### ELBIT SYSTEMS REPORTS THIRD QUARTER 2010 RESULTS

Backlog of orders increased to \$5.38 billion;  
Revenues at \$649.9 million; Net income at \$45.3 million;  
Diluted net earnings per share at \$1.05

Haifa, Israel, November 16, 2010 – Elbit Systems Ltd. (the "Company") (NASDAQ and TASE: ESLT), the international defense electronics company, today reported its consolidated financial results for the third quarter ended September 30, 2010.

Revenues in the third quarter of 2010 were \$649.9 million, as compared to \$732.5 million in the third quarter of 2009. The decrease in revenues during the third quarter of 2010, compared with that of the third quarter last year, was mainly in the electro-optics and armored vehicle systems areas of operations, primarily in Europe.

Gross profit amounted to \$197.9 million (30.5% of revenues) in the third quarter of 2010, as compared to \$217.3 million (29.7% of revenues) in the third quarter of 2009. The decrease in the amount of gross profit from that of the corresponding quarter last year primarily resulted from the reduction in revenues. The improvement in margins was mainly a result of mix of the programs sold in the quarter and improvements in operations.

Research and development expenses, net were \$56.1 million (8.6% of revenues) in the third quarter of 2010, as compared to \$56.0 million (7.6% of revenues) in the third quarter of 2009.

Marketing and selling expenses were \$59.1 million (9.1% of revenues) in the third quarter of 2010, as compared to \$67.1 million (9.2% of revenues) in the third quarter of 2009.

General and administrative expenses were \$30.2 million (4.7% of revenues) in the third quarter of 2010, as compared to \$28.5 million (3.9% of revenues) in the third quarter of 2009.

Financial expenses, net were \$5.5 million in the third quarter of 2010, as compared to net financial expenses of \$0.6 million in the third quarter of 2009, which were relatively low due to currency hedging related gains.

Taxes on income were \$4.8 million (effective tax rate of 10.1%) in the third quarter of 2010, as compared to taxes on income of \$11.4 million (effective tax rate of 17.6%) in the third quarter of 2009. The change in the effective tax rate was attributable mainly to the mix of the tax rates in the various jurisdictions in which the Company's entities generate taxable income.

Equity in net earnings of affiliated companies and partnerships was \$3.9 million (0.6% of revenues) in the third quarter of 2010, as compared to \$6.2 million (0.8% of revenues) in the third quarter of 2009.

Net income attributable to non-controlling interests was \$1.1 million in the third quarter of 2010, as compared to \$1.4 million in the third quarter of 2009.

Net income attributable to the Company's ordinary shareholders in the third quarter of 2010 amounted to \$45.3 million (7.0% of revenues), as compared to \$58.3 million (8.0% of revenues) for the third quarter of 2009.

Diluted net earnings per share attributable to the Company's ordinary shareholders were \$1.05 for the third quarter of 2010, as compared with \$1.35 for the third quarter of 2009.

The Company's backlog of orders increased to \$5,381 million as of September 30, 2010, as compared with \$5,044 million as of December 31, 2009. Approximately 72% of the backlog relates to orders outside of Israel. Approximately 52% of the Company's backlog as of September 30, 2010, is scheduled to be performed during the last quarter of 2010 and in 2011.

Operating cash flow was \$73.6 million in the first nine months of 2010, as compared to \$127.0 million in the first nine months of 2009.

("U-TacS"), was awarded by Thales UK a follow-on Urgent Operating Capability ("UOR") contract worth approximately \$70 million to provide an Intelligence, Surveillance, Target Acquisition and Reconnaissance support capability for the UK Armed Forces. The contract will be performed over the next one and a half years. As was the case with the previous U-TacS UOR contracts, awarded in 2007 and 2009, this contract also includes the provision and support of Hermes(R) 450 UAS, as well as training for UK Ministry of Defence staff in the use and maintenance of the system, and the provision of contractor logistic support and program management services. This work will be managed by U-TacS located in Leicester, UK.

Management Comment:

The President and CEO of Elbit Systems, Joseph Ackerman, commented: "2010 has been a challenging year, reflecting the influence of the changing financial climate on our end-customers. Throughout this year, we have invested in our longer-term growth strategy through mergers and acquisitions, which provide us access to new markets and allow us to sell increasingly integrated systems. We have recently completed the acquisition of Soltam, Saymar and ITL, adding to our capabilities in artillery platforms and electro-optics. We will continue to look globally for similar opportunities, in strategic target markets such as the U.S. and others."

Ackerman added, "Over the past challenging months, we have focused our efforts and have successfully maintained and even improved our gross margins, and have also resumed our backlog growth. We believe that these efforts and investments will support renewed growth in future years."
