Item 2.04 Triggering Events that Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.

On August 27, 2013, Airgas, Inc. (the "Company") announced it has elected to redeem all \$215 million of its remaining outstanding 7.125% Senior Subordinated Notes maturing in October 2018 (the "Notes"). The Notes will be redeemed in full on October 2, 2013 ("the redemption date"), at a price of 103.563%. A loss on the early extinguishment of debt of approximately \$9 million (approximately \$6 million after tax, or approximately \$0.08 per diluted share) will be recognized related to the redemption premium and the write-off of unamortized debt issuance costs. The loss will be reflected in the fiscal third quarter ending December 31, 2013.

The election to exercise the redemption provision of the Notes accelerates the maturity date of the Notes to the redemption date. The Company intends to finance the redemption of the Notes with the proceeds of commercial paper issuances.

Item 7.01 Regulation FD Disclosure.

The Company's previously issued fiscal 2014 earnings per diluted share guidance range reflected the impact on interest expense in the second half of the year from the potential full redemption of the Notes utilizing proceeds of commercial paper issuances, which carry substantially lower interest rates, and excluded the loss on the early extinguishment of debt, which the Company has historically deemed to be a special charge. The Company's press release announcing the redemption of the Notes and referencing the Company's fiscal 2014 earnings guidance is attached as Exhibit 99.1 and incorporated herein by reference.
