TANDY LEATHER FACTORY, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 1. BASIS OF PRESENTATION AND CERTAIN SIGNIFICANT ACCOUNTING POLICIES

In the opinion of management, the accompanying consolidated financial statements for Tandy Leather Factory, Inc. and its consolidated subsidiaries contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly its financial position as of March 31, 2010 and December 31, 2009, and its results of operations and cash flows for the three-month periods ended March 31, 2010 and 2009. Operating results for the three-month period ended March 31, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2009.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Inventory.** Inventory is stated at the lower of cost or market and is accounted for on the “first in, first out” method. Based on negotiations with vendors, title generally passes to us when merchandise is put on board. Merchandise to which we have title but which have not yet received is recorded as Inventory in transit. In addition, the value of inventory is periodically reduced for slow-moving or obsolete inventory based on management's review of items on hand compared to their estimated future demand.

The components of inventory consist of the following:

	As of	
	March 31, 2010	December 31, 2009
<b>Inventory on hand:</b>		
Finished goods held for sale	\$15,650,318	\$14,861,855
Raw materials and work in process	334,219	609,002
Inventory in transit	1,554,316	1,394,969
	<b>\$17,538,853</b>	<b>\$16,865,826</b>

**Goodwill and Other Intangibles.** Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination and is required to be tested for impairment on an annual basis, absent indicators of impairment during the interim. A two-step process is used to test for goodwill impairment. The first phase screens for impairment, while the second phase (if necessary) measures the impairment. We have elected to perform the annual analysis during the fourth calendar quarter of each year. As of December 31, 2009, management determined that the present value of the discounted estimated future cash flows of the stores associated with the goodwill is sufficient to support their respective goodwill balances. No indicators of impairment were identified during the first quarter of 2010.

A summary of changes in our goodwill for the periods ended March 31, 2010 and 2009 is as follows:

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

	Gross	Accumulated Net Amortization		Gross	Accumulated Net Amortization

We recorded amortization expense of \$15,178 during the first quarter of 2010 compared to \$12,824 during the first quarter of 2009. All of our intangible assets are subject to amortization under U.S. GAAP. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding 5 years is as follows:

	Wholesale Leathercraft	Retail Leathercraft	Total
2010	\$29,190	\$30,337	\$59,527

Revenue Recognition. Our sales generally occur via two methods: (1) at the counter in our stores, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Our shipping terms are FOB shipping point.

We offer an unconditional satisfaction guarantee to our customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

Recent Accounting Pronouncements. In June 2009, the Financial Accounting Standards Board (the "FASB") issued The Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, which establishes the FASB Accounting Standards Codification (the "Codification") as the single source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases issued by the Securities and Exchange Commission ("SEC") are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards. All

other nongrandfathered non-SEC accounting literature not included in the Codification became nonauthoritative. The Codification was effective for us on July 1, 2009 and its adoption did not have a material impact on our consolidated financial condition or results of operations.

In May 2009, the FASB issued accounting guidance on subsequent events which requires companies to address the accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, companies must name the two types of subsequent events either as recognized or non-recognized subsequent events. The adoption of this accounting guidance did not have a material impact on our financial position or results of operations.

In April 2009, the FASB issued accounting guidance requiring disclosure about the method and significant assumptions used to establish the fair value of financial instruments for interim reporting periods as well as annual statements. The adoption of this accounting guidance did not have a material impact on our consolidated financial condition or results of operations.

## 2. SHORT-TERM INVESTMENTS

All current fixed maturity securities are classified as “available for sale” and are reported at carrying value, which approximates fair value. We have determined that our investment securities are available to support current operations and, accordingly, have classified such securities as current assets without regard to contractual maturities. Investments at March 31, 2010 and December 31, 2009 consisted of certificates of deposit. The contractual maturities of the certificates of deposit as of March 31, 2010 are shown below. Actual maturities may differ from the contractual maturities because debtors may have the right to call obligations with or without call penalties.

Due within one year	\$2,809,000
Due between one and five years	3,988,598
Due between five and ten years	-
Due between ten and fifteen years	99,000
Due between fifteen and twenty years	99,000
	\$6,995,598

## 3. NOTES PAYABLE AND LONG-TERM DEBT

On July 31, 2007, we entered into a Credit Agreement and Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a credit facility of up to \$5,500,000 to facilitate our purchase of real estate consisting of a 195,000 square foot building situated on 30 acres of land located at 1900 SE Loop 820 in Fort Worth, Texas. Proceeds in the amount of \$4,050,000 were used to fund the purchase of the property. On April 30, 2008, the principal balance was rolled into a 10-year term note with a 20-year amortization and accrues interest at a rate of 7.10% per annum.

At March 31, 2010 and December 31, 2009, the amount outstanding under the above agreement consisted of the following:

	March 31, 2010	December 31, 2009
Credit Agreement with JPMorgan Chase Bank – collateralized by real estate; payable as follows:		
Line of Credit Note dated July 31, 2007, converted to a 10-year term note on April 30, 2008; \$16,875 monthly principal payments plus interest at 7.1% per annum; matures April 30, 2018	\$3,661,875	\$3,712,500

Less - Current maturities	(202,500)	(202,500)
	\$3,459,375	\$3,510,000

## 4. STOCK-BASED COMPENSATION

We have one stock option plan which provides for stock option grants to non-employee directors. No options have been awarded as of March 31, 2010. We had two other stock option plans from 1995 which provided for stock option grants to officers, key employees and non-employee directors. These plans expired in 2005. The expiration of the plans has no effect on the options previously granted. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our common stock on the date the option was granted and no option has a term in excess of ten years. Additionally, options vest and become exercisable either six months from the option grant date or in equal installments over a five-year period.

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

We recognized share based compensation expense of approximately \$0 and \$2,500 for the quarters ended March 31, 2010 and 2009, respectively, as a component of operating expenses. During the three months ended March 31, 2010 and 2009, the stock option activity under our stock option plans was as follows:

Our Business

We are the world's largest specialty retailer and wholesale distributor of leather and leathercraft related items. We market our products to our growing list of customers through company-owned retail and wholesale stores. We are a Delaware corporation, and our common stock trades on the NYSE Amex under the symbol "TLF." We operate our business in three segments: Wholesale Leathercraft, which operates wholesale stores in North America under the trade name, The Leather Factory, Retail Leathercraft, which operates retail stores in North America under the trade name, Tandy Leather Company, and International Leathercraft, which operates combination retail/wholesale stores outside of North America under the trade name, Tandy Leather Factory. See Note 6 to the Consolidated Financial Statements for additional information concerning our segments, as well as our foreign operations.

Our Wholesale Leathercraft segment operates 30 company-owned wholesale stores in 20 states and three Canadian provinces. These stores are engaged in the wholesale distribution of leather and related items, including leatherworking tools, buckles and belt adornments, leather dyes and finishes, saddle and tack hardware, and do-it-yourself kits, to retailers, manufacturers, and end users. Our Wholesale Leathercraft segment also includes our National Account sales group.

Our Retail Leathercraft segment operates company-owned Tandy Leather Company retail stores in 35 states and six Canadian provinces. Tandy Leather, the oldest and best-known supplier of leather and related supplies used in the leathercraft industry, has been the primary leathercraft resource for decades. Tandy Leather's products include quality tools, leather, accessories, kits and teaching materials. In 2002, we began expanding Tandy Leather's industry presence by opening retail stores. As of May 1, 2010, we were operating 76 Tandy Leather retail stores located throughout the United States and Canada.

Our International Leathercraft segment operates one company-owned store in Northampton, United Kingdom. The store, which opened in February 2008, operates as a combination retail and wholesale store.

Critical Accounting Policies

A description of our critical accounting policies appears in Item 7 "Management's Discussions and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

## Forward-Looking Statements

Certain statements contained in this report and other materials we file with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made or to be made by us, other than statements of historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally are accompanied by words such as “may,” “will,” “could,” “should,” “anticipate,” “believe,” “budgeted,” “intend,” “plan,” “project,” “potential,” “estimate,” “continue,” or “future” variations thereof or other similar statements. There are certain important risks that could cause results to differ materially from those anticipated by some of the forward-looking statements. Some, but not all, of the important risks, including those described below, could cause actual results to differ materially from those suggested by the forward-looking statements. Please refer also to our Annual Report on Form 10-K for fiscal year ended December 31, 2009 for additional information concerning these and other uncertainties that could negatively impact the Company.

Ø We believe that a rise in oil and natural gas prices will increase the costs of the goods that we sell, including the costs of shipping those goods from the manufacturer to our stores and customers.

Various oils used to manufacture certain leather and leathercrafts are derived from petroleum and natural gas. Also, the carriers who transport our goods rely on petroleum-based fuels to power their ships, trucks and trains. They are likely to pass any incurred cost increases on to us. We are unsure how much of this increase we will be able to pass on to our customers.

Ø Continued weakness in the economy in the United States, as well as abroad, may cause our sales to decrease or not to increase or adversely affect the prices charged for our products. Furthermore, negative trends in general consumer-spending levels, including the impact of the availability and level of consumer debt and levels of consumer confidence could adversely affect our sales.

General economic factors that are beyond our control impact our forecasts and actual performance. These factors include interest rates, recession, inflation, deflation, consumer credit availability, consumer debt levels, tax rates and policy, unemployment trends and other matters that influence consumer confidence and spending.

We assume no obligation to update or otherwise revise our forward-looking statements even if experience or future changes make it clear that any projected results, express or implied, will not be realized.

Sales to our retail, wholesale and small manufacturer customers were up in the first quarter of 2010 compared to the first quarter of 2009, while sales to our institution and national account group customers were down slightly. Operating income for Wholesale Leathercraft during the current quarter increased by \$168,000 from the comparative 2009 quarter, an improvement of 46%. The improved gross profit margin, due to an increase in retail sales, accounted for the majority of increase in operating income as operating expenses increased at the same rate as sales. Operating expenses increased \$152,000, or 5%, due to an employee compensation increase of \$53,000, a supplies expense increase of \$32,000 and a utilities expense increase of \$88,000. Expense reductions occurred in legal and professional fees (\$22,000), depreciation (\$48,000), and employee benefits (\$14,000).

Retail Leathercraft

Our Retail Leathercraft operation consists of 76 Tandy Leather retail stores at March 31, 2010, compared to 74 stores at March 31, 2009. Net sales increased 15.3% for the first quarter of 2010 over the same quarter last year. A store is categorized as “new” until it is operating for the full comparable period in the prior year.

Total sales	76	\$7,616,296	\$6,603,522	\$1,012,774	15.3%

## Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

The following table presents sales mix by customer categories for the quarters ended March 31, 2010 and 2009 for our Retail Leathercraft operation:

Customer Group	Quarter ended	
	03/31/10	03/31/09
RETAIL (end users, consumers, individuals)	65%	65%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	6%	7%
WHOLESALE (resellers & distributors, saddle & tack shops, authorized dealers, etc.)	28%	27%
NATIONAL ACCOUNTS	-	-
MANUFACTURERS	1%	1%
	100%	100%

Sales to each customer group increased slightly over the first quarter of 2009 except for the Institution group. Operating income increased \$373,000, or 68%, from the comparative 2009 quarter. Operating income as a percentage of sales also increased from 8.3% in the first quarter of 2009 to 12.1% in the first quarter of 2010. Our gross profit margin increased from 59.8% to 63.5%. Operating expenses as a percentage of sales remained steady at 51.5%. Operating expenses increased \$514,000 over the first quarter of 2009. The two new stores opened since March 31, 2009 accounted for additional operating expenses of \$56,000. Employee compensation increased \$250,000. Specifically, increased profitability of the stores results in higher bonuses earned by our store managers. In addition, advertising expenses increased \$75,000. Freight out (shipping to customers) and credit card fees increased \$42,000 and \$24,000, respectively, due to increased sales. Rent expense increased \$35,000.

### International Leathercraft

Consisting of one store located in the UK, this division's sales totaled \$384,000 for the first quarter of 2010, compared to \$293,000 in the first quarter of 2009, an improvement of 31%. Gross profit margin decreased 10 percentage points from the first quarter of 2009 due to the impact of the conversion rate on the selling prices in our UK store. We determine UK selling prices taking into consideration the currency conversion between the U.S. dollar and the Great Britain pound. Even so, the store generates higher profit margins than that of a comparable U.S. store as it sells a heavier mix of higher margin tools and supplies and less lower margin leather. Operating expenses totaled \$172,000 in the first quarter of 2010, up from \$141,000 in the first quarter of 2009. Advertising expense is this division's largest expense, followed by employee compensation, shipping costs to customers, and rent.

### Other Expenses

We paid \$66,000 in interest on our bank debt in the first quarter of 2010, compared to \$77,000 in the first quarter of 2009. We recorded \$35,000 in interest income on our cash balances during the quarter compared to \$29,000 a year ago. We recorded an expense of \$92,000 for currency fluctuations in the first quarter of 2010. Comparatively, in the first quarter of 2009, we recorded income of \$28,000 in income for currency fluctuations.

### Capital Resources, Liquidity and Financial Condition

On our consolidated balance sheet, total assets increased from \$43.3 million at year-end 2009 to \$44.9 million at March 31, 2010. Inventory and other current assets accounted for the majority of the increase. Total stockholders' equity increased from \$33.4 million at December 31, 2009 to \$34.4 million at March 31, 2010, the increase being attributable to earnings in the first quarter of this year. Our current ratio fell from 5.6 at December 31, 2009 to 5.3 at March 31, 2009 due to the increase in trade accounts payable during that time period.

Our investment in inventory increased by \$673,000 at March 31, 2010 from year-end 2009, in anticipation of continued sales increases. Inventory turnover reached an annualized rate of 3.39 times during the first quarter of 2010, virtually the same as 3.38 times for the first quarter of 2009. Inventory turnover was 3.34 times for all of 2009. We compute our inventory turns as sales divided by average inventory. At the end of the first quarter, our total inventory on hand was approximately 5% over our internal targets for optimal inventory levels. We will continue to monitor the relationship between our sales and inventory in order to optimize our investment in inventory.

Trade accounts receivable was \$1.5 million at March 31, 2010, up \$256,000 from \$1.2 million at year-end 2009. The average days to collect accounts for the first quarter of 2010 were 46 days, up slightly from the first quarter of 2009 of 43 days. We are monitoring our customer accounts very closely in order to minimize the risk of uncollectible accounts in the current economic environment.

Accounts payable increased to \$1.6 million at March 31, 2010 compared to \$1.2 million at year-end 2009, due to the increase in inventory purchases during the first quarter in response to our sales increase. Accrued expenses increased \$128,000 from December 31, 2009 to March 31, 2010.

During the first quarter of 2010, cash flow provided by operating activities was \$224,000. The net income generated for the quarter and the increase in accounts payable contributed a portion of the cash flow, offset by increases in accounts receivable, inventory and other current assets. Cash flow used in investing activities totaled \$2.1 million, consisting primarily of net purchases of certificates of deposit with our excess cash. Cash flow used by financing activities totaled \$59,000, consisting of payments on our bank debt of \$51,000 and repurchases of our common stock of \$8,000.

We expect to fund our operating and liquidity needs as well as our store growth from a combination of current cash balances and internally generated funds.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of March 31, 2010, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended March 31, 2010 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
