Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On September 23, 2011, Charles River Laboratories International, Inc. ("Charles River" or the "Company") amended and restated its existing credit agreement with certain financial institutions and JPMorgan Chase Bank, N.A. as administrative agent (the "Fourth Amended and Restated Credit Agreement"). The Fourth Amended and Restated Credit Agreement (1) modified the interest rates applicable to the term loans and the revolving loans based on the Company's leverage ratio, (2) extended the maturity date for the facilities by about one year and (3) made certain other amendments. The obligations of Charles River under the Fourth Amended and Restated Credit Agreement are guaranteed by Charles River's material domestic subsidiaries and are secured by substantially all of the assets of Charles River and the guarantors, including a pledge of 100% of the capital stock of the domestic subsidiaries (other than the capital stock of any domestic subsidiary that is treated as a disregarded entity for U.S. federal income tax purposes ("Disregarded Entities")) and 65% of the capital stock of certain first-tier foreign subsidiaries and Disregarded Entities, and mortgages on owned real property in the U.S. having a book value in excess of \$10 million.

The Fourth Amended and Restated Credit Agreement provides for up to approximately \$750 million in financing, including an approximately \$400 million term loan facility and a \$350 million U.S. revolving facility. A portion of the term loan facility and the revolving facility is available in euros to a Netherlands-based subsidiary of the Company. The term loan facility matures in 20 quarterly installments with the last installment due September 23, 2016. The revolving facility matures on September 23, 2016 and requires no scheduled payment before that date. Under specified circumstances, the Company has the ability to increase the term loans and/or revolving line of credit under the Fourth Amended and Restated Credit Agreement by up to \$250 million in the aggregate. The interest rates applicable to term loans and revolving loans under the credit agreement are, at the Company's option, equal to either the base rate (which is the higher of (1) the prime rate, (2) the federal funds rate plus 0.50% or (3) the one-month adjusted LIBOR rate) or the adjusted LIBOR rate plus an interest rate margin based upon the Company's leverage ratio.

The interest rates applicable to term loans and revolving loans under the Fourth Amended and Restated Credit Agreement are lower than the interest rates under the existing facilities reflecting current market conditions.

In addition to the scheduled repayments, Charles River is required to prepay the term loans with the following amounts:

- 100% of any net cash proceeds in connection with permitted receivables financings; and
- 100% of the net cash proceeds from certain incurrences of debt, unless the leverage ratio is 2.25:1 or less.

The Fourth Amended and Restated Credit Agreement requires that Charles River comply with an interest coverage ratio test and a leverage ratio test. In addition, the Fourth Amended and Restated Credit Agreement includes negative covenants that will, subject to significant exceptions, limit the ability of Charles River and its subsidiaries to:

- incur, assume or permit to exist additional indebtedness or guarantees;
- incur liens;
- make investments and loans;
- engage in mergers, acquisitions and asset sales;
- enter into agreements limiting subsidiary distributions;
- engage in certain transactions with affiliates, and
- alter the business that they conduct.

The Fourth Amended and Restated Credit Agreement also contains certain customary representations and warranties, affirmative covenants and events of default.

The Fourth Amended and Restated Credit Agreement is attached hereto as Exhibit 10.1 and incorporated into this Item 2.03 by reference.
