ABOUT GOLD BULLION

A transcendent store of value, gold is accepted the world over and may be an effective wealth preservation tool. Most importantly, due to its low-to-negative correlations with traditional asset classes as well as with major economic variables, gold is a proven asset diversifier. When used in the construction of diversified portfolios, gold potentially helps reduce overall risk and may ultimately help protect investor wealth.

This document/materials includes forward-looking statements which generally relate to future events or future performance. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expect, plan, anticipate, believe, estimate, predict, potential or the negative of these terms or other comparative terminology. All statements (other than statements of historical fact) included in this document that address activities, events or developments that will or may occur in the future, including such matters as changes in commodity prices and market conditions (for gold and the Shares), the Trust's operations, the Sponsor's plans and references to the Trust's future success and other similar matters are forward-looking statements. Investors are cautioned that these statements are only projections. Actual events or results may differ materially. These statements are based upon certain assumptions and analyses the Sponsor made based on its perception of historical trends, current conditions and

expected future developments, as well as other factors believed appropriate in the circumstances. Whether or not actual results and developments will conform to the Sponsor's expectations and predictions, however, is subject to a number of risks and uncertainties, including, but not limited to fluctuations in the price of gold; reductions in the amount of gold represented by each Share due to the payment of Trust expenses and the impact of the termination of the fee reduction under the Trust Indenture; purchasing activity in the gold market associated with the purchase of Baskets from the Trust; the lack of experience of the Sponsor and its management in operating an investment vehicle such as the Trust; unanticipated operational or trading problems; the lack of protections associated with ownership of shares in an investment company registered under the Investment Company Act of 1940 or the protections afforded by the Commodity Exchange Act of 1936; the lack of a market for the Shares; competition from other methods of investing in gold; the impact of large-scale distress sales of gold in times of crisis; the impact of substantial sales of gold by the official sector; the effect of a widening of interest rate differentials between the cost of money and the cost of gold; the loss, damage, theft or restrictions on access to the Trust's gold; the lack of adequate sources of recovery if the Trust's gold is lost, damaged, stolen or destroyed, including a lack of insurance; the failure of gold bullion allocated to the Trust to meet the London Good Delivery Standards; the failure of subcustodians to exercise due care in the safekeeping of the Trust's gold; the limited ability of the Trustee and the Custodian to take legal action against sub-custodians; the insolvency of the Custodian; the Trust's obligation to reimburse the underwriting of the Trust's IPO and the Marketing Agent for certain liabilities in the event the Sponsor fails to indemnify them; competing claims over ownership of intellectual property rights related to the Trust; and other factors identified in the Risk Factors section of the Prospectus filed with the SEC and in other filings made by the Trust from time to time with the SEC. Consequently, all the forward-looking statements made in this material are qualified by these cautionary statements, and there can be no assurance that the actual results or developments the Sponsor or Marketing Agent anticipates will be realized or, even if substantially realized, that they will result in the expected consequences to, or have the expected effects on, the Trust's operations or the value of the Shares. Neither the Sponsor, Marketing Agent nor any other person assumes responsibility for the accuracy or completeness of the forward-looking statements. Neither the Trust, Marketing Agent nor the Sponsor is under a duty to update any of the forward-looking statements to conform such statements to actual results or to reflect a change in the Sponsor's or Marketing Agent's expectation or projections. The value of the Shares relates directly to the value of the gold held by the Trust (less Trust expenses) and fluctuations in the price of gold could materially adversely affect an investment in the Shares. Investors should be aware that there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold declines, the Sponsor expects the value of an investment in the Shares to similarly decline. Shareholders will not have the protections associated with ownership of shares in an investment company registered under the Investment Company Act of 1940 or the protections afforded by the Commodity Exchange Act of 1936. The Trust is not registered as an investment company under the Investment Company Act of 1940 and is not required to register under such act. Neither the Sponsor nor the Trustee is subject to regulation by the CFTC. Shareholders will not have the regulatory protections provided to investors in CEA-regulated instruments or commodity pools.
