On October 18, 2009, the Jackson County Floridan published an article titled Shareholders to vote on FPU merger, by Deborah Buckhalter. Beth Cooper, the Company's Senior Vice President and Chief Financial Officer, was quoted as follows:

When the two come together, FPU will become a subsidiary of Chesapeake FPU will be the name in Florida under which we will do business. We're moving forward with the hope and intent that we'll get the necessary votes.

We're very excited about it It will give our company a new utility component, and a larger utility platform. It will basically double us. FPU has about 100,000 customers in its electrical and other utility components; we currently have about the same number in our natural gas and propane utilities.

FPU shareholders will receive a 0.405 share of Chesapeake stock for each share of Florida Public Utilities common stock that they own Based on the average of Chesapeake's closing stock price the 15 trading days prior to April 15, 2009, the transaction has an approximate value of \$12.20 per Florida Public Utilities share. This translates to more than a 15 percent premium to Florida Public Utilities holders based upon Florida Public Utilities' closing stock price on the day prior to the announcement of the transaction. We believe that this merger is a win/win for both companies and their shareholders and represents a solid combination for growth.

On October 20, 2009, the Palm Beach Post published an article titled Florida Public Utilities merger vote on Thursday, by Susan Salisbury. Beth Cooper, the Company's Senior Vice President and Chief Financial Officer, was quoted as follows:

This is the first public company transaction we as a company have done We are predominantly a Delmarva (Delaware, Maryland, Virginia) based company. We have a small Florida presence. They bring the presence in Florida that really takes us to the next level.

[Things won't necessarily be done] the Chesapeake way
