- (c) The accountant's statement or other exhibit required by Rule 12b-25(c) has been attached if applicable.

## **PART III NARRATIVE**

The reason for the delay is related to the Company's ongoing project to verify its cemetery preneed backlog records. The Company commenced a project in 2004 to physically examine approximately 3.6 million individual cemetery contract items to determine whether merchandise and services previously sold had been delivered. When the Company filed its 2004 Form 10-K, approximately forty-six percent of the cemetery contract items had been reviewed.

The Company completed its verification project of the remaining fifty-four percent of the cemetery contract items in early May 2005. As a result, the Company is delaying its filing of its Form 10-Q in order to complete the review of the final results of the project, to record the financial impacts, if any, and to finalize its quarterly report on Form 10-Q for the period ended March 31, 2005.

Effective January 1, 2005, the Company changed its method of accounting for direct selling costs related to the acquisition of preneed funeral and preneed cemetery contracts. Prior to this change, the Company deferred such direct selling costs. Under the new method of accounting, the Company expenses these direct selling costs as incurred. As of January 1, 2005, the Company recorded a cumulative effect of \$187.5 million net of tax of \$117.4 million (pre tax amount of \$304.9 million). This amount represents the cumulative balance of deferred selling costs recorded on the Company's consolidated balance sheet in Deferred charges and other assets as of December 31, 2004.
