APPROXIMATE DATE OF COMMENCEMENT OF PROPOSED SALE TO THE PUBLIC: As soon as practicable after the filing of this registration statement and the other conditions to the commencement of the exchange offer described herein have been satisfied or waived.

If the securities being registered on this form are being offered in connection with the formation of a holding company and there is compliance with General Instruction G, check the following box. []

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [] _____

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [] _____

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933, OR UNTIL THIS REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(a), MAY DETERMINE.

THIS PRELIMINARY OFFERING CIRCULAR-PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. THESE SECURITIES MAY NOT BE EXCHANGED UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PRELIMINARY OFFERING CIRCULAR-PROSPECTUS IS NOT AN OFFER TO EXCHANGE NOR DOES IT SEEK AN OFFER TO EXCHANGE ANY SECURITIES IN ANY JURISDICTION WHERE THE OFFER OR EXCHANGE IS NOT PERMITTED.

Subject to completion, dated January 24, 2003

IMS HEALTH INCORPORATED

OFFER TO EXCHANGE 0.309 SHARES OF CLASS B COMMON STOCK OF

COGNIZANT TECHNOLOGY SOLUTIONS CORPORATION
FOR EACH SHARE OF COMMON STOCK OF

IMS HEALTH INCORPORATED

THE EXCHANGE OFFER AND WITHDRAWAL RIGHTS WILL EXPIRE AT 12:00 MIDNIGHT, NEW YORK CITY TIME, ON FEBRUARY 6, 2003, UNLESS WE EXTEND THE OFFER.

IMS Health Incorporated will exchange 0.309 shares of Cognizant class B common stock for each share of IMS Health common stock that it accepts in the exchange offer. IMS Health will accept up to 36,540,129 IMS Health shares and will distribute up to 11,290,900 shares of Cognizant class B common stock in the exchange offer, representing all the Cognizant shares that IMS Health currently owns. If IMS Health stockholders tender more than 36,540,129 IMS Health shares, IMS Health will accept shares for exchange on a pro rata basis as described in this document. The exchange offer is subject to various conditions described

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

later in this document, including that at least 27,400,000 IMS Health shares are validly tendered in the exchange offer.

The terms and conditions of the exchange offer are described in this document and the related Letter of Transmittal, which you should read carefully. None of IMS Health, Cognizant, any of their respective officers or directors or the joint dealer managers makes any recommendation as to whether or not you should tender your IMS Health shares. You must make your own decision after reading this document and consulting with your advisors.

The Cognizant class B common stock that IMS Health is offering in the exchange offer is identical to the Cognizant class A common stock in all respects, except that a holder of class B common stock is entitled to 10 votes per share while a holder of class A common stock is entitled to one vote per share. Each share of Cognizant class B common stock received in the exchange offer will convert automatically into one share of Cognizant class A common stock when it is first transferred after the exchange offer or in certain other circumstances described in this document. Cognizant class B common stock will not be separately listed or quoted on any exchange or in the Nasdaq National Market and will not trade separately.

IMS Health's common stock is listed on the New York Stock Exchange under the symbol "RX." Cognizant's class A common stock is listed for quotation on the Nasdaq National Market under the symbol "CTSH."

PARTICIPATING IN THE EXCHANGE OFFER INVOLVES RISKS. SEE "RISK FACTORS" BEGINNING ON PAGE 17.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES REGULATORS HAVE APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ADEQUACY OR ACCURACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The Joint Dealer Managers for the exchange offer are:
GOLDMAN, SACHS & CO. BEAR, STEARNS & CO. INC.
Offering Circular-Prospectus dated , 2003.

In this offering circular-prospectus, "IMS Health," "we," "us," and "our" each refers to IMS Health Incorporated or, where the context requires, IMS Health and its consolidated subsidiaries, and "IMS Health shares" refers to shares of common stock of IMS Health. "Cognizant" refers to Cognizant Technology Solutions Corporation or, where the context requires, Cognizant and its subsidiaries, and "Cognizant shares" refers to shares of Cognizant class B common stock or, where the context requires, Cognizant class A common stock. When we describe a specified number of IMS Health shares tendered into the exchange offer, we mean IMS Health shares that have been validly tendered into the exchange offer and not properly withdrawn.

You should rely only on the information contained in this document. None of IMS Health, Cognizant, the joint dealer managers, the information agent or the exchange agent has authorized anyone to provide you with information different from that contained in this document. We are not offering to exchange, or soliciting any offers to exchange, securities pursuant to the exchange offer in any jurisdiction in which those offers or exchanges would not be permitted. The information contained in this document is accurate only as of the date of this document regardless of the time of delivery of this document or the time of any exchange of securities in the exchange offer.

This document incorporates by reference important business, financial and other information about IMS Health and Cognizant that is not included in or delivered with this document. See "Where You Can Find More Information" on page 105 for a list of the documents that have been incorporated by reference into this document.

IF YOU WOULD LIKE TO REQUEST COPIES OF THESE DOCUMENTS, PLEASE DO SO BY JANUARY 30, 2003 IN ORDER TO RECEIVE THEM BEFORE THE EXPIRATION OF THE EXCHANGE OFFER. In the event that we extend the exchange offer, you must submit your request at least five business days before the expiration date, as extended.

ii

QUESTIONS AND ANSWERS ABOUT THE EXCHANGE OFFER

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Q: WHY HAS IMS HEALTH DECIDED TO DISTRIBUTE ITS REMAINING INTEREST IN COGNIZANT?

A: IMS Health does not view its interest in Cognizant as strategically important to IMS Health. Among other benefits, we believe the separation of Cognizant from IMS Health will:

- enable the senior management personnel of both companies to focus more completely on the opportunities and needs of their own lines of business;
- improve the stock of IMS Health as an equity incentive tool for motivating key personnel;
- improve the ability of both companies to independently access the capital markets; and
- enable both companies to more freely use their stock for acquisitions and to raise capital.

Q: WHY DID IMS HEALTH CHOOSE THE EXCHANGE OFFER AS THE WAY TO SEPARATE COGNIZANT?

A: We believe that the exchange offer is a tax efficient way to achieve full separation of Cognizant from IMS Health. The exchange offer allows you to adjust your investment between IMS Health and Cognizant and depending on the relative prices of IMS Health and Cognizant shares, may provide an opportunity for you to receive a premium for your IMS Health shares. The exchange offer also allows us to acquire IMS Health shares in a manner that we believe will be neutral or accretive to our ongoing earnings per share and demonstrates our continuing confidence in the value of our shares.

Q: WHAT OTHER ALTERNATIVES DID IMS HEALTH CONSIDER BEFORE CHOOSING THE EXCHANGE OFFER?

A: We considered three principal alternatives for the separation of Cognizant from IMS Health: a sale of our Cognizant shares to a third party, a pro rata spin-off of the Cognizant shares to our stockholders and this exchange offer. We decided that a sale of our shares of Cognizant to a third party would not accomplish our objectives in a tax-efficient manner. A spin-off would require all our stockholders to become Cognizant stockholders and would be dilutive to our earnings per share. The exchange offer allows our stockholders to make an individual choice as to whether or not to participate. We expect the exchange offer to be neutral or accretive to our earnings per share depending on the final subscription level.

Q: DOES IMS HEALTH INTEND TO CONTINUE TO BE A CUSTOMER OF COGNIZANT?

A: Yes, we intend to continue our business relationship with Cognizant after the exchange offer. Cognizant has been a major source of application design, development and maintenance services for IMS Health for years. Cognizant is one of our key business partners today, and we expect our relationship to continue.

Q: WHAT IS THE "EXCHANGE RATIO"? HOW MANY COGNIZANT SHARES WILL I RECEIVE FOR EACH IMS HEALTH SHARE THAT I EXCHANGE?

A: You will receive 0.309 Cognizant shares for each IMS Health share that is accepted for exchange. We sometimes refer to this number as the "exchange ratio." You will receive cash in lieu of any fraction of a Cognizant share to which you would otherwise be entitled.

Q: IS THE EXCHANGE OFFER AT A PREMIUM?

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

A: Based on the closing prices of the IMS Health and Cognizant shares on the NYSE and Nasdaq National Market, respectively, on January 8, 2003, the exchange ratio represented an approximate 20% premium over the price of the IMS Health shares on that date.

1

We calculated this premium using the exchange ratio and the market price per share for the Cognizant class A common stock and IMS common stock on January 8, 2003 as follows:

(0.309) x (market price per share of Cognizant class A common stock)	-	1) X 100

market price per share of IMS Health common stock		

The market price of Cognizant class A common stock is not necessarily determinative of the value of the Cognizant class B common stock to be received in the exchange offer. In addition, we do not know what premium, if any, will apply at the closing of the exchange offer since the market prices for IMS Health shares and Cognizant shares fluctuate. At any time during the exchange offer you can use this formula to calculate the premium, if any, represented by the exchange ratio based on recent market prices for IMS Health and Cognizant class A shares.

Q: HOW DO I DECIDE WHETHER TO PARTICIPATE IN THE EXCHANGE OFFER?

A: Your decision to participate in the exchange offer will depend on many factors. You should examine carefully your specific financial position, plans and needs before you decide whether to participate in the exchange offer. We encourage you to consider, among other things:

- your view of the relative value of the IMS Health shares and Cognizant shares;
- your individual investment strategy with regard to the two companies; and
- your opportunity to receive the premium, if any.

You must make your own decision after carefully reading this document and consulting with your advisors based on your own financial position and requirements. In addition, you should consider all the factors described in the section of this document entitled "Risk Factors" starting on page 17.

Q: IS IT RECOMMENDED THAT I TENDER MY IMS HEALTH SHARES?

A: None of IMS Health, Cognizant, any of their respective officers or directors, the joint dealer managers, the exchange agent or the information agent makes any recommendation as to whether or not you should tender your IMS Health shares into the exchange offer. You must make your own decision after reading this document and consulting with your advisors. In addition, you should consider all the factors described in the section of this document entitled "Risk Factors" starting on page 17.

Q: HOW DO I TENDER INTO THE EXCHANGE OFFER?

A: We give you specific instructions in the section of this document entitled "The Exchange Offer -- Procedures for Tendering Shares of IMS Health Common

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Stock" beginning on page 37.

Q: CAN I TENDER ONLY A PORTION OF MY IMS HEALTH SHARES?

A: Yes. This is a voluntary exchange offer. You may tender all, some or none of your IMS Health shares.

Q: WHAT IF I WANT TO TENDER BUT I HOLD IMS HEALTH SHARES IN "STREET NAME"?

A: You will need to instruct your broker to tender your shares on your behalf.

Q: CAN I CHANGE MY MIND AFTER I TENDER?

A: Yes. You may withdraw your tender at any time before the exchange offer expires. We describe the procedures for withdrawing tendered IMS Health shares in the section of this document entitled "The Exchange Offer -- Withdrawal Rights" beginning on page 40.

2

Q: WHAT HAPPENS IF MORE THAN 36,540,129 IMS HEALTH SHARES ARE TENDERED?

A: If more than 36,540,129 IMS Health shares are tendered, we will reduce the number of IMS Health shares that we will accept in the exchange offer on a pro rata basis in proportion to the number of shares tendered. We refer to this pro rata reduction as "proration." Stockholders who own an "odd-lot," which is a total of less than 100 IMS Health shares, and who tender all their shares will not be subject to proration.

Q: WHEN WILL THE EXCHANGE OFFER AND WITHDRAWAL RIGHTS EXPIRE?

A: The exchange offer and withdrawal rights will expire at 12:00 midnight, New York City time, on February 6, 2003, unless they are extended.

Q: CAN IMS HEALTH EXTEND THE EXCHANGE OFFER, AND UNDER WHAT CIRCUMSTANCES?

A: Yes. We can extend the exchange offer at any time, in our sole discretion, even if all the conditions to the exchange offer have been satisfied. If we extend the exchange offer, we will publicly announce the extension and the new expiration date by press release no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

Q: ARE THERE ANY CONDITIONS TO IMS HEALTH'S OBLIGATION TO COMPLETE THE EXCHANGE OFFER?

A: Yes. We are not required to complete the exchange offer unless the conditions that we describe in the section of this document entitled "The Exchange Offer -- Conditions for Completion of the Exchange Offer" starting on page 42 are satisfied or waived. For example, we may choose not to complete the exchange offer unless at least 27,400,000 IMS Health shares are tendered into the exchange offer. We refer to this minimum number of IMS Health shares as the "minimum amount." We may waive any or all of the conditions to the exchange offer, including the requirement that the minimum number of IMS Health shares be tendered.

Q: DOES COGNIZANT HAVE THE RIGHT TO WAIVE ANY CONDITIONS OF THE EXCHANGE OFFER OR TO EXTEND THE EXCHANGE OFFER?

A: No. Any decision to waive any condition of the exchange offer or to extend the exchange offer or any other decision related to the terms of the exchange offer will be solely that of IMS Health.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Q: WHAT HAPPENS IF LESS THAN THE MINIMUM AMOUNT OF IMS HEALTH SHARES ARE TENDERED?

A: If fewer than the minimum number of IMS Health shares are tendered into the exchange offer, we may extend the exchange offer or we may choose not to complete the exchange offer or we may waive the condition and choose to accept the IMS Health shares tendered. If we choose not to complete the exchange offer, we will promptly return any IMS Health shares that have been tendered.

Q: WHAT WILL IMS HEALTH DO WITH ANY COGNIZANT CLASS B COMMON STOCK IT DOES NOT EXCHANGE?

A: If we otherwise would continue to own Cognizant class B shares after completion of the exchange offer, we currently plan to either distribute them to our stockholders or convert them into shares of Cognizant's class A common stock prior to completion of the exchange offer and distribute them to our stockholders or hold them for some period before we sell them in one or more transactions. The timing of those sales could depend on market conditions and other factors, but we expect that we would hold those shares for no more than three years. If only the minimum amount of IMS Health shares are exchanged and we do not otherwise distribute Cognizant shares to our stockholders, we will hold 2,824,300 shares of Cognizant class A common stock immediately following the completion of the exchange offer (representing 13.8%

3

of the outstanding Cognizant common stock). We will vote those shares in proportion to the votes cast by all other holders of Cognizant stock.

Q: WILL I BE TAXED ON SHARES I EXCHANGE IN THE EXCHANGE OFFER?

A: We have received an opinion from McDermott, Will & Emery to the effect that the exchange offer should be tax-free to IMS Health stockholders for U.S. federal income tax purposes, except with respect to any cash received in lieu of fractional Cognizant shares. This opinion does not address any state, local or foreign tax consequences of the exchange offer. You should consult your tax advisor as to the particular tax consequences to you of the exchange offer. In addition, you should read the risk factor "The IRS may treat the exchange offer as taxable to exchanging stockholders or IMS Health" in the section of this document entitled "Risk Factors" on page 17.

Q: WHAT ARE THE PRINCIPAL DIFFERENCES BETWEEN THE CLASSES OF COGNIZANT COMMON STOCK?

A: Cognizant has two classes of common stock: class A common stock and class B common stock. IMS Health is offering only Cognizant class B common stock in the exchange offer.

The Cognizant class A common stock is publicly held and listed for quotation on the Nasdaq National Market under the symbol "CTSH". The Cognizant class B common stock is identical to the Cognizant class A common stock in all respects, except that a holder of Cognizant class B common stock is entitled to 10 votes per share while a holder of Cognizant class A common stock is entitled to one vote per share. Each share of Cognizant class B common stock received in the exchange offer will convert automatically into one share of Cognizant class A common stock when it is first transferred after the exchange offer. As a result, Cognizant class B common stock will not be separately listed or quoted and will not trade separately. In addition, all the Cognizant class B common stock will

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

automatically convert into Cognizant class A common stock on the fifth anniversary of the completion of the exchange offer or, if earlier, when the number of shares of Cognizant class B common stock represents less than 35% of the aggregate number of shares of Cognizant common stock then outstanding.

Q: CAN I TRANSFER THE COGNIZANT CLASS B COMMON STOCK I RECEIVE IN THE EXCHANGE OFFER?

A: Upon any transfer, the shares of Cognizant class B common stock you receive in the exchange offer will convert automatically into an equal number of shares of Cognizant class A common stock that will entitle the transferee to one vote per share. In addition, if you are an "affiliate" of Cognizant under the Securities Act of 1933, you may sell your Cognizant shares only under an effective registration statement or pursuant to an exemption from the registration requirements of the Securities Act.

Q: WILL I BE ABLE TO TAKE ADVANTAGE OF THE SPECIAL VOTING RIGHTS OF COGNIZANT CLASS B COMMON STOCK AT STOCKHOLDER MEETINGS?

A: Yes. While you continue to hold the Cognizant class B common stock you receive in the exchange offer, the Cognizant class B common stock will have 10 votes per share, subject to the class B common stock converting automatically into Cognizant class A common stock with one vote per share upon the occurrence of events beyond your control. Accordingly, you should not rely on having any special voting rights at stockholder meetings as a basis for your decision to participate in the exchange offer. Cognizant may implement procedures to ensure the proper voting by holders of class A and class B common stock at stockholder meetings.

4

Q: WHAT HAPPENS TO THE SPECIAL VOTING RIGHTS OF COGNIZANT CLASS B COMMON STOCK IF IT CONVERTS TO CLASS A COMMON STOCK?

A: The special voting rights of the Cognizant class B common stock will cease upon conversion into Cognizant class A common stock. Cognizant class A common stock has one vote per share.

Q: WHEN WILL TENDERING STOCKHOLDERS KNOW THE OUTCOME OF THE EXCHANGE OFFER?

A: On the first business day after the expiration date, we will announce by press release preliminary results of the exchange offer. Promptly after they are known, we will announce by press release the final results of the exchange offer, including the proration factor, if any.

Q: HAVE OTHER COMPANIES PURSUED SIMILAR TRANSACTIONS?

A: Yes. Examples of similar exchange offers include transactions involving Sara Lee (Coach), DuPont (Conoco), The Limited (Abercrombie & Fitch), Lockheed Martin Corporation (Martin Marietta Materials), Viacom International, Inc. (TCI Pacific) and Eli Lilly and Company (Guidant Corp.).

Q: WHO SHOULD I CALL IF I HAVE QUESTIONS OR WANT ADDITIONAL COPIES OF THE EXCHANGE OFFER DOCUMENTS?

A: If you have any questions about how to tender or you want additional copies of the exchange offer documents, you may call Georgeson Shareholder Communications Inc., the information agent, at one of its numbers listed on the last page of this document. You may also contact either joint dealer manager at its number listed on the last page of this document or your own broker for assistance concerning the exchange offer.

SUMMARY

This summary highlights only some of the information in this document and may not contain all the information that is important to you. To understand the exchange offer fully and for a more complete description of the legal terms of the exchange offer, you should read this entire document and the documents we have referred you to in the section entitled "Where You Can Find More Information." We have included page references to direct you to a more complete description of the topics discussed in this summary.

THE COMPANIES

IMS HEALTH INCORPORATED

IMS Health Incorporated is a leading global provider of market information, sales management and decision-support services to the pharmaceutical and healthcare industries. Our key products include sales management information to optimize sales force productivity, marketing effectiveness research for prescription and over-the-counter pharmaceutical products, consulting and other services. We are managed on a global business model with global leaders for the majority of our critical business processes. In addition, our business includes our venture capital unit, Enterprise Associates, LLC, which is focused on investments in emerging businesses, and our approximately 26% equity interest in The TriZetto Group, Inc. as of September 30, 2002.

We were organized under the laws of the State of Delaware on February 3, 1998. We began operating as an independent publicly-held company on July 1, 1998 as a result of the spin-off of our business from Cognizant Corporation (which was subsequently renamed Nielsen Media Research, Inc.).

Our principal executive office is located at 1499 Post Road, Fairfield, Connecticut 06824, and our telephone number is (203) 319-4700.

COGNIZANT TECHNOLOGY SOLUTIONS CORPORATION

Cognizant Technology Solutions Corporation is a leading provider of custom information technology, commonly referred to as IT, design, development, integration and maintenance services primarily for Fortune 1000 companies located in the United States and Europe. Cognizant's core competencies include web-centric applications, data warehousing, component-based development and legacy and client-server systems. Cognizant provides the IT services it offers using an integrated on-site/offshore business model. This seamless on-site/offshore model combines technical and account management teams located on-site at the customer location and offshore at dedicated Cognizant development centers located in India and Ireland. To support this business model, at December 31, 2002, Cognizant employed over 3,900 programmers in India and over 5,400 globally. Cognizant believes that this on-site/offshore model enables it to develop, deploy and maintain, on a cost-effective and timely basis, high quality, large-scale IT systems for use in a wide range of industries. The market's acceptance of the advantages to customers of Cognizant's integrated business model has been well demonstrated by Cognizant's growth and financial performance. Between 1999 and 2001, Cognizant's revenues and net income grew at a compound annual growth rate exceeding 40%. For the year ended December 31, 2001 and the nine months ended September 30, 2002, Cognizant had revenues of \$177.8 million and \$162.1 million, respectively, and net income of \$22.2 million and \$25.4 million, respectively.

For more details about Cognizant's business, see the section entitled

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

"Business of Cognizant."

Cognizant was organized under the laws of the State of Delaware on April 6, 1988. Cognizant began its IT development and maintenance services business in early 1994, initially acting as an in-house technology development center for The Dun & Bradstreet Corporation and its operating units. In 1996, Cognizant was part of a group of companies that were spun-off from The Dun & Bradstreet Corporation to form a new company. In 1998, this new company spun-off IMS Health, including the controlling interest in Cognizant. Cognizant completed its initial public offering on June 24, 1998. At September 30, 2002, IMS Health owned approximately 56% of Cognizant's outstanding common stock and held approximately 93% of the combined voting power of Cognizant's common stock.

Cognizant's principal executive office is located at 500 Glenpointe Centre West, Teaneck, New Jersey 07666 and its telephone number is (201) 801-0233.

THE EXCHANGE OFFER

Terms of the exchange offer

(see page 35).....

We are offering IMS Health stockholders the opportunity to exchange each of their IMS Health shares for 0.309 Cognizant class B shares. We sometimes refer to this number as the "exchange ratio." You may tender all, some or none of your IMS Health shares. The maximum number of IMS Health shares that we will accept from all IMS Health stockholders is 36,540,129 shares.

IMS Health shares accepted for exchange will be exchanged at the exchange ratio, on the terms and subject to the conditions of the exchange offer, including the proration provisions. We will promptly return to IMS Health stockholders any IMS Health shares that are not accepted for exchange following the expiration of the exchange offer and determination of the final proration factor, if any, as described below.

Expiration; extension; termination; amendment (see page 41).....

The exchange offer, and your withdrawal rights, will expire at 12:00 midnight, New York City time, on February 6, 2003, unless we extend it. You must tender your IMS Health shares prior to this time if you want to participate in the exchange offer. We may extend, terminate or amend the exchange offer.

No fractional shares (see page 36).....

You will not receive any fractional Cognizant shares in the exchange offer. The exchange agent, acting as the agent for tendering IMS Health stockholders, will aggregate any fractional shares and sell them. You will receive the proceeds, if any, net of

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

commissions, from the sale of these shares in accordance with your fractional interest.

Proration; odd-lots (see page 36).....

If more than 36,540,129 IMS Health shares are tendered into the exchange offer, we will accept all tendered IMS Health shares on a pro rata basis. We will announce the preliminary proration factor by the first business day after the exchange offer expires.

If you own fewer than 100 IMS Health shares and tender all your shares for exchange, you may request preferential treatment by completing Section II. C. on the letter of transmittal entitled "Odd-Lot Shares" and, if applicable, on the notice of guaranteed delivery. If your odd-lot shares are held by a broker for your account, you can contact the broker and request this preferential treatment. All your "odd-lot" shares will be accepted for exchange without proration if we complete the exchange offer.

Shares you own in the IMS Health Savings Plan are not eligible for this preferential treatment.

8

Withdrawal rights (see page 40).....

You may withdraw tendered IMS Health shares at any time before the exchange offer expires. If you change your mind again, you may re-tender your IMS Health shares by again following the exchange offer procedures prior to the expiration of the exchange offer.

Conditions for completion of the exchange offer (see page 42).....

The exchange offer is subject to various conditions, including that at least 27,400,000 IMS Health shares are tendered so that we may exchange at least 8,466,600 of the Cognizant shares held by us. All conditions must be satisfied or waived prior to the expiration of the exchange offer.

Procedures for tendering (see page 37).....

If you hold certificates for IMS Health shares, you must complete and sign the letter of transmittal designating the number of IMS Health shares you wish to tender. Send the letter of transmittal, together with your IMS Health stock certificates and any other documents required by the letter of transmittal, by courier or registered mail, return receipt requested, so that it is RECEIVED by the exchange agent at one of the addresses listed on the back cover of this

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

document before the expiration of the exchange offer.

DO NOT SEND YOUR CERTIFICATES TO IMS HEALTH, COGNIZANT, THE JOINT DEALER MANAGERS OR THE INFORMATION AGENT.

If you hold shares of IMS Health common stock through a broker, you should receive instructions from your broker on how to participate. In this situation, do not complete the letter of transmittal. Please contact your broker directly if you have not yet received instructions. Some financial institutions may also effect tenders by book-entry transfer through The Depository Trust Company.

If you wish to tender your IMS Health shares but the shares are not immediately available, or time will not permit the shares or other required documentation to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, you may still tender your IMS Health shares by following the procedures for guaranteed delivery set forth under "The Exchange Offer -- Guaranteed Delivery Procedure."

If you participate in the IMS Health Savings Plan, you will receive separate instructions on how to tender these shares and a form of election to tender your shares held under this plan from the trustee or administrator of the plan. Do not use the letter of transmittal to tender shares held under this plan.

9

Delivery of Cognizant stock certificates.....

We will deliver Cognizant stock certificates as soon as reasonably practicable after we accept IMS Health shares for exchange and, if necessary, determine the proration factor. If your IMS Health stock certificates are held by a broker, your broker should inform you of where and when your Cognizant stock certificates will be delivered.

Terms of Cognizant class B common stock delivered in the exchange offer (see page 86)..

The Cognizant class B common stock is identical to the Cognizant class A common stock in all respects, except that a holder of class B common stock is entitled to 10 votes per share while a holder of class A common stock is entitled to one vote per share.

Conversion of Cognizant class B common stock (see page 86).....

Each share of Cognizant class B common stock

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

received in the exchange offer will convert automatically into one share of Cognizant class A common stock when it is first transferred after the exchange offer. In addition, all the Cognizant class B common stock will automatically convert into Cognizant class A common stock on the fifth anniversary of the completion of the exchange offer or, if earlier, when the number of shares of Cognizant class B common stock represents less than 35% of the aggregate number of shares of Cognizant common stock then outstanding.

Comparative per share market price information (see page 15).....

IMS Health common stock is currently listed and traded on the NYSE under the symbol "RX." Cognizant class A common stock is currently listed for quotation on the Nasdaq National Market under the symbol "CTSH."

The Cognizant class B common stock will not be listed or quoted on any exchange and will not trade separately. You may transfer shares of Cognizant class B common stock you receive in the exchange offer, at which time they will convert automatically into an equal number of shares of Cognizant class A common stock that will entitle the transferee to one vote per share.

On November 13, 2002, the last trading day before the announcement of the exchange offer, the closing sale price of the IMS Health common stock on the NYSE was \$16.52 and the closing sale price of the Cognizant class A common stock on the Nasdaq National Market was \$69.39.

On January 8, 2003, the last trading day before commencement of the exchange offer, the closing sale price of the IMS Health common stock on the NYSE was \$16.64 and the closing sale price of the Cognizant class A common stock on the Nasdaq National Market was \$64.55.

U.S. federal income tax consequences (see page 101)...

We have received a tax opinion from McDermott, Will & Emery to the effect that the exchange offer should be tax-free to IMS Health stockholders for U.S. federal income tax purposes, except with respect to any cash received in lieu of fractional shares of Cognizant class B common stock, and that the exchange offer should be tax-free to IMS Health. This opinion does not address any state, local or foreign tax consequences. You should consult your tax advisor as to the particular tax consequences to you of the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

exchange offer. In addition you should read the risk factor "The IRS may treat the exchange offer as taxable to exchanging stockholders or IMS Health" in the section of this document entitled "Risk Factors" on page 17.

No appraisal rights (see page 34)..... No statutory appraisal rights are available to stockholders of IMS Health or Cognizant in connection with the exchange offer.

Exchange Agent..... American Stock Transfer & Trust Company

Information Agent..... Georgeson Shareholder Communications Inc.

Joint Dealer Managers..... Goldman, Sachs & Co. and Bear, Stearns & Co. Inc.

Risk factors (see page 17).... You should consider carefully the matters described in the section entitled "Risk Factors," as well as the other information included in this document and the documents to which we have referred you.

Legal limitation..... We are not making any offer to exchange, nor are we soliciting any offer to exchange, securities in any jurisdiction in which the offer or exchange is not permitted.

11

IMS HEALTH SUMMARY FINANCIAL DATA

The following table presents summary financial data for IMS Health. This data is derived from and should be read together with the audited and unaudited consolidated financial statements of IMS Health and related notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in IMS Health's Form 10-K for 2001 and Form 10-Q for the period ended September 30, 2002, all of which have been incorporated into this document by reference. To find out where you can obtain copies of IMS Health's documents that have been incorporated by reference, see "Where You Can Find More Information."

We have also prepared selected pro forma financial data to show the effect of the exchange offer on IMS Health. See "IMS Health Unaudited Pro Forma Condensed Consolidated Financial Information."

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

and the SAB No. 51 gain related to the issue of stock by TriZetto of \$9,029. Non-operating income, net in 1999 includes gains from dispositions-net of \$25,264. Non-operating income, net in 1998 includes the gain related to the Cognizant's initial public offering of \$12,777 and gains from dispositions -- net of \$33,341. Results for 1997 include gains from dispositions -- net of \$9,391 in non-operating income.

- (3) Income from discontinued operations, net of income taxes, includes a tax provision of \$25,320, \$25,320, \$2,526, \$12,635, \$49,303 and \$62,271 for the nine months ended September 30, 2001 and the years ended December 31, 2001, 2000, 1999, 1998 and 1997, respectively.

13

COGNIZANT SUMMARY FINANCIAL DATA

The following table presents summary financial data for Cognizant. This data is derived from and should be read together with the audited and unaudited consolidated financial statements of Cognizant and related notes thereto and "Management's Discussion and Analysis of Results of Operations and Financial Condition of Cognizant" appearing elsewhere in this document. In the opinion of Cognizant's management, all adjustments considered necessary for a fair presentation of the interim financial information have been included, and all adjustments are of a normal and recurring nature. Operating results for the interim periods are not necessarily indicative of results that may be expected to occur for the entire year.

14

COMPARATIVE PER SHARE DATA

The following table compares certain historical, pro forma and equivalent per share data for IMS Health and Cognizant. The data has been derived from and should be read together with the audited and unaudited consolidated financial statements of IMS Health and related notes thereto contained in IMS Health's Form 10-K for 2001 and Form 10-Q for the period ended September 30, 2002 and the audited and unaudited consolidated financial statements of Cognizant and related notes thereto contained in Cognizant's Form 10-K for 2001 and Form 10-Q for the period ended September 30, 2002.

Pro forma net income per share is presented as if the exchange offer had occurred (and that 36,540,129 IMS Health shares had been exchanged for 11,290,900 Cognizant shares) as of January 1, 2001. Pro forma and equivalent pro forma book value per share is presented as if the exchange offer had occurred (and that 36,540,129 IMS Health shares had been exchanged for 11,290,900 Cognizant shares) as of September 30, 2002. You should not rely on the pro forma information as being indicative of the historical results that would have occurred or the future results that IMS Health or Cognizant will experience after the exchange offer. Cognizant's earnings per share and book value per share will be impacted only by Cognizant's share of the offering expenses, estimated to be approximately \$2 to \$3 million. Any conversion of Cognizant's class B common stock to class A common stock will not have an impact on Cognizant's earnings per share or book value per share.

	IMS HEALTH HISTORICAL -----	IMS HEALTH PRO FORMA FOR EXCHANGE OFFER (1) -----	COGNIZANT HISTORICAL -----	EXCHANGE OF EQUIVALENT (2) -----

As of September 30, 2002.....	\$0.59	\$0.33	\$7.12	\$2.20

-
- (1) The "IMS Health Pro Forma for Exchange Offer" amounts assume that 36,540,129 IMS Health shares are exchanged for 11,290,900 Cognizant shares. However, if we assumed that only 27,400,000 IMS Health shares -- the minimum amount that IMS will accept in the exchange offer -- are exchanged for 8,466,600 Cognizant shares, then the "IMS Health Pro Forma for Exchange Offer" amounts would not differ from the amounts presented as IMS Health would have accounted for its investment in Cognizant on the cost method of accounting.
- (2) The exchange offer equivalent amounts are calculated by multiplying the historical Cognizant amounts by the exchange ratio in the exchange offer.

15

COMPARATIVE PER SHARE MARKET PRICE DATA

Set forth below are the closing sale prices of IMS Health common stock as reported by the NYSE, and Cognizant class A common stock as listed for quotation on the Nasdaq National Market on November 13, 2002 (the last full trading day prior to the public announcement that IMS Health was considering the exchange offer) and January 8, 2003 (the most recent practicable date prior to the date of this offering circular-prospectus). Also set forth below are the exchange offer equivalent sales prices of IMS Health common stock for each of these dates, as determined by multiplying the sale price of Cognizant class A common stock by the exchange ratio for the exchange offer.

	IMS HEALTH NYSE PRICE PER SHARE	COGNIZANT NASDAQ PRICE PER SHARE	EXCHANGE OFFER EQUIVALENT PRICE PER SHARE (1)
	-----	-----	-----
November 13, 2002.....	\$16.52	\$69.39	\$21.44
January 8, 2003.....	16.64	64.55	19.95

-
- (1) The exchange offer equivalent per share sales prices are calculated by multiplying the Cognizant price per share by the exchange ratio for the exchange offer.

16

RISK FACTORS

You should consider carefully all the information set forth or incorporated by reference in this document and, in particular, the following risk factors, in considering whether or not to tender your shares of IMS Health common stock. In addition, for an important discussion of additional uncertainties associated with the businesses of IMS Health and Cognizant and forward-looking information

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

in this document, please see "Special Note on Forward-Looking Information" on page 30.

RISKS RELATED TO THE EXCHANGE OFFER

YOUR INVESTMENT IN SHARES OF IMS HEALTH COMMON STOCK WILL BE SUBJECT TO DIFFERENT RISKS AFTER THE EXCHANGE OFFER REGARDLESS OF WHETHER YOU ELECT TO PARTICIPATE IN THE OFFER.

Your investment will be subject to different risks as a result of the exchange offer, regardless of whether you tender all, some or none of your shares of IMS Health common stock.

- If you exchange all your IMS Health shares, you will no longer have an interest in IMS Health, but instead will have an interest in Cognizant. As a result, your investment will be subject to risks associated with Cognizant and not risks associated with IMS Health.
- If you exchange some, but not all, of your IMS Health shares, your interest in IMS Health will diminish, depending on the number of your shares that are accepted for exchange, while your direct interest in Cognizant may increase. As a result, your investment will be subject to risks associated with IMS Health and Cognizant.
- If you do not exchange any of your IMS Health shares your interest in IMS Health will increase, on a percentage basis, while your indirect interest in Cognizant will decrease or be eliminated. As a result, your investment will be subject to risks associated with IMS Health and not risks associated with Cognizant, except to the extent we do not distribute all our Cognizant shares.

YOU MAY NOT RECEIVE A PREMIUM FOR THE SHARES OF IMS HEALTH COMMON STOCK YOU TENDER IN THE EXCHANGE OFFER.

The amount of the premium, if any, that you will receive if you participate in the exchange offer will depend on the relative value of IMS Health shares and Cognizant shares on the completion of the exchange offer. A number of factors may influence the value of our and Cognizant's shares. We cannot predict what the amount of the actual premium will be at the time of the exchange or whether, in fact, there will be a premium at all. Changes in the prices of IMS Health shares or Cognizant shares over time may also affect your ability to realize any premium through sales in the market.

THE HISTORICAL FINANCIAL INFORMATION OF IMS HEALTH AND COGNIZANT MAY NOT BE INDICATIVE OF THEIR RESULTS AS SEPARATE COMPANIES.

The historical financial information of IMS Health and Cognizant presented in this document may not necessarily reflect what the results of operations, financial condition and cash flows of each would have been had the companies been separate, stand-alone entities pursuing independent strategies during the periods presented. As a result, historical financial information is not necessarily indicative of future results of operations, financial condition and cash flows of either IMS Health or Cognizant.

17

THE PRIOR PERFORMANCE OF IMS HEALTH AND COGNIZANT COMMON STOCK MAY NOT BE INDICATIVE OF THE PERFORMANCE OF THEIR COMMON STOCK AFTER THE EXCHANGE OFFER.

IMS Health and Cognizant common stock price history may not provide investors with a meaningful basis for evaluating an investment in either

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

company's common stock. IMS has been a publicly traded company only since July 1, 1998 and Cognizant has been a publicly traded company only since June 24, 1998. The prior performance of IMS Health and Cognizant common stock may not be indicative of the performance of their common stock after the exchange offer.

THE DISTRIBUTION OF SHARES OF COGNIZANT CLASS B COMMON STOCK IN THE EXCHANGE OFFER MAY ADVERSELY AFFECT THE MARKET PRICE OF SHARES OF COGNIZANT CLASS A COMMON STOCK.

The exchange offer will substantially increase the number of publicly held shares of Cognizant common stock and the number of Cognizant stockholders. At September 30, 2002, Cognizant common stock held by IMS Health represented approximately 56% of the outstanding stock and approximately 93% of the combined voting power of Cognizant's common stock. The shares of Cognizant class B common stock to be distributed in the exchange offer will be immediately transferable by non-affiliates of Cognizant. Each share of Cognizant class B common stock will be automatically converted into one share of Cognizant class A common stock when it is first transferred after the exchange offer. If a significant number of persons who receive shares of Cognizant common stock in the exchange offer attempt to, or are perceived as likely to, sell their shares of Cognizant common stock after the exchange offer, the market price of shares of Cognizant class A common stock could be adversely affected or fluctuate significantly after the exchange offer.

MARKET PRICES FOR SHARES OF IMS HEALTH COMMON STOCK MAY DECLINE FOLLOWING THE COMPLETION OF THE EXCHANGE OFFER.

Investors may purchase shares of IMS Health common stock in order to participate in the exchange offer, which may have the effect of artificially raising market prices for shares of IMS Health common stock during the pendency of the exchange offer. Following the completion of the exchange offer, the market prices for shares of IMS Health common stock may decline because any exchange offer-related demand for shares of IMS Health common stock will cease. Furthermore, persons who were unable to exchange their shares of IMS Health common stock for any reason, including proration, may seek to sell these shares in the market, which may also affect the market price for IMS Health common stock. Market prices for shares of IMS Health common stock may also decline following the completion of the exchange offer because shares of IMS Health common stock will no longer include an investment, or will include a significantly diminished investment, in the Cognizant business.

THE IRS MAY TREAT THE EXCHANGE OFFER AS TAXABLE TO EXCHANGING STOCKHOLDERS OR TO IMS HEALTH.

We have received a tax opinion from McDermott, Will & Emery to the effect that, for U.S. federal income tax purposes, the exchange offer should be tax-free to IMS Health stockholders, except with respect to any cash received in lieu of fractional shares of Cognizant class B common stock, and that the exchange offer should be tax-free to IMS Health. Section 355 of the Internal Revenue Code is highly technical and complex, and many aspects of the statute have not yet been addressed by judicial decisions, Treasury regulations, or other administrative guidance. In particular, there is uncertainty with respect to the tax treatment of the exchange offer to IMS Health under Section 355(e) of the Internal Revenue Code due to the absence of controlling legal authorities addressing certain factual aspects of the exchange offer, including the potential for automatic conversion of Cognizant class B common stock into Cognizant class A common stock. The opinion of McDermott, Will & Emery is based on certain factual representations and assumptions. If these factual representations and assumptions are incorrect in any material respect, our ability to rely on the tax-free opinion would be jeopardized. No ruling from the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Internal Revenue Service has been or will be sought with respect to any of the tax matters relating to the exchange offer and the opinion is not binding on the IRS. Accordingly, we cannot assure you that the IRS will agree with the conclusions set forth in the opinion, and it is possible that the IRS or another tax authority could adopt a position contrary to one or all of those conclusions and that a court could sustain that contrary position. If we complete the exchange offer and the exchange offer is held to be taxable, we could be subject to tax as if the distribution were a taxable sale by us of our Cognizant shares at market value, resulting in a material amount of taxes for us because our tax basis in the Cognizant shares is not significant. Our stockholders who receive Cognizant shares could be subject to taxes that would vary with the individual circumstances of the stockholder and may be material for some of stockholders. Neither IMS Health nor Cognizant will indemnify any individual stockholder for any taxes that may be incurred in connection with the exchange offer.

IMS HEALTH AND COGNIZANT MAY NOT HAVE ADEQUATE FUNDS TO PERFORM THEIR RESPECTIVE INDEMNITY OBLIGATIONS UNDER THE DISTRIBUTION AGREEMENT.

In connection with the exchange offer, IMS Health and Cognizant have made tax-related representations to each other and agreed to tax-related covenants. IMS Health and Cognizant also have agreed to indemnify each other for any liability resulting from a breach of these representations and covenants and liability resulting from the conduct of IMS Health's and Cognizant's businesses. The resulting liabilities could have a material adverse effect on each company. For a summary of IMS Health's and Cognizant's obligations in connection with the potential tax and business liabilities, see "Certain Relationships between IMS Health and Cognizant -- Distribution Agreement" on page 97.

SPECIAL VOTING RIGHTS ASSOCIATED WITH COGNIZANT CLASS B COMMON STOCK WILL NOT BE TRANSFERABLE.

If you receive shares of Cognizant class B common stock in the exchange offer, you will have ten votes for each share you receive only until such share is converted into Cognizant class A common stock. You will not be able to transfer to another person any value associated with these special voting rights because each share of Cognizant class B common stock will be automatically converted when it is first transferred after the exchange offer into one share of Cognizant class A common stock with one vote.

THE SPECIAL VOTING RIGHTS ASSOCIATED WITH COGNIZANT CLASS B COMMON STOCK MAY CEASE AT ANY TIME.

You may lose your special voting rights even if you do not transfer your class B common stock because each share of class B common stock will convert automatically into one share of class A common stock with one vote per share on the fifth anniversary of completion of the exchange offer or, if earlier, the date on which the number of shares of Cognizant class B common stock represents less than 35% of the aggregate number of shares of Cognizant common stock then outstanding. The number of shares of class B common stock may fall below the 35% level as the result of transfers by other holders of class B common stock or an increase in the number of shares of Cognizant class A common stock outstanding.

RISKS RELATED TO COGNIZANT

A SUBSTANTIAL PORTION OF COGNIZANT'S ASSETS AND OPERATIONS ARE LOCATED IN INDIA AND COGNIZANT IS SUBJECT TO REGULATORY, ECONOMIC AND POLITICAL UNCERTAINTIES IN INDIA.

Cognizant intends to continue to develop and expand its offshore facilities in India where, as of December 31, 2002, approximately 73% of its technical professionals were located. While wage costs are lower in India than in the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

United States and other developed countries for

19

comparably skilled professionals, wages in India are increasing at a faster rate than in the United States, which could result in Cognizant incurring increased costs for technical professionals and reduced operating margins. In addition, there is intense competition in India for skilled technical professionals and Cognizant expects that competition to increase.

India has also experienced civil unrest and terrorism and has been involved in conflicts with neighboring countries. In recent years there have been military confrontations between India and Pakistan that have occurred in the region of Kashmir and along the Indian-Pakistan border. The potential for hostilities between the two countries has been high in light of tensions related to recent terrorist incidents in India and the unsettled nature of the regional geopolitical environment including events in and related to Afghanistan. If India were to become engaged in armed hostilities, particularly if these hostilities were protracted or involved the threat of or use of weapons of mass destruction, Cognizant's operations would be materially adversely affected. In addition, U.S. companies may decline to contract with Cognizant for services in light of international terrorist incidents or armed hostilities even where India is not involved because of more generalized concerns about relying on a service provider utilizing international resources.

In the past, the Indian economy has experienced many of the problems confronting the economies of developing countries including high inflation, erratic gross domestic product growth and shortages of foreign exchange. The Indian government has exercised and continues to exercise significant influence over many aspects of the Indian economy, and Indian government actions concerning the economy could have a material adverse effect on private sector entities, including Cognizant. In the past, the Indian government has provided significant tax incentives and relaxed certain regulatory restrictions in order to encourage foreign investment in specified sectors of the economy, including the software development services industry. Programs that have benefited Cognizant include, among others, tax holidays, liberalized import and export duties and preferential rules on foreign investment and repatriation. Notwithstanding these benefits, India's central and state governments remain significantly involved in the Indian economy as regulators. The elimination of any of the benefits realized by Cognizant from its Indian operations could have a material adverse effect on Cognizant's business, results of operations and financial condition.

Since 1991, successive governments in India have pursued policies of economic reform, including significantly relaxing restrictions on the private sector. The current Indian government, formed in October 1999, is a coalition of several parties, including some small regional parties. The withdrawal of one or more of these parties from the current coalition could result in political instability. Political instability or further changes in the government in India could delay the reform of the Indian economy and adversely affect economic conditions in India generally, which could impact Cognizant's financial results and prospects. The current Indian government has generally pursued policies and taken initiatives that support the continued economic reform policies that have been pursued by previous governments. Cognizant cannot assure you, however, that these policies and initiatives will continue in the future. The rate of economic reform could change, and specific laws and policies affecting technology companies, foreign investment, currency exchange and other matters affecting Cognizant's business could change as well. A significant change in India's economic reform and deregulation policies could adversely affect business and economic conditions in India generally and Cognizant's business in particular.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

No assurance can be given that Cognizant will not be adversely affected by changes in inflation, interest rates, taxation, social stability or other political, economic or diplomatic developments in or affecting India in the future.

HOSTILITIES BETWEEN THE UNITED STATES AND IRAQ COULD ADVERSELY AFFECT COGNIZANT'S BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS AND IMPAIR ITS ABILITY TO SERVICE ITS CUSTOMERS.

Tensions between the United States and Iraq have recently escalated as the United States has threatened to take military action against Iraq. Hostilities involving the United States, or

20

military or travel disruptions and restrictions affecting Cognizant's employees, could materially adversely affect Cognizant's operations and its ability to service its customers. As of December 31, 2002, approximately 73% of Cognizant's technical professionals were located in India, and the vast majority of Cognizant's technical professionals in the United States and Europe are Indian nationals who are able to work in the United States only because they hold current visas. A military action by the United States against Iraq would likely further disrupt travel and the ability to obtain visas to enter into the United States. Travel restrictions could cause Cognizant to incur additional unexpected labor costs and expenses or could restrain Cognizant's ability to retain the skilled professionals it needs for its operations in the United States and Europe.

COGNIZANT'S INTERNATIONAL SALES AND OPERATIONS ARE SUBJECT TO MANY UNCERTAINTIES.

Revenues from customers outside North America represented 16%, 14% and 13% of Cognizant's revenues for 2000, 2001 and the nine months ended September 30, 2002, respectively. Cognizant anticipates that revenues from customers outside North America will continue to account for a material portion of its revenues in the foreseeable future and may increase as Cognizant expands its international presence, particularly in Europe. In addition, a substantial majority of Cognizant's employees and almost all of its IT development centers are located in India. As a result, Cognizant may be subject to risks associated with international operations, including risks associated with foreign currency exchange rate fluctuations and risks associated with the application and imposition of protective legislation and regulations relating to import or export or otherwise resulting from foreign policy or the variability of foreign economic conditions. To date, Cognizant has not engaged in any hedging transactions to mitigate its risks relating to exchange rate fluctuations. Additional risks associated with international operations include difficulties in enforcing intellectual property rights, the burdens of complying with a wide variety of foreign laws, potentially adverse tax consequences, tariffs, quotas and other barriers and potential difficulties in collecting accounts receivable. There can be no assurance that these and other factors will not have a material adverse effect on Cognizant's business, results of operations and financial condition.

COGNIZANT FACES INTENSE COMPETITION FROM OTHER IT SERVICE PROVIDERS.

The intensely competitive IT professional services market includes a large number of participants and is subject to rapid change. This market includes participants from a variety of market segments, including:

- systems integration firms;

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

- contract programming companies;
- application software companies;
- Internet solutions providers;
- the professional services groups of computer equipment companies; and
- facilities management and outsourcing companies.

The market also includes numerous smaller local competitors in the various geographic markets in which Cognizant operates. Cognizant's direct competitors who use the on-site/offshore business model include, among others, Infosys, Inc., Satyam Computer Services Limited, Tata Consultancy Services and WIPRO Ltd. In addition, many of Cognizant's competitors have significantly greater financial, technical and marketing resources and greater name recognition than does Cognizant. Some of these larger competitors, such as Accenture Ltd., Electronic Data Systems Corporation and IBM Global Services, have announced their intentions to develop their offshore operations in order to lower their cost structure. Cognizant cannot

21

assure you that it will be able to sustain its current levels of profitability or growth as competitive pressures, including competition for skilled IT development professionals and pricing pressure from competitors employing an on-site/offshore business model, increase.

COGNIZANT'S BUSINESS WILL SUFFER IF IT FAILS TO DEVELOP NEW SERVICES AND ENHANCE ITS EXISTING SERVICES IN ORDER TO KEEP PACE WITH THE RAPIDLY EVOLVING TECHNOLOGICAL ENVIRONMENT.

The IT services market is characterized by rapid technological change, evolving industry standards, changing customer preferences and new product and service introductions. Cognizant's future success will depend on its ability to develop solutions that keep pace with changes in the IT services market. There can be no assurance that Cognizant will be successful in developing new services addressing evolving technologies on a timely or cost-effective basis or, if these services are developed, that Cognizant will be successful in the marketplace. In addition, there can be no assurance that products, services or technologies developed by others will not render Cognizant's services non-competitive or obsolete. Cognizant's failure to address these developments could have a material adverse effect on its business, results of operations and financial condition.

Cognizant's ability to remain competitive will also depend on its ability to design and implement, in a timely and cost-effective manner, solutions for customers moving from the mainframe environment to client/server or other advanced architectures. Cognizant's failure to design and implement solutions in a timely and cost-effective manner could have a material adverse effect on Cognizant's business, results of operations and financial condition.

COMPETITION FOR HIGHLY SKILLED TECHNICAL PERSONNEL IS INTENSE AND THE SUCCESS OF COGNIZANT'S BUSINESS DEPENDS ON ITS ABILITY TO ATTRACT AND RETAIN HIGHLY SKILLED PROFESSIONALS.

Cognizant's future success will depend to a significant extent on its ability to attract, train and retain highly skilled IT development professionals. In particular, Cognizant needs to attract, train and retain project managers, IT engineers and other senior technical personnel. Cognizant believes there is a shortage of, and significant competition for, IT development

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

professionals in the United States and India with the advanced technological skills necessary to perform the services Cognizant offers. Cognizant has subcontracted, to a limited extent in the past, and may do so in the future, with other service providers in order to meet its obligations to its customers. Cognizant's ability to maintain and renew existing engagements and obtain new business will depend, in large part, on its ability to attract, train and retain technical personnel with the skills that keep pace with continuing changes in information technology, evolving industry standards and changing customer preferences. Further, Cognizant must train and manage its growing work force, requiring an increase in the level of responsibility for both existing and new management personnel. There can be no assurance that the management skills and systems currently in place will be adequate or that Cognizant will be able to train and assimilate new employees successfully. Cognizant's failure to attract, train and retain current or future employees could have a material adverse effect on its business, results of operations and financial condition.

COGNIZANT'S GROWTH MAY BE HINDERED BY IMMIGRATION RESTRICTIONS.

Cognizant's future success will depend on its ability to attract and retain employees with technical and project management skills from developing countries, especially India. The vast majority of Cognizant's IT professionals in the United States and in Europe are Indian nationals. The ability of Indian nationals to work in the United States depends on their ability and the ability of Cognizant to obtain the necessary visas and work permits.

The H-1B visa classification enables U.S. employers to hire qualified foreign workers in positions which require an education at least equal to a U.S. Baccalaureate Degree in specialty occupations such as IT systems engineering and systems analysis. The H-1B visa usually

22

permits an individual to work and live in the United States for a period of up to six years. There is a limit on the number of new H-1B petitions that the U.S. Immigration and Naturalization Service may approve in any federal fiscal year, and in years in which this limit is reached, Cognizant may be unable to obtain H-1B visas necessary to bring foreign employees to the United States. In the current federal fiscal year, the limit is 195,000. This cap is currently not expected to be reached. However, in the fiscal year beginning October 1, 2003, because of changes in U.S. immigration law, the number of H-1B visas available to employers will be reduced to 65,000. In addition, there are strict labor regulations associated with the H-1B visa classification. Higher users of the H-1B visa program are often subject to investigations by the Wage and Hour Division of the U.S. Department of Labor. A finding by the U.S. Department of Labor of willful or substantial failure by Cognizant to comply with existing regulations on the H-1B classification may result in a bar on future work-authorized nonimmigrant or immigrant petitions.

Cognizant also regularly transfers employees of its subsidiaries in India to the United States to work on projects and at client sites, using the L-1 visa classification. The L-1 visa allows companies abroad to transfer certain managers, executives and employees with specialized company knowledge to related U.S. companies such as a parent, subsidiary, affiliate, joint venture or branch office. Cognizant has an approved "Blanket L Program," under which the corporate relationships of its transferring and receiving entities have been pre-approved by the INS, thus enabling individual L-1 applications to be presented directly to a U.S. consular post abroad rather than undergoing the pre-approval process in the United States. While there have been no major changes in the law or regulations governing the L-1 categories, both the U.S. consular posts that review initial L-1 applications and the INS office, which adjudicates extensions of L-1 status, have become more restrictive with respect to this category in the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

recent past. As a result, the rate of refusals of initial L-1 applications and of extension denials has increased. In addition, even where L-1 visas are ultimately granted and issued, security measures undertaken by U.S. consular posts around the world have caused major delays in visa issuances. Cognizant's inability to bring qualified technical personnel into the United States to staff on-site customer locations would have a material adverse effect on Cognizant's business, results of operations and financial condition.

Cognizant also processes immigrant visas for lawful permanent residence for employees to fill positions for which there are no able, willing and qualified U.S. workers available to fill the positions. Compliance with existing U.S. immigration and labor laws, or changes in those laws making it more difficult to hire foreign nationals or limiting Cognizant's ability to successfully obtain permanent residence for its foreign employees in the United States, could require Cognizant to incur additional unexpected labor costs and expenses or could restrain Cognizant's ability to retain the skilled professionals it needs for its operations in the United States. Any of these restrictions or limitations on Cognizant's hiring practices could have a material adverse effect on Cognizant's business, results of operations and financial condition.

In addition to immigration restrictions in the United States, there have recently been changes to work permit legislation in the United Kingdom, where Cognizant has experienced significant growth. Under the new regulations, in order for Cognizant to transfer its employees to the United Kingdom, either from the United States or from India, it must demonstrate that the employee had been employed by Cognizant for at least six months prior to the transfer. These restrictions restrain Cognizant's ability to retain the skilled professionals it needs for its operations in Europe, and could have an adverse affect on Cognizant's international strategy to expand its presence in Europe. As a result, the changes to work permit legislation in the United Kingdom could have a material adverse effect on Cognizant's business, results of operations and financial condition.

Immigration and work permit laws and regulations in the United States, the United Kingdom and other countries is subject to legislative and administrative changes as well as changes in the application of standards and enforcement. Immigration and work permit laws and regulation can

23

be significantly effected by political forces and levels of economic activity. Cognizant's international expansion strategy and its business, results of operations and financial condition may be materially adversely affected if changes in immigration and work permit laws and regulations or the administration or enforcement of such laws or regulations impairs Cognizant's ability to staff projects with IT professionals who are not citizens of the country where the work is to be performed.

COGNIZANT'S ABILITY TO OPERATE AND COMPETE EFFECTIVELY COULD BE IMPAIRED IF IT LOSES KEY PERSONNEL.

Cognizant's future performance depends to a significant degree upon the continued service of the key members of its management team, as well as marketing, sales and technical personnel, and its ability to attract and retain new management and other personnel. Cognizant does not maintain key man life insurance on any of its executive officers or significant employees. Competition for personnel is intense, and there can be no assurance that Cognizant will be able to retain its key employees or that it will be successful in attracting and retaining new personnel in the future. The loss of any one or more of Cognizant's key personnel or the failure to attract and retain key personnel could have a material adverse effect on Cognizant's business, results of operations and financial condition.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Cognizant has entered into non-competition agreements with its executive officers. There can be no assurance that the restrictions in these agreements prohibiting the executive officers from engaging in competitive activities are enforceable. Further, substantially all of Cognizant's professional non-executive staff are not covered by agreements that would prohibit them from working for Cognizant's competitors. If any of Cognizant's key professional personnel leaves Cognizant and joins a competitor of Cognizant, Cognizant's business could be adversely affected.

COGNIZANT'S EARNINGS MAY BE ADVERSELY AFFECTED IF IT CHANGES ITS INTENT NOT TO REPATRIATE EARNINGS IN INDIA.

During the first quarter of 2002, Cognizant made a strategic decision to pursue an international strategy that includes expanded infrastructure investments in India and geographic expansion in Europe and Asia. As a component of this strategy, Cognizant intends to use 2002 and future Indian earnings to expand its operations outside the United States instead of repatriating those earnings to the United States. Accordingly, effective January 1, 2002, pursuant to Accounting Principles Bulletin 23, Cognizant will no longer accrue taxes on the repatriation of earnings recognized in 2002 and subsequent periods as these earnings are now considered to be indefinitely reinvested outside the United States. This change in intent resulted in an estimated effective tax rate for the nine months ended September 30, 2002 of approximately 23%, compared to an effective tax rate for fiscal 2001 of approximately 37%. However, Cognizant's cash requirements could change over time, which could effectively force it to change its intent on repatriating Indian earnings. If Cognizant's earnings are intended to be repatriated in the future, or are no longer reinvested outside the United States, Cognizant will have to accrue the applicable amount of taxes associated with those earnings and pay taxes at a substantially higher tax rate than the effective rate in 2002. These increased taxes could have a material adverse effect on Cognizant's business, results of operations and financial condition, as well as cash flows to fund such taxes. In addition, Cognizant may need to accelerate the payment of significant deferred taxes, which would have a significant impact on its cash position.

COGNIZANT'S EARNINGS MAY BE ADVERSELY AFFECTED IF IT CHANGES ITS ACCOUNTING POLICY WITH RESPECT TO EMPLOYEE STOCK OPTIONS.

Stock options are an important component of compensation packages for most of Cognizant's mid- and senior-level employees. Cognizant currently does not deduct the expense of employee stock option grants from its income. Many companies, however, are considering a change to their accounting policies to record the value of stock options issued to employees as

24

an expense and changes in the accounting treatment of stock options are currently under consideration by the International Accounting Standards Board and other accounting standards-setting bodies. If Cognizant were to change its accounting policy with respect to the treatment of employee stock option grants, its earnings could be materially adversely affected.

A SIGNIFICANT PORTION OF COGNIZANT'S PROJECTS IS ON A FIXED-PRICE BASIS, SUBJECTING COGNIZANT TO THE RISKS ASSOCIATED WITH COST OVER-RUNS AND OPERATING COST INFLATION.

Cognizant contracts to provide services either on a time-and-materials basis or on a fixed-price basis, with fixed-price contracts accounting for approximately 24% and 26% of revenues for the year ended December 31, 2001 and the nine months ended September 30, 2002, respectively. Cognizant expects that

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

an increasing number of its future projects will be contracted on a fixed-price basis. Cognizant bears the risk of cost over-runs and operating cost inflation in connection with projects covered by fixed-price contracts. Cognizant's failure to estimate accurately the resources and time required for a fixed-price project, or its failure to complete its contractual obligations within the time frame committed, could have a material adverse effect on Cognizant's business, results of operations and financial condition.

COGNIZANT'S BUSINESS MAY SUFFER IF IT IS UNABLE TO MANAGE ITS RAPID GROWTH.

Since Cognizant began providing software development and maintenance services in early 1994, Cognizant's professional and support staff has increased from approximately 25 to over 6,000 at December 31, 2002. Cognizant's anticipated growth will continue to place significant demands on its management and other resources. In particular, Cognizant will have to continue to increase the number of its personnel, particularly skilled technical, marketing and management personnel, and continue to develop and improve its operational, financial, communications and other internal systems. Cognizant's inability to manage its anticipated growth effectively could have a material adverse effect on Cognizant's business, results of operations and financial condition.

As part of its growth strategy, Cognizant is expanding its operations in Europe and Asia. Cognizant may not be able to compete effectively in these markets and the cost of entering these markets may be substantially greater than it expects. If it fails to compete effectively in the new markets it enters, or if the cost of entering those markets is substantially greater than it expects, Cognizant's business, results of operations and financial condition could be adversely affected. In addition, if Cognizant cannot compete effectively, it may be required to reconsider its strategy to invest in its international expansion plans and change its intent on the repatriation of its earnings.

COGNIZANT RELIES ON A FEW CUSTOMERS FOR A LARGE PORTION OF ITS REVENUES.

Approximately 40%, 35% and 39% of Cognizant's revenues in years ended December 31, 2000 and 2001 and the nine months ended September 30, 2002, respectively, were generated from its top five customers, including IMS Health. Approximately 10%, 11% and 10% of Cognizant's revenues in years ended December 31, 2000 and 2001 and the nine months ended September 30, 2002 were generated from IMS Health and its subsidiaries. The volume of work performed for specific customers is likely to vary from year to year, and a major customer in one year may not use Cognizant's services in a subsequent year. The loss of one of Cognizant's large customers could have a material adverse effect on its business, results of operations and financial condition.

COGNIZANT GENERALLY DOES NOT HAVE LONG-TERM CONTRACTS WITH ITS CUSTOMERS.

Consistent with industry practice, Cognizant generally does not enter into long-term contracts with its customers. As a result, Cognizant is substantially exposed to volatility in the market for its services, and may not be able to maintain its level of profitability. If Cognizant is unable to market its services on terms it finds acceptable, its financial condition and results of operations could suffer materially.

25

COGNIZANT'S OPERATING RESULTS EXPERIENCE SIGNIFICANT QUARTERLY FLUCTUATIONS.

Cognizant historically has experienced significant quarterly fluctuations in its revenues and results of operations and expects these fluctuations to continue. Among the factors causing these variations have been:

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

- the number, timing, scope and contractual terms of IT development and maintenance projects in which Cognizant is engaged;
- delays incurred in the performance of those projects;
- the accuracy of estimates of resources and time required to complete ongoing projects; and
- general economic conditions.

In addition, Cognizant's future revenues, operating results and margins may fluctuate as a result of:

- changes in pricing in response to customer demand and competitive pressures;
- the mix of on-site and offshore staffing;
- the ratio of fixed-price contracts versus time-and-materials contracts;
- employee wage levels and utilization rates;
- the timing of collection of accounts receivable; and
- the breakdown of revenues by distribution channel.

A high percentage of Cognizant's operating expenses, particularly personnel and rent, are relatively fixed in advance of any particular quarter. As a result, unanticipated variations in the number and timing of Cognizant's projects or in employee wage levels and utilization rates may cause significant variations in operating results in any particular quarter, and could result in losses to Cognizant. Any significant shortfall of revenues in relation to Cognizant's expectations, any material reduction in utilization rates for Cognizant's professional staff or variance in the on-site, offshore staffing mix, an unanticipated termination of a major project, a customer's decision not to pursue a new project or proceed to succeeding stages of a current project or the completion during a quarter of several major customer projects could require Cognizant to pay underutilized employees and could therefore have a material adverse effect on Cognizant's business, results of operations and financial condition.

As a result of these factors, it is possible that in some future periods Cognizant's revenues and operating results may be significantly below the expectations of public market analysts and investors. In such an event, the price of Cognizant's common stock would likely be materially and adversely affected.

COGNIZANT MAY NOT BE ABLE TO SUSTAIN ITS CURRENT LEVEL OF PROFITABILITY.

Cognizant's gross margin of 49% and 47% for the year ended December 31, 2001 and the nine months ended September 30, 2002, respectively, may decline if it experiences declines in demand and pricing for its services. In addition, wages in India are increasing at a faster rate than in the United States, which could result in Cognizant incurring increased costs for technical professionals. Although Cognizant has been able to partially offset pricing pressures and wage increases through its low-cost operating structure, it cannot assure you that it will be able to continue to do so in the future.

LIABILITY CLAIMS COULD HAVE A MATERIAL ADVERSE EFFECT ON COGNIZANT'S BUSINESS.

Many of Cognizant's engagements involve projects that are critical to the operations of its customers' businesses and provide benefits that are difficult

to quantify. Any failure in a

26

customer's computer system could result in a claim for substantial damages against Cognizant, regardless of Cognizant's responsibility for the failure. Although Cognizant attempts to limit by contract its liability for damages arising from negligent acts, errors, mistakes or omissions in rendering its IT development and maintenance services, there can be no assurance that any contractual limitations on liability will be enforceable in all instances or will otherwise protect Cognizant from liability for damages. Although Cognizant has general liability insurance coverage, including coverage for errors or omissions, there can be no assurance that coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. The successful assertion of one or more large claims against Cognizant that exceed available insurance coverage or changes in Cognizant's insurance policies, including premium increases or the imposition of large deductible or co-insurance requirements, could have a material adverse effect on Cognizant's business, results of operations and financial condition.

COGNIZANT MAY BE SUBJECT TO LEGACY DUN & BRADSTREET LIABILITIES THAT COULD HAVE AN ADVERSE EFFECT ON COGNIZANT'S RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

In 1996, The Dun & Bradstreet Corporation, now known as R.H. Donnelly Corporation, split itself into three separate companies: The Dun & Bradstreet Corporation, Cognizant Corporation and ACNielsen Corporation. In connection with the split-up transaction, The Dun & Bradstreet Corporation, Cognizant Corporation (renamed Nielsen Media Research), of which Cognizant Technology Solutions Corporation was once a part, and ACNielsen Corporation (now a subsidiary of the Dutch company VNU N.A.) entered into a distribution agreement. In the 1996 distribution agreement, each party assumed the liabilities relating to the businesses allocated to it and agreed to indemnify the other parties and their subsidiaries against those liabilities and certain other matters. The 1996 distribution agreement also prohibited each party thereto from distributing to its stockholders any business allocated to it unless the distributed business delivered undertakings agreeing to be jointly and severally liable to the other parties under the 1996 distribution agreement for the liabilities of the distributing parent company under the 1996 distribution agreement. IMS Health made such undertaking when it was spun off by Nielsen Media Research in 1998 and, accordingly, IMS Health and Nielsen Media Research are jointly and severally liable to R.H. Donnelly and ACNielsen for Cognizant Corporation obligations under the terms of the 1996 distribution agreement. IMS Health has requested similar undertakings from Cognizant Technology Solutions Corporation as a condition to the distribution of Cognizant shares in the exchange offer. IMS Health is obligated to procure similar undertakings from Cognizant Technology Solutions Corporation to Nielsen Media Research and Synavant Inc. with respect to liabilities allocated to IMS Health in connection with Nielsen Media Research's spin-off of IMS Health and IMS Health's spin-off of Synavant Inc. In connection with the exchange offer, Cognizant Technology Solutions Corporation has given these undertakings and, as a result, Cognizant Technology Solutions Corporation may be subject to claims in the future in relation to legacy liabilities.

One possible legacy liability arises from a pending antitrust action filed by Information Resources Inc. in 1996, which names as joint defendants all parties to the 1996 distribution agreement. Information Resources' complaint alleges damages in excess of \$350 million, which amount it has asked to be trebled, plus punitive damages. ACNielsen Corporation agreed in connection with the 1996 distribution agreement to assume any and all liabilities resulting from the Information Resources claim to the extent that ACNielsen remains financially viable. In connection with VNU's acquisition of ACNielsen in 2001, VNU was

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

required to assume this liability and to be included with ACNielsen for purposes of determining the amount that can be paid by ACNielsen in respect of any claim. IMS Health and Nielsen Media Research, Inc., successors to Cognizant Corporation, have agreed to share liabilities in excess of the amount ACNielsen is required to pay under the 1996 distribution agreement in respect of this claim on a 50-50 basis with The Dun & Bradstreet Corporation (subsequently separated into The Dun &

27

Bradstreet Corporation and Moody's Corporation). IMS Health and Nielsen Media Research, Inc. further agreed to share their portion of the liabilities in relation to the Information Resources action on a 75-25 basis, subject to Nielsen Media Research, Inc.'s liability in respect of the Information Resources action and certain other contingent liabilities being capped at \$125 million. Pursuant to its undertaking, Cognizant Technology Solutions Corporation could be held liable for those amounts that VNU, IMS Health, Nielsen Media Research, Inc., and The Dun & Bradstreet Corporation and their successors are unable or unwilling to pay.

Other claims have arisen in the past and may arise in the future under the 1996 distribution agreement or the distribution agreements relating to Nielsen Media Research's spin-off of IMS Health and IMS Health's spin-off of Synavant Inc., in which case Cognizant Technology Solutions Corporation may be jointly and severally liable for any losses suffered by the parties entitled to indemnification.

IMS Health has agreed to indemnify Cognizant Technology Solutions Corporation for any and all liabilities that arise out of its undertakings to be jointly and severally liable for these liabilities, but if for any reason IMS Health does not perform on its indemnification obligation, these liabilities could have a material adverse effect on Cognizant's financial condition and results of operations.

COGNIZANT EXPECTS THAT THE COST OF INSURANCE WILL INCREASE, AND THE SCOPE OF ITS COVERAGE WILL DECREASE, FOLLOWING COMPLETION OF THE EXCHANGE OFFER.

Historically, Cognizant has benefited from insurance coverage provided under policies obtained by IMS Health for itself and its subsidiaries. Following completion of the exchange offer, Cognizant will be required to obtain its own separate insurance policies for director and officer liability and general liability. Cognizant expects the costs associated with the new insurance policies will be substantially higher than the cost of the shared policy due to reduced leverage in negotiating terms and general increases in insurance premiums. In addition, Cognizant expects that the scope of its coverage will also be reduced under the new policies.

COGNIZANT MAY BE UNABLE TO PROTECT ITS INTELLECTUAL PROPERTY RIGHTS.

Cognizant's future success will depend in part on its ability to protect its intellectual property rights. Cognizant presently holds no patents or registered copyrights, and relies upon a combination of copyright and trade secret laws, non-disclosure and other contractual arrangements and various security measures to protect its intellectual property rights. India is a member of the Berne Convention, and has agreed to recognize protections on copyrights conferred under the laws of foreign countries, including the laws of the United States. Cognizant believes that laws, rules, regulations and treaties in effect in the United States and India are adequate to protect it from misappropriation or unauthorized use of its copyrights. However, there can be no assurance that these laws will not change and, in particular, that the laws of India will not change in ways that may prevent or restrict the transfer of software components,

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

libraries and toolsets from India to the United States. There can be no assurance that the steps taken by Cognizant to protect its intellectual property rights will be adequate to deter misappropriation of any of its intellectual property, or that Cognizant will be able to detect unauthorized use and take appropriate steps to enforce its rights. Unauthorized use of Cognizant's intellectual property may result in development of technology, products or services which compete with Cognizant's products and unauthorized parties may infringe upon or misappropriate Cognizant's products, services or proprietary information.

Although Cognizant believes that its intellectual property rights do not infringe on the intellectual property rights of any of its competitors or others, there can be no assurance that infringement claims will not be asserted against Cognizant in the future, that assertion of infringement claims will not result in litigation or that Cognizant would prevail in that litigation or be able to obtain a license for the use of any infringed intellectual property from a third party on

28

commercially reasonable terms, if at all. Cognizant expects that the risk of infringement claims against Cognizant will increase if Cognizant's competitors are able to obtain patents for software products and processes. Any infringement claims, regardless of their outcome, could result in substantial cost to Cognizant and divert management's attention from Cognizant's operations. Any infringement claim or litigation against Cognizant could, therefore, have a material adverse effect on Cognizant's business, results of operations and financial condition.

COGNIZANT MAY BE UNABLE TO INTEGRATE ACQUIRED COMPANIES OR TECHNOLOGIES SUCCESSFULLY.

Cognizant believes that opportunities exist in the fragmented IT services market to expand its business through selective strategic acquisitions and joint ventures. Cognizant believes that acquisition and joint venture candidates may enable it to expand its geographic presence, especially in the European market, enter new technology areas or expand its capacity. There can be no assurance that Cognizant will identify suitable acquisition candidates available for sale at reasonable prices, consummate any acquisition or joint venture or successfully integrate any acquired business or joint venture into its operations. Further, acquisitions and joint ventures involve a number of special risks, including diversion of management's attention, failure to retain key personnel, unanticipated events or circumstances and legal liabilities, some or all of which could have a material adverse effect on Cognizant's business, results of operations and financial condition. Cognizant may finance any future acquisitions with debt financing, the issuance of equity securities or a combination of the foregoing. There can be no assurance that Cognizant will be able to arrange adequate financing on acceptable terms. In addition, acquisitions financed with the issuance of Cognizant's equity securities could be dilutive.

PROVISIONS IN COGNIZANT'S CHARTER AND BY-LAWS, THE PROPOSED ADOPTION OF A STOCKHOLDERS' RIGHTS PLAN AND PROVISIONS UNDER DELAWARE LAW MAY DISCOURAGE UNSOLICITED TAKEOVER PROPOSALS.

Provisions in Cognizant's charter and by-laws, each as to be amended following the completion of the exchange offer, the proposed stockholders' rights plan expected to be adopted in connection with the completion of the exchange offer and Delaware General Corporate Law may have the effect of deterring unsolicited takeover proposals or delaying or preventing changes in control or management of Cognizant, including transactions in which stockholders

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

might otherwise receive a premium for their shares over then current market prices. In addition, these documents and provisions may limit the ability of stockholders to approve transactions that they may deem to be in their best interests. Cognizant's board of directors has the authority, without further action by the stockholders, to fix the rights and preferences, and issue shares, of preferred stock. Cognizant's charter, as it will be amended following completion of the exchange offer, will provide for a classified board of directors, which once implemented, will prevent a change of control of Cognizant's board of directors at a single meeting of stockholders. The elimination of Cognizant's stockholders' ability to act by written consent and to call a special meeting will delay stockholder actions until annual meetings or until a special meeting is called by Cognizant's chairman or chief executive officer or its board of directors. The supermajority voting requirement for specified amendments to Cognizant's charter and by-laws allows a minority of Cognizant's stockholders to block those amendments. The DGCL also contains provisions preventing stockholders from engaging in business combinations with Cognizant, subject to certain exceptions. These provisions could also discourage bids for Cognizant's common stock at a premium as well as create a depressive effect on the market price of the shares of Cognizant's common stock.

29

SPECIAL NOTE ON FORWARD-LOOKING INFORMATION

This document, as well as information included in oral statements or other written statements made or to be made by IMS Health and Cognizant, contain forward-looking statements. The words such as "believe," "expect," "anticipate," "intend," "plan," "foresee," "likely," "project," "estimate," "will," "may," "should," "future," "predicts," "potential," "continue" and similar expressions identify these forward-looking statements which appear in a number of places in this document and include, but are not limited to, all statements relating to the exchange offer, plans for future growth and other business development activities as well as capital expenditures, financing sources, dividends and the effects of regulation and competition, foreign currency conversion and all other statements regarding the intent, plans, beliefs or expectations of IMS Health, Cognizant or their directors or officers.

You are cautioned that such forward-looking statements are not assurances for future performance or events and involve risks and uncertainties that could cause actual results and developments to differ materially from those covered in such forward-looking statements due to a number of factors, including those discussed in the sections of this document entitled "Risk Factors" and "Management's Discussion and Analysis of Results of Operations and Financial Condition of Cognizant" in this document and those discussed in our Form 10-K for 2001, Form 10-Q for the period ended September 30, 2002 and in Cognizant's Form 10-K for 2001 and Form 10-Q for the period ended September 30, 2002, each of which have been incorporated into this document by reference. To find out where you can obtain copies of our and Cognizant's incorporated documents, see "Where You Can Find More Information." These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of the forward-looking statements contained in this document.

With respect to IMS Health, these factors include, but are not limited to, the following:

- operating on a global basis, including fluctuations in the value of foreign currencies relative to the U.S. dollar, and the ability to successfully hedge such risks -- IMS Health derived 54% of its revenue in 2001 from non-U.S. operations, including from Cognizant;

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

- to the extent IMS Health seeks growth through acquisitions, alliances or joint ventures, the ability to identify, consummate and integrate acquisitions, alliances and ventures on satisfactory terms;
- the ability to develop, update and replace new or advanced technologies, including sophisticated information systems, software and other technology used to deliver its products and services and the exposure to the risk of obsolescence or incompatibility of these technologies with those of its customers or suppliers;
- the ability of the Company to maintain and defend its intellectual property rights in jurisdictions around the world;
- regulations to which the Company is or may become subject relating to patient privacy and the collection and dissemination of data and, specifically, the use of anonymized patient-specific information, which the Company anticipates to be an increasingly important tool in the design, development and marketing of pharmaceuticals;
- regulations to which customers of the Company in the pharmaceutical industry are or may become subject restricting the prices that may be charged for subscription or other pharmaceutical products or the manner in which such products may be marketed or sold;
- increased restrictions on the use of data by, or the refusal to license data to IMS Health by distributors of pharmaceutical products and other suppliers of such information;
- deterioration in economic conditions, particularly in the pharmaceutical, healthcare, or other industries in which IMS Health's customers may operate;

30

- consolidation in the pharmaceutical industry and the other industries in which IMS Health's customers operate;
- conditions in the securities markets which may affect the value or liquidity of portfolio investments, including the investment in TriZetto, and management's estimates of lives of assets, recoverability of assets, fair market value, estimates and liabilities and accrued income tax benefits and liabilities;
- to the extent unforeseen cash needs arise, the ability to obtain financing on favorable terms;
- the ability to identify and implement cost-containment measures;
- the ability to successfully maintain historic effective tax rates and to achieve estimated corporate overhead levels;
- competition, particularly in the markets for pharmaceutical information;
- terrorist activity, the threat of terrorist activity, and responses to and results of terrorist activity and threats, including but not limited to effects, domestically and/or internationally, on IMS Health, its personnel and facilities, its customers and suppliers, financial markets and general economic conditions; and
- general economic conditions.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

With respect to Cognizant, these factors include, but are not limited to, the following:

- the significant fluctuations of Cognizant's quarterly operating results caused by a variety of factors, many of which are not within Cognizant's control, including
 - the number, timing, scope and contractual terms of application design, development and maintenance projects,
 - delays in the performance of projects,
 - the accuracy of estimates of costs, resources and time to complete projects,
 - seasonal patterns of Cognizant's services required by customers,
 - potential adverse impact of new tax legislation,
 - levels of market acceptance for Cognizant's services, and
 - the hiring of additional staff;
- changes in Cognizant's billing and employee utilization rates;
- Cognizant's ability to manage its growth effectively, which will require Cognizant
 - to increase the number of its personnel, particularly skilled technical, marketing and management personnel,
 - to find suitable acquisition and joint venture candidates to support geographic expansion, and
 - to continue to develop and improve its operational, financial, communications and other internal systems, in the United States, Europe and India;
- Cognizant's limited operating history with unaffiliated customers;
- Cognizant's reliance on key customers and large projects;
- the highly competitive nature of the markets for Cognizant's services;

31

- Cognizant's ability to successfully address the continuing changes in information technology, evolving industry standards and changing customer objectives and preferences;
- Cognizant's reliance on the continued services of its key executive officers and leading technical personnel;
- Cognizant's ability to attract and retain a sufficient number of highly skilled employees in the future;
- Cognizant's ability to protect its intellectual property rights;
- the concentration of Cognizant's operations in India and the related geo-political risks of local and cross-border conflicts;

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

- terrorist activity, the threat of terrorist activity, and responses to and results of terrorist activity and threats, including but not limited to effects, domestically and/or internationally, on Cognizant, its personnel and facilities, its customers and suppliers, financial markets and general economic conditions;
 - the effects, domestically and/or internationally, on Cognizant, its personnel and facilities, its customers and suppliers, financial markets and general economic conditions arising from product information for reaching customers.
- We plan to commence an online program for providing demonstrations of our products to potential customers on an international basis.

Fonar has exhibited its new products at the annual meeting of the Radiological Society of North America ("RSNA") in Chicago from November 1995 through 2007 and plans to attend RSNA meetings in future years. The RSNA meeting is attended by radiologists from all over the world. Most manufacturers of MRI scanners regularly exhibit at this meeting.

Fonar has targeted orthopedic surgeons and neurosurgeons, particularly spine surgeons, as important markets for the Upright(R) MRI. Accordingly, Fonar has exhibited at annual meetings of The American Academy of Orthopaedic Surgeons (AAOS); the North American Spine Society (NASS); the American Association of Neurological Surgeons (AANS); and the Congress of Neurological Surgeons (CNS). In addition, in 2007, Fonar attended the Global Health Care Expansion Congress and the Abu Dhabi International Surgical Conference abroad.

Fonar's success in targeting surgeons was most evident in the sale, in September 2006, of an Upright(R) MRI scanner to the largest orthopedic hospital in the Netherlands, the St. Maartenskliniek in Nijmegen. In addition to being a key sale to a prestigious hospital, the medical conclusions reached and stated by the buyer and the buyer's intention to conduct research and publish articles concerning the Upright(R) technology, are a vital component to Fonar's objective to prove to the medical community at large, insurers, governmental agencies and others the benefits, if not necessity of Upright(R) scanning. A Director of St. Maartenskliniek and the Chairman of Spine Surgery stated that "We at St. Maartenskliniek, the biggest orthopedic hospital in the Netherlands, are very much looking forward to this new technology from Fonar which will enable us to evaluate the spine anatomy in the fully weight bearing state and in multiple positions. We expect these new multi-position capabilities to lead to more accurate diagnosis and better surgery outcomes for patients. Once our active research program has discovered the benefits of this new Fonar technology for patients, we intend to publish the results in a lot of peer reviewed scientific journals." The Chairman stated further "that once Fonar made available upright weight-bearing MRI imaging technology, owning one for the St. Maartenskliniek "Spine Center" was not optional but mandatory. For our hospital to continue to engage in spine surgery without it, once this new technology became available, was unacceptable".

Fonar's advertising strategy has been designed to reach key purchasing decision makers with information concerning our flagship product, the Upright(R) MRI. This has led to many inquiries and to some sales of the Upright(R) MRI scanner and is intended to increase Fonar's presence in the medical market. Fonar's advertising has been directed at four target audiences: neurosurgeons, orthopaedic surgeons, radiologists and physicians in general.

1) Neurosurgeons and Orthopaedic Surgeons: These are the surgeons who can most benefit from the superior diagnostic benefits of the Fonar Upright(R) MRI with its Multi-Position(TM) diagnostic ability. Advertisements to them have appeared in the journal Spine, The Journal of Neurosurgery, and the Journal of the American Academy of Orthopedic Surgery.

2) Radiologists: This segment of the campaign is aimed at the physicians

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

who now have a new modality to offer their referring physicians. Our advertisements directed to them have appeared in Radiology and Diagnostic Imaging.

3) All Physicians: These advertising efforts have been directed to the total physician audience, so that the vast number of doctors who send patients for MRI's are aware of the diagnostic advantages of the Fonar Upright(R) Multi-Position(TM) MRI. Advertisements directed to this audience have appeared in the Journal of the American Medical Association, which has a readership of over 350,000 physicians.

This advertising has featured a series of compelling messages. One advertisement pointed out that the AMA book, Guides to the Evaluation of Permanent Impairment, indicates that diagnosis must be performed upright in flexion and extension. Another advertisement was educational and headlined, "Discover the power of Upright Imaging". Fonar realizes that peer-to-peer communications is the most powerful way to speak to physicians. Consequently, testimonials from surgeons and radiologists have been used to promote our Upright(R) MRI scanner. The first such advertisement featured five surgeons and two radiologists, explaining the Multi-Position(TM) diagnostic benefits of the Fonar Upright(R) MRI scanner to them. Another advertisement featured a leading radiologist, telling why he bought 12 Fonar Upright(R) MRI scanners and planned to buy more.

Most recently, we have commenced a telemarketing campaign for the purpose of reaching prospective customers beyond the reach of our existing sales force, so they can be made aware of the medical benefits of Fonar's new Upright(R) MRI imaging technology.

We have an extensive advertising effort on Google, Yahoo and Bing Search Marketing. Enter relevant terms, such as "mri" or "mri for back pain", and an ad for Fonar will very likely appear in the paid search listings on the right side of the results page or along the top of it.

Also, our new advertising for HMCA also serves as advertising for Fonar MRI scanners. We are increasing internet awareness of and driving patient traffic to the Upright(R) scanning centers we manage, by installing new Websites for every location and embarking on a new internet advertising campaign. These websites and advertising give prospective customers of Upright(R) MRI scanners a view of operating Upright(R) MRI centers and the benefits of using an Upright(R) MRI scanner. The success of HMCA-managed sites not only increases management fees to HMCA but encourages new sales for Fonar as well.

To meet the demand for high field open MRI scanners, Fonar plans to devote its principal efforts to marketing the Upright(R) MRI. The Upright(R) MRI is the only scanner in the industry that has the unique capability of scanning patients under weight-bearing conditions and in various positions of pain or other symptoms. In addition we will continue to market our Fonar 360(TM) MRI scanners. Utilizing a 6000 gauss (0.6 Tesla field strength) iron core electromagnet, the Upright(R) MRI and Fonar 360(TM) scanner magnets are among the highest field "open MRI" scanners in the industry. Announcements in the press have reported the occurrence of MRI scanner explosions secondary to entrapped helium gas evaporating from the liquid helium that circulates in conventional MRI scanners to refrigerate the super-conducting wire generating the magnet fields of these magnets. Fonar's Upright(R) MRI magnet does not utilize liquid Helium and is free of this liability as is the Fonar 360(TM).

The Upright(R) MRI is also suited to fill a demand for better diagnoses of scoliosis patients, who must be standing for the exam. Scoliosis patients are typically subjected to routine x-ray exams for years. In the past, an x-ray machine was the only modality that could provide that service. Typical MRI scanners cannot provide this service because the patient cannot stand up inside of them. The Fonar Upright(R) MRI scanner is the only MRI scanner which allows

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

the patient to stand during the exam. The Fonar Upright(R) Scanner avoids radiation of the x-ray machines currently used for scoliosis, which have been reported by the National Cancer Institute to cause a 70% increase in the risk of breast cancer. Other important new applications are Upright(R) imaging of the pelvic floor and abdomen to image prolapses and inguinal hernias. Fonar has also developed the first non-invasive method to image the prostate: the patient simply sits on a flat, seat-like coil.

We also will seek to introduce new MRI applications for our scanners such as MRI-directed interventions.

Our areas of operations are principally in the United States. During the fiscal year ended June 30, 2009, 13.2% of the Company's revenues were generated by foreign sales, as compared to 2.4% for fiscal 2008.

We are seeking to promote foreign sales and have sold scanners in various foreign countries. Foreign sales, however, have not yet proved to be a significant source of revenue.

SERVICE AND UPGRADES FOR MRI SCANNERS

Our customer base of installed scanners has been and will continue to be an additional source of income, independent of direct sales.

Income is generated from the installed base in two principal areas namely, service and upgrades. Service and maintenance revenues from our external installed base were approximately \$10.5 million in fiscal 2009 and \$11.0 million in fiscal 2008. We expect service revenues to continue to increase as warranties expire on previously sold scanners, and the customers then enter into service contracts.

We also anticipate that our new scanners will result in upgrades income in future fiscal years. The potential for upgrades income, particularly in the form of new patient supporting upright imaging fixtures and receiver coils, originates in the versatility and productivity of the new Upright(R) Imaging technology. New medical uses for MRI technology are constantly being discovered and are anticipated for the Upright(R) Imaging technology as well. New features can often be added to the scanner by the implementation of little more than versatile new software packages. For example, software can be added to existing MRI angiography applications to synchronize angiograms with the cardiac cycle. By doing so the dynamics of blood vessel filling and emptying can be visualized with movies. Such enhancements are attractive to end users because they extend the useful life of the equipment and enable the user to avoid obsolescence and the expense of having to purchase new equipment. At the present time, however, upgrade revenue is not significant. We had no upgrade revenue in fiscal 2009 and fiscal 2008.

Service and upgrade revenues are expected to increase as sales of scanners and the size of the customer base increases.

RESEARCH AND DEVELOPMENT

During the fiscal year ended June 30, 2009, we incurred expenditures of \$4,085,177, \$491,707 of which was capitalized, on research and development, as compared to \$5,463,963, \$457,372 of which was capitalized during the fiscal year ended June 30, 2008.

Research and development activities have focused principally, on the development and enhancement of the Upright(R) and Fonar 360(TM) MRI scanners. The Upright(R) MRI and Fonar 360(TM) involve significant software and hardware development as the new products represent entirely new hardware designs and architecture requiring a new operating software. Our research activity includes developing a

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

multitude of new features for upright scanning made possible by the new high speed data processing power of Fonar's newest scanners. In addition, the Company's research and development efforts include the development of new software, such as its Sympulse(TM) software and hardware upgrade and the designing and continuing introduction of new receiver surface coils for the Upright(R) MRI.

BACKLOG

Our backlog of unfilled orders at September 30, 2009 was approximately \$25.7 million, as compared to \$36.5 million at September 26, 2008. It is expected that a substantial portion of the existing backlog of orders will be filled within the 2010 fiscal year. Our contracts generally provide that if a customer cancels an order, the customer's initial down payment for the MRI scanner is nonrefundable.

PATENTS AND LICENSES

We currently have numerous patents in effect which relate to the technology and components of the MRI scanners. We believe that these patents, and the know-how we have developed, are material to our business.

One of our patents, issued in the name of Dr. Damadian and licensed to Fonar, was United States patent No. 3,789,832, Apparatus and Method for Detecting Cancer in Tissue, also referred to as the "1974 Patent". The development of our MRI scanners have been based upon the 1974 Patent, and we believe that the 1974 Patent was the first of its kind to utilize MR to scan the human body and to detect cancer. The 1974 Patent was extended beyond its original 17-year term and expired in February, 1992.

We have significantly enhanced our patent position within the industry and now possesses a substantial patent portfolio which provides us, under the aegis of United States patent law, "the exclusive right to make, use and sell" many of the scanner features which Fonar pioneered and which are now incorporated in most MRI scanners sold by the industry. As of June 30, 2009, Fonar had 153 patents issued and approximately 50 patents pending. A number of Fonar's existing patents specifically relate to protecting Fonar's position in the high-field iron frame open MRI market. The patents further enhance Dr. Damadian's pioneer patent, the 1974 Patent, that initiated the MRI industry and provided the original invention of MRI scanning. The 153 issued patents extend to various times up to 2027.

We also have patent cross-licensing agreements with other MRI manufacturers.

PRODUCT COMPETITION

MRI SCANNERS

A majority of the MRI scanners in use in hospitals and outpatient facilities and at mobile sites in the United States are based on high field air core magnet technology while the balance are based on open iron frame magnet technology. Fonar's open iron frame MRI scanners are competing principally with high-field air core scanners. Fonar's open MRI scanners, however, utilizing a 6,000 gauss or 0.6 Tesla field strength, iron core electromagnet, were the first "open" MR scanners at high field strength.

Fonar believes that its MRI scanners have significant advantages as compared to the high-field air core scanners of its competitors. These advantages include:

1. There is no expansive fringe magnetic field. High field air core scanners require a more expensive shielded room than is required for the iron frame scanners. The shielded room required for the iron frame scanners is intended to

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

prevent interference from external radio frequencies.

2. They are more open and quiet.

3. They can scan the trauma victim, the cardiac arrest patient, the respirator-supported patient, and premature and newborn babies. This is not possible with high-field air core scanners because their magnetic field interferes with conventional life-support equipment.

The principal competitive disadvantage of our products is that they are not "high field strength", 1.0 Tesla +, magnets. As a general principle, the higher field strength can produce a faster scan. In some parts of the body a faster scan can be traded for a clearer picture. Although we believe that the benefits of "openness" provided by our scanners compensate for the lower field strength, certain customers will still prefer the higher field strength.

Fonar faces competition within the MRI industry from such firms as General Electric Company, Philips N.V., Toshiba Corporation, Hitachi Corporation and Siemens A.G. Most competitors have marketing and financial resources more substantial than those available to us. They have in the past, and may in the future, heavily discount the sales price of their scanners. Such competitors sell both high field air core superconducting MRI scanners and iron frame products. Fonar's original iron frame design, ultimately imitated by Fonar's competitors to duplicate Fonar's origination of "Open" MRI magnets, gave rise to current patient protected Upright(R) MRI technology with the result that Fonar today is the unique and only supplier of the highest field MRI magnets (.6 Tesla) that are not superconducting, do not use liquid helium and are not therefore susceptible to explosion.

The iron frame, because it could control the magnetic lines of force and place them where wanted and remove them from where not wanted, such as in the Fonar 360(TM) where physicians and staff are standing, provide a much more versatile magnet design than is possible with air core magnets. Air core magnets contain no iron but consist entirely of turns of current carrying wire.

For an 11 year period from 1983-1994, Fonar's large competitors, with one exception, generally rejected Fonar's "open" design but by now all have added the iron frame "open" magnet to their MRI product lines. One reason for this market shift, in addition to patient claustrophobia, is the awareness that the open magnet designs permit access to the patient to perform MRI guided procedures, a field which is now growing rapidly and is called "interventional MRI."

The Fonar 360(TM) scanner explicitly addresses this growing market reception of MRI guided interventions, and the first of these scanners was sold to a hospital in England. Fonar's Upright(R) magnet also addresses the growing market reception of MRI guided interventions. Although not enabling a full interventional theater as the Fonar 360(TM) does, the iron frame Upright(R) MRI design permits ready access to the patient and enables a wide range of interventional procedures such as biopsies and needle or catheter delivered therapies to be performed under MRI image guidance. The "tunnel" air core superconductive scanners do not permit access to the patient while the patient is inside the scanner.

Fonar expects to be the leader Upright(R) Multi-Position(TM) MRI for providing dynamic visualization of body parts such as the spine and other joints as well as dynamic visualization of the heart in its upright position when it is sustaining its full normal physiological load. No companies possess the patented Upright(R) MRI technology or the Fonar 360(TM)'s 360 degree full access interventional technology.

OTHER IMAGING MODALITIES

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Fonar's MRI scanners also compete with other diagnostic imaging systems, all of which are based upon the ability of energy waves to penetrate human tissue and to be detected by either photographic film or electronic devices for presentation of an image on a television monitor. Three different kinds of energy waves - X-ray, gamma and sound - are used in medical imaging techniques which compete with MRI medical scanning, the first two of which involve exposing the patient to potentially harmful radiation. These other imaging modalities compete with MRI products on the basis of specific applications.

X-rays are the most common energy source used in imaging the body and are employed in three imaging modalities:

1. Conventional X-ray systems, the oldest method of imaging, are typically used to image bones and teeth. The image resolution of adjacent structures that have high contrast, such as bone adjacent to soft tissue, is excellent, while the discrimination between soft tissue organs is poor because of the nearly equivalent penetration of x-rays.

2. Computerized Tomography, also referred to as "CT", systems couple computers to x-ray instruments to produce cross-sectional images of particular large organs or areas of the body. The CT scanner addresses the need for images, not available by conventional radiography, that display anatomic relationships spatially. However, CT images are generally limited to the transverse plane and cannot readily be obtained in the two other planes, sagittal and coronal. Improved picture resolution is available at the expense of increased exposure to x-rays from multiple projections. Furthermore, the pictures obtained by this method are computer reconstructions of a series of projections and, once diseased tissue has been detected, CT scanning cannot be focused for more detailed pictorial analysis or obtain a chemical analysis.

3. Digital radiography systems add computer image processing capability to conventional x-ray systems. Digital radiography can be used in a number of diagnostic procedures which provide continuous imaging of a particular area with enhanced image quality and reduced patient exposure to radiation.

Nuclear medicine systems, which are based upon the detection of gamma radiation generated by radioactive pharmaceuticals introduced into the body, are used to provide information concerning soft tissue and internal body organs and particularly to examine organ function over time.

Ultrasound systems emit, detect and process high frequency sound waves reflected from organ boundaries and tissue interfaces to generate images of soft tissue and internal body organs. Although the images are substantially less detailed than those obtainable with x-ray methods, ultrasound is generally considered harmless and therefore has found particular use in imaging the pregnant uterus.

X-ray machines, ultrasound machines, digital radiography systems and nuclear medicine compete with the MRI scanners by offering significantly lower price and space requirements. However, Fonar believes that the quality of the images produced by its MRI scanners is generally superior to the quality of the images produced by those other methodologies.

GOVERNMENT REGULATION

FDA Regulation

The Food and Drug Administration in accordance with Title 21 of the Code of Federal Regulations regulates the manufacturing and marketing of Fonar's MRI scanners. The regulations can be classified as either pre-market or post-market. The pre-market requirements include obtaining marketing clearance, proper device labeling, establishment registration and device listing. Once the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

products are on the market, Fonar must comply with post-market surveillance controls. These requirements include the Quality Systems Regulation, or "QSR", also known as Current Good Manufacturing Practices or CGMPs, and Medical Device Reporting, also referred to as MDR regulations. The QSR is a quality assurance requirement that covers the design, packaging, labeling and manufacturing of a medical device. The MDR regulation is an adverse event-reporting program.

Classes of Products

Under the Medical Device Amendments of 1976 to the Federal Food, Drug and Cosmetic Act, all medical devices are classified by the FDA into one of three classes. A Class I device is subject only to general controls, such as labeling requirements and manufacturing practices; a Class II device must comply with certain performance standards established by the FDA; and a Class III device must obtain pre-market approval from the FDA prior to commercial marketing.

Fonar's products are Class II devices. Class I devices are subject to the least regulatory control. They present minimal potential for harm to the user and are often simpler in design than Class II or Class III devices. Class I devices are subject to "General Controls" as are Class II and Class III devices. General Controls include:

1. Establishment registration of companies which are required to register under 21 CFR Part 807.20, such as manufacturers, distributors, re-packagers and re-labelers.
2. Medical device listing with FDA of devices to be marketed.
3. Manufacturing devices in accordance with the Current Good Manufacturing Practices Quality System Regulation in 21 CFR Part 820.
4. Labeling devices in accordance with labeling regulations in 21 CFR Part 801 or 809.
5. Submission of a Premarket Notification, pursuant to 510(k), before marketing a device.

Class II devices are those for which general controls alone are insufficient to assure safety and effectiveness, and existing methods are available to provide such assurances. In addition to complying with general controls, Class II devices are also subject to special controls. Special controls may include special labeling requirements, guidance documents, mandatory performance standards and post-market surveillance.

We received approval to market our Beta(TM) 3000 and Beta(TM) 3000M scanners as Class III devices on September 26, 1984 and November 12, 1985. On July 28, 1988, the Magnetic Resonance Diagnostic Device which includes MR Imaging and MR Spectroscopy was reclassified by the FDA to Class II status. Consequently, Fonar's products are now classified as Class II products. On July 26, 1991, Fonar received FDA clearance to market the Ultimate(TM) Magnetic Resonance Imaging Scanner as a Class II device. Fonar received FDA clearance to market the QUAD(TM) 7000 in April 1995 and the QUAD(TM) 12000 in November 1995. On March 16, 2000, Fonar received FDA clearance to market the Fonar 360(TM) for diagnostic imaging, the Open Sky(TM) version, and on October 3, 2000 received FDA clearance for the Upright(R) MRI.

Premarketing Submission

Each person who wants to market Class I, II and some III devices intended for human use in the U.S. must submit a 510(k) to FDA at least 90 days before marketing unless the device is exempt from 510(k) requirements. A 510(k) is a pre-marketing submission made to FDA to demonstrate that the device to be marketed is as safe and effective, that is, substantially equivalent, SE, to a legally marketed device that is not subject to pre-market approval, PMA. Applicants must compare their 510(k) device to one or more similar devices currently on the U.S. market and make and support their substantial equivalency

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

claims.

The FDA is committed to a 90-day clearance after submission of a 510(k), provided the 510(k) is complete and there is no need to submit additional information or data.

The 510(k) is essentially a brief statement and description of the product. As Fonar's scanner products are Class II products, there are no pre-market data requirements and the process is neither lengthy nor expensive.

An investigational device exemption, also referred to as IDE, allows the investigational device to be used in a clinical study pending FDA clearance in order to collect safety and effectiveness data required to support the Premarket Approval, also referred to as PMA, application or a Premarket Notification pursuant to 510(k), submission to the FDA. Clinical studies are most often conducted to support a PMA.

For the most part, however, we have not found it necessary to utilize IDE's. The standard 90 day clearance for our new MRI scanner products classified as Class II products makes the IDE unnecessary, particularly in view of the time and effort involved in compiling the information necessary to support an IDE.

Quality System Regulation

The Quality Management System is applicable to the design, manufacture, administration of installation and servicing of magnetic resonance imaging scanner systems. The FDA has authority to conduct detailed inspections of manufacturing plants, to establish Good Manufacturing Practices which must be followed in the manufacture of medical devices, to require periodic reporting of product defects and to prohibit the exportation of medical devices that do not comply with the law.

Medical Device Reporting Regulation

Manufacturers must report all MDR reportable events to the FDA. Each manufacturer must review and evaluate all complaints to determine whether the complaint represents an event which is required to be reported to FDA. Section 820.3(b) of the Quality Systems regulation defines a complaint as, "any written, electronic or oral communication that alleges deficiencies related to the identity, quality, durability, reliability, safety, effectiveness, or performance of a device after it is released for distribution."

A report is required when a manufacturer becomes aware of information that reasonably suggests that one of their marketed devices has or may have caused or contributed to a death, serious injury, or has malfunctioned and that the device or a similar device marketed by the manufacturer would be likely to cause or contribute to a death or serious injury if the malfunction were to recur.

Malfunctions are not reportable if they are not likely to result in a death, serious injury or other significant adverse event experience.

A malfunction which is or can be corrected during routine service or device maintenance still must be reported if the recurrence of the malfunction is likely to cause or contribute to a death or serious injury if it were to recur.

We have established and maintained written procedures for implementation of the MDR regulation. These procedures include internal systems that:

- provide for timely and effective identification, communication and evaluation of adverse events;

- provide a standardized review process and procedures for determining

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

whether or not an event is reportable; and

provide procedures to insure the timely transmission of complete reports.

These procedures also include documentation and record keeping requirements for:

information that was evaluated to determine if an event was reportable;

all medical device reports and information submitted to the FDA;

any information that was evaluated during preparation of annual certification reports; and

systems that ensure access to information that facilitates timely follow up and inspection by FDA.

FDA Enforcement

FDA may take the following actions to enforce the MDR regulation:

FDA-Initiated or Voluntary Recalls

Recalls are regulatory actions that remove a hazardous, potentially hazardous, or a misbranded product from the marketplace. Recalls are also used to convey additional information to the user concerning the safe use of the product. Either FDA or the manufacturer can initiate recalls.

There are three classifications, i.e., I, II, or III, assigned by the Food and Drug Administration to a particular product recall to indicate the relative degree of health hazard presented by the product being recalled.

Class I

Is a situation in which there is a reasonable probability that the use of, or exposure to, a violative product will cause serious adverse health consequences or death.

Class II

Is a situation in which use of, or exposure to, a violative product may cause temporary or medically reversible adverse health consequences or where the probability of serious adverse health consequences is remote.

Class III

Is a situation in which use of, or exposure to, a violative product is not likely to cause adverse health consequences.

Fonar has initiated five voluntary recalls. Four of the recalls were Class II and one was Class III. The recalls involved making minor corrections to the product in the field. Frequently, corrections which are made at the site of the device are called field corrections as opposed to recalls.

Civil Money Penalties

The FDA, after an appropriate hearing, may impose civil money penalties for violations of the FD&C Act that relate to medical devices. In determining the amount of a civil penalty, FDA will take into account the nature, circumstances, extent, and gravity of the violations, the violator's ability to pay, the effect on the violator's ability to continue to do business, and any history of prior violations. The civil money penalty may not exceed \$15,000 for each violation and may not exceed \$1,000,000 for all violations adjudicated in a single proceeding, per person.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Warning Letters

FDA issues written communications to a firm, indicating that the firm may incur more severe sanctions if the violations described in the letter are not corrected. Warning letters are issued to cause prompt correction of violations that pose a hazard to health or that involve economic deception. The FDA generally issues the letters before pursuing more severe sanctions.

Seizure

A seizure is a civil court action against a specific quantity of goods which enables the FDA to remove these goods from commercial channels. After seizure, no one may tamper with the goods except by permission of the court. The court usually gives the owner or claimant of the seized merchandise approximately 30 days to decide a course of action. If they take no action, the court will recommend disposal of the goods. If the owner decides to contest the government's charges, the court will schedule the case for trial. A third option allows the owner of the goods to request permission of the court to bring the goods into compliance with the law. The owner of the goods is required to provide a bond or, security deposit, to assure that they will perform the orders of the court, and the owner must pay for FDA supervision of any activities by the company to bring the goods into compliance.

Citation

A citation is a formal warning to a firm of intent to prosecute the firm if violations of the FD&C Act are not corrected. It provides the firm an opportunity to convince FDA not to prosecute.

Injunction

An injunction is a civil action filed by FDA against an individual or company. Usually, FDA files an injunction to stop a company from continuing to manufacture, package or distribute products that are in violation of the law.

Prosecution

Prosecution is a criminal action filed by FDA against a company or individual charging violation of the law for past practices.

Foreign and Export Regulation

We obtain approvals as necessary in connection with the sales of our products in foreign countries. In some cases, FDA approval has been sufficient for foreign sales as well. Our standard practice has been to require either the distributor or the customer to obtain any such foreign approvals or licenses which may be required.

Legally marketed devices that comply with the requirements of the Food Drug & Cosmetic Act require a Certificate to Foreign Government issued by the FDA for export. Other devices that do not meet the requirements of the FD&C Act but comply with the laws of a foreign government require a Certificate of Exportability issued by the FDA. All products which we sell have FDA clearance and would fall into the first category.

Foreign governments have differing requirements concerning the import of medical devices into their respective jurisdictions. The European Union, also referred to as EU, made up of 27 individual countries, has some essential requirements described in the EU's Medical Device Directive, also referred to as MDD. In order to export to one of these countries, we must meet the essential requirements of the MDD and any additional requirements of the importing

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

country. The essential requirements are similar to some of the requirements mandated by the FDA. In addition the MDD requires that we enlist a Notified Body to examine and assess our documentation, a Technical Construction File, and verify that the product has been manufactured in conformity with the documentation. The notified body must carry out or arrange for the inspections and tests necessary to verify that the product complies with the essential requirements of the MDD, including safety performance and Electromagnetic Compatibility, also referred to as EMC. Also required is a Quality System, ISO-9001, assessment by the Notified Body. We were approved for ISO 9001 certification for its Quality Management System in April, 1999.

We received clearances to sell the Fonar 360(TM) and Upright(R) MRI scanners in the EU in May, 2002.

Other countries require that their own testing laboratories perform an evaluation of our devices. This requires that we must bring the foreign agency's personnel to the USA to perform the evaluation at our expense before exporting.

Some countries, including many in Latin America and Africa, have very few regulatory requirements.

To date, Fonar has been able to comply with all foreign regulatory requirements applicable to its export sales.

Reimbursement to Medical Providers for MRI Scans

Effective November 22, 1985, the Department of Health and Human Services authorized reimbursement of MRI scans under the Federal Medicare program. In addition, most private insurance companies have authorized reimbursement for MRI scans.

Anti-Kickback and Self-Referral Legislation

Proposed and enacted legislation at the State and Federal levels has restricted referrals by physicians to medical and diagnostic centers in which they or their family members have an interest. In addition, regulations have been adopted by the Secretary of Health and Human Services which provide limited "safe harbors" under the Medicare Anti-Kickback Statute. These safe harbors describe payments and transactions which are permitted between an entity receiving reimbursement under the Medicare program and those having an interest in or dealings with the entity. Although the Company cannot predict the overall effect of the adoption of these regulations on the medical equipment industry, the use and continuation of limited partnerships, where investors may be referring physicians, to own and operate MRI scanners could be greatly diminished.

Deficit Reduction Act

The Deficit Reduction Act, among other things, limits reimbursements for MRI scans performed at MRI facilities. We believe that these limitations may be having a general negative impact on the market for MRI scanners, but believe that the unique capabilities of our products should counter any such effect on Fonar as our marketing and advertising campaigns reach prospective customers. Our Upright(R) MRI is the only MRI scanner which enables patients to be scanned in a weight bearing position and the Fonar 360(TM) MRI is the only MRI scanner which allows complete unobstructed 360 degree* access to the patient.

HEALTH MANAGEMENT CORPORATION OF AMERICA PHYSICIAN AND DIAGNOSTIC SERVICES MANAGEMENT BUSINESS

Health Management Corporation of America, formed under the name U.S. Health Management Corporation and referred to as "HMCA", was organized by us in March 1997. HMCA is a wholly-owned subsidiary which engages in the business of

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

providing comprehensive management services to imaging facilities. The services we provide include development, administration, leasing of office space, facilities and medical equipment, provision of supplies, staffing and supervision of non-medical personnel, legal services, accounting, billing and collection and the development and implementation of practice growth and marketing strategies.

HMCA currently manages 10 MRI facilities. In April 2003, HMCA sold the portion of its business which managed primary care medical practices, and in July 2005, HMCA sold the portion of its business engaged in the management of physical therapy and rehabilitation practices. This was the result of HMCA's decision to focus on management of MRI facilities, the business in which HMCA is most experienced. For the 2009 fiscal year, the revenues HMCA recognized from the MRI facilities were \$10.3 million. For the 2008 fiscal year, the revenues HMCA recognized from the MRI facilities were \$12.0 million.

HMCA GROWTH STRATEGY

HMCA's growth strategy focuses on upgrading and expanding the existing facilities it manages and expanding the number of facilities it manages for its clients. Our most important effort in this regard has been to promote and facilitate the replacement of existing MRI scanners with new Fonar Upright(R) MRI scanners. Presently, we have Upright(R) MRI scanners at all of the MRI facilities we manage with the exception of the one in Dublin, Georgia.

In connection with its focus on managing MRI facilities, HMCA decided to sell its business of managing physical therapy and rehabilitation practices. The sale was completed on July 28, 2005, at the beginning of the 2006 fiscal year. The sale was made pursuant to an asset purchase agreement to Health Plus Management Services, L.L.C.

The purchase price under the asset purchase agreement was \$6.6 million, payable pursuant to a promissory note in 120 monthly installments commencing on August 28, 2005. The first twelve installments were interest only and the remaining 108 payments consisted of equal installments of principal and interest in the amount of \$76,014 each. The note is subject to prepayment provisions to the extent Health Plus resells all or part of the assets and business or utilizes the assets sold as collateral in any debt financing.

Pursuant to a Modification Agreement dated August 8, 2008, Health Plus made a prepayment of principal in the amount of \$2,000,000 in consideration for the balance of the note being discounted by \$1,000,000. After taking into account the prepayment of \$2,000,000 and the discount of \$1,000,000, the remaining balance of \$2,378,130, was amortized and made payable over a period of 60 consecutive months, in equal installments of principal and interest of \$47,089 each pursuant to a new replacement promissory note, bearing interest at a rate of 7% per annum.

On July 31, 2007, HMCA sold its 20% equity interest in a non-consolidated entity providing management services to a scanning center in the Bronx, New York for approximately \$600,000 and its 50% equity interest in a consolidated entity providing management services to a scanning center in Orlando, Florida for approximately \$4.3 million.

Effective September 30, 2008, a wholly-owned subsidiary of HMCA sold its 92.3% equity interest in an entity providing management services to a scanning center in Bensonhurst, New York for approximately \$2.3 million.

PHYSICIAN AND DIAGNOSTIC MANAGEMENT SERVICES

HMCA's services to the facilities it manages encompass substantially all of their business operations. Each facility is controlled, however, by the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

physician owner, not HMCA, and all medical services are performed by the physicians and other medical personnel under the physician owner's supervision. HMCA is the management company and performs services of a non-professional nature. These services include:

1. Offices and Equipment. HMCA identifies, negotiates leases for and/or provides office space and equipment to its clients. This includes technologically sophisticated medical equipment. HMCA also provides improvements to leaseholds, assistance in site selection and advice on improving, updating, expanding and adapting to new technology.

2. Personnel. HMCA staffs all the non-medical positions of its clients with its own employees, eliminating the client's need to interview, train and manage non-medical employees. HMCA processes the necessary tax, insurance and other documentation relating to employees.

3. Administrative. HMCA assists in the scheduling of patient appointments, purchasing of medical supplies and equipment and handling of reporting, accounting, processing and filing systems. It prepares and files the physician portions of complex forms to enable its clients to participate in managed care programs and to qualify for insurance reimbursement. We assist the clients to implement programs and procedures to ensure full and timely regulatory compliance and appropriate cost reimbursement under no-fault insurance and workers' compensation guidelines, as well as compliance with other applicable governmental requirements and regulations, including HIPAA and other privacy requirements.

4. Billing and Collections. HMCA is responsible for the billing and collection of revenues from third-party payors including those governed by no-fault and workers' compensation statutes. HMCA is presently using a third party to perform its billing and collection services for its clients' no-fault and workers' compensation scanning business.

5. Cost Saving Programs. Based on available volume discounts, HMCA seeks to obtain favorable pricing for medical supplies, equipment, contrast agents, such as gadolinium, and other inventory for its clients.

6. Diagnostic Imaging and Ancillary Services. HMCA can offer access to diagnostic imaging equipment through diagnostic imaging facilities it manages. The Company may expand the ancillary services offered in its network to include CT-scans and x-rays, if it is determined that such additions may be useful to clients.

7. Marketing Strategies. HMCA is responsible for developing marketing plans for its clients.

8. Expansion Plans. HMCA assists the clients in developing expansion plans including the opening of new or replacement facilities where appropriate.

HMCA advises clients on all aspects of their businesses, including expansion where it is a reasonable objective, on a continuous basis. HMCA's objective is to free physicians from as many non-medical duties as is practicable. Practices can treat patients more efficiently if the physicians can spend less time on business and administrative matters and more time practicing medicine.

HMCA provides its services pursuant to negotiated contracts with its clients. While HMCA believes it can provide the greatest value to its clients by furnishing the full range of services appropriate to that client, HMCA would also be willing to enter into contracts providing for a more limited spectrum of management services.

The facilities enter into contracts with third party payors, including managed

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

care companies. Neither HMCA's clients nor HMCA participate in any capitated plans or other risk sharing arrangements. Capitated plans are those HMO programs where the provider is paid a flat monthly fee per patient.

As of June 22, 2007, Dr. Robert Diamond purchased the stock of the professional corporations owning the eight New York sites managed by HMCA, previously owned by Dr. Raymond V. Damadian, the President, Chairman of the Board and principal stockholder of Fonar. Dr. Diamond has been reading scans for HMCA managed facilities for more than seven years. In connection with the sale, new management agreements were substituted for the existing management agreements, providing, for the same management services. The fees in fiscal 2008, however, were flat monthly fees in the aggregate amount of \$682,500 per month. The fees in fiscal 2009 were flat monthly fees in the aggregate amount of \$578,500. Fees under the management agreements are subject to adjustment by mutual agreement on an annual basis.

Dr. Damadian still owns the four MRI facilities in Georgia and Florida managed by HMCA. In the case of contracts with these MRI facilities, fees are charged by HMCA based on the number of procedures performed. These fees are also subject to adjustment on an annual basis, based on mutual agreement. The per procedure charges to the MRI facilities during fiscal 2009 ranged from \$300 to \$400 per MRI scan. No MRI facilities or other medical facilities are owned by HMCA.

HMCA entered into an agreement in September, 2007 with Integrity Healthcare Management, Inc., also referred to as "Integrity", which is owned by an unrelated party. Under the terms of the agreement, Integrity supervised and directed HMCA and the management of the facilities including the performance of billing and collection services. The existing management agreements between the facilities and HMCA remained in place. As compensation Integrity was entitled to an annual fee equal to one-half of the increase in the consolidated cash flow of HMCA and the facilities over the period from July 1, 2006 through June 30, 2007. The term of the agreement automatically renewed on a year to year basis, but was terminated by HMCA as of the end of June, 2008.

Commencing upon the termination of this agreement, however, we hired Health Diagnostics, LLC, the parent company of Integrity, to perform all billing and collection procedures for HCMA's clients on HMCA's behalf for a fee of 6% of all adjusted deposits for these services. Effective May 1, 2009, this agreement was terminated. HMCA now contracts with TriTech (Plainview, New York) to perform billing and collection for its clients' no-fault and workers' compensation business for a fee of 6% of all adjusted no-fault and workers' compensation claims. HMCA handles all of its clients' other billings and collections.

HMCA MARKETING

HMCA's marketing strategy is to expand the business and improve the facilities which it manages. HMCA will seek to increase the number of locations of those facilities where market conditions are promising and to promote growth of its clients' patient volume and revenue.

DIAGNOSTIC IMAGING FACILITIES AND OTHER ANCILLIARY SERVICES

Diagnostic imaging facilities managed by HMCA provide diagnostic imaging services to patients referred by physicians who are either in private practice or affiliated with managed care providers or other payor groups. The facilities are operated in a manner which eliminates the admission and other administrative inconveniences of in-hospital diagnostic imaging services. Imaging services are performed in an outpatient setting by trained medical technologists under the direction of physicians. Following diagnostic procedures, the images are reviewed by the interpreting physicians who prepare a report of these tests and their findings. These reports are transcribed by HMCA personnel and then delivered to the referring physician.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

HMCA develops marketing programs in an effort to establish and maintain profitable referring physician relationships and to maximize reimbursement yields. These marketing approaches identify and target selected market segments consisting of area physicians with certain desirable medical specialties and reimbursement yields. Corporate and facility managers determine these market segments based upon an analysis of competition, imaging demand, medical specialty and payor mix of each referral from the local market. HMCA also directs marketing efforts at managed care providers.

Managed care providers have become an important factor in the diagnostic imaging industry. To further its position, HMCA will seek to expand the imaging modalities offered at its managed diagnostic imaging facilities.

HMCA COMPETITION

The physician and diagnostic management services field is highly competitive. A number of large hospitals have acquired medical practices and this trend may continue. HMCA expects that more competition will develop. Many competitors have greater financial and other resources than HMCA.

With respect to the diagnostic imaging facilities managed by HMCA, the outpatient diagnostic imaging industry is highly competitive. Competition focuses primarily on attracting physician referrals at the local market level and increasing referrals through relationships with managed care organizations. HMCA believes that principal competitors for the diagnostic imaging centers are hospitals and independent or management company-owned imaging centers. Competitive factors include quality and timeliness of test results, ability to develop and maintain relationships with managed care organizations and referring physicians, type and quality of equipment, facility location, convenience of scheduling and availability of patient appointment times. HMCA believes that it will be able to effectively meet the competition in the outpatient diagnostic imaging industry with the new Fonar Upright (R) MRI scanners at its facilities.

GOVERNMENT REGULATION APPLICABLE TO HMCA

FEDERAL REGULATION

Stark Law

Under the federal Self-Referral Law, also referred to as the "Stark Law", which is applicable to Medicare and Medicaid patients, and the self-referral laws of various States, certain health practitioners, including physicians, chiropractors and podiatrists, are prohibited from referring their patients for the provision of designated health services, including diagnostic imaging and physical therapy services, to any entity with which they or their immediate family members have a financial relationship, unless the referral fits within one of the specific exceptions in the statutes or regulations. Statutory exceptions under the Stark Law include, among others, direct physician services, in-office ancillary services rendered within a group practice, space and equipment rental and services rendered to enrollees of certain prepaid health plans. Some of these exceptions are also available under the State self-referral laws. HMCA believes that it and its clients are in compliance with these laws.

Anti-kickback Regulation

Under the federal Anti-kickback statute, which is applicable to Medicare and Medicaid, it is illegal, among other things, for a provider of MRI services to pay or offer money or other consideration to induce the referral of MRI scans. Neither HMCA nor its clients engage in this practice.

In fiscal 2009, approximately 16.8% of the revenues of HMCA's clients were

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

attributable to Medicare and 1.5% were attributable to Medicaid. In fiscal 2008, approximately 17.3% of the revenues of HMCA's clients were attributable to Medicare and 1.8% were attributable to Medicaid.

Deficit Reduction Act

The Deficit Reduction Act, which among other things, places limits on Medicare reimbursements to MRI scanning facilities, has had a negative but not material effect on the Medicare receipts of HMCA's clients.

State Regulation

In addition to the federal self-referral law and federal Anti-kickback statute, many States, including those in which HMCA and its clients operate, have their own versions of self-referral and anti-kickback laws. These laws are not limited in their applicability, as are the federal laws, to specific programs. HMCA believes that it and its clients are in compliance with these laws.

Various States prohibit business corporations from practicing medicine. Various States also prohibit the sharing of professional fees or fee splitting. Consequently, HMCA leases space and equipment to clients and provides clients with a range of non-medical administrative and managerial services for agreed upon fees. HMCA does not engage in the practice of medicine or establish standards of medical practice or policies for its clients in any State even where permitted.

HMCA's clients generate revenue from patients covered by no-fault insurance and workers' compensation programs. For the fiscal year ended June 30, 2009 approximately 39.6% of our clients' receipts were from patients covered by no-fault insurance and approximately 6.7% of our client's receipts were from patients covered by worker's compensation programs. For the fiscal year ended June 30, 2008, approximately 37.9% of HMCA's clients' receipts were from patients covered by no-fault insurance and approximately 6.5% of HMCA's clients' receipts were from patients covered by workers compensation programs. In the event that changes in these laws alter the fee structures or methods of providing service, or impose additional or different requirements, HMCA could be required to modify its business practices and services in ways that could be more costly to HMCA or in ways that decrease the revenues which HMCA receives from its clients.

HMCA believes that it and its clients are in compliance with applicable Federal, State and local laws. HMCA does not believe that such laws will have any material effect on its business.

EMPLOYEES

As of July 1, 2009, we employed 292 persons on a full-time and part-time basis. Of such employees, 27 were engaged in marketing and sales, 35 in research and development, 39 in production, 41 in customer support services, 36 in administration, 74 on site at facilities and offices, 18 performing billing and collection functions managed by HMCA and 22 performing transcription services for those facilities.

ITEM 2. PROPERTIES

Fonar leases approximately 117,000 square feet of office and plant space at its principal offices in Melville, New York and at one other location in Melville, New York at a current aggregate annual rental rate of \$1,194,596, excluding utilities, taxes and other related expenses. The term of one of the leases includes options to renew up through 2016 and the terms of the other leases extend to 2013. Management believes that these premises are adequate for its

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

current needs. HMCA has consolidated its headquarters with those of Fonar as part of Fonar's cost cutting program. HMCA maintains leased office premises for its clients having an aggregate annual rental rate of approximately \$800,000 under leases having various terms.

ITEM 3. LEGAL PROCEEDINGS

There is no material litigation pending, or to its knowledge, threatened against the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

Part II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our Common Stock is traded in the Nasdaq SmallCap market under the National Association of Securities Dealers Automated Quotation System, also referred to as "NASDAQ", symbol FONR. The following table sets forth the high and low trades reported in NASDAQ System for the periods shown.

Fiscal Quarter		High	Low
-----		----	----
January - March	2007	8.75	5.00
April - June	2007	7.50	4.01
July - September	2007	10.00	4.20
October - December	2007	8.80	5.18
January - March	2008	5.45	2.38
April - June	2008	4.20	2.21
July - September	2008	2.43	1.35
January - March	2009	1.38	0.62
April - June	2009	3.92	0.82
July - September 15, 2009		2.33	1.60

On September 30, 2009, we had approximately 4,392 stockholders of record of our Common Stock, 12 stockholders of record of our Class B Common Stock, 3 stockholders of record of our Class C Common Stock and 3,864 stockholders of record of our Class A Non-voting Preferred Stock.

At the present time, the only class of our securities for which there is a market is the Common Stock.

In July, 2008 we received a notice from NASDAQ that our common stock would be delisted due to failure to hold our annual meeting during fiscal 2008. We appealed and requested a hearing before the Hearing Panel stating that we planned, subject to their approval to hold a joint two-year meeting on November 17, 2008. Fonar held its two-year meeting on November 17, 2008 and accordingly remained listed. Fonar received an additional notice of delisting for failure to meet certain continuing listing requirements. Fonar appealed again and requested a hearing, asking that Fonar be granted additional time to come into compliance. Fonar was then granted until October 5, 2009 to demonstrate compliance with the criteria.

We paid cash dividends in fiscal 1998 and the first three quarters of fiscal 1999 on monies we received from the enforcement of our patents. Except for these dividends, we have not paid any cash dividends. Except for these dividends, we expect that we will retain earnings to finance the development and expansion of

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

our business.

Item 6. SELECTED FINANCIAL DATA

The following selected consolidated financial data has been extracted from our consolidated financial statements for the five years ended June 30, 2009. This consolidated selected financial data should be read in conjunction with our consolidated financial statements and the related notes included in Item 8 of this form.

	As of and For the 2009	Periods Ended 2008	June 30, 2007	2006	2005
	-----	-----	-----	-----	-----
STATEMENT OF OPERATIONS					
Revenues	\$ 39,722,000	\$ 35,569,000	\$ 33,212,000	\$ 33,076,000	\$104,899,000
Cost of revenues	\$ 22,123,000	\$ 24,893,000	\$ 26,660,000	\$ 26,950,000	\$ 67,331,000
Research and Development Expenses	\$ 3,593,000	\$ 5,007,000	\$ 5,692,000	\$ 6,868,000	\$ 6,007,000
Net Income (Loss)	\$ 1,121,000	\$ (13,508,000)	\$ (25,539,000)	\$ (29,963,000)	\$ 1,014,000
Basic and Diluted Net Income (Loss) per common share-continuing operations	\$0.21	\$ (2.76)	\$ (5.29)	\$ (6.78)	\$0.23
Basic Weighted average number of shares outstanding	4,904,358	4,897,997	4,830,652	4,416,125	4,063,680
Diluted Weighted average number of shares outstanding	5,031,862	4,897,997	4,830,652	4,416,125	4,220,228
BALANCE SHEET DATA					
Working capital	\$ (10,838,000)	\$ (15,965,000)	\$ (7,566,000)	\$ 14,237,000	\$3 6,224,000
Total Assets	28,359,000	35,226,000	\$ 41,210,000	\$ 57,230,000	\$ 76,094,000
Long-term debt and obligations under capital leases (1)	\$ 919,000	\$ 1,130,000	\$ 1,213,000	\$ 1,406,000	\$ 1,392,000
Stockholder's (deficiency) equity	\$ (2,941,000)	\$ (4,245,000)	\$ 8,898,000	\$ 30,419,000	\$ 51,869,000

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.

INTRODUCTION.

Fonar was formed in 1978 to engage in the business of designing, manufacturing and selling MRI scanners. In 1997, we formed a wholly-owned subsidiary, Health Management Corporation of America, also referred to as "HMCA", formerly known as U.S. Health Management Corporation, in order to expand into the physician and diagnostic management services business.

Fonar's principal MRI products are its Stand-Up(R)/Upright(R) MRI and Fonar 360(TM) MRI scanners. The Stand-Up(R) MRI allows patients to be scanned for the first time under weight-bearing conditions. The Company has been aggressively seeking new sales. The Stand-Up(R) MRI is the only MRI capable of producing images in the weight bearing state.

At 0.6 Tesla field strength, the Upright(R) MRI and Fonar 360(TM) magnets are among the highest field open MRI scanners in the industry, offering non-claustrophobic MRI together with high-field image quality. Fonar's open MRI scanners were the first high field strength MRI scanners in the industry.

HMCA commenced operations in July, 1997 and generates revenues from providing comprehensive management services, including development, administration, accounting, billing and collection services, together with office space, medical equipment, supplies and non-medical personnel to its clients. Revenues are in the form of fees which are earned under contracts with HMCA's clients. Since July 2005, HMCA has engaged only in the management of MRI facilities.

For the fiscal years ended June 30, 2009 and June 30, 2008, 28.4% and 30.8%, respectively, of HMCA's revenues were derived from contracts with facilities owned by Dr. Raymond V. Damadian, the President of Fonar and HMCA and principal stockholder of Fonar. The agreements with these MRI facilities are for one-year terms which renew automatically on an annual basis, unless terminated. The fees are based on the number of procedures performed and ranged from \$300 to \$400 per MRI scan. The balance of HMCA's revenues are derived from contracts with MRI facilities purchased by Dr. Robert Diamond from Dr. Damadian. The MRI facilities owned by Dr. Diamond are charged a flat fee, pursuant to new contracts executed in connection with the sale of the MRI facilities at the end of fiscal 2007. The fees are reviewed and if appropriate, adjusted on an annual basis by mutual agreement.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to investments, intangible assets, income taxes, contingencies and litigation. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. We recognize revenue and related costs of revenue from sales contracts for our MRI scanners, under the percentage-of-completion method. Under this method, we recognize revenue and related costs of revenue, as each sub-assembly is completed. Amounts received in advance of our commencement of production are recorded as customer advances.

We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. As of June 30, 2009, we recorded a valuation allowance which reduced our deferred tax assets to equal our deferred tax liability.

We amortize our intangible assets, including patents, purchased management agreements and capitalized software development costs, over the shorter of the contractual/legal life or the estimated economic life. Our amortization life for patents and capitalized software development costs is 15 to 17 years and 5 years, respectively.

We periodically assess the recoverability of long-lived assets, including property and equipment, intangibles and management agreements, when there are indications of potential impairment, based on estimates of undiscounted future cash flows. The amount of impairment is calculated by comparing anticipated discounted future cash flows with the carrying value of the related asset. In performing this analysis, management considers such factors as current results, trends, and future prospects, in addition to other economic factors.

RESULTS OF OPERATIONS. FISCAL 2009 COMPARED TO FISCAL 2008

In fiscal 2009, we experienced a net income of \$1.1 million on revenues of \$39.7 million, as compared to a net loss of \$13.5 million on revenues of \$35.6 million for fiscal 2008. This represents an increase in revenues of 11.7%. Included in net income for fiscal 2009 is a gain of \$1.4 million recognized by the Company on the sale of a consolidated subsidiary. The impact of increased unrelated party product sales, which increased by 51.6%, was the principal factor accounting for the increased revenues of the Company. Related management fees decreased by 11.9%. In addition, total costs and expenses decreased by 23.0%. Our consolidated operating results improved by \$16.2 million to an operating loss of \$704,000 for fiscal 2009 as compared to an operating loss of \$16.9 million for fiscal 2008.

Discussion of Operating Results of Medical Equipment Segment Fiscal 2009 Compared to Fiscal 2008

Revenues attributable to our medical equipment segment increased by 25.3% to \$29.5 million in fiscal 2009 from \$23.5 million in fiscal 2008, with product sales revenues increasing 51.6% from \$11.3 million in fiscal 2008 to \$17.2 million in fiscal 2009, and service revenue decreasing by 4.6%, from \$11.0 million in fiscal 2008 to \$10.5 million in fiscal 2009. This increase in revenues was attributable to an increase in sales of our Upright(R) MRI to unrelated parties, notwithstanding the decrease in service and repair fees.

We anticipate an improvement in our Upright(R) MRI sales because the Upright(R) MRI is unique in that it permits MRI scans to be performed on patients upright in the weight-bearing state and in multiple positions that correlate with symptoms. An important event in our ongoing effort to educate both the medical community and payors about the benefits, if not necessity, of utilizing Upright(R) MRI scanning, occurred in fiscal 2007 when we sold an Upright(R) MRI scanner to the largest orthopedic hospital in the Netherlands, St. Maartenskliniek. Upon placing the order, the Chairman of Spine Surgery at St. Maartenskliniek expressed the view that for their hospital to continue to engage

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

in spine surgery without Fonar's Upright(R) MRI technology, now that it was available was "unacceptable" and that owning the scanner "was not optional, but mandatory". He further stated that "[o]nce our active research program has discovered the benefits of this new Fonar technology for patients, we intend to publish the results in a lot of peer reviewed scientific journals".

In addition, significant progress is being made in developing the Fonar 360(TM) MRI scanner so that it can be used in interventional procedures. At the Oxford-Nuffield site in the United Kingdom, where we installed the first Fonar 360(TM) MRI, Fonar software engineers have completed and installed our 2nd generation tracking software, which is designed to enable the surgeons to insert needles into the patient and accurately advance them under direct visual image guidance to the target tissue, such as a tumor, in order to inject therapeutic agents directly into the tissue.

Product sales to unrelated parties increased by 51.6% in fiscal 2009 from \$11.3 million in fiscal 2008 to \$17.2 million in fiscal 2009. There were no product sales to related parties in fiscal 2009 and 2008.

We believe that one of our principal challenges in achieving greater market penetration is attributable to the better name recognition and larger sales forces of our larger competitors such as General Electric, Siemens, Hitachi, Philips and Toshiba and the ability of some of our competitors to offer attractive financing terms through affiliates, such as G.E. Capital. Nevertheless, no other competitor offers a whole body weight bearing MRI scanner such as the Upright(R) MRI, and the General Electric Medical Systems division of General Electric acts as a manufacturer's representative for the Stand-Up(R) MRI.

We believe that our aggregate product sales to unrelated parties of Upright(R) Scanners shows that we are successfully meeting that challenge.

The operating results for the medical equipment segment improved by \$14.2 million from a loss of \$14.1 million in fiscal 2008 to an income of \$27,000 in fiscal 2009. This improvement is attributable most significantly to an increase in our scanner sales and a decrease in our total costs and expenses.

We recognized revenues of \$16.6 million from the sale of our Upright(R) MRI scanners in fiscal 2009. In fiscal 2008, we recognized revenues of \$11.2 million from the sale of Upright(R) MRI scanners.

None of our revenues for fiscal 2009 and fiscal 2008 were attributable to sales to related parties.

License and royalty revenue in fiscal 2009 increased to \$1.8 million as compared to \$1.2 million in fiscal 2008.

Research and development expenses, net of capitalized costs, decreased by 28.2% to \$3.6 million in fiscal 2009 as compared to \$5.0 million in fiscal 2008. Our expenses for fiscal 2009 represented continued research and development of Fonar's scanners, Fonar's new hardware and software product, Sympulse(TM) and new surface coils to be used with the Upright(R) MRI scanner.

Discussion of Operating Results of Physician and Diagnostic Services Management Segment.

Fiscal 2009 Compared to Fiscal 2008

Revenues attributable to the Company's physician and diagnostic services management segment, HMCA, decreased by 14.9% to \$10.3 million in fiscal 2009 from \$12.0 million in fiscal 2008. The decrease in revenues was primarily due to the sale of a 92.3% equity interest in an enterprise managing an MRI center.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Presently, nine of the ten MRI facilities managed by HMCA have Upright(R) MRI scanners.

Cost of revenues as a percentage of the related revenues for our physician and diagnostic services management segment decreased from \$8.6 million or 71.3% of related revenues for the year ended June 30, 2008 to \$7.3 million, or 71.2% of related revenue for the year ended June 30, 2009. The decrease in revenues resulted from our sale of a 92.3% equity interest in an enterprising managing an MRI center.

Operating results of this segment improved from an operating loss of \$2.8 million in fiscal 2008 to operating loss of \$731,000 in fiscal 2009. We attribute the improvement to a decrease in our cost of revenues.

Discussion of Certain Consolidated Results of Operations Fiscal 2009 Compared to Fiscal 2008

Interest and investment income decreased in 2009 compared to 2008. We recognized interest income of \$346,506 in 2009 as compared to \$728,711 in fiscal 2008, representing an decrease of 52.4%.

Interest expense of \$333,229 was recognized in fiscal 2009, as compared to \$535,322 in fiscal 2008, representing an decrease of 37.8%.

Notwithstanding that revenue increased by 11.7%, selling, general and administrative expenses, decreased by 34.2% to \$13.4 million in fiscal 2009 from \$20.4 million in fiscal 2008.

Compensatory element of stock issuances also increased from approximately \$360 in fiscal 2008 to \$4,061 in fiscal 2009. This reflected Fonar's policy to refrain from using its stock bonus plans to pay employees and others, in order to prevent dilution of its outstanding stock.

The lower provision for bad debts of \$1.3 million in fiscal 2009 as compared to \$2.2 million in fiscal 2008, reflected an increase in reserves of certain indebtedness in fiscal 2008 by our physician and diagnostic services management segment. In fiscal 2009, the three Florida sites managed by HMCA jointly and severally guaranteed the payment of their management fees to HMCA, further securing HMCA's management fee receivables.

Service and repair fees have decreased, from \$11.0 million in fiscal 2008 and to \$10.5 million in fiscal 2009.

Continuing our tradition as the originator of MRI, we remain committed to maintaining our position as the leading innovator of the industry through aggressive investing in research and development. In fiscal 2009 we continued our investment in the development of our new MRI scanners, together with software and upgrades, with an investment of \$4,085,177 in research and development, \$491,707 of which was capitalized, as compared to \$5,463,963, \$457,372 of which was capitalized, in fiscal 2008. The research and development expenditures were approximately 12.2% of revenues attributable to our medical equipment segment, and 9.0% of total revenues, in 2009 and 21.3% of medical equipment segment revenues, and 14.1% of total revenues in fiscal 2008. This represented a 28.2% decrease in research and development expenditures in fiscal 2009 as compared to fiscal 2008. Notwithstanding the decrease in research and development expenditures, in connection with our overall cost cutting programs, the Company remains fully committed to developing new features, software and upgrades to improve its products.

The physician and diagnostic services management segment, HMCA, revenues decreased, from \$12.0 in fiscal 2008 to \$10.3 million in fiscal 2009. This is

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

primarily attributable to the sale of HMCA's 92.3% equity interest in an entity providing management services to a scanning center in Bensonhurst, New York.

We have been taking steps to improve HMCA revenues by our marketing efforts, which focus on the unique capability of our Upright(R) MRI scanners to scan patients in different positions.

Marketing expenditures are likely to increase, as the Company continues its efforts to promote sales.

In the beginning of fiscal 2006, in July of 2005, HMCA sold the portion of its business engaged in the management of physical therapy and rehabilitation facilities to Health Plus Management Services, L.L.C. for a purchase price of \$6.6 million, payable pursuant to a promissory note payable in 120 monthly installments.

The first twelve installments were interest only and the remaining 108 payments were to consist of equal installments of principal and interest in the amount of \$76,014 each. The note was secured by a first lien on all of the assets of Health Plus, including its accounts receivable. The note was subject to prepayment provisions to the extent Health Plus resells all or part of the assets and business or utilizes the assets sold as collateral in any debt financing.

Pursuant to a Modification Agreement dated August 8, 2008, Health Plus made a prepayment of \$2,000,000 on the note and received a discount of \$1,000,000 in return. A new note was executed for the balance of the indebtedness remaining, in the amount of \$2,378,130, providing for 60 consecutive equal monthly payments of principal and interest of \$47,090 each. The security agreement and the mandatory prepayment provisions applicable to the original note are also applicable to the replacement note.

In fiscal 2008 and 2009, HMCA received no revenue from the physical therapy and rehabilitation business.

The Company's management fees are dependent on collection by its clients of fees from reimbursements from Medicare, Medicaid, private insurance, no fault and workers' compensation carriers, self-pay and other third-party payors. The health care industry is experiencing the effects of the federal and state governments' trend toward cost containment, as governments and other third-party payors seek to impose lower reimbursement and utilization rates and negotiate reduced payment schedules with providers. The cost-containment measures, consolidated with the increasing influence of managed-care payors and competition for patients, have resulted in reduced rates of reimbursement for services provided by the Company's clients from time to time. The Company's future revenues and results of operations may be adversely impacted by future reductions in reimbursement rates.

In 2009, the Obama administration announced its intentions for healthcare reform in the United States. The plan includes providing healthcare coverage for some 40 million uninsured Americans. The plan calls for, among other things, more vigilant control of healthcare utilization, including diagnostic imaging services. The use of radiology benefit managers, or RBM's has increased in recent years. It is common practice for health insurance carriers to contract with RBMs to manage utilization of diagnostic imaging procedures for their insureds. In many cases, this leads to lower utilization of imaging procedures based on a determination of medical necessity. The efficacy of RBMs is still a high controversial topic. The Company cannot predict whether the current administration's healthcare plan and the use of RBMs will negatively impact its business, but it is possible that the Company's financial position and results of operations could be negatively affected by increased utilization of RBMs.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

While the Company has prepared certain estimates of the impact of the above discussed changes and proposed changes, it is not possible to fully quantify their impact on its business. There can be no assurance that the impact of these changes will not be greater than estimated or that any future health care legislation or reimbursement changes will not adversely affect the Company's business.

LIQUIDITY AND CAPITAL RESOURCES

Cash, cash equivalents and marketable securities decreased by 52.1% from \$2.4 million at June 30, 2008 to \$1.2 million at June 30, 2009.

Marketable securities approximated \$23,000 as of June 30, 2009, as compared to \$1.1 million as of June 30, 2008.

Cash used in operating activities for fiscal 2009 approximated \$6.1 million. Cash used in operating activities was attributable to a decrease in customer advances of \$5.0 million and a decrease in billings in excess of costs and estimated earnings on uncompleted contracts of \$3.7 million, offset by the net income of \$1.1 million and an increase in notes receivables of \$508,000.

Cash provided by investing activities for fiscal 2009 approximated \$5.9 million. The principal uses of cash from investing activities were purchases of property and equipment of \$28,000, costs of capitalized software development of \$492,000 and costs of patents and copyrights of \$331,000. The principal source of cash provided by investing activities were the proceeds of approximately \$2.3 million from the sale of a consolidated subsidiary, proceeds from note receivables of \$2.0 million and proceeds of \$1.3 million from the cash surrender value of life insurance.

Cash used in financing activities for fiscal 2009 approximated \$83,000. The principal sources of cash in financing activities were proceeds from the long term debt of \$258,000 and proceeds of \$127,000 from repayment of notes receivable from employee stockholders, offset by the repayment of borrowings and capital lease obligations of \$279,000 and distributions to holders of minority interests of \$23,000.

Total liabilities decreased by 20.5% during fiscal 2009, from approximately \$39.3 million at June 30, 2008 to approximately \$31.2 million at June 30, 2009. The decrease in total liabilities reflected principally an decrease in billings in excess of costs and estimated earnings on uncompleted contracts of 64.9% from \$5.8 million at June 30, 2008 to \$2.0 million at June 30, 2009 and a decrease in customer advances of 35.3% from \$14.3 million at June 30, 2008 to \$9.2 million at June 30, 2009, resulting from our decreased backlog.

Our contractual obligations and the periods in which they are scheduled to become due are set forth in the following table:

Contractual Obligation	Total	Due in			
		Less than 1 Year	Due in 1-3 years	Due in 4-5 years	Due after 5 years
Long-term debt	\$ 962,591	\$ 235,771	\$ 191,136	\$ -	\$ 535,684
Capital lease Obligation	\$ 313,799	\$ 121,232	\$ 192,567	\$ -	\$ -
Operating leases	\$12,054,134	\$1,994,523	\$4,068,513	\$3,623,430	\$2,367,668

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Stipulation					
Agreements	\$ 763,511	\$ 579,343	\$ 184,168	\$ -	\$ -
	-----	-----	-----	-----	-----
Total cash					
Obligations	\$14,094,035	\$2,930,869	\$4,636,384	\$3,623,430	\$2,903,352
	=====	=====	=====	=====	=====

As at June 30, 2009, our obligations included approximately \$2.4 million in various state sales taxes.

At June 30, 2009, however, we had a working capital deficit of approximately \$10.8 million as compared to a working capital deficit of \$16.0 million at June 30, 2008 and a stockholders' deficiency of \$2.9 million at June 30, 2009 as compared to a stockholders' deficiency of \$4.2 million at June 30, 2008. For the year ended June 30, 2009, we realized a net income of \$1.1 million, which included non-cash charges of approximately \$3.1 million. Our net income for fiscal 2009 included a gain of \$1.4 million recognized on the sale of a consolidated subsidiary.

Our principal source of liquidity has been derived from revenues, as well as by cash provided by the sale of marketable securities and other assets.

In July 2007, we sold our 50% interest in a consolidated subsidiary and our 20% interest in a non-consolidated subsidiary, and received proceeds of approximately \$4.8 million.

Effective September 30, 2008, a wholly-owned subsidiary of HMCA sold its 92.3% equity interest in an entity providing management services to a scanning center in Bensonhurst, New York for approximately \$2.3 million.

In August, 2008, the Company entered into a modification agreement with regard to the asset purchase agreement with Health Plus Management Services, L.L.C. The Company received a \$2,000,000 payment on the note issued by Health Plus.

Our business plan includes an aggressive program for manufacturing and selling our Upright(R) MRI scanners. In addition, we are enhancing our revenue by participating in the physician and diagnostic services management business through our subsidiary, HMCA and have upgraded the facilities which it manages, most significantly by the replacement of existing MRI scanners with new Upright(R) MRI scanners. Presently, of the 10 MRI facilities managed by HMCA, 9 are equipped with Upright(R) MRI scanners.

Our business plan also calls for a continuing emphasis on providing our customers with enhanced equipment service and maintenance capabilities and delivering state-of-the-art, innovative and high quality equipment upgrades at competitive prices. Fees for on-going service and maintenance from our installed base of scanners were \$11.0 million for the year ended June 30, 2008 and \$10.5 million for the year ended June 30, 2009.

In order to reduce our net losses and demands on our cash and other liquid reserves, we instituted an aggressive program of cost cutting during and following the end of fiscal 2008. These measures included consolidating HMCA's office space with Fonar's office space, reductions in the size of our workforce, compensation and benefits, as well as across the board reduction of expenses. The cost reductions were intended to enable us to withstand periods of low volumes of MRI scanner sales, by keeping expenditures at levels which, if necessary, can be supported by service revenues and HMCA revenues. We are also seeking equity and debt financing and have been engaged in discussions with several possible sources.

In order to promote sales, we are continuing to focus on marketing campaigns to

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

strengthen the demand for our products and services. Management anticipates that Fonar's capital resources will improve if Fonar's MRI scanner products gain wider market recognition and acceptance resulting in both increased product sales and scan volumes. If we are not successful with our marketing efforts to increase sales, we will experience a shortfall in cash, and it will be necessary to further reduce operating expenses in a manner or obtain funds through equity or debt financing in sufficient amounts to avoid the need to curtail our operations subsequent to June 30, 2010. Current economic credit conditions have contributed to a slowing business environment. Given such liquidity and credit constraints in the markets, the business may suffer, should the credit markets not improve in the near future. The direct impact of these conditions is not fully known. However, there can be no assurance that we would be able to secure additional funds if needed and that if such funds were available, whether the terms or conditions would be acceptable to us. In such case, the reduction in operating expenses might need to be substantial in order for us to generate positive cash flow to sustain our operations.

If we are unable to meet expenditures with revenues or financing then it will be necessary to reduce expenses further, or seek other sources of funds through the issuance of debt or equity financing in order to conduct operations as now conducted subsequent to fiscal 2010.

Capital expenditures for fiscal 2009 approximated \$28,000. Capitalized software costs were approximately \$492,000, and capitalized patent costs were approximately \$331,000.

Fonar has not committed to making capital expenditures in the 2010 fiscal year other than its plans to continue research and development expenditures at current levels.

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and assume that the Company will continue as a going concern. The Company has suffered recurring losses from operations, continues to generate negative cash flows from operating activities and had negative working capital at June 30, 2009. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ITEM 7A. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

Fonar's investments in fixed rate instruments. None of the fixed rate instruments in which we invest extend beyond June 30, 2010. All of our revenue, expense and capital purchasing activities are transacted in United States dollars.

See [Note 13] to the consolidated Financial Statements for information on long-term debt.

Item 8.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
FONAR Corporation and Subsidiaries

We have audited the accompanying consolidated balance sheets of FONAR Corporation and Subsidiaries (the "Company") as of June 30, 2009 and 2008, and the related consolidated statements of operations, comprehensive loss, stockholders' deficiency and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of FONAR Corporation and Subsidiaries at June 30, 2009 and 2008, and the consolidated results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that FONAR Corporation and Subsidiaries will continue as a going concern. As more fully described in Note 1, the Company has suffered recurring losses from operations, continues to generate negative cash flows from operating activities, has negative working capital at June 30, 2009 and is dependent on asset sales to fund its shortfall from operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

outcome of this uncertainty.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 1 - DESCRIPTION OF BUSINESS AND LIQUIDITY AND CAPITAL RESOURCES

Description of Business

FONAR Corporation (the "Company" or "FONAR") is a Delaware corporation, which was incorporated on July 17, 1978. FONAR is engaged in the research, development, production and marketing of medical scanning equipment, which uses principles of Magnetic Resonance Imaging ("MRI") for the detection and diagnosis of human diseases. In addition to deriving revenues from the direct sale of MRI equipment, revenue is also generated from its installed-base of customers through its service and upgrade programs.

FONAR, through its wholly-owned subsidiary Health Management Corporation of America ("HMCA") provides comprehensive management services to diagnostic imaging facilities. The services provided by the Company include development, administration, leasing of office space, facilities and medical equipment, provision of supplies, staffing and supervision of non-medical personnel, legal services, accounting, billing and collection and the development and implementation of practice growth and marketing strategies. As of June 30, 2009, HMCA manages 10 diagnostic imaging facilities located in the states of New York, Georgia and Florida.

Liquidity and Going Concern

In September 2008, the Company sold to a related party its 92.3% interest in an entity that provided management services to a scanning center in Bensonhurst, New York and received cash proceeds of approximately \$2,300,000. The Company recorded a gain of \$1,448,196 on the sale of this consolidated subsidiary.

In August 2008, the Company signed a modification agreement with regards to the asset purchase agreement with Health Plus (See Note 10). The Company received a \$2,000,000 payment on the note issued by Health Plus.

At June 30, 2009, the Company had a working capital deficit of \$10,838,323 and a stockholders' deficiency of \$2,940,862. For the year ended June 30, 2009, the Company's net income was \$1,121,267, which included non-cash charges of approximately \$3,070,000. Net cash used in operating activities for the year

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

ended June 30, 2009 was approximately \$6,067,000. The Company funded its cash flow deficit from operations for the year ended June 30, 2009 through cash provided from the sale of marketable securities of approximately \$1,097,000, proceeds from notes receivable of \$2,000,000, loans from life insurance policies of approximately \$1,345,000 and proceeds from the sale of its subsidiary of approximately \$2,293,000. In addition, during June 2008, the Company implemented a restructuring program, including a reduction of its workforce, across the board salary reductions, elimination of manufacturing facilities and restructuring of its diagnostic imaging management service business.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 1 - DESCRIPTION OF BUSINESS AND LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Going Concern (Continued)

The Company continues to focus its efforts on increased marketing campaigns to strengthen the demand for its products and services. Management anticipates that its capital resources will improve if Fonar's MRI scanner products gain wider market recognition and acceptance resulting in increased product sales. Current economic credit conditions have contributed to a slowing business environment. Given such liquidity and credit constraints in the markets, the business has and may continue to suffer, should the credit markets not improve in the near future. The direct impact of these conditions is not fully known. However, there can be no assurance that the Company would be able to secure additional funds if needed and that if such funds were available, whether the terms or conditions would be acceptable to the Company. In such case, the further reduction in operating expenses as well as possible sale of other operating subsidiaries might need to be substantial in order for the Company to generate positive cash flow to sustain the operations of the Company.

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("USGAAP") and assume that the Company will continue as a going concern. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of FONAR Corporation, its majority and wholly-owned subsidiaries and partnerships. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The most significant estimates relate to accounts receivable allowances, intangible assets, income taxes, useful lives of property and equipment, contingencies, revenue recognition and litigation. In addition, healthcare industry reforms and reimbursement practices will continue to impact the Company's operations and the determination of contractual and other allowance estimates. Actual results could differ from those estimates.

Investment in Marketable Securities

The Company accounts for its investments using Statement of Financial Accounting Standards ("SFAS") No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS No. 115"). This standard requires that certain debt and equity securities be adjusted to market value at the end of each accounting period. Unrealized market value gains and losses are charged to operations if the securities are traded for short-term profit. Otherwise, such unrealized gains and losses are charged or credited to other comprehensive income (loss).

Management determines the proper classifications of investments in obligations with fixed maturities and marketable equity securities at the time of purchase and re-evaluates such designations as of each balance sheet date. At June 30, 2009 and 2008, all securities covered by SFAS No. 115 were designated as available for sale. Accordingly, these securities are stated at fair market value, with unrealized gains and losses reported in comprehensive income (loss). Realized gains and losses on sales of investments, as determined on a specific identification basis, are included in investment income in the accompanying consolidated statements of operations.

Inventories

Inventories consist of purchased parts, components and supplies, as well as work-in-process, and are stated at the lower of cost determined on the first-in, first-out method or market.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment

Property and equipment procured in the normal course of business is stated at cost. Property and equipment purchased in connection with an acquisition is stated at its estimated fair value, generally based on an appraisal. Property and equipment is being depreciated for financial accounting purposes using the straight-line method over the shorter of their estimated useful lives, generally five to seven years, or the term of a capital lease, if applicable. Leasehold improvements are being amortized over the shorter of the useful life or the remaining lease term. Upon retirement or other disposition of these assets, the cost and related accumulated depreciation of these assets are removed from the accounts and the resulting gains or losses are reflected in the results of

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

operations. Expenditures for maintenance and repairs are charged to operations. Renewals and betterments are capitalized. Maintenance and repair expenses totaled approximately \$228,000 and \$402,000 for the years ended June 30, 2009 and 2008, respectively.

Other Intangible Assets

1) Capitalized Software Development Costs

Capitalization of software development costs begins upon the establishment of technological feasibility. Technological feasibility for the Company's computer software is generally based upon achievement of a detail program design free of high risk development issues and the completion of research and development on the product hardware in which it is to be used. The establishment of technological feasibility and the ongoing assessment of recoverability of capitalized computer software development costs require considerable judgment by management with respect to certain external factors, including, but not limited to, technological feasibility, anticipated future gross revenue, estimated economic life and changes in software and hardware technology.

Amortization of capitalized software development costs commences when the related products become available for general release to customers. Amortization is provided on a product by product basis. The annual amortization is the greater of the amount computed using (a) the ratio that current gross revenue for a product bear to the total of current and anticipated future gross revenue for that product, or (b) the straight-line method over the remaining estimated economic life of the product.

The Company periodically performs reviews of the recoverability of such capitalized software development costs. At the time a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are written off.

2) Patents and Copyrights

Amortization is calculated on the straight-line basis over a period ranging from 15 to 17 years.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Lived Assets

The Company periodically assesses the recoverability of long-lived assets, including property and equipment and intangibles, when there are indications of potential impairment, based on estimates of undiscounted future cash flows. The amount of impairment is calculated by comparing anticipated discounted future cash flows with the carrying value of the related asset. In performing this analysis, management considers such factors as current results, trends, and future prospects, in addition to other economic factors.

Revenue Recognition

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Revenue on sales contracts for scanners, included in "product sales" in the accompanying consolidated statements of operations, is recognized under the percentage-of-completion method. The Company manufactures its scanners under specific contracts that provide for progress payments. Production and installation take approximately three to six months. The percentage of completion is determined by the ratio of costs incurred to date on completed sub-assemblies to the total estimated cost for each scanner. Contract costs include purchased parts and components, direct labor and overhead. Revisions in cost estimates and provisions for estimated losses on uncompleted contracts, if any, are made in the period in which such losses are determined. The asset, "Costs and Estimated Earnings in Excess of Billings on Uncompleted Contracts", represents revenues recognized in excess of amounts billed. The liability, "Billings in Excess of Costs and Estimated Earnings on Uncompleted Contracts", represents amounts billed in excess of revenues recognized.

Revenue on scanner service contracts is recognized on the straight-line method over the related contract period, usually one year.

Revenue from sales of other items is recognized upon shipment.

Revenue under management contracts is recognized based upon contractual agreements for management services rendered by the Company primarily under various long-term agreements with various medical providers (the "PCs"). As of June 30, 2009, the Company has ten management agreements of which four are with PC's owned by Raymond V. Damadian, M.D., President and Chairman of the Board of FONAR ("the Related medical practices") and six are with PC's, which are all located in the state of New York ("the New York PC's"), owned by one unrelated radiologist. The contractual fees for services rendered to the New York PCs consists of fixed monthly fees per diagnostic imaging facility ranging from approximately \$45,000 to \$125,000. The contractual fees for services rendered to the related medical practices are primarily calculated on activity based efforts at pre-determined rates per unit of activity. All fees are re-negotiable at the anniversary of the agreements and each year thereafter.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Research and Development Costs

Research and development costs are charged to expense as incurred. The costs of materials and equipment that are acquired or constructed for research and development activities, and have alternative future uses (either in research and development, marketing or production), are classified as property and equipment and depreciated over their estimated useful lives.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expense approximated \$261,000 and \$1,293,000 for the years ended June 30, 2009 and 2008, respectively.

Shipping Costs

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

The Company's shipping and handling costs are included under costs related to product sales.

Income Taxes

Deferred tax assets and liabilities are determined based on the difference between the financial statement carrying amounts and tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse.

Customer Advances

Cash advances and progress payments received on sales orders are reflected as customer advances until such time as revenue recognition begins.

Minority Interest

The Company records adjustments to minority interest for the allocable portion of income or loss that the minority interest holders are entitled based upon their portion of certain of the subsidiaries that they own. Distributions to holders of minority interests are adjusted to the respective minority interest holders' balance.

The Company suspends allocation of losses to minority interest holders when the minority interest balance for a particular minority interest holder is reduced to zero. Any excess loss above the minority interest holders' balance is not charged to minority interest as the minority interest holders have no obligation to fund such losses.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings (Loss) Per Share

Basic earnings (loss) per share ("EPS") is computed based on weighted average shares outstanding and excludes any potential dilution. In accordance with Emerging Issues Task Force ("EITF 03-6"), "Participating Securities and the Two-Class Method under FASB Statement No. 128" ("EITF 03-6"), the Company uses the two-class method to calculate the effect of the Company's participating convertible securities on basic EPS, which include the Class A Non-voting Preferred stock, Class B common stock and Class C common stock, and the if-converted method is used to calculate the effect of participating convertible securities on diluted EPS. In addition, these participating convertible securities were not included in the computation of basic EPS for the year ended June 30, 2008 because the participating securities did not have a contractual obligation to share in the losses of the Company. For the year ended June 30, 2009, the Company used the Two-Class method for calculating basic earnings per share and applied the if converted method in calculating diluted earnings per share.

Diluted EPS reflects the potential dilution from the exercise or conversion of

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

all dilutive securities into common stock based on the average market price of common shares outstanding during the period. The number of common shares potentially issuable upon the exercise of options and warrants or conversion of the participating convertible securities that were excluded from the diluted EPS calculation, because they are antidilutive as a result of the net losses, was 267,062 as of June 30, 2008. For the year ended June 30, 2009, the number of common shares potentially issuable upon the exercise of certain options of \$96,014 have not been included in the computation of diluted EPS since the effect would be antidilutive.

FONAR CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Credit Risk

Cash: The Company maintains its cash and cash equivalents with various financial institutions, which exceed federally insured limits throughout the year. At June 30, 2009, the Company had cash on deposit of approximately \$483,000 in excess of federally insured limits of \$250,000.

Related Parties: Net revenues from related parties accounted for approximately 8% and 11% of the consolidated net revenues for the years ended June 30, 2009 and 2008, respectively. Net management fee receivables from the related medical practices accounted for approximately 20% and 11% of the consolidated accounts receivable for the years ended June 30, 2009 and 2008, respectively.

Fair Value of Financial Instruments

The financial statements include various estimated fair value information at June 30, 2009 and 2008, as required by SFAS No. 107, "Disclosures about Fair Value of Financial Instruments". Such information, which pertains to the Company's financial instruments, is based on the requirements set forth in that Statement and does not purport to represent the aggregate net fair value to the Company.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents: The carrying amount approximates fair value because of the short-term maturity of those instruments.

Accounts receivable and accounts payable: The carrying amounts approximate fair value because of the short maturity of those instruments.

Investments and advances and notes to related medical practices: The carrying amount approximates fair value because the discounted present value of the cash flow generated by the related parties approximates the carrying value of the amounts due to the Company.

Long-term debt, notes payable and accounts payable: The carrying amounts of debt and notes payable approximate fair value due to the length of the maturities, the interest rates being tied to market indices and/or due to the interest rates not being significantly different from the current market rates available to the Company.

All of the Company's financial instruments are held for purposes other than trading.

FONAR CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss generally includes all changes in equity during a period, except those resulting from investments by stockholders and distributions to stockholders.

Recent Accounting Pronouncements

In September, 2006, the Financial Accounting Standard Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements", ("SFAS 157"). This statement provides a single definition of fair value, a framework for measuring fair value, and expanded disclosures concerning fair value. Previously, different definitions of fair value were contained in various accounting pronouncements creating inconsistencies in measurement and disclosures. SFAS 157 applies under those previously issued pronouncements that prescribe fair value as the relevant measure of value, except SFAS No. 123(revised 2004), "Share-Based Payment", and related interpretations and pronouncements that require or permit measurement similar to fair value but are not intended to measure fair value. The Company adopted SFAS 157 on July 1, 2008, as required for its financial assets and financial liabilities. However, the FASB issued FSP FAS No. 157-2, which deferred the effective date of SFAS 157 for one year as it relates to liabilities that are not recognized or disclosed as fair value on a recurring basis. FSP FAS No. 157-2 will be effective beginning in fiscal 2010. The adoption of SFAS 157 for the Company's financial assets and financial liabilities did not have a material impact on its consolidated financial statements. The Company is evaluating the effect the implementation of SFAS 157 for its nonfinancial assets and nonfinancial liabilities will have on the Company's consolidated financial statements.

On February 15, 2007, the FASB issued SFAS No. 159, entitled "The Fair Value Option for Financial Assets and Financial Liabilities," ("SFAS 159"). The guidance in SFAS 159 "allows" reporting entities to "choose" to measure many financial instruments and certain other items at fair value. The objective underlying the development of this literature is to improve financial reporting by providing reporting entities with the opportunity to reduce volatility in reported earnings that results from measuring related assets and liabilities differently without having to apply complex hedge accounting provisions, using the guidance in SFAS No. 133, as amended, entitled "Accounting for Derivative Instruments and Hedging Activities." The provisions of SFAS No. 159 are applicable to all reporting entities and are effective as of the beginning of the first fiscal year that begins subsequent to November 15, 2007. The Company adopted SFAS 159 effective July 1, 2008. Upon adoption, the Company did not elect the fair value option for any items within the scope of SFAS 159 and, therefore, the adoption of SFAS 159 did not have an impact on the Company's consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Recent Accounting Pronouncements (Continued)

In March 2007, the FASB ratified the Emerging Issues Task Force ("EITF") consensus on EITF Issue No. 06-10. "Accounting for Collateral Assignment Split Dollar Life Insurance". This EITF indicates that an employer should recognize a liability for postretirement benefits related to collateral assignment split-dollar life insurance arrangements. In addition, the EITF provides guidance for the recognition of an asset related to a collateral assignment split-dollar life insurance arrangement. The EITF is effective for fiscal years beginning after December 15, 2007. The Company has adopted the EITF as required and it did not have an impact on the Company's results of operations, financial condition and liquidity.

In December 2007, the FASB issued SFAS No. 141R, "Business Combinations" ("SFAS 141R"), which replaces SFAS No. 141, "Business Combinations". SFAS 141R establishes principles and requirements for determining how an enterprise recognizes and measures the fair value of certain assets and liabilities acquired in a business combination, including noncontrolling interests, contingent consideration, and certain acquired contingencies. SFAS 141R also requires acquisition-related transaction expenses and restructuring costs be expensed as incurred rather than capitalized as a component of the business combination. SFAS 141R will be applicable prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. SFAS 141R would have an impact on accounting for any businesses acquired after the effective date of this pronouncement.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51" ("SFAS 160"). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary (previously referred to as minority interests). SFAS 160 also requires that a retained noncontrolling interest upon the deconsolidation of a subsidiary be initially measured at its fair value. Upon adoption of SFAS 160, the Company will be required to report its noncontrolling interests as a separate component of stockholders' equity. The Company will also be required to present net income allocable to the noncontrolling interest and net income attributable to the stockholders of the Company separately in its consolidated statements of income. Currently, minority interests are reported as a liability in the Company's consolidated balance sheets and the related income attributable to the minority interests is reflected as an expense in arriving at net loss. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. SFAS 160 requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. All other requirements of SFAS 160 shall be applied prospectively. The Company does not believe that adopting SFAS 160 will have a material impact on the Company's financial position, results of operations or cash flows.

FONAR CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements (Continued)

In October 2008, the FASB issued FASB Staff Position No. FAS 157-3, "Determining

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

the Fair Value of a Financial Asset in a Market That Is Not Active" ("FSP 157-3"), which clarifies the application of SFAS 157 when the market for a financial asset is inactive. Specifically, FSP 157-3 clarifies how (1) management's internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in FSP 157-3 is effective immediately and did not have a material impact on the Company's consolidated financial statements.

In June 2008, the FASB ratified Emerging Issue Task Force ("EIFT) 07-5, "Determining Whether an Instrument (or an Embedded Feature) is Indexed to an Entity's Own Stock" ("EIFT 07-5). EITF 07-5 provides framework for determining whether an instrument is indexed to an entity's own stock. EIFT 07-5 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact of the adoption of EIFT 07-5 on its consolidated financial position and results of operations.

In April 2009, the FASB issued FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FAS 107-1). SFAS 107-1 amends FASB No. 107, Disclosures about Fair Value of Financial Instruments, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. SFAS also amends APB Opinion No. 28, Interim Financial Reporting, to require those disclosures in summarized financial information at interim reporting periods. SFAS 107-1 is effective for interim reporting periods ending after June 15, 2009. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial position, results of operations and cash flows. The carrying value of our cash and cash equivalents approximates fair value because these instruments have original maturities of three months or less.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements (Continued)

In May 2009, the FASB issued SFAS No. 165, "Subsequent Events". ("SFAS No. 165") This Statement establishes general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date and is effective for interim and annual periods ending after June 15, 2009. The adoption of SFAS No. 165 did not have a material impact on the Company's consolidated financial statements.

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" ("SFAS No. 168"). SFAS No. 168 will become the single source of authoritative nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), EITF, and related accounting literature. SFAS No. 168 reorganizes the thousand of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Exchange Commission guidance organized using the same topical structure in separate sections. SFAS No. 168 will be effective for financial statements issued for reporting periods that end after September 15, 2009. As the codification was not intended to change or alter existing U.S. GAAP, it will not have any impact on our consolidated financial position, results of operations and cash flows.

In April 2008, the FASB issued FSP FAS 142-3, "Determination of the Useful Life of Intangible Assets" (FAS 142-3). FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of an intangible asset under SFAS No. 142, "Goodwill and Other Intangibles" (SFAS 142). FAS 142-3 aims to improve the consistency between the useful life of an intangible asset as determined under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141, "Business Combinations", and other applicable accounting literature. FAS 142-3 will be effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of this pronouncement did not have a material impact on the Company's consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, ("SFAS 166"), "Accounting for Transfers of Financial Assets - an amendment of FASB Statement No. 140, SFAS 166 requires additional disclosures concerning a transferor's continuing involvement with transferred financial assets. SFAS 166 eliminates the concept of a "qualifying special-purpose entity" and changes the requirements for derecognizing financial assets. SFAS 166 is effective for fiscal years beginning after November 15, 2009. The Company is currently evaluating the impact that the adoption of SFAS No. 166 will have on its consolidated financial statements.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements (Continued)

In June 2009, the FASB issued SFAS No. 167, "Amendments to FASB Interpretation ("FIN") No. 46(R)," which changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. SFAS No. 167 will require a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. A reporting entity will be required to disclose how its involvement with a variable interest entity affects the reporting entity's financial statements. SFAS 167 is effective for fiscal years beginning after November 15, 2009, and interim periods within those fiscal years. Management is currently evaluating the requirements of SFAS No. 167 and has not yet determined the impact on the Company's consolidated financial statements.

In September 2009, the EITF reached final consensus on a new revenue recognition standard, Issue No. 08-1, "Revenue Arrangements with Multiple Deliverables", (EITF 08-1). EITF 08-1 addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, and

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

how the arrangement consideration should be allocated among the separate units of accounting. This Issue is effective for fiscal years beginning after June 15, 2010 and may be applied retrospectively or prospectively for new or materially modified arrangements. In addition, early adoption is permitted. The Company is currently evaluating the potential impact of EITF 08-1 on its consolidated financial statements.

In September 2009, the EITF reached final consensus on a new revenue recognition standard, Issue No. 09-3, "Applicability of AICPA Statement of Position 97-2 to Certain Arrangements That Contain Software Elements" (EITF 09- 3). EITF 09-3 amends the scope of AICPA Statement of Position 97-2, Software Revenue Recognition to exclude tangible products that include software and non- software components that function together to deliver the product's essential functionality. This Issue shall be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Earlier application is permitted as of the beginning of a company's fiscal year provided the company has not previously issued financial statements for any period within that year. An entity shall not elect early application of this Issue unless it also elects early application of Issue 08-1. The Company is currently evaluating the potential impact of EITF 09-3 on its consolidated financial statements.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. The reclassifications did not have any effect on reported net losses for any periods presented.

NOTE 3 - MEDICAL RECEIVABLES

The Company was assigned medical receivables valued at \$11,775,000, in connection with the satisfaction of the management fees and termination fees related to a Termination and Replacement Agreement dated May 23, 2005. The balance of the net medical receivables as of June 30, 2009 and 2008 was \$374,225 and \$1,227,858, respectively. As of June 30, 2009 and June 30, 2008, the Company's allowance for doubtful accounts totaled \$1,343,500 and \$769,000, respectively, on these receivables.

NOTE 4 - MARKETABLE SECURITIES

The following is a summary of marketable securities at June 30, 2009 and 2008:

	June 30, 2009		
	Cost	Unrealized Loss	Fair Market Value
Equities - other	\$ 43,647	\$ (20,995)	\$ 22,652
	\$ 43,647	\$ (20,995)	\$ 22,652

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

June 30, 2008

All marketable securities are deemed to be available for sale.

FONAR CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 5 - MANAGEMENT FEE RECEIVABLE AND ACCOUNTS RECEIVABLE

The Company's customers are concentrated in the healthcare industry.

Management Fee Receivable

The Company's receivables from the related and non-related professional corporations ("PCs") substantially consists of fees outstanding under management agreements. Payment of the outstanding fees is dependent on collection by the PCs of fees from third party medical reimbursement organizations, principally insurance companies and health management organizations.

Collection by the Company of its management fee receivables may be impaired by the uncollectibility of the PCs' medical fees from third party payors, particularly insurance carriers covering automobile no-fault and workers compensation claims due to longer payment cycles and rigorous informational requirements and certain other disallowed claims. Approximately 46% and 44%, respectively, of the PCs' 2009 and 2008 net revenues were derived from no-fault and personal injury protection claims. The Company considers the aging of its accounts receivable in determining the amount of allowance for doubtful accounts and contractual allowances. The Company generally takes all legally available steps to collect its receivables. Credit losses associated with the receivables are provided for in the consolidated financial statements and have historically been within management's expectations.

Net revenues from management and other fees charged to the related medical practices accounted for approximately 7% and 10%, of the consolidated net revenues for the years ended June 30, 2009 and 2008, respectively.

Commencing with June 2008, the Company hired Health Diagnostics, LLC, to perform all billing and collection procedures related to the Company's diagnostic imaging facilities. The Company agreed to pay 6% of all adjusted collections for these services. Amounts charged to HMCA during the fiscal year ended June 30, 2009 under this agreement totaled \$880,848. HMCA terminated the billing and collection agreement as of April 30, 2009.

Effective June 30, 2009, Tallahassee Magnetic Resonance Imaging, PA, Stand Up

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

MRI of Boca Raton, PA and Stand Up MRI & Diagnostic Center, PA (all related medical practices) entered in a guaranty for all management fees which were indebted to the Company. Each entity will jointly and severally guarantee to the Company all payments due to the Company which have arisen under each individual management agreement.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 5 - MANAGEMENT FEE RECEIVABLE AND ACCOUNTS RECEIVABLE (Continued)

Accounts Receivable

 Credit risk with respect to the Company's accounts receivable related to product sales and service and repair fees is limited due to the customer advances received prior to the commencement of work performed and the billing of amounts to customers as sub-assemblies are completed. Service and repair fees are billed

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

on a monthly or quarterly basis and the Company does not continue providing these services if accounts receivable become past due. The Company controls credit risk with respect to accounts receivable from service and repair fees through its credit evaluation process, credit limits, monitoring procedures and reasonably short collection terms. The Company performs ongoing credit authorizations before a product sales contract is entered into or service and repair fees are provided.

NOTE 6 - COSTS AND ESTIMATED EARNINGS ON UNCOMPLETED CONTRACTS AND CUSTOMER ADVANCES

1) Information relating to uncompleted contracts as of June 30, 2009 and 2008 is as follows:

	As of June 30,	
	2009	2008
Costs incurred on uncompleted Contracts	\$10,140,938	\$ 4,031,388
Estimated earnings	7,349,914	1,297,111
	17,490,852	5,328,499
Less: Billings to date	18,041,587	11,095,500
	\$ (550,735)	\$ (5,767,001)

NOTE 9 - OTHER INTANGIBLE ASSETS

Other intangible assets, net of accumulated amortization, at June 30, 2009 and 2008 are comprised of:

	As of June 30,	
	-----	-----
	2009	2008
	-----	-----
Capitalized software development costs	\$6,098,057	\$5,606,350
Patents and copyrights	4,170,892	3,885,919
	-----	-----
	10,268,949	9,492,269
Less: Accumulated amortization	5,348,708	4,682,705
	-----	-----
	\$4,920,241	\$4,809,564
	=====	=====

Information related to the above intangible assets for the years ended June 30, 2009 and 2008 is as follows:

	2009	2008
	-----	-----
Balance - Beginning of Year	\$4,809,564	\$5,345,445
Amounts capitalized	823,007	687,258
Abandon patents written off	(46,327)	-
Amortization	(666,003)	(1,223,139)
	-----	-----
Balance - End of Year	\$4,920,241	\$4,809,564
	=====	=====

Amortization of patents and copyrights for the years ended June 30, 2009 and 2008 amounted to \$147,530 and \$592,059, respectively. The Company also recorded a write off of abandon patents in the amount of \$46,327 for the year ended June 30, 2009.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Amortization of capitalized software development costs for the years ended June 30, 2009 and 2008 was \$518,473 and \$631,080, respectively.

	=====	=====

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Current Portion	\$ 517,934	\$ 2,508,306
Long-Term Portion	\$ 1,778,626	\$ 2,296,560

a) On August 8, 2008, the Company signed a modification agreement with regards to the Asset Purchase Agreement with Health Plus. Under the modification agreement Health Plus made a \$2,000,000 principal payment on the promissory note in exchange for a discount on the original note of \$1,000,000.

The original promissory note ("Note") was modified to \$2,378,130 payable in 60 consecutive months in equal installments of principal and interest of \$47,090. The Note is secured by a first lien on all of the assets of Health Plus, including its accounts receivable and is subject to prepayment provisions to the extent Health Plus resells all or part of the assets and business or utilizes the assets sold as collateral in any debt financing. The Note provides for interest at 7% per annum. The Company recorded a charge to earnings for the discount on the Note of \$658,351 during the quarter ended June 30, 2008.

b) This note receivable represents a note due from a customer for the purchase of a system. The note is payable over two years. The Company has an allowance for doubtful accounts of \$65,000 as of June 30, 2009 and 2008 on this note.

c) This note receivable represents a note due from a customer for the purchase of an Upright MRI system. The note is payable in 48 consecutive equal monthly payments of principal and interest of \$8,426.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 11 - CAPITAL STOCK

Common Stock

Cash dividends payable on the common stock shall, in all cases, be on a per share basis, one hundred twenty percent (120%) of the cash dividend payable on shares of Class B common stock and three hundred sixty percent (360%) of the cash dividend payable on a share of Class C common stock.

Class B Common Stock

Class B common stock is convertible into shares of common stock on a one-for-one basis. Class B common stock has 10 votes per share. There were 158 of such shares outstanding at June 30, 2009 and 2008.

Class C Common Stock

On April 3, 1995, the stockholders ratified a proposal creating a new Class C common stock and authorized the exchange offering of three shares of Class C common stock for each share of the Company's outstanding Class B common stock. The Class C common stock has 25 votes per share, as compared to 10 votes per share for the Class B common stock and one vote per share for the common stock. The Class C common stock was offered on a three-for-one basis to the holders of the Class B common stock. Although having greater voting power, each share of Class C common stock has only one-third of the rights of a share of Class B common stock to dividends and distributions. Class C common stock is convertible

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

into shares of common stock on a three-for-one basis.

Class A Non-Voting Preferred Stock

On April 3, 1995, the stockholders ratified a proposal consisting of the creation of a new class of Class A non-voting preferred stock with special dividend rights and the declaration of a stock dividend on the Company's common stock consisting of one share of Class A non-voting preferred stock for every five shares of common stock. The stock dividend was payable to holders of common stock on October 20, 1995. Class A non-voting preferred stock issued pursuant to such stock dividend approximates 313,000 shares.

The Class A non-voting preferred stock is entitled to a special dividend equal to 3-1/4% of first \$10 million, 4-1/2% of next \$20 million and 5-1/2% on amounts in excess of \$30 million of the amount of any cash awards or settlements received by the Company in connection with the enforcement of five of the Company's patents in its patent lawsuits, less the revised special dividend payable on the common stock with respect to one of the Company's patents.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 11 - CAPITAL STOCK (Continued)

Class A Non-Voting Preferred Stock (Continued)

The Class A non-voting preferred stock participates on an equal per share basis with the common stock in any dividends declared and ranks equally with the common stock on distribution rights, liquidation rights and other rights and preferences (other than the voting rights).

Options

The Company has stock option plans, which provide for the awarding of incentive and non-qualified stock options to employees, directors and consultants who may contribute to the success of the Company. The options granted vest either immediately or ratably over a period of time from the date of grant, typically three or four years, at a price determined by the Board of Directors or a committee of the Board of Directors, generally the fair value of the Company's common stock at the date of grant. The options must be exercised within ten years from the date of grant.

FONAR's 1993 Incentive Stock Option Plan (the "FONAR 1993 Plan"), adopted on March 26, 1993, was intended to qualify as an incentive stock option plan under Section 422A of the Internal Revenue Code of 1954, as amended. The FONAR 1993 Plan permitted the issuance of stock options covering an aggregate of 60,000 shares of common stock of FONAR. The FONAR 1993 Plan terminated on March 25, 2003. No options to purchase shares of common stock remained available for grant under the FONAR 1993 Plan at that time. During the year ended June 30, 2008, 2,360 options expired, therefore, there are no options that were issued under the FONAR 1993 Plan that remain outstanding.

FONAR's 1997 Nonstatutory Stock Option Plan, adopted on May 9, 1997, permits the issuance of stock options covering an aggregate of 200,000 shares of common

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

stock of FONAR. The options may be issued at such prices and upon such terms and conditions as are determined by FONAR. The 1997 Plan terminated on May 8, 2007. During the year ended June 30, 2009, 1,105 options were forfeited, therefore of the options granted under this plan 77,062 remain outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 11 - CAPITAL STOCK (Continued)

Options (Continued)

FONAR's 2002 Incentive Stock Option Plan (the "FONAR 2002 Plan"), adopted on July 1, 2002, is intended to qualify as an incentive stock option plan under Section 422A of the Internal Revenue Code of 1954, as amended. The FONAR 2002 Plan permits the issuance of stock options covering an aggregate of 100,000 shares of common stock of FONAR. The options have an exercise price equal to the fair market value of the underlying stock on the date the option is granted, are nontransferable, are exercisable for a period not exceeding ten years and expire upon the voluntary termination of employment. The FONAR 2002 Plan will terminate on June 30, 2012. As of June 30, 2009, options to purchase 50,943 shares of common stock of FONAR were available for future grant under this plan. During the year ended June 30, 2009, 283 options were forfeited, therefore 18,952 shares remain outstanding.

FONAR's 2005 Incentive Stock Option Plan (the "FONAR 2005 Plan"), adopted on February 16, 2005, is intended to qualify as an incentive stock option plan under Section 422A of the Internal Revenue Code of 1954, as amended. The FONAR 2005 Plan permits the issuance of stock options covering an aggregate of 80,000 shares of common stock of FONAR. The options have an exercise price equal to the fair market value of the underlying stock on the date the option is granted, are non-transferable, are exercisable for a period not exceeding ten years, and expire upon the voluntary termination of employment. The FONAR 2005 Plan will terminate on February 14, 2015. As of June 30, 2009, 80,000 shares of common stock of FONAR were available for future grant under this Plan.

FONAR CORPORATION AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 13 - INCOME TAXES

Effective January 1, 2007, the Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a corporate tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Differences between tax positions taken or expected to be taken in a tax return and the benefit recognized and measured pursuant to the interpretation are referred to as "unrecognized benefits". A liability is recognized (or amount of net operating loss carryforward or amount of tax refundable is reduced) for an unrecognized tax benefit because it represents an enterprise's potential future obligation to the taxing authority for a tax position that was not recognized as a result of applying the provisions of FIN 48.

In accordance with FIN 48, interest costs related to unrecognized tax benefits are required to be calculated (if applicable) and would be classified as "Interest expense, net". Penalties if incurred would be recognized as a component of "Selling, general and administrative" expenses.

The Company files corporate income tax returns in the United States (federal) and in various state and local jurisdictions. In most instances, the Company is no longer subject to federal, state and local income tax examinations by tax authorities for years prior to 2004.

The adoption of the provisions of FIN 48 did not have a material impact on the Company's consolidated financial position and results of operations. Upon the adoption and as of June 30, 2009, no liability for unrecognized tax benefits was required to be recorded. The Company does not expect its unrecognized tax benefit position to change during the next 12 months.

The Company recognized a deferred tax asset of \$876,868 and a deferred tax liability of \$876,868 as of June 30, 2009, primarily relating to net operating loss carryforwards of approximately \$164,465,000 available to offset future taxable income through 2029. The net operating losses begin to expire in 2012

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

for federal tax purposes and in 2012 for state income tax purposes.

The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which those temporary differences become deductible. The Company considers projected future taxable income and tax planning strategies in making this assessment. At present, the Company does not have a sufficient history of income to conclude that it is more-likely-than-not that the Company will be able to realize all of its tax benefits in the near future and therefore a valuation allowance was established for the full value of the deferred tax asset.

A valuation allowance will be maintained until sufficient positive evidence exists to support the reversal of any portion or all of the valuation. Should the Company become profitable in future periods with supportable trends, the valuation allowance will be reversed accordingly.

FONAR CORPORATION AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 13 - INCOME TAXES (Continued)

Components of the current provision (benefit from) for income taxes are as follows:

	Years Ended June 30,	
	2009	2008
Current:		
Federal	\$ -	\$ -
State	35,931	(6,940)
	-----	-----
	\$ 35,931	\$ (6,940)
	=====	=====

A reconciliation of the federal statutory income tax rate to the Company's effective tax rate as reported is as follows:

	Years Ended June 30,	
	2009	2008
Taxes at federal statutory rate	34.0%	(34.0)%
State and local income taxes (benefit), net of federal benefit	6.0	0.0
Permanent differences	4.1	0.9
(Decrease) increase in the valuation allowance and true ups	(41.0)	33.1
	-----	-----
Effective income tax rate	3.1%	0.0%
	=====	=====

As of June 30, 2009, the Company has net operating loss ("NOL") carryforwards of approximately \$164,465,000 that will be available to offset future taxable income. The utilization of certain of the NOLs is limited by separate return limitation year rules pursuant to Section 1502 of the Internal Revenue Code. The expiration dates of NOL carryforwards are as follows:

June 30,	

2012	\$ 3,953,000
2013	845,000
2019	15,801,000

NOTE 15 - COMMITMENTS AND CONTINGENCIES

Leases

The Company rents its operating facilities and certain equipment, pursuant to operating lease agreements expiring at various dates through December 2013. The leases for certain facilities contain escalation clauses relating to increases in real property taxes as well as certain maintenance costs.

In May 2002, HMCA entered into a sub-lease agreement (as amended in January 2003) with an entity owned by a relative of Raymond V. Damadian. The sub-lease agreement expired on May 31, 2008. As of June 1, 2008, the sub-lease tenant occupied the entire space and paid the monthly rent of \$ 39,064 on a month to month basis. On December 3, 2008, HMCA terminated the lease on these premises and surrendered the property. Rental income under the sub-lease agreement for the years ended June 30, 2009 and 2008 amounted to \$0 and \$99,371, respectively.

In March 2008, HMCA entered into a s sub-lease agreement with a third party. The sub-lease agreement expired on April 30, 2009. Rental income under the sub-lease agreement for the year ended June 30, 2009 amounted to \$131,724. The rental income is included in the consolidated statements of operations under costs related to management and other fees - unrelated medical practices.

FONAR CORPORATION AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Future minimum operating lease commitments consisted of the following at June 30, 2009:

Year Ending June 30,	Facilities And Equipment (Operating Lease)
-----	-----
2010	\$ 1,994,523
2011	1,999,245
2012	2,069,268
2013	2,051,651
2014	1,571,779
Thereafter	2,367,668

Total minimum obligations	\$12,054,134

Rent expense for operating leases approximated \$1,796,000 and \$3,078,000 for the years ended June 30, 2009 and 2008, respectively.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

License Agreements

The Company had a license agreement which requires the Company to pay a royalty on the Company's future sales of certain MRI imaging apparatus. Royalty expense charged to operations for the years ended June 30, 2009 and 2008 approximated \$0 and \$67,000, respectively. In April 2008, the licensor commenced an action in Superior Court, New Castle County, Delaware for the outstanding royalties of \$666,734 plus interest and other costs. The Company answered the complaint raising affirmative defenses including duress, failure of consideration and violation of United States Antitrust Laws. As of June 30, 2009, the Company has accrued \$710,461 for royalties and interest. During September 2009, the Company has entered into an understanding regarding this matter with the licensor. The understanding calls for an initial payment of \$25,000 followed by monthly payments of \$7,520 until the debt is paid.

In July 2000, the Company entered into a non-exclusive sales representative agreement with an unrelated third party. The agreement requires the third party to sell at least two Fonar MRI scanners or if it does not, pay an amount equal to the Company's gross margin on the unsold MRI scanners. The Company received the gross margin payment on two scanners of \$1,158,478 in November 2007 and is included in revenues for the year ended June 30, 2008. The Company received the gross margin payment on one scanner of \$585,493 in November 2008 and applied a previously received deposit for two other gross margin payments for a total of \$1,755,493 which was included in revenue for the year ended June 30, 2009. As of April 2009, this agreement has expired.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Employee Benefit Plans

The Company has a non-contributory 401(k) Plan (the "401(k) Plan"). The 401(k) Plan covers all non-union employees who are at least 21 years of age with no minimum service requirements. There were no employer contributions to the Plan for the years ended June 30, 2009 and 2008. (see Other Matters below)

The stockholders of the Company approved the 2000 Employee Stock Purchase Plan ("ESPP") at the Company's annual stockholders' meeting in April 2000. The ESPP provides for eligible employees to acquire common stock of the Company at a discount, not to exceed 15%. This plan has not been put into effect as of June 30, 2009.

Litigation

The Company is subject to legal proceedings and claims arising from the ordinary course of its business, including personal injury, customer contract and employment claims. In the opinion of management, the aggregate liability, if any, with respect to such actions, will not have a material adverse effect on the consolidated financial position or results of operations of the Company.

Stipulation Agreements

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

The Company has entered into stipulation agreements with a number of its creditors that in the aggregate totals \$763,511 as of June 30, 2009. The monthly payments total \$98,808.

The amounts to be paid over the next two years are as follows:

Year Ending June 30, -----	
2010	\$ 579,343
2011	184,168

	763,511
	=====

NASDAQ Notice of Non-compliance -----

The Company's stockholder's deficiency was \$4.2 million as of June 30, 2008 and \$2.9 million as of June 30, 2009. NASDAQ had granted the Company an extension to October 5, 2009 to evidence compliance with the minimum stockholders' equity requirement or minimum net income requirement for continued listing on the NASDAQ Capital Market. The Company's common stock continues to be listed pending its filing of its Form 10-K for fiscal 2009 to demonstrate compliance with one or more of the continued listing requirements. The Company believes that it is in compliance with the minimum net income requirement of NASDAQ Capital Market.

FONAR CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 15 - COMMITMENTS AND CONTINGENCIES (Continued)

Other Matters -----

In March 2007, the Company and New York State taxing authorities conducted a conference to discuss a sales tax matter to determine if certain sales transactions are subject to sales tax withholdings. In fiscal 2007, the Company recorded a provision of \$250,000 to cover any potential tax liability including interest. This matter was settled in May of 2009 with no payment required by the Company. The Company reversed the accrual for this matter in the quarter ended June 30, 2009.

The Company is also delinquent in filing sales tax returns for certain states, for which the Company has transacted business. The Company has recorded tax obligations of \$2,062,000 plus interest and penalties of approximately \$1,377,000. The Company is in the process of determining its regulatory requirements in order to become compliant.

The Company has determined they may not be in compliance with the Department of Labor and Internal Revenue Service regulations concerning the requirements to file Form 5500 to report activity of its 401K Employee Benefit Plan and Flex Plan. The filings do not require the Company to pay tax, however they may be subject to penalty for non-compliance. The Company has recorded provisions for any potential penalties totaling \$250,000. The Company has engaged outside counsel to handle such matters to determine the necessary requirements to ensure compliance. Such non-compliance could impact the eligibility of the plan. At this

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

time the outcome cannot be determined.

The Company management fees are dependent on collection by the PCs of fees from reimbursements from Medicare, Medicaid, private insurance, no fault and workers' compensation carriers, self-pay and other third-party payors. The health care industry is experiencing the effects of the federal and state governments' trend toward cost containment, as government and other third-party payors seek to impose lower reimbursement and utilization rates and negotiate reduced payment schedules with providers. The cost- containment measures, consolidated with the increasing influence of managed-care payors and competition for patients, have resulted in reduced rates of reimbursement for services provided by the Company from time to time. The Company's future revenues and results of operations may be adversely impacted by future reductions in reimbursement rates.

In 2009, the Obama administration announced its intentions for healthcare reform in the United States. The plan includes providing healthcare coverage for some 40 million uninsured Americans. The plan calls for, among other things, more vigilant control of healthcare utilization, including diagnostic imaging services. The use of radiology benefit managers, or RBMs, has increased in recent years. It is common practice for health insurance carriers to contract with RBMs to manage utilization of diagnostic imaging procedures for their insureds. In many cases, this leads to lower utilization of imaging procedures based on a determination of medical necessity. The efficacy of RBMs is still a highly controversial topic. The Company cannot predict whether the current administration's healthcare plan and the use of RBMs will negatively impact its business, but it is possible that the Company's financial position and results of operations could be negatively affected by increased utilization of RBMs.

While the Company has prepared certain estimates of the impact of the above discussed changes and proposed changes, it is not possible to fully quantify their impact on its business. There can be no assurance that the impact of these changes will not be greater than estimated or that any future health care legislation or reimbursement changes will not adversely affect the Company's business.

NOTE 18 - ADVANCES AND NOTES TO RELATED MEDICAL PRACTICES

Canarsie MRI Associates ("Canarsie"), a joint venture partnership, of which MRI Specialties, Inc. ("Specialties") is an owner. In addition, during fiscal 2001, Canarsie purchased a QUAD MRI scanner from the Company, for a purchase price of \$850,000, payable as follows: (1) \$400,000 downpayment (received April 2001); (2) \$450,000 in 84 equal monthly installments, including interest at 6%, pursuant to a promissory note to be executed upon acceptance of the scanner. Timothy Damadian, the son of Raymond V. Damadian, is the sole stockholder, Director and President of Specialties. The balance due under this note as of June 30, 2009 is \$0. Interest income on this note for the years ended June 30, 2009 and 2008 amounted to \$487 and \$3,852, respectively.

The Company had advanced a former subsidiary, Tallahassee Magnetic Resonance Imaging, P.A., \$546,183. This balance was evidenced by a promissory note and is payable as follows: \$546,183 in 40 monthly installments commencing September 2007, including interest at 6%. The balance due under this note as of June 30, 2009 was \$253,643. Interest income on this note for the years ended June 30, 2009 and 2008 amounted to \$20,818 and \$29,949, respectively.

The maturities of advances and notes to related medical practices over the next two years are as follows:

Years Ending June 30, -----	
2010	\$164,611
2011	89,032

NOTE 19 - SEGMENT AND RELATED INFORMATION

The Company provides segment data in accordance with the provisions of SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information".

The Company operates in two industry segments - manufacturing and the servicing of medical equipment and management of diagnostic imaging services.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. All intersegment sales are market-based. The Company evaluates performance based on income or loss from operations.

Summarized financial information concerning the Company's reportable segments is shown in the following table:

NOTE 20 - LIFE INSURANCE

During the year ended June 30, 2009, the Company borrowed \$1,344,901 against the cash surrender value of a whole life insurance policy on the life of the Company's Chief Executive Officer.

NOTE 21 - DUE TO RELATED MEDICAL PRACTICES

In June of 2009, an entity owned by the Company's Chairman of the Board, Tallahassee Scanning Services PA, sold its Upright MRI scanning system to the Company for \$550,000 in exchange for 35 monthly payments of \$18,769 to be made over a three year period, commencing October 18, 2009 including interest at 10.41% per annum. The Company used this scanning system to fulfill a sales order with an unrelated customer.

NOTE 22 - SALE OF CONSOLIDATED SUBSIDIARY AND INVESTMENT

Sale of Consolidated Subsidiary

On September 30, 2008, the Company sold its 92.3% interest (to a related party) in an entity that provided management services to a diagnostic center in Bensonhurst, NY. The Company continues to manage other diagnostic centers in the New York region.

The related third party purchased all assets and assumed all liabilities of the diagnostic center which included cash, the management fee receivable, furniture and fixtures and other miscellaneous assets. The purchase price for the 92.3% interest was \$2,307,500 all of which was paid in cash at the time of closing.

The following is the calculation of the gain on sale of the 92.3% interest in a

FONAR CORPORATION AND SUBSIDIARIES

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

There have been no disagreements with our independent registered public accounting firm or other matters requiring disclosure under Regulation S-K, Item 304(b).

ITEM 9A. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our principal financial officer, as appropriate, to allow timely decisions regarding the required disclosures. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Our principal executive and financial officers have concluded that our disclosure controls and procedures over financial reporting were effective as of June 30, 2009. Management's assessment is that our internal control over financial reporting for the year ended June 30, 2009 is effective. There has been no change in our internal control over financial reporting that occurred during the fourth quarter of fiscal year 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

FONAR CORPORATION AND SUBSIDIARIES

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

Directors serve from the date of their election until the next annual meeting of stockholders and until their successors are elected and qualify. With the exception of Dr. Raymond V. Damadian, who does not receive any fees for serving as a director, each director receives \$20,000 per annum for his or her service as a director. Officers serve at the discretion of the Board of Directors.

A majority of our board of directors is composed of independent directors: Robert J. Janoff, Charles N. O'Data and Robert Djerejian. These three individuals also serve as the three members of the audit committee, which is a standing committee of board of directors having a charter describing its responsibilities. Mr. O'Data has been designated as the audit committee financial expert. His relevant experience is described in his biographical information. We have adopted a code of ethics applicable to, among other

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

personnel, our principal executive officer, principal financial officer, controllers and persons performing similar functions. The code is designed to deter wrongdoing and to promote: 1. honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; 2. full, fair, accurate, timely and understandable disclosure in reports and documents that we file or submit to the Securities and Exchange Commission and in other public communications we make; 3. compliance with applicable governmental laws, rules and regulations; 4. the prompt internal reporting of violations of the code to an appropriate person or persons identified in the code and 5. accountability for adherence to the code. We will provide a copy of the code to any person who requests a copy. A person may request a copy by writing to Fonar Corporation, 110 Marcus Drive, Melville, New York 11747, to the attention of the Legal Department or Investor Relations.

The officers and directors of the Company are set forth below:

Raymond V. Damadian, M.D.	73	President, Treasurer, Chairman of the Board and a Director
Claudette J.V. Chan	71	Director and Secretary
Robert J. Janoff	82	Director
Charles N. O'Data	73	Director
Robert Djerejian	78	Director

Raymond V. Damadian, M.D. has been the Chairman of the Board and President of Fonar since its inception in 1978 and Treasurer since February, 2001. Dr. Damadian was employed by the State University of New York, Downstate Medical Center, New York, as an Associate Professor of Biophysics and Associate Professor of Internal Medicine from 1967 until September 1979. Dr. Damadian received an M.D. degree in 1960 from Albert Einstein College of Medicine, New York, and a B.S. degree in mathematics from the University of Wisconsin in 1956. In addition, Dr. Damadian conducted post-graduate work at Harvard University, where he studied extensively in the fields of physics, mathematics and electronics. Dr. Damadian is the author of numerous articles and books on the nuclear magnetic resonance effect in human tissue, which is the theoretical basis for the Fonar MRI scanners. Dr. Damadian is a 1988 recipient of the National Medal of Technology and in 1989 was inducted into the National Inventors Hall of Fame, for his contributions in conceiving and developing the application of magnetic resonance technology to medical applications including whole body scanning and diagnostic imaging. Dr. Damadian is the President, Treasurer and director of HMCA.

Claudette J.V. Chan has been a Director of Fonar since October 1987 and Secretary of Fonar since January 2008. Mrs. Chan was employed from 1992 through 1997 by Raymond V. Damadian, M.D. MR Scanning Centers Management Company and since 1997 by HMCA, as "site inspector," in which capacity she is responsible for supervising and implementing standard procedures and policies for MRI scanning centers. From 1989 to 1994 Mrs. Chan was employed by St. Matthew's and St. Timothy's Neighborhood Center, Inc., as the director of volunteers in the "Meals on Wheels" program, a program which cares for the elderly. In approximately 1983, Mrs. Chan formed the Claudette Penot Collection, a retail mail-order business specializing in women's apparel and gifts, of which she was the President until she stopped operating the business in approximately 1989. Mrs. Chan practiced and taught in the field of nursing until 1973, when her son was born. She received a bachelor of science degree in nursing from Cornell University in 1960. Mrs. Chan is the sister of Raymond V. Damadian.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Robert J. Janoff has been a Director of Fonar since February 1989. Mr. Janoff has been a self-employed New York State licensed private investigator for more than thirty-five years and was a Senior Adjustor in Empire Insurance Group for more than 15 years until retiring from that position on July 1, 1997. Mr. Janoff also served, from June 1985 to June 1991, as President of Action Data Management Strategies, Ltd., a supplier of computer programs for use by insurance companies. Mr. Janoff was a member of the Board of Directors of Harmony Heights of Oyster Bay, New York for over 25 years, which is a nonprofit residential school for girls with learning disabilities.

Charles N. O'Data has been a Director of Fonar since February 1998. From 1968 to 1997, Mr. O'Data was the Vice President for Development for Geneva College, a liberal arts college located in western Pennsylvania. In that capacity, he acted as the College's chief investment officer. His responsibilities included management of the College's endowment fund and fund raising. In July 1997, Mr. O'Data retired from Geneva College after 36 years of service to assume a position of National Sales Executive for SC Johnson Company's Professional Markets Group, a unit of SC Johnson Wax, and specialized in healthcare and education sales, a position he held until the spring of 1999. In his capacity with SC Johnson he was responsible for sales to the nation's three largest Group Purchasing Organizations which included some 4,000 hospitals. Mr. O'Data presently acts as an independent financial consultant to various entities. Mr. O'Data served on the board of the Medical Center, Beaver, Pennsylvania, now a part of Heritage Valley Health System, a 500 bed acute care facility, for 22 years, three as its Chair. Mr. O'Data also served on the board of the Hospital Council of Western Pennsylvania, a shared-services and group purchasing organization covering seven states. He founded The Beaver County Foundation, a Community Foundation, in 1992, and serves as its President. Mr. O'Data is listed as a finance associate in the Middle States Association, Commission on Higher Education. The commission is the formal accrediting body for higher education in the eastern region of the country. In this capacity he evaluates the financial aspects of educational organizations. Mr. O'Data is a graduate of Geneva College, where he received a B.S. degree in Economics in 1958.

Robert Djerejian has been a Director for Fonar since June 2002. Since 1996 he has served as a senior consultant for Haines, Lundberg & Waehler International (HLW International), an architectural, engineering, planning interior design firm, which among other hi-tech specialties designs hospitals and laboratories. Prior to that time he was the Senior Managing Partner of HLW International for a period of 22 years where he received numerous design awards including the National Honor Award from the Endowment for the Arts and The Design Excellence Award from the NY Society of the American Institute of Architects. During his management of the firm he brought the firm to international prominence with offices in London, Shanghai and Saudi Arabia. He currently consults to private clientele in design management in planning, design and construction services. Mr. Djerejian is an Emeritus member of the Board of Trustees of Pratt Institute since 1992, where he chaired the Nominations Committee and was the Vice Chairman of the Executive Committee. He served as a Board Member coordinating the joint venture of Corcoran College of Art & Design in Washington DC with Pratt Institute as one of the founding directors forming the Delaware College of Art and Design. He is a member of the American Institute of Architects and the NY Society of Architects. Mr. Djerejian is a graduate of Pratt Institute School of Architecture, where he received his B.A. in Architecture in 1955.

ITEM 11. EXECUTIVE COMPENSATION.

With the exception of the Chief Executive Officer, the compensation of the Company's executive officers is based on a combination of salary and bonuses based on performance. The Chief Executive Officer's compensation consists of a salary.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

The Chief Executive Officer's salary varies only slightly and is by his own decision relatively low. It is not expected to increase materially in the near future. At such time as we become consistently and sufficiently profitable or there is a reconsideration of our compensation policy, the compensation payable to the Chief Executive Officer may be reconsidered. As presently existing, the Chief Executive Officer's compensation package includes no understandings with respect to bonuses, options or other incentives; as such, it is not subject to our general policy later discussed.

The Board of Directors does not have a compensation Committee. Dr. Raymond V. Damadian, President, Chief Executive Officer and Chairman of the Board, controls over 50% of the voting power of our capital stock. Dr. Damadian is the only executive officer who is a member of the Board of Directors. Dr. Damadian participates in the determination of executive compensation for our officers.

The Board of Directors has established an audit committee. The members of the committee are Robert J. Janoff, Charles N. O'Data and Robert Djerejian.

Our compensation policy includes a combination of salary, commissions, bonuses, stock bonuses and stock options, designed to incentivize our employees. There is no universal plan applicable to all of our employees. The fixed and variable components of our employees' compensation tend to be individualized, based on a combination of the employees' performance, responsibilities and position, our assessment of how best to motivate a person in such a position and the needs and preferences of the particular employees, as negotiated between employees and their supervisors or management.

There is set forth in the following Summary Compensation Table the compensation provided by us during fiscal 2008 to our Chief Executive Officer, who also serves as our acting Principal Financial Officer. There is set forth in the following Outstanding Equity Awards Table and Director Compensation Table the required information.

The Company paid premiums for life insurance on its Chief Executive Officer. The insurance policies are owned by a life insurance trust. The cash surrender value of the life insurance policies in the approximate amount of \$1.2 million was contributed to capital during the first fiscal quarter of fiscal 2007 pursuant to a split dollar agreement.

Fonar's 1997 Nonstatutory Stock Option Plan, adopted on May 9, 1997 terminated on May 8, 2007. Of the options granted under this plan, 77,062 remain outstanding.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

Fonar's 2002 Incentive Stock Option Plan, adopted on July 1, 2002, is intended to qualify as an incentive stock option plan under Section 422A of the Internal Revenue Code of 1954, as amended. The 2002 Incentive Stock Option Plan permits the issuance of stock options covering an aggregate of 100,000 shares of Common Stock of Fonar. The options have an exercise price equal to the fair market value of the underlying stock on the date the option is granted, are nontransferable, are exercisable for a period not exceeding ten years and expire upon the voluntary termination of employment. The 2002 Stock Option Plan will terminate on June 30, 2012. As of June 30, 2009, options to purchase 50,943 shares of Common Stock of Fonar were available for future grant under the plan. Of the options granted under this plan 18,952 remain outstanding.

Fonar's 2005 Incentive Stock Option Plan, adopted on February 15, 2005, is intended to qualify as an incentive stock option plan under Section 422A of the Internal Revenue Code of 1954, as amended. The Plan permits the issuance of stock options covering an aggregate of 80,000 shares of common stock of Fonar. The options have an exercise price equal to the fair market value of the underlying stock on the date the option is granted, are non-transferable, are exercisable for a period not exceeding ten years, and expire upon the voluntary termination of employment. The Plan will terminate on February 14, 2015. As of June 30, 2009, 80,000 shares of common stock of Fonar were available for future grant under this plan.

Fonar adopted its 2007 Stock Bonus Plan, on August 7, 2007. This Plan permits Fonar to issue an aggregate of 100,000 shares of common stock of Fonar as bonus or compensation. As of June 30, 2009, 67,932 shares were available for issuance.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

Background.

Between 1990 and 1996, Raymond V. Damadian, M.D. MRI Scanning Centers Management Company, also referred to as "RVDC", a Delaware corporation of which Dr. Damadian was the sole stockholder, director and President, purchased and leased scanners from Fonar to establish a network of professional corporations operating MRI scanning centers, also referred to as the "Centers", in New York, Florida, Georgia and other locations. Dr. Raymond V. Damadian is the Chairman, President and principal stockholder of Fonar and was also the owner, director and President of each of these professional corporations. RVDC provided the necessary management and the scanners to the Centers, although in certain situations, a Center would acquire the scanner directly from Fonar.

ACQUISITION OF RVDC.

Effective June 30, 1997, Fonar's wholly-owned subsidiary, Health Management Corporation of America, also referred to as "HMCA", formerly known as U.S. Health Management Corporation, acquired RVDC by purchasing all of the issued and outstanding shares of RVDC from Dr. Damadian for 400 shares of the Common Stock of Fonar. The transactions can be rescinded by Dr. Damadian, however, in the event of a change of control in Fonar or the bankruptcy of Fonar. There is no time limit on the right to rescind. In connection with the transaction, Fonar granted RVDC a nonexclusive royalty free license to Fonar's patents and software. These licenses may be terminated by Fonar in the event of the bankruptcy of RVDC or a change in control of RVDC.

AGREEMENTS WITH HMCA.

Effective July 1, 1997, new management agreements were entered into by the Centers and HMCA. Since that time certain of the original Centers have been closed and new Centers opened. Each new Center also entered into a management agreement with HMCA.

Pursuant to the management agreements, HMCA is providing comprehensive management and administrative services and office facilities, including billing and collection of accounts, payroll and accounts payable processing, supplies and utilities to the Centers. Under the management agreements, HMCA provides service through Fonar for the scanners at the Centers. In total, 10 MRI Centers have management agreements with HMCA.

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

At the end of fiscal 2007, Dr. Damadian sold all of his stock in the MRI Centers located in New York State. The new owner is one of the radiologists who has been reading and interpreting scans performed at those facilities, Dr. Robert A. Diamond. In connection with the sale, HMCA entered into new management agreements with the MRI Centers under which HMCA performs essentially the same services for the MRI Centers as prior to the sale. The fees charged, however, are flat fees charged on a monthly basis.

Dr. Damadian remains the owner of three MRI Centers in Florida and one in Georgia. The fees payable to HMCA for its services to these MRI Centers are based on the number of procedures performed, ranging between \$300 and \$400 per procedure.

During the fiscal years ended June 30, 2009 and June 30, 2008 the net revenues received by HMCA from the MRI Centers owned by Dr. Damadian were approximately \$2.9 million and \$3.7 million respectively.

During April 2009, Fair Haven Services, Inc. loaned the Company \$258,000. The loan bears interest at a rate of 10% per annum and is payable in 36 installments with the final payment due April 30, 2012. Dr Damadian is the President and sole stockholder of Fair Haven Services, Inc.

In June 2009, Tallahassee Scanning Services, P.A. an entity owned by Dr Damadian, sold its Upright MRI scanning system to the Company for \$550,000 payable in 35 monthly installments beginning on October 18, 2009.

OTHER TRANSACTIONS

Robert Janoff, a director of the Company, was a limited partner in a partnership in which we had a 92% partnership interest. The partnership manages an MRI scanning center in Bensonhurst, Brooklyn, New York and was party to a service contract at an annual rate of \$110,000 on its scanner for the period of July 1, 2007 through June 30, 2008. We sold our interest in the partnership at the end of September, 2008.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Audit Fees

The aggregate fees billed by Marcum LLP for the audit of our annual consolidated financial statements for the fiscal year ended June 30, 2009 and the reviews of the financial statements included in our Forms 10-Q for the fiscal year ended June 30, 2009 were \$554,571. An audit of internal controls was not required this year.

The aggregate fees billed by Marcum LLP for the audit of our annual financial statements for the fiscal year ended June 30, 2008 and our internal controls, and the reviews of the financial information included in our Forms 10-Q for the fiscal year ended June 30, 2008 were \$676,576.

Audit Related Fees

No fees were billed by Marcum LLP for the fiscal years ended June 30, 2009 or June 30, 2008 for services related to the audit or review of our financial statements that are not included under the caption "Audit Fees".

No fees were billed by Marcum LLP for the fiscal years ended June 30, 2009 or June 30, 2008 for designing, operating, supervising or implementing any of our financial information systems or any hardware or software systems for our financial information.

Tax Fees

Edgar Filing: COGNIZANT TECHNOLOGY SOLUTIONS CORP - Form S-4/A

The aggregate fees billed by Marcum LLP for tax compliance, tax advice and tax planning in the fiscal year ended June 30, 2009 were \$206,335.

The aggregate fees billed by Marcum LLP for tax compliance, tax advice and tax planning in the fiscal year ended June 30, 2008 were \$163,918.

All Other Fees

The aggregate fees billed by Marcum LLP for all other services rendered by them during the fiscal years ended June 30, 2009 and June 30, 2008 were \$31,776 and \$29,035, respectively, which included services in connection with the registration of securities, employee benefit plan audits and reviews and procedures that we requested Marcum LLP to undertake to provide assurances on matters not required by laws or regulations.

Since January 1, 2003, the audit committee has adopted policies and procedures for pre-approving all non-audit work performed by the auditors. Specifically, the committee must pre-approve the use of the auditors for all such services. The audit committee has pre-approved all non-audit work since that time and in making its determination has considered whether the provision of such services was compatible with the independence of the auditors.

Our audit committee believes that the provision by Marcum LLP of services in addition to audit services in fiscal 2009 and 2008 were compatible with maintaining their independence.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K.

a) FINANCIAL STATEMENTS AND SCHEDULES

The following consolidated financial statements are included in Part II, Item 8.

Report of Independent Registered Public Accounting Firm

Consolidated Balance Sheets as at June 30, 2009 and 2008.

Consolidated Statements of Operations for the Two Years Ended June 30, 2009 and 2008.

Consolidated Statements of Stockholders' Equity for the Two Years Ended June 30, 2009 and 2008.

Consolidated Statements of Cash Flows for the Two Years Ended June 30, 2009 and 2008.

Notes to Consolidated Financial Statements.

Information required by schedules called for under Regulation S-X is either not applicable or is included in the consolidated financial statements or notes to the financial statements.

b) REPORTS ON FORM 8-K

None.

c) EXHIBITS

3.1 Certificate of Incorporation, as amended, of the Registrant

PERFORMANCE GRAPH

The following graph compares the annual change in the Company's cumulative total shareholder return on its Common Stock during a period commencing on June 30, 2004 and ending on June 29, 2009 (as measured by dividing (i) the sum of (A) the cumulative amount of dividends for the measurement period, assuming dividend reinvestment and (B) the difference between the Company's share price at the end and the beginning of the measurement period; by (ii) the share price at the beginning of the measurement period) with the cumulative total return of each of: (a) the CRSP Total Return Index for Nasdaq U.S. companies ("Nasdaq- US"); (b) the CRSP Total Return Index for Nasdaq Medical Devices, Instruments and Supplies, Manufacturers ("Nas-Med."); and (c) the CRSP Total Return Index for Nasdaq Health Services Stocks ("Nas-Hea.") during such period, assuming a \$100 investment on June 30, 2004. The stock price performance on the graph below is not necessarily indicative of future price performance.
