Report of Independent Registered Public Accounting Firm

The Advisory Committee
Fidelity National Financial Group
401(k) Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of Fidelity National Financial Group 401(k) Profit Sharing Plan (the Plan) as of December 31, 2006 and 2005 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005 and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. This supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

As further described in Note 2, the Plan adopted FSP AAG INV-1 and SOP 94-4-1 for the years ended December 31, 2006 and 2005.

Notes to Financial Statements
December 31, 2006 and 2005

(1) Description of Plan

The following description of Fidelity National Financial Group 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

(a) General

The Plan is a defined contribution plan covering all employees of Fidelity National Financial, Inc. (the Company or Employer) and its Affiliated and Related Companies, who have attained age 18 and have completed 90 days of service, and elect to participate in the Plan. Affiliated Companies are defined as members of a controlled group of corporations or other entities that are under common control. Related Companies, while related, are not considered members of a controlled group of corporations or other entities that are under common control. Union members and temporary employees who have not completed at least 1,000 hours of service are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Prior to October 24, 2006, the Plan was sponsored by another company, also called Fidelity National Financial, Inc. (Old FNF). On October 24, 2006, Old FNF distributed to its shareholders all of its shares of the common stock of Fidelity National Title Group, Inc. (FNT), making FNT a stand alone publicly traded company. This resulted in a distribution of FNT common stock to Plan participants who held shares of Old FNF and a reduction in the value of Old FNF shares equal to the value of the distribution of FNT common stock. On November 9, 2006, Old FNF was merged with an into Fidelity National Information Services, Inc. (FIS), which was then a majority owned subsidiary of Old FNF, after which FNT s name was changed to Fidelity National Financial, Inc. This resulted in a distribution of FIS common stock to Plan participants who held shares of Old FNF, the elimination of shares of Old FNF common stock held by Plan participants, and the renaming of investments in FNT common stock held by Plan participants. The Plan is now sponsored by the Company for the benefit of its employees as noted above.

(b) Plan Amendments

Effective January 1, 2006, the Plan Committee elected to include a Roth 401(k) investment option in the Plan.

Effective January 1, 2005, the Plan Committee resolved to amend the Plan to include a negative election. Under this provision, any employee whose date of hire is on or after January 1, 2005 will automatically have a 2% deferral of compensation unless a contrary election is made. Effective January 1, 2006, the Plan Committee increased the automatic enrollment percentage for new hires from 2% to 3% for eligible employees hired on or after January 1, 2006.

Effective January 1, 2005, the Plan Committee resolved to amend the Plan to limit the deferrals of highly compensated employees to 7%.

(c) Plan Mergers

Following approval by the board of directors of the Company, Service Link 401(k), a defined contribution employee benefit plan, was merged into the Plan effective April 10, 2006. The accompanying 2006 statement

of changes in net assets available for benefits reflects the transfer in of net assets of the Service Link 401(k) plan in the amount of $3,067,910.

The following presents the effective dates and plan name of each of the merged plans:

Effective November 11, 2005, InterCept 401(k) Plan was merged into the Plan.

(d) Transfer of net assets to Fidelity National Information Services 401(k) Profit Sharing Plan

Effective, January 1, 2006, Fidelity National Information Services, Inc. (FIS), which was then a majority owned subsidiary of Old FNF, formed a 401(k) plan and, on March 24, 2006, the account balances relating to employees of FIS, amounting to approximately $367 million, were transferred out of the Plan to the new Fidelity National Information Services 401(k) Profit Sharing Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, as well as direct rollovers from individual retirement accounts or annuities. Participants direct the investment of their contributions into various investment options offered by the Plan. At December 31, 2006 and 2005, the Plan offered four common/ collective trust funds, one corporate bond fund, and eight mutual funds as investment options for participants. Investment options also included one common stock fund at December 31, 2006 and two common stock funds at December 31, 2005. During Plan years 2006 and 2005, the Company made matching contributions equal to 50% of participant deferrals up to 6% of eligible compensation for all Company employees. Discretionary employer contributions may be made at the option of the Company s board of directors. No discretionary employer contributions were made during the Plan years ended December 31, 2006 and 2005. All employer contributions are participant directed. Contributions are subject to certain limitations.

(f) Participant Accounts

Each participant s account is credited with the participant s contribution, the employer s contribution, and an allocation of Plan earnings and charged with an allocation of Plan losses, if any.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Certain reclassifications

Certain reclassifications have been made in the 2005 Statement of Net Assets Available for Benefits to conform to the classifications used in 2006.

(d) Risk and Uncertainties

The Plan provides for various investment options in common/collective trust funds, corporate bond funds, mutual funds, and common stock. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors, in the near term, could materially affect the participants account balances and the amounts reported in the financial statements.

(e) Concentration of Investments

Included in the Plan s net assets available for benefits at December 31, 2006 are investments in Employer common stock for Fidelity National Financial, Inc., (7,517,307 shares) amounting to $179,512,169, or approximately 19% of net assets, and for Fidelity National Information Services, Inc. (2,807,778 shares) amounting to $112,563,848, or approximately 12% of net assets.

Included in the Plan s net assets available for benefits at December 31, 2005 are investments in Old FNF (8,525,551 shares) amounting to $313,654,894 and in the Employer s common stock, formerly known as Fidelity National Title Group, Inc., (1,587,245 shares) amounting to $38,647,482, the combined value of which represents approximately 30% of the Plan s net assets.

(f) Investment Valuation and Income Recognition

In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and Statement of Position 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP). The FSP provides a definition of fully benefit-responsive investment contracts and guidance on financial statement presentation and disclosure of fully benefit-responsive investment contracts.

The Plan has adopted the FSP for the year ended December 31, 2006 and has retroactively applied its provisions to the December 31, 2005 presentation of investments in the accompanying statements of Net Assets Available for Plan Benefits as required by the FSP. One of the investment options offered by the Plan, the Wells Fargo Stable Return Fund N (the Stable Return Fund), is a common collective trust that is fully invested in Wells Fargo Stable Return Fund G, which is fully invested in contracts deemed to be fully benefit-responsive within the meaning of the FSP. The FSP requires that the Plan report its investment in the Stable Return Fund at fair value. However, contract value is the relevant measure to the Plan because it is the amount that is available for Plan benefits. Accordingly, in the Statements of Net Assets Available for Benefits, the Stable Return Fund, along with the Plan s other investments, is stated at fair value with a corresponding adjustment to reflect the investment in the Stable Return Fund at contract value. The adoption of the FSP had no impact on net assets available for plan benefit or changes in net assets available for plan benefit.

The Plan s investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The common/collective trust fund investments and the corporate bond fund are valued based on the underlying unit values reported by the respective fund s audited financial statements as of the Plan s year end. The common stock of Fidelity National Financial, Inc. and Fidelity National Title Group, Inc. are valued at quoted market prices. Participant loans are valued at cost, which approximates fair value as of the Plan s year end.
