On March 16, 2005, the Company issued a press release announcing the bank amendment and that the Company would file for a 15-day extension of the deadline to file its 2004 annual report on Form 10-K with the SEC until March 31, 2005. A copy of this press release is attached as Exhibit 99.1 hereto.

Risks and Uncertainties:

This document contains forward-looking statements. The Company's representatives may also make forward-looking statements orally from time to time. Statements in this document that are not historical facts, including statements about the Company's beliefs and expectations, particularly regarding recent business and economic trends, estimates of amounts for deferred acquisition consideration and "put" option rights, constitute forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in this section. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statements. Such risk factors include, but are not limited to, the following:

- risks arising from the Company's delayed filing with the SEC of its Form 10-Q for the quarter ended September 30, 2004, and the Company's need to restate its previously filed financial statements for quarterly periods ended June 30, 2004 and March 31, 2004, and the fiscal year ended December 31, 2003;
- risks associated with effects of national and regional economic and political conditions;

-
- the Company's ability to attract new clients and retain existing clients;
 - the financial success of the Company's clients;
 - the Company's ability to retain and attract key employees;
 - developments from changes in the regulatory and legal environment;
 - foreign currency fluctuations;
 - the successful completion and integration of acquisitions which complement and expand the Company's business capabilities; and
 - risks arising from potential material weaknesses in internal control over financial reporting.

Investors should carefully consider these risk factors and the additional risk factors outlined in more detail in the Company's Annual Report on Form 40-F and in the Company's other SEC filings.
