## ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

**RESULTS OF OPERATIONS**

Flanders Corporation today announced its results for its third quarter ended September 30, 2003. The Company reported earnings for the third quarter of \$2.3 million, or \$0.09 per share, up 92% from \$1.2 million, or \$0.05 per share in the third quarter of 2002. Revenues for the quarter were up slightly to \$50.2 million from \$50.1 million in the third quarter of 2002.

Excluding revenues from the Tidewater Group, which was sold in December 2002, sales were up approximately 2% compared to the third quarter of 2002. The U.S. manufacturing economy continued to shrink during the quarter, even though the rest of the economy grew. The Company's industrial filter sales, which are primarily to other manufacturing companies, continued to be negatively impacted by the decline in the overall manufacturing sector, however it appears that the Company has increased its market share in this category. These declines in industrial and commercial filter sales during the quarter were balanced by increases in sales through retailers. Operating results were again negatively impacted during the third quarter by higher than expected bad debt expenses.

Robert Amerson, Chief Executive Officer, commented, "Our margins to wholesale and industrial filter companies have been negatively impacted during the past six months, primarily due to the intense competition in this sub-market. We believe wholesale and industrial filter companies are experiencing a wave of consolidation, as weaker companies try to compete in a shrinking market created by the current, difficult manufacturing climate. We anticipate that our financial stability, manufacturing capacity and delivery performance will enable us to acquire a leading market position in industrial and wholesale filter products as this process continues."

Robert Amerson, Chief Executive Officer, continued, "We are continuing to see a tremendous amount of interest in our high-end containment products for government and commercial settings. We continue to work on acquiring contracts in this area, and believe that success in this area could have a major impact on our operations. This is a developing market, and we currently have no reliable data as to the size of this niche. We have a competitive advantage with these customers, given our long experience in what was, historically, a niche specialty manufacturing area."

**Conference Call**

The Company has scheduled a conference call for Thursday morning, October 23, 2003 at 11:00 EST. People wishing to participate in the conference call should dial 973-935-2407 ten minutes prior to the call.
