ALUVALE Acquires Mineracao Vera Cruz

Rio de Janeiro, July 1, 2002 - Companhia Vale do Rio Doce (CVRD) informs that its subsidiary, Vale do Rio Doce Alumínio S.A. - ALUVALE (Aluvale), acquired 64% of the total capital of its affiliated company, Mineracao Vera Cruz S.A. (MVC), which was previously held by the Paranapanema Group, for R\$ 6,403,936.00. With this acquisition, Aluvale will hold 100% of MVC.

MVC holds 18 active mining rights in the Paragominas region, in the state of Para, with total metallurgical bauxite resources estimated at 878 million tons. These reserves are located near to CVRD's mineral resources and, when combined, will constitute one of the world's largest bauxite reserves.

The strategic location of these resources, located approximately 250 km from ALUNORTE - Alumina do Norte do Brasil S.A. (Alunorte), will increase flexibility in the utilization of CVRD's existing logistics infrastructure. Furthermore, the Paragominas bauxite has a world class quality. These characteristics make this acquisition very important, as the development of these reserves will support Alunorte's forthcoming expansions.

This transaction is part of the implementation of CVRD's strategy for its aluminum business, which is focused on the exploration of profitable growth opportunities on bauxite and alumina.
