**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

On February 25, 2005, management of Collins Industries, Inc. (the "Company") determined that the Company's historical financial statements for fiscal years 2002 and 2003 should be restated to correct the manner in which the Company had established and recorded reserves for specific workers' compensation claims in Florida and Kansas. In addition, the Company's previously released financial information for fiscal 2004 will also be restated. The Company has discovered issues with workers compensation claims for injuries dating back to 1992. Therefore, a cumulative adjustment for periods prior to 2002 also is expected.

The Company's management reached this conclusion following a detailed review of workers compensation claims and historical reserves. The Company's Audit Committee hired an independent third party administrator and independent legal counsel to assist in its investigation of the reserves.

As a result of the Company's determination to restate its consolidated financial results as discussed above, the financial statements for fiscal years 2002 and 2003, and the previously released financial information for fiscal 2004, should no longer be relied upon.

The Company's management has discussed the matters disclosed in this Form 8-K with the Chairman of the Company's Audit Committee and the Company's independent auditors. The Company's independent auditors concur with this decision.

The Company issued a press release on March 2, 2005 regarding this matter. A copy of the press release is attached hereto as Exhibit 99.1 and incorporated herein by this reference.
