Item 1

Notice to the market - 2003 NET INCOME

Cemig informs stockholders and investors that its consolidated financial statements for 2003, prepared in accordance with Brazilian GAAP, were approved by its Board of Directors on March 29, 2004, and will be sent to the CVM on March 31. They report net income of R\$ 1.198 billion, or R\$ 7.39 per thousand shares, a recovery from the loss of R\$ 1.002 billion reported for 2002.

Net revenues were R\$ 5.623 billion; and cash flow, measured by EBITDA (earnings before interest, tax, depreciation and amortization), was R\$ 1.797 billion, an increase of almost 70% from 2002.

Cemig's sales of electricity were 36,584 GWh, 1.8% more than in 2002, of which 35,962 GWh was sold to final consumers, 0.9% more than in 2002.

Operational expenses were 5% lower than in the previous year. The main cause of this reduction was 24% lower expenditures on electricity purchased for resale than in 2002. Other contributing factors were: post-employment expenses 50% lower than in 2003; and a reversal of part of the provisions for the General Agreement of the Electricity Sector, in the amount of R\$ 118 million. On the other hand, personnel expenses were 34% higher, mainly due to a provision of R\$ 77 million for expenditures under the voluntary dismissal program, which will allow headcount to be reduced by approximately 800.

An exchange-rate-related gain of approximately R\$ 336 million, in financial revenues, also made a significant contribution.

Cemig will hold a meeting with the domestic and international investor market on April 1, providing more details and comments on the results.
