## Edgar Filing: UNITED NATIONAL BANCORP - Form 425

- ^ The anticipated cost savings of the acquisition may take longer to be realized or may not be achieved in their entirety.
- ^ The anticipated benefits to PNC are dependent in part on United National's business performance in the future, and there can be no assurance as to actual future results, which could be impacted by various factors, including the risks and uncertainties generally related to PNC's and United National's performance (with respect to United National, see United National's SEC reports, also accessible on the SEC's website) or due to factors related to the acquisition of United National and the process of integrating it into PNC.
