Riverview Bancorp Earns \$8.6 Million in Fiscal 2008
Net Loans Increased 11% to \$757 Million

Vancouver, WA – May 5, 2008 – Riverview Bancorp, Inc. (NASDAQ GSM: RVSB) today reported results for fiscal year end and fourth quarter ended March 31, 2008. “The Northwest economy has been impacted by the real estate slowdown that is affecting the whole country, but our local markets remain among the best in the USA”, said Pat Sheaffer, Chairman and CEO. “Riverview, in many ways, is as strong or stronger than the previous year, which was our best year ever. Strength in our local markets, growth in customers, our balance sheet, and our multiple sources of revenue, create opportunities for Riverview in our market area.”

Fourth quarter net income was \$1.2 million, or \$0.11 per diluted share, compared to \$2.8 million, or \$0.24 per diluted share, in the fourth quarter of fiscal 2007. A \$1.8 million provision for loan losses in the fourth quarter 2008, compares to a \$100,000 provision in fourth quarter 2007. For fiscal year 2008, net income was \$8.6 million, or \$0.79 per diluted share, compared to \$11.6 million, or \$1.01 per diluted share, in fiscal 2007. Again, the 2008 provision of \$2.9 million compared to the 2007 provision of \$1.4 million explains most of the difference.

“In fiscal 2008 changes in the economy affected the local markets that we served. While loan growth has remained strong, we have seen a marked slowdown in residential real estate sales in all our markets which directly impacted our land development and speculative construction lending,” said Sheaffer. “We believe our actions to strengthen our allowance for loan losses and address these issues immediately is prudent for our future success. Even with these aggressive steps to meet credit quality concerns, our fourth quarter and fiscal 2008 results show that we remain well positioned to pursue our strategies for growth over the long term.”

“The local housing markets have slowed to a more moderate pace compared to the last few years and as a result, our one-to-four family real estate construction portfolio is now down to \$93 million from \$110 million a year ago,” said Ron Wysaske, President and COO. “Despite the slowing housing market, population growth in the Southwest Washington and metropolitan Portland, Oregon area remains strong. We will continue to focus on our customers’ needs in order to expand our existing relationships while looking to add new customers. We believe this presents an excellent opportunity for us to grow in fiscal 2009.”

Fiscal 2008 Highlights (at or for the period ended March 31, 2008, compared to March 31, 2007)

- Net income was \$8.6 million, or \$0.79 per diluted share.
- Added \$1.5 million more to the loan loss provision than a year ago.
- Net interest margin was 4.66% for the year.
- Net loans increased 11% to \$757 million.
- Riverview Asset Management Corp. increased assets under management 16% to \$330.5 million.
- Asset management fees increased 14% to \$2.1 million.

- Capital position remains strong – Riverview remains “well-capitalized” with the total capital ratio at 10.99%.

Credit Quality

“We have always placed a strong emphasis on managing asset quality by applying a disciplined approach to the approval process and monitoring the loan portfolio for signs of deterioration,” said Wysaske. “Since we have recently seen an increase in nonperforming loans, we proactively added to our reserves for possible loan losses.” As expected, non-performing assets increased to \$8.2 million, or 0.92% of total assets, at March 31, 2008, compared to \$1.1 million, or 0.14% of total assets, at December 31, 2007 and \$226,000, or 0.03% of total assets, at March 31, 2007. The increase is comprised primarily of three borrowers, which include one land development loan for \$3.9 million, one commercial loan

for \$1.1 million and two construction loans to the same borrower for \$1.9 million. Riverview had a total of \$7.7 million in non-performing loans and \$494,000 in other real estate owned (OREO) at the end of March 2008. The allowance for loan losses, including unfunded loan commitments of \$337,000, was \$11.0 million, or 1.44% of net loans at year end, compared with \$9.9 million, or 1.37% of total loans at December 31, 2007, and \$9.0 million, or 1.31% of net loans, a year ago. Management believes the allowance for loan losses is adequate and appropriate based on its current analysis of the loan portfolio's credit quality and current economic conditions. Net loan charge-offs were \$866,000, or 0.11% of total loans, for the year ended March 31, 2008.

Operating Results

For the fourth quarter of fiscal 2008, the net interest margin was 4.41% compared to 4.71% in the previous linked quarter and 4.95% in the fourth fiscal quarter a year ago. For fiscal 2008, the net interest margin was 4.66% compared to 5.01% in fiscal 2007. "Margin compression continued to be a challenge for Riverview, as well as the entire banking industry. We expect improved spreads in light of the Federal Reserve rate cuts in January and March, and anticipate our margin will stabilize as our interest-bearing deposits re-price," said Wysaske.

Net interest income in the fourth fiscal quarter of 2008 was \$8.6 million compared to \$9.1 million in the fourth fiscal quarter a year ago, largely due to interest-bearing assets re-pricing down faster than interest-bearing liabilities as a result of the recent Federal Reserve rate cuts. Non-interest income was unchanged at \$2.2 million for the quarter, compared to the same quarter a year ago.

For fiscal 2008, net interest income was \$35.0 million, compared to \$36.5 million in fiscal 2007. Non-interest income was \$8.9 million for the year compared to \$9.0 million a year ago. "Although fee income from Riverview Asset Management Corp. increased 14% during the year, it was offset by declining mortgage broker loan fees reflecting the continued slowdown in the real estate market," added Wysaske.

"During the fourth fiscal quarter we moved into our new Hazel Dell branch, which replaced an existing branch. In the third quarter we opened a new lending center in Clackamas, Oregon, which houses three commercial lending officers, creating our second lending center to serve the east Portland area," said Sheaffer. "The hiring of these additional quality lenders has helped contribute to our continued loan growth in the fourth quarter and we believe will generate a good deal of new business in the future." Non-interest expenses were \$7.2 million in the fourth quarter of fiscal 2008, and \$27.8 million for the fiscal year, compared to \$6.9 million and \$26.4 million for the respective periods a year ago, reflecting the opening of new facilities and the continued expansion of the lending team.

The efficiency ratio was 66.46% for the fourth quarter, compared to 60.75% in the fourth quarter a year ago and 63.40% for all of fiscal 2008, compared to 57.85% a year ago. "The increase in our efficiency ratio reflects the decline in net interest margin and the increase in non-interest expense due to our new facilities and expanded lending team," said Wysaske. "As we grow into our increased capacity we expect our efficiency ratio will improve."

Riverview's return on average assets was 0.54% for the fourth quarter and 1.04% for the year, compared to 1.36% and 1.43% for the fourth quarter and full year fiscal 2007. Return on average equity was 4.92% for the quarter and 8.92% for fiscal 2008, compared to 11.11% and 11.88%, respectively, for the same periods last year.

Balance Sheet Growth

Total assets increased 8% to \$887 million at March 31, 2008, compared to \$820 million a year ago.

“The recent growth in our loan portfolio is a direct result of the expansion of the lending team throughout the year,” Wysaske said. “Our plan remains to keep a well-diversified, high quality loan portfolio.” Net loans were up 11% to \$757 million at March 31, 2008, compared to \$683 million a year ago and up \$41 million, or 6%, over the linked December 2007 quarter end. At March 31, 2008, commercial loans and construction loans accounted for 70% and 19%, respectively, of our total loan portfolio compared to 65% and 24% at March 31, 2007.

Riverview does not have sub-prime residential real estate in its loan portfolio and does not believe that it has any exposure to sub-prime lending in its Mortgage Backed Securities portfolio.

“We are continuing to expand our commercial banking products by offering remote deposit capture of checks to selected customers and enhancing our cash management product line, in an effort to grow our core deposit business,” added Wysaske. Total deposits were \$667 million at March 31, 2008, compared to \$665 million a year ago. On a linked quarter basis, total deposits increased \$44 million, or 7% over the past three months. Non-interest checking balances represent 12% of total deposits and interest checking balances represent 15% of total deposits. Core deposits, defined as all deposits excluding certificates of deposit, were \$401 million at the end of March 2008, and represent 60% of total deposits.
