optionee incurs liability for ordinary income tax treatment upon exercise of the option, as discussed below, in which event the Company would be entitled to a deduction equal to the optionee's ordinary income attributable to the options. Provided the employee holds the shares received on exercise of a stock option for the longer of two years after the option was granted or one year after it was exercised, the

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

optionee will realize capital gains income (or loss) in the year of sale in an amount equal to the difference between the sale price and the option exercise price paid for shares. If the employee sells the shares prior to the expiration of the period, the employee realizes ordinary income in the year of disposition equal to the difference between the fair market value of the shares on the date of exercise and the exercise price and capital gains income (or loss) equal to the difference (if any) between the sale price of the shares and the fair market value of the shares on the date of exercise.

In addition to the tax consequences discussed above, the excess of the option price over the fair market value of the optioned stock at the time of option exercise is required to be treated by an incentive optionee as an item of tax preference for purposes of the alternative minimum tax.

Performance Graph

Set forth below is a line graph comparing the five-year cumulative total return of \$100.00 invested in the Company's common stock ("FNLC"), assuming reinvestment of all cash dividends and retention of all stock dividends, with a comparable amount invested in the Standard & Poor's 500 Index ("S&P 500") and the NASDAQ Combined Bank Index ("NASD Bank"). The NASD Bank index is a capitalization-weighted index designed to measure the performance of all NASDAQ stocks in the banking sector.

PROPOSAL 3: INCREASE AUTHORIZED COMMON STOCK

The Company's Board of Directors has unanimously approved an amendment to the Company's Articles of Incorporation which will increase the number of shares of common stock authorized for issuance from 6,000,000 to 18,000,000.

The primary purpose of the proposed increase in the number of authorized shares of common stock is to provide the Company with the flexibility to issue additional shares of stock to effect a stock split in the form of a stock dividend. The normal purpose of a stock split in the form of a stock dividend is to restore the trading price of the Company's stock within a range that may be more conducive to the maintenance of a market in the shares.

The authorized but unissued shares of Common Stock could also be used in private or public offerings to raise additional capital. These shares could also be used to make more difficult a change in control of the Company, and in certain circumstances, such shares could be used to dilute the stock ownership of a person or entity seeking to obtain control of the Company. Such shares could also be privately placed with purchasers who might side with the Board in opposing a hostile takeover bid. No such issuances, however, are presently planned for the near term.

THE AFFIRMATIVE VOTE OF THE HOLDERS OF A MAJORITY OF THE OUTSTANDING COMMON STOCK OF THE COMPANY IS REQUIRED IN ORDER TO EFFECTUATE THE PROPOSED AMENDMENT. THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR THE PROPOSED AMENDMENT.

PROPOSAL 4: APPOINTMENT OF AUDITORS

Berry, Dunn, McNeil & Parker (BDMP) has served as independent auditor for the Company and the Bank since 1994. In the opinion of the Board of Directors, the

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

reputation, qualifications and experience of the firm make its reappointment appropriate for 2004.

It is the desire of the Board of Directors Audit Committee that the appointment of BDMP as independent auditors be ratified by the shareholders at the annual meeting. Representatives from BDMP will be present at the annual meeting of shareholders and will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions from shareholders.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS OF THE COMPANY RATIFY THE APPOINTMENT OF BERRY, DUNN, McNEIL & PARKER AS INDEPENDENT AUDITORS FOR 2004.

(vi) a person none of whose Family Members is a current partner of the Company's outside auditor, or was a partner or employee of the Company's outside auditor who worked on the Company's audit at any time during any of the preceding three years.

For purposes hereof, "affiliate" means a person who directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified. A person is deemed not to be in control of an entity if he or she is not an executive officer of the entity and is not the beneficial owner, directly or indirectly, of more than 10% of any class of voting equity securities of the entity. With respect to clause (ii) of this paragraph, payments received (directly or indirectly) from the Company or any subsidiary by a Committee member or Family Member during the three years ending December 31, 2003 shall not render such Committee member not

All members of the Committee must be able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement.

Notwithstanding the second preceding paragraph, one director who is not "independent" under the rules of the Nasdaq Stock Market, Inc., who does not accept any consulting, advisory or other compensatory fee from the Company or any subsidiary other than in his or her capacity as a member of the Board or any committee of the Board, who is not an "affiliate" of the Company or any subsidiary of the Company, as such term is defined in Rule 10A 3 under the Exchange Act, and who is not a current officer or employee, or a spouse, parent, child or sibling, whether by blood, marriage or adoption, of, or a person who has the same residence as, any current officer or employee of the Company or any subsidiary, may be appointed to the Committee if the Board, under exceptional and limited circumstances, shall have determined that such individual's membership on the Committee is required by the best interests of the Company and its stockholders, and the Board discloses, in the next annual meeting proxy statement subsequent to such determination, the nature of the relationship, and the reasons for the determination. Any such member appointed to the Committee may only serve for up to two years and may not chair the Committee.

Members shall be appointed by the Board based on nominations recommended by the Company's Nominating Committee, and shall serve at the pleasure of the Board and for such term or terms as the Board may determine.

(iv) to inquire of the Company's chief executive officer and chief financial officer as to the existence of any significant deficiencies or material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information, and as to the existence of any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting;

(v) to discuss guidelines and policies governing the process by which senior management of the Company and the relevant departments of the Company assess and manage the Company's exposure to risk, and to discuss the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures;

D. With respect to its role as the Company's qualified legal compliance committee, to review and discuss any reports concerning material violations submitted to it by outside counsel pursuant to the SEC attorney professional responsibility rules (17 C.F.R. Part 205).

In connection with such reports, the Audit Committee shall inform the Company's President of any report received by it of evidence of a material violation of federal or state securities laws, a possible material breach of fiduciary duty arising under federal or state law, or a similar material violation of any federal or state law, in each case by the Company or any of its officers, directors, employees or agents (a "Material Violation") and which report contains credible evidence based upon which it would be unreasonable under the circumstances for a prudent and competent attorney not to conclude that it is reasonably likely that a Material Violation has occurred, is ongoing, or is about to occur. Such reports may originate from attorneys representing the Company, from Company employees or otherwise. However, if the Audit Committee determines that informing the President would be futile or otherwise inappropriate, it shall instead inform the Board thereof. The Audit Committee shall determine whether an investigation with respect to such report as to a possible Material Violation is necessary and, if it so determines, shall so notify the Board and initiate such investigation, to be conducted by counsel selected by the Committee with the involvement of such other expert personnel as the Committee deems necessary. At the conclusion of any such investigation, the Committee shall recommend, by majority vote, that the Company implement an appropriate response to evidence of a Material Violation and inform the President and the Board of the results of such investigation and the appropriate remedial measures to be adopted. The Committee has the authority and the responsibility, acting by majority vote, to take all other appropriate action, including the authority to notify the SEC in the event that the Company fails in any material respect to implement an appropriate response that the Committee has recommended the Company to take.

Any report of a Material Violation submitted to the Audit Committee in good faith, and the identity of the person submitting it (if an employee or director), shall be kept confidential (both by the submitting person and the recipient(s) thereof) and disclosed only to Audit Committee members, Board members, legal counsel and other experts retained by the Audit Committee, and senior executives and other personnel of the Company having, in the judgment of the Audit Committee, a need to know the contents of the report in order for the Audit Committee to effectively evaluate and, if appropriate, investigate and take further action with respect to the subject matter of the report. There shall be no retaliatory action whatsoever taken with respect to any person who submits such a report in good faith. The fact that such reports should be submitted to a member of the Audit Committee, and the provisions of this paragraph, should be communicated to all Company employees promptly following the adoption of this Charter, at the time of hiring of any Company employees hired after the adoption of this Charter, and on a recurring basis at least annually.

E. With respect to reporting and recommendations,

(i) to prepare any report or other disclosures, including any recommendation of the Audit Committee, required by the rules of the SEC to be included in the Company's annual proxy statement;

(ii) to review and reassess the adequacy of this Charter at least annually and recommend any changes to the full Board of Directors;

(iii) to report its activities to the full Board of Directors on a regular basis and to make such recommendations with respect to the above and other

matters as the Audit Committee may deem necessary or appropriate; and

(iv) to prepare and review with the Board an annual performance evaluation of the Audit Committee, which evaluation must compare the performance of the Audit Committee with the requirements of this charter. The performance evaluation by the Audit Committee shall be conducted in such manner as the Audit Committee deems appropriate. The report to the Board may take the form of an oral report by the chairperson of the Audit Committee or any other member of the Audit Committee designated by the Audit Committee to make this report.

Committee Structure and Operations

The Audit Committee Chair is designated by the Company's Board of Directors. The Audit Committee shall meet once every fiscal quarter, or more frequently if circumstances dictate, to discuss with management the annual audited financial statements and quarterly financial statements, as applicable. The Audit Committee should meet periodically with management, the third party engaged to perform the internal audit function and the independent auditors to discuss any matters that the Audit Committee or any of these persons or firms believe should be discussed privately. The Audit Committee may request any officer or employee of the Company or the Company's outside counsel or independent auditors to attend a meeting of the Audit Committee or to meet with any members of, or consultants to, the Audit Committee. Members of the Audit Committee may participate in a meeting of the Audit Committee by means of conference call or similar communications equipment by means of which all persons participating in the meeting can hear each other.

Delegation to Subcommittee

The Audit Committee may, in its discretion, delegate all or a portion of its duties and responsibilities to a subcommittee of the Audit Committee. The Audit Committee may, in its discretion, delegate to one or more of its members the authority to pre approve any audit or non audit services to be performed by the independent auditors, provided that any such approvals are presented to the Audit Committee at its next scheduled meeting.

Resources and Authority of the Audit Committee

The Audit Committee shall have the resources and authority appropriate to discharge its duties and responsibilities, including the authority to select, retain, terminate, and approve the fees and other retention terms of special or independent counsel, accountants or other experts and advisors, as it deems necessary or appropriate, without seeking approval of the Board or management. The Committee will have full access to the Company's books, records, facilities, and personnel. The Committee has the authority and available funding to perform or supervise special investigations and to incur administrative expenses in connection with fulfilling its obligations. The Committee will have the sole authority to approve fees and related terms of such engagements for outside experts.

The Company shall provide for appropriate funding, as determined by the Audit Committee, in its capacity as a committee of the Board, for payment of:

1. Compensation to the independent auditors and any other public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company;
2. Compensation of any advisers employed by the Audit Committee; and
3. Ordinary administrative expenses of the Audit Committee that are necessary or appropriate in carrying out its duties.

APPENDIX B: Nominating Committee Charter

Committee Membership

The Nominating Committee (the "Committee") of the Board of Directors (the "Board") of First National Lincoln Corporation (the "Company") shall consist solely of "independent directors," i.e., those directors who neither are officers or employees of the Company or its subsidiaries nor have a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, and who are otherwise "independent" under the rules of the Nasdaq Stock Market, Inc.

The initial members of the Committee shall be appointed by the Board. Candidates to fill subsequent vacancies in the Committee shall be appointed by the Board based on nominations by the Committee. Members shall serve at the pleasure of the Board and for such term or terms as the Board may determine.

Committee Purpose and Responsibilities

The Committee shall have the purpose and responsibilities to:

1. Make recommendations to the Board from time to time as to changes that the Committee believes to be desirable to the size of the Board or any committee thereof.
2. Identify individuals believed to be qualified to become Board members, consistent with criteria approved by the Board and applicable laws and regulations, and to select, or recommend to the Board, the nominees to stand for election as directors at the annual meeting of stockholders or, if applicable, at a special meeting of stockholders. In the case of a vacancy in the office of a director (including a vacancy created by an increase in the size of the Board), the Committee shall recommend to the Board an individual to fill such vacancy either through appointment by the Board or through election by stockholders. In selecting or recommending candidates, the Committee shall take into consideration the criteria approved by the Board and such other factors as it deems appropriate. These factors may include judgment, skill, diversity, experience with businesses and other organizations of comparable size, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. The Committee shall consider all candidates recommended by the Company's shareholders in accordance with the procedures set forth in the Company's annual proxy statement. The Committee may consider candidates proposed by management, but is not required to do so.
3. Develop and recommend to the Board standards to be applied in making determinations as to the absence of material relationships between the Company and a director.
4. In the case of a director nominee to fill a Board vacancy created by an increase in the size of the Board, make a recommendation to the Board as to the class of directors in which the individual should serve.
5. Identify Board members qualified to fill vacancies on any committee of the Board (including the Committee) and to recommend that the Board appoint the identified member or members to the respective committee. In nominating a candidate for committee membership, the Committee shall take into consideration the criteria approved by the Board and the factors set forth in the charter of that committee, if any, as well as any other factors it deems appropriate, including without limitation the consistency of the candidate's experience with the goals of the committee and the interplay of the candidate's experience with the experience of other committee members.
6. Establish procedures for the Committee to exercise oversight of the evaluation of the Board and management.

7. Develop and recommend to the Board a set of corporate governance principles applicable to the Company, and to review those principles at least once a year.
8. Prepare and issue the evaluation required under "Performance Evaluation" below.
9. Assist management in the preparation of the disclosure in the Company's annual proxy statement regarding the operations of the Committee.
10. Report to the Board on a regular basis, and not less than once per year.
11. Perform any other duties or responsibilities expressly delegated to the Committee by the Board from time to time relating to the nomination of Board and committee members.

Committee Structure and Operations

The Board shall designate one member of the Committee as its chairperson. The Committee shall meet in person or telephonically at least twice a year, and perhaps more frequently, in conjunction with regularly scheduled meetings of the Board at regularly scheduled times and places determined by the Committee chairperson, with further meetings to occur, or actions to be taken by unanimous written consent, when deemed necessary or desirable by the Committee or its chairperson.

Delegation to Subcommittee

The Committee may, in its discretion, delegate all or a portion of its duties and responsibilities to a subcommittee of the Committee.

Performance Evaluation

The Committee shall prepare and review with the Board an annual performance evaluation of the Committee, which evaluation shall compare the performance of the Committee with the requirements of this charter. The performance evaluation shall also recommend to the Board any improvements to the Committee's charter deemed necessary or desirable by the Committee. The performance evaluation by the Committee shall be conducted in such manner as the Committee deems appropriate. The report to the Board may take the form of an oral report by the chairperson of the Committee or any other member of the Committee designated by the Committee to make this report.

Resources and Authority of the Committee

The Committee shall have the resources and authority appropriate to discharge its duties and responsibilities, including the authority to select, retain, terminate, and approve the fees and other retention terms of special counsel or other experts or consultants, as it deems appropriate, without seeking approval of the Board or management. With respect to consultants or search firms used to identify director candidates, this authority shall be vested solely in the Committee.
