***Financial Highlights***

**In the first nine months of 2009 the Telefónica Group posted a solid set of results, boosted by its high diversification and its execution skills in a changing environment. This, together with an efficient management of both operating expenses and CapEx, led to a ramp up in organic<sup>1</sup> growth rates from revenues to operating cash flow:**

The Company recorded a sharp rise in commercial activity in the third quarter of 2009 in its areas of operation. Of particular note were the 5.0 million wireless net adds, in line with the figure for the first half, driven by the marked improvement in Spain (2.5x the figure for the first half) and Latin America (1.2x the net adds for the first six months of the year).

Telefónica access base exceeded 268 million (+6.6% year-on-year), with a sharp rise in wireless (+8.9%), fixed broadband (+9.8%) and pay TV (+15.1%) accesses.

Revenues totalled 41,721 million euros (+0.1% in organic<sup>1</sup> terms) while OIBDA climbed 1.8% year-on-year in organic terms<sup>1</sup> to 16,647 million euros.

At the end of September the OIBDA margin stood at 39.9%, a 0.7 percentage point improvement in organic<sup>1</sup> terms.

Operating cash flow (OIBDA-CapEx) stood at 12,270 million euros, representing solid year-on-year growth of 10.1% in organic terms<sup>1</sup> thanks to the improved efficiency ratio<sup>2</sup>, which reached 73.9% (-2.2 percentage points year-on-year).

The Company reiterates its financial targets for 2009 and its commitment to propose a dividend payment of 1.15 euros per share against 2009 earnings (the first payment has already been made).

**Telefónica Latinoamérica remains the growth driver of the Group with revenues up 5.8% year-on-year in organic terms<sup>3</sup>, ramping up to 13.5% and 31.4% in terms of OIBDA and operating cash-flow growth respectively.**

**Telefónica Europe posted solid results, reflecting the benefits of a larger scale and efficiency improvements. Revenues were up 1.4% year-on-year in organic terms<sup>4</sup>, OIBDA advanced 4.6% and operating cash flow jumped 16.1%. Of particular note in the third quarter was the acceleration in year-on-year increase in revenues in organic terms<sup>4</sup>, excluding the impact of lower mobile termination rates.**

<sup>1</sup> Assuming constant exchange rates and including the consolidation of Telemig in January-March 2008. OIBDA and OI figures do not include the impact of capital gains registered in the second quarter of 2008 from the sale of Airwave and

Sogecable.

- 2 Defined as last twelve months  
(OpEx+CapEx-Internal expenses capitalized in fixed assets)/Revenues. CapEx excludes the acquisition of spectrum and Efficiency Program at T. España.
- 3 Assuming constant exchange rates and including consolidation of Telemig in January-March 2008.
- 4 Assuming constant exchange rates and excluding the impact of capital gains registered in the second quarter of 2008 from the sale of Airwave.

Financial Highlights

**The businesses in Spain recorded a sharp increase in commercial activity in the third quarter of 2009, with significant improvements in all services (fixed telephony, fixed retail broadband, pay TV and wireless telephony), with a slight slowdown in the year-on-year decrease in revenues in the last three months.** Initiatives taken to contain both operating expenses and CapEx helped lift revenue pressure (-6.4% year-on-year on a comparable basis<sup>5</sup>) on operating cash flow (-3.3% in comparable terms<sup>5</sup>).

**Net income climbed 6.4% year-on-year to 5,610 million euros in the first nine months (basic earnings per share up 9.0%), excluding the impact derived from capital gains registered in 2008 from the sale of Airwave and Sogetel.**

**Reported revenues fell by 3.3% in January-September 2009, OIBDA was down 2.2% and OI slipped 2.0% while net income rose 0.3%, basically due to foreign exchange rate fluctuations. OIBDA, OI and net income were also affected by the impact derived from capital gains booked in 2008.**

**The ratio of net debt + commitments to OIBDA stood at 2.0x at the end of September, reflecting the Company's financial strength.**

<sup>5</sup> Comparable basis, excluding: Universal Service: 183 million euros in revenue and 51 million euros in OIBDA in the third quarter of 2008 and 75 million euros in revenues and 22 million euros in OIBDA in the first quarter of 2009; sale of bad debt portfolios: 25 million euros in OIBDA in the first quarter of 2008; real estate capital gains: 0.5 million euros in OIBDA January-September 2009 and 73 million euros in OIBDA in the same period in 2008; revision of the estimates for the adjustment to workforce adaptation plans provided for in prior periods, which resulted in lower expenses of 90 million euros in the

second quarter of 2009  
and sale of applications  
rights: 48 million euros  
in revenue and OIBDA  
in the third quarter of  
2009.
