RETIREMENT PLAN

Financial Statements and Supplemental Schedule

December 31, 2001 and 2000

(With Independent Auditors' Report Thereon)

Independent Auditors' Report
The Pension Committee and the Participants
Genesis Health Ventures, Inc. Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for plan benefits of the Genesis Health Ventures, Inc. Retirement Plan as of December 31, 2001 and 2000, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2001 and 2000, and the changes in net assets available for benefits for the year ended December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of the Plan

The following description of the Genesis Health Ventures, Inc. Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is for the benefit of all employees of Genesis Health Ventures, Inc. (the Company) who complete 12 consecutive months during which they have been credited with at least 1,000 hours of service in their first year or any calendar year thereafter, and who have not been employed under the terms and conditions of a collective bargaining agreement. The Plan was adopted on January 1, 1989, and is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(k) of the Internal Revenue Code.

In October 2001, the Respiratory Health Services 401(k) Plan was merged into the Plan as a result of an acquisition made by a subsidiary of the Company. Total assets transferred from the Respiratory Health Services 401(k) Plan were \$386,783.

On October 2, 2001, the Company consummated a plan of reorganization (the Reorganization Plan) under Chapter 11 of the Bankruptcy Code pursuant to a September 20, 2001 order entered by the Bankruptcy Court approving the Reorganization Plan proposed by the Company.

(b) Contributions

Eligible employees may make a voluntary, tax-deferred annual contribution of up to \$10,500 to the Plan for the years ended December 31, 2001 and 2000. This figure is adjusted annually for inflation as provided under the Internal Revenue Code. Each plan year, the board of directors of the Company may fix the proportionate contribution at any level, and intends to announce the level of such contributions in advance of each plan year.

Edgar Filing: GENESIS HEALTH VENTURES INC /PA - Form 11-K

During the year ended December 31, 2001, the Company contributed amounts on behalf of each participant as follows:

For one to six years of service - 50% of the individual's contribution, limited to 1% of the employee's annual salary.

For seven years or more of service - 75% of the individual's contribution, limited to 3% of the employee's annual salary.

The Company may also elect to make an additional profit-sharing contribution to the Plan. Such contribution is a discretionary contribution, subject to approval by the Company's board of directors. The Company did not elect to make any profit-sharing contributions for the year ended December 31, 2001.

In order for a participant to share in the employer's matching and/or profit-sharing contributions for any plan year, the participant must have met one of the following conditions during the plan year to be considered an "active participant":

- (a) Remained employed on the last day of the plan year;
- (b) Retired;
- (c) Died; or
- (d) Became disabled.

In addition, a participant is also required to have a minimum of 1,000 hours of service in the plan year to share in profit-sharing contributions.

(c) Forfeitures

Forfeitures of nonvested Company contributions are used to offset such future contributions.

6

(d) Participant Accounts

Participants have a nonforfeitable interest in their contributions at all times, although there are certain restrictions and options on withdrawals. The participants' vested interest in their accounts under the Plan as it is attributable to employer matching contributions and employer profit-sharing contributions is as follows:

Years of service	Vested percentage
Fewer than five years	None
Five years or more	100%
Attainment of age 65, death, or disability while in the employ of the Company	100%

The Plan provides for modification of the vesting schedule to 100% after three or more years of service in certain situations.

(e) Payment of Benefits

Normal and deferred retirement benefits, disability benefits, and vested benefits are generally distributed as a single sum. A

Edgar Filing: GENESIS HEALTH VENTURES INC /PA - Form 11-K

participant may request that normal retirement benefits be distributed in approximately equal installments over a period of years not to exceed the life expectancy of the participant and the participant's designated beneficiary.

(f) Investment Income

Unrealized appreciation (depreciation) of the Federated Capital Preservation Fund, Janus Fund, Janus Adviser Worldwide Fund, First Union Diversified Bond Group Trust Fund, Vanguard Wellington Fund, Evergreen Growth and Income Fund, MFS Capital Opportunities Fund, MFS New Discovery Fund, and First Union Enhanced Stock Market Fund is determined based upon quoted market values. Dividends in the Federated Capital Preservation Fund are reinvested. Dividends, interest income, and capital gains (losses) in the Janus Fund, Janus Adviser Worldwide Fund, First Union Diversified Bond Group Trust Fund, Vanguard Wellington Fund, Evergreen Growth and Income Fund, MFS Capital Opportunities Fund, MFS New Discovery Fund, and First Union Enhanced Stock Market Fund are reinvested. Such amounts are added to or deducted from the participants' accounts based on the terms of the Plan and are treated as net appreciation (depreciation) in the fair value of investments in the accompanying statement of changes in net assets available for plan benefits.

(2) Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and changes in those net assets.

(a) Administrative Expenses

Administrative expenses incurred in the operation of the Plan are paid by the Plan.

(b) Investments

Investments are valued at fair value. Investments in the Federated Capital Preservation Fund, Janus Fund, Janus Adviser Worldwide Fund, First Union Diversified Bond Group Trust Fund, Vanguard Wellington Fund, Evergreen Growth and Income Fund, MFS Capital Opportunities Fund, MFS New Discovery Fund, and First Union Enhanced Stock Market Fund are valued at the respective mutual funds' net asset value.

7

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Edgar Filing: GENESIS HEALTH VENTURES INC /PA - Form 11-K

(3) Investments

A participant may direct contributions in any of the following investment options in increments of 1%:

Federated Capital Preservation Fund invests primarily in guaranteed investment contracts.

Janus Fund invests primarily in large-cap equity funds.

Janus Adviser Worldwide Fund invests primarily in common stocks of foreign and domestic companies.

First Union Diversified Bond Group Trust Fund invests in full maturity bonds.

Vanguard Wellington Fund invests in a balance of equities and fixed income securities.

MFS Capital Opportunities Fund invests in large- and mid-cap equity funds.

MFS New Discovery Fund invests in small-cap equity funds.

First Union Enhanced Stock Market Fund invests in large-cap equity index funds.

The Genesis Stock Fund was discontinued as an investment option on June 5, 2000.

The following presents the investment balances at December 31, 2001 and 2000:

*Represents 5% or more of the Plan's net assets.

During 2001, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$30,699,411.

(4) Forfeitures

The total of nonvested forfeiture accounts used to reduce employer

Edgar Filing: GENESIS HEALTH VENTURES INC /PA - Form 11-K

contributions for 2001 and 2000 was \$842,509 and \$518,392, respectively. As of December 31, 2001, there are no forfeiture accounts available for the reduction of future employer contributions.

8

(5) Federal Income Tax

The Internal Revenue Service has determined that the Plan is designed in accordance with applicable sections of the Internal Revenue Code and thus is a qualified plan for federal income tax purposes. The Company believes the Plan, as amended, continues to operate and qualify as designed.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to amend, suspend, and/or terminate the Plan at any time. Upon termination, all participants will become fully vested in the amounts standing to their credit under the Plan.

(7) Loan Fund

Participants are able to borrow up to 50% of their vested balance with a minimum loan of \$1,000 and a maximum loan of \$50,000. Such loans are generally repaid through payroll deductions over a period not to exceed five years and bear interest at prime rate at the date of the loan. Only one loan outstanding at a time is permitted. Prior plans merged into the Plan permitted multiple loans, which were grandfathered into the Plan.

(8) Party-in-Interest Transactions

Plan investments in the First Union Diversified Bond Group Trust Fund and the First Union Enhanced Stock Market Fund are shares of mutual funds managed by First Union, the trustee, as defined by the Plan and therefore these transactions qualify as party-in-interest transactions.

The Plan incurred \$1,037,546 of administrative fees for First Union's trustee and record-keeping services. These transactions qualify as party-in-interest transactions.
