GENESIS HEALTH VENTURES TO ACQUIRE NCS HEALTHCARE
TRANSACTION CREATES SECOND LARGEST INSTITUTIONAL PHARMACY IN THE U.S.

- o NeighborCare Nearly Doubles its Number of Institutional Beds Served
- o Scale Provides Cost Synergies & Enhances Growth Potential

Kennett Square, PA--(July 29, 2002) Genesis Health Ventures, Inc. (NASDAQ: GHVI) today announced that it has entered into a merger agreement to acquire NCS HealthCare, Inc. (NCSS: OB), the fourth largest institutional pharmacy provider in the United States. In the merger, each share of NCS common stock (approximately 23.7 million shares outstanding) will be exchanged for 0.1 of a share of Genesis common stock.

The merger will consolidate operations of NCS and NeighborCare, Genesis Health Ventures' pharmacy subsidiary, under the NeighborCare banner, making NeighborCare the second largest long-term care pharmacy provider in the United States with over \$1.8 billion in annual revenues. NeighborCare, currently the third largest institutional pharmacy provider in the U.S., serves approximately 248,000 long-term care beds in 33 states, while NCS serves over 203,000 beds, adding 7 states to NeighborCare's market.

"The combination of NCS and NeighborCare makes us a more powerful player in the institutional pharmacy business and well positioned to serve long-term care providers nationwide," said Robert Fish, Genesis' CEO. "As a result of this transaction, NeighborCare will nearly double the number of institutional beds it serves and will generate approximately 60% of Genesis' revenues. This is an important step toward our stated strategy of building the healthcare services side of our business."

At the closing of the transaction, Genesis will repay in full the outstanding debt of NCS which includes \$206 million of senior debt, and will redeem \$102 million of 5.75% convertible subordinated debentures, including any accrued and unpaid interest. In total, the transaction is valued at \$340 million, net of the application of approximately \$20 million in excess cash at NCS.

Edgar Filing: NCS HEALTHCARE INC - Form 425

NCS stockholders representing approximately 65% of the voting power in NCS have agreed to vote in favor of the merger. The merger has been approved by the Boards of Directors of both Genesis and NCS, as well as by a special committee of independent directors of NCS. Genesis and NCS will file with the Securities and Exchange Commission a proxy statement/prospectus and other relevant documents concerning the proposed merger transaction. Consummation of the transaction, which is expected to occur in the fourth calendar quarter, is subject to regulatory approval and other customary conditions.

Genesis intends to finance the cash portion of the purchase price with existing cash on hand, which was approximately \$103 million as of June 30, 2002, and an increase in its senior credit facility. Based on NCS' current operating income, the transaction is not expected to materially change Genesis' leverage profile. NCS' earnings before interest, taxes, depreciation and amortization (EBITDA) was \$8.1 million for its third quarter ended March 31, 2002. Reported EBITDA included approximately \$2.4 million in debt restructuring and other related expenses.

Genesis believes the acquisition is accretive to earnings based upon NCS' operating performance before the realization of synergies. Expected synergies of \$15 to \$25 million include the benefits of increased scale, which will significantly improve purchasing leverage, and efficiencies created through site consolidation, overhead reduction and distribution logistics. Furthermore, the merger will create a common platform for the development and implementation of industry-leading technologies.

"We are excited about the NCS transaction", said Robert Smith, President of NeighborCare. "NCS brings a large and diverse customer base built with an operating model focused more on standalone skilled nursing facilities and smaller chain providers. We believe this will greatly enhance NeighborCare's ability to grow."

"The strategic combination of NCS and NeighborCare delivers value to all stakeholders", said NCS HealthCare's CEO Kevin Shaw. "Our customers will benefit from our improved competitive position and a continuing commitment to focus on our patients -- a value long shared by both NCS and NeighborCare. Together, our companies have national scale, a deep commitment to customer service and industry-leading technology."

Genesis Health Ventures (GHVI) provides healthcare services to America's elders through a network of NeighborCare pharmacies and Genesis ElderCare skilled nursing and assisted living facilities. Other Genesis healthcare services include rehabilitation and hospitality services, group purchasing, consulting and facility management. Visit the Genesis website at <http://www.ghv.com>

NCS HealthCare, Inc., (NCSS: OB) is a leading provider of pharmaceutical and related services to long-term care facilities, including skilled nursing centers, assisted living facilities and hospitals.

Statements made in this release, and in our other public filings and releases, that are not historical facts contain "forward-looking" statements (as defined in the Private Securities Litigation Reform Act of 1995) that involve risks and uncertainties and are subject to change at any time. These forward-looking statements may include, but are not limited to, statements containing words such as "anticipate," "believe," "plan," "estimate," "expect," "intend," "may" and similar expressions. Factors that could cause actual results to differ materially include, but are not limited to, the following: changes in the reimbursement rates or methods of payment from Medicare or Medicaid, or the
