REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

RPM International Inc. Audit Committee
RPM International Inc. Union 401(k) Trust and Plan
Medina, Ohio

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the RPM International Inc. Union 401(k) Trust and Plan as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and supplemental schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note A, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. In our opinion, the financial statements and supplemental schedule referred to above present fairly, in all material respects, the net assets available for benefits of the RPM International Inc. Union 401(k) Trust and Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, on the basis of accounting described in Note A.

**RPM INTERNATIONAL INC. UNION 401(k) TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE A Significant accounting policies

Basis of accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting. Contributions are recorded on the accrual basis, dividends are recorded on the ex-dividend date, and other revenues are recognized when received rather than when earned. Certain expenses and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received.

Dividends are recorded on the ex-dividend date.

In accordance with Generally Accepted Accounting Principles (GAAP) and the modified cash basis of accounting, the Plan has adopted Financial Accounting Standards Board (FASB) provisions for the Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans. FASB guidance requires that investment contracts held by a defined-contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP and the modified cash basis of accounting, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment in the common/collective trusts as well as the adjustment for the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participant accounts

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Contributions

Contributions are recorded on an accrual basis.

Payment of benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS**

NOTE A Significant accounting policies, continued

Use of estimates

The preparation of financial statements, in conformity with the modified cash basis of accounting, requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total net assets are unchanged due to these reclassifications.

Recent accounting pronouncements

In September, 2010, the FASB issued guidance to amend generally accepted accounting principles (GAAP) and the modified cash basis of accounting related to the classification and measurement of loans to participants by defined contribution pension benefit plans. Previous guidance required loans to participants to be classified as plan investments, which are generally measured at fair value in accordance with GAAP. The new guidance requires that loans to participants are classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The new guidance is effective for periods ending after December 15, 2010 and must be applied retrospectively.

NOTE B Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, adopted on February 1, 1997, is a defined contribution savings plan covering certain union employees at several wholly-owned domestic subsidiaries of RPM International Inc. (the Company). The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

NOTES TO FINANCIAL STATEMENTS**

NOTE B Description of the Plan, continued

Contributions

Participants may contribute up to 50% of pretax annual compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of investment funds as investment options for participants. The Company matches, depending upon the collective bargaining agreement of each participating union, up to a maximum rate of 100% of the first 3% and 50% of the next 2% of employee deferrals. The matching Company contribution is invested in the same manner in which the participants invest their own contributions. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting is immediate for contributions, both for employee and employer, and earnings thereon.

Participant loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant generally will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan expenses

During 2010, certain administrative expenses and fees incurred in connection with the sale, purchase, and management of the assets of the investment funds were paid by the Plan.

Merger of Plan

Effective October 1, 2010, as a result of a condition of a new Collective Bargaining Agreement, the Testor Corporation 401(k) Plan for Collective Bargaining Unit Employees was merged into this Plan.

NOTE C Fair value measurements

The Accounting Standards Codification (ASC) 820 defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobserved inputs (Level 3 measurement). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual term), the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the plan at year-end.

RPM Stock Fund: Valued at net asset value of units held by the Plan at year-end.

Common/collective trusts: Valued at net asset value of units held by the Plan at year-end after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund.

Table of Contents**RPM INTERNATIONAL INC. UNION 401(k) TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS****NOTE C Fair value measurements, continued**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE F Income tax status

The Plan obtained its latest determination letter on October 14, 2010, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America and modified cash basis of accounting require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE G Related party transactions

The Diversified Stable Value Fund and Enhanced Stock Market Fund are common trust funds managed by Wachovia Bank N.A. Wachovia Bank N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee amounted to \$817 for the year ended December 31, 2010.

In addition, at December 31, 2010, the Plan held shares of RPM International, Inc. Union Stock valued at \$175,389. At December 31, 2009, the Plan held shares of RPM International, Inc. Union Stock valued at \$168,141. Transactions involving this investment are allowable party-in-interest transactions under ERISA.

NOTE H Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
