TANDY LEATHER FACTORY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 1. BASIS OF PRESENTATION AND CERTAIN SIGNIFICANT ACCOUNTING POLICIES

Tandy Leather Factory, Inc. is a specialty retailer of leather and leathercraft related items, offering a broad range of leather, quality tools, hardware, accessories, liquids, lace, kits and teaching materials. We sell our products through company-owned stores and through orders generated from our website, www.tandyleather.com. We also manufacture the leather lace and some of our do-it-yourself kits that are sold in our stores and website.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly our financial position as of March 31, 2018 and December 31, 2017, and our results of operations and cash flows for the three-month periods ended March 31, 2018 and 2017. Operating results for the three-month period ended March 31, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2017.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Inventory. Inventory is valued at the lower of cost or net realizable value. In addition, the value of inventory is periodically reduced to net realizable value for slow-moving or obsolete inventory based on our review of items on hand compared to their estimated future demand. Based on negotiations with vendors, title generally passes to us when merchandise is put on board. Merchandise to which we have title but have not yet received is recorded as inventory in transit.

	March 31, 2018	December 31, 2017
Inventory on hand:		
Finished goods held for sale	\$34,185,969	\$34,824,728
Raw materials and work in process	1,082,632	1,138,316
Inventory in transit	1,503,259	1,348,153
Total inventory	\$36,771,860	\$37,311,197

Goodwill and Other Intangibles. Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination. Goodwill is required to be evaluated for impairment on an annual basis, absent indicators of impairment during the interim. Application of the goodwill impairment test requires exercise of judgment, including the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit. During the first quarter of 2018, no indicators of impairment were identified. Further, the only change in our goodwill for the three-month periods ended March 31, 2018 and 2017 resulted from foreign currency translation of \$2,596 and \$1,146, respectively.

Other intangibles consist of the following:

March 31, 2018	December 31, 2017
Accumulated	Accumulated

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

	Gross	Amortization	Net	Gross	Amortization	Net
Trademarks, Copyrights	\$554,369	\$ 546,202	\$8,167	\$554,369	\$ 545,897	\$8,472
Non-Compete Agreements	175,316	164,816	10,500	175,316	164,566	10,750
	\$729,685	\$ 711,018	\$18,667	\$729,685	\$ 710,463	\$19,222

We recorded amortization expense of \$555 during the first quarter of 2018 compared to \$444 during the first quarter of 2017. All of our intangible assets, other than goodwill, are subject to amortization under U.S. GAAP. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding 5 years is estimated to be less than \$1,000 per year.

Revenue Recognition. Our sales generally occur via two methods: (1) at the counter in our stores, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Shipping terms are normally FOB shipping point. Sales tax and comparable foreign tax is excluded from revenue.

We offer an unconditional satisfaction guarantee to our customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

Historically, the sale of gift cards has not been material to our financial condition, results of operations or cash flows. As such, prior to January 1, 2018, gift cards were recognized as sales in the period the gift card was sold. Effective January 1, 2018, in conjunction with the adoption of Accounting Standards Codification 606, "Revenue from Contracts with Customers" ("ASC 606"), we began recording a gift card liability on the date we issue a gift card to a customer. We record revenue and reduce the gift card liability as the customer redeems the gift card. In addition, for gift card breakage, we recognize a proportionate amount for the expected unredeemed gift cards over the expected customer redemption period which is one year. At March 31, 2018, our gift card liability, included in accrued expenses and other liabilities, totaled approximately \$188,000, of which approximately \$168,000 was recognized on January 1, 2018 as the cumulative effect of an accounting change.

Table of Contents

Disaggregated Revenue. In the following table, revenue is disaggregated by our major customer groups for the three months ended March 31:

	2018	2017
RETAIL (end users, consumers, individuals)	62 %	59 %
NON-RETAIL (hospitals, youth organizations, resellers, distributors, businesses)	38 %	41 %
	100 %	100 %

Note 7 contains additional disaggregated revenue information by segment and geographic area.

Comprehensive Income (loss). Comprehensive income includes net income and certain other items that are recorded directly to Stockholders' Equity. Our only source of other comprehensive income is foreign currency translation adjustments.

Recent Accounting Pronouncements. ASC 606 requires revenue to be recognized based on the amount an entity is expected to be entitled to for promised goods or services provided to customers. ASC 606 also requires expanded disclosures regarding contracts with customers. We adopted this standard effective January 1, 2018 using the modified retrospective basis which allows an adjustment to equity as of January 1, 2018 for all existing contracts and intend to apply the new standard to all new contracts that begin in 2018. Given the nature of our business and that our sales generally occur at the counter or by shipment through common carrier at observable transaction prices with little, if any, variable consideration factors, there were no significant changes to the amount and timing of revenue recognition, except for our accounting for gift cards which has been discussed above. While we offer an unconditional right of return to our customers, this has historically been immaterial to our financial condition, results of operations and cash flows (annual gross product returns represent less than 0.5% of our net sales). In conjunction with our adoption of ASC 606 on January 1, 2018, as it relates to our gift card liability, we recorded a net decrease to opening retained earnings of \$168,311 for gift cards where satisfaction of our performance obligation had not yet been completed.

In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-02, "Leases", a comprehensive new standard that amends various aspects of existing accounting guidance for leases, including the recognition of a right of use asset and a lease liability for leases with a duration greater than one year. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. We have not completed our review of the new guidance; however, we anticipate that upon adoption of the standard, using a modified retrospective approach, we will recognize additional assets and corresponding liabilities related to leases on our balance sheet.

## 2. NOTES PAYABLE AND LONG-TERM DEBT

On September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF, NA d/b/a Bank of Texas ("BOKF"), which provides us with a line of credit facility of up to \$6,000,000 and is secured by our inventory. On August 10, 2017, this line of credit was amended to extend the maturity to September 18, 2019. The Business Loan Agreement contains covenants that requires us to maintain a funded debt to EBITDA ratio of no greater than 1.5 to 1 and a "Fixed Charge Coverage Ratio" greater than or equal to 1.2 to 1. Both ratios are calculated quarterly and are based on a trailing four quarter basis. For the three-month periods ended March 31, 2018 and 2017, there were no amounts drawn on this line.

Also on September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF which provides us with a line of credit facility of up to \$10,000,000 for the purpose of repurchasing shares of our common stock pursuant to our stock repurchase program, announced in August 2015 and subsequently amended, which permits us to repurchase up to 2.2 million shares of our common stock at prevailing market prices through August 2018. On

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

August 25, 2016, this line of credit was amended to increase the availability from \$10,000,000 to \$15,000,000 for the repurchase of shares of our common stock through the earlier of August 25, 2017 or the date on which the entire amount is drawn. On August 10, 2017, this line of credit was further amended to extend the drawdown period and conversion date from August 25, 2017 to August 18, 2018 to align with our stock repurchase program. During this time period, we are required to make monthly interest-only payments. At the end of this time period, we expect that the principal balance will be rolled into a 4-year term note. This Promissory Note is secured by a Deed of Trust on the real estate located at 1900 SE Loop 820, Fort Worth, Texas. For the quarter ended March 31, 2018, we drew approximately \$541,000 on this line which was used to purchase 72,400 shares of our common stock. There were no amounts drawn on this line during the quarter ended March 31, 2017. At March 31, 2018, the unused portion of the line of credit was approximately \$7.1 million.

Amounts drawn under either Promissory Note accrue interest at the London interbank Eurodollar market rate for U.S. dollars (commonly known as "LIBOR") plus 1.85% (3.672% and 3.351% at March 31, 2018 and December 31, 2017, respectively).

At March 31, 2018 and December 31, 2017, the amount outstanding under the above agreements consisted of the following:

	2018	2017
Business Loan Agreement with BOKF – collateralized by real estate; payable as follows: Line of Credit Note, as amended, in the maximum principal amount of \$15,000,000 with features as more fully described above – interest due monthly at LIBOR plus 1.85%; matures September 18, 2022	\$7,912,670	\$7,371,730
Line of Credit Note, as amended, in the maximum principal amount of \$6,000,000 with revolving features as more fully described above – interest due monthly at LIBOR plus 1.85%; matures September 18, 2019	-	-
	\$7,912,670	\$7,371,730
Less current maturities	1,153,931	614,311
	\$6,758,739	\$6,757,419

The terms of our lines of credit contain various covenants with which we were in compliance as of March 31, 2018 and December 31, 2017.

Table of Contents

## 3. INCOME TAX

Our effective tax rate for the three months ended March 31, 2018 was 27%, compared to 28% for the same period in 2017. Our effective tax rate differs from the federal statutory rate primarily due to state income tax expense and timing of our deferred tax position, particularly in fixed assets. The federal statutory rate was reduced from 35% in 2017 to 21% in 2018 due to the Tax Cuts and Jobs Act (the "Tax Act"), which was enacted on December 22, 2017.

We have not fully completed our accounting for the income tax effects of the Tax Act. As discussed in the SEC Staff Accounting Bulletin No. 118, the accounting for the Tax Act should be completed within one year from the Tax Act enactment. During the three months ended March 31, 2018, we have made no adjustments to the provisional amounts recorded at December 31, 2017. Any adjustments to the provisional amounts recorded at December 31, 2017 will be reflected upon the completion of our accounting for the Tax Act.

In the first quarter of 2018, we also recorded an estimate of \$6,540 for the global intangible low-taxed income tax ("GILTI") for our estimated foreign earnings. This tax has been included as part of our current provision as a period cost, and we have not recognized any deferred GILTI provision as we do not expect that basis differences would be significant. This GILTI tax was created as part of the Tax Act. Accordingly, there was no such provision during the first quarter of 2017.

## 4. STOCK-BASED COMPENSATION

We have a restricted stock plan that was adopted by our Board of Directors in January 2013 and approved by our stockholders in June 2013. The plan reserves up to 300,000 shares of our common stock for restricted stock awards to our executive officers, non-employee directors and other key employees. Awards granted under the plan may be stock awards or performance awards, and may be subject to a graded vesting schedule with a minimum vesting period of four years, unless otherwise determined by the committee that administers the plan.

The fair value of restricted stock grants is based on the market value of our common stock on the date of grant. Compensation costs for these awards is recognized on a straight-line basis over the four-year vesting period.

A summary of the activity for non-vested restricted common stock awards as of March 31, 2018 and 2017 is presented below:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Our Business

To our knowledge, we are the world's largest specialty retailer of leather and leathercraft related items (based on sales), offering a wide range of leather, quality tools, hardware, accessories, liquids, lace, kits and teaching materials. We sell our products through company-owned stores and through orders generated from our website, [www.tandy-leather.com](http://www.tandy-leather.com). We have built our business by offering our customers a broad selection of quality products combined with knowledgeable store associates, in one location, at competitive prices.

We believe that the key to our success is our ability to profitably grow our base business. We expect to grow that business by opening new stores and by increasing sales in our existing stores. As of May 1, 2018, we have not yet opened any new stores in 2018 although we have plans to open one or two stores later this year.

We operate in two segments, based on management responsibility and store location: North America and International. As of May 1, 2018, our North America segment operates 115 company-owned stores located in 42 U.S. states and 7 Canadian provinces. We expect to grow the number of stores in North America to approximately 150 in the future. Our pace of store openings has recently picked up due to a change in strategy with a focus on growth.

Our International segment operates four company-owned stores with one located in each of Northampton, United Kingdom; Manchester, United Kingdom; Sydney, Australia; and Jerez, Spain. We expect to continue opening international stores in the future, but do not intend to open any new international stores in 2018.

As more fully disclosed in our Form 10-K for the year ended December 31, 2017, our long term strategy is to drive sustainable growth in traffic and sales through the implementation of a number of priorities with a goal of achieving 2020 financial targets of \$87 - \$90 million in net sales and greater than 10% operating income margins. During the first quarter of 2018, we reported a slight improvement in sales and operating income as compared to the comparable period of 2017. While that was encouraging, many of our key priorities are still being developed and we expect to see continued improvement as the year progresses.

Our customer base is diverse, with individual retail customers as our largest customer group, representing approximately 60% of our 2017 sales. The remaining 40% of our 2017 sales were to our wholesale, manufacturer and institutional groups (including horse and tack shops, Western wear, crafters, upholsterers, cobblers, auto repair, education, hospitals, prisons and other large businesses that use our products as raw materials to produce goods for resale). Generally, our retail customers provide a higher gross profit than our wholesale and manufacturer groups.

Our initiatives to increase sales include new merchandising with an expanded product line intended to grow business to our retail customers, a refocus on business development to our wholesale and manufacturer groups, improvements to our digital and e-commerce channels, as well as increasing our average ticket. We have also increased our training efforts with our store associates to strengthen their product knowledge. We believe that our store associates, armed with a solid knowledge of our extensive product line, can drive higher average tickets and traffic conversion.

We are also focusing on improving our customer experience, increasing our brand awareness, and strengthening our store performance. To help achieve those goals, in early 2017, we announced a district restructuring with our store footprint divided into fifteen districts (previously, our store footprint was divided into five regions). Each district contains six to ten stores, reporting to a district manager who is tasked with growing traffic and sales, as well as training store managers and associates to better serve our customers and succeed in today's retail environment. As of May 1, 2018, we have filled twelve of our fifteen district manager positions.

Our growth strategy has required, and is expected to continue to require, investments in our new stores, expanded inventory and merchandising, as well as operating costs for additional headcount, travel, training and marketing expenses. We believe we are investing in areas that will drive sustainable long-term growth.

Critical Accounting Policies

A description of our critical accounting policies appears in Item 7 "Management's Discussions and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. See Note 1 for disclosures related to our adoption of the new revenue recognition standard.

Results of Operations

The following tables present selected financial data for each of our segments:

	Quarter Ended March 31, 2018		Quarter Ended March 31, 2017	
	Sales	Income from Operations	Sales	Income from Operations
North America	\$19,317,260	\$1,830,659	\$19,231,714	\$1,811,563
International	971,658	(61,698 )	918,131	(74,072 )
Total	\$20,288,918	\$1,768,961	\$20,149,845	\$1,737,491

Consolidated net sales for the quarter ended March 31, 2018 increased \$139,073, or 0.7%, compared to the same period in 2017. North America and International reported sales increases of 0.4% and 5.8%, respectively. The sales increase in North America was driven by new stores, offset by a 1.2% decline in same store sales, while the sales increase in International was primarily due to foreign currency exchange. Income from operations on a consolidated basis for the quarter ended March 31, 2018 increased by 1.8%, or \$31,470, from the first quarter of 2017 primarily due to the increase in sales and gross profit, offset by an increase in operating expenses which is discussed further below.

The following table shows in comparative form our consolidated net income for the first quarters of 2018 and 2017:

	2018	2017	% change	
Net income	\$1,273,619	\$1,231,265	3.4	%

## North America

North America consisted of 115 stores at March 31, 2018 and 112 stores at March 31, 2017. Three new stores opened since March 31, 2017, which are as follows: Allen, TX in April 2017; and McAllen, TX and Miami, FL in May 2017. A store is categorized as "new" until it is operating for the full comparable period in the prior year.

	#	Qtr Ended	#	Qtr Ended		%	
	Stores	03/31/18	Stores	03/31/17	\$ Change	Change	
Same store sales	112	\$18,999,312	112	\$19,231,714	\$ (232,402)	(1.2	%)
New store sales	3	317,948	-	-	317,948	100	%
Total sales	115	\$19,317,260	112	\$19,231,714	\$ 85,546	0.4	%

The following table presents our sales mix by customer categories for the quarters ended March 31:

Customer Group	2018	2017
RETAIL (end users, consumers, individuals)	62 %	57 %
NON-RETAIL (hospitals, youth organizations, resellers, distributors, businesses)	38 %	43 %
	100 %	100 %

Income from operations for North America during the quarter ended March 31, 2018 increased by 1.1% or \$19,096 from the comparative 2017 quarter. An increase in gross profit of \$473,045 offset by an increase in operating expenses of \$453,949 contributed to the improvement in income from operations. Gross profit as a percentage of sales increased from 61.1% in the first quarter of 2017 to 63.3% in the first quarter of 2018, due to customer mix and an increase in sales of higher margin products compared to last year's first quarter. Operating expenses increased 4.6% compared to last year's comparable period. The most significant expense increases occurred in personnel, occupancy and selling costs related to the three new stores opened since the end of the first quarter last year, as well as the personnel and travel costs for twelve district managers, many of whom had not yet been placed until March and April 2017.

## International

International consists of all stores located outside of North America. As of March 31, 2018 and 2017, the segment contained four stores, two of which are located in United Kingdom and one each in Australia and Spain (there were no new or closed stores during either such period). This segment's sales totaled approximately \$972,000 for the first quarter of 2018, compared to approximately \$918,000 in the first quarter of 2017, an increase of \$54,000 or 5.9%.

The following table presents our sales mix by customer categories for the quarters ended March 31:

Customer Group	2018	2017
RETAIL (end users, consumers, individuals)	47 %	44 %
NON-RETAIL (hospitals, youth organizations, resellers, distributors, businesses)	53 %	56 %
	100 %	100 %

Gross profit margin increased from 58.1% in 2017 to 63.5% in 2018, primarily due to price changes that were implemented in Fall 2017. International's operating expenses increased by \$71,000 due to foreign currency exchange, as well as higher personnel and advertising costs. Overall, advertising and marketing expenses are this segment's largest expense, followed by employee compensation, rent, travel, and shipping costs to customers.

## Other Expenses

We paid approximately \$65,000 in interest on our bank debt in the first quarter of 2018, compared to \$36,000 in the first quarter of 2017 due to higher interest rates and higher weighted average outstanding balance in 2018 compared to 2017.

#### Income Taxes

The decrease in the effective tax rate of 27% in the first quarter of 2018 compared to 28% in the prior year period is primarily due to the new lower federal rate of 21%, offset by the addition of the new global foreign income provision, the loss of the domestic production deduction, and a lower deferred tax benefit, primarily related to fixed assets.

Capital Resources, Liquidity and Financial Condition

We require cash principally for day-to-day operations, to purchase inventory, to finance capital investments, and to service our outstanding debt. We expect to fund our operating and liquidity needs as well as our store growth from a combination of current cash balances and internally generated funds. Our cash balances at March 31, 2018 totaled \$19.3 million. In addition, we have available a \$6 million line of credit, more fully described below.

In August 2015, our Board authorized a share repurchase program where we may repurchase up to 1.2 million shares of our common stock at prevailing market rates through August 2016. Subsequently, the program was amended to increase the number of shares available for repurchase to 2.2 million and to extend the program through August 2018. For the three months ended March 31, 2018, 72,400 shares were repurchased, while no shares were repurchased during the first quarter of 2017. At March 31, 2018, there are 1,078,393 shares available for repurchase under the plan.

On September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF, NA d/b/a Bank of Texas ("BOKF") which provided us with a line of credit facility of up to \$10,000,000 for the purpose of repurchasing shares of our common stock pursuant to our stock repurchase program. On August 25, 2016, this line of credit was amended to increase the availability from \$10,000,000 to \$15,000,000 for the repurchase of shares of our common stock through the earlier of August 25, 2017 or the date on which the entire amount is drawn. On August 10, 2017, this line of credit was further amended to extend the drawdown period and conversion date from August 25, 2017 to August 18, 2018 to align with our stock repurchase program. During this time period, we are required to make monthly interest-only payments. At the end of this time period, we expect that the principal balance will be rolled into a 4-year term note. This Promissory Note is secured by a Deed of Trust on the real estate located at 1900 SE Loop 820, Fort Worth, Texas. For the quarter ended March 31, 2018, we drew approximately \$541,000 on this line which was used to purchase 72,400 shares of our common stock. There were no amounts drawn on this line during the quarter ended March 31, 2017. At March 31, 2018, the unused portion of the line of credit was approximately \$7.1 million.

Also, on September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF which provides us with a line of credit facility of up to \$6,000,000 and is secured by our inventory. On August 10, 2017, this line of credit was amended to extend the maturity to September 18, 2019. The Business Loan Agreement contains covenants that require us to maintain a funded debt to EBITDA ratio of no greater than 1.5 to 1 and a "Fixed Charge Coverage Ratio" greater than or equal to 1.2 to 1. Both ratios are calculated quarterly on a trailing four quarter basis. For the three months ended March 31, 2018 and 2017, there were no amounts drawn on this line.

Amounts drawn under either Promissory Note accrue interest at the London interbank Eurodollar market rate for U.S. dollars (commonly known as "LIBOR") plus 1.85% (3.672% and 3.351% at March 31, 2018 and December 31, 2017, respectively).

The terms of our lines of credit contain various covenants with which we were in compliance as of March 31, 2018 and December 31, 2017.

On our consolidated balance sheet, total assets increased from \$74.9 million at year-end 2017 to \$75.0 million at March 31, 2018. Total stockholders' equity increased from \$59.5 million at December 31, 2017 to \$60.2 million at March 31, 2018, primarily due to net income earned in the first three months of 2018, offset by treasury stock purchases. Our current ratio increased from 8.3 at December 31, 2017 to 8.9 at March 31, 2018 due primarily to the increase in cash and decrease in accrued expenses and other liabilities.

As of March 31, 2018, our investment in inventory decreased by \$0.5 million from year-end 2017, due to timing of purchases. We expect that our inventory levels will increase as we stock up for holiday sales, introduce new products,

and invest in new stores. At March 31, 2018, average inventory per store was \$187,000 compared to \$176,000 at December 31, 2017 as we stocked up following the holiday season.

Accounts payable was relatively flat, at \$1.4 million, from year end 2017 to March 31, 2018. Accrued expenses decreased from \$5.0 million at December 31, 2017 to \$3.9 million at March 31, 2018. The payment of the 2017 manager bonuses in March 2018 primarily accounted for the reduction.

During the first three months of 2018, cash flow provided by operating activities was \$1.2 million, composed of net income of \$1.3 million, plus \$0.5 million of depreciation and amortization, offset by changes in working capital including a decrease in inventory levels and payments of 2017 bonuses.

By comparison, during the first three months of 2017, cash flow provided by operating activities was approximately \$0.2 million, composed of net income of \$1.2 million, plus \$0.5 million of depreciation and amortization, offset by the increase in inventory of \$1.2 million and payments of 2016 bonuses.

Cash flow used in investing activities totaled approximately \$0.2 million and \$0.6 million in the first quarter of 2018 and 2017, respectively, consisting primarily of the purchase of fixtures for new stores, store moves and remodels and computer equipment, and in 2017, vehicles and computer equipment for our new district managers.

During the first quarter of 2017, we funded \$0.5 million of treasury share purchases with proceeds from our line of credit. In the comparable period in 2017, there were no financing activities.

Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of March 31, 2018, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended March 31, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
