MIDDLESEX WATER CO
Form 10-Q/A
April 14, 2004

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q/A
QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For Quarter Ended: March 31, 2003
Commission File No. 0-422

MIDDLESEX WATER COMPANY
(Exact name of registrant as specified in its charter)

INCORPORATED IN NEW JERSEY
(State or other jurisdiction of incorporation or organization)
22-1114430
(I.R.S. Employer Identification No.)

1500 RONSON ROAD, ISELIN, NJ
(Address of principal executive offices)
08830
(Zip Code)

(732) 634-1500
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that this registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 30 days.

YES . NO .

Indicate by check mark whether the registrant is an accelerated filer (as defined in Rule 12-2 of the Securities Exchange Act of 1934). Yes No

Indicate the number of shares outstanding of each of the Issuer's classes of common stock, as of the latest practicable date.

Class -----	Outstanding at March 31, 2003 -----
Common Stock, No Par Value	7,810,409

Explanatory Note - Restatement of condensed consolidated financial statements

The condensed consolidated financial statements as of March 31, 2003 and December 31, 2002 and for the three and twelve month periods ended March 31, 2003 and 2002, included in this Quarterly Report on Form 10-Q/A have been restated as discussed in Note 6 to the condensed consolidated financial statements.

For purposes of this Form 10-Q/A, and in accordance with Rule 12b-15 under the Securities Exchange Act of 1934, as amended, each item of the Form 10-Q for the quarter ended March 31, 2003 as originally filed on May 12, 2003 that was affected by the restatement has been amended to the extent affected and restated in its entirety. NO ATTEMPT HAS BEEN MADE IN THIS FORM 10-Q/A TO MODIFY OR UPDATE OTHER DISCLOSURES AS PRESENTED IN THE ORIGINAL FORM 10-Q EXCEPT FOR UPDATES MADE TO PART I, ITEM 4, PART II ITEM 6(a) AND EXHIBITS 31, 31.1, 32 AND

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

Organization - Middlesex Water Company (Middlesex) is the parent company and sole shareholder of Tidewater Utilities, Inc. (Tidewater), Pinelands Water Company, Pinelands Wastewater Company, Utility Service Affiliates, Inc. (USA), Utility Service Affiliates (Perth Amboy) Inc. (USA-PA) and Bayview Water Company. Southern Shores Water Company, LLC and White Marsh Environmental Systems, Inc. are wholly-owned subsidiaries of Tidewater. The financial statements for Middlesex and its wholly owned subsidiaries (the Company) are reported on a consolidated basis. All significant intercompany accounts and transactions have been eliminated.

The consolidated notes within the Form 10-K are applicable to these financial statements and, in the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2003 and the results of operations and its cash flows for the periods ended March 31, 2003 and 2002. Information included in the Balance Sheet at December 31, 2002, has been derived from the Company's audited, restated financial statements for the year ended December 31, 2002. Certain reclassifications of prior period data have been made to conform with current presentation.

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q/A

Note 2 - Capitalization

Common Stock - During the three months ended March 31, 2003, there were 43,042 common shares (\$0.9 million) issued under the Company's Dividend Reinvestment and Common Stock Purchase Plan. The increase in participation in this Plan can be attributed to the 5% discount on optional cash payments and reinvested dividends that began on February 28, 2003. The discount is scheduled to continue until the earlier of September 2, 2003 or when 150,000 shares are issued during the discount period.

Long-term Debt - Tidewater received approval from the Delaware Public Service Commission (PSC) to borrow \$13.8 million to fund a portion of its multi-year capital program and refinance some its short-term debt. Subsequent to the PSC approval, in April 2003, Tidewater closed on a Delaware State Revolving Fund (SRF) loan of \$3.3 million. The Delaware SRF program will allow, but does not obligate, Tidewater to draw down against a General Obligation Note for six specific projects. Tidewater will be charged an annual fee, which is a combination of interest charges and administrative fees, of 3.60% on the outstanding principal amount. All unpaid principal and fees must be paid on or before May 1, 2025. Tidewater is in the process of completing a loan transaction of \$10.5 million with CoBank, a financial institution specializing in loans to rural utilities. Terms of the loan include a maximum loan life of twenty-five years with monthly principal payments. The proceeds will be used to retire short-term debt. The CoBank loan is expected to close in May 2003.

-6-

Note 3 - Earnings Per Share

Basic earnings per share (EPS) are computed on the basis of the weighted average number of shares outstanding. Diluted EPS assumes the conversion of both the Convertible Preferred Stock \$7.00 Series and the Convertible Preferred Stock \$8.00 Series.

	(In Thousands Except for per Share Amounts)					
	Three Months Ended				Twelve Months Ended

Diluted EPS	\$ 0.15		\$ 0.16		\$ 0.96		\$

Note 4 - Business Segment Data

The Company has identified two reportable segments. One is the regulated business of collecting, treating and distributing water on a retail and wholesale basis to residential, commercial, industrial and fire protection customers in parts of New Jersey and Delaware. It also operates a regulated wastewater system in New Jersey. The Company is subject to regulations as to its rates, services and other matters by the States of New Jersey and Delaware with respect to utility service within these States. The other segment is the non-regulated contract services for the operation and maintenance of municipal and private water and wastewater systems in New Jersey and Delaware. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in the consolidated notes to the financial statements included in the Form 10-K. Inter-segment transactions relating to operational costs are treated as pass through expenses. Finance charges on inter-segment loan activities are based on interest rates that are below what would normally be charged by a third party lender.

-8-

Note 5 - Commitments and Contingent Liabilities

Litigation - A claim is pending against the Company for damages in excess of \$10.0 million involving the break of both a Company water line and an underground electric power cable in close proximity to it. The power cable contained both electric lines and petroleum based insulating fluid. The Company is insured for damages except for damages resulting from pollution discharge, which the Company is advised is approximately \$0.2 million. Causation and liability have not been established. Management is unable to determine the outcome of the litigation and its impact on the financial conditions or results of operations.

A claim is pending involving a construction subcontractor, the Company's general contractor and the Company concerning a major construction project. The dispute relates to work required to be performed under a construction contract and

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q/A

related subcontracts and includes payment issues and timing/delay issues. The matter was instituted in 2001 and is pending in Superior Court, Middlesex County, New Jersey. The full amount at issue is not fully known at this stage of the litigation. At this time, management is unable to determine the impact, if any, on the financial statements.

Note 6 - Restatement of Condensed Consolidated Financial Statements

The condensed consolidated financial statements as of March 31, 2003 and December 31, 2002 and for the three and twelve month periods ended March 31, 2003 and 2002 have been restated to correct the classification of certain amounts. The reclassifications were made to present the amount of Restricted Cash as a non current asset rather than a current asset in the condensed consolidated balance sheets at March 31, 2003 and December 31, 2002, and to present changes in Restricted Cash related to capital expenditures as an investing activity rather than a financing activity in the condensed consolidated statements of cash flows for the three and twelve month periods ended March 31, 2003 and 2002. Previously, such amounts and changes in amounts therein were presented as Temporary Cash Investments - Restricted. Those amounts and changes in those amounts are currently described as Restricted Cash. The restatement had no effect on reported total assets, net income, earnings applicable to common stock, cash flows from operations or liquidity.

A summary of the effects of the restatement is as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The condensed consolidated financial statements as of March 31, 2003 and December 31, 2002 and for the three and twelve month periods ended March 31, 2003 and 2002, included in this Quarterly Report on Form 10-Q/A have been restated as discussed in Note 6 to the condensed consolidated financial statements. For purposes of this Form 10-Q/A, and in accordance with Rule 12b-15 under the Securities Exchange Act of 1934, as amended, each item of the Form 10-Q for the quarter ended March 31, 2003 as originally filed on May 12, 2003 that was affected by the restatement has been amended to the extent affected and restated in its entirety. NO ATTEMPT HAS BEEN MADE IN THIS FORM 10-Q/A TO MODIFY OR UPDATE OTHER DISCLOSURES AS PRESENTED IN THE ORIGINAL FORM 10-Q, EXCEPT FOR UPDATES MADE TO PART I, ITEM 4, PART II ITEM 6(a) AND EXHIBITS 31, 31.2, 32 AND 32.1.

Results of Operations - Three Months Ended March 31, 2003

Operating revenues for the three months ended March 31, 2003 were up \$0.8 million or 5.3% from the same period in 2002. Higher base rates in Delaware service territories provided \$0.1 million of the increase along with \$0.2 million increase in consumption and connection fees. Consumption increased by \$0.2 million in our New Jersey systems. Service fees from our operations and maintenance contracts rose \$0.3 million due to an increase in fees under the City of Perth Amboy contract.

Operating expenses increased \$0.9 million or 7.6%. Operations and maintenance (O & M) expenses increased \$0.9 million or 11.6% over the prior period. There were higher sewer costs of \$0.3 million for USA-PA. Costs relating to main breaks resulting from severe winter weather conditions in the first quarter of 2003 contributed to additional O & M expenses of \$0.3 million. Increases in audit fees, legal fees and employee benefits pushed up O & M costs by \$0.2 million. All other costs of operations increased by \$0.1 million.

Income taxes decreased \$0.1 million or 10.4%, reflecting a lower amount of current taxable income.

-10-

Even though there is a higher level of long-term and short-term debt outstanding compared to last year, lower interest rates on short-term debt and the refinancing of \$6.0 million of long-term debt at a lower rate helped to reduce the interest expense by \$0.1 million or 6.7%.

Net income decreased by 4.1% to \$1.2 million and basic and diluted earnings per share decreased to \$0.15 from \$0.16 per share.

Results of Operations - Twelve Months Ended March 31, 2003

Operating revenues for the twelve months ended March 31, 2003 were up \$2.0 million to \$62.7 million amounting to a 3.2% increase. Higher consumption in Delaware of \$1.4 million contributed to additional revenue. Fueling the consumption growth in Delaware was the 10.0% increase in the customer base since March 2002. Rate increases accounted for \$0.5 million and increased consumption account for \$0.9 million. Service fees from our operations and maintenance contracts rose \$0.5 million due to an increase in fees earned under the City of Perth Amboy contract. Lower consumption in our New Jersey service territories

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q/A

led to a \$0.2 million decrease in operating revenues. The \$0.3 million balance of the increase is the result of the acquisition of the Southern Shores water utility.

Operating expenses increased \$1.6 million or 3.2%. Operations and maintenance expenses increased \$1.7 million or 5.4%. There were higher sewer costs of \$0.5 million for USA-PA. Costs relating to main breaks resulting from severe winter weather conditions in the first quarter of 2003 contributed to additional O & M expenses of \$0.3 million. Increased labor and operating costs associated with the increased consumption in the Delaware operations amounted to \$0.5 million. Increases in audit fees and employee benefits pushed up O & M costs by \$0.4 million.

Other taxes increased by \$0.1 million due to higher payroll related taxes. Income taxes decreased \$0.1 million or 1.8%.

Net income increased 5.0% to \$7.7 million. Basic and diluted earnings per share increased by 3.2% to \$0.96 per share.

Capital Resources

The Company's capital program for 2003 is estimated to be \$30.5 million and includes \$17.9 million for water system additions and improvements for our Delaware systems, \$3.0 million for the RENEW Program, which is our program to clean and cement line approximately nine miles of unlined mains in the Middlesex System. There is a total of approximately 143 miles of unlined mains in the 730 mile Middlesex System. Additional expenditures on the upgrade to the CJO Plant are estimated at \$2.3 million. The capital program also includes \$7.3 million for scheduled upgrades to our existing systems in New Jersey. The scheduled upgrades consist of \$0.8 million for mains, \$0.9 million for service lines, \$0.3 million for meters, \$0.3 million for hydrants, \$1.2 million for distribution system improvements, \$0.1 million for computer systems and \$3.7 million for various other items.

Liquidity

The capital program in Delaware will be financed through a combination of a capital contribution and short-term debt financing from Middlesex, as well as long-term financing through the State Revolving Fund (SRF) in Delaware. Middlesex, Tidewater and Bayview each have secured long-term financing with their respective state agencies for certain capital projects. SRF provides low cost financing for projects that meet certain water quality improvement benchmarks. The proceeds from those loans will be used in 2003 through 2005. See Note

-11-

2 to the Condensed Consolidated Financial Statements. Other capital expenditures will be financed through internally generated funds and sale of common stock through the Dividend Reinvestment and Common Stock Purchase Plan (DRP). Capital expenditures of \$3.8 million have been incurred in the three months ended March 31, 2003. The Company will also utilize short-term borrowings through \$30.0 million of available lines of credit it has with three commercial banks for working capital purposes. At March 31, 2003, there was \$18.5 million outstanding against the lines of credit.

Forward-Looking Information

Certain matters discussed in this report on Form 10-Q/A are "forward-looking statements" intended to qualify for safe harbors from liability established by

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q/A

the Private Securities Litigation Reform Act of 1995. Such statements may address future plans, objectives, expectations and events concerning various matters such as capital expenditures, earnings, litigation, growth potential, rate and other regulatory matters, liquidity, capital resources and accounting matters. Actual results in each case could differ materially from those currently anticipated in such statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures of Market Risk

The Company is subject to the risk of fluctuating interest rates in the normal course of business. Our policy is to manage interest rates through the use of fixed rate, long-term debt and, to a lesser extent, short-term debt. The Company's interest rate risk related to existing fixed rate, long-term debt is not material due to the term of the majority of our First Mortgage Bonds, which have maturity dates ranging from 2009 to 2038. Over the next twelve months, approximately \$0.5 million of the current portion of six existing long-term debt instruments will mature. Applying a hypothetical change in the rate of interest charged by 10% on those borrowings would not have a material effect on earnings.

Item 4. Controls and Procedures

Subsequent to the evaluation referenced in Middlesex Water Company's Quarterly report on Form 10-Q filed May 14, 2003, the Company has re-evaluated the effectiveness of the design and operation of its disclosure controls and procedures. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Chief Financial Officer. Based upon the re-evaluation, the Company's Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Report. There have been no significant changes in the Company's internal controls or in other factors which could significantly affect internal controls subsequent to the date the Company carried out its re-evaluation except for the following change in internal controls over financial reporting.

Management has identified a significant deficiency in the operation of internal controls over financial reporting relating to the classification of cash restricted for construction projects on the Consolidated Balance Sheet and the change in cash restricted for construction projects on the Consolidated Statements of Cash Flows. As a result thereof, management has expanded its periodic review process of asset classification and the appropriate presentation of changes in such assets to enhance the reliability and effectiveness of the financial reporting process.

-12-

Based upon the foregoing, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's internal controls over financial reporting are effective in meeting the objectives as described below based on the aforementioned changes in internal controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q/A

Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding disclosure.
