Retail Rate Matters

See MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - FERC and State PSC Matters - Retail Rate Matters of Southern Company and MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - FERC and Georgia PSC Matters - Retail Rate Matters of Georgia Power and Retail Rate Matters in Note (B) to the financial statements of each company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2009 (the Form 10-Q) for a discussion of Georgia Power's filing of a request with the Georgia PSC for an accounting order that would allow Georgia Power to amortize approximately \$324 million of its regulatory liability related to other cost of removal obligations (the Accounting Order Request). Under the Accounting Order Request, the regulatory liability would be amortized ratably over the 18-month period from July 1, 2009 through December 31, 2010 as a reduction to operating expenses.

Edgar Filing: GEORGIA POWER CO - Form 8-K

On August 27, 2009, the Georgia PSC issued an order approving a Stipulation between Georgia Power and the Georgia PSC Public Interest Advocacy Staff resolving the Accounting Order Request (the Order). Under the terms of the Order, if Georgia Power does not file for a retail base rate increase in 2009, Georgia Power will be entitled to amortize up to one-third of the regulatory liability (\$108 million) in 2009. In addition, Georgia Power will be entitled to amortize up to two-thirds of the regulatory liability (\$216 million) in 2010. In the event Georgia Power files for a retail base rate increase prior to July 1, 2010, then the amortization of the regulatory liability in 2010 would be reduced by one-sixth for each month that such rate case is filed prior to July 1, 2010.

Furthermore, the amortization of the regulatory liability is limited to only the amount that would allow Georgia Power to earn a retail return on equity (ROE) not more than 9.75% in 2009 and 10.15% in 2010. In addition, Georgia Power may not file for a base rate increase prior to July 1, 2010 unless economic conditions beyond its control continue to reduce Georgia Power's projected retail ROE and in no event unless Georgia Power's projected retail ROE for 2009 or 2010 is less than 9.25% after taking into consideration amortization of the regulatory liability.
