FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the footwear business, worldwide economics and the Company itself including, without limitation, statements regarding the effect on earnings of a future hedge termination or determination of hedge ineffectiveness, expected length of time that stock options will remain outstanding, results of tax audits, the effect of litigation, the effect of the adoption of new accounting standards, timing or acceptance of new products, future progress toward achieving the Company's strategic growth plan, expected cash flows, expected share repurchase activity, the use of excess cash flows, future revenues, earnings and marketing, statements in Part I, Item 2 regarding the overview and the Company's financial condition, liquidity and capital resources and statements in Part I, Item 3 regarding market risk. Words such as "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "is likely," "plans," "predicts," "projects," "should," "will," variations of such words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions ("Risk Factors") that are difficult to predict with regard to timing, extent, likelihood and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed or forecasted in such forward-looking statements.

Risk Factors include, but are not limited to, uncertainties relating to changes in demand for the Company's products; changes in consumer preferences or spending patterns; the cost and availability of inventories, services, labor and equipment furnished to the Company; the cost and availability of contract manufacturers; the cost and availability of raw materials, including leather and petroleum-based materials; changes in planned consumer demand or at-once orders; customer order cancellations; the impact of competition and pricing by the Company's competitors; changes in government and regulatory policies; foreign currency fluctuation in valuations compared to the U.S. dollar; changes in monetary controls and valuations of the Chinese yuan renminbi and the relative value to the U.S. dollar; changes in duty structures in countries of import and export; changes in interest rates, tax laws, duties, tariffs, quotas or applicable assessments; technological developments; changes in local, domestic or international economic and market conditions; the size and growth of footwear markets; service interruptions at shipping and receiving ports; changes in the amount, severity or timing of inclement weather; changes due to the growth of Internet commerce; popularity of particular designs and categories of footwear; the ability of the Company to manage and forecast its growth and inventories; the ability to secure and protect trademarks, patents and other intellectual property; integration of operations of newly acquired businesses; changes in business strategy or development plans; the Company's ability to adapt and compete in global apparel and accessory markets; customer acceptance of new initiatives including Patagonia® Footwear and Merrell® Apparel; the ability to attract and retain qualified personnel; the ability to retain rights to brands licensed by the Company; loss of significant customers; relationships with international distributors and licensees; the Company's ability to meet at-once orders; the exercise of future purchase options by the U.S. Department of Defense on previously awarded contracts; the risk of doing business in developing countries and economically volatile areas; retail buying patterns; increased competition from private label brands; consolidation in the retail sector; and the acceptability of U.S. brands in international markets. Additionally, concerns regarding acts of terrorism, the war in Iraq and subsequent events have created significant global economic and political uncertainties that may have material and adverse effects on consumer demand, foreign sourcing of footwear, shipping and transportation, product imports and exports and the sale of products in foreign markets. These matters are representative of the Risk Factors that could cause a difference between an ultimate actual outcome and a forward-looking statement. Additional Risk Factors are identified in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2007, included in Item 1A. Historical operating results are not necessarily indicative of the results that may be expected in the future. The Risk Factors included here are not exhaustive. Other Risk Factors exist, and new Risk Factors emerge from time-to-time, that may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Furthermore, the Company

undertakes no obligation to update, amend or clarify forward-looking statements, whether as a result of new information, future events or otherwise.

WOLVERINE WORLD WIDE, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements March 22, 2008 and March 24, 2007

1. Summary of Significant Accounting Policies

NATURE OF OPERATIONS

Wolverine World Wide, Inc. (NYSE: WWW) is a leading designer, manufacturer and marketer of a broad line of quality casual shoes, performance outdoor footwear, apparel, work shoes and boots, and uniform shoes and boots. The Company's global portfolio of owned and licensed brands includes: Bates®, Cat® Footwear, Harley-Davidson® Footwear, Hush Puppies®, HyTest®, Merrell®, Patagonia® Footwear, Sebago®, Stanley® Footgear and Wolverine®. Apparel and licensing programs are utilized to extend the Company's owned brands into product categories beyond footwear. The Company also operates a retail division to showcase its brands and branded footwear and apparel from other manufacturers, a tannery that produces Wolverine Performance Leathers™ and a pigskin procurement operation.

BASIS OF PRESENTATION

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for a complete presentation of the financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included in the accompanying financial statements. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2007.

REVENUE RECOGNITION

Revenue is recognized on the sale of products manufactured or sourced by the Company when the related goods have been shipped, legal title has passed to the customer and collectibility is reasonably assured. Revenue generated through programs with licensees and distributors involving products bearing the Company's trademarks is recognized as earned according to stated contractual terms upon either the purchase or shipment of branded products by licensees and distributors.

The Company records provisions against gross revenue for estimated stock returns and cash discounts in the period when the related revenue is recorded. These estimates are based on factors that include, but are not limited to, historical stock returns, historical discounts taken and analysis of credit memorandum activity.

COST OF PRODUCTS SOLD

Cost of products sold for the Company's operations include the actual product costs, including inbound freight charges, purchasing, sourcing, inspection and receiving costs. Warehousing costs are included in selling and administrative expenses.

SEASONALITY

The Company's business is subject to seasonal influences and has twelve weeks in each of the first three quarters and sixteen or seventeen weeks in the fourth quarter. Both factors can cause significant differences in revenue, earnings and cash flows from quarter to quarter; however, the differences have followed a consistent pattern in previous years.

RECLASSIFICATIONS

Certain prior period amounts on the consolidated condensed financial statements have been reclassified to conform to current period presentation. These reclassifications did not affect net earnings.

WOLVERINE WORLD WIDE, INC. AND SUBSIDIARIES**Notes to Consolidated Condensed Financial Statements - continued**
March 22, 2008 and March 24, 2007**2. Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share:

	12 Weeks Ended	
	March 22, 2008	March 24, 2007
Weighted average shares outstanding	50,367,721	55,275,623
Adjustment for nonvested restricted common stock	(585,001)	(727,469)
Denominator for basic earnings per share	49,782,720	54,548,154
Effect of dilutive stock options	1,287,644	1,664,933
Adjustment for nonvested restricted common stock - treasury method	422,936	439,675
Denominator for diluted earnings per share	51,493,300	56,652,762

Options to purchase 1,015,579 shares of common stock at March 22, 2008 and 332,422 shares at March 24, 2007 have not been included in the denominator for the computation of diluted earnings per share because the related exercise prices were greater than the average market price for the period and, therefore, they were anti-dilutive.

3. Goodwill and Other Non-Amortizable Intangibles

The changes in the net carrying amounts of goodwill and trademarks are as follows (thousands of dollars):

	Goodwill	Trademarks	Total
Balance at March 24, 2007	\$ 38,827	\$ 8,506	\$ 47,333
Intangibles acquired	-	430	430

Balance at March 22, 2008	\$ 39,297	\$ 8,936	\$ 48,233

4. Comprehensive Income

Comprehensive income represents net earnings and any revenue, expenses, gains and losses that, under accounting principles generally accepted in the United States, are excluded from net earnings and recognized directly as a component of stockholders' equity.

The ending accumulated other comprehensive income is as follows (thousands of dollars):

Change in fair value of foreign currency cash flow hedges, net of taxes	1,471	151
Comprehensive income	\$ 25,724	\$ 23,062

5. Business Segments

The Company has one reportable segment that is engaged in manufacturing, sourcing, marketing, licensing and distributing branded footwear, apparel and accessories to the retail sector, including casual shoes, dress shoes, performance outdoor footwear, boots, uniform shoes, work shoes, and apparel and accessories. Revenue of this segment is derived from the sale of branded footwear and apparel to external customers as well as royalty income from the licensing of the Company's trademarks and brand names to licensees and distributors. The business units comprising the branded footwear, apparel and licensing segment manufacture or source, market and distribute products in a similar manner. Branded footwear, apparel and licensed products are distributed through wholesale channels and under licensing and distributor arrangements.

The other business units in the following table consist of the Company's retail, tannery and pigskin procurement operations. The Company operated 91 domestic retail stores and 20 consumer-direct Internet sites at March 22, 2008 that sell Company-manufactured and sourced products, as well as footwear and apparel manufactured by unaffiliated companies. The other business units distribute products through retail and wholesale channels.

There have been no material changes in the way the Company measures segment profits or in its basis of determining business segments.

Business segment information is as follows (thousands of dollars):

	Branded Footwear, Apparel and Licensing	Other Businesses	Corporate	Consolidated

6. Financial Instruments and Risk Management

The Company's financial instruments consist of cash and cash equivalents, accounts and notes receivable, accounts and notes payable and long-term debt. The Company's estimate of the fair values of these financial instruments approximates their carrying amounts at March 22, 2008. Fair value was determined using discounted cash flow analyses and current interest rates for similar instruments. The Company does not hold or issue financial instruments for trading purposes.

Effective December 30, 2007 (fiscal year 2008), the Company adopted the provisions of SFAS No. 157, *Fair Value Measurements* ("SFAS No. 157"), for financial assets and liabilities measured on a recurring basis. SFAS No. 157 applies to all financial assets and liabilities that are being measured and reported on a fair value basis and establishes a framework for measuring fair value of assets and liabilities and expands disclosures about fair value measurements. There was no impact to the Company's consolidated condensed financial statements as a result of the adoption of SFAS No. 157. As of March 22, 2008 and March 24, 2007, liabilities of \$708,000 and \$1,674,000, respectively, have been recognized for the fair value of the foreign exchange contracts. In accordance with SFAS No. 157, these liabilities fall within Level 2 of the fair value hierarchy. Level 2 represents financial instruments lacking quoted prices (unadjusted) from active market exchanges, including over-the-counter exchange-traded financial instruments. The prices for the financial instruments are determined using prices for recently traded financial instruments with similar underlying terms as well as directly or indirectly observable inputs. The Company did not have any additional assets or liabilities that were measured at fair value on a recurring basis at March 22, 2008.

The Company follows Statement of Financial Accounting Standards (SFAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS Nos. 137 and 138, which requires that all derivative instruments be recorded on the consolidated condensed balance sheets at fair value and establishes criteria for designation and effectiveness of hedging relationships. The Company utilizes foreign currency forward exchange contracts to manage the volatility associated with foreign currency inventory purchases made by non-U.S. wholesale operations in the normal course of business. At March 22, 2008 and March 24, 2007, foreign exchange contracts with a notional value of \$51,725,000 and \$52,668,000, respectively, were outstanding to purchase U.S. dollars with maturities ranging up to 252 days. These contracts have been designated as cash flow hedges.

The fair value of the foreign currency forward exchange contracts represents the estimated receipts or payments necessary to terminate the contracts. Hedge effectiveness is evaluated by the hypothetical derivative method. Any hedge ineffectiveness is reported within the cost of products sold caption of the consolidated condensed statements of operations. Hedge ineffectiveness was not material to the consolidated condensed financial statements for the quarters ended March 22, 2008 and March 24, 2007. If, in the future, the foreign exchange contracts are determined to be ineffective hedges or terminated before their contractual termination dates, the Company would be required to reclassify into earnings all or a portion of the unrealized amounts related to the cash flow hedges that are currently included in accumulated other comprehensive income within stockholders' equity.

The Company does not generally require collateral or other security on trade accounts and notes receivable.

7. Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with the fair value recognition provisions of SFAS No. 123(R), *Share-Based Payment*. The Company recognized compensation costs of \$1,957,000 and related income tax benefits of \$400,000 for its stock-based compensation plans in the statement of operations for the 12 weeks ended March 22, 2008. For the 12 weeks ended March 24, 2007, the Company recognized compensation costs of \$1,990,000 and related income tax benefits of \$560,000 for its stock-based compensation plans.

Stock-based compensation expense recognized in the consolidated condensed statements of operations for the 12 weeks ended March 22, 2008 and March 24, 2007 has been reduced for estimated forfeitures, as it is based on awards ultimately expected to vest. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

The Company estimated the fair value of employee stock options on the date of grant using the Black-Scholes model. The estimated weighted-average fair value for each option granted during the 12 weeks ended March 22, 2008 and March 24, 2007 was \$5.60 and \$6.89 per share, respectively, with the following weighted-average assumptions:

	12 Weeks Ended	
	March 22, 2008	March 24, 2007
Expected market price volatility ⁽¹⁾	28.6%	23.3%
Risk-free interest rate ⁽²⁾	2.4%	4.8%
Dividend yield ⁽³⁾	1.6%	1.4%
Expected term ⁽⁴⁾	4 years	4 years

⁽¹⁾ Based on historical volatility of the Company's common stock. The expected volatility is based on the daily percentage change in the price of the stock over four years.

⁽²⁾ Represents the U.S. Treasury yield curve in effect for the expected term of the option at the time of grant.

⁽³⁾ Represents the Company's cash dividend yield for the expected term.

⁽⁴⁾ Represents the period of time that options granted are expected to be outstanding. The Company determined that all employee groups exhibit similar exercise and post-vesting termination behavior to determine the expected term.

8. Pension Expense

A summary of net pension and Supplemental Executive Retirement Plan costs recognized by the Company is as follows (thousands of dollars):

	12 Weeks Ended	
	March 22, 2008	March 24, 2007
Service cost pertaining to benefits earned during the period	\$ (1,122)	\$ (1,141)
Interest cost on projected benefit obligations	(2,634)	(2,527)
Expected return on pension assets	3,212	3,251
Net amortization loss	(916)	(1,247)
Net pension cost	\$ (1,460)	\$ (1,664)

9. Litigation and Contingencies

The Company is involved in various environmental claims and other legal actions arising in the normal course of business. The environmental claims include sites where the Environmental Protection Agency has notified the Company that it is a potentially responsible party with respect to environmental remediation. These remediation claims are subject to ongoing environmental impact studies, assessment of remediation alternatives, allocation of costs

between responsible parties and concurrence by regulatory authorities and have not yet advanced to a stage where the Company's liability is fixed. However, after taking into consideration legal counsel's evaluation of all actions and claims against the Company, management is currently of the opinion that their outcome will not have a material adverse effect on the Company's consolidated financial position or future results of operations.

The Company is involved in routine litigation incidental to its business and is a party to legal actions and claims, including, but not limited to, those related to employment and intellectual property. Some of the legal proceedings include claims for compensatory as well as punitive damages. While the final outcome of these matters cannot be predicted with certainty, considering, among other things, the meritorious legal defenses available and liabilities that have been recorded along with applicable insurance, it is currently the opinion of the Company's management that these items will not have a material adverse effect on the Company's financial condition or future results of operations.

WOLVERINE WORLD WIDE, INC. AND SUBSIDIARIES**Notes to Consolidated Condensed Financial Statements - continued**
March 22, 2008 and March 24, 2007

Pursuant to certain of the Company's lease agreements, the Company has provided financial guarantees to third parties in the form of indemnification provisions. These provisions indemnify and reimburse third parties for costs, including but not limited to adverse judgments in lawsuits, taxes and operating costs. The terms of the guarantees are equal to the terms of the related lease agreements. The Company is not able to calculate the maximum potential amount of future payments it could be required to make under these guarantees, as the potential payment is dependent upon the occurrence of future unknown events.

The Company has future minimum royalty and advertising obligations due under the terms of certain licenses held by the Company. These minimum future obligations are as follows (thousands of dollars):

	2008	2009	2010	2011	2012	Thereafter
Minimum royalties	\$ 1,062	\$1,328	\$1,544	\$1,772	\$1,825	\$ 4,683
Minimum advertising	2,023	2,103	2,166	2,231	2,298	1,660

Minimum royalties are based on both fixed obligations and assumptions related to the consumer price index. Royalty obligations in excess of minimum requirements are based upon future sales levels. In accordance with these agreements, the Company incurred royalty expense of \$685,000 and \$934,000 for the first quarters of 2008 and 2007, respectively.

The terms of certain license agreements also require advertising expenditures based on the level of sales. In accordance with these agreements, the Company incurred advertising expense of \$706,000 and \$713,000 for the first quarters of 2008 and 2007, respectively.

10. New Accounting Standards

In March 2008, the Financial Accounting Standards Board (FASB) issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133* ("SFAS No. 161"). SFAS No. 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about how and why an entity uses derivative instruments, how the instruments are accounted for under SFAS No. 133 and its related interpretations, and how the instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. The guidance in SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 (fiscal year 2009 for the Company). The Company is currently evaluating the potential impact of the adoption of SFAS No. 161 on its disclosures in the Company's consolidated condensed financial statements.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Wolverine World Wide, Inc. (the "Company") continues to evolve from a leading global marketer of branded footwear into a multi-brand global marketer of footwear, apparel and accessories. The Company's vision is to market a portfolio of lifestyle brands which will: "Excite Consumers Around the World with Innovative Footwear and Apparel that Bring Style to Purpose." The Company intends to turn this vision into a reality by leading in innovation to achieve product/brand excellence, fielding the right team, delivering supply-chain excellence and improving operational efficiency, complementing its footwear brands with strong global apparel and accessories offerings and building a more substantial global consumer-direct footprint. The Company is focused on delivering its long-term financial objectives of achieving mid-to-upper single digit average annual revenue growth, annual double digit earnings per share increases, improved asset utilization and strong cash generation.

The following financial performance highlights of the first quarter of 2008 compared to the first quarter of 2007 reflect these strategies:

Record revenue and earnings per share for the 23rd consecutive quarter.

Revenue for the first quarter of 2008 of \$288.2 million, a 2.6% increase over the first quarter of 2007 revenue of \$281.1 million.

Diluted earnings per share during the first quarter of 2008 grew to \$.46 per share compared to \$.39 per share for the same quarter in the prior year, an increase of 17.9%.

Inventory levels were reduced by \$7.9 million, a 4.0% reduction, in the first quarter of 2008 compared to the same quarter in the prior year resulting in an increase in annualized inventory turns from 3.6 turns in the first quarter of 2007 to 3.7 turns in the first quarter of 2008.

The Company ended the first quarter of 2008 with \$47.5 million of cash on hand and interest-bearing debt of \$70.8 million.

During the first quarter of 2008, the Company utilized \$47.7 million of cash to repurchase 1.8 million shares of stock under its share repurchase program.

The Company declared a quarterly cash dividend of \$.11 per share in the first quarter of 2008, a 22.2% increase over the \$.09 per share declared in the first quarter of 2007.

The following is a discussion of the Company's results of operations and liquidity and capital resources for the first quarter of 2008. This section should be read in conjunction with the consolidated condensed financial statements and notes.

The Company has one reportable segment that is engaged in manufacturing, sourcing, marketing, licensing and distributing branded footwear, apparel and accessories. Within the branded footwear, apparel and licensing segment, the Company has identified five operating units, consisting of the Outdoor Group (comprised of the Merrell® and Patagonia® Footwear brands), the Wolverine Footwear Group (comprised of the Wolverine®, HyTest®, Bates® and Stanley® Footgear brands and certain private label branded products), the Heritage Brands Group (comprised of the Cat® Footwear, Harley-Davidson® Footwear and Sebago® brands), The Hush Puppies Company and Other Branded Footwear. The Company's other business units consist of Wolverine Retail and Wolverine Leathers (comprised of the tannery and procurement operations). The following is supplemental information on total revenue:

REVENUE

Revenue of \$288.2 million for the first quarter of 2008 exceeded the prior year first quarter revenue by \$7.1 million. The impact of translating foreign denominated revenue to U.S. dollars increased revenue by \$7.2 million. Increases in unit volume, changes in product mix and changes in selling price for the branded footwear, apparel and licensing operations as discussed below contributed \$.7 million of the revenue increase. These increases were offset by \$2.6 million due to the planned phase out of Hush Puppies® slippers, Stanley® Footgear and

private label businesses. The other business units contributed \$1.8 million to the increase. International revenue increased in the quarter to account for 40.1% of total revenue in 2008 as compared to 40.0% in 2007.

The Outdoor Group recorded revenue of \$107.4 million for the first quarter of 2008, a \$7.2 million increase over the first quarter of the prior year. The Merrell® footwear business accounted for \$4.3 million of the increase over the prior year, as a result of strong footwear shipments, with particular strength in the multi-sport and women's casual categories. The Merrell® Apparel division, which launched in the second half of 2007, contributed \$2.8 million in revenue during the first quarter of 2008. Patagonia® Footwear product contributed \$.1 million to the increase in its second full year of operation.

The Wolverine Footwear Group recorded \$57.4 million in revenue for the first quarter of 2008, a \$2.9 million increase from the first quarter of 2007. The Wolverine® business realized a decrease in revenue of \$2.3 million during the first quarter of 2008 compared to the first quarter of 2007, due primarily to a challenging retail environment. The Bates® uniform footwear business realized an increase in revenue of \$6.8 million primarily due to the timing of U.S. Department of Defense contract shipments compared to the first quarter of the prior year. HyTest® contributed a revenue increase of \$.7 million over the first quarter of 2007. The Stanley® Footgear and private label businesses realized a \$2.3 million revenue decrease during the first quarter of 2008, compared to the first quarter of 2007, as a result of the planned phase out of these businesses.

The Heritage Brands Group experienced a \$2.7 million decrease in revenue during the first quarter of 2008 compared to the first quarter of 2007. Cat® Footwear's revenue decreased a total of \$1.5 million over the first quarter of 2007, reflecting difficult market conditions and slower trends in the international boot market. Harley-Davidson® Footwear revenue decreased \$2.3 million in the quarter driven largely by the planned decline in the U.S. market due to the repositioning of the brand and resulting distribution channel modifications. The Sebago® brand experienced an increase in revenue of \$1.1 million in the first quarter of 2008 as a result of strong product sell-through and a positive response to new higher price point product introductions.

The Hush Puppies Company recorded revenue of \$42.0 million in the first quarter of 2008, a \$2.5 million decrease from the first quarter of 2007. A strong revenue increase of \$1.1 million was experienced by the international licensing business during the first quarter of 2008. The U.K. market offset the increase by \$1.0 million due to the bankruptcy reorganization of two significant customers, which substantially impacted shipments in the quarter. Revenue for the U.S. market decreased \$2.1 million from the first quarter of 2007 due to the internal reorganization of the SoftStyle® business. The Canadian market decreased \$.3 million in the first quarter of 2008 as a result of limited shipping capacity in the Canadian distribution center. The remaining \$.2 million decrease from the first quarter of 2007 is a result of the planned phase out of the slipper business.

Within the Company's other business units, Wolverine Retail reported a \$1.4 million increase in revenue in comparison to the first quarter of 2007 as a result of a \$.7 million increase in Internet revenues, partially offset by a \$.1 million decrease in same-store revenues. The net addition of eight stores as compared to the prior year's first quarter contributed \$.8 million to the revenue increase. Wolverine Retail operated 91 retail stores at the end of the first quarter of 2008 compared to 83 at the end of the first quarter of 2007. Revenue from the Wolverine® Leathers operation increased \$.4 million in comparison to the first quarter of 2007 primarily due to increased demand for its suede products.

GROSS MARGIN

The gross margin of 42.2% for the first quarter of 2008 was a 160 basis point increase from the first quarter of 2007. Initial pricing margins generated by the brands contributed 70 basis points to the gross margin improvement. The positive impact of foreign currency, primarily in the continental European operations which operate with the Euro as their functional currency, contributed 50 basis points. An improved mix of higher margin goods being shipped in the branded footwear business contributed 40 basis points to the increase.

SELLING AND ADMINISTRATIVE EXPENSES

Selling and administrative expenses of \$85.3 million for the first quarter of 2008 increased \$4.0 million from \$81.3 million for the first quarter of 2007. Continued investment in brand development through product, marketing and retail placement initiatives increased costs for the first quarter of 2008 by \$3.0 million in comparison to the first quarter of 2007. The remaining increase related primarily to selling and distribution costs that vary with the increase in revenue.

INTEREST, OTHER & TAXES

The change in net interest (income) expense reflected increased working capital borrowings during the quarter.

The change in other (income) expense primarily related to the change in realized gains or losses on foreign denominated assets and liabilities.

The Company's effective tax rate was 33.5% for the first quarters of 2008 and 2007.

NET EARNINGS

As a result of the revenue, gross margin and expense changes discussed above, the Company achieved net earnings of \$23.7 million for the first quarter of 2008 as compared to \$22.3 million in the first quarter of 2007, an increase of \$1.4 million.

The Company continued to strengthen its balance sheet in the first quarter of 2008. Cash of \$65.7 million was used to fund working capital investments in the first quarter of 2008 compared to \$48.4 million used in the first quarter of 2007. Inventory levels decreased 4.0% from the same quarter last year and annualized inventory turns increased from 3.6 turns to 3.7 turns. However, the change in inventory levels from year end had a negative impact on cash flows from operating activities when compared to prior year. Accounts receivable increased 12.2% on a 2.6% increase in revenue over the same quarter last year due to strong Spring shipments towards the end of the quarter. The allowance for bad debts and potential product returns was increased as a result of the increase in accounts receivable and revenue. No single customer accounted for more than 10% of the outstanding accounts receivable balance at March 22, 2008.

The decrease in accounts payable as compared to the first quarter of 2007 was primarily attributable to the decrease in inventory purchases from contract suppliers.

The majority of capital expenditures were for information system enhancements, consumer-direct initiatives, manufacturing equipment and building improvements. The Company leases machinery, equipment and certain warehouse, office and retail store space under operating lease agreements that expire at various dates through 2023.

The Company has a long-term revolving credit agreement that expires in July 2010 and allows for borrowings up to \$150.0 million. The revolving credit facility is used to support working capital requirements. The amount outstanding under the revolving credit facility at March 22, 2008 was \$60.1 million. No amount was outstanding at March 24, 2007. Proceeds from the existing credit facility along with cash flows from operations are expected to be sufficient to meet capital needs in the foreseeable future. Any excess cash flows from operating activities are expected to be used to purchase property, plant and equipment, pay down existing debt, fund internal and external growth initiatives, pay dividends or repurchase the Company's common stock.

The increase in debt at March 22, 2008 as compared to March 24, 2007 was the result of the outstanding balance under the long-term revolving credit agreement primarily due to the repurchase of the Company's stock, partially offset by annual principal payments on the Company's senior notes. The Company had commercial letter-of-credit facilities outstanding of \$1.0 million and \$2.9 million at March 22, 2008 and March 24, 2007, respectively. The

total debt to total capital ratio for the Company was 13.5% at the end of the first quarter of 2008, 4.2% at the end of the first quarter of 2007 and 2.2% for the fiscal year ended December 29, 2007.

The Company's Board of Directors approved a common stock repurchase program on April 19, 2007. The program authorized the repurchase of 7.0 million shares of common stock over a 36-month period beginning on the effective date of the program. There were 1,817,081 shares (\$26.22 average price paid per share) repurchased during the first quarter of 2008 under the program. As of March 22, 2008, there were 1,633,384 shares remaining for future repurchase under the April 19, 2007 program. The primary purpose of the stock repurchase program is to increase stockholder value. The Company intends to continue to repurchase shares of its common stock in open market or privately negotiated transactions, from time to time, depending upon market conditions and other factors. Additional information about stock repurchases is included in Part II, Item 2 of this Form 10-Q.

The Company declared dividends of \$5.4 million in the first quarter of 2008, or \$.11 per share. This represents a 22.2% increase over the \$.09 per share declared in the first quarter of 2007. The quarterly dividend is payable on May 1, 2008 to stockholders of record on April 1, 2008.

Critical Accounting Policies

The preparation of the Company's consolidated condensed financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. On an ongoing basis, management evaluates these estimates. Estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Historically, actual results have not been materially different from the Company's estimates. However, actual results may differ from these estimates under different assumptions or conditions.

The Company has identified the critical accounting policies used in determining estimates and assumptions in the amounts reported in its Management's Discussion and Analysis of Financial Condition and Results of Operations in its Annual Report on Form 10-K for the fiscal year ended December 29, 2007. Management believes there have been no changes in those critical accounting policies.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

The information concerning quantitative and qualitative disclosures about market risk contained in the Company's Annual Report on Form 10-K for its fiscal year ended December 29, 2007, is incorporated herein by reference.

The Company faces market risk to the extent that changes in foreign currency exchange rates affect the Company's foreign assets, liabilities and inventory purchase commitments and to the extent that its long-term debt requirements are affected by changes in interest rates. The Company manages these risks by attempting to denominate contractual and other foreign arrangements in U.S. dollars and by maintaining a portion of its debt on a fixed-rate basis. The Company does not believe that there has been a material change in the nature of the Company's primary market risk exposures, including the categories of market risk to which the Company is exposed and the particular markets that present the primary risk of loss to the Company. As of the date of this Form 10-Q Quarterly Report, the Company does not know of or expect there to be any material change in the general nature of its primary market risk exposure in the near term.

The methods used by the Company to manage its primary market risk exposures, as described in the sections of its annual report incorporated herein by reference in response to this item, have not changed materially during the current

year. As of the date of this Form 10-Q Quarterly Report, the Company does not expect to change its methods used to manage its market risk exposures in the near term. However, the Company may change those methods in the future to adapt to changes in circumstances or to implement new techniques.

The Company's market risk exposure is mainly comprised of its vulnerability to changes in foreign currency exchange rates and interest rates. Prevailing rates and rate relationships in the future will be primarily determined by market factors that are outside of the Company's control. All information provided in response to this item consists of forward-looking statements. Reference is made to the section captioned "Forward-Looking Statements" at the beginning of this document for a discussion of the limitations on the Company's responsibility for such statements. For purposes of this item, "near term" means a period of time going forward up to one year from the date of the financial statements.

Under the provisions of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS Nos. 137 and 138, the Company is required to recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value through earnings. If a derivative is a hedge, depending on the nature of the hedge, changes in the fair value of derivatives are either offset against the change in fair value of the hedged assets, liabilities or firm commitments through earnings or recognized in accumulated other comprehensive income until the hedged item is recognized in earnings.

The Company conducts wholesale operations outside of the United States in Europe and Canada where the functional currencies are primarily the British pound, euro, and Canadian dollar. The Company utilizes foreign currency forward exchange contracts to manage the volatility associated with inventory purchases made by non-U.S. wholesale operations in foreign currencies in the normal course of business. At March 22, 2008 and March 24, 2007, the Company had outstanding forward currency exchange contracts to purchase \$51.7 million and \$52.7 million, respectively, U.S. dollars with maturities ranging up to 252 days.

The Company also faces market risk to the extent that its products are produced in countries where certain labor, overhead and raw material costs are paid in foreign currencies, including the Chinese yuan renminbi. As a result, changes in the foreign currency exchange rates of these currencies could cause increases in the price of products which the Company purchases primarily in U.S. dollars.

The Company also has production facilities in the Dominican Republic where financial statements are prepared in U.S. dollars as the functional currency; however, operating costs are paid in the local currency. Royalty revenue generated by the Company from certain third-party foreign licensees is calculated in the licensees' local currencies, but paid in U.S. dollars. Accordingly, the Company could be subject to related foreign currency remeasurement gains and losses in 2008 and beyond.

ITEM 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on and as of the time of such evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures, as defined in Securities Exchange Act Rule 13a-15(e), were effective as of the end of the period covered by this report. There have been no changes during the quarter ended March 22, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

⁽¹⁾ The Company's Board of Directors approved a common stock repurchase program on April 19, 2007. This program authorized the repurchase of 7.0 million shares of common stock over a 36-month period, commencing on the effective date of the program. All shares repurchased during the period covered by this report were purchased under publicly announced programs.

⁽²⁾ Employee transactions include: (1) shares delivered or attested in satisfaction of the exercise price and/or tax withholding obligations by holders of employee stock options who exercised options and (2) restricted shares withheld to offset tax withholding that occurs upon vesting of restricted shares. The Company's employee stock compensation plans provide that the value of the shares delivered or attested to, or withheld, shall be the closing price of the Company's common stock on the date the relevant transaction occurs.
