99.1 Press release regarding Flanders Q3 Earnings of \$0.24 per Share

Exhibit 99.1

PRESS RELEASE

FOR IMMEDIATE RELEASE

Flanders Q3 Earnings of \$0.24 per Share

St. Petersburg, Florida, October 23, 2006 Flanders Corporation (NASDAQ:FLDR), today announced its results for the third quarter ended September 30, 2006. Net earnings were \$6.2 million or \$0.24 per share, up 68% from \$3.7 million, or \$0.14 per share for the third quarter ended September 30, 2005. Revenues for the quarter were \$66.4 million up 4.7% from \$63.4 million for the second quarter ended September 30, 2005.

Steve Clark, President and C.E.O., commented, "During the quarter we completed the start up of our nested filter and new media lines. We opened three new plants in Dallas, TX, Matamoros, Mexico and Clarkton, NC. We restarted plants in Terrell, TX which was inoperative due to a fire, and Auburn, PA, which was damaged due to flooding. We were able to successfully start a nationwide initiative to introduce our new Energy Air product line using our Power Saver Media™. We will be expanding these new media to include our MERV 10 (PLUS) and MERV 12 (ELITE) product lines. We continue to gain market share and believe that our product development will drive market expansion. As we expand our markets and automate our plants, we should generate additional cash to advertise our new Power Saver Media™. This unique media not only increases filtration efficiency but reduces energy costs. Increased volume, automation, and innovative products should lead to increased gross margin.

Robert Amerson, Chairman of the Board, commented, "I am very proud of our team, they faced substantial challenges including two factories that were not fully operating and the requirement to open three new factories, yet they kept up with demand during the peak summer period..

Clark added, "We are continuing to see interest in our nuclear and biological filtration systems for use in government and commercial settings. This market is currently evolving and we are well positioned to capitalize on new opportunities as they arise.

Amerson added, Given the number of initiatives that were started and completed during the quarter we are expecting a strong fourth quarter which should continue through 2007.

Conference Call

A conference call with investors, analysts and other interested parties is scheduled for 11:00 a.m. EDT on Tuesday October 24, 2006, to discuss 2006 third quarter operating results. People wishing to participate in the conference call should dial 877-258-8842.

Flanders is a leading air filtration products manufacturer. Flanders' products are utilized by many industries, including those associated with commercial and residential heating, ventilation and air conditioning systems, semiconductor manufacturing, ultra-pure materials, biotechnology, pharmaceuticals, synthetics, nuclear power and nuclear materials processing.

This press release contains forward-looking statements that are inherently subject to risk. These forward-looking statements are not intended to be promises or predictions of the future and may be affected by a number of factors that may change the currently anticipated outcome. These factors include market acceptance of Flanders' products, competition in the marketplace for Flanders' products, the success of retailers and distributors through which Flanders sells its products, Flanders' ability to contain costs and maintain production and efficiency with a reduced workforce, a determination by potential Flanders customers that the higher cost of its high-end filtration systems can be justified for general application, Flanders' ability to successfully retrofit existing buildings with effective sophisticated filtering and air handling systems, the ability to increase its high end containment products for commercial and governmental settings, the success of Flanders CSD (Flanders Complete Services Division), the ability to continue implementation of vertical integration of our raw material supplies and the development of increased demand for its high-end products. Many of these factors are not within Flanders' control. These factors, and others, are discussed in Flanders' periodic reports filed with the Securities and Exchange Commission and should be reviewed by the reader of this press release.
