CAL WATER ANNOUNCES FIRST QUARTER 2005 RESULTS;  
BOARD DECLARES 242nd CONSECUTIVE QUARTERLY DIVIDEND

-----

SAN JOSE, CA - California Water Service Group (NYSE : CWT) today announced net income of \$0.7 million and earnings of \$0.03 per share for the first quarter of 2005, compared to net income of \$1.4 million or \$0.08 per share in the first quarter of 2004.

Revenue was basically flat for the quarter at \$60.3 million. Rate increases added \$2.0 million to revenue and sales to new customers added \$0.8 million, but higher than average precipitation resulted in a \$2.8 million decline in sales to existing customers.

According to President and Chief Executive Officer Peter C. Nelson, first quarter 2005 results were lower principally due to reduced usage from higher rainfall. In addition, significant credits were received from certain wholesale suppliers in the first quarter of 2004 which were not received in the first quarter of 2005.

"The first quarter is typically a low earnings period for us because of the weather, and we experienced heavy rainfall in the Southern California districts," Nelson said. "Our continued efforts to secure fair and timely rate relief, add customers, and operate efficiently will be critical to our performance for the year," he said.

Total operating expenses for the first quarter of 2005 increased 2%, or \$1.0 million. Water production costs decreased by \$1.3 million or 6%, because less water was produced as a result of higher rainfall. Included in the first quarter of 2004 was a credit received from certain wholesale water suppliers in Southern California for \$1.4 million and a charge for \$0.8 million to resolve a meter reading malfunction matter in the Stockton district. First quarter 2005 water production costs did not contain similar items.

Excluding water production costs, other operations expenses increased \$1.6 million or 8%. The increased expenses were primarily due to costs

## Edgar Filing: CALIFORNIA WATER SERVICE GROUP - Form 8-K

associated with payroll, medical claims, pension, and outside services.

Maintenance expense increased \$0.5 million, or 15%, for the quarter due to higher repair costs for mains and pumping equipment. Depreciation expense increased \$0.5 million, or 7%, due to 2004 capital expenditures. Income taxes were lower by \$0.5 million, or 53%, due to lower taxable income. Property and other taxes increased \$0.3 million or 10%.

At their meeting today, Directors declared the 242nd consecutive quarterly dividend on common stock. The quarterly dividend of \$0.285 is payable on May 20, 2005, to stockholders of record on May 9, 2005. The regular dividend on Series C preferred stock was also declared.

California Water Service Group is the parent company of California Water Service Company, Washington Water Service Company, New Mexico Water Service Company, Hawaii Water Service Company, Inc., and CWS Utility Services. Together these companies provide regulated and non-regulated water service to more than 2 million people in 100 California, Washington, New Mexico, and Hawaii communities. Group's common stock trades on the New York Stock Exchange under the symbol "CWT".

This news release contains forward-looking statements within the meaning established by the Private Securities Litigation Reform Act of 1995 ("Act"). The forward-looking statements are intended to qualify under provisions of the federal securities laws for "safe harbor" treatment established by the Act. Forward-looking statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about the Company, the water utility industry and general economic conditions. Such words as expects, intends, plans, believes, estimates, assumes, anticipates, projects, predicts, forecasts or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. They are subject to uncertainty and changes in circumstances. Actual results may vary materially from what is contained in a forward-looking statement. Factors that may cause a result different than expected or anticipated include: governmental and regulatory commissions' decisions, including decisions on proper disposition of property; changes in regulatory commissions' policies and procedures; the timeliness of regulatory commissions' actions concerning rate relief; new

legislation; the ability to satisfy requirements related to the Sarbanes-Oxley Act and other regulations on internal controls; electric power interruptions; increases in suppliers' prices and the availability of supplies including water and power; fluctuations in interest rates; changes in environmental compliance and water quality requirements; acquisitions and our ability to successfully integrate acquired companies; the ability to successfully implement business plans; changes in customer water use patterns; the impact of weather on water sales and operating results; access to sufficient capital on satisfactory terms; civil disturbances or terrorist threats or acts, or apprehension about the possible future occurrences of acts of this type; the involvement of the United States in war or other hostilities; restrictive covenants in or changes to the credit ratings on our current or future debt that could increase our financing costs or affect our ability to borrow, make payments on debt or pay dividends; and, other risks and unforeseen events. When considering forward-looking statements, you should keep in mind the cautionary statements included in this paragraph. For additional information relating to the risks of the Company's business see "Risk Factors" in the Company's Annual Report on Form 10-K. The Company assumes no obligation to provide public updates of forward-looking statements.
