## PART I

### ITEM 1. BUSINESS

#### General

We are a retailer and wholesale distributor of a broad line of leather and related products, including leather, leatherworking tools, buckles and adornments for belts, leather dyes and finishes, saddle and tack hardware, and do-it-yourself kits. We also manufacture leather lacing and some of our do-it-yourself kits. During 2012, our consolidated sales totaled \$72.7 million, of which approximately 16% were export sales. We maintain our principal offices at 1900 Southeast Loop 820, Fort Worth, Texas 76140. Our common stock trades on the NASDAQ Global Market under the symbol "TLF."

Our company was founded in 1980 as Midas Leathercraft Tool Company, a Texas corporation. Midas' original business activity focused on the distribution of leathercraft tools. In addition, the founders of Midas entered into a consulting agreement with Brown Group, Inc., a major footwear retailer, as a result of their proposal to develop a multi-location chain of wholesale stores known as "The Leather Factory." In 1985, Midas purchased the assets related to The Leather Factory stores from Brown Group, Inc., which then consisted of six wholesale stores.

In 1993, we changed our name to The Leather Factory, Inc., and reincorporated in the state of Delaware in 1994. In 2005, we changed our name to Tandy Leather Factory, Inc.

#### Our Development in Recent Years

We have expanded our wholesale store chain by opening new stores and by making numerous acquisitions of small businesses in strategic geographic locations including the acquisition of our Canadian distributor, The Leather Factory of Canada, Ltd., in 1996. By 2000, our wholesale chain had grown to 27 Leather Factory stores located in the United States and two Leather Factory stores in Canada. In November 2000, we acquired the operating assets of two subsidiaries of Tandycrafts, Inc. to form Tandy Leather Company. In 2002, we began opening retail stores under the "Tandy Leather" name and also opened our thirtieth wholesale store – our third in Canada. From 2002 to 2009, we purchased eleven independent leathercraft retail stores, including Heritan Ltd. and its parent, our primary Canadian competitor, and opened another 64 retail stores. In 2007, we purchased Mid-Continent Leather Sales, Inc., a competitor located in Oklahoma, a wholesale store. In 2008, we opened one combination wholesale and retail store in Northampton, United Kingdom. In 2010, we opened one retail store in Canada. In 2011, we opened one combination wholesale and retail store in Sydney, Australia and one retail store in the U.S. In 2012, we opened one combination wholesale and retail store in Jerez, Spain and one retail store in the U.S.

At December 31, 2012, we operated 29 wholesale stores operating under the Leather Factory name (26 in the U.S. and three in Canada). We also operated 78 retail stores operating under the Tandy Leather name (71 in the U.S. and seven in Canada) as well as three combination wholesale and retail stores operating under the Tandy Leather Factory name in the United Kingdom, Australia and Spain. We closed Mid-Continent Leather Sales, a wholesale store, in October 2010.

Tandy Leather Factory, Inc. has eleven wholly-owned subsidiaries organized into three operating segments as follows:

Segment	Subsidiaries included:
Wholesale Leathercraft	The Leather Factory, LP; The Leather Factory of Canada, Ltd (3 stores)

Retail Leathercraft      Tandy Leather Company, LP;  
The Leather Factory of Canada, Ltd (7 stores)

International  
Leathercraft              Tandy Leather Factory UK Ltd.  
Tandy Leather Factory Australia Pty Ltd  
Tandy Leather Factory Espana, SL

Our growth, measured both by our net sales and net income, occurs as a result of the increase in the number of stores we have and the increase from year to year of the sales in our existing stores. The following tables provide summary store count information by segment in each of our fiscal years from 1999 to 2012.

(1) Leather Factory wholesale store converted to a Tandy Leather retail store.

(2) Includes conversions of Leather Factory wholesale stores to Tandy Leather retail stores.

(\*) The Tandy Leather operation began as a central mail-order fulfillment center in 2000 which was closed in 2002.

(^) Wholesale store operating as Mid-Continent Leather Sales

No single customer's purchases represented more than 2% of our total sales in 2012. Sales to our five largest customers represent 2.9%, 5.5% and 5.5% of consolidated sales in 2012, 2011 and 2010, respectively. Management does not believe the loss of one of these customers would have a significant negative impact on our consolidated operations.

## TABLE OF CONTENTS

### Our Operating Segments

We service our customers primarily through three operating segments. We identify these segments based on management responsibility, customer focus, and store location. The Wholesale Leathercraft segment consists of 29 wholesale stores of which 26 are located in the United States and three are located in Canada. As of March 1, 2013, the Retail Leathercraft segment consists of 78 Tandy Leather retail stores of which 71 are located in the United States and seven are located in Canada. Both of these segments sell leather and leathercraft-related products. The International Leathercraft segment consists of all stores, wholesale or retail, located outside of North America. As of March 1, 2013, we had three such stores, one located in the United Kingdom, one located in Australia, and one located in Spain.

Information regarding net sales, gross profit, operating income and total assets, attributable to each of our segments, is included within Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, and within Item 8. Financial Statements and Supplementary Data in Note 14, Segment Information, of our Notes to Consolidated Financial Statements, which are incorporated herein by reference.

### Wholesale Leathercraft

The Wholesale Leathercraft operation distributes its broad product line of leather and leathercraft-related products in the United States and Canada through wholesale stores operating under the name, "The Leather Factory". This segment had net sales of \$26.9 million, \$26.5 million and \$25.9 million for 2012, 2011 and 2010, respectively.

**General** We operate wholesale stores in 20 states and three Canadian provinces. The stores range in size from 2,350 square feet to 15,500 square feet, with the average size of a store being approximately 5,000 square feet. The type of premises utilized for our wholesale stores is generally light industrial office/warehouse space in proximity to a major freeway or with other similar access. This type of location typically offers lower rents compared to other more retail-oriented locations.

**Business Strategy** Our business concept focuses on the wholesale distribution of leather and related accessories to retailers, manufacturers and end users. Our strategy is that a customer can purchase the leather, related accessories and supplies necessary to complete his or her project from a single source. The size and layout of the stores are planned to allow large quantities of product to be displayed in an easily accessible and visually appealing manner. Leather is displayed by the pallet where the customer can see and touch it, assessing first-hand the numerous sizes, styles and grades offered. The location of the stores is selected based on the location of customers, so that delivery time to customers is minimized. A two-day maximum delivery time for phone, internet and mail orders is our goal.

Our wholesale stores serve customers through various means including walk-in traffic, phone, internet and mail order. We also employ a distinctive marketing tactic in that we maintain an internally-developed target customer mailing list for use in our aggressive direct mail advertising campaigns. We staff our stores with experienced managers whose compensation is tied to the operating profit of the store they manage. Sales are generated by the selling efforts of the store personnel, our direct mail advertising, our website ([www.tandy-leatherfactory.com](http://www.tandy-leatherfactory.com)), and our participation at trade shows.

**Customers** Our customer base consists of thousands of individuals, wholesale distributors, tack and saddle shops, institutions (prisons and prisoners, schools, hospitals), western stores, craft stores and craft store chains, other large volume purchasers, manufacturers and retailers dispersed geographically throughout the world. Wholesale sales constitute the majority of our business, although retail customers may purchase products from our wholesale stores. The Wholesale Leathercraft division's sales generally do not reflect significant seasonal patterns. No single customer's purchases represented more than 1% of Wholesale Leathercraft's sales in 2012.

Our Authorized Sales Center (“ASC”) program was developed to create a presence in geographic areas where we do not have a company-owned store. An unrelated person operating an existing business could become an ASC by submitting an application and upon approval, placing a minimum initial order and meeting minimum annual purchase amounts. In exchange, the benefits to the ASC are free advertising in various sales flyers produced and distributed by us, preferred pricing on certain products, advance notice of new products, and priority shipping and handling of orders. In 2011, the ASC program was eliminated in North America as the number and location of our stores were deemed sufficient to represent each geographic area. We currently have 7 ASC’s located outside of North America.

**Merchandise** Our products are generally organized into 12 categories. We carry a wide assortment of products including leather, lace, hand tools, kits and craft supplies. We operate a light manufacturing facility in Fort Worth, Texas whose processes generally involve cutting leather into various shapes and patterns using metal dies. The factory produces approximately 20% of our products and also assembles and repackages products as needed. Products manufactured in our factory are distributed through our stores under the Tejas™ brand name. We also distribute product under the Tandy Leather™, Eco-Flo™, Craftool™ and Dr. Jackson's™ brands. We develop new products through the ideas and referrals of customers and store personnel as well as the analysis of fads and trends of interest in the market.

We offer an unconditional satisfaction guarantee to our customers. Simply stated, we will accept product returns for any reason. We believe this liberal policy promotes customer loyalty. We offer credit terms to our non-retail customers upon receipt of a credit application and approval by our credit manager. Generally, our open accounts are net 30 days.

During 2012, 2011, and 2010, Wholesale Leathercraft division sales by product category were as follows:

Product Category	2012 Sales Mix	2011 Sales Mix	2010 Sales Mix
Belts strips and straps	3%	3%	3%
Books, patterns, videos	2%	2%	2%
Buckles	4%	4%	4%
Conchos^	4%	4%	4%
Craft supplies	4%	5%	5%
Dyes, finishes, glues	6%	6%	6%
Hand tools	15%	15%	14%
Hardware	7%	7%	7%
Kits	8%	7%	8%
Lace	5%	7%	7%
Leather	38%	35%	36%
Stamping tools	4%	5%	4%
	100%	100%	100%

^A concho is a metal adornment attached to clothing, belts, saddles, etc., usually made into a pattern of some southwestern or geometric object.

In addition to meeting ordinary operational requirements, our working capital demands are a product of the need to maintain a level of inventory sufficient to fill customer orders as they are received with minimal backorders and the time required to collect our accounts receivable. Because availability of merchandise and prompt delivery time are important competitive factors for us, we maintain higher levels of inventory than our smaller competitors. For additional information regarding our cash, inventory and accounts receivable at the end of 2012 and 2011, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations."

**Suppliers** We purchase merchandise and raw materials from approximately 200 vendors dispersed throughout the

United States and in approximately 20 foreign countries. In 2012, our 10 largest vendors accounted for approximately 71% of our inventory purchases.

Because leather is sold internationally, market conditions abroad are likely to affect the price of leather in the United States. Outbreaks of mad cow and hoof-and-mouth disease (or foot-and-mouth disease) in any part of the world can influence the price of the leather we purchase. Because an occurrence of such an event is beyond our control, we cannot predict when and to what extent we could be affected in the future. Aside from increasing purchases when we anticipate price increases (or possibly delaying purchases if we foresee price declines), we do not attempt to hedge our inventory costs.

Overall, we believe that our relationships with suppliers are strong and do not anticipate any material changes in these supplier relationships. Due to the number of alternative sources of supply, we do not believe that the loss of any of these principal suppliers would have a material impact on our operations.

## TABLE OF CONTENTS

**Operations** Hours of operations vary by location, but generally range from 9:00 am to 6:00 pm Monday through Friday, and from 9:00 am to 4:00 pm on Saturdays. The stores maintain uniform prices, except where lower prices are necessary to meet local competition.

**Competition** Most of our competition comes in the form of small, independently-owned retailers who in most cases are also our customers. We estimate that there are a few hundred of these small independent stores in the United States and Canada. We compete on price, availability of merchandise, and delivery time. While there is competition in connection with a number of our products, to our knowledge there is no direct competitor across our entire product line. Our large size relative to most competitors gives us the advantage of being able to purchase large volumes and stock a full range of products.

**Distribution** The wholesale stores receive the majority of their inventory from our central warehouse located in Fort Worth, Texas, although occasionally, merchandise is shipped directly from the vendor. Inventory is shipped to the stores from our central warehouse once a week to meet customer demand without sacrificing inventory turns. Customer orders are typically filled as received, and we do not have backlogs.

We attempt to maintain the optimum number of items in our product line to minimize out-of-stock situations against carrying costs involved with such an inventory level. We generally maintain higher inventories of imported items to ensure a continuous supply. The number of products offered changes every year due to the introduction of new items and the discontinuance of others. We carry approximately 2,600 items in the current lines of leather and leather-related merchandise. All items are offered in all stores.

**Expansion** Our wholesale store expansion across the United States has been fairly consistent since we purchased the original six stores in 1985. We opened our thirtieth store in August 2002. We converted one wholesale (Leather Factory) store to a retail (Tandy Leather) store in 2006, reducing the number of wholesale stores to 29. We acquired Mid-Continent Leather Sales in 2007, a wholesale store located in Oklahoma, increasing the number of wholesale stores to 30, but subsequently closed it in 2010, reducing the number of wholesale stores again to 29. While we do not believe there is a significant and immediate opportunity for expansion of the Leather Factory store system in terms of opening additional locations, we do believe expansion could be achieved by acquiring companies in related areas/markets which offer collaborative advantages based on the local markets and/or the product lines of the businesses.

### Retail Leathercraft

Our Retail Leathercraft segment consists of a growing chain of retail stores operating under the name, "Tandy Leather." Tandy Leather Company, established in 1919 as Hinkley-Tandy Leather Company, is the oldest and one of the best-known suppliers of leather and related supplies used in the leathercraft industry. This retail segment offers a product line of quality tools, leather, accessories, kits and teaching materials. It had net sales of \$42.6 million, \$37.4 million and \$32.3 million for 2012, 2011 and 2010, respectively.

**General** As of March 1, 2013, the Tandy Leather retail chain has 78 stores located in 37 states and six Canadian provinces with plans to reach 100 to 120 stores as opportunities arise. The stores range in size from 1,200 square feet to 6,325 square feet, with the average size of a store being approximately 2,400 square feet. The type of premises utilized for a retail store is generally an older strip shopping center located at well-known crossroads, making the store easy to find.

**Business Strategy** Tandy Leather has long been known for its reputation in the leathercraft industry and its commitment to promoting and developing the craft through education and customer development. Our commitment to this strategy is evidenced by our re-establishment of the retail store chain throughout the United States and Canada following our acquisition of the assets of Tandy Leather in 2000. We continue to broaden our customer base by

working with various youth organizations and institutions where people are introduced to leathercraft, as well as hosting classes in our stores.

The retail stores serve walk-in, mail and phone order customers as well as orders generated from our website, www.tandy-leatherfactory.com. A two-day maximum delivery time for phone, internet and mail orders is our goal. Our retail stores are staffed by knowledgeable sales people whose compensation is based, in part, upon the profitability of their store. Sales by Tandy Leather are driven by the efforts of the store staff, trade shows, and our direct mail and e-mail marketing program.

**Customers** Individual retail customers are our largest customer group, representing approximately 60% of Tandy Leather's 2012 sales. Youth groups, summer camps, schools and a limited number of wholesale customers complete our customer base. Like the wholesale stores, the retail stores typically fill orders as they are received, and there is no order backlog. The retail stores maintain reasonable amounts of inventory to fill these orders. Tandy Leather's retail store operations historically generate slightly more sales in the fourth quarter of each year due to the holiday shopping season (28-30% of annual sales), while the other three quarters remain fairly even at 23-25% of annual sales each quarter. No single customer's purchases represented more than 1% of Retail Leathercraft's sales in 2012.

**Merchandise** Our products are generally organized into 12 categories. We carry a wide assortment of products including leather, hand tools, kits, dyes & finishes and stamping tools. During 2012, 2011 and 2010, Retail Leathercraft division sales by product category were as follows:

Product Category	2012 Sales Mix	2011 Sales Mix	2010 Sales Mix
Belts strips and straps	5%	5%	5%
Books, patterns, videos	2%	2%	2%
Buckles	4%	4%	4%
Conchos	3%	4%	4%
Craft supplies	3%	3%	4%
Dyes, finishes, glues	7%	7%	8%
Hand tools	16%	16%	15%
Hardware	7%	7%	6%
Kits	8%	9%	10%
Lace	3%	3%	3%
Leather	37%	35%	34%
Stamping tools	5%	5%	5%
	100%	100%	100%

As indicated above, the products sold in our retail stores are also sold in our wholesale stores. Therefore, the discussion above regarding products, their sources and the working capital requirements for the Wholesale Leathercraft division also apply to the Retail Leathercraft division. Sales at the retail stores are generally made through cash transactions or through national credit cards. The retail stores also sell on open account to selected wholesale customers including schools and other institutions and small retailers. Our terms are generally net 30 days. Like the wholesale stores, the retail stores have an unconditional return policy.

**Operations** Hours of operation are 9:00 am to 6:00 pm Monday through Friday, and from 9:00 am to 4:00 pm on Saturdays. In addition, most of the stores stay open late one night a week for leathercrafting classes taught in the stores. Selling prices are uniform throughout the retail store system.

**Competition** Our competitors are generally small local craft stores that carry a limited line of leathercraft products. Several national retail chains that are customers in our Wholesale Leathercraft division also carry leathercraft products on a very small scale relative to their overall product line. To our knowledge, our retail store

chain is the only one in existence solely specializing in leathercraft.

**Distribution** The retail stores receive their inventory from our central warehouse located in Fort Worth, Texas. The stores generally restock their inventory once a week with a shipment from the warehouse. Retail Leathercraft's inventory turns are higher than Wholesale Leathercraft's because the Wholesale Leathercraft calculation includes the central warehouse inventory whereas the Retail Leathercraft calculation includes only the inventory in the Tandy Leather retail stores.

**Expansion** We intend to expand the Tandy Leather retail store chain to between 100 and 120 stores throughout North America as it makes financial sense to do so. 14 stores were opened in 2002; 12 stores were opened in 2003; 16 were opened in 2004 (including four in Canada); eight were opened in 2005, 12 were opened in 2006, ten were opened in 2007; one was opened in 2008, two were opened in 2009, and one was opened in each of the years 2010, 2011 and 2012. Of the 78 stores opened as of December 31, 2012, 11 were independent leathercraft stores that we acquired. Separately, these acquisitions are not material. The other 67 stores have been new stores opened by us.

TABLE OF CONTENTS

International Leathercraft

Our International Leathercraft segment consists of company-owned stores located outside of North America. As of December 31, 2012, there were three wholesale/retail combination stores in this segment: one in Northampton, United Kingdom, which we opened in February 2008, one in Sydney, Australia, which we opened in October 2011, and one in Jerez, Spain, which we opened in January 2012. The stores operate under the Tandy Leather Factory trade name. This segment had net sales of \$3.3 million, \$2.1 million and \$1.7 million in 2012, 2011 and 2010, respectively. We intend to open more stores internationally as the opportunities present themselves, but we have not determined a specific time schedule for said openings.

**Business Strategy** The business concept for our International Leathercraft division is a blending of our Leather Factory and Tandy Leather business strategies – the wholesale distribution of leather and related accessories to retailers, manufacturers and other businesses, as well as the promotion and continuance of leathercraft through education and development of the retail customers. The stores average 7,000 square feet and are located in light industrial areas. We seek to maintain sufficient inventory so that our customers can purchase the leather, related accessories and supplies necessary to complete their projects from one supplier. The layout of the store is such that large quantities of product can be displayed in an easily accessible and visually appealing manner. The store services walk-in, mail and phone order customers as well as orders generated from our website, [www.tandy-leatherfactory.com](http://www.tandy-leatherfactory.com). Sales are driven by the efforts of the store staff, trade shows, and our direct mail and e-mail marketing programs.

**Customers** The growing customer base consists of individuals, wholesale distributors, equine-related shops, cobblers, dealers, and retailers dispersed geographically throughout Europe, Australia, and Asia. Retail sales generally occur via cash transactions or through national credit cards. We also sell on open account to selected wholesale customers including dealers, manufacturers, and retailers. Like our USA stores, our international stores have an unconditional return policy. No single customer's purchases represented more than 3% of International Leathercraft's sales in 2012.

**Merchandise** The products sold in our international stores are also sold in our North America stores. Therefore, the discussion above regarding products, their sources and the working capital requirements for the Wholesale and Retail Leathercraft divisions also apply here.

**Operations** Hours of operation are 8:00 am to 5:00 pm Monday through Friday, and from 8:00 am to 2:00 pm on Saturdays. Selling prices are consistent with the USA store pricing, adjusted for currency fluctuation.

**Competition** Our competitors are generally small, independently-owned retailers who, in some cases, are also our customers. We compete on price, availability of merchandise, and delivery time. While there is competition in connection with a number of the products we carry, to our knowledge there is no direct competitor across our entire product line. We believe our ability to stock a full range of products gives us an advantage over most local competitors.

**Distribution** The international stores receive the majority of inventory from our central warehouse located in Fort Worth, Texas, although occasionally, merchandise is shipped directly from the vendor. Inventory is shipped from our warehouse to the store several times per month to meet customer demand without sacrificing inventory turns. Customer orders are typically filled as received, and we typically do not have backlogs.

**Expansion** We intend to expand further internationally. We intend to grow our customer base throughout Europe as well as other parts of the world so that we can support additional stores.

## Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

For more information about our business and our reportable segments, see Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 8.

### Additional Information

**Compliance With Environmental Laws** Our compliance with federal, state and local environmental protection laws has not had, and is not expected to have, a material effect on our capital expenditures, earnings or competitive position.

**Employees** As of December 31, 2012, we employed 566 people, 432 of whom were employed on a full-time basis. We are not a party to any collective bargaining agreements. Overall, we believe that relations with employees are good.

**Intellectual Property** We own approximately 120 registered trademarks, including federal trade name registrations for "Tandy Leather Factory", "The Leather Factory", "Tandy Leather Company", and "Tandy." We also own approximately 60 registered foreign trademarks worldwide. We own approximately 600 registered copyrights in the United States covering more than 800 individual works relating to various products. We also own several United States patents for specific belt buckles and leather-working equipment. These rights are valuable assets, and we defend them as necessary.

**International Operations** Information regarding our revenues from the United States and abroad and our long-lived assets are found in Note 14 to our Consolidated Financial Statements, Segment Information. For a description of some of the risks attendant to our foreign operations, see Item 1.A "Risk Factors" on page 5.

**Our Website and Availability of SEC Reports** We file reports with the Securities and Exchange Commission ("SEC"). These reports include our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to these filings. The public may read any of these filings at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. In addition, the public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Further, the SEC maintains an Internet site that contains reports, proxy and information statements and other information concerning us. You can connect to this site at <http://www.sec.gov>.

Our corporate website is located at <http://www.tandyleatherfactory.com>. We make copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, proxy statements and any amendments thereto filed with or furnished to the SEC available to investors on or through our website free of charge as soon as reasonably practicable after we electronically file them with or furnish them to the SEC. Our SEC filings can be found on the Investor Relations page of our website through the "SEC Filings" link. In addition, certain other corporate governance documents are available on our website through the "Corporate Governance" link.

### Executive Officers of the Registrant

The following table sets forth information concerning our executive officers as of March 26, 2013:

Name and Age	Position	Served as Executive Officer Since
Jon W. Thompson, 51	Chief Executive Officer since July 2009; President and Chief Operating Officer since June 2008; Vice President from June 1993 to June 2008	2008
Shannon L. Greene, 47	Chief Financial Officer since May 2000; Treasurer and Chief Accounting Officer since 2001	2000
		2008

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

Mark J. Angus, 52	Senior Vice President and Assistant Secretary since June 2008; Operational Vice President of Merchandising since June 1993	
William M. Warren, 69	Secretary and Corporate Counsel	1993

Jon W. Thompson has served as our Chief Executive Officer since July 2009. He has also served as President and Chief Operating Officer since June 2008. He served as Vice President from June 1993 to June 2008.

Shannon L. Greene has served as our Chief Financial Officer and Treasurer since May 2000 and director since January 2001. Ms. Greene is also our Chief Accounting Officer. Ms. Greene, a certified public accountant, also serves on our 401(k) Plan committee. Her professional affiliations include the American Institute of Certified Public Accountants, the Texas Society of Certified Public Accountants and its Fort Worth chapter, and Financial Executives International and its Fort Worth chapter. She is also a member of the Board of Directors of the U.S. Chamber of Commerce and serves as chairman of the Chamber's Corporate Leadership Advisory Council. She is a member of the SEC Advisory Committee on Small and Emerging Companies as well as the Professional Standards Committee of the Texas Society of Certified Public Accountants.

Mark J. Angus has served as Senior Vice President since June 2008. He served as Vice President of Merchandising since January 1993.

William M. Warren has served as Secretary and General Counsel since 1993. Since 1979, Mr. Warren has been President and Director of Loe, Warren, Rosenfield, Kaitcer, Hibbs, Windsor & Lawrence, P.C., a law firm located in Fort Worth, Texas.

All officers are elected annually by the Board of Directors to serve for the ensuing year.

TABLE OF CONTENTS

ITEM 1A. RISK FACTORS

Risks to Our Industry

Our business may be negatively impacted by general economic conditions and the current global financial crisis.

Our performance is subject to worldwide economic conditions and their impact on levels of consumer spending that affect not only the ultimate consumer, but also small businesses and other retailers. Specialty retail, and retail in general, is heavily influenced by general economic cycles. Purchases of non-essential products tend to decline in periods of recession or uncertainty regarding future economic prospects, as disposable income declines. During periods of economic uncertainty, we may not be able to maintain or increase our sales to existing customers, make sales to new customers, open and operate new stores, maintain sales levels at our existing stores, maintain or increase our international operations on a profitable basis, or maintain our earnings from operations as a percentage of net sales. The United States and global economies have suffered from economic uncertainty for the past several years. Consumer spending in the United States appears to have stabilized recently, but could deteriorate in the future. As a result, our operating results may be adversely and materially affected by downward trends or uncertainty in the United States or global economies.

Increases in the price of leather and other items we sell or a reduction in availability of those products could increase our cost of goods and decrease our profitability.

The prices we pay our suppliers for our products are dependent in part on the market price for leather, metals, and other products. The cost of these items may fluctuate substantially, depending on a variety of factors, including demand, supply conditions, transportation costs, government regulation, economic climates, political considerations, and other unpredictable factors. Leather prices world-wide have been on the rise for the past several years and the outlook for future prices is uncertain. Increases in these costs, together with other factors, will make it difficult for us to sustain the gross margin level we have achieved in recent years and result in a decrease in our profitability unless we are able to pass higher prices on to our customers or reduce costs in other areas. Accordingly, such increases in costs could adversely affect our business and our results of operations.

Further, continued involvement by the United States in war and other military operations in the Middle East and other areas abroad could disrupt international trade and affect our inventory sources. Finally, livestock diseases such as mad cow could reduce the availability of hides and leathers or increase their cost. The occurrence of any of these events could adversely affect our business and our results of operations.

Our business could be harmed if we are unable to maintain our brand image.

Tandy Leather is one of the most recognized brand names in our industry. Our success to date has been due in large part to the strength of that brand. If we are unable to provide quality products and exceptional customer service to our customers, including education, which Tandy Leather has traditionally been known for, our brand name may be impaired which could adversely affect our operating results.

Risks Related to Our Business

We may be unable to sustain our past growth or manage our future growth, which may have a material adverse effect on our future operating results.

We have experienced solid sales and earnings growth recently. Many specialty retailers have experienced periods of growth in sales and earnings followed by periods of declining sales and losses. Our business may be similarly affected in the future. We anticipate that our future growth will depend on a number of factors, including the strength and protection of our brand name, the market success of our current and future products, the success of our growth

strategies, and our ability to manage our future growth. Further, our future success will depend substantially on the ability of our management team to manage our growth effectively, optimizing our operational, administrative, financial and legal procedures in order to maximize profitability. If we fail to manage our growth effectively, our future operating results could be adversely affected.

Our profitability may decline as a result of increasing pressure on margins.

Our industry is subject to significant pricing pressure caused by many factors, including fluctuations in the cost of the leathers and metal products that we purchase and changes in consumer spending patterns and acceptance of our products. Changes in consumers' product preferences or lack of acceptance of our products whose costs have increased may prohibit us from passing those increases on to customers which could cause our gross margin to decline. If our product costs increase and our sale prices do not, our future operating results could be adversely affected unless we are able to offset such gross margin declines with comparable reductions in operating costs.

We may be unsuccessful in implementing our planned international expansion, which could impair the value of our brand, harm our business and negatively affect our results of operation.

We plan to grow our net sales and net earnings from our International Leathercraft segment by opening stores in various international markets. As we expand outside of North America, we may incur significant costs relating to starting up, maintaining and expanding foreign operations. Such costs may include, but are not limited to, obtaining locations for stores, hiring personnel, and travel expenses. We may be unable to open and operate new stores successfully and as a result, our growth may be limited, unless we are able to identify desirable sites for store locations, negotiate acceptable lease terms, hire, train and retain competent store personnel; manage inventory effectively to meet the needs and demands of customers on a timely basis, manage foreign currency risk effectively, and achieve acceptable operating margins from the new stores. We cannot be sure that we can successfully open new stores or that our new stores will be profitable. If we are unable to successfully open new stores or our new stores are not profitable, our business and our results of operations could be adversely affected.

As we continue to increase our international operations, we face the possibility of greater losses from a number of risks inherent in doing business in international markets and from a number of factors which are beyond our control, such as political instability or acts of terrorism, which disrupt trade with the countries in which our suppliers or customers are located; local business practices that do not conform to legal or ethical guidelines; restrictions or regulations relating to imports or exports; additional or increased customs duties, tariffs, taxes and other charges on imports; significant fluctuations in the value of the dollar against foreign currencies; social, legal or economic instability in the foreign markets in which we do business, which could influence our ability to sell our products in these markets; and restrictions on the transfer of funds between the United States and foreign jurisdictions. The occurrence of any of these events could adversely affect our business and our results of operations.

We may fail to realize the anticipated benefits of the opening of additional stores in North America or we may be unable to obtain sufficient new locations on acceptable terms to meet our growth plans. Further, we may fail to hire and train qualified managers to oversee the stores opened.

Our strategy to grow our business partially depends on continuing to successfully open new stores in North America. The success of this strategy will depend largely upon our ability to find a sufficient number of suitable locations and our ability to recruit, hire and train qualified personnel to operate our new stores.

Our long-term expansion plans in North America have us opening new stores both in new geographic areas and in or near the areas where we have existing stores. To the extent that we open stores in markets where we already have existing stores, we may experience reduced net sales at those existing stores. Also, if we expand into new geographic areas, those stores may not be received as well as, or achieve net sales or profitability levels comparable to those of, our existing stores in our estimated time periods, or at all. If our stores fail to achieve, or are unable to sustain,

acceptable net sales and profitability levels, our business may be materially harmed and we may incur costs associated with closing or relocating stores. In addition, our current expansion plans are only estimates, and the actual number of stores we open each year and in total and the actual number of suitable locations for our new stores could differ significantly from these estimates. If we are unable to successfully open new stores or our new stores are not profitable, our business and our results of operations could be adversely affected.

Our success depends on the continued protection of our trademarks and other proprietary intellectual property rights.

Our trademarks and other intellectual property rights are important to our success and competitive position, and the loss of or inability to enforce our trademark and other proprietary intellectual property rights could harm our business. We devote substantial resources to the establishment and protection of our trademark and other proprietary intellectual property rights on a worldwide basis. Despite any precautions we may take to protect our intellectual property, policing unauthorized use of our intellectual property is difficult, expensive and time consuming, and we may be unable to adequately protect our intellectual property or determine the extent of any unauthorized use. Our efforts to establish and protect our trademark and other proprietary intellectual property rights may not be adequate to prevent imitation or counterfeiting of our products by others, which may not only erode sales of our products but may also cause significant damage to our brand name. Further, we could incur substantial costs in legal actions relating to our use of intellectual property or the use of our intellectual property by others. Even if we are successful in these actions, the costs we incur could have a material adverse affect on us.

**TABLE OF CONTENTS**

Foreign currency fluctuations could adversely impact our financial condition and results of operations.

We generally purchase our products in U.S. dollars. However, we source a large portion of our products from countries other than the United States. The cost of these products may be affected by changes in the value of the applicable currencies. Changes in currency exchange rates may also affect the U.S. dollar value of the foreign currency denominated prices at which our international business will sell products. Furthermore, the majority of our international sales are generally derived from sales in foreign countries. This revenue, when translated into U.S. dollars for consolidated reporting purposes, could be materially affected by fluctuations in the U.S. dollar, negatively impacting our results of operations and our ability to generate revenue growth.

Other uncertainties, which are difficult to predict and many of which are beyond our control, may occur as well and may adversely affect our business and our results of operations.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

Not applicable.

**ITEM 2. PROPERTIES**

We lease all of our store locations premises, with the majority of our stores having initial lease terms of approximately five years. The leases are generally renewable, with increases in lease rental rates in some cases. We believe that all of our properties are adequately covered by insurance. The properties leased by us are described in Item 1 in the description of each of our three operating segments. We own our corporate headquarters, which includes our central warehouse and manufacturing facility, sales, advertising, administrative, and executive offices. The facility consists of 191,000 square feet located on approximately 30 acres.

The following table summarizes the locations of our leased premises as of December 31, 2012:

## PART II

## ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on the NASDAQ Global Market using the symbol "TLF". The high and low trading prices for each calendar quarter during the last two fiscal years are as follows:

2012	High	Low	2011	High	Low
4th quarter	\$5.52	\$5.16	4th quarter	\$5.00	\$4.17
3rd quarter	\$5.66	\$5.07	3rd quarter	\$5.25	\$4.29
2nd quarter	\$5.25	\$4.84	2nd quarter	\$5.22	\$4.45
1st quarter	\$5.42	\$4.68	1st quarter	\$5.35	\$4.50

There were approximately 390 stockholders of record on March 26, 2013.

In May 2010, our Board of Directors authorized a \$0.75 per share special one-time cash dividend that was paid to our stockholders of record at the close of business on June 3, 2010. The dividend, totaling \$7.7 million, was paid to our stockholders on July 5, 2010. Furthermore, on February 14, 2012, our Board of Directors authorized a \$0.25 per share special one-time cash dividend that was paid to our stockholders of record at the close of business on March 1, 2012. The dividend, totaling \$2.5 million, was paid to our stockholders on April 2, 2012. We did not make any dividend payments prior to 2010. Our Board of Directors will determine future cash dividends after giving consideration to our then existing levels of profit and cash flow, capital requirements, current and forecasted liquidity, as well as financial and other business conditions existing at the time. This policy is subject to change based on future industry and market conditions, as well as other factors.

We did not sell any shares of our equity securities during our fiscal year ended December 31, 2012 that were not registered under the Securities Act.

We did not repurchase any shares of our common stock during the fourth quarter of 2012.

The following table sets forth information regarding our equity compensation plans (including individual compensation arrangements) that authorize the issuance of shares of our common stock. The information is aggregated in two categories: plans previously approved by our stockholders and plans not approved by our stockholders. The table includes information for officers, directors, employees and non-employees. All information is as of December 31, 2012.

	Column (a)	Column (b)	Column (c)
Plan Category	Number of Securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in Column (a))
Equity compensation plans approved by stockholders	121,600	\$4.53	33,400
Equity compensation - plans not approved by	-	-	-

stockholders

TOTAL	121,600	\$4.53	33,400

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We intend for the following discussion to provide you with information that will assist you in understanding our financial statements, the changes in key items in those financial statements from year to year and the primary factors that accounted for those changes, as well as how particular accounting principles affect our financial statements. This discussion also provides information about the financial results of the various segments of our business so you may better understand how those segments and their results affect our financial condition and results of operations as a whole. Finally, we have identified and discussed trends known to management that we believe are likely to have a material effect on our results of operations and financial condition.

This discussion should be read in conjunction with our financial statements as of December 31, 2012 and 2011 and the two years then ended and the notes accompanying those financial statements. You are also urged to consider the information under the caption "Summary of Critical Accounting Policies."

Summary

We are the world's largest specialty retailer and wholesale distributor of leather and leathercraft-related items. Our operations are centered on operating retail and wholesale stores. We have built our business by offering our customers quality products in one location at competitive prices. The key to our success is our ability to grow our base business. We grow that business by opening new locations and by increasing sales in our existing locations. We intend to continue to expand both domestically and internationally.

We operate in three segments. First, Wholesale Leathercraft, consisting of our Leather Factory stores and our national account sales group, which sells to large national store chains, is our oldest segment with sales of \$26.9 million in 2012. Historically, in normal economic conditions, this division has generally offered steady but very modest increases in sales. Sales in 2012 increased 1.2% compared to 2011, with the stores' sales increasing 7% but national account sales decreasing by 44%. Sales at our stores are showing signs of solid recovery despite cautious consumer spending as a result of the weak U.S. economy. Sales to national accounts are decreasing due to our intentional decision to discontinue certain products from our product line that our national account customers purchased, as these products did not produce an acceptable gross profit margin. We expect our sales to our national account customers to continue to decline.

Tandy Leather has long been known for its retail leathercraft store chain. These retail stores comprise our Retail Leathercraft segment. This segment has experienced the greatest increases in sales (\$42.6 million in 2012, up from \$37.4 million in 2011) and is our largest source of revenues. We expect to grow the number of stores to 100+ from 78 stores in operation at the end of 2012. Our pace of store openings has slowed in the last several years due to the general economic conditions in the U.S. and because of the lack of personnel qualified for store manager positions. We expect to continue to open stores domestically but have not committed to a specific time frame at this point. While the store opening schedule has slowed, we are instead looking to relocate existing stores as current lease terms near expiration into larger spaces so that a larger amount of product is available to customers. We believe that the increase in sales in this segment suggests that the store relocation strategy has been successful.

Our International Leathercraft segment consists of company-owned stores located outside of North America. At December 31, 2012, three combination retail/wholesale stores, with one each located in the United Kingdom, Australia and Spain, comprised this segment. It is our intention to open more stores in this segment once we have a large enough customer base to support additional stores.

On a consolidated basis, a key indicator of costs, gross profit margin as a percent of total net sales, increased in 2012 and in 2011. Operating expenses increased at a higher pace than that of sales in 2012, increasing 13% from 2011, due

to the legal settlement that we recorded in the third quarter. See Note 9 to the consolidated financial statements included in Item 8 of this Report for additional information. Operating expense rose at a slightly slower pace than that of sales in 2011, increasing 10% from 2010.

We reported consolidated net income for 2012 of \$5.6 million. Consolidated net income for 2011 and 2010 was \$4.7 million and \$4.2 million, respectively. We use our cash flow to fund our operations, to fund the opening of new stores, to purchase necessary property and equipment and to make acquisitions of small competitors in the retail and wholesale market. In 2007, we incurred \$4.0 million in bank debt to purchase a 191,000 square foot building to house our corporate headquarters and central support units. We moved into that facility in the first quarter of 2008. We paid one-time dividends in 2010 and 2012 to our stockholders, totaling \$7.7 million and \$2.5 million, respectively. At the end of 2012, our stockholders' equity had increased to \$37.5 million from \$34.4 million the previous year.

Comparing the December 31, 2012 balance sheet with the prior year's balance sheet, we increased our investment in inventory from \$19.9 million to \$25.9 million, while total cash (including certificates of deposit) decreased from \$11.2 million to \$7.7 million, primarily as a result of the special dividend of \$2.5 million paid in April 2012.

### Net Sales

Net sales for the three years ended December 31, 2012 were as follows:

Year	Wholesale Leathercraft	Retail Leathercraft	International Leathercraft	Total Company	Increase from Prior Year
2012	\$26,850,002	\$42,616,546	\$3,254,076	\$72,720,624	10.0%
2011	\$26,540,899	\$37,435,832	\$2,126,216	\$66,102,947	10.4%
2010	\$25,908,177	\$32,291,442	\$1,693,251	\$59,892,870	9.9%

Our net sales increased by 10.0% in 2012 when compared with 2011 and increased by 10.4% in 2011 when compared with 2010. In 2012 and 2011, all three segments reported sales increases compared to the prior year.

### Costs and Expenses

In general, our gross profit as a percentage of sales (our gross margin) fluctuates based on the mix of customers we serve, the mix of products we sell and our ability to source products globally. Our negotiations with suppliers for lower pricing are an on-going process, and we have varying degrees of success in those endeavors. Sales to retail customers tend to produce higher gross margins than sales to wholesale customers due to the difference in pricing levels. Therefore, as retail sales increase in the overall sales mix, higher gross margins tend to follow. Finally, there is significant fluctuation in gross margins between the various merchandise categories we offer. As a result, our gross margins can vary depending on the mix of products sold during any given time period.

For 2012, our cost of sales decreased as a percentage of total net sales when compared to 2011, resulting in an increase in consolidated gross profit margin from 61.0% to 63.1%. Our 2011 cost of sales as a percentage of our total net sales decreased as a percentage of total net sales when compared to 2010, resulting in an increase in consolidated gross profit margin from 60.5% to 61.0%. Fluctuations in gross margin are primarily due to sales mix. Retail sales are at a higher gross margin than that of wholesale sales. Therefore, as retail sales increase at a faster pace than that of wholesale sales, gross margin increases accordingly.

Our gross margins for the three years ended December 31, 2012 were as follows:

Year	Wholesale Leathercraft	Retail Leathercraft	International Leathercraft	Total Company
------	---------------------------	------------------------	-------------------------------	---------------

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

2012	67.3%	60.6%	61.7%	63.1%
2011	61.3%	60.5%	66.9%	61.0%
2010	60.7%	60.2%	63.8%	60.5%

Our operating expenses increased as a percentage of total net sales to 50.6% in 2012 when compared with 49.4% in 2011. This increase indicates that our operating expenses grew faster than our sales during this period. 2012 operating expenses were \$4.1 million higher than those of 2011. Significant expense fluctuations in 2012 compared to 2011 are as follows:

Expense	2012 amount	Increase (Decrease) over 2011
Employee compensation & benefits	\$19.6 million	\$1.6 million
Travel expense	507,000	177,000
Advertising and marketing	\$3.5 million	571,000
Rent & utilities	4.4 million	280,000
Professional fees and licenses	798,000	(237,000)
Repairs and maintenance	435,000	133,000
Supplies	857,000	147,000
Workers compensation and property insurance	506,000	184,000
Litigation settlement	993,000	993,000

TABLE OF CONTENTS

The increase in employee compensation and benefits is due to an increase in employee headcount as well as store manager compensation. Our store managers are paid a percentage of the operating profit generated by the store they manage as additional compensation, so as store profits increase, manager compensation increases. The litigation settlement expense was a one-time charge related to the settlement of a lawsuit that was recorded in the third quarter of 2012. (See Note 9 to the consolidated financial statements included in Item 8 of this Report for additional information.) Litigation expenses are generally considered corporate expenses and not attributable to a specific store or group of stores. Further, corporate, administrative and support departments are included in the Wholesale Leathercraft segment. Therefore, the entire litigation settlement expense is included in the operating expenses of the segment.

Our operating expenses decreased minimally as a percentage of total net sales to 49.4% in 2011 when compared with 49.5% in 2010. This decrease indicates that our operating expenses grew slightly slower than our sales during the period. 2011 operating expenses were \$3.0 million higher than those of 2010. Significant expense fluctuations in 2011 compared to 2010 are as follows:

Expense	2011 amount	Increase (Decrease) over 2010
Employee compensation & benefits	\$18.0 million	\$2.1 million
Travel expense	330,000	(50,000)
Credit card fees	910,000	100,000
Rent & utilities	4.0 million	190,000
Professional fees and licenses	1.4 million	600,000
Freight out – shipping product to customers	1.7 million	120,000

## Other Income/Expense (net)

Other Income/Expense consists primarily of currency exchange fluctuations, interest income and interest expense. In 2012, we incurred other expenses (net) of \$198,000 compared to other expenses (net) of \$165,000 in 2011. In 2012, we received \$12,000 in gas royalties, earned \$9,900 in interest income on our cash and paid \$239,000 in interest expense on our bank debt. We had a currency exchange gain of \$26,000 in 2012 compared to a currency exchange loss of \$200 in 2011.

In 2011, we incurred other expense (net) of \$165,000 compared to other expense (net) of \$160,000 in 2010. In 2012, we received \$16,000 in gas royalties, earned \$34,000 in interest income on our cash and paid \$248,000 in interest expense on our bank debt. We had a currency exchange loss of \$200 in 2011 compared to \$187,000 in 2010.

## Net Income

During 2012, we earned net income of \$5.6 million, an 18% increase over our net income of \$4.7 million earned during 2011. The increase in net income was the result of the increase in sales and gross profit, partially offset by the increase in operating expenses and income tax expense.

During 2011, we earned net income of \$4.7 million, a 14% increase over our net income of \$4.2 million earned during 2010. The increase in net income was the result of the increase in sales and gross profit, partially offset by the increase in operating expenses and income tax expense.

## Wholesale Leathercraft

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

The increases (or decreases) in net sales, operating income, operating income increases (or decreases) and operating income as a percentage of sales from our Wholesale Leathercraft stores for the three years ended December 31, 2012 were as follows:

Year	Net Sales Incr (Decr) from Prior Yr	Operating Income	Operating Income Incr (Decr) from Prior Year	Operating Income as a Percentage of Sales
2012	1.2%	\$3,730,678	33.1%	13.9%
2011	2.4%	\$2,803,034	4.2%	10.6%
2010	3.2%	\$2,690,061	33.3%	10.4%

Wholesale Leathercraft, consisting of our 29 wholesale stores and our national account group, accounted for 36.9% of our consolidated net sales in 2012, which compares to 40.2% in 2011 and 43.3% in 2010. The decrease in this division's contribution to our total net sales is the result of the growth in Retail Leathercraft, and we expect this trend to continue while retail consumers' buying patterns continue to strengthen over that of wholesale and small businesses.

Sales in the wholesale stores increased 6.9% in 2012 compared to sales in 2011 while the 2012 sales by our national account group were down 44.0% from 2011. By customer group, sales in the wholesale stores to our retail and wholesale customers increased while sales to our institution and national account customers declined from 2011. Our sales mix by customer group in the Wholesale Leathercraft division was as follows:

Customer Group	2012	2011	2010
Retail	37%	33%	31%
Institution	4%	5%	6%
Wholesale	45%	43%	43%
National Accounts	7%	12%	12%
Manufacturers	7%	7%	8%
	100%	100%	100%

In 2012, operating income as a percentage of divisional sales improved from the prior year of 10.6% to 13.9%. Operating expenses increased \$867,000 in 2012 compared to 2011. The primary reason for the operating expense increase was the one-time charge of \$994,000 related to the settlement of litigation. (See Note 9 to the consolidated financial statements included in Item 8 of this Report for additional information.) Legal and professional fees decreased by \$271,000, while employee compensation and benefits increased by \$345,000 and supplies increased by \$122,000.

In 2011, operating income as a percentage of divisional sales remained consistent with the prior year at 10.6%. Significant operating expense increases occurred in employee compensation (\$325,000), employee benefits (\$490,000), and supplies (\$73,000), offset somewhat by decreases in advertising and marketing expenses (\$353,000) and bad debt expenses (\$130,000).

#### Retail Leathercraft

The increases in net sales, operating income, operating income increases (or decreases) and operating income as a percentage of sales from our Retail Leathercraft stores for the three years ended December 31, 2012 were as follows:

Year	Net Sales Increase from Prior Yr	Operating Income	Operating Income Incr (Decr) from Prior Year	Operating Income as a Percentage of Sales
2012	13.8%	\$5,436,745	16.8%	12.8%

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

2011	15.9%	\$4,656,067	28.8%	12.4%
2010	15.0%	\$3,614,856	24.6%	11.2%

Reflecting the growth previously discussed, Retail Leathercraft accounted for 58.6% of our total net sales in 2012, up from 56.6% in 2011 and 53.9% in 2010. Growth in net sales for our Retail Leathercraft division in 2012 resulted primarily from an increase in same store sales.

TABLE OF CONTENTS

Our sales mix by customer group in the Retail Leathercraft division was as follows:

Customer Group	2012	2011	2010
Retail	60%	62%	64%
Institution	4%	5%	6%
Wholesale	33%	30%	29%
National Accounts	0%	0%	0%
Manufacturers	3%	3%	1%
	100%	100%	100%

Operating income as a percentage of sales increased to 12.8% for 2012 compared to 12.4% for 2011. Gross margin increased slightly to 60.6% in 2012 from 60.5% in 2011. Operating expenses as a percent of sales in 2012 decreased from 48.0% for 2011 to 47.9% for 2012 as operating expenses grew at a slower pace than that of sales.

Operating income as a percentage of sales increased to 12.4% for 2011 compared to 11.2% for 2010. Gross margin increased slightly to 60.5% in 2011 from 60.2% in 2010. Operating expenses as a percent of sales in 2011 decreased from 49.0% for 2010 to 48.0% for 2011 as operating expenses grew at a slower pace than that of sales.

We intend to continue the slow expansion of Tandy Leather's retail store chain over the next several years, with plans to open one store in 2013 in North America. We remain committed to a conservative expansion plan for this division that minimizes risks to our profits and maintains financial stability. In the current economic environment in the U.S., it is possible that we will change our plans for store openings in 2013 if we determine that the feasibility of additional successful openings is likely.

#### International Leathercraft

International Leathercraft consists of all stores located outside of North America. As of December 31, 2012, that represents three retail/wholesale combination stores with one located in the United Kingdom, one located in Australia, and one located in Spain. International Leathercraft accounted for 4.5%, 3.2% and 2.8% of our total sales in 2012, 2011 and 2010, respectively. We expect this segment to become a larger part of our total operations as our international customer base continues to grow.

Operating income was \$(23,000), \$248,000 and \$331,000 in 2012, 2011 and 2010, respectively. The operating loss in 2012 was caused by the Australia and Spain stores, simply because they are so new. We intend to expand our International Leathercraft segment by opening new stores once the current stores have sufficiently built their customer bases to a level that will adequately support additional stores.

#### Financial Condition

At December 31, 2012, we held \$7.7 million of cash, \$25.9 million of inventory, accounts receivable of \$823,000, and \$11.9 million of property and equipment. Goodwill and other intangibles (net of amortization and depreciation) were \$991,000 and \$146,000, respectively. Net total assets were \$49.1 million. Current liabilities were \$7.9 million (including \$203,000 of current maturities of long-term debt), while long-term debt was \$2.9 million. Total stockholders' equity at the end of 2012 was \$37.5 million.

At December 31, 2011, we held \$11.2 million of cash and certificates of deposit, \$19.9 million of inventory, accounts receivable of \$1.3 million, and \$10.3 million of property and equipment. Goodwill and other intangibles (net of amortization and depreciation) were \$987,000 and \$187,000, respectively. Net total assets were \$45.5

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

million. Current liabilities were \$7.1 million (including \$203,000 of current maturities of long-term debt), while long-term debt was \$3.1 million. Total stockholders' equity at the end of 2011 was \$34.4 million.

Specific ratios on a consolidated basis at the end of each year ended December 31 were as follows:

		2012	2011	2010
<b>Solvency Ratios:</b>				
Quick Ratio	(Cash+Accts Rec)/Total Current Liabilities	1.09	1.76	1.04
Current Ratio	Total Current Assets/Total Current Liabilities	4.54	4.74	4.17
Current Liabilities to Net Worth	Total Current Liabilities/Net Worth	0.21	0.21	0.23
Current Liabilities to Inventory	Total Current Liabilities/Inventory	0.30	0.36	0.34
Total Liabilities to Net Worth	Total Liabilities/Net Worth	0.31	0.32	0.36
Fixed Assets to Net Worth	Fixed Assets/Net Worth	0.32	0.30	0.35
<b>Efficiency Ratios:</b>				
Collection Period (Days Outstanding)	Accounts Receivable/Credit Sales x 365	40.06	42.35	39.83
Inventory Turnover	Sales/Average Inventory	3.18	3.29	3.23
Assets to Sales	Total Assets/Sales	0.68	0.69	0.68
Sales to Net Working Capital	Sales/Current Assets - Current Liabilities	2.62	2.49	2.74
Accounts Payable to Sales	Accounts Payable/Sales	0.02	0.03	0.02
<b>Profitability Ratios:</b>				
Return on Sales (Profit Margin)	Net Profit After Taxes/Sales	0.08	0.07	0.07
Return on Assets	Net Profit After Taxes/Total Assets	0.11	0.10	0.10
Return on Net Worth (Return on Equity)	Net Profit After Taxes/Net Worth	0.15	0.14	0.14

### Capital Resources and Liquidity

On July 31, 2007, we entered into a Credit Agreement and Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a credit facility of up to \$5,500,000 to facilitate our purchase and remodel of real estate consisting of a 191,000 square foot building situated on 30 acres of land located at 1900 SE Loop 820 in Fort Worth, Texas. Proceeds in the amount of \$4,050,000 were used to fund the initial purchase of the property. On April 30, 2008, that amount was rolled into a ten-year term note, and we began making monthly debt service payments in May 2008.

On July 12, 2012, we executed a Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a revolving credit facility of up to \$4,000,000. The revolver bears interest at LIBOR plus 2.0% (2.2087% at December 31, 2012) and matures on June 30, 2013. Interest is paid monthly. This note was obtained for working capital purposes.

We are currently in compliance with all covenants and conditions contained in the JPMorgan Chase Credit Agreement and have no reason to believe that we will not continue to operate in compliance with the provisions of these financing

arrangements. The principal terms and conditions of the Credit Agreement are described in further detail in Note 6 to the Consolidated Financial Statements, Notes Payable and Long-Term Debt.

**TABLE OF CONTENTS**

Reflecting the borrowing and reduction of bank indebtedness as well as dividend payments during the periods, our financing activities for 2012, 2011 and 2010 required net cash of \$2.7 million, \$0.2 million, and \$8.2 million, respectively. The special dividends of \$7.7 million and \$2.5 million paid in July 2010 and April 2012, respectively, are the reason for the significant increase in financing activities in 2010 and 2012 compared to 2011.

Our primary source of liquidity and capital resources during 2012 was cash flow provided by operating activities. Net cash flow from operations for 2012, 2011 and 2010 was \$1.9 million, \$6.6 million, and \$2.7 million, respectively. The decrease in operating cash flow in 2010 and 2012 was due to the increase in inventory in those years. In 2012, cash flow from operations was generated from income, the decrease in accounts receivable, and the increase in accrued expenses, partially offset by the increase in inventory and the decrease in income taxes payable. In 2011, cash flows from operations was generated from income, the decrease in inventory and increase in accounts payable, partially offset by the increased in accounts receivable and the decrease in accrued expenses. In 2010, cash flow from operations was generated income, partially offset by the increase in inventory.

Consolidated accounts receivable decreased \$506,000 to \$823,000 at December 31, 2012 compared to \$1.3 million at December 31, 2011 due primarily to the decline in sales to our National Account customers. Average days to collect accounts decreased from 42 days in 2011 to 40 days in 2012 on a consolidated basis. We maintain a tight credit policy and are aggressively monitoring our customer accounts to ensure collectability.

Inventory increased from \$19.9 million at the end of 2011 to \$25.9 million at December 31, 2012. We are pleased with the level of inventory at the end of 2012. We have increased the amount of inventory carried in our stores to provide our customers with greater product selection and to promote continued sales growth. We are also stocking additional inventory to support our growing International Leathercraft segment. Further, while sales remain strong, we will continue to buy large quantities of our stock leathers at special prices as those opportunities present themselves in order to relieve pressure on our gross margins. We attempt to manage our inventory levels to avoid tying up excessive capital while maintaining sufficient inventory in order to service our current customer demand as well as plan for our expected expansion. We ended the year with our total inventory on hand matching that of our internal targets for optimal inventory.

Consolidated inventory turned 3.18 times during 2012, a slight slowdown from the 2011 turns at 3.29 times. We compute our inventory turnover rates as sales divided by average inventory.

By operating division, inventory turns are as follows:

Segment	2012	2011	2010
Wholesale Leathercraft	2.09	1.95	1.96
Retail Leathercraft	5.58	6.41	6.45
International Leathercraft	3.20	6.91	5.65
Wholesale Leathercraft stores only	5.26	6.68	7.40

Retail Leathercraft inventory turns are significantly higher than that of Wholesale Leathercraft because its inventory consists only of the inventory at the stores. The retail stores have no warehouse (backstock) inventory to include in the turnover computation as the stores get their product from the central warehouse. Wholesale Leathercraft's turns are expected to be slower because the central warehouse inventory is part of this division, and its inventory is held as the backstock for all of the stores.

Accounts payable totaled \$1.6 million at the end of 2012, the same as at the end of 2011.

As discussed above, the largest use of operating cash in 2012 was the increase in inventory. Cash paid for capital expenditures totaled \$2.7 million and \$1.1 million for the years ended December 31, 2012 and 2011, respectively. In 2012, the primary capital expenditure was the construction in progress of a building to house our flagship store of \$1.8 million. Fixtures and equipment for the international stores totaled \$78,000. We moved 14 stores in the US in 2012. Fixtures and equipment for those stores totaled \$406,000. Fixtures and equipment for the new U.S. store opened in 2012 totaled \$51,000. Other capital expenditures were computer equipment (\$169,000), and factory machines and dies (\$81,000). In 2011, the primary capital expenditure was store fixtures, either for new store or for relocated or remodeled stores. Fixtures and equipment for the international stores totaled \$225,000. 14 US stores were moved or remodeled in 2011. Fixtures for those stores totaled \$310,000. Other capital expenditures were building improvements, including a video surveillance system (\$112,000), computer equipment (\$240,000) website development (\$70,000), and factory machines and dies (\$35,000).

We intend to continue to relocate US stores into larger space as leases permit and therefore, expect to incur capital expenditures, namely fixtures, related to these moves. However, the construction of the building discussed above will be completed in the first quarter of 2013. Therefore, we expect our 2013 capital expenditures to be less than that of our 2012 expenditures.

Cash applied toward stock repurchases totaled \$441,419 in 2010. There were no stock repurchases in 2011 and 2012.

We believe that cash flow from operations will be adequate to fund our operations in 2013, while also funding our expansion plans. At this time, we know of no trends or demands, commitments, events or uncertainties that will or are likely to materially affect our liquidity, capital resources or results of operations. In addition, we anticipate that this cash flow will enable us to meet our contractual obligations and commercial commitments. We could defer expansion plans if required by unanticipated drops in cash flow. In particular, because of the relatively small investment required by each new store, we have flexibility in when we make most expansion expenditures.

#### Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements during 2012, 2011 and 2010, and we do not currently have any such arrangements.

#### Contractual Obligations

The following table summarizes by years our contractual obligations and commercial commitments as of December 31, 2012 (not including related interest expense):

Contractual Obligations	Total	Payments Due by Periods			
		Less than 1 Year	1 - 3 Years	3 -5 Years	More than 5 Years
Long-Term Debt(1)	\$3,105,000	\$202,500	\$405,000	\$405,000	\$2,092,500
Operating Leases(2)	8,895,194	2,950,179	4,117,494	1,761,793	65,728
<b>Total Contractual Obligations</b>	<b>\$12,000,194</b>	<b>\$3,152,679</b>	<b>\$4,522,494</b>	<b>\$2,166,793</b>	<b>\$2,158,228</b>

(1) Our term loan from JPMorgan Chase matures in May 2018.

(2) These are our leased facilities.

#### Summary of Critical Accounting Policies

We strive to report our financial results in a clear and understandable manner, although in some cases accounting and disclosure rules are complex and require us to use technical terminology. We follow generally accepted accounting principles in the U.S. in preparing our consolidated financial statements. These principles require us to make

estimates and apply judgments that affect our financial position and results of operations. We continually review our accounting policies, how they are applied and how they are reported and disclosed in our financial statements. Following is a summary of our more significant accounting policies and how they are applied in preparation of the financial statements.

**Basis of Consolidation.** We report our financial information on a consolidated basis. Therefore, unless there is an indication to the contrary, financial information is provided for the parent company, Tandy Leather Factory, Inc., and its subsidiaries as a whole. Transactions between the parent company and any subsidiaries are eliminated for this purpose. We own all of the capital stock of our subsidiaries, and we do not have any subsidiaries that are not consolidated. None of our subsidiaries are “off balance sheet.”

**Revenue Recognition.** We recognize revenue for retail (over the counter) sales as transactions occur and other sales upon shipment of our products, provided that there are no significant post-delivery obligations to the customer and collection is reasonably assured, which generally occurs upon shipment. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

## TABLE OF CONTENTS

**Allowance for Accounts Receivable.** We reduce accounts receivable by an allowance for amounts that may become uncollectible in the future. This allowance is an estimate based primarily on our evaluation of the customer's financial condition, past collection history, and the aging of the account. If the financial condition of any of our customers deteriorates, resulting in an impairment or inability to make payments, additional allowances may be required.

**Inventory.** Inventory is stated at the lower of cost or market and is accounted for on the "first in, first out" method. This means that sales of inventory treat the oldest item of identical inventory as being the first sold. In addition, we regularly reduce the value of our inventory for slow-moving or obsolete inventory. This reduction is based on our review of items on hand compared to their estimated future demand. If actual future demand is less favorable than what we project, additional write-downs may be necessary. Goods shipped to us are recorded as inventory owned by us when the risk of loss shifts to us from the supplier.

**Goodwill.** We periodically analyze the remaining goodwill on our balance sheet to determine the appropriateness of its carrying value. As of December 31, 2012, we determined that the present value of the discounted estimated future cash flows of the operating divisions associated with the goodwill is sufficient to support their respective goodwill balances. If actual financial performance of these divisions differs significantly from our projections, such difference could affect the present value calculation in the future resulting in an impairment of all or part of the goodwill currently carried on our balance sheet.

### Forward-Looking Statements

Certain statements contained in this annual report and other materials we file with the SEC, or in other written or oral statements made or to be made by us, other than statements of historical fact, are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements give our current expectations or forecasts of future events. Words such as "may," "assume," "forecast," "position," "predict," "strategy," "expect," "intend," "plan," "estimate," "anticipate," "believe," "project," "budget," "potential," or "continue," and similar expressions are used to identify forward-looking statements. They can be affected by assumptions used or by known or unknown risks or uncertainties. Consequently, no forward-looking statements can be guaranteed. Actual results may vary materially. You are cautioned not to place undue reliance on any forward-looking statements. You should also understand that it is not possible to predict or identify all such factors and you should not consider the following list to be a complete statement of all potential risks and uncertainties. Factors that could cause our actual results to differ materially from the results contemplated by such forward-looking statements include, but are not limited to, the risk factors described in Item 1A, "Risk Factors," of this Annual Report on Form 10-K. Management cautions that forward-looking statements are not guarantees, and our actual results could differ materially from those expressed or implied in the forward-looking statements. We do not intend to update forward-looking statements.

### ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We face exposure to financial market risks, including adverse movement in foreign currency exchange rates and changes in interest rates. These exposures may change over time and could have a material impact on our financial results. We do not use or invest in market risk sensitive instruments to hedge any of these risks or for any other purpose.

#### Foreign Currency Exchange Rate Risk

Our primary foreign currency exposure is related to our foreign subsidiaries as those subsidiaries have local currency revenue and local currency operating expenses. Changes in the foreign currency exchange rates impact the U.S. dollar amount of revenue and expenses. See Note 14 to the Consolidated Financial Statements, Segment Information, for financial information concerning our foreign activities.

Interest Rate Risk

In the past, we have been subject to market risk associated with interest rate movements on certain outstanding debt. However, our current credit agreement with JPMorgan Chase includes a fixed interest rate. Therefore, changes in the prime rate do not impact us in this area.

TABLE OF CONTENTS

TANDY LEATHER FACTORY, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2012, 2011, and 2010

1. DESCRIPTION OF BUSINESS

Our primary line of business is the sale of leather, leather crafts and related supplies. We sell our products via company-owned stores throughout the United States, Canada, the United Kingdom, Australia and Spain. Numerous customers including retailers, wholesalers, assemblers, distributors and other manufacturers are geographically disbursed throughout the world. We also have light manufacturing facilities in Texas.

2. SIGNIFICANT ACCOUNTING POLICIES

- Management estimates and reporting

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Actual results could differ from those estimates. Assets and liabilities with reported amounts based on significant estimates include trade accounts receivable, inventory (slow-moving), and deferred income taxes.

- Principles of consolidation

Our consolidated financial statements include the accounts of Tandy Leather Factory, Inc. and its wholly owned subsidiaries, The Leather Factory, L.P. (a Texas limited partnership) and its corporate partners, Tandy Leather Company, L.P. (a Texas limited partnership) and its corporate partners, Mid-Continent Leather Sales, Inc. (an Oklahoma corporation), Roberts, Cushman & Company, Inc. (a Texas corporation), The Leather Factory of Canada, Ltd. (a Canadian corporation), Tandy Leather Factory UK Limited (a UK corporation), Tandy Leather Factory Australia Pty. Limited (an Australian corporation), and Tandy Leather Factory España, S.L. (a Spanish corporation). All intercompany accounts and transactions have been eliminated in consolidation.

- Foreign currency translation

Foreign currency translation adjustments arise from activities of our foreign subsidiaries. Results of operations are translated into U.S. dollars using the average exchange rates during the period, while assets and liabilities are translated using period-end exchange rates. Foreign currency translation adjustments of assets and liabilities are recorded in stockholders' equity. Gains and losses resulting from foreign currency transactions reported in the statements of income under the caption "Other (Income) Expense", net, for all periods presented. We recognized a foreign currency transaction gain of \$26,000 in 2012, and foreign currency transaction losses of \$200 and \$187,000 in 2011, and 2010, respectively.

- Revenue recognition

Our sales generally occur via two methods: (1) at the store counter, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Shipping terms are normally FOB shipping point. Sales tax and comparable foreign tax is excluded from revenue.

We offer an unconditional satisfaction guarantee to all customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

- Discounts

We maintain four price levels on a consistent basis: retail, wholesale, business, and distributor. Gross sales are reported after deduction of discounts. We do not pay slotting fees or make other payments to resellers. Several customers require us to participate in their cooperative advertising programs. These programs are a negotiated percentage of their purchases and are accounted for as a reduction of sales.

- Expense categories

Cost of goods sold includes inbound freight and duty charges from vendors to our central warehouse, freight and handling charges to move merchandise from our central warehouse to our stores, and manufacturing overhead, as appropriate.

Operating expenses include all selling, general and administrative costs including wages and related employee expenses (payroll taxes, health benefits, savings plans, etc.), advertising, outbound freight charges (to ship merchandise to customers), rent, and utilities.

- Property and equipment, net of accumulated depreciation and amortization

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which are five to ten years for equipment and machinery, five to seven years for furniture and fixtures, five years for vehicles, and forty years for buildings and related improvements. Leasehold improvements are amortized over the lesser of the life of the lease or the useful life of the asset. Repairs and maintenance costs are expensed as incurred.

- Inventory

Inventory is valued at the lower of first-in, first-out cost or market. In addition, the value of inventory is periodically reduced to net realizable value for slow-moving or obsolete inventory based on management's review of items on hand compared to their estimated future demand.

- Impairment of long-lived assets

Potential impairments of long-lived assets are reviewed annually or when events and circumstances warrant an earlier review. Impairment is determined when estimated future undiscounted cash flows associated with an asset are less than the asset's carrying value.

- Earnings per share

Basic earnings per share are computed based on the weighted average number of common shares outstanding during the period. Diluted earnings per share includes, to the extent inclusion of such shares would be dilutive to earnings per share, the effect of outstanding options and warrants, computed using the treasury stock method.

**TABLE OF CONTENTS**

BASIC	2012	2011	2010
Net income	\$5,596,070	\$4,752,601	\$4,160,257
Weighted average common shares outstanding	10,157,395	10,156,442	10,208,944
Earnings per share – basic	\$0.55	\$0.47	\$0.41
DILUTED			
Net income	\$5,596,070	\$4,752,601	\$4,160,257
Weighted average common shares outstanding	10,157,395	10,156,442	10,208,944
Effect of assumed exercise of stock options and warrants	17,951	25,656	42,919
Weighted average common shares outstanding, assuming dilution	10,175,346	10,182,098	10,251,863
Earnings per share - diluted	\$0.55	\$0.47	\$0.41
Outstanding options and warrants excluded as anti-dilutive	-	25,000	13,000

For additional disclosures regarding the employee stock options and the warrants, see Note 11. The net effect of converting stock options and warrants to purchase 125,600, 90,600, and 90,600 shares of common stock at option prices less than the average market prices has been included in the computations of diluted EPS for the years ended December 31, 2012, 2011 and 2010, respectively.

- Goodwill and other intangibles

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination. Goodwill is required to be evaluated for impairment on an annual basis, absent indicators of impairment during the interim. Application of the goodwill impairment test requires exercise of judgment, including the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit. Goodwill is not amortized, but is evaluated at least annually for impairment. We completed our annual goodwill impairment analysis as of December 31 in each of the three years ended December 31, 2012, and determined that no adjustment to the carrying value of goodwill was required.

A summary of changes in our goodwill for the years ended December 31, 2012 and 2011 is as follows:

	Leather Factory	Tandy Leather	Total
Balance, December 31, 2010	\$606,962	\$383,406	\$990,368
Acquisitions and adjustments	-	-	-
Foreign exchange gain/loss	(3,359)	-	(3,359)
Impairments	-	-	-
Balance, December 31, 2011	\$603,603	\$383,406	\$987,009
Acquisitions and adjustments	-	-	-
Foreign exchange gain/loss	3,716	-	3,716
Impairments	-	-	-
Balance, December 31, 2012	\$607,319	\$383,406	\$990,725

As of December 31, 2012 and 2011, our intangible assets and related accumulated amortization consisted of the following:

	As of December 31, 2012		
	Gross	Accumulated Amortization	Net
Trademarks, Copyrights	\$544,369	\$456,836	\$87,533
Non-Compete Agreements	183,216	125,216	58,000
	\$727,585	\$582,052	\$145,533

	As of December 31, 2011		
	Gross	Accumulated Amortization	Net
Trademarks, Copyrights	\$544,369	\$425,418	\$118,951
Non-Compete Agreements	182,365	114,024	68,341
	\$726,734	\$539,442	\$187,292

Excluding goodwill, we have no intangible assets not subject to amortization under U.S. GAAP. Amortization of intangible assets of \$41,759 in 2012, \$44,933 in 2011, and \$76,421 in 2010 was recorded in operating expenses. The weighted average amortization period is 15 years for trademarks and copyrights. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding 5 years is as follows:

	Leather Factory	Tandy Leather	Total
2013	\$768	\$33,337	\$34,105
2014	455	33,337	33,792
2015	-	28,635	28,635
2016	-	2,000	2,000
2017	-	-	-

TABLE OF CONTENTS

- Fair value of financial Instruments

We measure fair value as an exit price, which is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As a basis for considering such assumptions, accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 – observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – include other inputs that are directly or indirectly observable in the marketplace.

Level 3 – unobservable inputs which are supported by little or no market activity.

Classification of the financial asset or liability within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Our principal financial instruments held consist of certificates of deposit, accounts receivable, accounts payable, notes payable and long-term debt. The carrying value of accounts receivable and accounts payable approximate their fair value due to the relatively short-term nature of the accounts. The terms of the long-term debt are considered reasonable for this type of financing; therefore, the carrying amount approximates fair value.

- Income taxes

We account for income taxes using the asset and liability method. Under this method, the amount of taxes currently payable or refundable is accrued, and deferred tax assets and liabilities are recognized for the estimated future tax consequences of temporary differences that currently exist between the tax basis and the financial reporting basis of our assets and liabilities.

Deferred tax assets and liabilities are measured using the enacted tax rates in effect in the years when those temporary differences are expected to reverse. The effect on deferred taxes from a change in tax rate is recognized through continuing operations in the period that includes the enactment date of the change. Changes in tax laws and rates could affect recorded deferred tax assets and liabilities in the future.

A tax benefit from an uncertain tax position may be recognized when it is more-likely-than-not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. Income tax position must meet a more-likely-than-not recognition threshold to be recognized.

We recognize tax liabilities for uncertain tax positions and adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the tax liabilities. These differences will be reflected as increases or decreases to income tax expense and the effective tax rate in the period in which new information becomes available.

We may be subject to periodic audits by the Internal Revenue Service and other taxing authorities. These audits may challenge certain of our tax positions, such as the timing and amount of deductions and allocation of taxable income to the various jurisdictions.

- Stock-based compensation

We have one stock option plan which provides for annual stock option grants to non-employee directors with an exercise price equal to the fair market value of the shares at the date of grant. Under this plan, 12,000 options were awarded to directors in each of the years 2012 and 2011. These options vest and become exercisable six months from the option grant date. We had two other stock option plans from 1995 which provided for stock option grants to officers, key employees and non-employee directors. These plans expired in 2005. The expiration of the plans has no effect on the options previously granted. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our common stock on the date the option was granted and no option has a term in excess of ten years. We recognized share based compensation expense of approximately \$10,000, \$33,000, and \$42,000 for the years ended December 31, 2012, 2011 and 2010, respectively, as a component of operating expenses.

During the years ended December 31, 2012 and 2011, the stock option activity under our stock option plans was as follows:

	Weighted Average Exercise Price	# of shares	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding, January 1, 2011	\$4.35	103,600		
Granted	4.80	12,000		
Cancelled	-	-		
Exercised	-	-		
Outstanding, December 31, 2011	\$4.40	115,600	5.15	\$206,332
Exercisable, December 31, 2011	\$4.40	115,600	5.15	\$206,332
Outstanding, January 1, 2012	\$4.40	115,600		
Granted	5.27	12,000		
Cancelled	-	-		
Exercised	3.50	(6,000)		
Outstanding, December 31, 2012	\$4.53	121,600	4.83	\$206,760
Exercisable, December 31, 2012	\$4.53	121,600	4.83	\$206,760

Other information pertaining to option activity during the twelve month periods ended December 31, 2012, 2011 and 2010 are as follows:

	2012	2011	2010
Weighted average grant-date fair value of stock options granted	\$0.83	\$1.19	\$1.42
Total fair value of stock options vested	\$10,000	\$14,257	\$18,388
Total intrinsic value of stock options exercised	\$9,572	N/A	\$114,603

As of December 31, 2012, there was no unrecognized compensation cost related to non-vested stock options.

Cash received from the exercise of stock options for the years ended December 31, 2012 and 2010 was \$20,980, and \$170,266, respectively. No stock options were exercised in 2011.

The fair value of each stock option granted is estimated on the date of grant using the BSM option valuation model. The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and our experience. Compensation expense is recognized only for those options expected to

vest, with forfeitures estimated at the date of grant based on our historical experience and future expectations.

- Comprehensive income

Comprehensive income includes net income and certain other items that are recorded directly to Stockholders' Equity. The Company's only source of other comprehensive income is foreign currency translation adjustments.

TABLE OF CONTENTS

- Shipping and handling costs

All shipping and handling costs incurred by us are included in operating expenses on the statements of income. These costs totaled approximately \$1,767,000, \$1,725,000, and \$1,603,000 for the years ended December 31, 2012, 2011 and 2010, respectively.

- Advertising

With the exception of catalog costs, advertising costs are expensed as incurred. Catalog costs are capitalized and expensed over the estimated useful life of the particular catalog in question, which is typically twelve to eighteen months. Such capitalized costs are included in other current assets and totaled \$181,000 and \$145,000 at December 31, 2012 and 2011, respectively. Total advertising expense was \$3,543,000 in 2012; \$2,972,000 in 2011; and \$3,002,000 in 2010.

- Cash flows presentation

For purposes of the statement of cash flows, we consider all highly liquid investments with initial maturities of three months or less from the date of purchase to be cash equivalents.

### 3. SHORT-TERM INVESTMENTS

All current fixed maturity securities are classified as “available for sale” and are reported at carrying value, which approximates fair value based on the discounted value of contractual cash flows. We have determined that our investment securities are available to support current operations and, accordingly, have classified such securities as current assets without regard to contractual maturities. Investments at December 31, 2011 consisted of certificates of deposit. We held no short-term investments as of December 31, 2012.

### 4. VALUATION AND QUALIFYING ACCOUNTS

- Allowance for uncollectible accounts

We maintain allowances for bad debts based on factors such as the composition of accounts receivable, the age of the accounts, historical bad debt experience, and our evaluation of the financial condition and past collection history of each customer. Accounts are written off as they are deemed uncollectible based on a periodic review of accounts. Our allowance for doubtful accounts was \$112,000 and \$81,000, respectively, at December 31, 2012 and 2011. The following is a roll forward of the allowance for doubtful accounts:

Year ended:	Balance at beginning of year	Reserve "purchased" during year	Additions (reductions) charged to costs and expenses	Foreign exchange gain/loss	Write-offs	Balance at end of year
December 31, 2012	\$80,926	-	77,143	242	(46,315)	\$111,996
December 31, 2011	\$146,929	-	(45,315)	156	(20,844)	\$80,926
December 31, 2010	\$136,023	-	25,348	595	(15,037)	\$146,929

- Sales returns and defective merchandise

Product returns are generally recorded directly against sales as those returns occur. Historically, the amount of returns is immaterial and as a result, no reserve is recorded in the financial statements.

- Slow-moving and obsolete inventory

The majority of inventory items maintained by us have no restrictive shelf life. We review all inventory items annually to determine what items should be eliminated from the product line. Items are selected for several reasons: (1) they are slow-moving; (2) the supplier is unable to provide an acceptable quality or quantity; or (3) to maintain a freshness in the product line. Once an item has been selected to discontinue, we devalue the cost of the item by 25% of its original value each quarter until its value has been reduced to zero. Reductions in inventory for slow-moving and obsolete inventory are recorded directly against inventory.

## 5. BALANCE SHEET COMPONENTS

	December 31, 2012	December 31, 2011
<b>INVENTORY</b>		
On hand:		
Finished goods held for sale	\$24,039,846	\$17,742,298
Raw materials and work in process	495,182	479,686
Inventory in transit	1,327,756	1,718,267
<b>TOTAL</b>	<b>\$25,862,784</b>	<b>\$19,940,251</b>

<b>PROPERTY AND EQUIPMENT</b>		
Building	\$6,412,861	\$6,412,861
Land	1,451,132	1,451,132

<b>TOTAL</b>	<b>\$336,695</b>	<b>\$341,240</b>

<b>ACCRUED EXPENSES AND OTHER LIABILITIES</b>		
Accrued bonuses	\$2,238,057	\$1,955,012

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-K

Accrued payroll	629,636	527,540	
Deferred revenue	826,467	747,335	
Sales and payroll taxes payable	295,482	293,155	
Inventory in transit	1,327,756	799,647	
Other	611,400	318,502	
	TOTAL	\$5,928,798	\$4,641,191

TABLE OF CONTENTS

Depreciation expense was \$1,026,467, \$971,628, and \$895,988 for the years ended December 31, 2012, 2011 and 2010, respectively.

The 2010 loss from abandonment and/or disposal of obsolete equipment totaled \$49,154. The loss is included in Operating expenses, \$11,849 of which is reported in our Retail Leathercraft segment and \$37,305 which is reported in our Wholesale Leathercraft segment. The 2011 loss from abandonment and/or disposal of obsolete equipment totaled \$84,168. The loss is included in Operating expenses, \$13,884 of which is reported in our Retail Leathercraft segment and \$70,284 of which is reported in our Wholesale Leathercraft segment. The 2012 loss from abandonment and/or disposal of obsolete equipment totaled \$21,092. The loss is included in Operating expenses, \$13,536 of which is reported in our Retail Leathercraft segment, \$6,232 of which is reported in our Wholesale Leathercraft segment, and \$1,324 of which is reported in our International Leathercraft segment.

## 6. NOTES PAYABLE AND LONG-TERM DEBT

On July 31, 2007, we entered into a Credit Agreement and Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a credit facility of up to \$5,500,000 to facilitate our purchase of real estate consisting of a 191,000 square foot building situated on 30 acres of land located in Fort Worth, Texas. Under the terms of the Line of Credit Note, we could borrow from time to time until April 30, 2008, up to the lesser of \$5,500,000 or 90% of the cost of the property and make monthly interest payments. On April 30, 2008, the principal balance was rolled into a 10-year term note with an interest rate of 7.10% per annum.

Proceeds in the amount of \$4,050,000 were used to fund the purchase of the property from Standard Motor Products, Inc. under an Agreement of Purchase and Sale, dated June 25, 2007, which closed on July 31, 2007. No further borrowings were drawn.

At December 31, 2012 and 2011, the amount outstanding under the above agreement consisted of the following:

	2012	2011
Credit Agreement with JPMorgan Chase Bank – collateralized by real estate; payable as follows:		
Line of Credit Note dated July 31, 2007, converted to a \$ 3,105,000 10-year term note on April 30, 2008; \$16,875 monthly principal payments plus interest at 7.1% per annum; matures April 30, 2018	\$ 3,105,000	\$ 3,307,500
	3,105,000	3,307,500
Less - Current maturities	(202,500)	(202,500)
	\$2,902,500	\$3,105,000

The terms of the credit facility contain various covenants which among other things require us to maintain a debt service coverage ratio of not less than 1.2 to 1.0. We were in compliance with these covenants as of December 31, 2012.

Scheduled maturities of the Company's notes payable and long-term debt are as follows:

2013	\$202,500
2014	202,500
2015	202,500
2016	202,500
2017	202,500

2018	2,092,500
	\$3,105,000

On July 12, 2012, we executed a Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a revolving credit facility of up to \$4,000,000. The revolver bears interest at LIBOR plus 2.0% (2.2087% at December 31, 2012) and matures on June 30, 2013. Interest is paid monthly. This note was obtained for working capital purposes and is secured by the real estate and improvements located at 1900 Southeast Loop 820, Fort Worth, Texas. No amounts were outstanding under the agreement at December 31, 2012.

## 7. EMPLOYEE BENEFIT AND SAVINGS PLANS

We have a 401(k) plan to provide retirement benefits for our employees. As allowed under Section 401(k) of the Internal Revenue Code, the plan provides tax-deferred salary contributions for eligible employees and allows employees to contribute a percentage of their annual compensation to the plan on a pretax basis. Employee contributions are limited to a maximum annual amount as set periodically by the Internal Revenue Code. In 2012, 2011 and 2010, we matched 100% of pretax employee contributions on the first 3% of eligible earnings that are contributed by employees.

Year Ended December 31,	Maximum Matching Contribution per Participant*	Total Matching Contribution
2012	\$7,500	\$308,567
2011	\$7,350	\$217,539
2010	\$7,350	\$199,716

\* Due to the annual limit on eligible earnings imposed by the Internal Revenue Code

The plan allows employees who meet the age requirements and reach the plan contribution limits to make a catch-up contribution. The catch-up contributions are not eligible for matching contributions. In addition, the plan provides for discretionary matching contributions as determined by the Board of Directors. There were no discretionary matching contributions made in 2012, 2011 or 2010.

We currently offer no postretirement or postemployment benefits to our employees.

## 8. INCOME TAXES

The provision for income taxes consists of the following:

	2012	2011	2010
Current provision:			
Federal	\$3,054,862	\$2,155,653	\$2,121,604
State	415,244	375,336	286,171
	3,470,106	2,530,989	2,407,775
Deferred provision (benefit):			
Federal	(107,843)	229,540	(80,991)
State	(12,688)	27,004	(9,529)
	(120,531)	256,544	(90,520)
	\$3,349,575	\$2,787,533	\$2,317,255

TABLE OF CONTENTS

Income before income taxes is earned in the following tax jurisdictions:

	2012	2011	2010
United States	\$7,941,689	\$6,344,634	\$5,670,352
United Kingdom	509,426	476,414	319,290
Canada	999,609	945,041	486,981
Australia	(210,372)	(131,467)	-
Spain	(294,707)	(93,120)	-
	\$8,945,645	\$7,541,502	\$6,476,623

The income tax effects of temporary differences that give rise to significant portions of deferred income tax assets and liabilities are as follows:

	2012	2011
Deferred income tax assets:		
Allowance for doubtful accounts	\$39,310	\$30,729
Capitalized inventory costs	200,017	147,135
Warrants and stock-based compensation	54,042	54,042
Accrued expenses, reserves, and other	110,151	103,387
Total deferred income tax assets	403,520	335,293
Deferred income tax liabilities:		
Property and equipment depreciation	689,893	758,024
Goodwill and other intangible assets amortization	170,674	154,847
Total deferred income tax liabilities	860,567	912,871
Net deferred tax asset (liability)	\$(457,047)	\$(577,578)

The net deferred tax liability is classified on the balance sheets as follows:

	2012	2011
Current deferred tax assets	\$349,478	\$281,251
Long-term deferred tax liabilities	(806,525)	(858,829)
Net deferred tax asset (liability)	\$(457,047)	\$(577,578)

The effective tax rate differs from the statutory rate as follows:

	2012	2011	2010
Statutory rate – Federal US income tax	34%	34%	34%
State and local taxes	4%	4%	4%
Non-U.S. income tax at different rates	1%	2%	-
Domestic production activities deduction	(1%)	(1%)	(1%)
Other, net	(1%)	(2%)	(1%)
Effective rate	37%	37%	36%

We file a consolidated U.S. income tax return as well as state tax returns on a consolidated, combined or stand-alone basis, depending on the jurisdiction. We are no longer subject to U.S. federal income tax examinations by tax authorities for years prior to the tax year ended December 2010. Depending on the jurisdiction, we are no longer

subject to state examinations by tax authorities for years prior to the December 2009 and December 2010 tax years.

## 9. COMMITMENTS AND CONTINGENCIES

### Operating Leases

We lease our store locations under five-year lease agreements that expire on dates ranging from February 2013 to May 2018. Rent expense on all operating leases for the years ended December 31, 2012, 2011, and 2010, was \$3,135,773, \$2,750,373, and \$2,721,281, respectively.

Future minimum lease payments under noncancelable operating leases at December 31, 2012 were as follows:

Year ending December 31:	
2013	\$2,950,179
2014	2,348,945
2015	1,768,549
2016	1,127,051
2017	634,742
2018	65,728
Total minimum lease payments	\$8,895,194

### Legal Proceedings

On March 16, 2011, two former employees of ours filed a lawsuit, entitled Mark Barnes and Jerry Mercante on behalf of themselves and all other similarly situated v. Tandy Leather Company, Inc., Tandy Leather Factory, and Does 1-50, in the US District Court for the District of Nevada. The lawsuit was subsequently amended on May 9, 2011 to add another former employee, Donna Cavota, as a third named plaintiff. The suit alleges that we violated requirements of the Fair Labor Standards Act (FLSA) as well as various state wage laws. Plaintiffs seek to represent themselves and all similarly situated U.S. current and former store managers of ours. Plaintiffs seek reimbursement for an unspecified amount of unpaid overtime compensation, liquidated damages, attorneys' fees and costs. On May 17, 2011, the district court in Nevada granted our request to transfer venue to the Northern District of Texas.

On September 24, 2012, an agreement was reached and preliminarily approved by the United States District Court, Northern District of Texas, Fort Worth Division, to settle all federal and state claims asserted by the plaintiffs (the "Settlement Agreement"). At all times during the pendency of this litigation, we have vigorously denied all of the plaintiffs' allegations. As part of the settlement, we continue to deny any violation of any statute, law, rule or regulation, any liability or wrongdoing, and the truth of all of the plaintiffs' allegations. We have agreed to enter into the Settlement Agreement to avoid further expense and inconvenience, end the disruption and burden of the litigation, avoid any other present or future litigation arising out of the facts that gave rise to the litigation, avoid the risk inherent in uncertain complex litigation, and put to rest the controversy underlying the litigation.

## TABLE OF CONTENTS

The Settlement Agreement required us to establish a \$993,386 escrow account to fund (1) settlement payments to the plaintiffs, (2) settlement payments to the other members of the settlement class who join the class action, (3) attorneys' fees and expenses, and (4) escrow agent fees and expenses. The plaintiffs and each other member of the settlement class who joins the class action release any and all claims against us related to the conduct alleged by the plaintiffs in the class action suit. The Settlement Agreement includes a formula to determine the amount of settlement payments payable to each claimant. If the aggregate amount of settlement payments determined by such formula exceeds the remaining balance in the escrow fund, we will have no further liability. Instead, the amount of settlement payments payable to the claimants will be reduced proportionately. To the extent that any funds remain in the escrow fund after payment of all required claims, fees and expenses, the remaining funds will be returned to us. The foregoing description is not complete and is qualified in its entirety by reference to the full text of the Settlement Agreement which was attached as Exhibit 10.1 to a Form 8-K Current Report on Form 8-K, as filed with the Securities and Exchange Commission on October 1, 2012.

A Fairness Hearing was held on February 11, 2013, to make final determinations as to whether the settlement described in the Settlement Agreement is fair, reasonable and adequate, whether it should be finally approved by the Court, and whether an Order and Final Judgment should be issued dismissing the lawsuit with prejudice. At the hearing, the Court expressed concern regarding certain aspects of communications to the potential opt in class members, and therefore, delayed ruling on the final approval of the settlement and dismissal of the case. The Court directed class counsel to prepare correspondence to be submitted and approved by the Court and then to be resubmitted to the remaining potential opt in class members before the Court makes a final ruling on the fairness of the settlement and issuance of an order of final dismissal. Based on the Court's earlier Order Preliminarily Approving the Settlement, we are optimistic that the Court will ultimately issue a Final Order approving the settlement and dismissing the case with prejudice.

In connection with the settlement, we recorded a charge to operations of \$993,386 during the quarter ended September 30, 2012 as this amount, as ordered by the court, will cover the full settlement of all claims of opt in claimants, class counsels' attorney's fee, and class administration costs in accordance with the terms of the agreement.

We are periodically involved in various other litigation that arises in the ordinary course of business and operations. There are no such matters pending that we expect to have a material impact on our financial position and operating results. Legal costs associated with the resolution of claims, lawsuits and other contingencies are expensed as incurred.

## 10. SIGNIFICANT BUSINESS CONCENTRATIONS AND RISK

### Major Customers

Our revenues are derived from a diverse group of customers primarily involved in the sale of leathercrafts. While no single customer accounted for more than 2% of our consolidated revenues in 2012, 2011 and 2010, sales to our five largest customers represented 2.9%, 5.5% and 5.5%, respectively, of consolidated revenues in those years. While we do not believe the loss of one of these customers would have a significant negative impact on our operations, we do believe the loss of several of these customers simultaneously or a substantial reduction in sales generated by them could temporarily affect our operating results.

### Major Vendors

We purchase a significant portion of our inventory through one supplier. However, due to the number of alternative sources of supply, loss of this supplier would not have an adverse impact on our operations.

### Credit Risk

Due to the large number of customers comprising our customer base, concentrations of credit risk with respect to customer receivables are limited. At December 31, 2012, 2011, and 2010, 30%, 34% and 32%, respectively, of our consolidated accounts receivable were due from two nationally recognized retail chains. We do not generally require collateral for accounts receivable, but we do perform periodic credit evaluations of our customers and believe the allowance for doubtful accounts is adequate. It is our opinion that if any one or a group of customer receivable balances should be deemed uncollectable, it would not have a material adverse effect on our results of operations and financial condition.

We maintain our cash in bank deposit accounts that, at times, may exceed federally insured limits. We have not experienced any losses in such accounts. We believe we are not exposed to any significant credit risk on our cash and cash equivalents.

## 11. STOCKHOLDERS' EQUITY

### a) Stock Option Plan

In connection with its 2007 Director Non-Qualified Stock Option Plan for non-employee directors, we have outstanding options to purchase our common stock. The plan provides for the granting of non-qualified options at the discretion of the Compensation Committee of the Board of Directors. Options are granted at the fair market value of the underlying common stock at the date of grant and vest after six months. We have reserved 100,000 shares of common stock for issuance under this plan.

We had two other stock options plans from 1995 which provided stock option grants to officers, key employees, and non-employee directors. These plans expired in 2005. The expiration of the plans had no effect on the options previously granted.

All options expire ten years from date of grant and are exercisable at any time after vesting. Of the 100,000 shares available for issuance, there are 33,400 un-optioned shares available for future grants.

A summary of stock option transactions for the years ended December 31, 2012, 2011, and 2010, is as follows:

	2012		2011		2010	
	Options Shares	Weighted Average Exercise Price	Option Shares	Weighted Average Exercise Price	Option Shares	Weighted Average Exercise Price
Outstanding at January 1	115,600	\$4.40	103,600	\$4.35	197,700	\$2.23
Granted	12,000	5.27	12,000	4.80	42,600	4.59
Forfeited or expired	-	-	-	-	-	-
Exchanged	-	-	-	-	-	-
Exercised	(6,000)	3.50	-	-	(136,700)	1.65
Outstanding at December 31	121,600	\$4.53	115,600	\$4.40	103,600	\$4.35
Exercisable at end of year	121,600	\$4.53	115,600	\$4.40	70,000	\$4.33
Weighted-average fair value of options granted during year	\$0.83		\$1.19		\$1.42	

The following table summarizes outstanding options into groups based upon exercise price ranges at December 31, 2012:

Exercise Price Range	Option Shares	Options Outstanding		Option Shares	Options Exercisable	
		Weighted Average Exercise Price	Weighted Average Maturity (Years)		Weighted Average Exercise Price	Weighted Average Maturity (Years)
\$2.72 to \$3.90	4,000	\$3.885	1.24	4,000	\$3.885	1.24
\$3.91 to \$5.30	117,600	4.553	4.96	117,600	4.553	4.96
	121,600	\$4.53	4.83	121,600	\$4.53	4.83

b) Stock Repurchase Program

On February 27, 2009, our Board of Directors authorized a share repurchase program of up to 1 million shares of our common stock at prevailing market prices not to exceed \$2.85. The share repurchase program commenced on April 1, 2009. On December 4, 2009, our Board amended the repurchase program to increase the maximum purchase price to \$3.70. The plan terminated on December 10, 2010. We repurchased a total of 2,300 and 60,927 shares in 2010 and 2009, respectively, for a total purchase price of \$207,683.

TABLE OF CONTENTS

## c) Cash Dividend

In May 2010, our Board of Directors authorized a \$0.75 per share special one-time cash dividend that was paid to stockholders of record at the close of business on June 3, 2010. The dividend, totaling \$7.7 million, was paid to stockholders on July 5, 2010. We did not make any dividend payments during 2011.

In February 2012, our Board of Directors authorized a \$0.25 per share special one-time cash dividend that was paid to stockholders of record at the close of business on March 1, 2012. The dividend, totaling \$2.5 million, was paid to stockholders on April 2, 2012. We released the funds used to pay for the special one-time cash dividend on March 29, 2012 and the dividend, totaling \$2.5 million, was paid to stockholders on April 2, 2012.

Our Board will determine future cash dividends after giving consideration to our then existing levels of profit and cash flow, capital requirements, current and forecasted liquidity, as well as financial and other business conditions existing at the time.

## 12. STORE CLOSING

In October 2010, we closed Mid-Continent Leather Sales, a wholesale store located in Coweta, Oklahoma, due to unsatisfactory sales and earnings performance. We negotiated an early termination of the lease which effectively eliminated all obligations pertaining to the store at December 31, 2010. Amortization of a non-compete agreement with the former owner totaling \$75,000 was accelerated and fully amortized by year-end. This store was included in our Wholesale Leathercraft segment.

## 13. DISCONTINUED OPERATIONS

Our subsidiary, Roberts, Cushman and Company, Inc., is classified as discontinued operations. The distributor of custom hat trims ceased doing business in the fourth quarter of 2009 as a result of decreased sales. All prior periods presented have been adjusted to reflect this presentation. Sales, earnings before income tax, and provision for income taxes of the discontinued operation for each year were as follows:

	2012	2011	2010
Sales	-	-	\$(419)
Earnings before income taxes	-	-	\$877
Current provision (benefit):			
Federal	-	\$(1,394)	\$701
State	-	26	(2,261)
	-	(1,368)	(1,560)
Deferred provision (benefit):			
Federal	-	-	617
State	-	-	54
	-	-	671
	-	\$(1,368)	\$(889)

There were no assets and liabilities of discontinued operations in our consolidated balance sheet as of December 31, 2012 and 2011.

## 14. SEGMENT INFORMATION

We identify our segments based on the activities of three distinct operations:

- a. Wholesale Leathercraft, which consists of a chain of wholesale stores operating under the name, The Leather Factory, located in North America;
- b. Retail Leathercraft, which consists of a chain of retail stores operating under the name, Tandy Leather Company, located in North America;
- c. International Leathercraft, which sells to both wholesale and retail customers. We have one store located in Northampton, United Kingdom which opened in February 2008, one store located in Sydney, Australia which opened in October 2011, and one store located in Jerez, Spain which opened in January 2012. These stores carry the same products as our North American stores.

Our reportable operating segments have been determined as separately identifiable business units and we measure segment earnings as operating earnings, defined as income before interest and income taxes.

	Wholesale Leathercraft	Retail Leathercraft	International Leathercraft	Total
For the year ended December 31, 2012				
Net Sales	\$26,850,002	\$42,616,546	\$3,254,076	\$72,720,624
Gross Profit	18,063,191	25,833,852	2,008,631	45,905,674
Operating earnings	3,730,678	5,436,745	(23,418)	9,144,005
Interest expense	240,934	-	-	240,934
Other, net	(14,498)	(13)	(27,763)	(42,574)
Income before income taxes	3,504,542	5,436,758	4,345	8,945,645

**TABLE OF CONTENTS**

Net sales by geographic areas were as follows:

	2012	2011	2010
United States	\$61,041,650	\$56,337,737	\$51,561,070
Canada	7,496,840	6,714,100	5,862,857
All other countries	4,182,134	3,051,110	2,468,943
	\$72,720,624	\$66,102,947	\$59,892,870

Geographic sales information is based on the location of the customer. Except for Canada, we had no sales to any single foreign country that was material to our consolidated net sales for the years ended December 31, 2012, 2011 and 2010. We do not have any significant long-lived assets outside of the United States.

**15. RECENT ACCOUNTING PRONOUNCEMENTS**

In December 2010, FASB issued ASU 2010-28 “Intangibles - Goodwill and Other (Topic 350)” (ASU 2010-28). Topic 350 is amended to clarify the requirement to test for impairment of goodwill. Topic 350 has required that goodwill be tested for impairment if the carrying amount of a reporting unit exceeds its fair value. Under ASU 2010-28, when the carrying amount of a reporting unit is zero or negative an entity must assume that it is more likely than not that a goodwill impairment exists, perform an additional test to determine whether goodwill has been impaired and calculate the amount of that impairment. The modifications to ASC Topic 350 resulting from the issuance of ASU 2010-28 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2010. The adoption of the standard did not have a material impact on our consolidated results of operations and financial condition.

In December 2010, FASB issued ASU 2010-29 “Business Combinations (Topic 805) - Disclosure of Supplementary Pro Forma Information for Business Combinations” (ASU 2010-29). This standard update clarifies that, when presenting comparative financial statements, SEC registrants should disclose revenue and earnings of the combined entity as though the current period business combinations had occurred as of the beginning of the comparable prior annual reporting period only. The update also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for material (either on an individual or aggregate basis) business combinations entered into in fiscal years beginning on or after December 15, 2010. The adoption of the standard did not have a material impact on our consolidated financial statements.

In June 2011, FASB issued ASU 2011-05, “Comprehensive Income (Topic 220) – Presentation of Comprehensive Income” (ASU 2011-05). This standard update requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of stockholders’ equity. ASU 2011-05 is effective for the interim and annual periods beginning after December 15, 2011. The adoption of the standard did not have a material impact on our consolidated financial statements.

In September 2011, FASB issued ASU 2011-08, “Intangibles-Goodwill and Other (Topic 350) – Testing Goodwill for Impairment”. ASU 2011-08 provides companies with a new option to determine whether or not it is necessary to apply the traditional two-step quantitative goodwill impairment test in ASC 350, Intangibles – Goodwill and Other. Under ASU 2011-08 companies are no longer required to calculate the fair value of a reporting unit unless it determines, on the basis of qualitative information, that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. ASU 2011-08 is effective for periods ending after December 15, 2011; however, early adoption is

permitted for periods ending after September 15, 2011. The adoption of the standard did not have a material impact on our consolidated financial statements.

In February 2013, FASB issued ASU No. 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income". The objective of this ASU is to improve reporting by requiring entities to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in the statement of operations. The amendments in this ASU are required to be applied retrospectively and are effective for reporting periods beginning after December 15, 2012. We do not anticipate the adoption to have any impact on our consolidated financial statements other than revising the presentation relating to items reclassified from accumulated other comprehensive income to the statement of income and comprehensive income (loss).

TABLE OF CONTENTS

REPORT OF INDEPENDENT REGISTERED  
PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders  
Tandy Leather Factory, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Tandy Leather Factory, Inc. and Subsidiaries (the Company) as of December 31, 2012 and 2011, and the related consolidated statements of income, stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2012. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Tandy Leather Factory, Inc. and Subsidiaries as of December 31, 2012, and 2011 and the consolidated results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and operation of our “disclosure controls and procedures” (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon their evaluation of these disclosure controls and procedures, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation in ensuring that information required to be disclosed in the reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Management’s Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over our financial reporting. Our internal control system was designed to provide reasonable assurance to management and the board of directors regarding the effectiveness of our internal control processes over the preparation and fair presentation of our published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

We have assessed the effectiveness of our internal controls over financial reporting as of December 31, 2012. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commissions (COSO) in Internal Control – Integrated Framework. Based on our assessment, we believe that, as of December 31, 2012, our internal control over financial reporting is effective based on that criteria.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management’s report is not subject to attestation by our registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit us to provide only management’s report in this Annual Report on Form 10-K.

Changes in internal control. There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended December 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

This definitive proxy statement relates to a meeting of stockholders involving the election of directors and the portions therefrom required to be set forth in this Form 10-K by Items 10, 11, 12, 13, and 14 are incorporated herein by reference pursuant to General Instruction G(3) to Form 10-K.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) The following are filed as part of this Annual Report on Form 10-K:

1. Financial Statements

The following consolidated financial statements are included in Item 8:

- Consolidated Balance Sheets at December 31, 2012 and 2011
- Consolidated Statements of Income for the years ended December 31, 2012, 2011 and 2010
- Consolidated Statements of Comprehensive Income for the years ended December 31, 2012, 2011 and 2010
- Consolidated Statements of Cash Flows for the years ended December 31, 2012, 2011 and 2010
- Consolidated Statements of Stockholders' Equity for the years ended December 31, 2012, 2011 and 2010

2. Financial Statement Schedules

All financial statement schedules are omitted because the required information is not present or not present in sufficient amounts to require submission of the schedule or because the information is reflected in the consolidated financial statements or notes thereto.

3. Exhibits

The exhibits listed in the Exhibit Index immediately preceding such exhibits are filed as part of this Annual Report on Form 10-K.
