UNAUDITED PRO FORMA FINANCIAL INFORMATION RELATING TO ANGLOGOLD ASHANTI LIMITED (ANGLOGOLD ASHANTI)

The unaudited pro forma financial data presents AngloGold Ashanti's unaudited pro forma consolidated income statement for the year ended December 31, 2009. The pro forma consolidated income statement gives effect to AngloGold Ashanti's disposition of its 33.33% joint venture interest in the Boddington project and receipt of proceeds thereon (the Boddington Disposition) as if the Boddington Disposition had occurred at January 1, 2009.

The unaudited pro forma financial data appearing herein is for information purposes only. It is hypothetical and does not purport to represent what AngloGold Ashanti's results of operations would have been had the Boddington Disposition in fact occurred at January, 1 2009 or to project AngloGold Ashanti's results of operations for the present year or for any future period. The pro forma consolidated income statement is based on the assumptions set forth in the notes thereto and should be read in conjunction with AngloGold Ashanti's related financial statements and the notes thereto.

Pro Forma Adjustments

1 Interest expense

Consequential reduction in interest expense from repayment of short-term debt calculated using a 1.59 percent annual interest rate.

2 Income per share

Basic earnings per share is computed by dividing net profits by the weighted average number of shares in issue using the two class method of computation.

3 Diluted income per share

The diluted income per share is calculated by dividing net profits by the weighted average diluted number of shares in issue using the two class method of computation. The effect of the diluted income per share for the year ended December 31, 2009 is anti-dilutive and therefore the diluted earnings per share are the same as the basic earnings per share.

4 Weighted average diluted number of shares

The calculation of diluted earnings per share at December 31, 2009 did not take into account the effect of 1,234,858 shares issuable on share awards and the effect of 15,384,615 shares issuable upon the exercise of convertible bonds as their effects are anti-dilutive.

5 Profit on the Boddington Disposition

The profit on the Boddington Disposition was calculated as follows:

	<i>US\$ Millions</i>
<i>Total proceeds from the Boddington Disposition</i>	<i>1,130</i>
<i>Total net assets related to the Boddington Disposition</i>	<i>(1,074)</i>
<i>Profit on the Boddington Disposition</i>	<i>56</i>

The total proceeds of US\$1,130 million have all been realized in cash as at December 31, 2009.

The profit on the Boddington Disposition of \$56m (before a tax charge of \$16m), is included in the Loss on sale of assets, realization of loans, indirect taxes and other line.
